DEPARTMENTAL CHANGES.

Ontario Cabinet Reconstructs the Business of Portfolios.

Toronto, Nov. 23.—The Ontario Cabinet at its meeting yesterday afternoon readjusted the different branches. The changes are as follows:

The Treasury Department is relieved of the asylums, license branches and Division Courts.

The Crown Lands Department is relieved of colonization roads, game and insurance department, and has added to it the Department of Immigration, which will in future be known as colonization.

The Department of Public Works will have added to it the Division Courts' branch, while fish and game will be united, and will also be under Mr. Latchford's supervision.

The Attorney General's Department will be relieved of the Fisheries' branch and to it will be added the Insurance branch and the Department of Neglected Children.

The Provincial Secretary's Department will be relieved of the Department of Neglected Children, and to it will be added the Asylums and Licenses.

The Department of Agriculture will be relieved of Immigration.

No change is made in the Education Department.

DERVISHES CUT TO PIECES.

Col. Wingate Defeats Ahmed Fedil and Kills 400 Arabs.

Cairo, Nov. 23.—General Wingate, with an Egyptian force, moved from Faikokhi yesterday to attack the force of Ahmed Fedil, reported to be at Nefisaa (Drefisaa) 23 miles from the River Nile, on the road to Genial (Gimeh). The Sidar, General Kotchener, has telegraphed to Lord Cromer, the British Minister, as follows—

Omdurman, Nov. 23.—Wingate found Nefisaa evacuated, pushed through to Abrroadil, four miles further, and found Fedil's forces encamped. They were forthwith engaged by the mounted troops under Mahon, with four Maxims and two guns and the Jehadieh under Gorringe. The Dervishes charged with all their old dash, to within 30 yards of the guns. Wingate with the infantry arrived in time to suppport Mahon and cleaned the whole camp. The Dervishes bolted through the bush, pursued by the mounted troops. Wingate estimates Fedil's force at 2,500 men, of whom 400 were killed."

Ahmed Fedil is the lieutenant of the Khalifa. Colonel Wingate is the well-known British officer whose book on the Soudan is an authority of great value.

"Wingate captured many prisoners, grain, rifles and spears. The Egyptian casualties were three wounded.

His Grace Retires.

Kingston, Ont., Nov. 23.—Archbishop Lewis has given notice of his retirement as bishop of the Diocese of Ontario to take effect in May 1900. This is owing to old age and infirmities. He has been bishop for 38 years. The diocese will give him a retiring allowance of $2,000.

Saw the Germans.

Windsor, Eng., Nov. 22.—Mr Chamberlain arrived at the Castle on a flying visit during the day, which in view of his recent visit to the residence of the Premier, is causing much speculation. Mr Chamberlain interviewed Count Von Hatzfeldt-Wildenburg, the German Ambassador, and Count Von Buelow the German Minister of Foreign Affairs. Emperor William, on his return from shooting, summoned Count Von Hatzfeldt to a long audience. Mr Chamberlain returned to London without seeing the Queen, who was out driving.

Farm Lands Under Water.

Denison, Texas, Nov. 23.—This section is in the early stages of a flood that threatens to be the most disastrous known in many years. Thousands of acres of valuable farming lands are under water. Families are fleeing for their lives from the bottom lands. Last night the situation was decidedly serious, as it was thought that many houses would be swept away.

ANOTHER ARMY CORPS IS NOW IN PREPARATION

The Situation in Natal May be Forced to an Issue Within Forty-Eight Hours.

AN ARTILLERY FIGHT BETWEEN BRITISH AND BOERS.

Boers are Now Within Forty Miles of Pietermaritzburg and They Will Probably Attack the Town. Gen. Gateacre Decides Upon an Advance Northward.

LONDON, Nov. 22.—The situation in Natal this afternoon is somewhat enshrouded in midst, though it is certain that behind the haze are developing important movements upon which the success of the British campaign depends. The Boers do not apparently, realize that for the immense damage they are doing among the fertile valleys of Natal Great Britain, in her hour of victory will demand a vast indemnity. General Joubert's efforts to hold General White in check at Ladysmith and at the same time oppose the advance of General Clery's relief column rom Pietermaritzburg will be watched with deep interest. It is the most dangerous movement that the Boers have yet made, and unless guided with consummate skill, may result in disagreeable surprises and heavy losses on their part. Some military critics have fund fault with General White for not retiring behind the Tugela and drawing the Boers into the arms of a relieving force. The present situatin is a far more favorable one,, from the British point of view, for the Boers have thrown themselves into the arms of the British army in lower Natal, leaving White in their rear, and if they are not cut to pieces it will be because General Hilyard and General Clery have lost their strategical grasp. These generals must now have a force numbering nearly 15,000 men, against which the Boers cannot safely oppose an equal number,, so extended is their line. The British generals have wisely placed strong bodies of men at Estcourt, where a bridge crosses the Bushmen's River,, and at Weston,, where a bridge crosses the Mooi River,, which are evidently the main objective of the Boer advance to the south. There is no other bridge between Weston and Pietermaritzburg. If the report that the Boers have reached Fort Nottingham forty miles from Pietermaritzburg,, is reliable,, it is an indication that they are trying to isolate the force at Weston in the same way as they have isolated those at Ladysmith and Estcourt. The motto of General Joubert evidently is; The more of the railway line we hold the greater the task of relieving Ladysmith. The country around Estcourt is splendidly adapted for defensive tactics, and will undoubtedly be the scene of the struggle which will take place when General Clery advances.

The artillery duel at Mooi River camp, reported this morning, was clearly brought on by the Boers in order to draw the British fire and ascertain the strength of the guns and the positions they hold. The statement in the despatch that the British ordnance is posted on three strong positions among the hills fronting Estcourt and commanding the bridge is evidence that good work has been silently done during the past few days in fortifying the hills. It is clear, also, that the British are in possession of the hills which command the route followed by the railway and the road through the Mooi hills from Pietermaritzburg to Estcourt.

The war in South Africa is awakening the nation to the vast difference between fighting native races and white men. Since the days of the Crimea, England has not been at war with civilized people,, except with the Boers themselves in 1881. In manyparts of the world she has conquered colored people,, pitting a handful of men against overwhelming numbers and at comparatively light cost. Though constant fighting on the frontiers of the empire has given English soldiers more experience of actual warfare than that possessed by any continental army, the nation has not fforgotten that war with a civilized power is a much more serious and protracted affair and cannot be waged without vicissitudes. But affairs in Natal are reminding the British that their soldiers are fighting Dutchmen—descendants of the sailors who proved their worth in many a bitter fight in the German Ocean—and who are fighting with an ingenuity entirely lacking among native peoples and a stubborness quite characteristic of their forefathers.

THE CRISIS APPROACHING.

London,, Nov. 22.—If Commandant Joubert were in possession of all the war news contained in to-day's London journals he would not have a single helpful clew. He would be forced to pick and choose from a dozen differnet estimates of the strength of the British force in lower Natal and on the southern and western frontiers of the Orange Free State,, with the certainty that every one was below the mark. He would not find any clue to the distribution or composition of General Clery's troops between Estcourt and Durban, nor a single glimpse of what is going on within General White's lines in Ladysmith. He would also have reason to question his own sanity were he to attempt to reconcile the conflicting theories advanced by military writer respecting his strategy and immediate objects,

Rumors and Contradictions.

These contradictions,,, rumors and varied points of view are equally unintelligible to British readers. They know that Major-General Hildyard is at Estcourt with naval guns, Provincial Horse and a portion of the second brigade and they suspect that Major-General Barton is at Mooi River with a portion of the 6th Brigade,, while the remainder of General Clery's army lis scattered at various points lower down with some reinforcements still at sea and three batteries of field artillery and possibly several companies of mounted infantry somewhere on shore. Otherwise they are completely in the dark respecting the situation in Natal,, and know as little of the manoeuvres of their own army as of the mysterious tactics of Joubert's forces,, which, in unknown force, either for looting or serious warfare,, have flung themselves between Estcourt and Pietermaritzburg, and cut off communication with the sea.

Bewilderment Caused.

This situation causes bewilderment, but no alarm. Confidence is inspired by the superiority of numbers, which the British army now has in lower Natal and on the borders of the Free State and by the assurance that Ladysmith is doubly safe when a portion of Joubert's force has been withdrawn for a series of Southern raids and for the hazardous operation of blocking General Clery's advance Military men in close touch with the War Office assert that no misgivings are entertained there, and that no news is withheld from the public. They add that General Buller has sent to lower Natal General Clery and Major-General Hilyard, the two best strategists of the British army and that they must understand the situation fully if nobody in London doe.

The Boers are now within forty miles of Pietermaritzburg and are reprted to be raiding in all directions. Gen. Clery is expected to move out and attack the invaders to prevent any further advance, and news of an important engagment is consequently hourly expected. The Boers shelled Mooi River camp from the north yesterday but no serious damage was done.

A Skirmish.

Some of the pickets, however, were in collision with the burghers on Monday night, and an official telegram, issued at midnight, gives the names of the killed and wounded. It is unofficially reported in addition that a patrol of the irregulars is missing.

Boer, Romances.

A Boer account says General White made a sortie from Ladysmith on Monday, but was repulsed. Nothing is known of General Methuen's column beyond an official statement that it has crossed Orange River and is now marching on Kimberley. British troops are being concentrated in considerable forrces at Naauwpoort, an important strategic point on the Cape Government railway to De Aar.

Surrounded at Colesburg.

A message from Cape Town late last night declares that Major-Gen. French and General Gatacre have combined and hemmed in the Boers at Colesburg.

THE TIMES EXPERT SPEAKS.

London, Nov. 23.—The military expert of the Times, in an editorial leader this morning says; The morning news from South Africa is inconclusive, and in some respects a little difficult to understand. We are led to believe, for example that there is a considerable British force at Estcourt and we are told to-day that the British forces at Mooi River, fifteen miles south, are large. Yet the line between Estcourt and Mooi River appears to be in possession of the Boers, so that communication with Estcourt is evidently interrupted, we hope presently to be restored. But it seems odd that a considerable Boer force should be allowed to place itself with impunity right upon the line of communication between two important sections of the British forces. That the Boer force is considerable is inferred with some confidence from the statement that they posted guns upon the hills and shelled Mooi River camp from the north for a moment. Therefore we have a reproduction of the Ladysmith Glencoe and Dundee situation. That is to say, three bodies of British troops having no effective communication with each other are faced, if not surrounded by Boer commandos. This is a state of affairs out of which an issue must shortly be forced, unless the old difficulties about transport hampering our Generals should arrive.

BRITISH AT MOOI RIVER.

Pietermaritzburg, Nov. 22. — The Boers are evidently in force south of Estcourt and are occupied in raiding The British force at Mooi river is large The Boers have mounted guns on the hills. It is hoped that communication between Estcourt will soon be reopened. Highlands is in possession of the enemy.

MAY ATTACK PIETERMARITZBRG

London, Nov. 23.—The Daily News has the following from Pietermaritzburg under date of Wednesday;

Your correspondent managed to escape from the Mooi river district yesterday before the arrival of 5,000 Boers who are looting the farmsteads in all directions. The Natal Boers encouraged by the successes of the Transvaalers, join in the looting.

The main body of the Boers made a rapid march from Nuldi, southwest of Estcourt to a point near Fort Nottingham, south of the railway, in a single day. They are within forty miles of Pietermaritzburg at the latest, and it is thought that they intend to attack the town.

Durban, Nov. 22.—The Boers opened fire with artillery on Mooi River Camp from the north, but without casualties to the British

Mooi River, Natal, Nov. 22. — The British fired several shots, which are believed to have caused havoc among the Boers, the latter taking advantage of the heavy rain and retiring. The Boer shells are apparently aimed at the bridge. It was a surprise attack, but had been fully guarded against. The British had three wounded.

A BOER OFFICIAL DESPATCH.

Pretoria, Nov. 22.—The following despatch has been received from the Boer headquarters near Ladysmith;

The field cornets of the Pretoria commando reported that British gun carriages and some horsemen had been heard moving last night in Ladysmith. Our outposts observed the British endeavoring to sortie toward Lombard's Kop and Bulwana Hill, where the Maxims opened fire. The range was too great, and therefore our artillery began shelling which drove the British back. About daybreak the British fired upon our positions. Two Burghers were wounded.

It is supposed that the object of the sorties was to relieve the Estcourt force, who had sent an urgent message to Ladysmith requesting aid. The burghers captured the messenger, but finally allowed him to proceed.

It is reported that the Natal police have captured a number of Transvaal despatch riders.

In his latest report General Joubert says; "I am cutting off the retreat of the Estcourt troops to Pietermaritzburg and driving them back on the Tugela River."

It is also reported that the Boer commander with the forces near Ladysmith has comprehensively surveyed the differnet points from which the fall of Ladysmith can be insured.

ANOTHER BRITISH DIVISON.

London, Nov. 23.—The Daily Mail says this morning; "We are able to confirm the report that orders have been issued to mobilize a sixth division at Aldershot for service in South Africa, or whenever it may be wanted."

London, Nov. 23.—The Moring Post's correspondent at Pietermaritzburg telegraphing Tuesday evening says; The Boers are all around Mooi River Station, where another of your correspondents is reported to be with the troops."

AN ARTILLERY DUEL.

Mooi River, Natal, Nov. 22.—10 a.m.—The Boer guns began to shell the camp at 5 a. m. The British artillery is in position on high ground to the east, west and north of the station. The artillery duel was continued until eight, when it ceased for an hour. The Boers recommenced at eight and dropped three shells into the camp. They are still firing at intervals, with no damage, although their aim is good. A patrol of Thorneycroft's horse has returned from the direction of Rosetta and reports all quiet there. The Mooi River station commands the bridge over the Mooi River at Weston, which is evidently the desire of the Boers to hold or destroy.

TROOPS READY TO ACT.

Cape Town, Nov. 22.—Evening.—The constant arrival of transports and the entraining of troops for the mysterious north are the chief incidents among the military. Although the authorities exercise a strict watch over the transmission of news, it is permitted to say now that they are prepared to act against the Boer aggression uin the north. Although it is absurd to underrate the Free Staters, it is the opinion of many competent to judge that if a plebiscite were taken it would show a majority against war.

EXASPERATION IN ENGLAND.

London, Nov. 22.—The fact that fresh portions of Natal are being overrun daily by the Boers is producing exasperation in that colony and intense humiliation in Great Britain, where the idea of a possible extensive violation of British soil was so contemptuously dismissed in the early stages of the war. Operators on the stock exchange are becoming nervous, and the continued fall in consols exemplifies the restlessness of the market. The rumors that a peace deputation from President Kruger is on its way to Cape Town for the purpose of ascertaining the terms upon which an immediate cessation of hostilities could be secured are discredited here, and it is said that if such a deputation has been sent it will meet with scant courtesy, as those, who are conducting the war will be satisfied with nothing less than dictating terms of peace at Pretoria after a parade of British strength throughout the Transvaal.

Constant Surprises.

In the meanwhile from the scanty despatches which are dribbling in from the front it is difficult to form an opinion of the true situation. The Boer invaders are occasioning constant surprises. They have already cut off two portions of the Ladysmith relieving force from their base of supplies and with great rapidity are advancing upon Pietermaritzburg with howitzers and other artillery. Gen. Clery's situation, it would appear, must be becoming intolerable, as serious fighting may be expected at any time, as the general must clear his line of communication in order to complete the concentration of the relieving force.

On the Defensive.

According to the latest reports from Natal, the artillery duel was recommenced this morning at Mooi River. The statement that the British garrison there is only acting on the defensive appears to be an admission of weakness, and it is thought that the troops may be at the mercy of the strong Boer forces reported in that neighborhood.

A collision may also be expected on the western frontier within 48 hours, if it is true that General Methuen has started northward. He is certain to meet entrenched Boers both at Belmont and Modder river.

Mafeking Wants Water.

It is reported that Mafeking is suffering from lack of water and that fever is rife there.

Advices from Lorenzo Marques say Transvaal recruiting officers have been visiting arriving steamers and have succeeded in enlisting three passengers from the German steamer Kaiser.

A force of Portuguese police has gone to Gazaland, where the natives are acting in a threatening manner, the stores at Koomatipoort having been looted.

Two More Transports.

The British transports Pavonia and Cephalonia arrived at Durban to-day with about 3,000 troops, making the total arrivals of the first division 11,000 men. Another four thousand are expected within the next few days.

AWAIT FURTHER ORDERS.

New York, Nov. 23.—"You will await further orders before any vessel of your command visits any African port," is the latest admonition of Secretary Long to Admiral Schley. The Herald's Washington reporter is authority for the statement that the State Department does not desire to have any American men-of-war in South African waters at present, believing that the circumstance might be detrimental to American interests. South Africa is within the defined limits of the South Atlantic Station, and in the case of a flag officer in good standing with the department he is usually permitted to proceed to any point within the limits of his station that he desires.

The squadron will proceed to Buenos Ayres.

MOVEMENT THIS EVENNING.

Queenstown, Cape Colony, Nov. 22.—For strategical reasons and to reassure the British population, General Getacre has decided on a partial forward movement after the reinforcements arrive to-night.

Several further arrests have been made at Naauw Poort and in that neighborhood of influential Dutch suspected of disloyalty. Replying to deputations from Herschell regarding the intentions of the Free State forces, at Ladygrey, Commandant Oliver declared an incursion is anticipated and the natives are arming and preparing to resist.

Big Telegraphic Record

Chicago, Nov. 23.—By the use of a new automatic telegraph invention 122,000 words an hour were sent yesterday from the Tribune office to Milwaukee and back again. The apparatus was invented in Budapest, Hungary, and this was the first exhibition of its working powers in this country. Nearly as many words were sent to Buffalo and return by the experiment was not so successful. The instruments used were not adapted to such a long distance.

Montreal to Cuba

Montreal, Nov. 23.—A new route from Montreal to Cuba has been opened up by the Intercolonial Steamship Company of New York. Mr. E. F. Clements, the general manager, who is at present here, states that the company purpose connecting with the Grand Trunk railway system at their terminus at New London. The G.T.R. last May acquired the Central Vermount railway, and made a second Atlantic terminus for their line at New London, giving them a direct line south from Montreal to the ocean. The contract made between the colonial line and the Grand Trunk system calls for two steamships for the present, the service to be increased as the exigencies of the route demand.

Treacherous Soldiers

Lynn, Mass., Nov. 22.—Edward S. Chester, of this city, formerly a private in Co. M. 17th United States infantry, who has just returned from the Phillippines, where he was two months on the firing line, tells a revolting story of the treachery of some American soldiers, who for crimes of one sort or another have been dishonorably discharged from the army.

He said that many of the Filippino commands are officered by these Americans, the rebel commanders offering large inducements in the way of salary and position to any who will forsake the American army. He says these traitors are a reckless class, and in a great part to their energy is due the tenacity of the rebellion. He said these American soldiers led the Filippinos in several of the fiercest engagements, and play an important part in keeping alive the spirit of rebellion among the fragments of Aguinaldo's commands.

Was Not Poisoned

Hamilton, Nov. 23.—The sensation over the sudden death of William Cliff petered out at the adjourned inquest held last night, when a report from Prof. Ellis, the analyst, was read, stating that he had been unable to find any trace of poison. It was supposed that Cliff [illegible] poisoned by some canned [illegible] he ate [illegible] days before he died. The jury returned a verdict that "William Cliff came to his death from cause or causes unknown."

No Telegraph Manager

Montreal, November 23.—Since the announcement of Mr. C. R. Hosmer's resignation as manager of the C. P. R. telegraph system there has been much speculation as to his successor. It is now announced that no manager will be appointed to Mr. Hosmer, but that the system will be divided into districts under superintend[illegible] Mr. Hosmer, as a director of the company, will have general supervision of the company's telegraph interests.

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

GEN. BULLER'S PLANS.

From the fact that General Buller himself remains in Cape Colony, it would appear that he is not disturbed at the situation in Natal. He evidently considers that General White's army at Ladysmith is quite safe for a prolonged contest, and while Buller is careful enough to send sufficient troops to Durban to relieve White if necessary he is not departing from his own original plans, whatever they may be.

The South African correspondent of a New York paper goes so far as to say that Buller is deliberately instructing the British commanders in Natal not to worry the Boers too much around Ladysmith—that the Boers can not do any serious harm there, and it is desirable their attention should remain concentrated in Natal while Buller is completing his preparations for invasion of the Orange Free State from the south and west. This idea the correspondent alleges is based on admissions made by a British officer of high rank.

Serenity so complete on Buller's part seems a little too much to believe in, but it does appear as though the British commander-in-chief still intends to carry out his original plan of marching into the enemy's territory by routes of his own selection through easy country instead of attempting to persuade or force him to a dangerous battle in the wilds and hills of Northern Natal.

NOTES AND COMMENTS

Those who assail the memory of Gladstone in connection with South African affairs should be fair enough to admit that if President Kruger has carried out the agreement which he made with the great tribune, there would have been no war. The official documents show that the Boer leader gave a solemn pledge that the republic would grant equal rights to every section of the people—English-speaking, and other Uitlanders, as well as Boers. He flagrantly and persistently failed to fulfill that pledge.

* * *

The Royal Canadians should reach Cape Town about Saturday next.

* * *

Evidently the Cape censor is making big holes in the reports of South African news but nothing is leaking out.

* * *

Those who were not satisfied with the meteor display on Wednesday evening are invited to call at the box office and get their money back.

* * *

More than one hundred graduated of the Royal Military College, Kingston, are now serving in the imperial army. These officers have been educated at Canada's expense. Canada may not be doing all she should do for the defence of the empire, but she is doing something.

* * *

At this season of the year every man can count a number of aldermen among his friends.

* * *

The story of the locomotive sounds simple in the recital. The wonder of the thing comes into view when one reflects on the speed and nicety with which cumbrous parts are made to do their duty. The piston and connecting bar of a modern locomotive weighs [illegible] pounds. When the speed is 60 miles an hour these parts travel back and forth five times a second.

* * *

A London paper says that a schoolmaster was recently giving a class of lads between 9 and 12 years old a parsing lesson, and after meditating for a moment to think of a suitable sentence wrote on the blackboard the words—"The brave Boers shelled the British camp." To his amazement the class first broke out with hisses and then with one accord sang "God Save the Queen." When the amazed pedagogue had sufficiently recovered from his surprise to restore order, he told the head boy to proceed with the parsing. "Please, sir, I can't parse that because the Boers haven't got any business on our ground," replied the patriotic urchin, and to suit the taste of his pupils the teacher was compelled to give them another sentence to construe.

* * *

Should Hon. John Dryden, the Minister of Agriculture, be beaten in South Ontario, there is some talk that Mr. Blezard may be promoted to the vacant portfolio. With East and West Peterborough in the cabinet, Toronto and the other villages would soon become mere suburbs of the metropolis.

* * *

Because the reports from Africa speak of nothing but the shelling of Ladysmith it must not be supposed that Ladysmith is a clam.

* * *

John Bull has got the Kaiser, the Khalifa and Kruger all on his hands at once. And, by the way, none of them is a jay, though they are all next to it.

* * *

Col. Aylmer, adjutant-general of the Canadian forces, who has just returned from Aldershot, says the opinion prevails among military men that 100,000 troops will be needed to conquer the South African republics; and a well-informed Britisher who has just arrived in New York from Natal says the war will last fifteen months.

A Dead Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10¼. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

LIFE ON A TRANSPORT.

The Experience of Lady Dufferin's Son in a Storm—An Interesting Letter.

Among the names of the members of noble houses of England who have gone to the Transvaal to fight the battles of the Queen it is interesting to notice that of Lord Frederick Blackwood, son of Lord and Lady Dufferin, who, by the way was born in Ottawa during Lord Dufferin's term as Governor-General, appears in the list. Yesterday a prominent Ottawan received from Lady Dufferin a copy of The Northern Whig, in which is published the following interesting letter from Lord Blackwood, giving an account of the terrible storm encountered by squadron C of the Ninth lancers, while in transport off the east coast of Africa.

S.S. Wharda, October 12, 1899.

My Dear Father,—I do not really know where to begin this letter, such exciting and horrible things have happened since I last wrote to you. We got to Durban all safe and as happy as larks, on the 9th of October, expecting to disembark and go up to the front immediately. To our disgust, however, we were told not to land, but to go off at once to the Cape. Accordingly, at five that night we started off again. Next morning the seemed fairly calm, and we were all laughing and joking at the way we were rolling about. You must understand that one troop of horses was in wooden stalls on the upper deck. This was my troop, consisting of 38 troop horses, together with my own chargers, and twelve mules. All the other troops and horses were down below between decks. Stables were at eleven p.m., when it had begun to get rather rough. However we still smiled but the rolling got worse and worse and my horses on the upper deck began to fall down, and we smiled no more. Every man was told to hang on to his horse, so as to keep his chest away from the front board when the animal was thrown forward by the roll.

Horses Washed Overboard.

At last the rolling became terrific and the seas enormous. All my troop were drenched over and over again. One man, a corporal, got washed off his feet, and was thrown four times with great violence up and down the deck. The extraordinary thing was he had not break anything. At last the wooden framework of the stabling began to crack, and I expected every minute to see the whole thing collapse and all my men killed. I then went to Lund (a captain in the Ninth lancers) and told him that I thought it was getting dangerous for my men to stay on any longer and he gave the order for No. 1 troop horses to be abandoned. Five minutes after that one entire side of the woodwork gave way. Two of my chargers and four others were immediately washed overboard. Now came the most horrible scene I have ever witnessed. The deck was covered with one mass of struggling horses and mules, mixed up with the broken woodwork of the stables, the whole thing being hurled first to one side of the deck and then the other—all horribly wounded; most with broken legs, and some with eyes torn out. My first charger, the one you gave me, and the nicest horse I am ever likely to have, was amongst them, but I managed from a hatchway to get a shot at her with my revolver, and so, I am glad to say, none of my three suffered the torments of hell like the others. To make a long story short, out of fifty horses and mules on my deck, only three were saved—two horses, whose stalls had remained intact, and one mule, which had a most miraculous escape, having been washed down the hatchway into the hold below, and being absolutely unhurt.

Things were hardly better between decks below. On one deck a huge water tank broke loose and went hurling about, killing two horses. On this account this deck was abandoned by the men. It was a horrible thing having to jump this way and that to avoid horses that kept hurling up and down, kicking and screaming. The arm rack gave way, and I was sent to try and collect the carbines. We had managed to stack most of them, when an enormous roll came, and down they went, rushing from one side to the other. Luckily we were all able to jump on tables, except one man, who fell among the wreckage, cutting his head open and laying him out. All the men down below remained with the horses till six p.m., when they were ordered up, and they all huddled in the passages and on the top of the engine room, shivering all night with cold. All my men had been long since drenched to the skin, and not a man got a bite of food, except what we could give them.

Behaved Admirably.

I wish you could have seen the way the men behaved. It was really magnificent. They never thought of letting go of their horses until they were absolutely ordered to, though they did not know when the wooden frames might give way. All this time, as the captain told us, the ship was not under control, and would not steer. He thought at the time it was because they had taken out a lot of her cargo at Durban and so lightened her, but the next morning, when the sea went down, and she still would not answer her helm, he had the rudder examined, and found it was broken and useless. It was not very pleasant when the dear old skipper came down and informed us that we were rudderless, and that if an easterly gale sprung up we would go ashore.

I did my best, but I could not eat much breakfast that morning. However, things turned out better than we expected, and we are now going five knots an hour with a jury rudder, and are getting into the track of ships again, when we hope to get towed in somewhere. We are nearing Durban again. Last night we saw a ship and sent up five rockets, but the brute took no notice. If we go ashore that ship will have a lot to answer for. Night is now coming on, and if we get through that we shall be all right. We are about six miles from land, and so the danger is lest the jury rudder break and we get washed ashore.

It is quite impossible to get moody about it, with all the men in such good spirits. The day of the 10th was not pleasant, as we had to hoist all the dead horses up and shove them overboard. A good many were still alive, but of the squadron of 150 horses we have lost 90 horses and 11 mules. Is it not appalling! When we have got over this a bit it will be time enough to think what they will do with us. Surely they will not send us back to Bombay. That would be too cruel. We hope to remain at Durban until the reserve of horses arrives, when we trust they will mount us and send us to the Cape to join the other two squadrons.

The captain, who has been over thirty years at sea, says he never saw such huge waves. I have an extract from his log which may interest you. I cannot write more. All I can say is that the 10th of October, 1899, will never be forgotten by the C squadron Ninth lancers, not if we live to be Methuselahs.

About Many Things.

The town of Lewis, England, has a woman grave digger, who has attended to all the work in the cemetery for twenty-five years.

The boring of a tunnel through the summit of Chilkoot Pass has been begun for a thirty-seven-mile electric road, to cost $750,000.

Great quantities of crabs and lobsters are annually canned in Russia, yet oysters are in little favor.

Russians never eat rabbits as they say they rest with rats, nor will they touch snails or turtles, which are found in great numbers all over the country.

In 1898 there were 23,900 books published in Germany, against 13,200 in France, 7,200 in Great Britain and 5,300 in the United States. Even Italy published 9,500

A mammoth tug is being built to crush ice on the "Soo" river. It will be 115 feet long, 20 feet wide, and plow through twelve inches of solid ice at six miles an hour.

Out of the $525,000,000 over which 150 women in England have exercised testamentary powers during the last eight years, $13,480,000 has been bequeathed to charity.

PERT PERSONALS.

Mayor Jones appears to be something of a Toledo blade.—Boston Herald.

Tom Reed's first jury will be strongly tempted to vote him down for the mere novelty of the thing.—Washington Post.

If General MacArthur is not already in the thrashing machine trust, he is certainly eligible to membership.—Chicago Inter Ocean.

It is plain from the lawsuits that he is bringing that Mr. Kipling has a due appreciation of the white man's boodle.—Pittsburg Times.

It was right and proper for Mary Anderson Navarro to come back to America on the Majestic. She is that kind of a woman.—Kansas City Star.

It is reported that Grover Cleveland has purchased a plover field. This will furnish amateur poets with another base of attack on Mr. Cleveland's first name.—Chicago Democrat.

Ingersoll has been sued for $125 for breaking a statue of Charles Dickens in a house that he rented furnished. The owner has only himself to blame, for Colonel Ingersoll is a notorious iconoclast.—Boston Traveler.

Russell Sage gave a little flower girl whom he accidentally jostled a $5 bill, and Hetty Green has leased a cottage at Newport. Is the millennium in the offing, or have those New York reporters been stringing us about these worthy people?—Cleveland Plain Dealer.

Minutes and Seconds.

At least 25 centuries B. C. the Babylonians used a sexagesimal system of notation, consisting of sari and sossi, of which we have vestiges when we reckon 60 minutes to the hour and 60 seconds to the minute, or 3,600 seconds—that is, a saros of sossi—to the hour. That we count 12 inches to the foot, 24 hours to the day, 360 degrees of longitude around the equator, 90 degrees of latitude from the equator to the poles and 60 miles to a degree may also be traced to the same sexagesimal Babylonian system of numeration, which originally reckoned 60 shekels to the mina and 60 minas to the talent. All these numbers are factors or multiples of the saros, or 60. Our measures of time, money, of linear and angular space, are all derived from the Greeks, who obtained them from the Babylonians probably through the Phoenicians.

CURTAIN RAISERS.

A new comedy called "Wheels Within Wheels" is expected to go the rounds.

Robert Drouet will play John Storm in "The Christian" with Miss Allen next season.

"Annie Rooney" is undergoing a revival in Paris to the temporary eclipsing of Dreyfus.

Richard Mansfield is reputed to have taken out a life insurance policy for $100,000 recently.

David Belasco has completed an original play which will be produced early in the season with a specially selected company.

An elaborate revival of Shakespeare's tragedy of "Macbeth" will be the feature of Frederick Warde's repertory next season.

It is unofficially announced that Rudyard Kipling is to write the fairy play to be produced at the London Lyceum next season.

Some German statistician has discovered that stage dancing is conducive to longevity. Taglioni lived to be 80 and Fanny Elisler to be 74.

Rose Coghlan has been re-engaged for her original role of "Mlle. Fifi" for next season, the piece to open its tour in August in Chicago.

Emma Calve's much talked of monument represents her as Ophelia, and the sculptor has promised to exhibit it at the Paris exposition.

Minnie Seligman will appear in the vaudeville houses in a one act play called "Therese," which has been done in Europe by Sarah Bernhardt.

In a play called "Wine, Women and Song," recently produced at the Princess theater, London, two demimondanes, armed with butchers' knives, fight to the death in a beautiful setting profusely decorated with flowers.

George Bernard Shaw submitted his new play, "Cæsar and Cleopatra," to Richard Mansfield, but as Shaw had required a 56-year-old baldheaded Cæsar to make love to a 16-year-old Cleopatra the manuscript was returned.

BEE BUZZES.

Beeswax is dark because of the impurities mixed with it.

All excess of drone comb should be removed from the hive.

Bees start to work earlier if the hives face the south or east.

It is essential during hot weather that the hives be well ventilated.

Avoid blowing your breath among the bees while handling the comb.

Dirt and filth accumulating on the bottom boards make a propagating place for the moths.

Bees reared in the spring and summer are shorter lived than those reared later in the season.

The swarming season usually begins about 10 or 20 days after white clover comes into bloom.

Bees will enter a cool hive much more readily than one which had been baked in the hot sun all day.

Honey properly kept will improve with age. The older it is the better it will be, but it must be kept dry.

All bees should be examined now and the hives thoroughly cleaned. No trash of any kind should be left on the bottom boards.—St. Louis Republic.

Where the Pot of Gold Is Buried.

How many women are fretting and struggling along on a very little money when a good sized yard or adjoining patch of ground is going to waste! Yet that very piece of ground may contain all sorts of possibilities—clothes, furniture, books, medicines, luxuries and even necessities otherwise impossible.

Clear, plow, fertilize and plant. This done, the great beginning is made, and perseverance and attention will secure the rest. Onions, tomatoes, cabbages, celery, a small poultry farm, a violet or rose farm—any one of these may add several hundred dollars to one's purse every year. Small fruits, hops, tuberoses and grapes are also very profitable. With some intelligence a blooming garden can always be made a paying one. Make it a principle to have no more waste in the garden than in the kitchen.

If there is only a very small place and just enough raised for one's own family, try, after the table is supplied, to prepare what vegetables and fruits are left over for sale for winter use. There is always a demand for good homemade canning and preserving. Do not let a valuable scrap of ground be idle.—Annetta Halliday-Antona in Woman's Home Companion

Trent Valley Canal

Ottawa, Nov. 22.—Canal construction, which was carried on to quite a considerable extent last winter in pursuance of the policy of having the new 14-foot system of navigation ready for the season of 1900, will be practically at a standstill this winter. Such work as remains to be done on the enlargements between Prescott and Montreal is of a class that cannot be done during the winter season. It consists mainly of finishing up the several contracts. Some work will be done before spring, however, upon the Trent Valley canal, several sections of which are under contract. Tenders are to be called for within the next few days for the construction of another

A MAMMOTH TRANSPORT

The Kildonan Castle Pours Out 3,000 Soldiers Upon the Shores of Africa.

GEN. BULLER HAS NOW SIXTY THOUSAND MEN.

Graphic Description of the Departure from England of the Minature Fortress Who Beats the Record of British Troopships in Carrying of Large Numbers.

London, Nov. 22.—The British transport Kildonan Castle, with 3,000 men, their kits, weapons, machine guns, ammunition, balloons, pontoon, wagons, etc., arrived at Cape Town this morning. About 35,000 of General Buller's army corps have now arrived, raising the force at his disposal to about 60,000 men. The transport Nubia with the first battalion of the Scots Guards, has sailed from Cape Town for Durban. The transport Carinthia arrived at Cape Town yesterday.

The London Daily Mail gives the following graphic account of the departure of the Kildonan—Three thousand officers and men, the largest body of troops which has ever embarked on any one boat, sailed on Saturday, November 4, from Southampton on board the Kildonan Castle, the greatest troopship which has ever put out from any port in the world.

It was a memorable sight, memorable not only because the scent was remarkable as a spectacle, but because the embarkation was the very essence of organization—a marvel of neatness and despatch scarcely to be believed. To begin with, it was the Kildonan Castle's maiden voyage, and yet the ship has a history worthy of record. She was only launched in August last, at Glasgow, and was not to have been handed over to the Castle line till February next. On October 8, however, she was requisitioned by the Government, and since that date in less than a month, in fact, she has been converted from a model passenger ship into a model troopship, a revolution brought about by 2,000 workmen, toiling night and day.

A Great Undertaking.

The undertaking below must have been like clearing a forest. The multitude of saloons, cabins, state rooms, and passages, each of them fitted with costly and multitudinous contrivances, intended for the comfort of passengers, have been swept away; and now the main deck is like a great unbroken plain. No fewer than 1,740 men found accommodation here alone, and yet each man had his own place and a place for his belongings. Over each man's mess seat was accommodation for his kit, the hammock in which he sleeps at night, yes, and a life-belt as well, should one be needed. Nearly 2,000 men in this one great place; yet plenty of air, plenty of light and plenty of elbow room; quarters such as the soldiers who sailed for Spain and Holland in the olden days could never have dreamed of.

Then there are cabins for the non-commissioned officers, and a well appointed hospital capable of holding eighty invalids. Elsewhere, and where they can have been stowed it is difficult to conceive, are tons and tons of stores and food. All day long the giant cranes creaked and rattled as they swung in such things as balloons, machine guns, ammunition, pontoons, stretchers, collapsible boats, surgical appliances, and, last, but not least, the famous goat of the Welsh Regiment, which was given them by the Queen.

A Miniature Fortress.

In fact, when everything was on board the vessel was like a miniature fortress, a species of floating Gibraltar. And what partly lent to the effect was the composite nature of the forces under the command of Colonel Munroe, of the Seaforth Highlanders. There were 80 officers and 2,242 all ranks, consisting of 29 officers, 827 men, 1st Welsh Regiment; 29 officers, 921 men, 2nd Northumberland Fusiliers; 64 men Black Watch; 5 officers, 40 men, 3rd Stationary Hospital; 21 officers, 143 men, a pontoon troop R. E., 3 officers, 27 men, 1st Balloon Section R. E., and details.

Trains began to arrive at an early hour and Colonel Stacpole, the embarkation expert, whom practice in his work seems to have made perfect, was there to receive them. Out they streamed, and, forming up in companies, arms and helmets were collected and stowed on board by every seventh man; the kit, however, was passed from hand to hand, while the men laughed and joked.

"That's the colonel," said a private to a Daily Mail representative, "and we'll go anywhere after him and Buller." "That's my company," said a young looking captain proudly. "Best chaps on earth. Could take 'em anywhere; besides, we shall be under Buller, you know."

That describes prettily accuratelyt he feeling of the troops. Some of them had seen service before, and all of them were hard and sturdy and bronzed. One sergeant had come from India to rejoin. He was chief steward to the admiral stationed at Bombay, but when he heard of the war he left his service, paid his own passage home, and rejoined his regiment.

Great Attention.

The departure of this troopship has aroused great attention abroad, and special representatives of the French, Norwegian, Japanese and Austrian Governments witnessed the emberkation and expressed their admiration to Sir Donald Currie, who personally superintended, and to Col. Stacpole.

M Jules Huret, of Le Figaro, one of the most distinguished journalists of Paris who has come over to describe England undergoing a "crisis," was full of admiration and wonder. Chatting to the soldiers, he said—"Why is there no excitement? Why are your wives not weeping?" Indeed, there was no excitement till as darkness began to gather in, the "all ashore" bugle sounded, and the soldiers who had been temporarily confined below came streaming upon the deck.

A Mass of Scarlet.

They swarmed into the rigging and on to the deck structures till all three decks were a packed mass of brilliant scarlet and dull-colored kharki uniforms and brickdust colored faces. Then a cornet player on the quay started "Soldiers of the Queen," which everybody took up and sang. "A Little Bit off the Top," and "Rule Britannia," "Auld Lang Syne," all had their turn, to be followed by the regimental band on board with "The Girl I Left Behind Me."

And as the tug began to warp the Kildonan Castle out to sea the 1,500 troops on board the Briton, lying at her stern, the passengers on board the Pembroke Castle lying at her head, and the spectators on the quay burst simultaneously into a deafening cheer of farewell, and the troops on the Kildonian Castle answered back with cheer on cheer—such cheers, perhaps, as M. Huret had never heard before.

Slowly the great boat steamed away, into the quickly falling night, and the last those on board her heard or saw of England was 10,000 people ont he quay singing "God Save the Queen" with bare heads.

And that is how the greatest troopship in the world sailed for the war.

Was Stricken Blind.

New York, Nov. 22.—Richard R. Lippincott, a travelling salesman for a wholesale grocery house of Philadelphia, was suddently stricken with total blindness while on a train of the Central Railroad of New Jersey from Lakewood yesterday morning. He was led from the train at Freehold, N.J., where a physician, after an examination, could give no relief. He later was taken to Philadelphia for treatment by a specialist. While in apparently perfect health and without pain or inflamation of the eyes, Mr. Lippincott was suddently deprived of his sight. He was on a business trip for the firm of Krause, Ingram & Hiester, of Philadelphia, but had spent the last few days with friends at a hotel in Lakewood. He took the train at Lakewood yesterday, expecting to stop off at Freehold, where he was well known in business circles.

Rescued the Crew.

Baltimore, Nov. 22.—The Donaldson line steamship Lakonia arrived at this port to-day with the crew of the British steamship Manchester Enterprise, which foundered on November 15th, 480 miles south-east of Cape Race. The rescued number 53 of whom nine are cattlemen returning from Liverpool. The Manchester Enterprise sprang a leak during a severe gale on November 13.

Bring Back the Bodies.

New York, Nov. 22—The Navy Department has decided to direct Captain Sigsbee, commanding the Texas to proceed to Havana and bring back the bodies of the sailors of the Maine for burial in this country, says The Herald's Washington correspondent. There is some talk of bringing them back in time for interment to occur on February 15, the anniversary of the destruction of the Maine. A suggestion has been received at the department that the wreck be incased in a dome-like structure, over which the American flag shall always fly.

Wonderful New Explosive.

New York, Nov. 22.—A new explosive called kidropirocita has been tested before the Technical Commission at Valparaiso, Chili, says The Herald. Experts say it has shown its superiority over all other explosives. The expensive power is twice at great as that of dynamite, and its use in shells is less dangerous. The explosion ignites in water as well as air.

The GRAPHOPHONE

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment.

Other so-called talking machines reproduce only records of cut-and-dried subjects specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up.

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

ANOTHER ENOCH ARDEN.

But His Wife Had Got a Divorce Before Re-Marrying

Philadelphia, Pa., Nov. 22.—After an absence of thirty years, James Edwards, whose home is now in Denver, Col., returned to this city and discovered that his wife had been divorced from him and married to another man. Thirty-five years ago Edwards married Miss Belle Hickman, of this city, whose parents were wealthy. Edwards was in poor circumstances and the wife's mother opposed the marriage.

The couple lived together for five years but at the end of that time Mrs. Hickman is alleged to have brought about a separation. Edwards went to New York, and stowing himself away on a sailing ship, succeeded in reaching San Francisco. From there he went into the interior and secured work in the mines. By practice of economy he accumulated some money, and eventually established himself in a lucrative business in Denver.

Edwards says he repeatedly wrote to his wife in this city, but never received an answer, and since his return has been informed that she failed to ge the letters. Not hearing from her husband for fifteen years, Mrs. Edwards advertised and received a letter from Denver informing her that a man answering her husband's description had been killed by a fall from his horse. Mrs. Edwards, not certain that her husband was dead, obtained a divorce and remarried.

Edwards succeeded in meeting his former wife upon his return here. There were explanations all around and he bade her farewell and went back to Denver.

CHARGE OF BLACKMAIL.

Story of People who Rushed to Invest Money With a Speculator.

New York, Nov. 22.—William F. Miller, manager of the "Franklin Syndicate," was arrested yesterday on an order granted by Justice Bookstaver in a civil suit for $50,000 damages for slander brought by the editor of a Wall street financial paper. From offices on Floyd street in Brooklyn, Miller has flooded the country with circulars promising investors ten per cent a month on their investments. As a result cash poured into Miller's office in astonishing proportions from all parts of the country. Rene Billington, counsel for the prosecution is authority for the statement that Miller received $51,000 yesterday. "So great was the crush," said Mr. Billington, "that the stoop of the house on Floyd street was broken by the people anxious to invest their money with Miller. When I was there yesterday there was a string of people, mostly domestics and workingmen, extending almost to Marcy avenue."

For some time the financial paper has been attacking Miller's method, and warning cards were sent out advising people to give Miller a wide berth. Miller then charged the Wall street paper with blackmail and the suit resulted.

WANTED FIRE BELL CLOTHES.

He Just Made Up His Mind to Kill That Town of St. Joe.

"Ah'm come back home for some clothes, an Ah want 'em wahm," said a tall young negro to a Walnut street haberdasher one day last spring. "Ah'm jes' agoin to kill that town of St. Joe. Show me the brassedest clothes yo' got in the house."

He was not cool as to raiment to start with. His overcoat was cream colored, overlaid with pearl buttons the size of those small butter plates still in use in restaurants. His trousers were green and ended in yellow shoes with brown shot silk tops. His hat was light blue, mottled in brown; his gloves were red and his cane heavily silvered.

"Can't no St. Joe nigger tell me Ah come from Raytown," he muttered. "Ah goes up to St. Joe to work, and the coons there laugh at me and tell me Ah ain't from Kansas City, because mah clothes is so inconspicuous, and Ah just save up mah money, and Ah'm agoin back to kill the town. Now what I want is some underclothes and socks and shirts and things that are the wahmest you've got."

"How will these do?" asked the haberdasher, exposing some scarlet hosiery, banded with wide white stripes.

"That's it. That's the kind of clothes Ah want. They ain't nothin in St. Joe like that. Lemme look at them underwear."

He inspected some red underwear with white stripes, some of baby blue with pink stripes and others of green with blue, black and red stripes. He bought neckscarfs of every shade of red, blue and green and of the most bewildering patterns. His purchases included zebra collars and pale pink shirts, diamond scarfpins at 85 cents each, but with $85 of shine, and a brown waistcoat with scarlet moons emblazoned on it.

"Ah've got 'em dead," he exclaimed when he had finished. "They've ceased to live. When Ah get back to that town of St. Joe they'll ask me if I come from Raytown, will they? Ah'm agoin to take back to that little ole burg such wahm clothes that they'll meet me with the fish department. That town's dead now, and Ah've killed it."

How Wealth is Carried.

"It is rather amusing," remarked the head of the biggest bureau de change in London to the writer, "to notice the various methods in which men of different nationalities carry their worldly wealth. The Englishman carries his all loose in his right hand trousers pocket—gold, silver and copper all mixed up together. He pulls a handful of the mixture out of his pocket in a large, opulent way and selects the coins he has need of. The American carries his wad of bills in a peculiar long, narrow pocketbook, in which the greenbacks lie flat; the Frenchman makes use of a leather purse with no distinguishing characteristics, while the German uses one gayly embroidered in silks by the fair hands of some Lottchen or Mina.

"The half civilized capitalist from some torrid South American city carries his dollars in a belt with cunningly devised pockets to baffle the gentlemen with the light fingers. Some of these belts are very expensive. The Italian of the poorer classes ties up his little fortune in a gayly colored handkerchief secured with many knots, which he secretes in some mysterious manner about his clothes. A similar course has charms for the Spaniard, while the lower class Russian exhibits a preference for his boots or the lining of his clothes as a hiding place for his savings."—London Answers.

Big Fire at Tweed.

Tweed, Ont., Nov. 22.—About half-past six this morning fire broke out in Mr. R. T. Houston's sash factory here. The main building was completely destroyed, and the machinery is almost a total loss at from six to eight thousand dollars. There is no insurance.

COPPER SHARES.

LARGEST DIVIDENDS. SAFEST INVESTMENT.

Boston & Texas Copper Company.

CAPITAL STOCK $2,500,000.

250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:

HON. EMERY M. LOW, President. Manufacturer (Mayor), Brockton, Mass.

GEORGE W. RUSSELL, 1st Vice-President. Paper Manufacturer, Boston, Mass.

JAS. M. WHEATON, Secretary.

EDW. B. ROBINS, Treasurer.

F. M. SPAULDING, 2d Vice-President and General Manager.

STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

SHE TWINED THE FLAGS.

Remarkable Patriotic Demonstration in a London Theatre.

New York, Nov. 22.—At the Empire Theatre in London last night there was a most remarkable patriotic American demonstration, says the Herald. Mrs. Brown-Potter had been engaged to recite a stirring composition in verse called "Ordered to the Front."

The house was packed and every inch of the standing room was occupied. The boxes and the stalls were filled with prominent people. Mrs. Brown-Potter appeared in white satin flowing robes, trimmed with sable, with a red rose in her hair and another over her heart. On each side stood a soldier in khaki uniform, one holding the English flag and the other the Stars and Stripes. This tableau was received with the most enthusiastic cheering

Mrs. Brown-Potter, though extremely nervous before such an audience, went through the piece with fine effect. At the final words; "God Save the Queen," she broke down completely, however, while the whole house rose and sang; "God Save the Queen," over and over again.

Mrs. Brown-Potter was recalled, and when the curtain went up she grasped the two flags and twined them together, while the people sprang to their feet in another wildly enthusiastic demonstration of their regard for America and her friendship.

Want Them to Emigrate.

Montreal, Nov. 22.—Mr Mills a Toronto lawyer, Rev Dr Griffith and L A Cannon, Q. C., deputy Attorney-General, left Rimouski yesterday morning on board the steamer Constance for Anticosti. They are going as representatives of the Federal Government to offer to the settlers of Fox Bay a track of land on the borders of Lake Winnipeg, in Manitoba and induce them to emigrate thither.

KILLED MOTHER AND CHILD.

A Savage Shooting Affray in an American City.

New York, Nov. 22.—The wife of James Baxter, of Camden, N.J., left him because she said he beat and tortured her, and took refuge with the family of Jerry Ryan. Ryan and Baxter are veterans of the Spanish war and they have been friends for years. Baxter went to Ryan's house last night and asked his wife to return to him. She refused even to speak to him, saying she was afraid he would kill her. Baxter thereupon drew a revolver and began shooting. Mrs. Ryan was struck by three bullets, one of which passed through her body and killed her child behind her. A fourth went wild and a fifth buried itself in Ryan's left arm. In a frenzy Ryan grabbed the murderer and knock-Ryan grabbed the murderer and knocked his head against the wall and the floor until he begged for his life. When he found his child was dead Ryan tried to kill Baxter, but was prevented. Mrs. Ryan will probably die Ryan's injuries is not serious. Baxter was arrstea.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the graphophone catches instantly and preserves every tint and shade of sound. A most interesting use of a graphophone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 20 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

VIVID HEALTH

Nothing so rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has sold the fortune of existence to the gain of wealth. A loaded purse cannot atone for the deranged liver, the aching sides, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the joy of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

The Force of Merit Makes its Way

Newcombe Pianofortes

Pronounced—"The Finest Made in Canada......."

We will be pleased to leave our new Piano Folio at your home for a day, that you may examine our 1898 styles. These Pianos are the result of years of constant application to the necessities of the high-class piano trade we have so long retained in Canada. A glance at the cuts of the works of art will convince you as never before, that the Newcombe still retains the distinction of being—"the Finest made in Canada."

SOME CATCHING SONGS.

THE MEN OF THE NORTH.

Come, if you dare! to the Northman's lair,
The tramp of your armies shall not shake us;
Shout if ye will we are free-men still,
Words can not break us;
For we have the brain and the brawn and the blood
Of the Saxon and the Celt and the Gaul;
And we fear not any man but we'll do the best we can
When we march at our country's call.

Refrain.

Canada, dear, Canada!
Men of the North are we,
For thee we live and for thee we'll die,
But aye thou shalt be free.
Canada, dear Canada!
Men of the North are we;
For thee we live and for thee we'll die,
But evermore thou shalt be free.

We are the Men of the fair far North,
The land of the Maple spread around us.
Here shall we live—not an inch we give;
None shall confound us!
For we have the land and the grain and the gold,
And should foes for these ever wish to try a fall,
Why they'll find that we can fight when we're in the right
And we march at our country's call.
Chorous—Canada, dear Canada!

Men of the North, if to war we go,
Let our trust never li ein martial numbers,
But in that spark blest, in each man's breast,
The fire that never slumbers;
That hatred of wrong and that pride in the right,
And the freedom that our fore-fathers won;
No, we'll never yield a jot! but just keep what we got,
If we fight till the day is done.
Chorous—Canada, dear Canada!

"THE POWDER-MONKEY."

A yarn I've got to spin as how I've heard my old dad tell,
Of a gallant little hero who aboard the Vict'ry fell;
He was brimin' full of courage, and was just the sort o' lad,
To make the sort o' sailor that our Navy's always had.
As powder-monkey, little Jim was pet o' all the crew,
With his flaxen hair so curly, an' his pretty eyes o' blue;
An' the bo'sum always said as how that what got over him,
Was the chorous of a sailor's song as sung by little Jim.

"Soon we'll be in London Town,
Sing, my lads, yo, ho!
An' see the King in a golden crown;
Sing, my lads, yo, ho!
Heave ho! on we go,
Sing, my lads, yo, ho!
Who's afeared to meet the foe?
Sing, my lads, yo, ho!

In 'ninety eight we chas'd the foe right in to "Bonky Bay,"
And we fought away like niggers all the night till break o' day,
The foeman's flagship "Orient" was blow'd away shk high,
With the Admiral an' all his crew—an' serve 'em right, says I.
Now little Jim was in the thic' all the fire an' smoke,
And he seem'd to think that fightin' hard was nothin' but a joke,
For he handed up the powder from the magazine below,
An' all the while a-singin', like as if his pluck to show.

Soon we'll be in London Town,
Sing, my lads, yo, ho!
An' see the King in a golden crown;
Sing, my lads, yo, ho!
An' see the King in a golden crown;
Sing, my lads, yo, ho!
Heave ho! on we go,
Sing, my lads, yo, ho!
Who's a-feared to meet the foe?
Sing, my lads, yo, ho!

But little Jim was book'd, for as the fight was just on won,
A musket ball pick'd him off, afore his song was done.
They took him to the cockpit, where a smilin' he did lie,
An' the sailors—well, there warn't a man but somehow pip'd his eye.
Says Jim—"my lads, don't fret for me, but if the shore ye see,
Give a kiss to dear old mother, an' say it come from me."
An' there never was a braver heart that serv'd our gracious King,
Than the little powder monkey, who so gaily used to sing.

Soon we'll be in London Town,
Sing, my lads, yo, ho!
An' see the King in a golden crown;
Sing, my lads, yo, ho!
Heave ho! onwe go,
Sing, my lads, yo ho!
Who's a-feared to meet the foe?
Sing, my lads, yo, ho!

THE ADMIRAL'S BROOM.

Van Tromp was an admiral brave and bold,
The Dutchman's pride was he,
And he cried, "I'll reign on the rolling main,
As I do on the Zuyder Zee,
As I do on the Zuyder Zee!"
And as he paced the quarter deck,
And look'd o'er the misty tide,
He saw old England like a speck
And he shook his fist and cried,
He shook his fist and cried—

"I've a Broom at the mast!" said he,
"For a Broom is a sign for me,
That the world may know wherever I go,
I sweep the mighty sea,
I've a Broom at the mast!" said he,
"For the Broom is a sign for me,
That wherever I go, the world may know,
I sweep the mighty sea."

Now Blake was an Admiral true as gold
And he walk'd by the English sea;
And when he was told of that Dutchman bold,
A merry laugh laugh'd he,
A merry laugh laugh'd he,
And he cried, "Ho! ho! and away we'll go,
Come aboard, merry men, with me;
And we'll drive this Dutchman down below,
To the bottom of his Zuyder Zee,
To the bottom of his Zuyder Zee!"

"His broom may be trim and gay,
But we'll haul it down to-day;
When he says he'll sweep the mighty deep,
'Tis a game that two can play!
His Broom may be trim and gay,
But we'll haul it down to-day;
When he says he'll sweep the mighty deep,
'Tis a game that two can play!
Then he cried, "Come here, you Dutchman queer,
To-day you must fight with me,
For while I ride the foaming tide,
I'll be second to none," said he.
"I'll be second to none," said he.
So he blazed away at the Dutchman gay,
Till he made Myn-heer to fall,
Then h choisted a Whip to the mast of his ship,
And cried to his merry men all,
He cried to his merry men all—
"I've a Whip at the fore," said he,
"For a Whip is the sign for me,
That the world may know wherever we go,
We ride and rule the sea,
I've a whip at the fore," said he,
"For a Wiip is the sign for me,
That wherever we go, the world may know
We ride and rule the sea!".

The cordiality between the czar and the kaiser is enough to drive France into an alliance with Britain.

THE GIRL HE LEFT BEHIND.

The signal flutter'd in the breeze,
The gun to weigh had boom'd,—
And faithful Jack and black eyes Sue
To part a while were doom'd—
The tear drops dimm'd her sparkling eyes,
Her hands in his were press'd,
And Jack half piped his eye,
For grief did wring his breast.

But yo! heave ho! Tho' sailors go
In ships before the wind,
Each faithful Jack, They say comes back
To the girl he left behind.
But yo! heave ho! Tho' sailors go
In ships before the wind,
Each faithful Jack, They say comes back
To the girl he left behind.

Jack sail'd away to Singapore,
To Hong-Kong and Madras.
And for a week his ev'ry thought
Was of his loving lass;
And she would watch the rising gale
And pace the lonely shore,
And sadly sigh for faithful Jack
Till quite a month was o'er.

But yo! heave ho! Tho' sailors go
In ships before the wind,
Each faithful Jack, They say comes back
To the girl he left behind.
But yo! heave ho! Tho' sailors go
In ships before the wind,
Each faithful Jack, They say comes back
To the girl he left behind.

But then she met a soldier lad,
With coat of scarlet shade,
And ere a few short weeks had pass'd,
A match the pair had made.
And Jack came not to Portsmouth Town,
But went to Hull instead,
And there he met another girl,
And now I hear they're wed.

So yo! heave ho! Tho' sailors go
In ships before the wind
Yet sometimes Jack Does not come back
To the girl he left behind.
So yo! heave ho! Tho' sailors go
In ships before the wind
Yet sometimes Jack Does not come back
To the girl he left behind.

KIMBERLEY'S VAST RICHES.

The Enormous Value of the Diamond Mines Threatened by the Boers.

Kimberley, which it is said the Boers have invested and isolated from the outside world, is the diamond region of the world, far surpassing the mines of Brazil in richness. If the report of the investment be true, this is the most serious blow which Kruger has struck at the commercial interests of Great Britain in South Africa. Cecil Rhodes is in the town and its defence will be stubborn. Kimberley is not a city in the modern use ofthe word. It is a great camp in which men's passions rise and fall as the treasures of of the earth are removed or not found. The camp is in what is called the Vaal Basin, the wash ground of the river which divides the Transvaal from the Orange Free State. The first diamond discoveries there were made about 1870, but it was ten years later when Englishmen and others realized that the spot was the most valuable of its kind in the world.

By 1881 the mines which had been opened had yielded gems to the value of $20,000,000. By 1887 seven tons of diamonds had been taken out valued at $250,000,000. This record placed the Brazil diamond mines in the shade and made Kimberley world-wide in its fame. The Cecil Rhodes syndicate, known as the De Beers, came int ocontrol of all the mines after much negotiation. This syndicate is capitalized for $75,000,000 and pays interest at the rate of 5 1-2 per cent. per annum and an annual dividend of 20 per cent. Since Cecil Rhodes came into control of the mines they have given out 2,500,000 karats of diamonds. To get at these it has been necessary to wash 2,700,000 loads of blue earth in which they are found.

In the working of these diamond mines there are employed about 1,500 white men and 6,000 natives. The greater portion of these mines are employed in the De Bers and Kimberley mines, the two biggest holes which greedy man ever dug into the earth. The De Beers mine has an area at the surface of thirteen acres and a depth of 450 feet. The mines are worked from shafts sunk some distance from the original holes and penetrating to the blue earth by transverse drivings at depths varying from 500 to 1,200 feet. The blue earth, when extracted, is carried in small iron trucks t othe levels. Upon these levels the blue earth is worked until the gems within are extracted. The process of extracting takes from three to four months. The stones found vary in size from a pin head to the largest ever found—428 1-2 karats. The largest stone when cut weighed 228 1-2 karats. It is one of the experiences of the mine owners that they lose from 10 to 15 per cent. of their product each year through the thefts of employes, who, although closely watched, still manage to get away with their loot. The punishment for stealing a diamond is fifteen years' imprisonment. All diamonds except those which pass through illicit channel are sent to England, the weekly shipments averaging from 40,000 to 50,000 karats. The greatest outlet for stolen diamonds is through the Transvaal to Natal, where they are shipped by respectable merchants.

It is said of the Rhodes interests in the mines that they take good care of their workmen. They have built a model village called Kenilworth within the precincts of the mines. In this villages are cottages for the white workmen. A clubhouse has been built for their use and there is a public library. The equipment of the mines is something remarkable. Each mine has ten circuts of electric lamps. They consist of fifty-two arc lamps of 1,000 candle power each, and 691 glow lamps of 16 and 64-candle power each, or a total illuminating power of about 84,000 candles. Thirty telephones are located in each mine and over 100 electric bells to each for signalling. The lives of the workmen are insured and every precaution is taken to make their condition tolerable. The rate of wages runs from $3 to $8 per day, unskilled labor receiving the lower price. What effect the closing of the mines by war will have on the world at large it is hard to say. Diamonds have already risen in price, but there is a large stock on hand in English and French hands. Of course all labor has ceased at Kimberley, and if the Boers get into the mines they may win rich prizes.

In its way lots of that South African news not sent is also wireless telegraphy.

The Farmer's Binder Twine Company of Brantford has just declared a divident of 100 per cent. on its paid up capital stock for the last year. Thbe last dividend was 60 per cent. This is a fair to middling profit for a concern professedly in the interest of the farmer and with a few trimmaving the farmers from being bled by soulless corporations.

"Endorsed by Physicians

"I desired to test in my practice various Witch Hazel products. I have done so, and am thoroughly convinced that your preparation (Pond's Extract) is preferable to all others for either internal or external use."
H. W. MARSH, M.D., Detroit, Mich.

We have thousands of testimonials from well-known physicians.

Pond's Extract

is and always has been manufactured by ourselves, at our own factory, and is guaranteed unequalled, in quality, purity, uniformity and medicinal virtue.

It is FOUR times as strong as Witch Hazel. Never sours.

Send for Yellow pamphlet.

POND'S EXTRACT CO., 76 Fifth Avenue, New York.

Pond's Extract Ointment

It heals cuts, burns or bruises, and should be in every home. All druggists or by mail. [illegible] Prepared only at our laboratory.

POND'S EXTRACT COMPANY, 76 Fifth Ave., N. Y.

THE TORCH TO POWDER.

Touch a lighted torch to the contents of a powder mill and up it goes! But it isn't the torch that blows up the mill; it's the powder. The stuff is all ready to explode. It only needs one touch of fire to start it. When a man's blood is all ripe and ready for disease it only needs a little touch to start him going. Maybe he gets a slight cold, gets wet feet or sits in a draft; then off he goes into a galloping consumption.

But it isn't the draft that does it; that only starts him. His blood was all ready for it in the first place. It was thick with bilious poisons; clogged with germs of disease all ready to be roused into fatal activity at the least touch.

"My wife had a severe attack of pleurisy and lung trouble," says Abram Freer, Esq., of Rockbridge, Greene Co., Ill., in a thankful letter to Dr. R. V. Pierce, of Buffalo, N. Y. "The doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery and she began to improve from the first dose. By the time she had taken eight or ten bottles she was cured, and it was the cause of a large amount being sold here. I think the 'Golden Medical Discovery' is the best medicine in the world for lung trouble."

Not only for lung trouble is it the most wonderful medicine in the world, but for every form of weakness and debility. It redeems the very sources of life from these subtle poisonous taints which lay the system open to dangerous disease. It gives digestive power; helps the liver to do its work; enriches the blood; builds up solid strength and vital force.

When you find yourself losing flesh and appetite; growing listless by day and sleepless by night there is an enemy lurking ready to apply the torch. Write to Dr. Pierce. Your letter will be considered strictly confidential and he makes no charge for advice. His great thousand-page book, The People's Common Sense Medical Adviser, will be sent free paper-bound for the bare cost of customs and mailing, 31 one-cent stamps, or cloth-bound for 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

Assistant General Passenger Agent,
1 King Street East, Toronto.

FREE BOOK ON COPPER MINING

Send for Free Illustrated 60 Page Book on Copper Mining to the Boston and Texas Copper Company, 411 Tremont Building, Boston, Mass.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

THE
ST. LAWRENCE SUGAR REFINING CO.
MONTREAL LIMITED.

LABORATORY OF INLAND REVENUE,
OFFICE OF OFFICIAL ANALYST.
MONTREAL, April 8th, 1895.

"I hereby certify that I have drawn, by my own hand, ten samples of the St. Lawrence Sugar Refining Co's Extra Standard Granulated Sugar indiscriminately taken from ten lots of about 150 bbls. each, I have analysed same and find them uniformly to contain:

99 $\frac{88}{100}$ to 100 per cent. of PURE CANE CUGAR

with no impurities whatever.".

Morning Times

PETERBOROUGH, NOVEMBER 24 1899

TOWN AND COUNTY NEWS

General Buller will Fight.

The cold weather is here for us to fight: but Kidd the shoe man is here, to sell ladies 6 button overgaiters at 20c a pair; 10 button 50c. This will help you fight the cold at half price. Sale of boots and shoes to be continued during the week.

Rev. Mr. Wilson Accepted.

The Rev J P Wilson, B.A., of Oshawa, to whom a unanimous call was extended by the George street Methodist congregation, has accepted the call. Mr Wilson will assume the duties of the pastorate here at the end of June next, when Rev Mr Shorey will leave for Picton. The pastor-elect is highly spoken of as an eloquent preacher and an earnest minister.

FLEECE LINED SHIRTS AND DRAWERS.

Men's heavy fleece lined, winter weight, Shirts and Drawers, sizes 32 to 46 will be sold on Saturday only at the Port Hope Knitting Works for 38c. This is the greatest bargain of the season. Ask for trading stamps.

A Serious Charge.

A resident of the township of Smith, was arrested by High County Constable Cochrane charged with a criminal offence against one of the female wards of the Children's Aid Society. He appeared before County Magistrate Edmison yesterday and elected to be tried summarily. He was remanded until Tuesday and is in the meantime admitted to bail. The accused denies his guilt, stating that there no truth in the charge.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

Wanted

A smart trustworthy boy to make himself useful in bookstore. Apply at Times Bookstore at once.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

MATRIMONIAL EVENTS.

A Couple of Weddings Celebrated in St. Peter's Cathedral.

A double wedding was solemnized yesterday at St. Peter's cathedral. The parties to the contract were Mr. George W. Wade, of Geneva, N. Y., and Miss Fannie McDonald, and Mr. Harry W. Bell, of town, and Miss Kittie Galvin, also of town, daughter of Mr. John P. Galvin, of Ennismore. Both marriages took place at the same time, Ven. Archdeacon Casey officating.

Miss McDonnel was given away by her brother, Mr. M. J. McDonnel, of the firm of J. Carveth & Co., Toronto, whilst Mr. M. J. Galvin, of town, acted in a like capacity for his sister. Both young brides were similarly attired, in costumes of new castor shade, trimmed with brown silk, velvet and satin insertion. They also wore brown picture toques to match.

Mr. and Mrs. Wade drove out to the latter's home in Smith before their departure for their future home in Geneva, N. Y. They will visit Toronto, Rochester and other points.

Mr. and Mrs. Bell drove to the home of the bride's mother, 523 Aylmer street, where a ereception was held. They will take up residence in town.

RUGBY FOOTBALL.

Westmount v. Peterborough

for

Championship of Canada

Nicholls Park, Nov. 25th,

At 2.45 P.M. Admission 25c.

A PROGRESSIVE FIRM.

Messrs. E. F. Mason & Co's Up-to-Date Grocery Plant.

Messrs. E. F. Mason & Co. are not satisfied to keep abreast with other concerns in their line of business, but must lead. Their fine premises on George street compare favorably with those of any similar concern in the country. For years the window decorations have been regarded as the best in Peterborough, being unique, modern, and exceedingly artistic.

Some time ago the firm placed in their premises a fruit cleaner, which was driven by an electric motor. This has been of great advantage to their many customers, and was the means of greatly increasing their trade. Recently a raisin seeder was added, at considerable cost. This machine will seed raisins at the rate of ten pounds per minute. It is the purpose of the firm to give their customers the full benefit of this. Raisins will be seeded, fresh, and free from sugar, thus ensuring most perfect results in cooking. There will be no extra charge for seeding, only the weight of the seeds being deducted. Housekeepers will at once recognize the advantage of this.

The stock of the firm never was finer than at present and exceeds that of other years by over $4,000. Heavy purchases were made in many leading lines before the recent advance in prices, and these will be sold regardless of the advance. In other words, the firm is in a position, on account of its large purchases, prudently made, to sell many articles as cheap if not cheaper than many other concerns can buy for.

Lieut.-Col. Rogers Retired.

The Gazette of the 22nd instant contains the announcement of the retirement of Lieut.-Col. H C Rogers, of the Third Prince of Wales' Cavalry, he having reached the age limit of 60 years. Col Rogers has been an efficient officer and his retirement will be a great loss to the force. He will be succeeded by Major Greenwood, who is next in line of promotion.

Double Trading Stamps.

Every Saturday The Times Bookstore will give double trading stamps on all goods sold at regular prices. We have just received a choice lot of new goods, consisting of all the new and latest games, fancy goods and stationery. We give 25 sheets of good writing paper and envelopes to match for 10 cents. Good novels for three cents each, and another lot by the best writers for four for a quarter. See our bargain windows. Times Bookstore, Market Block.

PERSONAL.

Miss Tucker has returned from visiting in Montreal.

Superintendent Tiffin, of the G. T. R., was in town yesterday.

At Osgoode Hall on Wednesday Mr. O. LePlante was presented to the Law Society and sworn in as barrister and solicitor.

Mr. T. C. Tucker has returned home from Detroit, where he has been on a visit.

Miss Hattie White, who has been on an extended visit to her sister, Mrs. Morrow, in the Northwest, has returned. Mrs. White, her mother, who accompanied Miss White, remained in the Northwest.

Dr. Halliday and Dr. Scott have returned from Montreal, where they spent two weeks in the hospitals, keeping in touch with everything that was new in treatment and surgery.

The Educational Council of Ontario, has appointed Mr. D. Walker, B. A., town, a departmental member of the Normal College examinations, and Mr. J. A. Fife, B. A., an examiner for the Normal College examinations.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department. Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

THE MACFARLANE WILSON CO. LIMITED

China Hall and Silver Bazaar.

OUR SPORTING COLUMN.

Football.

Saturday's match between the local team and the Westmounts, of Montreal, promises to be the hardest and the most interesting game ever played in Peterborough. Both teams have had a splendid record this season, having won every league match, and the Quebec champions have the reputation of being players who are in the game from start to finish. The Peterborough boys are all in splendid shape, and determined to put the finish on their already fine record. The team will be nearly the same as defeated Hamilton, except that Hal. Burnham will likely move up to inside wing and White will take his place on the half back line. Everybody who can ought to be at the game and give the boys the encouragement they so well deserve.

Hockey.

Toronto Telegram—Big doings in hockey are expected from Peterborough, that town of good sports and good times, this winter. The club has organized with an energetic lot of the best young men of the town as officers. Three teams will be entered in the O. H. A., which always get loyal support from the town. Two of last year's senior seven will be missed, Bert Bellegham and Wilf. Crossley, but new blood is always kept in reserve, and Captain Hollingshead will place one of the strongest teams the town has ever turned out in the senior series.

A meeting of the Bankers will be held next week for the purpose of organizing a hockey club. There is good material amongst the different banks and a very strong team can be placed on the ice. Kingston, Belleville, Lindsay and Toronto have all flourishing bank teams. Games will be arranged with these teams, and the Peterborough banks should be able to give a good account of themselves.

Curling.

Toronto Telegram—The Midland Curling Colts Association holds its annual meeting at Norwood on Monday evening. Tom McRae, who was secretary-treasurer since the association's organization by that enkins, has left the limits, being now located at Montreal, instead of Belleville, and a new man will be chosen to fill the vacancy, and that popular curling colt, Dickson Davidson, of Peterborough, who has many victories to his credit on the ice, as he has scars from days when he played lacrosse, may get the job.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

RUGBY FOOTBALL.

Westmount v. Peterborough

for

Championship of Canada

Nicholls Park, Nov. 25th,

At 2.45 P.M. Admission 25c.

LITTLE LOCAL LINES.

There was a special meeting of All Saints' congregation last night.

Scarlet fever cards have been placed at a house on Parnell street and another on Albert street.

A runaway team on Simcoe street at about five yesterday afternoon caused considerable excitement.

Rev. Father O'Sullivan will lecture this evening. Mr. R. M. Roy will illustrate the lecture with lime-light views.

At the police court yesterday morning Joseph Johnston appeared on a charge of vagrancy. He was allowed to go this time.

Watch for Times Bookstore full page advertisement which will appear in next issue and will be of interest to Xmas shoppers.

Mrs. D. H. Burritt and her little daughter were knocked down on Simcoe street by a runaway horse, the former receiving severe injuries.

Miss May Winch, daughter of Mr. R. J. Winch, has arrived safely in Winnipeg where she will spend the winter with her brother, Mr. R. B. Winch.

Wm. Nicholls was up before Magistrate Dumble on a charge of non-support of his wife. He was admitted on bail to appear again on Saturday morning.

The Belleville Intelligencer says—Mr. H. A. Fish has accepted a position with Waller & Co., of Peterborough. The many friends of Herb will wish him success.

Don't forget the place to buy your Xmas cards, calenders and booklets. As in former years our prices are always the lowest. Mail orders solicited and filled promptly. Times Bookstore.

The choir of All Saints' were treated to a drive to the country Wednesday evening by Mr. A. E. Mosley, and were entertained at the home of Mr. Arnott, Monaghan, where a very pleasant evening was spent.

It is rumored that a survey from a point northwest of Bowmanville, through the counties of Ontario and Durham and on to Cobourg is about to be made the coming winter. Can it be possible that the C. P. R. will come in from the west?

Mrs. McMasters, who it was reported would appeal from the sentence passed upon her by Magistrate Dumble, has been unable to secure the necessary bail and is still confined in the county gaol. She will be taken to the Mercer Reformatory today.

When a foolish man wants to sell or buy anything, says an exchange, he rides all over the country in the hot sun or the bitter frost looking for the party of the second part. The wise man puts a few lines in the newspaper, and lets them go all over the country for him, while he sits in the shade, or goes about his business. Whenever any man has a cow or a horse to sell, there is some other man somewhere who is waiting to buy the thing, but these two men might travel a week without finding each other. Advertising brings them together.

A man who had been out duck shooting at Rice Lake the past week remarked at the scarcity of ducks out there. In speaking to an old hunter the cause was explained. He said that as long as the Government allowed the rice to be taken out of the lake and sold wholesale—no regard being made to seeding the lake—ducks would be scarce, and not until some restriction was placed on rice would there be any sign of the old-time duck hunting.—Cobourg Sentinel Star.

LATEST MINING NEWS.

Struck the Hillside Ledge—Ore is Said to Closely Resemble That of Mountain Lion.

Republic, Nov. 23.—The ledge on the Hillside has been encountered by the tunnel. It has penetrated it but a short distance, therefore there is nothing positive that can be said about its width or value. The specimens of the ore taken out are highly mineralized and very solid. In texture and appearance it closely resembles the Mountain Lion ore at a similar depth. It will be remembered that the Hillside property lies about 1800 feet southwest of the latter, and it is not improbable that the ledge is the same.—Spokane Washington Review.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as $62.80.

Write for maps and full particulars.

H. R. MANN,
501 Riverside Ave.,
Spokane, Wash.

Here Are Some Snaps.

I will sell below quoted stocks at prices quoted, subject to change at any time. They are all first-class propositions, all in operationd some will ship soon.

30,000 shares of Lost Lode (Republic) Gold, 1-4 mile from Republic Mine, part of Town site of Republic on it—7 1-2 per share.

25,000 shares of Eclipse Con. M. & M. Co., lead and silver, in cour d' Aline Mining District 2; $10,000 worth of work done, R.R. through the property—5 cents per share.

25,000 shares of Noonday stock, Republic, gold, 20 foot ledge, adjoins Republic No. 2; and close to Golden Harvest,—3 cents per share.

25,000 shares of Great Western, south half Colville Reservation, lead and silver, fine showing,—5c per share.

25,000 shares of Honest Johns M. Co., lead and silver, almost a shipper, will ship in less than sixty days, 2 1-2 miles from R.R. station, 8 feet of ore—15c per share.

25,000 shares of Golden Crown Con. M. & M. Co., Idaho Gold Fields. A mill will be erected soon, gold,—7 1-2 cents per share.

25,000 shares of Jean Monitor, Republic, almost adjoins the Republic,—7 1-2 per share.

There is no chance to take, and there is the greatest possibility of reward to buy any one of the above stocks. Address.

W. C. APPELQVIST.
5 and 6 Van Valkenberg Block, Spokane, Wash., U.S.A.

Death of Mrs. Ranney.

We regret to chronicle the death of Mrs G W Ranney, which sad event occurred at the family residence, 32 Gilmour street on Wednesday evening. The deceased lady had been in poor health for some time, and had been seriously ill for the past two days. Heart disease was the cause of death. She was 76 years of age, and was a member of St. John's church. She was widely known and universally esteemed for her many Christian qualities. Her loss will be a sad one to the partner in life who survives her. The funeral will take place at 2.30 this afternoon.

The Whitcher Dramatic Co.

The great stirring comedy drama, The Little Ferrett, was presented by the Whitcher Comedy Company to a fair sized house. The production was well put on and deserved all the applause it received from an appreciative audience. To-night the company will be further strengthened by the appearance of Miss Genevive Handy. At the matinee tomorrow at 2.30 p.m., the pleasing comedy "My Mother-in-Law," will be presented. School children's tickets 5c. Ladies and gentlemen 10c for all parts of the hall.

BREAD FOR 8C.

Until further notice the undersigned is prepared to sell Bread at 8c per four pound double loaf, and 4c for single loaf.

Orders should be left at our store, George Street.

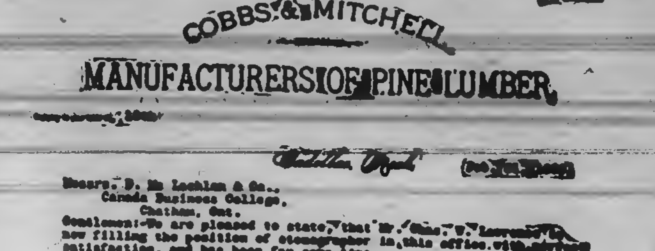
WHEN YOU ARE A GRADUATE FROM

THE Canada Business College.

CHATHAM, ONT.

It means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL

MANUFACTURERS OF PINE LUMBER.

Cadillac, Mich.

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

Gentlemen:—We are pleased to state that Mr. Chas. W. Lawrence is now filling the position of stenographer in this office with perfect satisfaction, and has been for some time.

We are also pleased to state that Mr. Lawrence is a gentleman in every respect.

Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they get him.

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for supplying teachers for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address

VOL. 25.—NO 274. PETERBOROUGH, ONTARIO, SATURDAY, NOVEMBER 25, 1899 PRICE TWO CENTS

A FIGHT AT TUGELA DRIFT

One Hundred and Fifty Policemen Drive Off a Greatly Superior Boer Force.

SOME NEW MOVEMENTS ARE NOW DEVELOPING.

Burghers Are Either Trying to Encircle Estcourt From the Rear or to Seize Greytown, Which Commands One of the Roads.

London, Nov. 24.—The Governor of Natal has forwarded the following despatch to the Colonial Office:

Tugela Drift, or Ford was attacked during the morning on Thursday, Nov. 23, by 250 to 300 Boers, who are believed to have advanced from Helpmakaar and Umveti. The mounted rifles under Major Leuchars and a small body of Natal police totalling 140 men posted south of the river bank forced the Boers to retire after two hour's fighting. Our loss was a sergeant-major wounded.

The Tugela rose during the day and is now reported to be impassable except by boats.

The Tugela Drift, or the point where the road crosses the river Tugela, is to the northeast of Estcourt about thirty miles and is also to the north of Greytown by teh same distance. The movement of the Boers from the neighborhood of Helpmakaar is evidently either an attempt to encircle Greytown from the east or to occupy Greytown, which is a position of importance as it commands one of the principal roads from Pietermaritzburg to the Mooi river.

MAY RELEASE CHURCHILL.

Pretoria, Nov. 24.—It is believed that the Government will shortly release Winston Churchill as a non-combatant

The prisoners from Mafeking and Lobatsi are mostly railroad men. After they had taken the oath not to fight against the Transvaal they were sent to Delagoa Bay.

BRITISH GUNS INEFFECTIVE.

Mooi River, Natal, Nov. 23. — The Boers have sent only an occasional shell into the British camp since this morning. The range of the British guns is not sufficient for them to be effective. An official native runner corroborates the report that heavy firing has occurred northward. The runner, who is from Estcourt, says he was captured by the Boers who infest the heighs northward. He adds that they searched him, but failed to discover the despatches.

The Boers are in strong force under the cover of a hill, on which are two guns. When the British opened fire the runner escaped in the subsequence confusion

The same runner was at Ladysmith last week. He reiterates that heavy fighting occurred there. The Boers, he claims, made several attempts to capture the British camp, but were repulsed with heavy loss. The native explained the failure of the assault by saying that every time the Boers approached the British set the whole country ablaze, killing everyone within reach.

CAUGHT IN A TRAP.

Cape Town, Nov. 24.—Unconfirmed reports continue arriving here to the effect that General White recently caught the Boers in a trap at Ladysmith, inducing the beleagured to venture into the open country around the British camp, where the British sorties captured the attackers.

Three squadrons of African light horse have gone northward. Late arrivals from Pretoria estimate the Boer casualties at 1,000 men, half of whom were killed. They also say the race course there is being prepared for a laager, in the event of a seige and the guns of the fort are trained on it in case the prisoners attempt to escape

A Maxim is placed at the gate of the race course.

From President Kruger down, everybody is in favor of fighting. Tehy believe that they will succeed in annexing all the beleagured towns and the flag of the United Republic, now ready, bears the Orange cross. The Boers expect the war to last from four to six months, and that then they will possess South Africa.

Commandant Albracht and Lieut. Elloff have started with a thousand followers to capture Bulawayo.

GENERAL FRENCH RECONNOITRES

London, Nov. 23.—The War Office has received the following despatch from Gen. Forrestier-Walker,

General Gatacre reports having yesterday encamped a battalion of infantry near Putter's Kraal, and that reinforcements of mounted police with half a battalion of infantry arrived at the same camp to-day. The Dutch rising continues in the Broken Nail districts. The police at Moltens report that armed Dutch have left Cradock, to join the rebels at Broken Nail taking with them armed natives. Gen. French conducted a reconnaissance toward Arundel, which he found held in strength. He withdrew with three men wounded. The Boers are reported moving from Natal to the vicinity of Bloemfontein. Telegraphic communication with Belmont has been opened, and a heavy engagement is reported. The postmaster at Hopetown reports that the Kuruman people have defeated the north rebels.

BOERS IN AMBUSH.

Naauwpoort, Nov. 23.—A British force 200 strong, consisting of mounted infantry and police, with a few cavalry, partly untrained, reconnoitered toward Colesburg to-day, under Gen. French, and accomplished eighteen miles. They were fired upon by a party of Boers concealed on a hill. Three men were wounded.

PREPARING FOR METHUEN.

London, Nov. 23.—The War Office this evening issued a despatch from Cape Town which is a brief official diary of events at Kimberley rfom November 12 to 17. It shows that no serious engagement occurred between those dates, that the British losses have been infinitely small and that the Boer losses were probably very small. The final entry indicates that the Boers, anticipating the advance of the relief column under Gen. Methuen have taekn up deffensive positions to the south of the town.

OUR SPORTING COLUMN.

Hockey.

Lindsay Post; It is not likely that the talked-of-improvements will be made in the skating rink. The details are now being considered, and Manager Paton is hopeful of success. If nothing occurs to block the scheme, hockey will boom this season, and large crowds will attend the games.

It is believed that at the next meeting of the Ontario Hockey Association a resolution will be passed fixing the standard size of rinks. The Peterborough rink being smaller than fixed upon, that club will have to secede from the O.H.A. and join the Midland Hockey Association, if it can gain admission. In that case Lindsay team will have to face stout opponents.

Cobourg has entered the O.H.A, and will be found in the Junior series. They will have their hands full and no doubt will see their "finish" very early in the game

The Hockey club will hold a smoker in the opera house next Thursday evening, when some interesting boxing bouts combined with other events and music, will make up a good programme for the night. The endeavor will be to make this a success.

Curling.

The annual meeting of the Midland Colts Association will be held at Norwood on onday evening next.

Football.

Remember the great football match this afternoon. It will be worth seeing.

Rich vs. Poor.

New York, Nov. 24.—While discussing the subject of Sunday schools at the Manhattan-Brooklyn conference of Congregational Churches now being held in Brooklyn, the Rev. Charles E. Jefferson said, among other things, that in future years there might arise a sanguinary conflict between the poor and the rich unless the conditions changed for the better. He advised the wives of millionaires to visit the slums and to teach the Bible to the children of the poor. Rev. Dr. Newall Dwight Hillis said that there were thirteen million children whose feet had never crossed the threshold of the old Christian church and they could be found in the front rank of the army of the poor against the rich when the conflict came.

Civil Power, Says Root.

Washington, Nov. 24.—Secretary Root's annual report recommends—

The immediate appointment of civil governors for Cuba and Porto Rico.

The substitution of civil government, either by commission or a civil governor, for the Philippines, immediately following the suppression of the present insurrection.

A complete system of suffrage in the Philippines, Cuba and Porto Rico, with education and property qualifications required for all voters.

The immediate construction by the Government of a cable between the United States and the Philippines.

Drinking and Exposure.

Iroquois, Ont., Nov. 24.—The verdict in the case of McEvers, the man found dead in the hose tower, was rendered at two o'clock this morning. It is to the effect that death was caused by excessive drinking and exposure. It seems that six of the jury desired to add that the commercial hotel people and those who put the man in the tower, contributed to the result, while the other seven were of the opinion that the evidence did not warrant such a finding.

General Otis is Happy Now.

Washington, Nov.—General Otis cables as follows;

Manila, Nov. 24.—Claim to government by insurgents can be made no longer, under any fiction; its treasurer, secretary of the interior and president of congress are in our hands; its president and remaining cabinet officers in hiding, evidently in different central Luzon Provinces; its generals and troops in small bands scattered through the provinces acting as banditti or dispersing playing the role of Amigos with arms concealed. Indications are that Aguinaldo did not escape through the lines of Lawton or Wheaton, but fled westward from Bayambang railway station.

Telegraphic communication to Dagupan established, probably to San Fabian to-day, by relaying nine miles of track with material at hand railway communication to that point reestablished. Labor of troops must attend maintenance.

The Kaiser Photographed.

Windsor, Nov. 24.—Emperor William went out riding this morning and was afterwards photographed with the Empress. Their Majesties attended the memorial service in honor of the late Princess of Leingen in the private chapel at Windsor Castle, at which Queen Victoria was also present. The Emperor, the Prince of Wales and the Duke of Connaught started for Blenheim at noon in order to visit the Duke and Duchess of Marlborough.

The Empress of Germany did not go to Blenheim, owing to the death of the Princess of Leiningen.

Discharging Her Cargo

New York, Nov. 24.—The discharge of the bargo of the Taylor, which brought the Bubonic plague from Brazil, will be commenced to-day. The coffee will be kept on board the lighters at quarantine for several days before permission is granted to land at the dock.

France Follows Suit

Chicago, Nov. 23.—The Tribune's Paris correspondent says; Minister of War de Gallifet has ordered all officer's uniforms to be changed so that they will be indentical in color and form to those of the men in the ranks, to prevent the officers being singled out by the enemy in action. The new order is due to the heavy loss of English officers in South Africa owing to their conspicuous uniforms.

BOERS ARE DRIVEN BACK.

The British Force Under Lord Metheum Meet and Defeat the Enemy at Belmont.

GRENADIER GUARDS SUFFER HEAVILY IN ACTION.

British Losses Were 59 Killed, 150 Wounded and 18 Missing. Flag of Truce Hoisted by Boers, Who Shoot Down a British Officer.

London, Nov. 23.—The War Office has issued the following despatch from Gen. Lord Methuen, which was received through General Sir Frederick Forestier Walker, at Cape Town—

"Belmont, Nov. 23.—I attacked the enemy at daybreak this morning in a strong position on three ridges, which were carried in succession, the last attack being prepared by shrapnel.

"The infantry behaved splendidly, and received support frumt he naval brigade and artillery.

"The enemy fought with courage and skill.

"Had I attacked later I should have had far heavier losses.

"Our victory was most complete. I have 40 prisoners.

"I am burying a good number of Boers, but the greater part of the killed and wounded were taken away by ther comrades.

"I have a large number of horses and cows.

"I destroyed a large amount of ammunition.

"The British loss was three officers and 55 men killed, 22 officer and 128 men wounded and 18 missing."

STORY OF THE BATTLE.

Belmont, Cape Colony, Nov. 24.—10 a. m.—The entire western division moved on the Orange River on Tuesday and bivouacked at Witteputs. The companies of mounted infantry and a detachment of Lancers were sent to hold Thomas' farm. Their pickets prevented the Boers from advancing. The Boers fired cannon and the British artillery arrived on the scene and silenced the Boers' fire. At 2 o'clock in the morning the Guards brigade moved steadily forward to a hill a few miles east of Belcourt station. The Scots and Grenadiers advanced to within 50 yards of the base, when the Boers poured in a scathing fire, which staggered the Guards momentarily, but quickly recovering, they returned a deadly fire into the Boers. The duel was continued for half an hour. When the artillery commenced the Boers evacuated their front position, and the Scots Guards rushed the hill with the bayonet and amid lusty cheers.

Ninth Brigade Advanced.

The Ninth Brigade then moved forward in extended order, and the Boers started a terrible cross fire from the surrounding hills. The Coldstreams, supported by the Scots, Grenadiers, Northumberlands and Northamptons, stormed the second position in the face of a constant and effective Boer fire. The Ninth Brigade then advanced the artillery, in the meantime maintaining excellent practice. The British infantry never wavered, and when a tremendous cheer notified them of the charge the Boers fled and succeeded in gaining a range of hills in the rear in spite of the Lancers flanking movement.

Naval Brigade in Action.

The infantry again gallantly faced the fire and the naval bribade came into action for the first time at a range of 1,800 yards, the infantry being well supplied by the artillery and the Boers, unable to withstand the death-dealing volleys, retired and were again forced to abandon some minor position. The British cavalry charged the Boers and pursued them for five miles. Possession was taken of the Boer laager and the Boers stores were destroyed. The Boers hoisted a white flag over their second position, whereupon Lieut. Willughby, of the Coldstream Guards, stood up and was immediately shot down. The Boers twice repeated the same tactics.

WOUNDED DOING WELL.

London, Nov. 24.—The War Office to-day issued the following advices—

Cape Town, Nov. 24.—Afternoon.—Gen. Methuen further reports this morning that the wounded are doing well. There are over fifty prisoners, including a German commandant and six field cornets; 19 of these prisoners are wounded. We are unable to estimate the Boer losses. The prisoners say that yesterday's attack was a surprise and that it is the only beating they have had. A large amount of correspondence has been secured. The reservists are doing well. Col Pole-Carlo replaces Featherstonehaugh in command of the ninth brigade."

A special despatch, unconfirmed, received here from Belmont, says that Gen. Methuen's force numbered 7,000 men and that the Boers had 5,000 men. The latter held an exceedingly strong position on a series of hills extending a dozen miles. They were strongly entrenched and their cannon were posted strongly and were excellently served. The battle began at seven o'clock and raged for several hours. The Boers held their positions with great stubborness and splendid courage. The British riflemen forced the attack under a raking fire and carried position after position with superb dash, driving out the Boers with great slaughter. The engagement was really a series of battles, during which the Boers were constantly carrying off their dead and wounded.

THE QUEEN'S CONGRATULATIONS.

London, Nov. 24.—The Queen has sent General Methuen her congratulations on "the brilliant action of my guards, the naval brigade and the brave soldiers."

BOERS DRAWING CLOSER.

Magalapie, Cape Colony, Nov. 18.—A despatch received here from Mafeking, dated Wednesday, Nov. 15, says—

"The garrison is cheerful, but the position is daily growing more difficult. The Boers are always drawing their entrenchments closer and are incessantly plying the British with artillery and musketry fire. The garrison is living almost entirely in underground shelters and the health of the troops is suffering."

MORE WORK FOR THE GUARDS.

London, Nov. 24.—General Methuen's despatch leaves a great deal to be explained. According to all previous facts obtainable as to the relative strength of the forces, the Boers must have been in a decided majority, yet the total British loss, 220, killed, wounded and missing, proves the effectiveness of their resistance, and amply justifies General Methuen's tribute to the courage and skill with which the burghers fought. The fact that no guns and only forty prisoners were captured by the victors and that the Boers carried off their dead and wounded, shows that they retired in an orderly manner without precipitation or confusion, and that probably the Boer casualties were not numerous owing to the strength of their position. The road is now presumably open to the Boer position on the Modder River, where the Guards, who apparently bore the brunt of yesterday's fighting, will in all probability have another chance to get at close quarters with the bayonets.

MAFEKING IN POOR SHAPE.

Mafeking by way of Magalapye, Nov. 21.—The investment of the town is very close. The garrison is constantly harassed by the besieger's fire The water supply was failing, and dysentery was occurring as long ago as Nov. 8.

The Boers direct the fire of their big guns at the hospital and women's laager at the monastry. One shell struck an inmate of the women's laager on November 4.

The enemy unsuccessfully tried to blow up the town with dynamite. The explosive went off prematurely, killing many Boers. A reconnaissance by Major Golding on Nov. 7 led to a hot and prolonged fusilade. One Englishman was wounded, but the British lost heavily in horses and cattle.

Again on Nov. 8 the enemy shelled the hospital, killing a patient. Colonel Baden-Powell sent a message for the fifth time demanding immunity for the Red Cross and threatening reprisals.

On Nov. 10 heavy shelling was again resumed, the fire being mainly directed at the women's laager and hospital.

On Nov. 13 enemy again shelled the hospital.

On Nov. 9 the enemy advanced their lines 800 yards. Col. Baden-Powel notified the town to prepare for a further fortnight's seige, but there is little ground for believing that it will be relieved inn a fortnight. At least a month must elapse before it is reinforced.

Since the siege began a month ago 30 lives have been lost. The enemy are getting out of hand. They refuse to obey General Cronje's order for a night attack. Every attack has been repulsed with heavier loss to the enemy than to the British. The Boers have received additional guns and amminition and the bombardment is increasing in vigor.

LORD SALISBURY'S HEALTH.

London, Nov. 24.—It was announced from Hatfield House this morning that the Marquis of Salisbury was progressing very favorably.

LATEST DESPATCHES BY WIRE.

LATEST FROM LADYSMITH.

(Special To The Times.)

Durban, Nov. 24.—An official message from General White at Ladysmith dated Nov. 22, says; "Situation unchanged, troops well, and cheerful."

FIGHTING NEAR WILLOW GRANGE

(Special To The Times.)

Durban, Nov. 24.—The Natal Advertiser confirms the report of fighting near Willow Grange. It says;—"Five thousand British left Estcourt Wednesday afternoon for a reconnaissance. They surprised the Boers at 3 o'clock Thursday morning and occupied the Boer position, bayoneting 80 of the enemy. At daybreak the Boers opened with quick firers. The British artillery was unable to reach the Boers and the British position therefore became untenable and was evacuated. Subsequently the artillery was brought into action and the Boers fell back. Their object having been attained. The Boers returned to Estcourt.

BOERS GETTING TIRED.

(Special To The Times.)

London, Nov. 25.—The Daily Mail correspondent says: "The Boer prisoners taken at Belmont, are ignorant, dirty and wretched. They say that half their commando, tired of the war, will refuse further service.

ENGLISHMEN ARRESTED.

(Special To The Times.)

London, Nov. 24.—The Daily Mail's correspondent at Naauwpoort says an open unsigned letter smuggled through from Colesburg, says Commandant Gobbler has arrested two prominent Englishmen, and threatens to shoot them if any harm is done to VanRensburg, ringleader of the Colesburg rebels, who was captured by the British, and is to be tried for treason.

RHODES HAS A BALLON READY.

(Special To The Times.)

London, Nov. 25.—The Cape Town correspondent of the Daily Telegraph, telegraphs that Mr. Cecil Rhodes keeps a big ballon ready at Kimberley to escape, if driven to that extremity.

ANOTHER VESSEL CHARTERED.

(Special To The Times.)

Boston, Nov. 24.—The Leyland steamer Castorian, which sailed from here on November 16 for Liverpool, and is due there to-morrow, was chartered to-day by the British Admirality for transport service in connection with the war in South Africa

RUSSIA MOVING IN THE EAST.

(Special To The Times.)

Odessa, Nov. 24.—It is reported that 10,000 troops will soon leave to re-inforce Russian garrisons in the Far East.

HIGH COURT OF JUSTICE.

Two Cases Which Will Come to the Court Which Opens on Monday.

The non-jury sittings of the High Court of Justice open before Justice Falconbridge at the Court House on Monday next. Only two suits have been entered. They are as follows;—

BROWN vs. EAGER.

Brown, Love and Aylmer, plaintiffs, and William Eager and Joseph Filion, defendants. The plaintiffs are contractors carrying on business at Peterborough. The defendant Eager is a cheesemaker and money lender, residing at the village of Morrisburg. The defendant Filion resides at Ottawa and is a jobber and contractor. The plaintiff Filion in July 1898, agreed with plaintiffs to construct four dams on the river Otonabee between Nassau and Lakefield upon certain terms. The plaintiffs agreed that a partnership was formed between Filion and Eager, Eager was to advance the moneys necessary for the work and to receive a share of the profits and taking over Filion's interest in the contract. Plaintiffs claim that the work was neglected and the workmen unpaid in Filion's absence and that they paid the defendants $2,158.44. They submit that the defendants are liable as partners in the contract and claim payment of the sum of $2,158.44, with $52.91 interest and cost. The defendant Jos. Filion states that he completed the work and was entitled to the contract price and that the plaintiffs have overcharged him to the amount of $1,256.12 and asks for judgment against the plaintiffs for $3,291.28 and costs. The defendant Eager denies the whole of the plaintiff's claim and puts them to the proof. E. B. Edwards, Q.C., for plaintiffs, Leitch, Pringle & Cameron, of Cornwall, for defendants, Filion and Eager.

DOVER vs. DENNE.

Annette Dover and Violette Mary Dover, plaintiffs, and Henry Denne, Thos. Carruthers, Annette Wood Carruthers and Maria M. Burnham, defendants. Annette Dover was the beneficiary by the will of her father, Stephen Wood, Thos. Carruthers, Henry Denne, and John Burnham were executors. The plaintiffs allege negligence and breach of duty by such trustees. They ask that an account be taken of the dealings of the trustees and that the defendants Denne and Carruthers and Maria M. Burnham may be ordered to make good any losses to the estate. Defendant Henry Denne denies the allegations of the plaintiff and states that he never had in his possession any of the assets or moneys of the estate of the late Stephen Wood. He denies negligence. The defendant Maria M. Burnham submits that she is not a necessary party to this action. Deffendants ask that the action be dismissed. E. B. Edwards, Q.C., for plaintiffs; Hall & Hayes, for defendant, Henry Denne, Dennistoun Peck & Stevenson, for defendant, Maria M. Burnham.

Catarrh Can Be Cured

Catarrh is a kindred ailment of consumption, long considered incurable; and yet there is one remedy that will positively cure catarrh in any of its stages. For many years this remedy was used by the late Dr. Stevens, a widely noted authority on all diseases of the throat and lungs. Having tested its wonderful curative powers in thousands of cases, and desiring to relieve human suffering I will send free of charge to all sufferers from Catarrh, Asthma, Consumption and nervous diseases, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing, with stamp, naming this paper, W. A. Noyes, 820 Power Block, Rochester, N. Y.

Finns by Wholesale

Ottawa, Nov. 24.—The Department of the Interior has received advices from Mr. Konin Zilliacus, stating that at the smallest computation 15,000 Finlanders will arrive in Canada next spring. The majority of the immigrants will be from South Finland, which is one of the most fruitful districts in the country. Mr. Zilliacus further states that Zthe edicts of the Russian Government against the solidarity of the Finnish nation have been of no avail, and that Canada is sure to receive the immigrants, who are anxious to leave Finland.

Civil War of the Future

New York, Nov. 24.—At a conference of thee Congregational churches Rev. Charles E. Jefferson said that in future years there might arise a sanguinary conflict between the poor and rich, unless the conditions changed for the better. He advised the wifes of millionaires to visit the slums, and to teach the bible to the children of the poor.

Rev. Dr. Newall Dwight Hillis said that there were thirteen million children whose feet had never crossed the threshold of the Christian church and they would be found in the front rank of the army of the poor against the rich, when the conflict came.

Assistant General Passenger Agent,
1 King Street East, Toronto.

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

BANK FINANCE.

For the past half of its financial year, the Bank of Montreal's earnings are the largest on record. The market price of the stock has risen to 265 from 246 a year ago.

In this connection it may be remarked that the banks ought to do well this year, too. They have increased the rate of interest on call loans to 6 1-2 per cent.

There is no increase on the interest which the banks permit to depositors. That remains at the figure to which the banks have by degrees brought it down and have forced the government also to come down to as regards the savings banks, namely 3 per cent. In fact the government took power from Parliament to make it 2 1-2 per cent., but has not so far ventured to do so.

The banks ought to prosper. They are given the use of large sums of money free, through the government permission to them to issue bank bills to the amount of half their capital, and in addition to the government helps them by legislation to get the public's money cheap while leaving them free to rent it out at such rates as they may agree upon.

NOTES AND COMMENTS

For every dollar by which a Canadian bank increases its capital, it is presented by the country with the free use of half a dollar. For instance, it is asserted by the Toronto World that the Molson's bank will increase its capital by $3,000,000. If this be true, the bank will be allowed by law to issue $1,500,000 in bank notes more than it does now. At the present bank rate of discount, 6 per cent. or better, this amount will bring the bank at least $90,000 a year in interest, a clear profit apart from and over and above whatever profit the bank can make in business by the use of the additional $3,000,000 capital it is said to propose.

* * *

The gallant conduct of the Irish regiments in the Transvaal war will do more to endear Ireland not only to Britain but to the whole empire than anything else that could have happened. And not least of all because it has given the lie to the treasonable mouthings of men who make their living out of Ireland's woes as professional agitators.

* * *

"Gott en Himmel!" exclaimed Oom Paul, as he stood on the Drakenberg watching Buller's army corps marching up from Durban, Port Elizabeth and Cape Town; "Everything seems to be coming our way."

WHAT THE WOUNDED SAY.

Cries of Pain Are Quite Exceptional—Don't Know What Struck Them.

"In Egypt, India, and the Transvaal and Zululand, I have at various times seen quite fifty men who were quite close to me struck down; but the non-military reader who fancies that the wounded shriek, or even commonly moan, is absolutely an error."

The speaker, now a cashier with a great firm of solicitors, was formerly a sergeant of the line, and he sports many medals and clasps. He was talking to a contributor about the present war, and he went on—"Many of the men who have been hit seriously with bullets have told me either that they felt nothing but a slight burning sensation, or the sensation of being hit with a blunt instrument like a club, and that they scarcely realized that they were hit till a paralyzing faintness came over them. I met a man in the Strand the other day who is now in the service of a provision merchant. He was shot close to me at Laing's Nek, a bullet hitting him in the groin. As he dropped he asked me to put a quid of tobacco in his mouth; he never said a word besides, except, 'I'm hit!' It may be said that Britons hate anything like a sentimental speech or a dying message from a wounded man, unless one read between the lines and looked beneath the surface of the actual words. On the contrary, I have over and over again heard men, upon whose foreheads the awful sweat of agony was ever gathering, and who were clenching their teeth and hands with suffering, joke with an apparent show of heartiness. In Zululand, a man of the 24th who had been mortally wounded by an old-fashioned musket ball of some kind, was offering to bet drinks and rations that the bullet had never been moulded that could settle him, and he broke out into a feeble rendering of a music-hall ditty of that time, 'I'm not dead yet, not dead yet—I may be very groggy, but I'm not dead yet,' and he fell back dead directly afterwards.

"There is no doubt that wounded soldiers intentionally say and do commonplace things in order to hide their feelings, and in the last Afghan war there was a sergeant who, mortally wounded and waiting his turn with the surgeons, took a pack of cards out of his tunic and began to play 'Patience.' This incident traveled right through the British army, and I know men who saw it.

"I have many a time heard men most seriously wounded and who afterwards died, shout out some 'catch' expression—such as 'Mind the step'—to their comrades who were still fighting. A man in the same regiment as myself, and who was wounded in such a way that he afterwards died, shouted out to a comrade, who was a bit of a butt, during the height of a hot fight in Afghanistan, 'Make faces at 'em, Ginger, and they'll all run!'"

FAIR MILLBROOK.

Latest Budget of News From Our Southern Suburb.

As Wednesday night, November 15, was the time chronicled by the astromers for the great display of meteors to take place, which is supposed to only occur every thirty-three years, a number of our scientific citizens gave up their night's repose and kept a sharp eye on the sky to witness this magnificent spectacle, but which proved fruitless to all with the exception of Jas. Sanderson, who claims that at 1.30 in the morning he was awakened by the constant crowing of Niddy Hogan's imported mousetail humpty-back speckled rooster, and upon getting up and going to the window the most beautiful sight he ever heard tell of or read of in the almanac met his gaze. He states that the sky was as clear as crystal at the above mentioned hour, and that he could, with the naked eye, discern the twinke of every star so distinctively as if he had been looking through one of the mammoth telescopes at Greenwich. And as he earnestly gazed on the eastern horizon all at once appeared a huge star which he immediately took for a comet, and becoming afraid went into the house and got his musket and then, with all haste, woke all the neighbors on the street to view this wonderful sight. When, to his amazement, he found they all agreed it was the beautiful atumn moon.

The lamp post meetings, which a few years ago were so largely attended, have again revived. On Thursday night we noticed about 20 of our most influential citizens in a very interesting discussion over the British-Boer war. President Wm. Bruce moved that "owing to the airy surrounding they would join the United Sons of Rest, where they would find comfort in their cosy little hall, besides the liberal benefits to be had in this prominent society which already has the magnificent total of 897 members in our own fair town, being about nine-tenths of the entire population. Hon. President Bruce's motion was then seconded by Fred McMahon and carried by a majority of 18. They then adjourned to their respective homes, taking with them bright prospects of the future meetings to be held in the S. O. R. cosy little hall on the following Tuesday evening. Thus was the last lamp post meeting brought to a close by singing the National Anthem, and "Jolly Good Fellows."

Messrs. Thos. Bradley, Robt. Morton, J. Armstrong, C. Fee and S. Nesbitt returned home from the Northwest Friday, well pleased with the prairie province.

Mrs. Robt. Cunningham returned home from Tonawanda Friday.

Rev. H. Gracey, Gananoque, called on Rev. Mr. Johnston Friday, on his way to Toronto.

Messrs. L. B. Collins, W. S. Given, W. T. Wood and Robt. Ruddy were amongst those from here who attended the Hon. J. R. Stratton's banquet.

Mr. Robt. McMahon, of the G. T. R., spent Sunday in town with friends.

Miss May Duncan returned home Saturday after a pleasant visit with friends in Garden Hill.

Mr. H. and Miss Maud Pickup, of Oak Hill, spent Sunday with their friend Miss May Duncan.

Messrs. L. F. Clarry, barrister, Hastings, and E. Clarry of the Examiner, Peterborough, spent Sunday under the parental roof.

Rev. D. O. Crossley, Peterborough, preached a very appropriate sermon on the Century Fund in the Methodist church Sunday evening, and also rendered a couple of vocal solos in a very pleasing manner. We understand the munificent sum of $1,450 dollars was subscribed which will greatly reduce the present church debt.

Miss E. Maddock, Guelph, paid a short visit last week with her brother, Mr. H. A. Maddock, of A. B. Scott & Co.

We would judge by Mr. A. Craig's movements of late that he thinks Belleville damsels surpass his own fair town's charming girls.

Miss M. Henry, of Carmel, is visiting her friend Mrs. Dr. H. A. Hassard.

Miss A. Throop, Port Hope, is visiting her sister, Mrs. H. Argue.

One of the most touching and affectionate farewells ever witnessed in our fair town took place at the depot at the noon train, Saturday, the occasion being the departure of Miss Annie Buck, one of our most esteemed young ladies, who by her admirable disposition has won hosts of friends during her two years' stay in town. Mr. John Howard was so badly grieved that he was only fit for duty after 7 dozen handkerchiefs and two web

DEPARTMENTAL CHANGES.

Ontario Cabinet Reconstructs the Business of Portfolios.

Toronto, Nov. 23.—The Ontario Cabinet at its meeting yesterday afternoon readjusted the different branches. The changes are as follows:

The Treasury Department is relieved of the asylums, license branches and Division Courts.

The Crown Lands department is relieved of colonization roads, game and insurance department, and has added to it the Department of Immigration, which will in future be known as colonization.

The Department of Public Works will have added to it the Division Courts' branch, while fish and game will be united, and will also be under Mr. Latchford's supervision.

The Attorney General's Department will be relieved of the Fisheries' branch and to it will be added the Insurance branch and the Department of Neglected Children.

The Provincial Secretary's Department will be relieved of the Department of Neglected Children, and to it will be added the Asylums and Licenses.

The Department of Agriculture will be relieved of Immigration.

No change is made in the Education Department.

THE SPECTRAL BELL.

A Superstition of the Sea Sometimes Met With on Land.

The tolling of a spectral bell is one of the familiar superstitions of the sea, and especially is the illusion common along this section of the gulf coast. What causes it nobody has ever learned, but there is hardly a luggerman from Mobile to the passes who has not, at one time or another, heard the sound. They describe the note as extraordinarily sweet and clear, rising and falling in solemn cadence and always seemingly close at hand. It is entirely different, they say, from any other noise of the ocean, and they scout the theory that it could possibly be produced by waves.

"It isn't water," said an old seafaring man the other night, "and, for that matter, it's sometimes heard on land. I know, because I've listened to it myself. Back in 1877, if you care to hear the story, I quit sailorizing for awhile and went out west and tried mining. I had a partner named Whicher, and, away up in the Sierra Madre range, in north New Mexico, we found an outcropping of rotten quartz that showed gold. It looked so good that we started to sink a shaft, although it was the most God forsaken spot you ever laid eyes on. It was in a little canyon, a thousand miles from nowhere, ugly black peaks all around us, and lonely—well, lonely is no name for it.

"One day, while Whicher was in the hole and me at the windlass he heard the bell. It was clear as my voice and seemed right over a mountain spur, where we knew there was no living being for three days' travel. It rang awhile and then stopped. Next day it rang again, slow, solemn and plainer than ever. It was broad daylight, and that made the thing all the worse, which sounds funny, but is true. We stood it four times, and then Whicher climbed out of the hole and said, 'Let's go.' I was willing. I believe we had a good thing, but that bell—it was too many for us. It makes my flesh crawl to think about it even now."

Treacherous Soldiers

Lynn, Mass., Nov. 23.—Edward S. Chester, of this city, formerly a private in Co. M, 11th United States Infantry, who has just returned from the Phillippines, where he was two months on the firing line, tells a revolting story of the treachery of some American soldiers, who for crimes of one sort or another have been dishonorably discharged from the army.

He said that many of the Filippino commands are officered by these Americans, the rebel commanders offering large inducements in the way of salary and position to any who will forsake the American army. He says these traitors are a reckless class, and in a great part to their energy is due the tenacity of the rebellion. He said these American soldiers led the Filippinos in several of the fiercest engagements, and play an important part in keeping alive the spirit of rebellion among the fragments of Aguinaldo's commands.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 20 to the COLUMBIA PHONOGRAPH COMPANY, No. 212 Main street Buffalo, N. Y.

THE MAGICAL MIRROR

A CURIOUS GLASS OWNED BY A WASHINGTON MAN.

Several Well Known Persons Have Seen Portentous Pictures Reflected In Its Oval Surface, Although It Will Not Work For All.

While all of us have heard in early childhood of the tales of magical mirrors, in which impossible heroes saw impossible heroines in danger, from which said heroes proceeded to rescue the fair maidens, yet such things have been relegated by most of us to the region of the imagination. We regard such things as being outside of the real world of today and belonging to the region of myth and fable. Yet, in spite of our prosaic nineteenth century, it is nevertheless a fact that a Washington gentleman is the possessor of an article which might be classed as appropriately belonging to the time of Aladdin and the wonderful lamp.

This strange acquisition is a mirror which came from India, and in which one can see the events which the future will bring forth. That such is its power is attested by some of the best known gentlemen of the city, who, for obvious reasons, do not wish their names to be mentioned.

This mirror came into the possession first of a Washington lady who was travelling in India, and, being interested in the religion of the country, took a trip to the famous temple of Alora, which lies in a rocky side of the foothills of the Himalaya mountains. This temple is now but a ruin of jagged rocks, jutting out harshly into the soft greensward that rolls smoothly down into the valley below. Above tower the vast mountains with their glittering caps of snow looking down on the peaceful tropical scene where for ages the followers of Brahma have performed their sacred rites.

The ruins of the temple stand open to the weather, and its ancient glory, which shone in such splendor before the English came to India, is now diminished. But a small band of Brahman monks still kept the sacred secrets and ceremonies alive. Few Europeans ever penetrate this section of the mountains, but the Washington lady mounted and visited the monastery. While there she managed to secure possession of one of the mirrors made by the monks and reputed to possess wonderful properties.

The lady brought the mirror with her on her return to town, and at her death it came into the possession of Mr. Lowdermilk. From him it was bought by a gentleman who takes great interest in such matters, but who would not like the fact of the existence of the mirror in his house to be known, as it would attract thousands of seekers after the curious. After paying quite a large sum for the glass the mirror was brought home and put to the test.

The mirror is oval in shape, about a foot long and is surrounded by a wooden frame two inches in width and painted a dark green. The back of the glass is coated with asphaltum and then covered with dark linen, so that the whole has the appearance of a lustrous opal. The method of use is by sitting with the mirror in one's lap and holding the glass so that there is no reflection of other objects shining on the surface of the glass. If the test is a success, there will appear in about a quarter of an hour a thin, cloudy mist, which will slowly float over the surface, and then the images of future events will be mirrored in the seemingly fathomless depth of the dark glass.

The gentleman who owns the mirror has never been himself successful in seeing anything, but a friend of his, a prominent judge and a thirty-third degree Mason, had a remarkable experience. He placed the mirror in his lap, and, after half an hour, a mist floated over the surface; then he saw reflected in the glass a picture of a coffin, within which was the still, white face of a dead man. At first glance the features seemed those of the gazer, but on looking closely it was seen that they represented exactly the brother of the gentleman—a man then in perfect health. In a second the picture shifted, and another face—that of a friend—appeared within the sides of the coffin. The gentleman in two weeks afterward lost his brother, and in a short while his friend, whose face he had also seen, passed to another world.

A son of the owner was one evening looking into the mirror, when he saw within a picture of a house in flames. There were the servants leaping from the porches, then returning to drag out the furniture. The glare shone around on a yard which the gazer recognized as that of his own farmhouse down the Potomac. By the mail two days afterward he received from his housekeeper an account of a fire which had destroyed his home, and the description tallied exactly with the picture seen in the mirror.

Another man, a gentleman employed in the bureau of ethnology and well known as a scientist and linguist, has also seen many pictures in the mirror—pictures of events in his life which were afterward realized to the letter.

By a student of occultism the following directions were given in a treatise on that subject, which dealt with the methods employed in making such mirrors: The materials need are one glass, 6½ inches by 8½ inches, free from flaws and concave in shape; a small amount of turpentine asphaltum, a pint of spirits of turpentine, a small hairbrush, a box in which to case the mirror, and a half a yard of new cloth.

The glass is placed in a clean, light and airy room, the materials washed perfectly clean; then the brush and the glass are wiped over with turpentine. Afterward the back of the glass is coated smoothly with a thin varnish of the asphaltum and left to dry, the operation being repeated for the two following days. At the end of that time the mirror is magnetized by placing the hands above it and slowly waving them to and fro, so that the animal magnetic force may be well absorbed by the asphaltum. The asphaltum is the best known material for absorption of the ooze of the human body, and this is the reason for its use. The test should be made also in a clean, airy chamber when alone and when the mind is composed, and by perseverance the inquirer is sure to be rewarded—so say the books on magic.—Washington Post

The Birds Save Us.

A French naturalist says that if the world were to become birdless man could not inhabit it after nine years' time. In spite of all the sprays and poisons that could be manufactured for the destruction of insects the bugs and slugs would simply eat up orchards and crops.

Fact Versus Fiction.

"Talk about the seven sleepers," mused the angry traveller; "I'll bet there are 7,000 of them between Albany and

VIVID HEALTH

Nothing as rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness to the gain of wealth. A loaded purse cannot atone for the deranged liver, the altering step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

DANGER FROM NATIVES

HORDES OF THEM MAY BE EMBROILED IN THE WAR.

Awaiting Opportunity—Some Favor the British and Others Stand in with the Boers.

America, through the African Methodist Episcopal church, has become an important factor in the Transvaal war South Africa is the home of a number of warlike native tribes, chief among which are the Zulus, Basutos, and Matabeles. These people resent the coming of the white man into their country. They are particularly antagonistic to the British, against whom they waged fierce wars for years. At present they are living in subjugation having been conquered by the Britons, but only at a terrible cost of human life and money. Their warlike spirit has never been broken; they thirst for the freedom they enjoyed before the British gold-seeker invaded their land, and they wait for an opportunity to rise again against the foe. This opportunity now seems to be at hand. It was a Boer intrigue that sent the Matabeles against the British nearly four years ago; the shrewd burghers may find it possible how to enlist the services of the Zulus, Basutos, and Matabeles in warfare of the same nature. The only thing that can restrain them is the influence of the pastors and missionaries of the African Methodist Episcopal church, which is an American institution.

Should the Zulus seize the opportunity offered in the Transvaal war to strike for freedom, England would have her hands full. Should the bold Basutos join arms with their fierce cousins, South Africa would become hot soil for the British foot for many long months to come.

Both of these uprisings are threatened; both are greatly feared. The Zulu situation in particular is watched with anxious eye. England for a while was overmatched in the last Zulu war, and victory was bought in the end with rivers of English blood. Scarcely any greater misfortune could come just now than an uprising such as this.

Zulu a Dangerous Opponent.

The Zulu is undoubtedly the best native fighter of South Africa. He is physically a splendid savage—fierce powerful and enduring. Add to this the memory of a magnificent past, the traditions and courage of a race unwhipped except by white men, and by them only at fearful odds, and you have a worthy foeman. The Zulus yielded to the sway of England through force indeed, but the fight they made then was one to keep alive the hope of a better ending for renewed struggle.

The secret of the Zulu power lies first, in organization, and, second, in the tradition of victory. Organization under the great chieftain Tshaka at the beginning of the present century gave them their first superiority over other savage tribes, and an unending series of victories for half a century or more produced a race of rare courage and warlike prowess.

The Zulus swept the coast, subjugated Natal, and pushed their fierce [illegible] away far inland. The terror of their name passed far north and far south.

Nor was there limit to their ravages until the Dutch settled in Natal. Then began a series of fierce fights in which the white man and the rifle finally triumphed and the Zulu power was broken, or at least reduced to the point of non-interference with the movements of the Dutch and the English, who soon after swarmed over the land.

But while taught to respect the white man, the Zulu nursed his traditions, his pride and his ferocity. It was a disgrace in his eyes to labor except in the prosecution of war. Under Cetewayo the great chief whose power England broke in a war in which she met several terrible reverses and lost hosts of splendid men, the Zulu was at heart the Zulu of the great Tshaka's days.

And this is the people who now threaten to avail of England's troubles to regain their freedom. They are the same in spirit and are rich in resentment. For years they have nursed their wrongs. What they have lost in savage fierceness by a generation of peaceful subjection is more than matched, say recent writers, by their gains in knowledge. They still retain their terrible stabbing assegai, but they have added the rifle, and are splendid marksmen. They dream of restoring the splendors of the past and, if they rise can be counted a terrible foe.

Forces of Native Warriors.

Zululand to-day has a population of about 180,000 natives and less than 1,500 whites. The only occupation of the natives is the raising of cattle. There are 8,900 square miles in the district and the government is a British protectorate.

The Basutos, while by no means the peers in war of the Zulus, occupy a strong position Basutoland is bounded by Cape Colony, the Orange Free State and Natal. They have discouraged the white man and there are only 600 Europeans in their entire territory. The country is a splendid grain producer, and the Basutos are thrifty and rich. There are wild mountain districts to serve in time of need. The Basutos were once a warlike power of some consequence, and in 1879 they stood off England in a war over disarmament to a compromise by which the Cape government has since paid them $99,000 a year toward the cost of government. They are in large measure self-governing—of course, under British dictation—and enjoy a considerable measure of civilization. About 50,000 out of a population of 220,000 have been converted to Christianity.

Matabeleland lies to the north of the Transvaal and embraces a district [illegible] with a population of 200,000. Under King Lobengula the Bechuanas and Mashonas were allied with the Matabeles and should probably fight with them again should their services be required.

Position of Native Church.

Churches and missionary stations of the African M. E. church, under the charge of native converts, are scattered all through South Africa, and if an uprising of the warlike tribes is averted it will be through the mediation of these missionaries. Vicar Bishop J. M. Dwane is the nominal head of the African Methodist church in South Africa. He is a native Kaffir. Up to the time of his fourteenth year he was a heathen. At that time he was converted to the Christian religion. Later he was sent to England and educated for the ministry. His efforts to spread the Christian belief among the natives of Southern Africa have met with signal success. In the present crisis in that end of the dark continent he is relied upon by the governing powers of his church to preserve the neutrality of the native tribes during the continuance of the war between the English and the Boers. It is held by Bishop Henry M. Turner and other strong men of the church that an uprising of the natives would be a calamity. They are fearful of its effect on the other civilized world, and are bending their energies toward preventing it. Vicar Bishop Dwane is believed to have influence enough to keep the natives neutral. The policy of the church to employ native preachers in the African ministry will aid materially in this desire to restrain the tribes. Bishop Dwane has about 150 native preachers, who are working at various mission stations and churches in Cape Colony, Rhodesia, Natal, and the South African Republic, and the Orange Free State. Most of these preachers and workers were educated at Queenstown college and at the Wilberforce university at Wilberforce, Ohio, in this country.

"Africa for the African.."

Hints come from some quarters that the thought of self preservation is the motive of the spirit of the men who are holding in abeyance for the present the cry of "Africa for the Africans."

"We are weak," said a prominent African Methodist not long ago, "in the possession of material agencies of civilization. We have the physical strength, and, I believe, the moral courage, but we lack the discipline of civilized life and the acquired knowledge of its weapons of offence and defence, to make it a part of wisdom to encourage antagonisms at this time. 'Africa for the African' will come when the negro has a wider faith in God and a stronger love for the glories of life and its products.

Here, perhaps, is given a glimpse of the actuating motive of the African Methodist church in its present attitude on South African affairs. That new light has come to the natives is made evident by the recent request of the more powerful Basuto chiefs for a conference with Bishop Dwane. This conference is ostensibly for the purpose of consulting on the wisdom of making a strike to regain the lost possessions of the native tribes. The conference will be held, and it is understood that Bishop Dwane will advise against such a course at this time. Bishop Turner is holding himself in readiness to go at a moment's notice to South Africa should he deem the conditions require his presence there. —Chicago Inter Ocean.

It is rumored that a survey from a point northwest of Bowmanville, through the counties of Ontario and Durham and on to Cobourg is about to be made the coming winter. Can it be possible that the C. P. R. will come in from the west?

VINEGAR, THEN LEAD.

They Settled the Trouble at the Carbonville Postoffice.

"I think my most exciting official experience," said Captain J. E. Stone, formerly United States postal inspector, "was at the town of Carbonville, Colo., in 1879. It was a star route post, and there was much complaint about the nonreceipt of mail, so I went over to investigate.

"The postmaster was a man named Wilson, who kept a general store, and the postoffice consisted of a soap box on the end of his counter. When mail arrived, it was dumped in, and every fellow helped himself, an arrangement that worked well enough until a chap known as Black Hills Pete came to town. Pete disturbed the entire system. When he didn't get a letter himself, he would tear up several others on the principle that misery loves company, and, being a notorious desperado, nobody dared interfere. I got the facts, and as the mail came in that evening I took a seat in the corner and awaited developments, first ordering the box removed.

"A little after dark the miners from camp began to assemble, and presently in came Black Hills Pete. He was a big brute of a fellow, and I saw at once there was going to be trouble. 'Where's that letter box?' he demanded of Wilson. 'I've ordered him not to use it any more,' I said, getting up. 'Who the blank blank are you?' roared Peter. 'I'm the inspector,' I replied. 'Well, you get me that box quick,' he retorted, and, seeing him reach toward his pocket, I made a grab for my gun; but, as bad luck would have it, the confounded thing caught in the holster

"In a twinkling he had me covered, but before he could turn loose a quavering voice called out: 'Pete! Oh, Pete!' The desperado glared around, and there stood Wilson holding a large tin squirt gun used for drawing liquors The sight was so ludicrous that the bully burst into a guffaw, and as he did so Wilson let drive the piston and hurled about a quart of the strongest kind of vinegar squarely into his face. The stuff blinded him, and before he could recover himself the storekeeper had two bullets in his shoulder.

"That's the true story of the strangest fight that ever occurred in the west Pete recovered, but before he could be arrested was spirited away by friends to New Mexico. His right name was Luther Coleman, and there is a warrant now standing against him for destroying United States mail matter. After the episode I have narrated there was no further trouble at the Carbonville postoffice."—New Orleans

His Grace Retires.

Kingston, Ont., Nov. 23.—Archbishop Lewis has given notice of his retirement as bishop of the Diocese of Ontario to take effect in May 1900. This is owing to old age and infirmities He has been bishop for 38 years. The diocese will give him a retiring allowance of $2,000.

Saw the Germans.

Windsor, Eng., Nov. 22.—Mr Chamberlain arrived at the Castle on a flying visit during the day, which in view of his recent visit to the residence of the Premier, is causing much speculation. Mr Chamberlain interviewed Count Von Hatzfeldt, Wildenburg, the German Ambassador and Count Von Buelow the German Minister of Foreign Affairs. Emperor William, on his return from shooting, summoned Count Von Hatzfeldt to a long audience. Mr Chamberlain returned to London without seeing the Queen, who was out driving.

Farm Lands Under Water.

Denison, Texas, Nov. 23.—This section is in the early stages of a flood that threatens to be the most disastrous known in many years. Thousands of acres of valuable farming lands are under water. Families are fleeing for their lives from the bottom lands. Last night the situation was decidedly serious, as it was thought that many houses would be swept away.

Montreal to Cuba

Montreal, Nov. 23.—A new route from Montreal to Cuba has been opened up by the Intercolonial Steamship Company of New York. Mr. E. F. Clements, the general manager, who is at present here, states that the company purpose connecting with the Grand Trunk railway system at their terminus at New London. The G.T.R. last May acquired the Central Vermount railway, and made a second Atlantic terminus for their line at New London, giving them a direct line south from Montreal to the ocean. The contract made between the colonial line and the Grand Trunk system calls for two steamships for the present, the service to be increased as the exigencies of the route demand.

Endorsed by Physicians

"I desired to test in my practice various Witch Hazel products. I have done so, and am thoroughly convinced that your preparation (Pond's Extract) is preferable to all others for either internal or external use."

FAIR MILLBROOK.

of factory cotton had been saturated with the precious dew drops of love, and the strongest eye glasses bought of Mr. A. Leach adjusted to his affected eyesight. Mr. Howard's numerous friends offer their sincerest sympathy to him in this trying hour of adversity.

Miss Lily Staples, of Peterborough, returned home Monday after an enjoyable visit with her aunt, Mrs. A. Fee.

Mrs. S. Crocker and son, Master Joe, of Peterborough, returned home Tuesday, after a pleasant visit with friends.

Miss Mary Richards left Tuesday for a fortnight's visit with friends in Omemee.

It is with deepest regret we announce the loss of one of our best respected and intellectual ladies, being in person Miss Mabel Clarry, who, for numerous years, acted as organist in the Methodist church, which position she filled admirably and won for herself numerous friends by her punctual attendance and devoted manner in which she performed her duties. On Monday evening a farewell social was held in the basement of the church, where after a number of touching speeches had been made she was presented with a well filled purse given in behalf of the choir and congregation as a slight token of respect and esteem in which she is held. Miss Clarry left on the evening train Tuesday for Marquette, Mich., where a good position as organist awaits her. Millbrook's loss is Marquette's gain.

Messrs. Thos. Lang and Robt. Hadden left Wednesday for Sudbury where they have secured good situations in the lumber trade.

Miss Kate Carveth left Wednesday to visit friends in Lindsay.

PLANS TO AID THE BRITISH.

Chicago Man Desires to Raise a Regiment Similar to the Rough Riders.

Since the outbreak of hostilities in South Africa, which followed President Kruger's ultimatum, martial spirits in this country have been stirred to announce every few days that they were about to raise a regiment in some part of the United States for service in one or other of the opposing armies, and no doubt some such enthusiastic offers have been made to both Oom Paul and John Bull by those who did not stop to consider whether Uncle Sam would stand idly by while such forces were being raised and started for the seat of war.

But it seems that a Chicagoan got in ahead of them all with what appears to be the only feasible offer made so far, and one which the British Government has under consideration, in case it should be deemed necessary to increase General Buller's forces.

The author of this proffered aid is E. G. B. Haymon, an Englishman, who has made Chicago his home during some years, which he has devoted to sporting journalism and hunting trips out west, while last year, for a change, he sought adventure as a trooper in Governor Roosevelt's famous regiment of rough riders. Before coming to the United States he spent four or five years on the plains of the Canadian Northwest, and it is in that region he intends to recruit his men when the British Government gives the nod.

Writes to Chamberlain.

While the Boers' ultimatum was made known to the world some weeks ago, Basil Haymon was in Texas. He at once concluded war in South Africa was inevitable, and forthwith sat down and wrote a letter to Joseph Chamberlain, British secretary of state for the colonies, offering to proceed to the Canadian Northwest and raise a cavalry regiment or squadron, composed of men, who, to quote Governor Roosevelt's words; "could ride, shoot, fight and obey orders." The British secretary at once sent a courteous acknowledgement of the offer, and stated it had been referred to the war office for further action.

This reply reached the ex-rough rider in Chicago last Tuesday, and he is now waiting with eager hope of soon receiving favorable instructions from the war office in London. Speaking of his proposed undertaking he said —

"I selected the Northwest territories of Canada as a recruiting ground for two reasons. First, because it would be free from international complications; second, because of the quantity of good material there. I mean men who are inured by life on the plains to exposure, roughing it, long hours in the saddle, the use of firearms, and who are accustomed to finding their way over vast stretches of country. Physically, they would be ready to enter on a campaign at once. Plenty of the same sort of material is available in the Western States, but I don't suppose the government would allow a regiment to be organized and taken out of this country. I know a good many fellows living between the Canadian boundary line and the Gulf of Mexico who would go on such an expedition only too quickly, but they would have to meet me over the border. Of course, I should like nothing better than to get word from the British war office to go ahead.

Relatives in the Army.

"All my mother's four brothers held commissions in the army. The eldest one, the late Sir Jocelyn Westby, was a subaltern in the Scotch Grays, when that famous cavalry regiment and a squadron of the Inniskilling dragoons charged 3,000 Russian cavalry at Balaklava on the same day the 'six hundred' rode down the valley of death. The second eldest was a captain in the Eight regiment of the line—what we would call the Eight infantry here. The third was a major in a rifle brigade when he died on foreign service. The youngest, Major General Basil Clifton Westby, served for thirty years in all parts of the world, with the Sixteenth (Bedfordshire) regiment, in which he went through all ranks from subaltern to colonel.

"General Sir Redvers Buller, who is in command now in South Africa, I met several times about twenty years ago. At that time he was a colonel, and was quartered in Lichfield, in Staffordshire where he was in command of the garrison, or the district, I forget which. He was living in a house which he leased from my godfather, the Rev. Khilip Haymon-Dodd, canon of Lichfield. I was a school boy then, and Sir Redvers and I never got very chummy; he was too stern, and I suppose I was full of the old Harry. My boyhood recollection of him is that of a large, powerful, stern man, who had little to say, and always said it as if giving a command. All the same I would like to be with him during the next three or four months. I'm thinking what he will do to General Joubert and his merry men will be a plenty."—Chicago Inter Ocean.

CHRISTMAS COMIN' SOON.

By the Hilarious Editor of the Times, with Sundry Apologies.

O, the turkey's settin' on the barnyard
 tree,
 Chris'mas comin' soon.
I wink'd at him and he wink'd at me,
 Chris'mas comin' soon.

I say—"old turkey, don't you make no
 face,
 I leave you hear in the fattening place—
Come back bimeby and I attend you case
 Chris'mas comin' soon.

O, turkey settin' on a crooked limb,
 Chris'mas comin' soon.
I've got a project bimeby with him
 Chris'mas comin' soon.

He's got so fat that his skin turns blue,
 His owners watch till they think he'll
 do,
And this old man, he's watchin' too,
 Chris'mas comin' soon.

The old dog's barkin' lak his heart would
 break,
 Chris'mas comin' soon.
I climb up yonder to the chicken spake,
 Chris'mas comin' soon.

The old gog's waitin' at the hen house
 door
 To help our retreat when we have to
 soar
Or bark while we cross to the other shore,
 Chris'mas comin' soon.

Won't hang no stockin' on our household
 wall,
 Chris'mas comin' soon.
'Cause Santa Claus won't come at all,
 Chris'mas comin' soon.

The good Lord whisper when I dream at
 night
 "Rouse up, old sleeper, 'foret he day
 gets light,
And yank that turkey from the farmer's
 sight
 Chris'mas comin' soon.

We'll soon be squattin' at the banquet
 board,
 Chris'mas comin' soon.
I ask a blessin' from the Lord,
 Chris'mas comin' soon.

Then I take that chicken and I break the
 bone,
 And I pour the gravy on the old delf
 pone
And I carve that turkey that the farmer's
 mourn,
 Chris'mas comin' soon.

WAR TERRORS.

Pale Into Insignificance to the Man who is Tormented with Piles—Dr. Agnew's Ointment Will Cure Them.

Of all flesh ailments the most distressing is piles, blind, bleeding, itching or ulcerating—and the remedy that will give the quickest relief and the surest cure is Dr. Agnew's Ointment. It holds a phenomenal record as a certain pile cure, and the words "relieved like magic," have been heralded round the globe, and are but the voices of the nations telling of its curative powers. It cures all skin diseases, eczema, salt rheum, scald head, etc. Sold by Ormond & Walsh and H. C. McDonald.

Parents of 25 Children

Samuel Swartwood, an engineer on the Jersey Central Railroad, and his wife are the parents of the largest family in the United States. Mrs. Swartwood, although only 41 years old, is the mother of 25 children, of whom 20 are alive. Her first child was born when she was only 15 years old. There have been two pairs of twins.

"Look at these children!" said Mrs. Swartwood to a reporter the other day. "Ain't they riches enough, and every one living at home except two girls that got married. It's nice for father and me to have them all here, although it does crowd us up a bit. We haven't got a big house, as you can see, and every bit of the space is used. Walk into the dining room there and look at the table."

It was a table to look at, of generous width and very long. It bore plates and knives and forks for 22 people. At intervals were great piles of bread.

"It keeps me and the girls pretty busy looking after the eating and washing for our big family," resumed Mrs. Swartwood. "Father makes about $70 a month, and the boys bring in about $90 a month, and while we get along nicely, we have nothing to spare."

Dog Versus Man.

Refined society in West Hoboken, New York, is buying tickets to a grand eating match scheduled to occur Saturday night at Nejuvoda's Hall between a man and a great Dane dog. The competitor that devour the most food will be the winner. A trough full of eatables will be given to each animal and the conditions are such that it will be a fair contest from start to finish. The man in the match is Professor Frank Hermann. He is professor of the art of eating, having won the State egg-devouring contest at Trenton last summer. He also wears several medals which he carried off in pie races and cider-drinking affairs. He says he is the hungriest man in West Hoboken, and boasts that he has been expelled from every boarding house there for changing its net profits to net losses.

A Rare Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

STATE LINES.

Lumber can't help being high in Oregon. It grows that way.—Oregonian.

Iowa, Kentucky, Maryland, Massachusetts, Mississippi and Ohio are the only states that elect governors and state officers this year.—St. Louis Republic.

Missouri now has a beer inspection law. The rush for appointments as inspectors will be akin to the opening of an Indian reservation to settlement.—Omaha Bee.

It is predicted that a comet will strike Iowa next fall, but a comet will have no terrors for the Iowan who has lived through an active cyclone season, with a political campaign due next year. —[illegible]

His Prerogative.

Speaking about speeches in the senate, Don Cameron had the record for the senator with the longest service and the shortest speech. The then senator from Pennsylvania spent a good deal of time in the senate chamber, but he always lolled around in his chair, apparently taking no interest in the proceedings. The whole session seemed to bore him until late in the afternoon, when he used to put enough energy in himself to rise in his seat and say to the vice president, "I move the senate adjourn." Toward the end of his service in the senate Mr. Cameron seemed to consider this motion his prerogative, and no one disputed his claim, as it seemed to be the only way of recording his

What "THE PRESS" says:

WE GIVE TRADING STAMPS

LONDON FREE PRESS—The saving of Trading Stamps is so general among the ladies of London that the exceptions are indeed few.

THE LONDON NEWS—The BEST PEOPLE of London are the most indefatigable collectors.

LONDON ADVERTISER—The Trading Stamp is an immensely popular thing. There are over 3,000 families now using Trading Stamps in London.

THE OTTAWA FREE PRESS—The Company have, during the last ten months, established 21 showrooms in Ontario alone, which goes to show that they are conducting their business in a manner that SECURES THE PUBLIC CONFIDENCE.

ST. THOMAS JOURNAL—The systematic and thorough manner in which the Dominion Trading Stamp Company conduct their business must necessarily attract the attention of all thinking people who realise that CASH DEMANDS A DISCOUNT.

VICTORIA, B. C., TIMES—The increase in cash trading since the system was inaugurated here is remarkable.

THE TORONTO GLOBE—The Trading Stamp Company are conducting their business in a manner that secures the public confidence.

THE TORONTO STAR—The Dominion Trading Stamp Company has established a permanent business on a substantial financial basis which has long since passed the experimental period. The popularity of Trading Stamps is attested by the fact that over 13,000 people attended the opening of the new showrooms the first day.

THE TORONTO NEWS—There can be no doubt that Trading Stamps are increasing in popularity every day.

BUSINESS—The Toronto Trade Journal in comparing it with other systems says: "The business of the DOMINION TRADING STAMP CO. is conducted in an entirely different way. Their stamps are transferable and redeemable at all Agencies, no matter where issued or collected. A book can be filled in OTTAWA, BROCKVILLE, KINGSTON, TORONTO, WINNIPEG, VANCOUVER, or any of the other cities where they are issued, and is redeemable at whatever showroom it is presented.

Their total stock of merchandise carried in TORONTO and the other cities where they have showrooms CANNOT BE LESS THAN $60,000, which in itself provides ample security for the redemption of their stamps"

THE DOMINION TRADING STAMP CO. is the safest strongest and most popular institution of the kind in the world.

PETERBOROUGH, SHOWROOMS

MISS A. CAHILL, Manager

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

COPPER!

WANTED—First class man to sell stock in A. 1 Copper Company now at work. Liberal terms to right party. Address with references, P. O. Box 181, Boston, Mass.

Morning Times

PETERBOROUGH, NOVEMBER 18 1899

General Buller will Fight.

The cold weather is here for us to fight: but Kidd the shoe man is here, to sell ladies 6 button overgaiters at 20c a pair; 10 button 50c. This will help you fight the cold at half price. Sale of boots and shoes to be continued during the week.

FLEECE LINED SHIRTS AND DRAWERS.

Men's heavy fleece lined, winter weight, Shirts and Drawers, sizes 32 to 46 will be sold on Saturday only at the Port Hope Knitting Works for 36c. This is the greatest bargain of the season. Ask for trading stamps.

In the Fight.

Mr Tom Miller, son of F W Miller, of this town, is a member of the Scots Guards, which participated in the great battle on Thursday under General Lord Methuen. Mr Miller is naturally anxious as to whether or not his son escaped injury.

The McMaster Case.

The friends of Mrs Wm McMaster succeeded in raising sufficient funds to put in an appeal against the finding of Police Magistrate Dumble. It will be remembered that the woman was sentenced a few days ago to six months in the Mercer. The trial will take place before Judge Weller on December 12.

Wanted

A smart trustworthy boy to make himself useful in bookstore. Apply at Times Bookstore at once.

The Band Concert.

The concert given by the band of the 57th Battalion last night was a great success. The large hall was packed to the door, many not being able to gain admission. The music was superior to anything ever listened to in Peterborough with, perhaps, the exception of Sousa's band and the band of the Grenadier Guards. Mr Glidden has just reason to feel proud of his organization.

RUGBY FOOTBALL.

Nicholls Park, Nov. 25th,

At 2.45 P.M. Admission 25c.

2,000 Shantymen.

All the men who every winter make lumber working their occupation have left for the woods, and the different lumber camps are in full operation. Although most people in Peterborough are aware of the fact that this town is one of the principal places in Canada for the hiring of shantymen, few realize how many lumber workers are engaged from here every year. According to Mr T Cavanagh, lumberman's agent, 2,000 woodsmen for different timber limits have been hired in and around Peterborough this season. This number is about 1,400 more than last year. A large number of the men have been hired for Western Ontario limits. The Dickson company alone have over 300 men in the woods.

ADVERTISE IN THE TIMES

FENELON FALLS POWER LINE.

Rapid Progress Made—Wiring Will be Commenced in a Few Days.

Peterborough people are interested in the progress of the work on Fenelon Falls-Lindsay power transmission on account of the rival scheme known as the Burleigh-Peterborough-Lindsay scheme. It has always been felt that the success of the one meant the failure of the other, and as Lindsay is the mainstay of the scheme, the company that gets there first is almost sure of the business. In connection with this matter the Post says that Mr Walter Reeson, foreman of the construction gang at work planting the poles for the Lindsay Electric Light Co's power line from Fenelon Falls, was in town on Tuesday, and stated that all the poles are now in place with the exception of a few at McLaren's Creek, where they will have to be embedded in cement owing to the marshy nature of the soil.

The wire for the pole line has been on hand for some time, and the work of stringing threelines will be proceeded with as rapidly as possible in order to take advantage of the present mild weather.

The power house at Fenelon Falls, will be completed very soon. The roof is now being put on, the foundations for the machinery are laid, and it is expected that power will be transmitted before the first of the new year.

for
Championship of Canada
Nicholls Park, Nov. 25th,

At 2.45 P.M. Admission 25c.

A Bailieboro Wedding.

A very pretty wedding took place in Christ church, Bailieboro, Thursday when Miss Maggie Lucas, second daughter of Mr John W Lucas of "Walnut Farm," was united in marriage to Mr J Greer, jr., an enterprising young farmer of the township of Caven. The ceremony was performed by Rev Archdeacon Allan of Millbrook, assisted by Rev W C Allan. The church was most handsomely decorated for the occasion, and the couple were married under an arch of evergreens and. The bride looked bewitching in a costume of white silk elegantly trimmed, and was assisted by Miss Celora Perrin, who wore a gown of deep blue taffeta silk. Mr W M Lucas, brother of the bride, officiated as best man. Master Tom Allan acted as page and the maid of honor was Miss Ethel Wood, the little daughter of Mr John Wood. The ushers were Messrs Wm Campbell, J L Eair, Robert McCamus and James Wood. After the ceremony the newly married couple and their friends repaired to the handsome residence of Mr W J Lucas, father of the bride, where a most enjoyable time was spent. The presents were very costly and numerous testifying to the high esteem in which the young couple are held. They left on a wedding trip to Montreal and points east, and on their return will take up their residence on Mr Greer's fine farm in Cavan.

A Pleasant Affair.

Mr George Stevens, the enterprising junk dealer in Ashburnham, entertained his employees and their families to a supper, which took place in the Salvation Army barracks. The tables were prettily decorated, and covers were laid for seventy guests. Mr Stevens has always shown a most kindly interest in the welfare of his employees, and this is only another example of the kindness of his heart. Mrs Stevens and a number of helpers looked after wants of those present.

A Popular Lecture.

The lecture given by Rev Father F J O'Sullivan on "Northern Italy" at the rooms of the Catholic Association last night was well attended, notwithstanding the attractions elsewhere. The Rev lecturer eloquently described the many beauties and characteristics of "Sunny Italy." The lecture was supported by beautiful lime light views, by Mr R M Roy. At the conclusion of the lecture a vote of thanks was tendered both the speaker and Mr Roy.

MEN PROWL
Because Uneasy
Peace COMES WITH GOOD FOOD
TRY
Grape-Nuts
[illegible]LD BY GROCERS

MEAT FED TO HORSES.

"Animal food, unless mixed with at least four-fifths of vegetable products, is apt to produce irritable temper and chronic restlessness. Wherever experiments have succeeded in accustoming horses to a diet of flesh food, the results were attested by torn bridles and smashed stable doors. Carnivorous men begin to growl to ease the feeling of gastric discomfort, and if deprived of that remedy become fretful and vindictive, especially when the causes of nervous derangements have been complicated by other stimulants," writes Dr. Felix Oswald.

Like produces like, therefore, the nervous dyspeptic should seek food from the peaceful and nutritious grains of the field.

Grape-Nuts made of wheat and barley most skillfully blended and manufactured furnishes a food, fully and perfectly cooked; and supplies the highest form of nourishment combined with delicious flavor. Grape-Nuts are sold by all first-class grocers, and made at Battle Creek, Mich., by the Postum Cereal Co., Limited.

BREAD IS DOWN.

Good News for the Bread Winners of the Town.

For some months past the local bakers have kept the price of bread up at 10 cents per four pound loaf, notwithstanding that the price of flour has very much decreased. A short time ago Mr James H McQuay, the enterprising George street baker and confectioner, reduced the price of bread to 8 cents per four pound loaf. The result was that others were forced to do the same in order to hold their customers. Several of the bakers are charging "what they can get" above 8 cents.

The public are now advised of the reduced price, and if they pay more than 8 cents it is their own funeral.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

Death of Mr. Thos. Sarginson.

We regret to chronicle the death of Mr Thos Sarginson, which occurred at his home in Otonabee yesterday. Mr Sarginson was 54 years of age. He had not been in the best of health lately, and his demise was not unexpected. The funeral will leave the family residence, lot 17, con 10, Otonabee, to-morrow, at one o'clock, to the Little Lake cemetery.

The Whitcher Dramatic Co.

The performance in the Opera House last night was the well known and ever pleasing drama Hazel Kirk, and despite counter attractions next door, drew a fair sized and appreciative audience. The play was well put on and rendred by the Whitcher troupe the play being far above the average. The company to-night close a very successful week's engagement. A matinee will take place this afternoon when the mirth provoking comedy "Too Much Mother-in-Law will be presented. School children 5c. Ladies and gentlemen 10c.

Lost a Finger.

Mr James Anglesy, son of Mr Samuel Anglesy, Reid Street, an employee in the Canadian General Electric works, had the index finger on his right hand badly smashed. Dr Young wa quickly in attendance and found it necessary to amputate the finger. At the request of the patient he did not administer chloroform, and the brave fellow did not utter a groan during the operation.

Wedding Bells

A very happy event took place at the residence of Mr. Charles Edwards, of Otonabee, on Wednesday evening last, when his eldest daughter, Miss Lizzie, was united in marriage to Mr. Joseph H. Manley, of Otonabee. The Rev. Mr. McCauly performed the ceremony. The bride was charmingly attired in cream cashmere, trimmed with cream satin and ribbon, with a bridal veil and orange blossoms, and wore a bouquet of white carnations. She was attended by her sister, Miss Bella, who was dressed in a like manner and wore a boquet of pink carnations. The groom was supported by his brother, Mr. Charles Manley. The wedding march was played by Miss Sarah Edwards. At the conclusion of the ceremony about eighty guests sat down to a wedding supper. A large number of handsome and costly presents attested the esteem in which the young couple is held.

LITTLE LOCAL LINES.

A blank at the Police Court yesterday.

Fifty newsboys wanted to sell the Morning Times.

Rev. Mr. Symonds' Bible Class will meet at four o'clock in the Y. M. C. A. hall this afternoon.

The work at the Stewart street sewer has been completed. It is passable for the winter, but is not in avery satisfactory condition.

At a session of the county police court a vagrant from Belmont was sent up to the Central Prison for six months by County Magistrate Edmison.

The large new water tank just west of the freight sheds at the C. P. R. yards has been completed and ready for use. It has a capacity of 100,000 gallons.

Hon. J. R. Stratton, Provincial Secretary, speaks at Dutton on Wednesday next, Nov. 29th, on behalf of the Liberal candidate in the West Elgin bye-election.

P. Murphy was charged with assault at the County Police Court. He pleaded not guilty, elected to be tried summarily and was remanded till Monday for hearing.

The 18th anniversary of the Y.M.C.A. Association will be held on Monday evening next. Mr. C. T. Williams, the President of the Y.M.C.A., Montreal, will give address.

A wedding party drove into an open sewer on Wednesday night last in Lindsay, and had a spill. We presume, however, that a man who has pluck enough to enter into the hands of matrimony would not hesitate to drive hurdle fashion over a sewer.

PERSONAL.

Mr. J. Alex. Culverwell is in town.

Mr. C. O. Davis, of Barrie, is in town.

Mr. Welsely Greer, of Lindsay, was in town to-day.

Mr. S. Syre, of Port Hope, is registered at the Oriental.

Mr. Thomas Eastwood, Mayor of Buckhorn, is in town.

Miss Bella Morrow left yesterday on an extended visit to the west.

Miss Maggie Eastwood, of Buckhorn, is visiting Mrs. A. E. Bennett.

Mr. George Young, publisher of the Courier, is in town. He came here to attend the funeral of the late Mrs. Ranney.

Messrs. James Noble and Austin Pollie of Pontypool, who came here to participate in the Oddfellows meeting Thursday remained in town yesterday renewing old acquaintances.

LATEST MINING NEWS.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as $62.90.

Write for maps and full particulars.

We have just received a choice lot of new goods, consisting of all the new and latest games, fancy goods and stationery. We give 25 sheets of good writing paper and envelopes to match for 10 cents. Good novels for three cents each, and another lot by the best writers for four for a quarter. See our bargain windows. Times Bookstore, Market Block.

To-Day's Football Match.

Everything is in readiness for the great game to-day on the Nicholl's Park oval. The Montreal team arrive in town this morning and are in shape for a hard game. The local players have been practising faithfully and are fit to battle for their lives. Both teams have the reputation of playing a clean sportsmanlike game and with good officials the spectators can depend on seeing the best game of football ever played in Peterborough. Let everybody turn out and cheer the boys to a victory and the championship. The teams will be as follows:

PETERBOROUGH —McLeod, back; V. McWilliams, G. Bell, White, halves; Macdonald, quarter; Bushell, Stethem, F. Burnham, scrimmage; H. Burnham, Crowley, Rickey, Brundrette, R. McWilliams (capt.) Hollingshead, McClellan, wing; Collier, N. Bell, spares.

WESTMOUNT — Stollery, back; Craig, Ross, G. Cobham, halves; McMaster, quarter; Harrison, How, McBean, scrimmage; Burton, Copeland, Scanlon, Trenholm, Brooks, Walker, Cushing, wings

Referee—Mr. C. Meek, of Toronto.

The game will begin promptley at 2.45.

In all times and among all people beauty and love are associated. We all believe that Eve was beautiful. Esther found favor because of her comeliness. Love and jealousy caused by Helen of Troy made historic trouble for two nations. Nobody ever conceived an ugly Juliet. Heroines of romance are always beautiful.

BEAUTY
AND
LOVE

Ideas of beauty differ but the one sort of lovliness that all agree upon is the beauty of health. No matter what her features, no sickly woman can be attractive. Sallow skin, sunken checks, pimply face, hollow eyes, lifeless lips—these are repellant. And they can nearly always be traced to the one cause—womanly weakness or disease. Almost all the ills of womankind are cured if you put the feminine organism into healthy, vigorous condition. All sickness of women seems to involve these delicate organs and so no matter what the symptoms may be it is best to look there for the real trouble.

All such disorders are completely and permanently cured by Dr. Pierce's Favorite Prescription. It is designed for just this one thing and is the only preparation of the sort produced by a regularly graduated physician — a skilled specialist in the diseases of women.

Miss Maud Kenyon, of 1313 Orange St., Los Angeles, Cal., writes: "I had been afflicted with my eyes for over a year with such a dreadful itching and inflammation that I could not use them for anything. Physicians had given me many different remedies which were like using so much water; they measured my eyes for glasses; the glasses did not benefit me in the least. My mother desired me to write to Dr. R. V. Pierce, at Buffalo, N. Y., and explain the condition of my eyes. I did so, and after following his advice, and using eight bottles of the 'Favorite Prescription' and eight of the 'Golden Medical Discovery,' can say my trouble is entirely removed. My health was never so good as it is now."

CANADA'S GREATEST STORE

This Stylish Jacket only Five Dollars

No. 545.

SOUDAN CAMPAIGN ENDED!

General Wingate's Anglo-Egyptian Force Inflicts a Crushing Defeat Upon the Dervishes.

THE KHALIFA ABDALLAH IS KILLED IN ACTION.

British Force of Ten Thousand Infantry and a Thousand Cavalry Smashes the Khalifa's Army of About the Same Size Rejoicing in London.

LONDON, Nov. 25.—The Khalifa has made his last stand and has been mercilessly smashed by General Wingate's force, ordered by Lord Kitchener to oust the successor of the Mahdi from his final refuge in the Southern Soudan among his own people, the Baggara. The conquest of the Soudan is ended. The last blow of retaliation for the death of Gordon has been struck. The Arabs of the Soudan have been taught the same terrible lessons of British power which Buller is now teaching the Boers on another portion of African soil. The slaying of the Khalifa, who since the death of the Mahdi has kept alive the wave of Mohammedan fanaticism which devasted the Soudan and wrested it from the control of Egypt by the same overwhelming rush which characterized the conquest of Mahomet himself, is the close of the campaign which Kitchener has been conducting for years with the wisdom of the serpent and the boldness of the lion. The escape of Osman Digna must confirm the frequently expressed opinion of Tommy Atkins that this leader bears a charmed life. From the earliest day of warring in the Soudan he acted as the right-hand man of the Mahdi and has since fought with the Khalifa, though in a subordinate position. He has escaped from numberless fights and it would seem that British bullets are unable to hit him. He is the only surviving Mahdist of note, and upon him will devolve the task of perpetuating Mahdist traditions. But the task is an utterly hopeless one. The spirit of the Soudan is too utterly broken to rally during the next century and will now settle down to an era of recuperation and good government under British rule. The battle which took place on Thursday last, when Ahmed Fedil's force of 3,000 men, probably the advance guard of the Khalifa, was vanished with the loss of four hundred killed, was apparently only the preliminary to the crowning battle of the campaign.

KITCHENER'S OFFICIAL DESPATCH

Cairo, Nov. 25.—Lord Cromer, the British Minister here, has received the following despatch from General Kitchener:; "Wingate's force came up with Khalifa's force seven miles southeast of Godid and attacked it. After a sharp fight we took his position. The Khalifa, who was surrounded by a body guard of Emirs, was killed, and all the principal Emirs were killed or captured except Osman Digna, who escaped. The Dervishes were utterly defeated, their whole camp was taken and thousands surrendered. A large number of women, children and cattle also fell into the hands of the Anglo-Egyptian force."

STORY OF THE BATTLE.

Cairo, Nov. 25.—General Kitchener wires; "Wingate's Arab scout located the Khalifa's position at Omdebrikas. Our force marched from Gedil in the moonlight and frequently had to cut its way through the bush. It arrived before dawn on rising ground overlooking the camp, which was hidden in the trees. We heard their drums and horns before dawn, and at 5.15 the Dervishes attacked. Our guns opened fire and soon the action became general. Half an hour later the whole line advanced and swept through the Dervish position for over two miles till the camp was reached. The mounted troops pursued and captured most of the fugitives.

A Gallant Stand.

"The Khalifa with most of his men and the Emir's Body Guard made a gallant stand. Among the Emirs killed were the Khalifa's two brothers and the Mahdi's son. Osman Digna left immediately after the firing began, and is probably concealed somewhere in the vicinity. I hope eventually to get him. We took the entire Dervish camp. All the Dervishes not killed, surrendered. I cannot speak too highly of the excellent behavior of the troops and their endurance during the long, tedious marches preceding the final action. From four o'clock in the morning of November 21 till five o'clock in the morning of November 24, they marched sixty miles and fought two decisive actions.

"The Soudan may now be declared open."

Last Days of the Khalifa.

Terrible as was the destruction of the Dervish host at the battle of Omdurman, by the Britian on September 2, 1898, the escape of the Khalifa Abdullah was felt to have the victory incomplete, although the instrument which had riveted the chains of a barbarous tyranny upon the less warlike tribes of the unhappy Soudan was smashed and the way for opened for civilization to make its way into the heart of Africa

Scarcely waiting to see the final stand made by ten thousand of his faithful followers in their white gibbas around his great black standard, the Khalifa fled away past Omdurman in a southwesterly direction. He was hotly pursued by the British and Egyptian cavalry. The vigilant scouting of the advance during the previous days had, however, tried their horses and camels, and they were compelled to give up the chase, though they overtook a part of Abdullah's harem and stragglers from his personal escort.

The Khalifa's flight was to the district where orginally lay the source of the Dervish strength. He belonged to a section of the Baggara tribe, who were Arabs, inhabiting the country west and south of El Obeid, two hundred miles southwest of Khartoum. His influence had won over to the Mahdi these fierce warriors and slave raiders and he had thus obtained for himself th eposition of first of the four Khalifa's appointed by the Mahdi as his lieutenants, with the priority to the succession to the Prophet's mantle and dominion.

Fled to His Kinsmen.

So it was to the Taisha country that he fled, and to his own kinsmen. But the flower of the Baggara had fallen at Omdurman and their tyrannical nature had made them hated by the tribes whom they treated with haughty disdain. The Tagalia, and even the submissive Nubas, living in the mountains of Southern Kordofan, hailed with joy the defeat of the roaming Baggara who had decimated their tribes, and Abdullah met with hostility from the people of Jebel Daier, fifty miles to the south of El Obeid. He was able to establish himself, however in the mountainous district, and gradually gathered around him a body of dervishes, who made raids in all directions

Meanwhile his enemies were not idle, and Colonel Kitchener, a younger brother of the victor of Omdurman, was sent with a flying column to pursue the fugitive. The chase was again fruitless and the matter stood over until the autumn of this year.

Authentic news reached Khartoum in June that the Khalifa's cruelty was driving away some of his adherents, and deserters brought word that he was keeping prisoner the former Emir of Kordofan. His camp, it was said, was in a narrow valley of the Tagalia hills. Then it was said he had moved to Khorbuda to find food and that the dervishes were leaving him in large numbers.

Birthplace of Mahdism.

Men who had left him in July told how he had a chief executed for attempting to desert and that he was in Kurub, between the White Nile and Jebel Gedir. After that he was announced to have returned to Jebel Gedir, the actual birthplace of the Mahdist movement. No mountain in Central Africa had a more widespread fame. The natives who dwell on its top possess a celebrated holy stone, on which tradition says, Mohammed, himself sat and prayed. It was at Gedir that the Mahdi, who claimed to be the true successor of the Prophet, settled, when, as a dervish he began to attract notice by preaching against the oppression of the Turk and the decadence of the Moslem faith.

El Obeid was surrendered on Jan. 19, 1883, and twelve months elapsed before the fall of Khartoum, on Jan. 26, 1885. So great was the magic of Gordon's inspiration that amid all the surroundings of a hopeless conflict he had kept the Mahdists at bay until the forerunners of the British relieving force, were only ten days distant when the Mahdists entered through an unrepaired breach and slew Gordon on his palace staircase.

The Mahdi did not long enjoy the consummation of his career. Unbridled sensuality was the cause of his speedy death in the following June. He had nominated before his death the Khalifa Abdullah as his successor. The cruel Baggaras now became the conquerors, and Abdullah took speedy but crafty means to reduce the influence of the rival khalifas and their tribal supporters.

A terrible famine at Omdurman which had grown into an immense capital of one hundred and fifty thousand inhabitants, was the first retribution which fell upon the deverishes. The repulses of his officers, especially Osman Digna, in the north and near Suakim, began to cause the Khalifa apprehensions. Gradually the British preparations for avenging Gordon and returning to the Soudan were matured for an advance up the Nile, and three campaigns were successfully brought to a climax by the overthrow of the Khalifa at Omdurman.

Precarious Position.

Since then the Khalifa's position has been precarious. Lord Kitchener, the Governor-General was not one to allow so formidable a firebrand to gather strength again if it could be prevented. Two Emirs made an attempt to restore the Khalifa's authority—Ali Dinar, in Kordofan, who had about ten thousand well-armed men, and Arabi Dafalia, who made his way from Bhor, on the White Nile, down to Darfur with an equal number."

At the beginning of October the Khalifa was said to have with him ten thousand men. Four battalions of Egyptian infantry, with artillery, under British officers, were despatched up the Nile to Kaka, a landing place north of Fashoda, whence the column was to advance to Jebel Gedir and take the Khalifa in the rear, an object which seems to have been accomplished.

FORCE OF THE KHALIFA.

London, Nov. 25.—A letter from an officer at Omdurman says Wingate's force which defeated the deverishes near the Nile south of Khartoum consisted of five squadrons of cavalry, two infantry brigades, two Howitzers, ten Maxim guns and 1,000 camels. The letter adds; "We shall have to attack the Khalifa this winter. There is no probability of his attacking Omdurman. But he will do his utmost to create risings and will attempt a raid along the west bank of the White Nile. He is known to have 3,500 riflemen, 7,000 spearmen, and more cavalry These are reported to be full of fanatical zeal. We shall probably find our chief losses due to fever, scarcity of water and the cattle fly. But I assure you that when we begin the Khalifa will be vigorously pursued to prevent his doing any more harm among the scattered deverishes in South Africa."

JOY IN LONDON.

London, Nov. 25.—The news of the death of the Khalifa and the final defeat of the dervishes has been received here with great joy as a welcome setoff to the serious situation in South Africa.

Vice-President Buried.

Washington, Nov. 25.—President McKinley and the Cabinet left here this morning for Paterson, N.J., to attend the funeral of Vice-President Hobart.

Paterson, N.J., Nov. 25.—Because of the funeral here to day of Garret A. Hobart, business was practically suspended, and there was evidences of mourning throughout the city.

The early trains brought many to witness the last rites over the dead Vice-President's body.

The bells of the churches started tolling at sunrise. Eight men of the United States Senate police, in full uniform, with a captain in charge, arrived at 10 a.m. from Washington, and were given the honor of carrying the remains of the Vice-President from the house to the church. The floral [illegible]tions at the church were magnificent.

Admitted at All Ports.

Ottawa, Nov. 25.—By a new regulation of the Customs Department provision is made for the entry of coal oil at all ports of entry instead of at a certain few. Tests will be applied by the Customs officials to ascertain that the petroleum is in all cases safe for handling and to guarantee this instruments are furnished to all ports for testing the specific gravity and the liability to explosion. The Inland Revenue authorities will see that our Canadian oil is what it should be, and a circular addressed to them says;—"Whenever an explosion of coal oil lamps takes place within your district you are instructed to take immediate steps to procure a sample of the oil used, to ascertain whether the oil was obtained, whether American or Canadian, and such further information as is obtainable, and forward sample, one pint, to the department with your report."

Student Hospital Companies.

Ottawa, Nov. 25.—Arrangements have been made for a conference at Toronto on Saturday, December 9, between the authorities of Toronto and Trinity Universities on the one hand and Major-General Hutton and Surgeon-General Neilson on the other, to discuss the project of forming hospital and engineering companies among the students.

GEN. BULLER AT THE FRONT!

The Commander-in-Chief Arrives at Pietermaritzberg and is Well Received.

NUMBERS OF THE DUTCH FARMERS REVOLT.

A Large Force of Boers and Disloyal Africanders March Upon Dordrech to Intercept General Gatacre's Advance on Stormberg Junction.

Pietermaritzburg, Natal, Nov. 24—10.30 p.m.—After an exciting ride and favored by a heavy storm, Mr. Amery a correspondent of the London Times, arrived at Mooi River from Estcourt last night, guided by a farmer. He passed unnoticed within 300 yards of two Boer camps. He reports that on Wednesday night the West Yorks, the East Surreys, and the Durban volunteers marched in the direction of the Boer lines at Willow Grange and later the Borders joined them. The troops were out all night and at dawn advanced almost within charging distance. The Boers discovering them rushed up two hills some distance. They received volleys but succeeded in withdrawing their long range Krupp. The Boers position was held by the British for some time, but eventually the British had to retire, as the Krupp's got an accurate range, though there shells did no damage. The British guns were outranged. Even the naval gun was outdistanced by one or two thousand yards. In the early morning the mounted infantry and the Imperial Horse joined in the action, which lasted until noon. Then the Boers having gradually fallen back, Gen. Hildyard ordered a retirement, having attained his object. The British suffered much owing to the rain and to having no food since the previous day. The British loss is reported to have been three killed and between thirty and forty wounded. The Boer loss is unknown. Thirty horses were captured by the British. Two armed Germans have surrendered, and were brought into camp yesterday. They say they escaped from Gen. Joubert's commando which was nearly three thousand strong and marching on the Highlands. They were commandered—pressed into the service— at Johannesburg and say they are tired of the war. They allege that the Boers have no commissiarat and are starving. The report still prevails that Gen. Joubert is either wounded or killed, which may account for the great amount of raiding and looting lately, the Boer having got out of hand at Nottingham Road.

ACTIVITY AT WOOLWICH.

London, Nov. 27.—The utmost activity prevails in getting war necessaries ready for the front. 5,000 men worked all day Sunday in the Woolwich arsenal preparing stores. The arsenal employes, numbering 19,000, have been warned that they must not expect any Christmas holidays.

Along with other items of news, is a rumor that President Kruger is suffering from Bright's disease, and that his condition is giving rise to much anxiety.

Five hundred Boers attacked Kuruman, in Bechuanaland, on Nov. 13. Fighting lasted continuously for six days and six nights, but the Boers were driven off with a loss of 30 in killed and 38 wounded. British loss one killed and one wounded. The Boers suddenly disappeared from some cause unknown to the British.

ESTCOURT HEARD FROM.

Durban, noon, Nov. 26.—Telegraphic communication with Estcourt has been restored.

BULLER AT DURBAN.

Durban, Saturday Nov. 25.—Sir Redvers Buller, looking the pink of health, arrived here this evening and immediately proceeded up the country in the Governor's car. He was enthusiastically cheered by the people.

JOUBERT RETIRING.

Estcourt, Nov. 26.—noon.—Commandant General Joubert is retiring from Mooi River on Ladysmith.

BOERS OCCUPY STROMBERG.

Cape Town, Nov. 26.—Midnight. —The Boers occupied Stormberg, Cape Colony, Sunday morning.

MANY LOSSES AT GRAS PAN.

London, Nov. 26.—The Admirality is in receipt of the following despatch from Rear Admiral Harris, dated Cape Town, Nov. 26;

"I deeply regret to report the following casualties at Gras Pan yesterday;- killed; Commander Ethelston, of the Powerful; Major Plumb, of the Dooris; Capt. Guy Senior, of the Royal Marines, of the Monarch. Wounded—Flag Capt. Prothers, of the Dooris, severely; Lieut Jones, of the Dooris.

METHUEN'S PROTEST.

Cape Town, Nov. 26.—The Cape Argus says;—Lord Methuen's letter to the Boer Commandant warned him that the British Commander would not recognise anything but a fair flag of truce, adding; to place a white handkerchief on a rifle and to take advantage of your enemy is a cowardly action which neither you nor I can countenance."

BRITISH FORCES JOIN

London, Nov. 27.—A special from Estcourt dated Sunday, says—"The Mooi River column has joined General Hildyard's forces and is bivouaking this morning at Freerer, about midway between Estcourt and Colenso.

BULLER AT PIETERMARITZBURG.

London, Nov. 27.—Special despatches from Pietermaritzburg announce the arrival of General Buller there. He met with a splendid reception. Railway communication between Estcourt and Mooi River has been restored by Lord Dundonald's force and the Mooi River column entered Estcourt Sunday, the Estcourt column immediately starting to advance toward Colenso.

DUTCH FARMERS REVOLT.

London, Nov. 26.—The gravest news from Cape Town to-day comes from the northern portion of the colony, where it is now evident that numbers of Dutch farmers have risen and joined the invading Free State forces in the Herschell and Barkly East district.

A despatch from Queenstown, Cape Colony, General Gatacre's headquarters, announces that "four hundred colonial rebels, including an ex-magistrate, of Barcley East, have joined the enemy," at the latter place, and that the whole force is reported to be marching on Dordrecht, whence it can operate and possibly intercept General Gatacre's advance to reoccupy Stormburg Junction, a stragetic point from which General Gatacre can get into direc touch, through the railroad, with General French at Naauwpoort, and thus with the British base at De Aar Junction.

Another despatch says that refugees arrivin from Queenstown assert that Ladygrey has been occupied by the colonial farmers, and that it is feared there that there is a general movement in favor of the Boers.

FIVE HUNDRED KILLED.

London, Saturday, Nov. 25.—The Daily Chronicle's correspondent with the forces at Belmont says that the moral effect of General Methuen's vectory has been immence, inasmuch as the enemy had boasted that they could hold their position against all the soldiers England could send against them. The correspondent adds—

"I conversed with several prisoners. All admit that there loss was considerable. They pay warm tributes to our troops, who climbed the steep kopjes in face of a murderous fire as nonchantly as if they were on parade, notwithstanding the fact that their comrades were dropping in every direction.

"The Boer fire, though terrific and sustained, became wildly inaccurate. Our shell fire completely demoralized the enemy. The Ninth Lancers, pursuing the retreating enemy, cut them up severely, and turned the retreat into a rout."

A Complete Victory.

The Daily Mail publishes the following despatch from Belmont describing the battle—

"My estimate of the Boer losses is 500 killed and 150 wounded. Mr. Knight, the correspondent of the London Morning Post, was wounded. The Boer prisoners are ignorant, dirty and wretched. They say that half their commando, tired of the war, will refuse further service.

"The whole brunt of the frarful fight was borne by the infantry, who were obliged to climb 500 feet, straight into a terrific stream of missiles. The Ninth Lancers pursued the enemy with great vigor, but the Boers, well mounted and familiar with the hills, melted before them.

"Possibly, however, the victory would have been even more decisive had we possessed more cavalry."

GREAT INDIGNATION.

London, Nov. 25.—Further despatches received from Belmont confirming the treacherous use of the white flag are arousing indignation. The troops engaged are bitterly complaining, and it is feared the result will be arefusal to give the Boers quarter. An incident similar to the one which occirred at the battle of Glencoe, when an officer was shot by a wounded Boer, is reported by the London Times correspondent at Belmont, who says that Lieut. Blundell of the Grenadier Guards, was shot by a wounded Boer when he was standing. Such statements appear incredible, but they are now confirmed officially by the protest of General Methuen, who has sent a message to the Boer commander saying—"I must ask you to warn your wounded not to shoot our officers. I must warn you not to use dum-dum bullets or use the flag of truce so treacherously. Such actions is cowardly in the extreme, and I cannot countenance it."

WOUNDED GO TO THE REAR.

Orange River, Cape Colony, Nov. 24.—6.30 p. m.—In all 107 wounded, including several Boers, have arrived here from Belmont. One of the Boers, a boy 17 years of age, was compelled to take up arms with his father, who is a prisoner. A wounded Boer said that twenty men were selected from each Boer section to pick off the officers. But on the advance of the British force the Boer marksmen were bewildered, as it was impossible to distinguish the officers, who wore the same equipment as the men. The marksmen were also unable to make out the sergeants and otherr non-commissioned officers, whose stripes had been removed.

HOSPITAL TRAIN IN USE.

London, Nov. 25.—The hospital train arrived at Orange River in the nick of time from Cape Town, and was sent to Belmont. The train is constructed on the corridor system, with beds ranged in tiers on either side. On its return to Orange River with the wounded it was found that a number of them were able to walk, but there were many stretcher cases. The troupes in camp lined the route from the hospital to the station. The wounded were cheerful, and as they limped along supported by medical orderlies, exchanged chaff with soldiers in the crowd.

TERMINATING THE WAR.

New York, Nov. 25.—A cable to a morning paper, dated Berlin, November 24, says—"The Brussels telegram to The Tageblatt says the Independent Belge asserts it has trustworthy authority for stating that the Kaiser's interview with Mr. Chamberlain turned on the absolute necessity of terminating the Transvaal war. The Kaiser offered his mediation to achieve this object. Mr. Chamberlain informed the Kaiser of the conditions of peace which Great Britain would propose at the end of the war."

AN OBSCENE DRAWING.

Paris, Nov. 25.—The anti-English caricatures in connection with the Transvaal war have culminated in a grossly obscene drawing insulting Queen Victoria, in La Caricature, entitled "English correction." The police seized it to-day, probably as the outcome of British Embassy representations.

Waiting for Our Boys

London, Nov. 25.—A despatch to the Daily Mail says the New Zealand contingent has abeen sent to Green Point camp to await the arrival of the Canadian South African regiment, when the two contingents will march through the city together. There will be an official welcome in Cape Town in front of the Town Hall and a formal address will be presented to them.

On Trustworthy Authority

New York, Nov. 25.—A cable to a morning paper dated Berlin, Nov. 24th, says;—"The Brussels telegram to the Tageblatt says the Independence Belge asserts that it has trustworthy authority for stating that the Kaiser's interview with Mr. Chamberlain turned on the absolute necessity of terminating the Transvaal war. The Khiser offered his mediation to achieve this object. Mr. Chamberlain informed the Kaiser of the conditions of peace which Great Britain would propose at the end of the war."

General Otis Tricked

New York, Nov. 25.—The World's correspondent at Hong Kong declares in a cable despatch yesterday that Aguinaldo has found means of escaping from the Phillippines, and it is feared that he has already done so. General Otis unwittingly aided the escape.

Captain Lawrence, an Englishmen, was engaged by Aguinaldo, through President Lacson, of Negros, to buy a launch here. Lacson's brother, and Pedro Regelado, a well-known Iloilo man, came to Hong Kong. They actually bore letters from General Otis to Wildman, the U. S. consul here. They bought a launch, named in Lacson, cleared it at the United States Consulate as bound for Tore, proceeded to Lingayen Gulf, and turned over the launch to Aguinaldo's men. Afterwards they gave out that "Insurgents captured the launch."

It has since been learned that Lawrence is a colonel in the insurgent army, and that he has been retained to command the launch, which is held in readiness to carry Aguinaldo to safety.

Several insurgent generals have already been seen in Hong Kong. They must have escaped, disguised, through the American lines, for they came from Manila on regular trading steamers.

Judgment on an Award

Ottawa, Nov. 25.—Judge Curran has granted the application of James Goodall, of Toronto, for judgment upon the award of a board of arbitration of the Montreal Corn Exchange, which granted him a claim of $[illegible] against Joseph Ward, and allowed the latter $[illegible] on a counter claim. The court said that to give judgment for the defendant would be to defeat the object of the law creating the arbitration tribunal. As to documents put in for evidence the court ruled that it could not take cognizance of anything beyond the documents put in by the secretary of the board or his assistants.

Depots Short of Men

Ottawa, Nov. 25.—On account of the sending of a Canadian contingent to South Africa, the number of non-commissioned officers and men at the various depots is so small as to make it next to impossible to give militia officers the usual course of instruction. It has consequently been decided that until the return of the Canadian regiment there shall be no course given at St. Johns, Que., or London. A number of the men at these depots will be ordered to Quebec and Montreal respectively, thus making it possible for the officers there in command to turn out something like full companies.

Banque Ville Marie.

Montreal, Nov. 25.—The trial for W[illegible] Weir, president of the defunct Banque Ville Marie, charged with presenting a false statement to the Government, will probably last well into next week, for the evidence has been largely a repetition of that of the preliminary trial. It appeared that Mr. Weir had in October, 189[illegible], discovered a shortage of $[illegible], and had called in Chief Detective Carpenter and asked him to find Mr. Lemieux, the cashier, who was away.

Mr. Lemieux was found in New York, to which place Mr. Weir and Detective Carpenter proceeded on Oct. [illegible], 189[illegible]. Mr. Weir, after a conversation, informed the witness that the error had been explained. Old notes, it seemed, had been destroyed, and no entry made of the destruction. Mr. Lemieux came back with them and had been in the employ of the bank ever since.

Detective Carpenter also told of his arrest of Herbert, the teller, and of his release on order of Mr. Weir.

The Polar Bear

Is not more warmly clad than the woman who invests in a fur garment here.

Warm, durable and exquisite in taste, style and finish, these goods are unquestionably the best offerings of the season.

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

DULUTH'S LUMBER MILLS.

Under the pressure of modern demands and conditions the old methods of operating lumber mills only during the summer season has given way to a more economical one, and half a dozen large mills on Duluth harbor will be run all the coming winter. This operation is made possible by the construction of a "hot pond," into which the logs brought to the mills by rail are dumped and where they remain till the frost is out of them, and they can be drawn up into the mills. A hot pond is a large enclosuree in stream or lake, into which thee exhaust steam from the mills engines is discharged, keeping the water from freezing in any weather the Northwest can produce. By the use of the steam road instead of streams for bringing the logs to mill and by the hot pond for caring for them, once there, continuous sawmill operations are permitted.

SEA POWER AND SOUTH AFRICA.

The stream of transports pouring an army into South Africa during these anxious November days, and the consciousness that while the British fleet watches, no power on earth may effectively intervene, are writing on the memory of man an argument for the invincibility of sea power, which will not be forgotten for many a long day.

Several other European nations might wage a successful war in South Africa against the two republics, but they must do so by the consent of Britain, who could at any moment shut off the supply of reinforcements and compel the antagonists to fight the thing out with the forces already in the field. But with Britain, there need be no such proviso.

When Lord Salisbury said, in discussing the possibility of European intervention, that it would not be by such intervention that the war would end, he was only announcing a policy that single-handed his government could carry through. Under such circumstances, the dominant sea-power can defy the world.

HARAEY COUNCIL.

To Vote on a By-Law to Give $3,000 Bonus to a Railway.

The Harvey Council met in the school house in Buckhorn on November 18th, 1899. All the members were present except W J Oliver. The minutes were read and confirmed. On motion of Mr Flynn, seconded by Mr James Oliver, a by-law was introduced to grant $3,000 by way of bonus to the I. B and Pennypook Railway company, payable in thirty equal annual instalments, interest 4 per cent. per annum, and it was decided that the said by-law be submitted to the qualified electors on the first day of January, 1900, for their approval or disapproval. On motion the clerk was instructed to procure blank forms, for taking the vote on bonus by-law. On motion a grant of $10 was made in favor of Wm Spafford to fill up and grade in front of his new shop, provided Mr Spafford adds $5 to the said grant. On motion the reeve was instructed to draw orders in favor of the parties named and for the amounts set opposite their names, respectively:—R Ventress, medicine for Lancefield and others, $2 05; Alfred Allen, for work on roads and pay others, $10; Quinton Moore, for work on roads and pay others $5; W B Kelly, balance for plank for Missasanga bridge, $17.70. On motion the Council adjourned to meet at the clerk's office December 15th, 1899.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationerry. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

CECIL RHODES.

DIAMOND KING, STATESMAN AND MILLIONAIRE.

And the Most Picturesque Figure After Oom Paul in the Transvaal War. His Meteoric Career in South Africa

The most picturesque figure next to Oom Paul in the Anglo-Transvaal war is Cecil Rhodes, diamond king and politician. He is the mightiest millionaire of the age. Others may have more money, but Rhodes possesses the power and ability to shape the destiny of South Africa. The son of a minister sent to South Africa to improve his health, he added within a few years an empire to England's territory, and has become the modern Colossus of Rhodes.

"That murderer," is Oom Paul's gentle way of speaking of the Colossus upon whose head a price of $25,000 has been set.

The surprising growth of British South Africa is largely due to the efforts of this one man, the organizer and manager of the Imperial British South African Company. The career of Rhodes has been meteoric. Probably no Englishman since Sir Francis Drake sailed round the globe with the gold of Spain has brought more glory to his country with less expense to his government than he. He has taken the milk from the African cocoanut.

He was born on July 5, 1853, and his father was Rev. Francis William Rhodes, vicar of Stortford, a town about 25 miles from London. His eldest brother, Herbert, had a plantation in the south of Natal, and in 1869 Cecil, whose lungs were too weak for the English climate, was sent to live with him.

It is impossible for those who know him now to think of him as a consumptive sent abroad to die. He is six feet one inch tall and heavy and muscular in proportion. His appetite is a marvel. Chief Lobengula called him "the man who eats a whole country for his dinner."

His Early Ambition.

The story is told that, on arriving at Natal, the boy of 16 laid his hand upon a large map of Africa, exclaiming:

"All that my hand covers will one day be mine!"

A merchant who heard him said: "That is your dream, is it?"

"That is my dream," replied the young man.

"Well, I'll give you 10 years to wake up," was the reply of the merchant.

Two years after this the history of South Africa changed. Diamonds were discovered on the present site of Kimberly, and Rhodes, with his brother hastened to the place where the future empire builder laid the foundation of his fortune. In 1889 all the diamond mines were consolidated under the name of the De Beers Consolidated Mines (Limited), capitalized at $19,750,000 with Cecil Rhodes president. Meantime Rhodes' brother had died, turning over to the former his interests at Kimberly and Cecil himself had found time to return to England and graduate from Oxford.

While busy with his mines Cecil Rhodes did not neglect politics. Early in the '80's he was elected to the Cape House of Assembly from Barkley. After receiving a charter in October 1889, he started back to Africa to open the new lands.

There was still the unexplored region of the Matabeles left. The King of the Zulus was Lobengula, who pursued the usual Zulu policy of exterminating all weaker people with whom they came in contact and appropriating their cattle and wives, but they had a wholesome fear of the whites.

Far to the north of the land of the Matabeles was Mashonaland, a nation conquered by the Zulus, and the king of the Zulus gave Rhodes permission to dig for gold in the land of Mashonaland. Railroads were built and with them came the telegraph and mail.

The Matabele War.

Mashonaland boomed for two years, and then it was discovered that its wealth was overestimated greatly.

It looked like failure for the South Africa Company. Something must be done. The gold miners were clamoring for a chance to locate claims in Matabeleland. Then was started the Matabele war, the barbarities of which exceeded previous campaigns, because the company was bent on destroying the Matabele nation to seize their rich country. The Matabeles gave the excuse by sending warriors to punish cattle thieves. The company's "border police" replied, and the war was on. Volunteers were called for and to every man who enlisted were promised 6,000 acres of land and twenty claims in the new El Dorado, when it should be won. The Matabeles were attacked on three sides, their capital, Buguluwayo, was taken, and great was the slaughter. Opinions differ as to the justice of the Matabele war, but it put the South Africa Company on its feet again, which was its purpose. On April 25, 1893, Matabeleland was thrown open to the world.

The new land was called Rhodesia. Rhodes was made premier of the colony and in 1895 was appointed Queen Victoria's privy Councillor, a purely honorary position.

His great ambition was partly realized. He added almost an empire to Great Britain's possessions.

The present war in South Africa is in line with Rhodes' policy—the formation of a British empire in South Africa that shall embrace the Transvaal and the Orange Free State.

Rhodes, with all his millions, lives humbly. He has a home, Groot Schuur, at Cape Town which is presided over by his sister, who is as great a hater of men as Rhodes is of women. But he is happier when living on the plains in a tent with only an attendant to look after his personal wants.

His Personal Courage.

Rhodes is held in awe by the natives. In many incidents he has shown his personal courage. In native uprisings he goes around in shirt sleeves, belt, trousers and slouch hat, looking much like an American cowboy, but often he carries no weapon.

In one of the Zulu uprisings his home at Groot Schuur, with his collection of curios, was burned. It will be rebuilt. One of his friends went to break the news gently to him, saying:

"Mr. Rhodes, I have bad news for you."

"What is it?" queried Rhodes.

"Groot Schuur is burned up."

"Oh," said Rhodes, "is that all? I thought you were going to tell me that Jameson was worse."

Jameson was then in prison and sick.

William T. Stead, the great English editor, once said:

"There are only two men that I know who look at the world constantly and steadily as a whole; the pope of Rome is one and Cecil Rhodes is the other. For the moment Cecil Rhodes has South Africa as his bishopric, just as Leo XIII is bishop of Rome as well as pope of the whole Catholic Church

"In speech Rhodes is not an orator, but he is frank and direct.

"He has waged several fierce wars with the natives of South Africa; he is building a railway and telegraph line from Cairo to the Cape, to say nothing of the lines he has built in the Cape country itself; he has founded an empire—and he is only 46 years old. Yet, after accomplishing all these wonders, he reproaches himself, and says that he is lazy—complains that he does not make speeches 'because it is too laborious—causes too much exertion.'"

LATEST MARKET REPORTS

PETERBOROUGH.

There is a good demand for all kinds of produce and at good prices.

Below are the latest quotations.

Wheat, spring, 65 to 66c.
Oats, 28c.
Barley, 35 to 36c.
Peas, small, 60 to 62c.
Peas, mummies, 75 to 80c.

A Good Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

POLITICAL QUIPS.

The presidential bees have gathered very little honey thus far in the campaign.—Los Angeles Express.

It is coming to pass in this country that it is almost libelous for a newspaper to call a man a politician. It is the imputation that he is guilty of things criminal.—Binghamton Herald.

If Liberalism wants a professor of politics to be a professor of politics, she will not paper-spend with Grover Cleveland, but go straight to Dick Croker or Matt Quay.—

True Boston Culture.

"Fifty cents for this beautiful little vase," called the auctioneer. "Going, going for 50. Do I hear 55 for this beautiful little vase?" and no one thought anything about the auctioneer or the vase which went for 50 cents until another one was put up, an immense affair of cloisonne. "Now we will show you an exquisite piece, not to be duplicated in this country," he went on. "An exquisite cloisonne varse"—and there the Wellesley girl said excitedly to her companion:

"Now, that is what I call true Boston culture. Would you expect a man of that kind to make such a delicate distinction? He must have been educated at a woman's college. When he is selling a 50 cent article, he says vase in the ordinary way, with the long sound of the 'a,' but when he comes to a big piece of cloisonne it is varse, with the broad 'a' every time. That is according to rule. Over $10 in price you find a varse, but under that nothing but an ordinary, everyday vase."—New York Times.

Crocodile Tears.

The expression "crocodile tears" can be found in almost every European language, but it is doubtful if one in a thousand of those who use it have an idea of its origin. We are told in the Bestiary of Guillaume le Clerc that when the crocodile finds an unwary traveler it devours him, but afterward weeps over him all the rest of its life. This is very evidently the allusion in "Othello," "Each drop she falls would prove a crocodile" (1, 257).

There is another version of the fable, however, which is more often referred to in literature, and according to which the crocodile sheds tears in order to allure the traveler to destruction. Shakespeare alludes to this in the passage where he tells how

the mournful crocodile
With sorrow snares relenting passengers.
—"2, Henry VI.," 3, 226.

—"Poet's Lore."

Situations Vacant.

PRINTER—A YOUNG MAN WHO HAS had some experience at printing wanted at the Times Job Rooms. This is a rare chance to learn job printing.

WANTED—FOR RAILWAY WORK IN Manitoba and Rainy River—three hundred teamsters, wages $30 per month and board; five hundred laborers, wages $1.75; one hundred trackmen, wages $1.75; two hundred rockmen, wages $1.75, or piece work; two hundred station men, 17c to 18c per yard, board themselves or $4 week if they board with the company; I will advance fares to the work for suitable men; work will last one year from next fall. A FIGHT AT TUGELA DRIFT

One Hundred and Fifty Policemen Drive Off a Greatly Superior Boer Force.

SOME NEW MOVEMENTS ARE NOW DEVELOPING.

Burghers Are Either Trying to Encircle Estcourt From the Rear or to Seize Greytown, Which Commands One of the Roads.

London, Nov. 24.—The Governor of Natal has forwarded the following despatch to the Colonial Office:

Tugela Drift, or Ford was attacked during the morning on Thursday, Nov. 23, by 250 to 300 Boers, who are believed to have advanced from Helpmakaar and Umveti. The mounted rifles under Major Leuchars and a small body of Natal police totalling 140 men posted south of the river bank forced the Boers to retire after two hour's flighting. Our loss was a sergeant-major wounded.

The Tugela rose during the day and is now reported to be impassable except by boats.

The Tugela Drift, or the point where the road crosses the river Tugela, is to the northeast of Estcourt about thirty miles and is also to the north of Greytown by teh same distance. The movement of the Boers from the neighborhood of Helpmakaar is evidently either an attempt to encircle Greytown from the east or to occupy Greytown, which is a position of importance as it commands one of the principal roads from Pietermaritzburg to the Mooi river.

MAY RELEASE CHURCHILL.

Pretoria, Nov. 24.—It is believed that the Government will shortly release Winston Churchill as a non-combatant.

The prisoners from Mafeking and Lobatsi are mostly railroad men. After they had taken the oath not to fight against the Transvaal they were sent to Delagoa Bay.

BRITISH GUNS INEFFECTIVE.

Mooi River, Natal, Nov. 23. — The Boers have sent only an occasional shell into the British camp since this morning. The range of the British guns is not sufficient for them to be effective. An official native runner corroborates the report that heavy firing has occurred northward. The runner, who is from Estcourt, says he was captured by the Boers, who infest the heighs northward. He adds that they searched him, but failed to discover the despatches.

The Boers are in strong force under the cover of a hill on which are two guns. When the British opened fire the runner escaped in the subsequence confusion

The same runner was at Ladysmith last week. He reiterates that heavy fighting occurred there. The Boers, be claims, made several attempts to capture the British camp, out were repulsed with heavy loss. The native explained the failure of the assault by saying that every time the Boers approached the British set the whole country ablaze, killing everyone within reach.

CAUGHT IN A TRAP.

Cape Town, Nov. 24.—Unconfirmed reports continue arriving here to the effect that General White recently caught the Boers in a trap at Ladysmith, inducing the beleagured to venture into the open country around the British camp, where the British sorties captured the attackers.

Three squadrons of African light horse have gone northward. Late arrivals from Pretoria estimate the Boer casualties at 1,000 men, half of whom were killed. They also say the race course there is being prepared for a laager. In the event of a seige and the guns of the fort are trained on it in case the prisoners attempt to escape

A Maxim is placed at the gate of the race course.

From President Kruger down, everybody is in favor of fighting. Teby believe that they will succeed in annexing all the beleagured towns and the flag of the United Republic, now ready, bears the Orange cross. The Boers expect the war to last from four to six months, and that then they will possess South Africa.

Commandant Albracht and Lieut. Eloff have started with a thousand followers to capture Bulawayo.

GENERAL FRENCH RECONNOITRES

London, Nov. 23.—The War Office has received the following despatch from Gen. Forrestier-Walker,

General Gatacre reports having yesterday encamped a battalion of infantry near Putter's Kraal, and that reinforcements of mounted police with half a battalion of infantry arrived at the same camp to-day. The Dutch rising continues in the Broken Nail districts. The police at Moltens report that armed Dutch have left Cradock, to join the rebels at Broken Nail taking with them armed natives. Gen. French conducted a reconnaissance toward Arundel, which he found held in strength. He withdrew with three men wounded. The Boers are reported moving from Natal to the vicinity of Bloemfontein. Telegraphic communication with Belmont has been opened, and a heavy engagement is reported. The postmaster at Hopetown reports that the Kuruman people have defeated the north rebels.

BOERS IN AMBUSH.

Naauwpoort, Nov. 23.—A British force 200 strong, consisting of mounted infantry and police, with a few cavalry, partly untrained, reconnoitered toward Colesburg to-day, under Gen. French, and accomplished eighteen miles. They were fired upon by a party of Boers concealed on a hill. Three men were wounded.

PREPARING FOR METHUEN.

London, Nov. 23.—The War Office this evening issued a despatch from Cape Town which is a brief official diary of events at Kimberley rfom November 12 to 17. It shows that no serious engagement occurred between those dates, that the British losses have been infinitely small and that the Boer losses were probably very small. The final entry indicates that the Boers, anticipating the advance of the relief column under Gen. Methuen have taekn up deffensive positions to the south of the town.

Finns by Wholesale

Ottawa, Nov. 24.—The Department of the Interior has received advices from Mr. Konin Zilliacus, stating that at the smallest computation 15,000 Finlanders will arrive in Canada next spring. The majority of the immigrants will be from South Finland, which is one of the most fruitful districts in the country. Mr. Zilliacus further states that the edicts of the Russian Government against the solidarity of the Finnish nation have been of no avail, and that Canada is sure to receive the immigrants, who are anxious to leave Finland.

Civil War of the Future

New York, Nov. 24.—At a conference of the Congregational churches Rev. Charles E. Jefferson said that in future years there might arise a sanguinary conflict between the poor and rich, unless the conditions changed for the better. He advised the wifes of millionaires to visit the slums, and to teach the bible to the children of the poor.

Rev. Dr. Newall Dwight Hillis said that there were thirteen million children whose feet had never crossed the threshold of the Christian church and they would be found in the front rank of the army of the poor against the rich, when the conflict came.

The Kaiser Photographed.

Windsor, Nov. 24.—Emperor William went out riding this morning and was afterwards photographed with the Empress. Their Majesties attended the memorial service in honor of the late Princess of Leingen in the private chapel at Windsor Castle, at which Queen Victoria was also present. The Emperor, the Prince of Wales and the Duke of Connaught started for Blenheim at noon in order to visit the Duke and Duchess of Marlborough.

The Empress of Germany did not go to Blenheim, owing to the death of the Princess of Leiningen.

Discharging Her Cargo

New York, Nov. 24.—The discharge of the cargo of the Taylor, which brought the Bubonic plague from Brazil, will be commenced to-day. The coffee will be kept on board the lighters at quarantine for several days before permission is granted to land at the dock.

France Follows Suit

Chicago, Nov. 23.—The Tribune's Paris correspondent says; Minister of War de Gallifet has ordered all officer's uniforms to be changed so that they will be indentical in color and form to those of the men in the ranks, to prevent the officers being singled out by the enemy in action. The new order is due to the heavy loss of English officers in South Africa owing to their conspicuous uniforms.

Mining Properties For Sale!

Prospects for small capital.
Locations for larger capital.
Mines for companies.

WRITE FOR LISTS AND PARTICULARS.

Rainy River Gold Mining Co'y

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley

The GRAPHOPHONE

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound, thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

WANTED FIRE BELL CLOTHES.

He Just Made Up His Mind to Kill That Town of St. Joe.

"Ah'm come back home for some clothes, an Ah want 'em wahm," said a tall young negro to a Walnut street haberdasher one day last spring. "Ah'm jes' agoin to kill that town of St. Joe. Show me the heatedest clothes yo' got in the house."

He was not cool as to raiment to start with. His overcoat was cream colored, overlaid with pearl buttons the size of those small butter plates still in use in restaurants. His trousers were green and ended in yellow shoes with brown shot silk tops. His hat was light blue, mottled in brown; his gloves were red and his cane heavily silvered.

"Can't no St. Joe nigger tell me Ah come from Raytown," he muttered. "Ah goes up to St. Joe to work, and the coons there laugh at me and tell me Ah ain't from Kansas City, because mah clothes is so inconspicuous, and Ah just save up mah money, and Ah'm agoin back to kill the town. Now what I want is some underclothes and socks and shirts and things that are the wahmest you've got."

"How will these do?" asked the haberdasher, exposing some scarlet hosiery, banded with wide white stripes.

"That's it. That's the kind of clothes Ah want. They ain't nothin in St. Joe like that. Lemme look at them underwear."

He inspected some red underwear with white stripes, some of baby blue with pink stripes and others of green with blue, black and red stripes. He bought neckscarfs of every shade of red, blue and green and of the most bewildering patterns. His purchases included zebra collars and pale pink shirts, diamond scarfpins at 85 cents each, but with $85 of shine, and a brown waistcoat with scarlet moons emblazoned on it.

"Ah've got 'em dead," he exclaimed when he had finished. "They've ceased to live. When Ah get back to that town of St. Joe they'll ask me if I come from Raytown, will they? Ah'm agoin to take back to that little ole burg such wahm clothes that they'll meet me with the fish department. That town's dead now, and Ah've killed it."

How Wealth is Carried.

"It is rather amusing," remarked the head of the biggest bureau de change in London to the writer, "to notice the various methods in which men of different nationalities carry their worldly wealth. The Englishman carries his all loose in his right hand trousers pocket—gold, silver and copper all mixed up together. He pulls a handful of the mixture out of his pocket in a large, opulent way and selects the coins he has need of. The American carries his wad of bills in a peculiar long, narrow pocketbook, in which the greenbacks lie flat; the Frenchman makes use of a leather purse with no distinguishing characteristics, while the German uses one gayly embroidered in silks by the fair hands of some Lottchen or Mina.

"The half civilized capitalist from some torrid South American city carries his dollars in a belt with cunningly devised pockets to baffle the gentlemen with the light fingers. Some of these belts are very expensive. The Italian of the poorer classes ties up his little fortune in a gayly colored handkerchief secured with many knots, which he secretes in some mysterious manner about his clothes. A similar course has charms for the Spaniard, while the lower class Russian exhibits a preference for his boots or the lining of his clothes as a hiding place for his savings."—London Answers.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return as much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

General Otis Is Happy Now.

Washington, Nov.—General Otis cables as follows:

Manila, Nov. 24.—Claim to government by insurgents can be made no longer, under any fiction; its treasurer, secretary of the interior and president of congress are in our hands; its president and remaining cabinet officers in hiding, evidently in different central Luzon Provinces; its generals and troops in small bands scattered through the provinces acting as banditti or dispersing playing the role of Amigos with arms concealed. Indications are that Aguinaldo did not escape through the lines of Lawton or Wheaton, but fled westward from Bayambang railway station.

Telegraphic communication to Dagupan established, probably to San Fabian to-day, by relaying nine miles of track with material at hand railway communication to that point re-established. Labor of troops must attend maintenance.

MENACED MAFEKING.

The Fort and British Camp, With Facts About Armored Trains

The armored train has already become a prominent feature of the Transvaal war. So far as can be gathered from the despatches there are already three fully equipped armored trains in South Africa, or rather, there were, three prior to the destruction by the Boers of the one at Mafeking.

Armored trains are hastily constructed affairs, consisting of a locomotive and a few wagons, the engine generally being located about the middle of the train.

The wagons and locomotive are covered by boiler-plating three-quarters of an inch thick, as firmly riveted as time will allow. One of these trains was constructed at Mafeking, where there were several railway shops, the town being on the new main line from the cape to Bulawayo.

The locomotive is the only part of the train that does not carry guns, the steel casing being solely to protect the mechanism of the engine from the shot of the enemy. The remainder of the armor, however, is thickly perforated with port-holes through which guns of varying calibre peep, the Maxim, Nordenfeldt and Gatling being the most serviceable weapons for this kind of work. The smaller holes are for the rifles of the marksmen, and usually the deadliest shots in the regiment are, when possible, selected for the position. It takes an expert marksman to shoot with satisfactory results from a quickly moving train. Usually an armored train is also supplied with a powerful search-light, in view of a possible night attack.

Of course, the boiler tubing can offer no resistance to artillery. In fact, rifle shots fired at short range will sometimes penetrate the plates, and to meet such a possibility sand bags are often provided, as was the case in the Egyptian campaign, when the sidar found the armored train of great service.

The man in command of an armored train thinks first, when an emergency arises, of his engine. So long as that remains in workable condition the odds are on his side; but once the vital parts of the locomotive are damaged, the outlook becomes serious, for, of course, an armored train can only carry a very small body of men, who would be quickly surrounded by the enemy, who might number hundreds or thousands. The chances are that an armored train could not be damaged to such an extent unless artillery was used, or some powerful explosive, such as dynamite.

Mafeking is now quite a thriving little town, with churches, a marketplace, hotels, cricket ground, and—sure sign of prosperity in South Africa—a racecourse. Within a short distance of the town is a place of historic interest—the starting point of the Jameson raid.

The inhabitants of the town will in all probability seek refuge within the fort before the commencement of an engagement, and Colonel Baden-Powell and his gallant little band may fall back in order to protect the fort from the Boer attack.

Colonel Baden-Powell's new camp is east of Mafeking, between that town and the Transvaal border. Here the tents of the soldiers stretch in white, unbroken lines, and form a conspicuous feature of the bare expanse of veldt on which the town stands.

Civil Power, Says Root.

Washington, Nov. 24.—Secretary Root's annual report recommends—

The immediate appointment of civil governors for Cuba and Porto Rico.

The substitution of civil government, either by commission or a civil governor, for the Philippines, immediately following the suppression of the present insurrection.

A complete system of suffrage in the Philippines, Cuba and Porto Rico, with education and property qualifications required for all voters.

The immediate construction by the Government of a cable between the United States and the Philippines.

Rich vs. Poor.

New York, Nov. 24.—While discussing the subject of Sunday schools at the Manhattan-Brooklyn conference of Congregational Churches now being held in Brooklyn, the Rev. Charles E. Jefferson said, among other things, that in future years there might arise a sanguinary conflict between the poor and the rich unless the conditions changed for the better. He advised the wives of millionaires to visit the slums and to teach the Bible to the children of the poor. Rev. Dr. Newall Dwight Hillis said that there were thirteen million children whose feet had never crossed the threshold of the old Christian church and they could be found in the front rank of the army of the poor against the rich when the conflict came.

Drinking and Exposure.

Iroquois, Ont., Nov. 24.—The verdict in the case of McElvers, the man found dead in the hose tower, was rendered at two o'clock this morning. It is to the effect that death was caused by excessive drinking and exposure. It seems that six of the jury desired to add that the commercial hotel people and those who put the man in the tower, contributed to the result, while the other seven were of the opinion that the evidence did not warrant such a finding.

VIVID HEALTH

Nothing so rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness to the gain of wealth. A loaded purse cannot atone for the [illegible] nerves, the [illegible] step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO

[illegible] and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE must and will.

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. [illegible] tells of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries food and strength to every tissue, and gives back health where once lurked death. For sale from all druggists directly from the

COPPER SHARES.

LARGEST DIVIDENDS. SAFEST INVESTMENT.

Boston & Texas Copper Company.

CAPITAL STOCK $2,500,000.

250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:

HON. EMERY M. LOW, President.
Manufacturer (Mayor), Brockton, Mass.
GEORGE W. RUSSELL, 1st Vice-President.
Paper Manufacturer, Boston, Mass.
JAS. M. WHEATON, Secretary.
EDW. B. ROBINS, Treasurer.
F. M. SPAULDING, 2d Vice-President and General Manager.

STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment. This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

DANGER FROM NATIVES

HORDES OF THEM MAY BE EMBROILED IN THE WAR.

Awaiting Opportunity—Some Favor the British and Others Stand in with the Boers.

America, through the African Methodist Episcopal church, has become an important factor in the Transvaal war South Africa is the home of a number of warlike native tribes, chief among which are the Zulus, Basutos, and Matabeles. These people resent the coming of the white man into their country. They are particularly antagonistic to the British, against whom they waged fierce wars for years. At present they are living in subjugation having been conquered by the Britons, but only at a terrible cost of human life and money. Their warlike spirit has never been broken; they thirst for the freedom they enjoyed before the British gold-seeker invaded their land, and they wait for an opportunity to rise again against the foe. This opportunity now seems to be at hand. It was a Boer intrigue that sent the Matabeles against the British nearly four years ago; the shrewd burghers may find it possible now to enlist the services of the Zulus, Basutos, and Matabeles in warfare of the same nature. The only thing that can restrain them is the influence of the pastors and missionaries of the African Methodist Episcopal church, which is an American institution.

Should the Zulus seize the opportunity offered in the Transvaal war to strike for freedom, England would have her hands full. Should the bold Basutos join arms with their fierce cousins, South Africa would become hot soil for the British foot for many long months to come.

Both of these uprisings are threatened; both are greatly feared. The Zulu situation in particular is watched with anxious eye. England for a while was overmatched in the last Zulu war, and victory was bought in the end with rivers of English blood. Scarcely any greater misfortune could come just now than an uprising such as this.

Zulu a Dangerous Opponent.

The Zulu is undoubtedly the best native fighter of South Africa. He is physically a splendid savage—fierce powerful and enduring. Add to this the memory of a magnificent past, the traditions and courage of a race unwhipped except by white men, and by them only at fearful odds, and you have a worthy foeman. The Zulus yielded to the sway of England through force indeed, but the fight they made then was one to keep alive the hope of a better ending for renewed struggle.

The secret of the Zulu power lies first, in organization, and, second, in the tradition of victory. Organization under the great chieftain Tshaka at the beginning of the present century gave them their first superiority over other savage tribes, and an unending series of victories for half a century or more produced a race of rare courage and warlike prowess.

The Zulus swept the coast, subjugated Natal, and pushed their fierce bloody sway far inland. The terror of their name passed far north and far south.

Nor was there limit to their ravages until the Dutch settled in Natal. Then began a series of fierce fights in which the white men and the rifle finally triumphed and the Zulu power was broken, or at least reduced to the point of non-interference with the movements of the Dutch and the English, who soon after swarmed over the land.

But while taught to respect the white man, the Zulu nursed his traditions, his pride and his ferocity. It was a disgrace in his eyes to labor except in the prosecution of war. Under Cetewayo the great chief whose power England broke in a war in which she met several terrible reverses and lost hosts of splendid men, the Zulu was at heart the Zulu of the great Tshaka's days.

And this is the people who now threaten to avail of England's troubles to regain their freedom. They are the same in spirit and are rich in resentment. For years they have nursed their wrongs. What they have lost in savage fierceness by a generation of peaceful subjection is more than matched, say recent writers, by their gains in knowledge. They still retain their terrible stabbing assegai, but they have added the rifle, and are splendid marksmen. They dream of restoring the splendors of the past and if they rise can be counted a terrible foe.

Forces of Native Warriors.

Zululand to-day has a population of about 180,000 natives and less than 1,500 whites. The only occupation of the natives is the raising of cattle. There are 8,900 square miles in the district and the government is a British protectorate.

The Basutos, while by no means the peers in war of the Zulus, occupy a strong position Basutoland is bounded by Cape Colony, the Orange Free State and Natal. They have discouraged the white man and there are only 600 Europeans in their entire territory. The country is a splendid grain producer, and the Basutos are thrifty and rich. There are wild mountain districts to serve in time of need. The Basutos were once a warlike power of some consequence, and in 1879 they stood off England in a war over disarmament to a compromise by which the Cape government has since paid them $99,000 a year toward the cost of government. They are in large measure self-governing—of course, under British dictation—and enjoy a considerable measure of civilization. About 50,000 out of a population of 220,000 have been converted to Christianity.

Matabeleland lies to the north of the Transvaal and embraces a district 180 by 150 miles in area, with a population of 200,000. Under King Lobengula the Bechuanas and Mashonas were allied with the Matabeles, and should probably fight with them again should their services be required.

Position of Native Church.

Churches and missionary stations of the African M. E. church, under the charge of native converts, are scattered all through South Africa, and if an uprising of the warlike tribes is averted it will be through the mediation of these missionaries. Vicar Bishop J. M. Dwane is the nominal head of the African Methodist church in South Africa He is a native Kaffir. Up to the time of his fourteenth year he was a heathen. At that time he was converted to the Christian religion. Later he was sent to England and educated for the ministry. His efforts to spread the Christian belief among the natives of Southern Africa have met with signal success. In the present crisis in that end of the dark continent he is relied upon by the governing powers of his church to preserve the neutrality of the native tribes during the continuance of the war between the English and the Boers. It is held by Bishop Henry M. Turner and other strong men of the church that an uprising of the natives would be a calamity. They are fearful of its effect on the other civilized world, and are bending their energies toward preventing it. Vicar Bishop Dwane is believed to have influence enough to keep the natives neutral. The policy of the church to employ native preachers in the African ministry will aid materially in this desire to restrain the tribes. Bishop Dwane has about 150 native preachers, who are working at various mission stations and churches in Cape Colony, Rhodesia, Natal, and the South African Republic, and the Orange Free State. Most of these preachers and workers were educated at Queenstown college and at the Wilberforce university at Wilberforce, Ohio, in this country.

"Africa for the African."

Hints come from some quarters that the thought of self preservation is the motive of the spirit of the men who are holding in abeyance for the present the cry of "Africa for the Africans."

"We are weak," said a prominent African Methodist not long ago, "in the possession of material agencies of civilization. We have the physical strength, and, I believe, the moral courage, but we lack the discipline of civilized life and the acquired knowledge of its weapons of offence and defence, to make it a part of wisdom to encourage antagonisms at this time. 'Africa for the African' will come when the negro has a wider faith in God and a stronger love for the glories of life and its products.

Here, perhaps, is given a glimpse of the actuating motive of the African Methodist church in its present attitude on South African affairs. That new light has come to the natives is made evident by the recent request of the more powerful Basuto chiefs for a conference with Bishop Dwane. This conference is ostensibly for the purpose of consulting on the wisdom of making a strike to regain the lost possessions of the native tribes. The conference will be held, and it is understood that Bishop Dwane will advise against such a course at this time. Bishop Turner is holding himself in readiness to go at a moment's notice to South Africa should he deem the conditions require his presence there.—Chicago Inter Ocean.

VINEGAR, THEN LEAD.

They Settled the Trouble at the Carbonville Postoffice.

"I think my most exciting official experience," said Captain J. E. Stone, formerly United States postal inspector, "was at the town of Carbonville, Colo., in 1879. It was a star route post, and there was much complaint about the nonreceipt of mail, so I went over to investigate.

"The postmaster was a man named Wilson, who kept a general store, and the postoffice consisted of a soap box on the end of his counter. When mail arrived, it was dumped in, and every fellow helped himself, an arrangement that worked well enough until a chap known as Black Hills Pete came to town. Pete disturbed the entire system When he didn't get a letter himself, he would tear up several others on the principle that misery loves company, and, being a notorious desperado, nobody dared interfere. I got the facts, and as the mail came in that evening I took a seat in the corner and awaited developments, first ordering the box removed.

"A little after dark the miners from camp began to assemble, and presently in came Black Hills Pete. He was a big brute of a fellow, and I saw at once there was going to be trouble. 'Where's that letter box?' he demanded of Wilson. 'I've ordered him not to use it any more,' I said, getting up. 'Who the blank blank are you?' roared Peter. 'I'm the inspector,' I replied. 'Well, you get me that box quick,' he retorted, and, seeing him reach toward his pocket, I made a grab for my gun; but, as bad luck would have it, the confounded thing caught in the holster.

"In a twinkling he had me covered, but before he could turn loose a quavering voice called out: 'Pete! Oh, Pete!' The desperado glared around, and there stood Wilson holding a large tin squirt gun used for drawing liquors The sight was so ludicrous that the bully burst into a guffaw, and as he did so Wilson let drive the piston and hurled about a quart of the strongest kind of vinegar squarely into his face. The stuff blinded him, and before he could recover himself the storekeeper had two bullets in his shoulder.

"That's the true story of the strangest fight that ever occurred in the west. Pete recovered, but before he could be arrested was spirited away by friends to New Mexico. His right name was Luther Coleman, and there is a warrant now standing against him for destroying United States mail matter. After the episode I have narrated there was no further trouble at the Carbonville postoffice."—New Orleans

THE PUNSTER.

It's easier to pass a resolution than it is to keep it.

When the baby is asleep, it's a case of kid napping.

"Never wear shoes too small for you" is a good foot rule.

A telegraph operator demands cash for what he does on tick.

It's surprising how easy it is to get something you don't want.

Law books are bound in sheep out of respect for those who go to law.

Some people are so miserly one can't even have a joke at their expense.

A married man says the jaws of death are not to be compared with the "jaws" of life.

Where the Pot of Gold is Buried.

How many women are fretting and struggling along on a very little money when a good sized yard or adjoining patch of ground is going to waste! Yet that very piece of ground may contain all sorts of possibilities—clothes, furniture, books, medicines, luxuries and even necessities otherwise impossible.

Clear, plow, fertilize and plant. This done, the great beginning is made, and perseverance and attention will secure the rest. Onions, tomatoes, cabbages, celery, a small poultry farm, a violet or rose farm—any one of these may add several hundred dollars to one's purse every year. Small fruits, hops, tuberoses and grapes are also very profitable. With some intelligence a blooming garden can always be made a paying one. Make it a principle to have no more waste in the garden than in the kitchen.

If there is only a very small place and just enough raised for one's own family, try, after the table is supplied, to prepare what vegetables and fruits are left over for sale for winter use. There is always a demand for good homemade canning and preserving. Do not let a valuable scrap of ground be idle.—Annette Halliday-Antona in Woman's Home Companion.

TWO MISTAKES.

There are two mistakes that people with weak lungs are liable to make; and both are about equally bad: One is to not give attention quickly enough to the little coughs and bronchial troubles which so rapidly undermine the delicate lung tissue and plunge you into consumption almost before you are aware of it; the other is when the trouble is at last discovered and fully realized to give up hope too soon.

Begin with these bronchial and throat ailments the instant they appear; never wait till to-morrow. The right remedy taken now may save months of severe illness. On the other hand if the illness has already come upon you; and you find yourself weakened, wasted and discouraged, do not lose hope. There is a medicine that will certainly restore you to health and strength.

"My boy was in a very bad way when I commenced to give him Dr. Pierce's Golden Medical Discovery," writes J. W. Price, Esq., of Ozark, Monroe Co., Ohio, in a recent letter to Dr. R. V. Pierce of Buffalo, N. Y. "The doctors claimed he had consumption and we doctored with them until he was past walking. After using five bottles of the 'Discovery' he is now all right. It has been ten months since he stopped taking your medicine and he is still in good health. We are very thankful to you for saving our son."

Hundreds of similar cases are described in one chapter of Dr. Pierce's great thousand-page illustrated book The People's Common Sense Medical Adviser which will be sent free for the bare cost of customs and mailing, 31 one-cent stamps. It is a veritable family library in one volume;—the fruit of Dr. Pierce's life-long experience with the severest types of obstinate chronic diseases. Any one may write to him for advice; which will be sent in a plain sealed envelope, free of charge.

Wanted

A smart trustworthy boy to make himself useful in bookstore. Apply at Times Bookstore at once.

Saturday's Market.

The attendance at the market on Saturday was only fair. There is no denying the fact that our market is not what it used to be. The prices ruled as follows: Wood, scarce, at $3 to $5 per load; beef, 5c to 7; turkeys, 75c to $1.25; chickens, 30c to 40c; butter, 16c to 17c.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

THE BEST 25c STOCKINGS.

Scotch Fingering Worsted Yarn is the strongest yarn. Stockings made from this yarn are therefore the strongest and best stockings. These stockings nicely ribbed ell made are sold every day at the Port Hope Knitting Works for 25c in large sizes running down to 13c in smaller sizes We haven't heard of this quality being equaled anywhere, have you? Ask for trading stamps.

A Splendid Show.

Mr Wm Collins the efficient secretary of the Peterborough Poultry Association, has received a letter from the secretary of London Association notifying him that his association has given $73.50 in special cash prizes and $25.50 in goods for the lists for the Provincial show to be held here. This makes $100 in prizes from London association. The forthcoming provincial poultry show promises to be the best ever held in Peterborough.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

THOMAS SARGINSON'S DEATH.

He Was Thrown From a Load of Straw and Killed.

The Times published a brief notice of the death of Mr Thos Sarginson, on Saturday, from information given by a reputable citizen of Otonabee. Whether our informant was drawing on his imagination, or was desirous of wilfully misleading the Times, is not known. Mr Sarginson did not die a natural death, as was stated but was killed by being thrown from a load of straw. It appears that the deceased, who resides on Mr Benjamin Cooney's farm, lot 17, con. 10, Otonabee, was on Friday engaged in helping a neighbor, Mr Cooney, to thresh, and had started home sometime in the afternoon. Mr Cooney, however, sent his little boy after Mr Sarginson, asking him to return and assist in drawing in some straw from the barn yard to the barn. He returned and was on top of a load of straw, when the horses ran away, throwing him on his head on the wagon pole, the wagon passing over him. When picked up he was dead. It was subseqnetly discovered that the unfortunate man's neck was broken.

Mr Sarginson was a quiet, industrious man and was a '66 Veteran. He leaves a wife, three sons and one daughter to mourn his loss. The family have the sympathy of the entire community in their terrible bereavement.

The accident occurred at a very short distance from where Jas Webber met his death in a like manner a few weeks ago.

KILLED AT NIAGARA.

Sad Death of Mr Charles Sheffield at Niagara Falls.

A telegram was received on Saturday night conveying the sad intelligence that Mr Chatles Sheffield aged 23, son of the Mr C H Sheffield, of Peterborough, had been killed at Niagara Falls on Saturday. From the meagre information obtainable we understand that the unfortunate young man, who was engaged in the electric company's works there, had come in contact with a "live" wire of sufficient voltage to cause instant death.

The family are well known in Peterborough, where they resided many years. Mrs Sheffield is now in England, one of her sons is a student at the Queen's College, Kingston and the other is in the bank of Montreal, Picton.

The remains will arrive this morning from Niagara Falls, for interment in the Little Lake cemetery.

The people of Peterborough sympathizes with Mrs Sheffield and bereaved family in their terrible affliction.

FREE FROM DEBT.

The Y.M.C.A. Has Made a Splendid Record for the Year.

Lack of space prevents our publishing the annual report the Y. M. C. A., which was presented at the annual meeting on Friday night.

The financial statement shows total receipts of $3,523.82, and payments of like amount, less $2.09, balance on hand. This is a gatifying showing.

The following officers and directors were elected: President, W D Scott, M D: 1st Vice-President, H C Stabler; 2nd Vice-President, Frank Adams; Recording-Secretary T H Martin; Treasurer, Jas H Connal.

Directors—term expires Oct. 1st, 1900—R M Dennistoun, P Hamilton, A E Dixon, H P Kennedy, H Waddell, R E Harding.

Term expires, Oct. 1st, 1901—G M Roger, W D Scott, M.D., F B Ackerman, F D Kerr, R J Kidd, Jas Connal.

Term expires, Oct. 1st, 1902—A Parker, J W Bennett, F Adams, M Carton, H C Stabler, T H Martin.

Mr A E Dixon moved, the adoption of the report, seconded by Mr R S Armstrong.—Carried.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

PETERBOROUGH VICTORIOUS.

Our Local Footballers are Now Dominion Championships.

The final football match to decide the intermediate championship of Canada took place on Saturday afternoon between Peterborough (Ontario champions) and Westmounts, of Montreal (Quebec champions), resulting in a victory for the local team by 4 goals to 2. The game was very strongly contested, both teams being in the pint of conition and were bent on gaining the coverted title, the result being an excellent exposition of the manly game. A large number of spectators were present and heartily applauded the brilliant play of respective teams. Peterborough is to be congratulated on the splendid work done by the club this season, which has brought our town into prominence in football matters.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department. Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

THE MACFARLANE WILSON CO. LIMITED

China Hall and Silver Bazaar.

CAPE TO CAIRO

Or "The Promotion of a Great Enterprise" A Great Social Event.

The above is the character of a play that will likely take place in the Peterborough opera house on the 21st of December.

The play is one that will be most attractive to the citizens of Peterborough. It has been carefully written up by one of our townsmen, whose name is at present withheld, and who heretofore, unknown to his fellow townsmen, has met with considerable success in his literary efforts published abroad.

The different parts have been assigned to prominent members of the Peterborough Golf Club, in the interests of which the entertainment will take place.

It is understood that there have been some private rehearsals going on in a quiet way for some time. The leading part has been assigned to the "Cecil Rhodes" of Peterborough, Mr. J. Alex. Culverwell, and the minor parts to others comprising English sportsmen, deer-hunting, Highland pastimes and patriotic singing. It is understood that to Messrs. W. D. Parker and H. LeBrun have been assigned the English sportsmen. They will appear with guns charged, innumerable game bags and dogs galore.

An effort is being made to secure the services of Lieut. Ritchie and Adjutant Morrow to exemplify the pleasures and adventures of chasing "the pride of the back lakes." It is also understood that Messrs. R. C. McHarrie and Peter Campbell, our local bank managers, will appear as Seaforth Highlanders and give an exhibition of Highland sword dancing, with bagpipe accompaniment, which no doubt will be the feature of the evening and a source of pleasure to their many friends.

The patriotic songs will be of a diversified character, the gentleman taking the leading part having kindly undertaken to confine himself to four songs only.

The play will be a burlesque. It is not yet known which part will be assigned to Mr. J. H. Burnham and Captainn Myles Hamilton, but no doubt when the footlights are turned on their many admiring friends will not be disappointed. Three of Peterborough's fairest and most accomplished young ladies will also take part, but just yet as to who will be the heroine the gentlemen in charge have not been able to agree upon after deliberation on this all-important matter.

The proceeds of the entertainment will be handed over to the treasurer of the Peterborough Golf Club for the purpose of assisting in the furnishing of the club house which is about to be erected on the Auburn links.

LITTLE LOCAL LINES.

Mr. Ryerson Ritchie delivered an address in St. John's church yesterday evening on *Progressive Christianity*, viewed from a layman's standpoint. There was a large congregation present.

The police have a purse which was picked up on Saturday.

Rev. O. C. Elliott will this evening deliver an address on Martin Luther at the Young People's meeting.

The quarterly session will be held in the I. O. G. T. lodge rooms, Peterborough, on Friday, December 1st. The Grand Chief Templar will be present.

Mrs. A. G. Parker sang at St. Paul's church yesterday at the evening service.

The anniversary services of the Methodist church, Havelock, are being held yesterday and to-day.

At All Saints church Rev. W. L. Armitage preached a sermon specially for men yesterday evening.

At the police court on Saturday a local wheelman was fined $2 for riding on the sidewalk contrary to the by-law.

A court for the hearing of appeals from the Court of Revision will be held by the County Judge on December 8th.

An information was laid Saturday before the County Magistrate charging a country hotelkeeper with selling liquor on Sunday.

The Whitcher Dramatic Company drew a large audience to the opera house on Saturday evening, closing the week's engagement.

Mrs. Elizabeth Hickey, relict of the late Daniel Hickey, died in town on Saturday at the advanced age of 78 years. Funeral this morning at nine from the family residence, Park street, to St. Peter's cathedral, thence to the R. C. cemetery.

According to the figures given in the Christian Guardian, the Bay of Quinte Conference of the Methodist church has 49 churches in debt to the amount of over $600 each; 64 churches under that amount and 57 entirely free of debt.

The substructure of the bridge over the creek on Donagal street is completed and the laborers are engaged in filling back of the abutments.

Mr. Sam. Rowland, a former resident of Omemee, but now farming near Deerwood, Man., located a vein of coal on his property the other day which has been pronounced very rich by experts. The deposit has been traced through adjoining lots owned by Messrs. Peel and Henderson, also old Omemee boys. Mr. Rowland refused an offer of $9,000 for a portion of his farm.

ROSY COLOR.

Produced by Postum Food Coffee

"When a person rises from each meal with a ringing in the ears and a general sense of nervousness, it is a common habit to charge it to a deranged stomach.

"I found it was caused from drinking coffee, which I never suspected for a long time, but found by leaving off coffee that the disagreeable feelings went away.

"I was brought to think of the subject by getting some Postum Food Coffee, and this brought me out of the trouble.

"It is a most appetizing and invigorating beverage and has been of such great benefit to me that I naturally speak of it from time to time as opportunity offers.

"A lady friend complained to me that she had tried Postum, but it did not taste good. In reply to my question she said she guessed she boiled it about ten minutes. I advised her to follow directions, and know that she boiled it fifteen or twenty minutes, and she would have something worth talking about. A short time ago I heard one of her children say that they were drinking Postum now-a-days, so I judged she succeeded in making it good, which is by no means a difficult task.

"Tom O'Brien, the son of a friend, who lives on Bridge St., was formerly a pale lad, but since he has been drinking Postum has a fine color. There is "plenty of evidence" that Postum actually does "make red blood," as the famous doctor says. Jno. Chambers, 3 Franklin St., Dayton, Ohio.

LATEST MINING NEWS.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as $62.50.

Write for maps and full particulars.

There is no chance to take, and there is the greatest possibility of reward to buy any one of the above stocks. Address.

W. C. APPELQVIST.
5 and 6 Van Valkenberg Block, Spokane, Wash., U.S.A.

Burleigh Falls Development.

Mr J Alex Culverwell accompanied by Mr Eugene Coste, M E of Toronto, late Mining Engineer to the Geological Survey of Canada, and director of Provincial Natural Gas and Fuel Co. (which supplies gas to Buffalo from Canada) were in town last week having just returned from a successful trip to New York on the business of the Burleigh Falls Power development. Mr Coste will take a prominent position on the board of directors of the new company which is now making application for charter under the name of the "Central Ontario Power Company."

A Case of Non Support.

A case of non support came before the Police Magistrate on Saturday afternoon, Wm Nicholls, who is employed in Denne's coal yard and livery stables, being so charged by his wife. The wife who has one child, claims that her husband does not contribute to the support of his family intimates that he spends his wages on other women. A point of law was raised, and the Magistrate took until Wednesday next to deliver judgement.

Salmon Trade Combine.

Vancouver, B.C., Nov. 25.—It is understood that arrangements are going on, on a new plan, for a combine of the salmon canneries of the province, and that the principals in the case are Senator Cox and other eastern Canadians. A meeting of the cannery proprietors were held at Victoria a couple of days ago, and the question of the proposed combine was discussed. No definite action was taken, however, but it is said that when other meetings are held they will result in a definite plan being formulated for the carrying out of the combine.

The Bubble Burst

New York Nov. 25.—There was a panic of excitement in the street in front of the Franklin Syndicate's offices in Brooklyn last night, when it became known that the bubble had burst and that Miller, the head of the concern, had fled. One woman dropped dead; several others fainted and were carried to nearby drug stores. Two or three ambulances were rung up, and the doctors were kept busy for some time. The woman who expired through the excitement produced is said to have lost the savings of a lifetime.

Miller had not been located up to this forenoon.

Our Market.

To the Editor of Morning Times.

Sir—A letter appeared in the Examiner on Friday, over the signature of "Citizen," which is worthy of some attention. The writer says that the market should be thrown open to dealers at ten. I very much fear, Mr. Editor, that if the mask were removed and "Citizen's" identity revealed, we would find that he is a dealer himself. It certainly looks that way. The people who pay the taxes have a right to some protection. If dealers were allowed to operate at ten o'clock, it would very soon drive small purchasers off the market altogether, for there would be nothing left to buy. Housewifes who do not keep servants cannot get out before ten, and this would mean that they would not go to the market at all if they were forced to take what the dealers do not buy.

As regards the cheap fares which the writer refers to, that is all right. But if his advice in regard to the changing of the hours for dealers is taken there would be no object in inducing people from the country to attend a market where there would be no one to buy but dealers. They would probably find a better market elsewhere.

Thanking you, Mr. Editor, for inserting this letter in your widely read newspaper, I am

A MECHANIC'S WIFE.

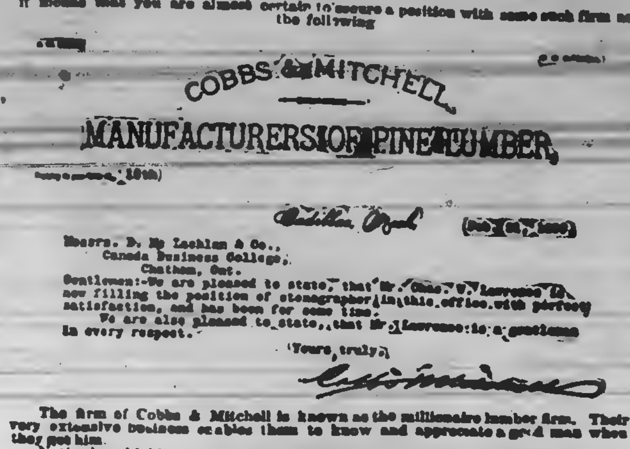
THE Canada Business College.

CHATHAM, ONT.

It means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL
MANUFACTURERS OF PINE LUMBER

Chatham, Ont. [illegible]

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

Gentlemen:-We are pleased to state, that Mr. Chas. V. Lawrence is now filling the position of stenographer in this office with perfect satisfaction, and has been for some time.

We are also pleased to state, that Mr. Lawrence is a gentleman in every respect.

Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they get him.

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for supplying teachers for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address.

D. McLACHLAN, Principal C. B. College, CHATHAM ONT

Municipal Matters.

The municipal pot will soon begin to simmer. It is expected that a number of new men will offer themselves for a seat at the council board at the forthcoming elections. The Times proposes to devote considerable attention to municipal matters with a view of having a reduction in civic expenses, and a stop put to the present disgraceful mismanagement of our street department. Here is where reform is needed.

Holiday Books.

If you are looking for bargains in books come to us. Have just received a choice lot of books, handsomely bound as follows: Cloth with artistic stampings in colored inks and gold; English Vellum English silk-ribbed cloth; uniform cloth; also a choice lot of embossed padded leather covers. The books are just what you will be looking for for Xmas pesents. Come early and get first choice. Times Bookstore.

NOTICE.

A COURT to hear the appeal from the decisions of the Court of Revision of the Town of Peterborough on the Assessment Roll of the said Town for the year 1899 will be held by His Honor the County Judge of the County of Peterborough at the Judge's Chambers in the Court House in the Town of Peterborough on

Friday, the 8th day of December,

1899, at the hour of Two O'clock p.m., of which all persons concerned will take notice.

S. R. ARMSTRONG.
Town Clerk.

Peterborough, Nov. 25th, 1899.

BREAD FOR 8C.

Until further notice the undersigned is prepared to sell Bread at 8c per four pound double loaf, and 4c for single loaf.

Orders should be left at our store, George Street.

JAS. H. McQUAY.

ANOTHER REGIMENT MISSING

9th LANCERS MAY BE CAPTURED

No Information at Hand Regarding the Whereabouts of the 9th Lancers Who Were Pursuing Boers at Graspan.

A GENERAL ADVANCE ON LADYSMITH ORDERED.

Hildyard's Column Moves Forward to Frere, a Few Miles Below Colenso—He Heads a Flying Column Which is Trying to Cut Off the Boers.

London, Nov. 28.—Special.—A fresh interruption in the East African cable service at this moment has caused a cessation of war news. As yet, the War Office has not received Lord Methune's detailed list of casualties, nor is any information at hand regarding the whereabouts of the Ninth Lancers, who were sent in pursuit of the Boers from Graspan. The Daily Mail says that a private telegram announces that the Lancers are still scouting ahead of Methune's advancing column; but, as he announced yesterday, this is hardly possible. The greatest anxiety is felt, and more especially in view of the fact that a Berlin journal [illegible] bounded yesterday [illegible] have been ascertained from British courses, that the Naval Brigade lost 100 men at Graspan, and that the Lancers were captured. It is understood that the Government yesterday decided to proceed immediately with the mobilization and embarkation of 6000 men under Lieut.-Gen. Hildyard whose achievement at Beacon Hill is beginning to be recognised as one of the best things the campaign has yet seen, as it has relieved the tension of the situation in Natal, and has brought the relief of Ladysmith within measurable distance. Gen. Buller appears to be confident of Lord Methune's ability and is devoting all his energy to Ladysmith. An attempt will be made presumably to reach Colenso, in time to cut off the retreat of the Boers from Weenan, over the Tugela river. It is feared, however, that the enemy will get there first and destroy the bridge. At Freere bridge the British found two massive spans utterly wrecked by dynamite, one piece, weighing 224 pounds, having been hurled 200 yards. Sir Alfred Milner has warned the various relief committees in Cape Town to be prepared for the arrival of 10,000 refugees from Kimberley as soon as the siege has been raised. According to a despatch from De Aar dated Sunday, the Boers have destroyed the bridge at Steynesburg the previous day, and were being reinforced at that point.

Berlin, Nov. 27.—It is reiterated here that the Anglo-German agreement has special clauses referring to South Africa which will eventually allot Tiger Bay to Germany.

OLD EARTH'S FAIR WOOING, AND [illegible]

CREDIT TO GEN. METHUEN.

London, Nov. 27.—None too soon for the British has come the news of the improved outlook for them on both the eastern and western sides of the South African Republics, as the constant small reverses were arousing keen resentment against the authorities. This was evidenced by the result of the Wandsworth election to the London County Council on Saturday, when the previous Conservative plurality of 920 was converted into a Liberal plurality of 232, though the Conservatives made the war an issue, and their candidate was a military officer.

[illegible] Methuen, [illegible] Belmont was the first battle after which the British advanced instead of retreating. The fact that General Methuen was forced to fight a second pitched battle near the scene of the first shows that the Boers were not demoralised at Belmont, but quickly rallied, and with unabated courage met the splendid assault of the British Naval Brigade at Graspan. The excellent military qualties displayed by the Boers in these two fights were no doubt partially derived from the training of Commandant Albrecht, a former office rof the Austrian army.

British March to the North.

Presumbaely General Methuen has already resumed his march northward. When last heard from he was still nearly 50 miles from Kimberley, and doubtless an action will have to be fought at Modder river before Diamondopolis is relieved.

There is some doubt as to what is meant in the statement that the Boers are falling back on Warrenton, which is fifty miles north of Kimberley, unless the despatch was intended to fall into British hands in the hope of misleading General Methuen. The latter however, is said to be far too cautious to be caught by such a trick, and it can be confidently anticipated that his column will sweep steadily forward in spite of all the determined resistance he will meet with. It seems that the conclusion must be reluctantly reached that the Boers are deliberate in their misuse of white flags. On top of Gen. Methuen's warning and other evidence, comes the statement of correspondent Knight, who has arrived, wounded, at Cape Town. He says he accompanied a detachment of the Northampton Regiment when a force of Boers, 300 yards distant, and surrounded, displayed a white flag. The officer commanding the Northamptons then ordered his men to rise, when the Boers deliberately volleyed, wounding Knight and others.

BOER POSITION TAKEN.

London, Nov. 27.—General Lord Methuen is clearing the road to Kimberley fo rthe advance of the British reinforcements under his command. However the Boers make stubborn resistance and lives are being freely sacrificed on both sides.

On Saturday the British forces had another engagement with the enemy this time at Graspan, a small station a few miles north of Belmont, and on the railroad to Kimberley.

Gen. Sir Frederick Forestier-Walker furnishes the War Office with the following account received from General Methuen;—

Gen. Lord Methuen reports that he moved yesterday Nov. 25, at 3.30 a.m., with the Ninth Brigade, the mounted corps and the naval brigade, the Guards followed with the baggage.

A force of 2,500 Boers, with six guns including two machine guns, opposed him near Graspan. The action commenced at 6 a.m.

The batteries fired shrapnel very accurately until the heights seemed clear. Then the Naval Brigade and infantry assaulted the position.

British Carry Heights.

The fighting was desperate until 10 a.m., when the heights were carried, the Boers retreating on a line where the 9th Lancers had been placed to intercept them.

The result is unknown at the time of telegraphing.

The artillery took immediate advantage of the enemy's retirement.

Early in the action 500 Boers made an attack on the rear guard brigade, naval. The latter met this, and also protected the flanks.

The Naval Brigade acted with the greatest gallantry, and has suffered heavily.

No particulars are yet known.

The enemy showed the greatest stubbornness. They must have suffred heavily. Twenty have been buried. Thirty-one killed and forty wounded are known of.

More than fifty horses were found dead in one place.

One battery fired 500 rounds.

The force must halt one day at Graspan to rest and replenish their ammunition.

Did Splendid Work.

The force worked splendidly, and are prepared to overcome any difficulty. The Naval Brigade, Royal Marines, 2nd Yorkshire Light Infantry and 1st North Lancashire Regiment especially distinguished themselves.

Regarding Thursday's fight, 81 Boers killed are accounted for, 64 waggons were burned, a large quantity of powder, 5,000 rounds of ammunition and 750 shells were blown up. Albrecht commanded the Boer artillery, and Gen. Delarraye was in chief command

BOERS BIG LOSSES.

Cape Town, Nov. 26.—Reports received here of the brilliant success of Lord Methuen at Gaspan say that the Boers had eighty killed and many wounded, and the British took numerous prisoners.

The fact that in the Graspan action one British battery fired 500 rounds proves the desperate nature of the fight, and there is little doubt that the casualties were heavy.

It is known that no guns were captured in the Belmont engagement.

TIMES LESS OPTIMISTIC.

London, Nov. 27.—The Times, in its review of the situation this morning, takes a less optimistic view than it has done hitherto. It says;—

The activity the Boers display at points seperated by hundreds of miles their ability to invest several towns, their readiness to offer battle at Belmont and again at Graspan, their widespread operations south of Orangeriver, and their bold and offensive action in Natal, seem to indicate numbers far in excess of our estimates.

It is clear that the military requirements were at first greatly under-estimated, and that a sixth division ought immediately to be prepared for embarkment

MOBILIZING MORE TROOPS.

New York, Nov. 27.—The London correspondent of the Times says; That no thoughts of peace enter the minds of our officials or the soldiers in the field is sufficiently proved by the circumstances that at the present moment the utmost energy is being displayed in organising at Aldershot a final army division of unusual strength, probably of over 35,000 men, with a view to their early despatch to the seat of war. Part of this division will have to be drawn from the militia. I am told, and after it has been sent, we can have no regular troops worth speaking of beyond a few recruiting sergeants left in this country. Another 10,000 men is also being sent from India, and should all these troops be poured into Africa, we shall have an army there from first to last of more than 130,000 men.

This probably means an expenditure of from 1,500,000 to £2,000,000 a week. It may be a smaller sum if we are lucky in our transport facilities, and in the health of our men, cavalry horses and baggage animals, but it will be well to count upon the larger amount in preparing estimates of the cost of the war. Up to now the nation has not given a single calm thought to this side of the question, and the time for reflection is yet some distance off.

HILDYARD'S SUCCESSFUL ATTACK,

London, Nov. 27.—The War Office has received the following despatch from General Buller, dated Pietermaritzburg, Natal, Sunday, Nov. 26—

"Hildyard from Estcourt made a successfull attack NNov. 23 with three battalions, one field battery, a naval gun and 700 mounted troops on the enemy occupying Beacon Hill, which dominate Willow Grange, and had interrupted his communication. As a result of the operations the enemy is retiring and the railway and telegraph lines have been restored between Estcourt and Weston.

"Our loss was about fourteen killed and fifty wounded.

"Hildyard has advanced to a position near Frere, as he hopes to cut off the enemy who is believed to be retiring on Colenso via Weenen.

"Barton from Weston has advanced to Estcourt.

"As soon as communication is restored I will telegraph particulars.

"So far as I can make out the operation is one for which Hildyard and the troops deserve much credit.

"The railway is now open to Frere."

BOERS RETIRE.

London, Nov. 27.—The Colonial Office has received the following despatch from the Governor of Natal, dated Pietermaritzburg, Sunday, Nov. 26—

"The Boers are retiring on Weenen. Our troops are occupying a ridge three miles north of the Mooi River. It appears that the Boers have found our position too strong and are retiring towards Ladysmith with the loot they have collected.

"The river is in flood.

"Buller has arrived.

"Telegraphic communication with Estcourt was restored early this morning."

BRITISH LOSS AT BEACON HILL.

Durban, Natal, Nov. 26.—The latest reports of General Hildyard's losses at the Beacon Hill engagement show fifteen men were killed and 72 wounded. The West Yorkshire regiment suffered heavily. Major Hobbs was captured and several men are missing. Despatches from President Kruger and General Joubert found on a Boer prisoner, said the Boer losses at Belmont were ten men killed and forty wounded. It added that in order to reassure the burghers it had been deemed necessary to fall back on Warrenton.

A pigeon message from Colonels Ian Hamilton and Duff at Ladysmith, undated, reports all well.

Another naval contingent from the British first class cruiser Terrible, with two 4.7 inch guns, started for the front tonight.

FEELING AGAINST OFFICIALS.

London, Nov. 27.—The situation at the Cape cannot be said to be inspiring from the British point of view. A strong undercurrent of feeling against the authorities is manifesting itself in every news. That if the second successful engagement of Lord Methuen fails to relieve the public mind, for it is felt that the Boers have adopted the favorite tactics of falling back when hardly pressed, to return later on and again menace the British advance. It is felt in some expert quarters that it would have been better to have delayed Methuen's advance until it could be possible to provide one or two more regiments of cavalry, then it is possible he could have manoeuvred the Boers out of their entrenchments without firing a shot, while the mounted troops would be able tot urn the Boer retreat into a rout and disorganize and break up the commando. It is now hoped if Lord Methuen be successful in the next engagement, which, it is taken for granted, must be fought on the Modder River, the relief of Kimberley will follow as a matter of course. Thence he will be able to make a sudden spring on Bloemfontein, which action would have a most remarkable effect on the conduct of the war, for it would be

A Menace toP retoria,

and draw the Boer forces from invading Natal. General Buller's adherents here, however, persist in relying on his strategy to even up matters. Buller's only fault, according to those who know him, is a superabundance of self-reliance and intolerance of advice, but he is not headstrong and has a knack of taking advice without seeming to do so. However, Buller has been at such pains to conceal his intentions that all conjectures are practically baseless. He has surrounded his plans and movements with an impenetrable wall, and as far as war correspondents are concerned, they are utterly in the dark as to what he proposes to do. The British public continues to grumble at such news as is filtered out, to them by the military censor. It really tells nothing or minimizes any Boer successes, while those of the British are apparently exaggerated and tell nothing of the British forces, their aims or strength. Such news as that, for instance, which reaches here relating to the still further accessions to Boer ranks from Cape Dutch do little to inspire confidence in the public mind. The fact is that the view is generally held that the situation is gloomy in the extreme. Yet in the face of this the average man contents himself by saying the ultimate outcome must result in a British victory, but he does not deny the cost at which such victory be obtained.

BOERS DESTROY A BRIDGE.

Estcourt, Sunday, Nov. 26.—The railroad bridge at Frere, spanning a wide stream, has then destroyed by the Boers, who are reported to be retiring rapidly.

A general advance upon Colenso has been ordered and a flying column has left here to intercept the Boer raiding parties.

A reliable messenger from Ladysmith says he gathered from the Boers that they had proposed a combined attack all over the country for to-day.

General Joubert is expected to stoutly dispute the passage to Tugela River.

OUR SPORTING COLUMN.

Football

The boys who have done so nobly at football should receive some recognition at the hands of the citizens of the town. The Times would suggest that a grand concert be given under the auspices of the club, the proceeds to be given to the club. At the concert an address might be presented on behalf of the citizens, by the Mayor, and some small souvenir given to each of the players, a scarf pin, or cuff button, or something similar. The funds for the purpose could be raised in an hour, if one or more of our citizens took the matter in hand. We hope to see a move made in this direction at once.

Hockey

The Lindsay Post says that Mr. Lionel King, who is a can-didate for a vice-presidency in the O.H.A., is one of the most popular players in the province, and is not likely to be turned down

Port Hope, Bowmanville and Whitby are the only teams known that will stay in the Midland Hockey League.

The Ontarios of Port Hope organized for the season last week with the following officers;—Hon President—Mayor J. W. Quinlan, President—R. Wallace Smart, 1st Vice-President—W. Corners, 2nd Vice-President—D'Arcy O'Brien, Manager—H. B. Roseyear, Treasurer—F. Garfatt, Secretary—W. J. Renwick, Captain—C. C. Coleman.

The regular weekly meeting of the Cobourg Hockey Club was held on Wednesday evening when about thirty-five members were present, with President A. R. Dundas in the chair. A letter was read from Secretary Beaton accepting the entrance of the Cobourg Club in the Ontario Hockey Association. The colors of the club have been changed from white and green to white and red. Messrs. D. D. Kerr and Chas. Gould were appointed delegates to attend the annual meeting of the O.H.A. in Toronto on Dec. 2nd.

Bobcaygeon hockeys players met last Tuesday evening and elected the officers as follows; President, C. S. Logie; vice-pres., John Moffatt; sec.-treas., M. Welsh; manager, A. E. Kennedy; executive committee, Messrs. W. A. McIntyre, Thos. Edgar, J. Robinson.

The Port Perry hockey team has been organized, with the following officers; Hon. President, G. M. Gibbs; hon. vice-president, T. M. Yarnold; president, W. L. Parrish; vice-president, H. B. Clemes; secretary-treasurer, Jas. McBrien; team committee, and Ed. Grant. Judging from the attendance and enthusiasm at the meeting hockey will boom this season.

Filipinos Quit

Manila, Nov. 27.—The insurgents have evacuated [illegible] province of Pangasinan, leaving seven American and 94 Spanish prisoners, who escaped in the turmoil of the Filipino retreat. They report that two Americans who were unable to escape are with the insurgents.

Miller's Club Popular

New York, Nov. 27.—It developes that William F. Miller, of the Franklin syndicate, which promised to pay its patrons 520 per cent. a year, had another pet scheme which he was working, known as the "Paris excursion club."

It is thought he got several thousand dollars from this source. Membership in the club cost $100. Its circulars were sent broadcast all over the country. Miller using the machinery of the Franklin syndicate to do this, and the responses were quick. It is said that more than one hundred members were obtained on Long Island, while many more sent in $100 from New England and the Central States. The circular stated that for $100 all members of the "Paris Excursion Club" will be given first cabin steamship accommodation, and could spend 30 days at the best hotels in the Exposition city. The condition that the $100 must be deposited nine months in advance was insisted upon and an extraordinary number of credible people responded.

Only Healyites Attended

New York, Nov. 25.—The London correspondent of the World says;—"The Irish unity conference held yesterday in Dublin under the presidency of Tim Healy proved of no account. Only 19 members out of a possible 80 attended, all, with the exception of three non-descripts, being Healyites. Redmond's party was absent, also those who usually follow Dillion.

"The meaning of Healy's action in now proposing unity after obstructing all similar preceding efforts is quite patent. Outside of Dublin and Waterford, where the Parnellites are still supreme, the only live political organization is Wm. O'Brien and Davitt's United Irish League. It is spreading steadily, and receiving substantial financial support. Its policy is to make a clean sweep of all existing Irish parties as such, and it is predicted quite confidently that the Healyites anyway, will be obliterated at the next general election. Hence their present anxiety for the reunion of the present parties to check the growth of the United Irish League."

The Emperor's Sunday

London, Nov. 27.—Emperor William and the other members of his party went yeterday to Sandringham church, where Dr. Creighton preached. The Empress and the ladies with her drove home, but the Emperor and the gentlemen with him walked through the park. His Majesty being respectfully greeted by crowds of people who had arrived from the neighboring towns and villages by motor cars, carriages and bicycles.

DSuring the afternoon the Kaiser and the Prince of Wales inspected the Prince's stables, kennels and stud farm.

It is arranged that the Imperial yacht Hohenzollern is to remain at Sheerness with the Imperial family on board until Wedneday morning.

Sandringham, Nov. 27.—Emperor William, the Prince of Wales and Duke of York went shooting in the Wolferton this morning, and the Imperial and royal ladies joined the party at lunch. The covers have not been shot this season, so game was plentiful.

Bank Safe Blown Open

Montreal, Nov. 27.—The Montmagny, Que. branch of the Banque Nationale was robbed of the entire contents of the safe during last night. The exact amount could not be ascertained, but it is said to be between $12,000 and $15,000.

The safe was inside the vault and the doors of the vault and safe were found wide open early this morning. A large arc light located close to the premises was found to have been tampered with, and would not light. The electric lights in the bank were burning all night.

The robbery is supposed to be the work of three tramps, who were seen in the vicinity of the village yesterday. They broke into the I. C. R. trackmen's toolhouse and secured tools, with the aid of which they succeeded in opening the vault.

Mr Pattullo's Opponent

Woodstock, Nov. 27.—On Saturday the Conservatives of North Oxford met and nominated Mr. Abramam Montague to contest the riding in the next Provincial elections against Andrew Pattullo. Several others were nominated, but all retired in favor of Mr. Montague.

Ready for Another Contingent

Toronto, Nov. 27.—Military men are of the opinion that a second contingent will in the near future be sent from Canada, and in order that there will be no delay when the order comes preparations are being made to have the men who are willing to go at any moment.

The captains of the various companies of the 12th York Rangers have received a communication from Colonel Wayling asking for the names of all the men in the regiment who will volunteer in the event of a second contingent being recruited.

An Additional Company

Kingston, Ont., Nov. 27.—Lieut.-Colonel Hunter has received permission to form a new company in connection with the 47th Battalion. It will have headquarters at Kingston.

Instructor Lindberg, of Sarnia, comes to Kingston to take charge of the famous band of the 47th Battalion.

Killarney's Lakes Sold

London, Nov. 27.—Lord Ardilaun—Arthur Edward Guinness—has purchased the Muckross estate for $300,000. The Muckross estate includes the Lakes of Killarney.

Advices yesterday said that the estate had been bought by Baron Iveagh, a brother of Lord Ardilaun.

Will Change the Act.

Toronto, Nov. 25.—At the next session of the Legislature a bill will be introduced changing somewhat the present public Health Act. At present Boards of Health in rural municipalities could be done away with by the appointment of a county officer or a county inspector who would have charge of any outbreak of disease and would have nothing to do but look after it and the general health of the county. Each township in the county would appoint a sanitary inspector who would work under the County Health Officer.

THE PAVING CONTRACTS

Contractor Sheehy Again in the Witness Box.

DIFFERENCES OF OPINION.

Base of Pavement Constructed the Same as Last Year.

He is Satisfied with his Work—he is not accountable for the Whittling of the gauge and used a straight edge of his own

The pavement investigation after an adjournment of nearly two weeks, resumed Thursday morning before His Honor Judge Weller. There were present Messrs. E. B. Edwards, Alderman McWilliams, R. F. McWilliams, R. M. Dennistoun, R. Sheehy, D. W. Dumble, W. Langford jr., W. Evans, Ald. Sawers, Ald. Langford and a few others.

The first witness called was Mr. F. G. B. Allan, superintendent of the Rathburn Co. at Napanee Mills. He stated in his evidence that they manufacture Ensign cement, which is a silica cement, by grinding Prtoland cement with 50 per cent. sand. The Ensign cement is a Portland cement. In the ordinary Portland cement there is a proportino of between 40 and 50 per cent. of material that is of no value as cement. In Ensign cement the very fine grains of sand are distributed always with a film of cement around them. Ensign cement is always offered as Portland cement. It gives as strong a concrete as any Portland cement. The witness named a number of towns in which Ensign cement is used in the pavement work.

EXAMINED BY MR. McWILLIAMS.

To Mr. R. F. McWilliams, witness stated that in Star cement as in all Portland cement there is a proportion of 40 to 50 per cent. that is inactive as a cement. This could be made of value as cement be re-grinding but that is not at present a commercial possibility. In the Ensign cement all the material that is of cement value comes into action. You have exactly the same amount of active cementing material in Ensign cement and Star cement. The difference is that in the Star there is material that might be made of value of value as cement by a re-grinding process while in the Ensign cement its place is taken by the sand. Ensign cement is sold as a Portland-Silica cement. It is sold cheaper than the Star cement because it is a new brand. To introduce new brands they have always to be sold cheap. Star Portland is sold for considerably more now than it was three years ago. Ensign cement will fill any specification that is in force in this country to-day.

Mr. McWilliams informed witness that Mr. Raddon had found Ensign cement to be weaker than Star in some cases. Witness could not explain this as he did not know the conditions. The Ensign cement had on the Soulanges canal been found to be the equal of any Portland cement.

CROSS-EXAMINED.

To Mr. Dumble witness stated that he was not an expert on concrete work but he believed that sand was used in all concrete. Stone was put in not for strength but for economy, that is, to fill up. He had never heard of nay work being done of Portland cement and stone alone.

To Mr. Dennistoun witness stated Portland cement goes on increasing its strength from year to year. Concrete work laid down only a few weeks would not be as solid as that down a year. Too little water or too much water in a mortar would not produce the best results from the cement.

WOULD BE JUSTIFIED.

The Judge asked whether the engineer would be following out the specifications in using Ensign cement as "Portland cement of approved quality." The witness answered affirmatively. Were he in the engineer's position he would certainly allow its use.

MR. SHEEHY.

Mr. Sheehy was then sworn and questioned by Mr. Edwards. He stated that he had contracts for sidewalks this year and last. Last year they were paid 16 3-4 cents per square foot. For the first contract this year they were paid 15 7-8 cents per square foot. Witness believed that last year they followed the specifications according to the letter. On second thought he rembered there was a slight deviation regarding the proportions of cement to gravel in the base. It was reduced from 1 to 6 to 1 to 7. The gravel last year was not quite as good as that used this year. In the gravel of this year there was not quite as much sand. It is an advantage not to have too much sand.

BASE OF THE PAVEMENT.

In the work on the base of the pavements this year the same box was used for measuring the gravel. It was 5 feet square by 13 1-2 inches deep. In mixing for the base this year they first filled the box and put in "the quantity of cement," turned it over twice and wet it. In measuring the water there was no rule; it was done by judgment; Inspector Ranney sometimes supervised it. Witness never knew of an extra quantity of gravel being put in. Mr. Ranney had objected sometimes to heaping the box up. He would sometimes order the men to take some out. Sometimes there was less and sometimes more cement was put in. Witness never thought Mr. Ranney was having as much trouble as he made appear. The sand for the surface finish was screened out of the gravel for the base. This sand was taken out of the gravel every every day. Witness could not say what per cent. of the gravel would be sand, did not think it could be more than 20 per cent., as provided for by the specifications.

Satisfied With His Work.

In answer to a question witness stated that he had not seen any parts of his sidewalk that were defective except those made defective in the removal.

Q—Perhaps you didn't want to see it?

A—Well, I would not like to see it. I

PETERBOROUGH, NOVEMBER 14, 1899

THE BASUTOS

A writer in a Buffalo paper gives some interesting facts with reference to the Basutos, the powerful South African tribe whose attitude in the present war is causing both British and Boers considerable anxiety.

This remarkable tribe occupies a rocky tract bounded by Natal, Cape Colony and the Orange Free State, known as the Switzerland of South Africa. It is 10,293 square miles in extent. Its native population is 218-325 natives and about 600 whites. It is a British crown colony with home rule under modified native laws.

The Basutos are termed brainy and remarkable because there has been added the cunning diplomacy of their chiefs to the wonderful bravery of their fighting men. It is said of the Basueto that he has been a troubling factor since the beginning of South African civilization. He has warred with the English. He remembers certain lands lost to the Boers in a forgotten war. He has violated treaties. He has changed the maps of the country. He has smashed policies and upset calculations.

This singular and active tribe, ready to adopt advanced ideas and having aspirations higher than the surrounding tribes of the country, sprang from the remnants of the many tribes dispersed and nearly obliterated by the Zulus in the fierce and bloody contests in the beginning of the century. The men of the tribe have advanced in civilisation by degrees. Their mixed stock has proved an advantage to their sturdy growth. They have thinner lips and less prominent features than the other native tribes, being superior in intelligence and appearance to the Kaffirs. People in this country will be surprised to know that the Basutos have welcomed missionaries, and, as a people profess a Calvinistic Protestant faith. they have the entire Bible translated. Their land is dotted with churches and school houses. They are well educated and thousands of them speak Dutch and English fluently. Alone of all the African tribes they build comfortable brick and stone houses, while they have excellent roads and keep them in repair. The material growth and advancement of the tribe is remarkable. They raise cattle and sheep extensively and affect improved breeds. Their enormously fertile valleys yield rich crops of wheat and maize. They cultivate wool. They have a steady market at Cape colony, and in good years import thither produce to the value of a million dollars. Coal is mined in the mountains.

To protect themselves and to keep alive a spirit natural to the Basutos, they maintain an army of a high standard, numbering 30,000 men, but they can put 50,000 in the field without an effort. Strange to say, the feature of the Basuto army is its cavalry. From early times they have fought on horseback, and they are daring and skillful horsemen, as the Boers well know. The Basuto has grievances which he would like to settle now with his hated enemy. The Basuto wishes to spring at the throat of the Boer, but Great Britain is endeavoring to hold him back, and keep him neutral in the contest. He would be a powerful British ally at this time. But Great Britain cannot trust him. While he is armed and aching for a fight he is also dangerous when aroused. He might not obey orders, and he might not stop at the proper time. Great Britain, triumphant over the Boer, could not face a vast native uprising. Losing control of the Basutos might lose to Great Britain the control of everything.

NOTES AND COMMENTS

The theory that the vermiform appendix is a useless rudimentary organ is not accepted by every doctor. A late writer, Dr. Slaughter, contends that it has a useful function in secreting mucus to lubricate the lower intestines, and that inflamation from obstruction of this mucus is the chief exciting cause of appendicitis, a less severe form of the disease being due to impared circulation in the appendix. Most cases of appendicitis known to this physician have, he says, recovered without operation or reoccurrence.

First thing that man Buller knows he will drive all the war correspondents and newspapers over to the Boer side.

PURSUED BY RUNAWAY CARS

For Very Good Reasons the Fat Engineer Was Unable to Get Away from Them.

"I was dropping 'em down Cataract There I goo through on the interest Hill at a twentyfive mile an hour pened to glance back along the train,

"I was dropping 'em down Cataract clip night before last," said the fat engineer, "when Murphy, who hap- as we were rounding a turn with the sight on the left side, says:—

"'Hey, Fat, we're broke in two'

"'Hun!' I says, rather startled like, as Murphy and I hadn't been on good speaking terms ever since the night I told him to jump off at Glendale, when he skinned his face, and he had steadily given me the frosty mitt.'

"'We're broke in two, sure's I live, and, if you don't believe me, come over and see for yourself,' says Murphy. 'See that light back there about half way the length of the train?'

I saw it.

"'Well, that's the flag shanty on the right hand side of the track. Now, if the train wasn't parted how could you see that light on the left hand side of the track without you had an X-ray in your eye to look through the boxcars behind us?'

"'I guess you're right, Murphy, and this is a mighty bad place to be chased by the hind end, too," says I, "I wonder how far back it is?

"But I didn't have long to wait to find that out, for in a moment the light was blotted from sight by the high boxcars in the rear end, and I could see the green lights on the markers of the caboose as they sailed out from behind a little knoll.

"'Golly Peters!' I says, 'there they come only about ten car lengths behind us, and coming to beat the band. See the tail lights on the caboose!'

"I give two jumps and I was over on my side and pulled her wide open, give three long blasts of the whistle, the 'train parted' signal, and then we started down that hill to beat the band. Murphy sat looking behind with his eyes on the tail lights of the caboose.

"'Coming like the old boy himself and gaining on us at every lick,' he hollers over to me.

"'See anybody out on top yet?'

"'Nope.'

"'No, darn 'em,' I says, 'I s'pose the hull kit and caboodle of 'em are asleep in the little red caboose behind the train or else playing whiskey poker. I'm hanged if I don't report 'em some day for sleeping on duty."

"Then I gave three more blasts of the whistle. Murphy had to get down from his seat now and begin slamming coal into the firebox, as I had been hammering her so all-fired hard that the fire was going out of the stack in chunks as big as your head. I would occasionally look back, and when we rounded another turn with the sight on my side I could see the lights in a little Italian boxcar settlement on the left hand side of the track through that open space, and then after about ten car lengths they would be blotted out. By this I could tell that the hind end was about ten car lengths behind us and making just as good time as we were.

"'Them fellows in that doghouse on the rear must be all dead. I just hope that hind end pinks us,' I said to Murphy. 'Then some one'll get fired.'

"I kept up a tooting on the whistle and finally I looked back and saw a man coming over the top of the train. It was so dark I couldn't see the feller, but I could trace him by his lantern. He was ahead of the break and was sprinting toward the engine for all he was worth. I couldn't for the life of me tell how he got on the head end, but I kept feeding it to her for dear life, and that hind end seemed to keep going as fast as we did. Bimeby the man coming over the top of the train reached the tank all out of breath, partly from swearing and partly from running so fast. It proved to be Kane, the conductor.

"'Well,' he says, when he got his speech, 'what in thunder is the matter with you?'

"'We're broke in two,' I says, 'Where you been? Sleeping in one of the boxcars? The hind end's been chasing us for the last five miles down this hill.'

"'You're another,' says he, 'because I just walked over the train all the way from the caboose to the engine.'

"We were dancing around another curve just then and I pointed back.

"'Look back there, will you, and kindly tell me, if the train's all together, how I can look back and see lights on the other side of the track through that open space?'

"He looked back.

"'Why, you chump,' he hollered, 'them's flat cars. Never heard of 'em before, have you?'

"Well, say, if anybody ever felt like a flat car, I did."

A Great Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

Wood, soft $4.00.
Tallow, rendered, per lb., 3 1/2 to 3c.

ALL THE PLAYERS HELD FOURS.

But the Kentucky Colonel in the Game Held the Inquest.

R. Wicks Haughton, of Louisville, Ky., fathered the following story in the cafe of the Fifth Avenue hotel yesterday afternoon:—"Some years ago," said Mr. Haughton, "a certain coroner in Kentucky, who was, as a matter of course, a colonel, was called upon to hold an inquest in a distant part of the county. He was famous as a poker player and so on the night of his arrival it was in the natural order of events for the foreman and three other members of the coroner's jury to have arranged a game at the club. The colonel described the game as follows:

"'Along about midnight, gentlemen, the game having been pretty warm, I went outside to cool off, and on coming back found it my turn to dole the cards, which I did. The man next to me bet $100, the next man stayed, so did the next, while the man on my right histed it $500. We all made good, and then came the draw. Every mother's son took one card save myself. I held an ace, king, queen and a pair of jacks. Holding the pair I discarded and drew three. The first man bet $500 the man next raised $500, No. 3 dropped out and the man on my right raised another $500. Having a pretty good hand after the draw I put in the regulation $500 raise. After some further skirmishing it resulted in a showdown. The man on my left held four queens, No. 2 four kings and No. 3 four aces.'

"The colonel at this point in the story reached for his drink," continued Mr. Haughton, "but I stayed his hand and asked: 'what did you hold, colonel?' 'By the eternal, sah, I held the inquest!' he replied with gravity."

THE POULTRY YARD.

Pea fowls are small bodied birds, and it will not pay to raise them for their flesh.

Do not hatch bantams too early. Small size is desirable. Hatching in August will give the best results.

Lack of shade in hot weather and too much exposure in the sun are often prolific causes of disease.

Clean earth is a first class disinfectant and purifier. As long as it is dry it can rarely be used to excess.

Until your experience and accommodations warrant confine yourself to one or two well known varieties.

A Curious Old Ad.

A Boston paper has unearthed this curious old advertisement from the Boston Post Boy and Advertiser for March 16, 1767: "The Bell-Cart will go through Boston, before the End of next March, to Collect Rags for the Paper Mills at Milton, when all People that will encourage the Paper Manufactory may dispose of them; the best Price will be given. They are taken in at Mr. Caleb Davis's Shop, at the Fortification; Mr. Andrew Gillespie's, near Dr. Clark's; Mr. Andrew Ramsdale's, near Phillips's Wharf; and Mr. John Boies's in Long Lane; Mr. Frothingham's in Charleston; Mr. Williams's in Marblehead; Mr. Ellson's in Salem; Mr. John Harris's in Newbury; Mr. Daniel Fowle's in Portsmouth; and at the Paper Mill in Milton.

"Rags are as Beauties, which concealed lie;
But when in Paper, how it charms the Eye;
Pray save your Rags, new Beauties to discover,
For Paper truly, every one's a Lover:
By th' Pen and Press such Knowledge is displayed,
As wouldn't exist if Paper was not made.
Wisdom of Things, mysterious, divine,
Illustriously doth on Paper shine."

But They Weren't Civilized.

Traveling in southern India, one day I was taken into the country to see tapioca roots gathered and ground for use. The adults working in the grove, men and women, had each a rag around the loins, but the boys and girls, with their black, glossy skins, were free of all incumbrance.

Our guide explained to these people that we were from a country so far away and so different from theirs that the waters were sometimes made solid by the extreme cold and we could walk upon them; that sometimes it was so intensely cold that the rain was frozen into particles and lay on the earth so deep that people could not walk through it, and that three and four layers of heavy clothes had to be worn.

This happy people, as our guide told us, wondered why we staid there, why we did not come and enjoy life in their favored climate.—Andrew Carnegie in North

Situations Vacant.

PRINTER—A YOUNG MAN WHO HAS had some experience at printing wanted at the Times Job Rooms. T[illegible] to learn Job printing.

WANTED—FOR RAILWAY WORK IN Manitoba and Rainy River—three hundred teamsters, wages $30 per month and board; five hundred laborers, wages $1.75; one hundred trackmen, wages $1.75; two hundred rockmen, wages $1.75, or piece work; two hundred station men, 17c to 18c per yard, board themselves or $4 week if they board with the company; I will advance fares to the work for suitable men; work will last one year from next fall. The GRAPHOPHONE

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

A SIMPLE LITTLE MIX UP.

How It Helped One Man at the Expense of Another.

How a bunch of roses sold a couple of high priced railroad tickets is the basis of a queer little comedy of errors enacted the other day at a leading city hotel. Among the guests of the house was a wealthy Texas merchant who was en route with his wife for a visit to New England. The Texan has a local business representative here in the person of a hustling young man about town, who was especially anxious to make the stay of his principal as pleasant as possible. Accordingly he rushed to a florist's as soon as he saw the names on the register and ordered him to put up the handsomest bunch of roses he had in the shop and send them over to Mrs. Blank at such and such a hotel. In his hurry he forgot to leave his card for inclosure, and, supposing it was omitted intentionally, the florist proceeded to prepare a magnificent bouquet, which he dispatched forthwith by messenger.

It so happened at the moment the flowers arrived that a city passenger solicitor for one of the north bound roads had just handed over his card to be sent to the Texas gentleman's apartment, and quite naturally the pasteboard and the roses went up together. The visitors were both astonished and pleased. "This is certainly a princely way of soliciting business," exclaimed the merchant, examining the flowers. "Why, these things must have cost all of $10. Show the gentleman up."

The solicitor was shown up, received most cordially and given an immediate order for through transportation both ways. He departed, chuckling merrily, but a little dazed by the facility of his deal and puzzled to understand the many references to his "courtesy" and "thoughtfulness."

An hour or so later the local representative dropped around and was met by his employer in the lobby. The greeting was painfully matter of fact, and not a word was said about the flowers. The young man was greatly chagrined and began to believe he had made a bad break. Next day he accompanied the couple to the depot, and incidentally something was said about the route.

"We decided to go this way on account of the gentleman who called to sell us tickets," explained the lady. "He was so courteous and pleasant! Why, would you believe it," she continued, "he actually sent me an enormous bunch of beauty roses with his business card!"

Light dawned on the local representative, and he groaned. In his pocket was a florist's bill for $19.75.—New Orleans Times-Democrat.

A JUMPING TOOTHACHE.

How It Won Its Victim Credit For Bravery in Battle.

"It was a toothache," said the veteran, "that won me a reputation for daring at the battle of Bull Run. That was the only fight I was ever in where I didn't wish I could find a hole to crawl into. All this talk about coolness on the eve of battle is nonsense, invented by people who have never been there or old soldiers whose tongues get away with their memories. Our men and officers were as brave as any in the war and made good records, but they all had the ague and longed for sick leave just about the time the bullets began to fly. But I had the toothache for two days before that battle, and if there is an aggravation on earth that will make a man want to bat his best friend in the face that is it.

"On the night before the fight I did not sleep a wink. The old tooth got to jumping like a goat, and I couldn't have suffered more from an amputated leg. I was also furiously mad. I felt that I'd either got to bolt for the rear in search of relief or encourage some rebel to put a ball through my head.

"We'd been waiting in battle line for an hour, and the boys had grown white and were all choked up. I had been entirely occupied with the old tooth, and the first thing I knew the fight was on. We were holding them in check, but that didn't suffice me. As I got hold of my gun and pulled the handkerchief off my jaw I yelled out for the boys to follow, and we struck a whole brigade and whirled it around and sent it back half a mile. I felt that I could lick the whole of Lee's army for an hour or two! They told me that I yelled and dodged death a thousand times, but I remember nothing but the jumps of that tooth. When they stopped, or for what particular reason, I could never say, but after a couple of hours I came to myself, as it were, and was being complimented on all sides, and the jumps had ceased."

Snap Shots With a Graphophone.

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. [illegible] to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

PERT PERSONALS.

Mayor Jones appears to be something of a Toledo blade.—Boston Herald.

Tom Reed's first jury will be strongly tempted to vote him down for the mere novelty of the thing.—Washington Post.

If General MacArthur is not already in the threshing machine trust, he is certainly eligible to membership.—Chicago Inter Ocean.

It is plain from the lawsuits that he is bringing that Mr. Kipling has a due appreciation of the white man's boodle.—Pittsburg Times.

It was right and proper for Mary Anderson Navarro to come back to America on the Majestic. She is that kind of a woman.—Kansas City Star.

It is reported that Grover Cleveland has purchased a plover field. This will furnish amateur poets with another base of attack on Mr. Cleveland's first name.—Chicago Democrat.

Ingersoll has been sued for $135 for breaking a statue of Charles Dickens in a house that he rented furnished. The owner has only himself to blame, for Colonel Ingersoll is a notorious iconoclast.—Boston Traveler.

Russell Sage gave a little flower girl whom he accidentally jostled a $5 bill, and Hetty Green has leased a cottage at Newport. Is the millennium in the offing, or have those New York reporters been stringing us about these worthy people?—Cleveland Plain Dealer.

Depots Short of Men.

Ottawa, Nov. 25.—On account of the sending of a Canadian contingent to South Africa, the number of non-commissioned officers and men at the various depots is so small as to make it next to impossible to give militia officers the usual course of instruction. It has consequently been decided that until the return of the Canadian regiment there shall be no course given at St. Johns, Que., or London. A number of the men at these depots will be ordered to Quebec and Montreal respectively, thus making it possible for the officers there in command to turn out something like full companies.

Beware of False and Deceptive Promises made by Manufacturers of Inferior and Imitation Dyes

Beware of dyes prepared for home use that promise to wash and dye goods at one operation. The soap in such dyes may do a trifle of cleansing, but the coloring work will be a flat and decided failure.

Beware of dyes that claim to dye all wool and cotton goods with contents of one package. This is a chemical impossibility. The operator will of course get a color—something muddy, cloudy and streaked that will arouse indignation and anger because of disappointment and loss of materials.

Diamond Dyes give fast, brilliant and perfect colors, but they do not promise to cleanse or wash soiled garments or materials. A washing machine may do good washing, but it cannot pretend to do the ironing as well.

Diamond Dyes prepare special dyes for all wool goods, and for cotton and union goods, and guarantee perfect work when directions are observed. If you desire to color all wool goods, ask for Diamond Dyes for Wool; if you have cotton or mixed goods to dye, ask for Diamond Dyes for Cotton and Mixed Goods.

Crude imitation dyes and soap grease mixtures can never cope with those great chemical triumphs—Diamond Dyes.

On Trustworthy Authority

New York, Nov. 25.—A cable to a morning paper dated Berlin, Nov. 24th, says:—"The Brussels telegram to the Tageblatt says the Independence Belge asserts that it has trustworthy authority for stating that the Kaiser's interview with Mr. Chamberlain turned on the absolute necessity of terminating the Transvaal war. The Kaiser offered his mediation to achieve this object. Mr. Chamberlain informed the Kaiser of the conditions of peace which Great Britain would propose at the end of the war."

VIVID HEALTH

Nothing so pure as [illegible] of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness to the gold of wealth. A loaded purse cannot atone for the deranged liver, the aching step, the rebellious stomach, [illegible] impoverished blood [illegible]. Gradually all nerve power leaves you and the [illegible] of life is gone. An empty sack cannot stand upright, and so Death [illegible] in his [illegible].

CO BO

Stimulants and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evidence [illegible] tale of hidden disease. A deranged stomach will undermine the entire system. Judgment on an Award

Ottawa, Nov. 25.—Judge Curran has granted the application of James Goodall, of Toronto, for judgment upon the award of a board of arbitration of the Montreal Corn Exchange, which granted him a claim of $115 against Joseph Ward, and allowed the latter $6 on a counter claim. The court said that to give judgment for the defendant would be to defeat the object of the law creating the arbitration tribunal. As to documents put in for evidence the court ruled that it could not take cognizance of anything beyond the documents put in by the secretary of the board or his assistants.

Student Hospital Companies.

Ottawa, Nov. 25.—Arrangements have been made for a conference at Toronto on Saturday, December 9, between the authorities of Toronto and Trinity Universities on the one hand and Major-General Hutton and Surgeon-General Neilson on the other, to discuss the project of forming hospital and engineering companies among the students.

COPPER SHARES.
LARGEST DIVIDENDS. SAFEST INVESTMENT.
Boston & Texas Copper Company.
CAPITAL STOCK $2,500,000.
250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:
HON. EMERY M. LOW, President. Manufacturer (Mayor), Brockton, Mass.
GEORGE W. RUSSELL, 1st Vice-President. Paper Manufacturer, Boston, Mass.
JAS. M. WHEATON, Secretary.
EDW. B. ROBINS, Treasurer.
F. M. SPAULDING, 2d Vice-President and General Manager.
STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

KIMBERLEY'S VAST RICHES.

The Enormous Value of the Diamond Mines Threatened by the Boers.

Kimberley, which it is said the Boers have invested and isolated from the outside world, is the diamond region of the world, far surpassing the mines of Brazil in richness. If the report of the investment be true, this is the most serious blow which Kruger has struck at the commercial interests of Great Britain in South Africa. Cecil Rhodes is in the town and its defence will be stubborn. Kimberley is not a city in the modern use of the word. It is a great camp in which men's passions rise and fall as the treasures of the earth are removed or not found. The camp is in what is called the Vaal Basin, the wash ground of the river which divides the Transvaal from the Orange Free State. The first diamond discoveries there were made about 1870, but it was ten years later when Englishmen and others realized that the spot was the most valuable of its kind in the world.

By 1881 the mines which had been opened had yielded gems to the value of $20,000,000. By 1887 seven tons of diamonds had been taken out valued at $250,000,000. This record placed the Brazil diamond mines in the shade and made Kimberley world-wide in its fame. The Cecil Rhodes syndicate, known as the De Beers, came into control of all the mines after much negotiation. This syndicate is capitalized for $75,000,000 and pays interest at the rate of 5 1-2 per cent. per annum and an annual dividend of 20 per cent. Since Cecil Rhodes came into control of the mines they have given out 2,500,000 karats of diamonds. To get at these it has been necessary to wash 2,700,000 loads of blue earth in which they are found.

In the working of these diamond mines there are employed about 1,500 white men and [illegible] the earth. [illegible] at the surface [illegible] a depth of [illegible] feet. The mines are worked from shafts sunk some distance from the original holes and penetrating to the blue earth by transverse drivings at depths varying from [illegible] to 1,200 feet. The blue earth, when extracted, is carried in small [illegible] to the levels. Upon these levels the blue earth is worked until the gems within are extracted. The process of extracting takes from three to four months. The stones found vary in size from a pin head to the largest ever found—428 1-2 karats. The largest stone when cut weighed 228 1-2 karats. It is one of the experiences of the mine owners that they lose from 10 to 15 per cent. of their product each year through the thefts of employes, who, although closely watched, still manage to get away with their loot. The punishment for stealing a diamond is fifteen years' imprisonment. All diamonds except those which pass through illicit channel are sent to England, the weekly shipments averaging from 40,000 to 50,000 karats. The greatest outlet for stolen diamonds is through the Transvaal to Natal, where they are shipped by respectable merchants.

It is said of the Rhodes interests in the mines that they take good care of their workmen. They have built a model village called Kenilworth within the precincts of the mines. In this villages are cottages for the white workmen. A clubhouse has been built for their use and here [illegible] something remarkable. Each mine has ten circuits of electric lamps. They consist of fifty-two arc lamps of 1,000 candle power each, and 691 glow lamps of 16 and 64 candle power each, or a total illuminating power of about 64,000 candles. Thirty telephones are located in each mine and over 100 electric bells [illegible] The [illegible] condition tolerable. The rate of wages runs from $2 to $3 per day, unskilled labor receiving the lower price. What effect the closing of the mines by war will have on the world at large it is hard to say. Diamonds have already risen in price, but there is a large stock on hand in English and French hands. Of course all labor has ceased at Kimberley, and if the Boers get into the mines they may win rich prizes.

General Otis Tricked

New York, Nov. 25.—The World's correspondent at Hong Kong declares in a cable despatch yesterday that Aguinaldo has found means of escaping from the Philippines, and it is feared that he has already done so. General Otis unwittingly aided the escape.

Captain Lawrence, an Englishmen, was engaged by Aguinaldo, through President Lacson, of Negros, to buy a launch here. Lacson's brother, and Pedro Regalado, a well-known Iloilo man, came to Hong Kong. They actually bore letters from General Otis to Wildman, the U. S. consul here. They bought a launch, named in Luzon, cleared it at the United States Consulate as bound for Toro, proceeded to Lingayen Gulf, and turned over the launch to Aguinaldo's men. Afterwards they gave out that "Insurgents captured the launch."

It has since been learned that Lawrence is a colonel in the insurgent army, and that he has been retained to command the launch, which is held in readiness to carry Aguinaldo to safety.

Several insurgent generals have already been seen in Hong Kong. They must have escaped, disguised, through the American lines, for they came from Manila on regular trading steamers.

Banque Ville Marie.

Montreal, Nov. 25.—The trial of Wm. Weir, president of the defunct Banque Ville Marie, charged with presenting a false statement to the Government, will probably last well into next week. So far the evidence has been largely a repetition of that of the preliminary trial. It appeared that Mr. Weir had in October [illegible] discovered a shortage of $174,000, and had called in Chief Detective Carpenter and asked him to find Mr. Lemieux, the cashier, who was away.

Mr. Lemieux was found in New [illegible] to which place Mr. Weir and [illegible] Carpenter proceeded [illegible] Mr. Weir, after a conversation [illegible] ed the witness that the error had been explained. [illegible] had been destroyed and no entry made of the destruction. Mr. Lemieux came back with them and had been in the employ of the bank ever since.

Detective Carpenter also told of his arrest of Herbert, the teller, and of his release [illegible] order of Mr. Weir.

THE BRITANNIA
CONSOLIDATED GOLD MINING COMPANY
OF ONTARIO, LIMITED

CAPITALIZATION:
$300,000.00 fully paid and non-assessable.
Par value of shares, 30c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,308 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controled by strong Montreal Syndicate.

Several hundreds of feet of work done.
Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.
A working property now producing bullion.
Assays are usually satisfactory, running from $3.00 to $400.00 per ton.
Mill runs show the ore to average $15.00 to $20.00 per ton. Last mill run (August 21, 1899), of 38 tons, gave $579.85, or $15.25 per ton. The next mill run is expected to exceed this value per ton.
For shares and reports by John E. Hardman, S. B., and Capt. Z. J. S. Williams, apply to

THE SAWYER COMPANY,
TEMPLE BUILDING, MONTREAL, CANADA.

COPPER!

WANTED—First class man to sell stock in A 1 Copper Company now at work. Liberal terms to right party. Address with references, P. O. Box 181, Boston, Mass.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal [illegible] have made a study of investments with a view to securing a large return for small investments. As high as THREE AND [illegible] HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and this is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

CRIMINAL ANIMALS.

A Naturalist's Study of Thoroughly Wicked Wild Beasts.

E. Seton Thompson, naturalist to the government of Manitoba, gives in his book, "Wild Animals I Have Known," some curious examples of depravity among wild beasts.

The best story is that of the New Mexican wolf who led a band that killed a cow a day for five years. Finally the ranchers offered $1,000 for this wolf's pelt. He was easily distinguished. His track was an inch wider than that of other wolves.

A professional wolf hunter tried to earn the bounty, but the wolves killed his dogs, and he gave it up. Then Mr. Thompson took the case. He melted cheese in the fat of a heifer in a china dish, cut it into lumps with a bone knife so avoid the taint of metal and put in strychnine and cyanide in odor proof capsules. He wore gloves steeped in cow's blood and avoided breathing on the baits.

The baits were picked up. He followed the track and found that the wolf had laid all four together and scattered dirt over them.

The wolves then took to killing sheep. Traps were set to the number of 130 in different parts of the ranch. The trails of the big wolf and of the pack were traced up to one set of traps, and the doings of the leader were marked in the dust.

He had stopped the rest, warned by scent, and scratched around the trap till he found the buried chain and picket. On another part of the ranch he entered an H-shaped series of traps and detected the danger. The trail showed that he had slowly backed out on his own track, putting each paw down backward until out of the dangerous ground. He had then sprung some of the traps by scratching clods and stones backward at them with his hind feet.

He was at last caught by dragging over the traps the body of a female wolf, the scent of which he followed.

No more skillful criminal than this wolf was ever known. Old Eph, a lame grizzly, which in two years ruined half the hog raisers in the Sacramento valley by his wasteful love of pork, was a close second. A bobtailed wolf kept the whole city of Paris in terror for ten years at the beginning of the fourteenth century, and the Lochnee panther, in India, killed 300 human beings in less than two years.

A famous rogue dog of Derbyshire was conspicuous by its faithful care of sheep in the daytime, but was savage and ugly toward men strangers. It slept in the house and was never suspected, though sheep worrying took place on the farms near.

At last it was tracked in the snow from a fold where 20 sheep had been killed to the farm where it lived, the dog having forgotten that the track would show, though it took partial means to conceal it by running along the top of a stone wall.

THE PUNSTER.

It's easier to pass a resolution than it is to keep it.

When the baby is asleep, it's a case of kid napping.

"Never wear shoes too small for you" is a good foot rule.

A telegraph operator demands cash for what he does on tick.

It's surprising how easy it is to get something you don't want.

Law books are bound in sheep out of respect for those who go to law.

Some people are so miserly one can't even have a joke at their expense.

A married man says the jaws of death are not to be compared with the "jaws" of life.

Griggs—Appearances, you know, are often deceptive.

Griggs—Yes. A person can never tell just how much it is going to cost to keep them up.

Woes of Millionaires.

An English millionaire has just been adjudged incapable of looking after his property. He imagines himself the Prince of Wales.

Some years ago a rich merchant took the idea that he was penniless. His sons, to stop his worrying, assured him they had rescued his business and was to continue it. They offered him a clerkship at a small salary in his own office. He took it and kept at work nearly 20 years. When he died, he left nearly $15,000,000.

Two English millionaires were noted for their parsimony. One picked up and smoked cigar ends. The other, after fine receptions in his house, would go around carefully collecting candle ends to be used again. Neither of these men was insane. Both were shrewd in business.

Another millionaire imagined for a considerable time that he was a squirrel, and would eat nothing but nuts.

Another was too parsimonious even to buy himself a warm overcoat. Some of his friends made him a present of one, and he promptly sold it at secondhand and pocketed the money.—St. Louis Post-Dispatch.

Was Hanged Over Again.

G. W. Stevens, who traveled extensively in India, tells the following interesting story: A Pathan was being hanged, when the rope broke. The warder bade him go up on to the scaffold again, but he objected. "No," he said, "I was sentenced to be hanged, and hanged I've been."

"Not so, friend," argued the warder; "you were sentenced to be hanged until you were dead, and you're not dead."

It was a new view to the Pathan, and he turned to the superintendent. "Is that right, sahib?"

"Yes, that's right."

"Very well! I didn't understand," and he went composedly up the steps and was hanged again like a man.—Pittsburg Dispatch.

What He Really Owed.

"Doctor," said the grateful patient, seizing the physician's hand, "I shall never forget that to you I owe my life."

"You exaggerate," returned the doctor mildly. "You owe me only for 15 visits. That is the point which I hope you will not fail to remember."

All Roads Lead to the Dressmaker.

Mr. Hornbill—Do you know, darling, I could pick you out of a crowd of women just by your style!

Mrs. Hornbill—I don't wonder, and me with this same old dress for the last two years!

They Keep Moving.

The religion of a Bedouin tribe seems to be to "move onward." Having once begun the nomadic life, it becomes almost necessary for them to keep it up. In the first place, they don't want to settle down, and they wouldn't have any place to stop if they wanted to. Sometimes it becomes expedient that they make great haste in these long journeys. Wandering around over the plains are other tribes whose only occupation is "moving on." There is frequently enmity between two of these Arabian families, and should one pursue the other it behooves the pursued to hasten onward with all the speed their animals are capable of. Or it may be that the springs of water are so widely separated that hard travel is necessary to make the distance from one to the other in a day.

When either of these contingencies arises, they cook and eat while on the march. They don't eat much. Two or three dinners such as American boys and girls are used to every day and something extra for Sundays and company are supposed not to agree with Bedouin children's stomachs. When on the road, bread is their chief food. This is baked while riding. One woman will mix the coarse flour which is carried in a sack on the back of her camel, another will roll and shape the dough, which is brought to her in small quantities, and a third will make a fire in an earthen vessel and attend to the baking. Women or boys on foot run along from one cook to the other and carry the material, and when the feast is ready they distribute it among the various members of the tribe.

How He Misunderstood.

There were loud cries from a man in the back of the hall, and the cornetist went at it again.

There were more cries from other parts of the hall, but, with that one still ringing in his ears, the cornetist kept it up.

"What are you trying to do?" asked the manager. "That's no encore."

"No encore?" exclaimed the cornetist when he had been induced to break off. "Didn't that man back there yell 'Toot, man!' four or five times?"

"Not any," answered the manager. "He's a Scotchman, and what he said was, 'Hoot, mon!'"

"Gentlemen of the jury," asked the clerk of the court, "have you agreed upon a verdict?"

"We have," replied the foreman. "The verdict of the jury is that the lawyers have mixed this case up so that we don't know anything at all about it."—Philadelphia

THE MAGICAL MIRROR

A CURIOUS GLASS OWNED BY A WASHINGTON MAN.

Several Well Known Persons Have Seen Portentous Pictures Reflected in Its Oval Surface, Although It Will Not Work For All.

While all of us have heard in early childhood of the tales of magical mirrors, in which impossible heroes saw impossible heroines in danger, from which said heroes proceeded to rescue the fair maidens, yet such things have been relegated by most of us to the region of the imagination. We regard such things as being outside of the real world of today and belonging to the region of myth and fable. Yet, in spite of our prosaic nineteenth century, it is nevertheless a fact that a Washington gentleman is the possessor of an article which might be classed as appropriately belonging to the time of Aladdin and the wonderful lamp.

This strange acquisition is a mirror which came from India, and in which one can see the events which the future will bring forth. That such is its power is attested by some of the best known gentlemen of the city, who, for obvious reasons, do not wish their names to be mentioned.

This mirror came into the possession first of a Washington lady who was traveling in India, and, being interested in the religion of the country, took a trip to the famous temple of Alora, which lies in a rocky side of the foothills of the Himalaya mountains. This temple is now but a ruin of jagged rocks, jutting out harshly into the soft greensward that rolls smoothly down into the valley below. Above tower the vast mountains with their glittering caps of snow looking down on the peaceful tropical scene where for ages the followers of Brahma have performed their sacred rites.

The ruins of the temple stand open to the weather, and its ancient glory, which shone in such splendor before the English came to India, is now diminished. But a small band of Brahman monks still kept the sacred secrets and ceremonies alive. Few Europeans ever penetrate this section of the mountains, but the Washington lady mounted and visited the monastery. While there she managed to secure possession of one of the mirrors made by the monks and reputed to possess wonderful properties.

The lady brought the mirror with her on her return to town, and at her death it came into the possession of Mr. Lowdermilk. From him it was bought by a gentleman who takes great interest in such matters, but who would not like the fact of the existence of the mirror in his house to be known, as it would attract thousands of seekers after the curious. After paying quite a large sum for the glass the mirror was brought home and put to the test.

The mirror is oval in shape, about a foot long and is surrounded by a wooden frame two inches in width and painted a dark green. The back of the glass is coated with asphaltum and then covered with dark linen, so that the whole has the appearance of a lustrous opal. The method of use is by sitting with the mirror in one's lap and holding the glass so that there is no reflection of other objects shining on the surface of the glass. If the test is a success, there will appear in about a quarter of an hour a thin, cloudy mist, which will slowly float over the surface, and then the images of future events will be mirrored in the seemingly fathomless depth of the dark glass.

The gentleman who owns the mirror has never been himself successful in seeing anything, but a friend of his, a prominent judge and a thirty-third degree Mason, had a remarkable experience. He placed the mirror in his lap, and, after half an hour, a mist floated over the surface; then he saw reflected in the glass a picture of a coffin, within which was the still, white face of a dead man. At first glance the features seemed those of the gazer, but on looking closely it was seen that they represented exactly the brother of the gentleman—a man then in perfect health. In a second the picture shifted, and another face—that of a friend—appeared within the sides of the coffin. The gentleman in two weeks afterward lost his brother, and in a short while his friend, whose face he had also seen, passed to another world.

A son of the owner was one evening looking into the mirror, when he saw within a picture of a house in flames. There were the servants leaping from the porches, then returning to drag out the furniture. The glare shone around on a yard which the gazer recognized as that of his own farmhouse down the Potomac. By the mail two days afterward he received from his housekeeper an account of a fire which had destroyed his home, and the description tallied exactly with the picture seen in the mirror.

Another man, a gentleman employed in the bureau of ethnology and well known as a scientist and linguist, has also seen many pictures in the mirror—pictures of events in his life which were afterward realized to the letter.

By a student of occultism the following directions were given in a treatise on that subject, which dealt with the methods employed in making such mirrors: The materials used are one glass, 6½ inches by 8½ inches, free from flaws and concave in shape; a small amount of turpentine asphaltum, a pint of spirits of turpentine, a small hairbrush, a box in which to case the mirror, and a half a yard of new cloth.

The glass is placed in a clean, light and airy room, the materials washed perfectly clean; then the brush and the glass are wiped over with turpentine. Afterward the back of the glass is coated smoothly with a thin varnish of the asphaltum and left to dry, the operation being repeated for the two following days. At the end of that time the mirror is magnetized by placing the hands above it and slowly waving them to and fro, so that the animal magnetic force may be well absorbed by the asphaltum. The asphaltum is the best known material for absorption of the aura of the human body, and this is the reason for its use. The test should be made also in a clean, airy chamber when alone and when the mind is composed, and by perseverance the inquirer is sure to be rewarded—so say the books on magic.—Washington Post.

The Birds Save Us.

A French naturalist says that if the world were to become birdless man could not inhabit it after nine years' time. In spite of all the sprays and poisons that could be manufactured for the destruction of insects the bugs and slugs would simply eat up orchards and crops.

Fact Versus Fiction.

Cupid's work is done when the baby comes. The soft, little, clinging, helpless mite is the crown of love. Its coming marks the completion of Cupid's object. Cupid brings two loving souls together—the baby holds them together.

A woman is never so womanly, so beautiful, so happy as when she is a mother. Yet motherhood is denied to some women and feared by others.

The fear of motherhood is rapidly passing away and nothing has done so much to drive it away as the record of Dr. Pierce's Favorite Prescription.

Dr. Pierce has held that danger and pain at the time of parturition were really unnecessary and unnatural, and that if every woman were healthy and strong as Nature meant her to be this function would be performed painlessly and safely. The abuse of centuries of corsets—of health destroying inactivity—of debilitating artificial life have made it impossible for some women to fully return to the perfect healthfulness of a natural state but every woman may be helped to a large degree. The organs directly involved may be strengthened, purified, invigorated for the time of trial and for this purpose Dr. Pierce's Favorite Prescription has been used with success by hundreds of thousands of women. It is the product of the skill and experience of a regularly graduated physician—a skilled specialist who for over thirty years has successfully treated the diseases of women.

Unlike many modern medicines Dr. Pierce's Favorite Prescription contains no whisky, alcohol, sugar, syrup, opium or narcotic of any kind and its use does not, therefore, create a craving for stimulants.

Mrs. Annie Blacker, of 619 Catherine St., Syracuse, N. Y., writes: "Your medicines have done wonders for me. For years my health was very poor: I had four miscarriages, but since taking Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' I have much better health, and I now have a fine healthy baby."

These stockings nicely ribbed and well made are sold every day at the Port Hope Knitting Works for 25c in large sizes running down to 13c in smaller sizes We haven't heard of this quality being equaled anywhere, have you? Ask for trading stamps.

Funeral To-day.

The funeral of the late Charles Sheffield, whose sad death occurred on Saturday last, will be buried from the residence of Mrs Chamberlin, at three o'clock this afternoon. It appears that the unfortunate young man came in contact with the primary terminals of a switch, and 2,000 volts passed through his body. Much sympathy is felt for the bereaved family and sorrowing friends.

HIGH COURT OF JUSTICE.

The Case of Dover vs Denne et al Referred to the Master.

The non jury sitting of the High Court of Justice opened yesterday afternoon before Justice Falconbridge. There were only two cases on the docket. The first to come up was that of Dover vs Denne, et al, a suit re the Stephen Wood estate. The whole case was referred to the Master, the County Judge, the only evidence taken being that of Mr Dennistoun re certain mortgages, Mr Wallace Nesbitt, of Toronto, was associated with the local counsel for the plaintiffs and Mr G H Watson, of Toronto, with that of the defence.

The case of Brown et al, vs Eager was then taken up. Mr Leitch, Q.C., of Cornwall, was present for the defence.

CREATED A SENSATION.

Last week at a certain country P. O., a well-known farmer received, with his mail, a large cardboard tube, tube, about two feet long; he thought it a joke, but on opening it he was greatly surprised to find it contained the two beautiful pictures, "Battle of Alma," and "Pussy Willows," given to subscribers of the "Family Herald and Weekly Star," of Montreal. They were greatly admired The farmer said he had read the "Family Herald and Weekly Star" for ten years, and would not be without it for five dollars a year. He was a warm supporter of the "Family Herald," and explained that for one dollar he received the paper and both pictures. He easily induced four others present to become subsubscribers there and then and promised to see that they would also get the pictures.

The Case Enlarged.

Yesterday morning over two hours were spent in hearing evidence against Mary McDonald, charged with keeping a house of ill-repute, and against Adelaide St. Claire, of being an inmate. The County Crown Attorney conducted the the prosecution, and Mr E B Stone defended the prisoners. A number of witnesses were examined, but no very important evidence was elicited. The case was adjourned until to day. When the name of the other girl, Margaret Foley. who was accused of being an inmate, was called her lawyer asked that her bail be not forfeited as she had married a well known young business man of town and was away on her wedding tour. One of the other women stated to-day that she was married on Friday last and had gone with her husband to New York.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your, health. the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and homemade. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

Obituary.

The many readers of the Times will deeply sympathise with Mr. A. A. McIntyre, in the death of his youngest son, Archie, which occurred at Nicholl's Hospital on Sunday afternoon. It is only four months since Mrs. McIntyre died, and this makes the second blow all the harder to bear. Great sympathy is expressed for the bereaved family and friends. The lad was taken ill about three weeks ago and had been taken to the hospital where death resulted from menigitis.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Torfoots, and are up to date. For sale at Times Bookstore.

Fire in Smith.

Yesterday fire took place in Smith township a few miles out of town early in the morning, the brick house occupied by Thomas Johnston on the Thomas Milburn farm being destroyed. Mr. Johnston arose early yesterday morning, started a fire in the stove and went out to the stables to do some work. Sometime after he noticed the house in flames and it is supposed that it caught in some way from the pipes. Mr. Johnston succeeded in getting the most valuable part of his furniture out. The residence was a beautiful brick one and the loss will be heavy There was only $1,500 insurance on house and contents.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

THE PAVING CONTRACTS.

Continued from first page.

saw the crossings that were opened up and they were not rightly opened. A sledge hammer was used.

Q—Was the base not of a crumbling character?

A—Not where it was not pounded.

Q—Was not the base raised too high sometimes?

A—Possibly, but not intentionally. It may have been found too high once or twice in a day.

Q—Did not you and Mr. Ranney have a difference of opinion on this?

A—Yes. He had a guage that was not properly made.

Q—Who whittled the guage?

A—One of the men. I am accountable for it. I got hot one day and said I wished somebody would cut it.

Q—They appear to have cut it in a pretty straight line. Did you say anything to Mr. Ranney of it?

A—I knew he would discover it and did not want to tell him of it until he would cool down. In its altered condition it was used very little. We had a straightedge of our own all the time. Our surface was always an inch and a half deep below the outside edge. It was not with my knowledge that any crossings were left with a thickness of less than 2 1-2 inches.

To Mr. Edwards witness stated that the specifications for the surface were the same last year as this and were carried out about the same. "Sand was used last year. I do not know what proportion. So many different proportions were used that I do not remember. My partner, Mr. Dolan, looked after the work last year."

"This year when I tendered I calculated on using the quantities in the specifications with a proportion of sand added. I was present when the first batch was mixed this year. We used a small box I got at the grocery store the first afternoon. We used two measures of granite with one of cement. No sand was added.

Q—Why not, if you intended to use sand?

A—To see if it was workable without and to let the engineer add the sand.

Q—What was the result?

A—It was found very hard to work. The finisher complained of it. Mr. Ranney looked at it and came to the conclusion that some sand was needed. Mr. Ranney then got a box to hold nine cubic feet. It was filled twice with granite and once with cement and this was used on the sidewalk. No sand was added this time.

Q—How many bags of cement did it take to fill the box.

A—Nine, I suppose. I did not count them at the time but I know that it took nine as each bag was a cubic foot. Mr. Ranney then said he would reduce the quantity of granite and add half a box of sand. I do not know how much cement was used this time. I was not there at the time. Mr. Ranney was not satisfied yet and said more sand would have to be added. He substituted another half box of sand, leaving one box of granite and one of sand. He then ordered 5 1-2 bags of cement to be put in. He said "Put in 5 1-2 bags of cement." This third test was not made with a boxful of cement, Mr. Ranney simply directed 5 1-2 bags of cement to be put in. I did not direct it or suggest it. He put in what he considered was right I figured it up afterwards and considered that while he was using a little more sand I was putting in more cement. A box of granite required only 4 1-2 feet of cement and we were using 5 1-2 of cement. The crushed granite would absorb part of the sand. Granite would absorb half its own quantity of sand. On the second contract I noticed that there was more fine stuff coming in with the granite but on the first contract it was always well screened.

The Hollow Places.

Witness stated that hollow places would not be as good work as if solid, though not necessarily defective. The foundation may have sunk or there might be a want of binding between base and surface, due either to the base becoming too dry, or to the pounding bringing too much of the sand particles to the top.

The Influence Charges.

Mr. Sheehy stated that he never attempted to use improper influence regarding these contracts He never knew that the specifications were not followed nor does he know it yet. There was a larger proportion of sand used than he had intended to use himself but Mr. Ranney had insisted on this. Witness never knew of any bags being purloined or of any wrongdoing at any of the measurements. There was never any talk between himself and his men about deceiving Mr. Ranney. He knew of no arrangement among his men for using a wrong quantity of cement.

Q—What about the measurement near Westlake's livery?

A—Mr. Ranney and he wanted to have the box measured to see how many sacks were required. It was only then that I knew that Mr. Ranney was under the impression all along. I said to Mr. Ranney "But you know that it takes more than 5 1-2 bags to fill the box." He replied that he didn't know or something to that effect. The box was then filled. I did not count the number of bags that went in but I knew that it took nine to fill it. The empties were thrown in a pile. Mr. Ranney was there to count the number of sacks as they were emptied in. There was no counting aloud nor any statement as to how many sacks had gone in. I saw Mr. Ranney counting the bags afterwards. I do not know how many he counted. I kept no tally. I thought the men threw all the bags there. I did not know that he had counted only seven bags until I saw his report in the paper. We put all that batch in the sidewalk. There were 3 1-2 bags too much. I would not continue to do this and had an understanding with Mr. Ranney afterwards. He maintained that the measure of cement was required by the specifications and I replied that I would use it only if I were allowed to use another measure of crushed granite. Mr. Ranney said he would see about it and went away. When he came back he said the first quantities were all right and to go ahead as first.

The Second Contract.

Witness stated that he obtained the second contract at a lower figure. He based it partly on the work done in the first contract but not altogether. It was a speculation. Witness used Ensign cement in the base on both contracts. He was satisfied that it was a good cement.

Take No False Step

Life and Health are at Stake

YOUR CASE CALLS FOR THE USE OF

Paine's Celery Compound

Physicians and Druggists Recommend it.

One false step taken at this time when you are weak, nervous, sleepless, despondent, or suffering from the agonies of rheumatism and nuralgia may prove fatal.

Thousands are now hovering near the grave who can be brought back to their former health and strength if Paine's Celery Compound be faithfully used for a time. This wonderful medicine discovery is acknowledged by physicians to be the greatest boon ever place before suffering and half-dead men and women,

Paine's Celery Compound is at the present time doing a marvellous work all over this Canadian Dominion. The sick are throwing aside dmeicines and remedies used for weeks and months without good results, and now have their confidence firmly established in Paine's Celery Compound, the medicine that truly bestows new life.

This statement is made on the strength of letters received from the sick and suffering and their friends. Cures are effected for thousands whose lives had been despaired of—cases that baffled the skill of able physicians.

If your life is made miserable by nervousnes, sleeplessness, heart trouble, stomach derangements, dyspepsia, rheumatism, neuralgia, liver or kidney troubles, try the magical effects of one bottle of Paine's Celery Compound, and you will joyfully go on until you stand on the solid rock of health.

LITTLE LOCAL LINES.

The Times requires a smart boy to set headings and run messages. Short hours and fair pay. Apply in evening to night foreman or in daytime to Times Bookstore.

The remains of the late Charles Sheffield arrived in town on the 5.30 G. T. R. train yesterday.

On next Sunday evening Rev Dr. Torrance and Rev Mr. Barlow will exchange pulpits and each will speak on the young men question.

A Fowlers Corners correspondent writes as follows to the Omemee Mirror—Three bus loads and some eight or ten buggies from Peterborough drove out to our neighborhood on Thursday night last with the intention of having a good time, but on arriving at their place of pleasure they had to right about face and go home again. They found that a crowd of uninvited guests could not be imposed upon the country people.

G. T. R. Detective Cockburn is making the rounds of stations in Western Ontario, prosecuting the boys who jump on and off trains. This is a favorite amusement with the Lindsay lads, and recently led to a serious accident.

Muskoka papers report a great slaughter of deer this season, no less than 257 being shipped from Burke's Falls, as against 231 last year. Twenty of the deer weighed each over 240 lbs. dressed.

Wild ducks are reported to be unusually numerous on the Otonabee river and Rice lake the present time. They are on their way south from the northern lakes.

PERSONAL.

Miss M. Staunton has returned from a visit to Orillia.

Hon. J. R. Stratton and Mrs. Stratton went to Toronto yesterday.

Miss Bateson, of Millbrook, is in town, the guest of the Misses Crossley.

Camden Echo—Miss Munro, of Peterborough, is at present a visitor here with her brother, Mr. R. S. Munro, of the Echo staff.

Miss Hay, of Port Arthur, who has been visiting Mrs. C. B. McAllister, returned home yesterday. She was accompanied as far as Toronto by Mrs. McAllister.

Pigeon Creek Bridge

The County Council of Victoria met last week in Lindsay. The following is the committee's report touching Pigeon Creek bridge—

Your committee are gratified to learn that the improvement of the approaches to the Pigeon Creek bridge, on the boundary between the townships of Ops and Manvers, has been so satisfactory made by Thomas H. McQuade, Esq., member for for the third division, and the representative of the united counties of Northumberland and Durham. The total amount [illegible] $311, one-half of which is payable by each of the county municipalities.

Some Old Bank Bills.

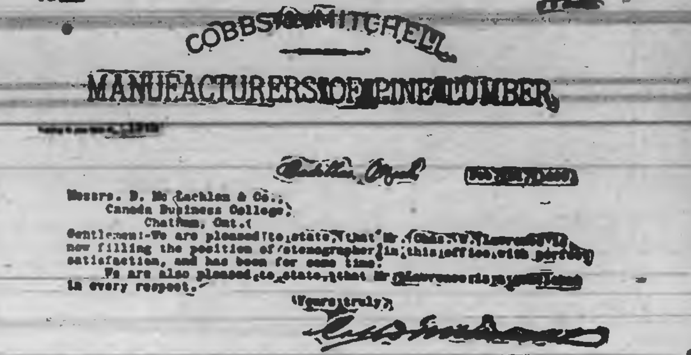
Lindsay Post: There are yet many thrifty people in this county who have not acquired confidence in banks, and prefer to store their savings in a stocking. One of our leading business men beheld a convincing illustration of the fact the other day when a farmer was called to liquidate an account and handed over a couple of dozen of $2 bills or "Ten Shillings" tokens issued by the Bank of Toronto, Merchant's Bank, Ontario Bank, Bank of Commerce, and Province of Canada Bank, between the years 1840 and [illegible]—prior to Confederation. The bills had been issued to banks at Belleville, Oshawa, Ottawa and Alexandria. The vignettes are creditable specimens of engraving, and some of the issues are superior in appearance to those issued by some of our banks to-day.

WHEN YOU ARE A GRADUATE FROM

THE Canada Business College.

CHATHAM, ONT.

It means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL

MANUFACTURERS OF PINE LUMBER,

Cadillac, Mich.

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

Gentlemen:-We are pleased to state that Mr. [illegible] Lawrence is now filling the position of stenographer in this office with perfect satisfaction, and has been for some time.

We are also pleased to state that Mr Lawrence is [illegible] in every respect.

Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they get him

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for supplying teachers for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address

D. McLACHLAN, Principal C. B. College, CHATHAM ONT

Returned From Atlin.

Mr James Regan, an old Peterborough boy returned yesterday from Atlin, B. C., where he has been carrying on an outfitter's store. Mr Regan was formerly in the employ of Mr Tobias Fitzgerald, as blacksmith, and went to Atlin in the winter of 1898. He has made his "pile," as the slang expression goes, being more than ordinarily successful.

Fraternal Goodwill.

Yesterday we had the misfortune to break our newspaper press and were in doubt as to whether or not it could be repaired in town. Mr. Dobbin of the Review, when he heard of our misfortune, at once kindly placed one of his presses at our disposal, an act which we appreciate very much. We subsequently discovered that Mr. Mund, the clever head of the Peter Hamilton company's machinery department, was able to repair the damage, and that it would not be necessary to avail ourselves of Mr. Dobbin's kind offer, a circumstance which does not in the least lessen our gratitude.

Double Trading Stamps.

Every Saturday The Times Bookstore will give double trading stamps on all goods sold at regular prices. We have just received a choice lot of new goods, consisting of all the new and latest games, fancy goods and stationery. We give 25 sheets of good writing paper and envelopes to match for 10 cents. Good novels for three cents each, and another lot by the best writers for four for a quarter. See our bargain windows. Times Bookstore, Market Block.

O'MALLEY'S BEDROOM SUITES

Every customer is pleased; pleased with the styles, pleased with the price, pleased with the easy payments. We do Toronto's leading business.

Special Set antique, in the latest golden oak finish, very handsome, full size bed, dresser and stand, sells on sight. Regular $16.00 very special at................ 13.90

WE PLEASE ALL

BRITISH ARMS AGAIN VICTORIOUS! BOERS DEFEATED BY METHUEN!

British Force Under General Methuen Storm Strong Positions Held by the Enemy and Carry Them at the Point of the Bayonet.

ARE THE BOERS RETIRING FROM KIMBERLEY?

General Cronje, With Three Thousand Boers, is Marching to the South, and the Enemy is Disappearing From the Vicinity of Kimberley. Over 4,000 Troops Reach Cape Town.

ORANGE RIVER, Monday, November 27.—The British arms have achieved a brilliant victory. The enemy strongly entrenched held a range hills commanding both sides of the railway at Reitlaagte, near Graspan. The Lancashire regiment under Lewis, reconnoitered in an armored train on Friday. The Boers shelled the train killing Lewis and a private. Gen. Methuen then advanced his column, made a detour and bivouacked for the night at Swinks Pan, three miles from the Boer position. At dawn the advance began, the Guards forming the reserve. The column debouched on the plain eastward of the Boer kopjes. The Boer guns opened fire. Two batteries of British artillery posted on each side, shelled the Boers, practice being good on both sides. The Boers stuck to their positions firing steadily and accurately. The duel, which continually became hotter, lasted three hours. The Boer's shells wounded several men of the Naval Brigade. Finding it impossible to displace the Boers by artillery, General Methuen resolved upon an infantry attack. A brigade of infantry including the Yorkshires, Northamptons, Northumberlands, and Lancashires, with the Naval Brigade on the right gallantly stormed the Boer positions in the face of a withering fire and carried hill after hill. The brigade under Col. Money capturing the main position against a terrific fire but suffering severely.

SCARCITY OF NEWS.

London, Nov. 29, 5 a.m.—Virtually the only fresh news from the front is contained in the despatches of Gen. Forrestier-Walker to the War Office. The cables continue silent, presumably because of Gen. Buller's desire to prevent leakage regarding important movements now being carried on. It seems clear however that Lord Methuen is continuing to advance rapidly and that finding that the railway was much damaged, he left it behind him. When telegraphic communication is resumed it is quite possible that news may come of four simultaneous battles. At Modder river, Arundel, Sternberg and Colenso. As the Boers, according to Gen. Forrestier-Walker's advice were leaving Kimberley for the south it is regarded as not impossible that Col. Kekewich is already marching with 2,000 troops to meet Lord Methuen. It is believed that after the relief of Kimberley, Lord Methuen will proceed to the relief of Mafeking about which considerable anxiety is still felt. Lieut. Gen. Sir Chas. Mansfield Clarke, it is reported will be the commander of the sixth division. The latest phase of the mobilization of the reserves has proved as satisfactory as had former calls, out of 9,786 men summoned 9,553 have rejoined the colors.

NEWS FROM KIMBERLEY.

London, Nov. 28.—General Forrestier-Walker sent the following despatch, dated Cape Town, to-day to the War Office—"Kekewick reports from Kimberley, from November 18 to Nov. 23. Some unimportant skirmishing with the Boers. Wounded, Capt. Bodley, Lieut. Hawker and 3 troopers; all doing well. The health of the garrison is good and the water supply plentiful. Native reports to Kekewick state that the enemy's camps to the south of Kimberley have been vacated and that Cronje with three thousand Boers is marching to the south. The Boers are disappearing from the vicinity of Kimberley. The enemy seems restless."

The railway line was repaired to a point six miles north of Gras Pan Sunday, and the telegraph was re-opened to within 2 miles of Modder River, or 33 miles from Kimberley.

Later—Gatacre occupied Bushman's Hoek yesterday with a battalion of infantry. His main body is at Putter's Kraal. The enemy retired towards Molteno.

MORE TROOPS ARRIVE.

London, Nov. 29.—The transports Scot, with [illegible] officers and [illegible] men, and the Bavarian with 33 officers and 2,310 men arrived at Cape Town Tuesday.

BOERS RETREATED AT ENSLIN.

London, Nov. 29.—A despatch from Orange River, dated Monday, Nov. 28, describing the battle of Enslin, says—The Boers successfully retreated. The Lancers attempted to intercept and reach them but a severe fire opened from a hill forced the Lancers to retreat. Gen. Cronje was with the Boers. Among the Boer [illegible] are [illegible] Seppe and [illegible] [illegible] the Boer force. Many of the Boers voluntarily surrendered.

The Boers were shelled during the retreat and must have lost heavily, but they succeeded in getting away northward with their big guns.

The British were badly in need of more cavalry.

The bulk of the fighting was on the Free State territory and the engagement was admirably planned. Thirty Boers wounded are under treatment here. At the close of the action Lord Methuen complimented the Naval Brigade upon their splendid behaviour and expressed his regret at their losses.

THE SITUATION REVIEWED.

London, Nov. 28.—The Boer campaign of 1899 is proving the most interesting conflict in which Englishmen have been engaged during the present century. It has been under way about six weeks and the fortunes of war have in that short time been so varying as to make the struggle one of the deepest interest to the general reader. Six battles have so far been fought, but none of them have been decisive, and the British losses amount to 2,-783, including those at the battle of Enslin, details of which are given in Lord Methuen's latest despatch. The war is answering completely the assertions of people gifted with bogus prophetic insight who have for years been stating the complete revolution of war owing to modern inventions and conditions. According to some of these gentlemen the days of the bayonet charge and the personal encounter had disappeared with the use of the long-range rifle and the quick-firing gun. It was certain, they said, that troops making a charge would be annihilated before they could reach their objective point. This proposition was evidently based upon combats with undisciplined savages who charged in masses without the preliminary demoralizing rain of shrapnel, and were, in consequence mowed down by the British troops before reaching the lines.

But things have turned out differently in the Transvaal. The troops which have been able to defeat the tremendous rushes of the Dervishes have proved that they can carry almost impregnable positions defended in the most modern way at the bayonet's point. They have demonstrated that, after all, the methods of Alma, Inkerman, Balaclava are still with us. They have shown beyond doubt that the British army come what may, still clings to the bayonet, and prepares the way for a charge in the same way as at Salamanca and Vittorie. They have shown in fact that perfection in material has not revolutionized warfare in the least and that both sides are following the manners of their forefathers.

In three different quarters the Boers are engaged in resisting the advance of a British relieving column. Belmont and Enslin show how stubbornly the relief of Kimberley to the east is being contested. The blowing up of the Steynsburg bridge, which is necessary for communication by rail between Stormberg Junction and Naauwpoort Junction, shows how the Boers engaged in the central campaign are trying to guard against an attack upon Stormberg, both from the latter quarter and from General Gatacre, who is now at Queenstown to the south. There is no doubt that the triangular stretch of country lying between Naauwpoort and Stormberg, as the base and Norval's Pont, as the apex, will be the scene of bitter strife before many days are over, for it is in this section that colonial sympathizers with the Boers are mostly to be found. Stormberg Junction, which is thirty miles over the border of the Orange Free State, has been seized by the strong force of Boers and Cape Afrikanders, and as it is a position which commands the line running between East London and Aliwal North and the border of the Free State, it is imperative that General Gatacre, who is at Queenstown, thirty miles further south, should recapture it. The attempt to do this will be the occasion for a desperate engagement, as the Boers are fully aware of the strategical worth of the post. The interruption of the line at Steynsburg prevents easy co-operation with General Gatacre from the direction of Naauwpoort and De Aar.

In Natal the same process as is observable on the Kimberley-Mafeking borders is going on—the relief of a beleaguered city. Indications are that the relief of Ladysmith, despite the numbers of the Boers, rugged nature of the country, is nearer then that of Kimberley. General Hildyard's column, the advance guard of an army of almost 20,000 men, is only twenty miles from Ladysmith, so near, in fact, as to ensure co-operation by Gen. White when the battle for that town begins. Lord Methuen's division, however, is still over fifty miles from Kimberley and is advancing very slowly. The race between the two columns will be watched with interest.

THE BATTLE OF ENSLIN.

London, Nov. 28.—A despatch has been received here from General Buller giving a list of the casualties among the troops engaged in what is known here as the battle of Graspan but which is now officially designated as the battle of Enslin. It proves that the British victory was heavily bought. The losses anounced to-day, added to the 105 casualties in the naval brigade, previously noted, made a grand total of 195 as the cost of General Methuen's second battle. The Yorkshires apparently bore with the naval brigade the brunt of the fighting, as there were in addition to three officers forty-eight men of the rank and file killed, wounded and missing. The fact that the list containing the casualties of the 9th Lancers seems to dispose of the fears that the cavalry was surrounded and captured, especially as none of the Lancers are reported missing

Apparently the Government is monopolizing the single cable working to South Africa, as up to two o'clock this afternoon no news from the seat of war has been made public with the exception of General Buller's despatches. This is particularly tantalizing at the present crucial moment. While the latest news is of a fairly reassuring character from the British point of view, much of it is assumed to be true on insufficient evidence.

For instance, the reported capture of Honey Nest Kloof, of which there is no confirmation, and the stories of the rapid retirement of the Boers in Natal must be received with caution. The fact appears to be that the British scouts have lost touch of the burghers, portions of whose force after withdrawing out of reach of observers may make a detour with the object of interrupting the British line of communication.

Sharp fighting may be expected at any time on the southern frontier. Possibly General Gatacre's first battle will be in the rough passes of the Stormberg mountains.

The Associated Press, which is responsible for the above despatch, evidently forgets that the report as to the retirement of the Boers is based upon the highest authority, that of General Buller himself and the Governor of Natal, both of whom, in official despatches yesterday commented upon the fact. Additional proof of the Boer retreat is found in the circumstance that the British advance guard has just reached Frere, just below Colenso. It would appear that the Associated Press wishes to keep up the scare as regards Natal, and is slow to admit that the tension has been relieved.

Great Britain has notified France that a state of war has existed between herself and the Transvaal since Oct. 11

The particular service squadron of the British fleet has been ordered to proceed to Gibraltar on Dec. 5. It will probably replace the channel squadron which is coming home for Christmas leave.

It is said that the French Cabinet has instructed the Minister of War to refuse all officers leave to go abroad, and that officers absenting themselves in order to go to the Transvaal will do so at the risk of dismissal.

A corrected list of the British casualties at Graspan shows that Flag Captain Reginald C. Prothero and Lieut. of Marines Walter T. C. Jones, both of the Doris, previously reported wounded, were killd

The additional casualties telegraphed by General Buller appear to be the first intimation of the actions of General Methuen's forces which have not yet been reported. As 9th Lancers participated in a reconnaissance on Sunday they must have safely returned from the pursuit of the Boers after the battle of Graspan.

BRIDGES FOR NATAL.

London, Nov. 28.—Messrs. Head and Wrightson, of Thornaby-on-Tees, the well-known firm of bridge builders, have received an order for the supply of a large quantity of bridge work to the South African field force, to replace or repair the structors which may be destroyed by the Boers. The stipulation is that the bridges have to be shipped by the end of the year, and the firm obtained the order in consequence of their having undertaken to deliver the bridges in shorter time than any other competitor, thanks mainly to the patriotic offer of the local iron manufacturers to supply the material at once. The firm who are engaged on a similar order for the Natal Government state that they are determined to achieve a record in the delivery of the contract.

LIST OF CASUALTIES.

London, Nov. 28.—The War Office has received from General Buller a list of the casualties at the battle of Gras Pan o'r Enslin on Nov. 25. It shows that among the wounded of the Second Yorkshire Light Infantry were Captain C. A. Yates, Lieut. H. C. Fernyhough and Lieut. C. H. Ackroyd. The casualties among the non-commissioned officers and men of the various regiments engaged were—

Killed, 10; wounded, 71; missing, 9.

The Naval Brigade lost 4 officer killed, [illegible] wounded, ten men killed and 89 wounded.

The losses were therefore 24 killed, 162 wounded and 9 missing, or a total of 195.

The casualties in the reconnaissance of the armored train on Friday, November 24, were—

Killed—Lieut. F. Owen-Lewis, Bombay Infantry, and one private; wounded, one.

In the reconnaissance of Sunday, Nov. 26—

Ninth Lancers, wounded, Lieut. J. G. Sterling and one trooper.

LADYSMITH SAFE LAST FRIDAY.

London, Nov. 28.—The War Office has received the following despatch from Gen. Buller, dated [illegible], Natal, Nov. 28—

"Our last news from Ladysmith on Nov 24, said—"All well." An old message dated Nov. [illegible], just arrived, begins 'Joubert has explained firing on our Red Cross flag, previously reported. Have accepted explanation as satisfactory. Lieutenant Lethbridge, Rifle Brigade, died of his wounds. Others are doing well. Health of troops good. Six wounded Dublin Fusiliers captured on armored train south of Colenso sent here to-day."

MILITARY EPEXRT'S VIEWS.

New York, Nov. 28.—The war review of the military expert of the London Morning Post cabled here says—

For the first time since the war began one is able to look at the map of South Africa with a feeling of satisfaction. It was impossible to draw any satisfaction from a contemplation of the several fragments along the railway line in Natal. Now, however, the junction of these several parts has brought relief—if not to Ladysmith, at least to those watching the situation with a full sense of its gravity. Now that we are beginning to make headway against the Boers it is possible to take an easier interest in the movements of the enemy. Gen. Joubert is likely to make a fight at Colenso. Gen. Buller's first business in Natal naturally is the relief of Ladysmith. After that when the invaders are compelled to retreat on Pretoria the Natal force will get its chance. It seems that an attempt will be made to force the passes of Drakensburg. The passes will open of their own accord when the sounds of the flanking army is behind them anywhere from the Windburg road to the Vaal. There is nothing alarming in the circumstances that we have not heard from General Methuen since the fight at Graspan. He doubtless is waiting for a complete list of our losses, and only pure ignorance as to the return of the mounted contingent make one anxious for news. There is no movement forward to chronicle towards the Orange River. At present it is difficult to see whence the troops are coming to make a forward movement secure."

A GALLANT RESERVIST.

Estcourt, Nov. 26.—Major Jennings, of the medical corps, who brought the wounded from the Beacon Hill fight, chatted with Boers, who expressed doubts of their ultimate victory, although they were sure God was with them.

"It was in consequence of a letter from General Joubert to General Hildyard, offering to allow us to remove our dead, that Major Jennings went with the ambulance. Gen. Joubert asked him to surrender the Boer dead and wounded, but we had none. The Boer doctors would not allow the ambulance to approach until dark, when the wounded were carried down the hill to the waggons. The enemy then bade the British to retire smartly lest the be fired upon accidentally. The enemy excused themselves for firing on the ambulance during the action on the ground that an officer was seeking shelter there. Our wounded say they were well and promptly treated. Major Jennings confirms the report that one of the reservists, a London grocer, who had a leg shattered during the fight, got a comrade to pull the limb straight and turn him on his stomach, when he fired twenty-four shots on the advancing Boers. He did not flinch, despite his sufferings."

JOUBERT IS CONFIDENT.

Berlin, Nov. 27.—General Joubert, commander-in-chief of the Boer forces, writing to a friend in Madgeburg, says—"It is no vanity on my part to assert that we will triumph. We prepared secretly for the war. We knew it was inevitable. The war will probably last a year. But I am convinced that the blood spilled will never be upon our children."

MACRUM OVERDID IT.

Detroit, Nov. 27.—A Washington special says—"It is an open diplomatic secret here that the trouble with Consul Macrum at Pretoria is that he has been indiscreet in his friendliness with Great Britain. England was good to us in the Spanish war and an effort is being made to pay back. Macrum overdid it and was caught. This is what is at the bottom of the protests of the Boers and the anxiety of Macrum to come home."

THE KAISER RETURNS HOME.

London, Nov. 28.—The Emperor and Empress of Germany left Sandringham to-day and took a train at Wolferton and Port Victoria at ten o'clock. The Prince and Princess of Wales, the Duke and Duchess of York, the Duke of Cambridge and other members of the royal family preceded the Majesties to the railroad station, the approaches to which were lined by crowds of people assembled from the surrounding country. A strong force of the constabulary guarded the route. The Emperor and Empress affectionately bid farewell to the Prince and Princess of Wales in the waiting room of the station. The Prince of Wales conducted the Empress, who wore a lavender costume and violet bonnet, to the royal saloon carriage and the Duke of York accompanied the Emperor, who wore plain clothes, a dark overcoat and a Derby hat.

The Empress smilingly acknowledged the bows of the few privileged persons who were admitted to the platform.

After their Majesties had entered the train the Prince and Princess of Wales stood at the door of the carriage repeating their farewells. They embraced the Emperor and Empress and the train moved off amid the acclamations of the officials and villagers. The Duke of York accompanied their Majesties to Port Victoria, where they boarded the imperial yacht Hohenzollern.

CAMPAIGN IN MANITOBA.

Winnipeg, Man., Nov. 27.—The provincial campaign is becoming warmer every day. Mr. Sifton has hurried back from the West to take charge of the campaign in the western part of the province. Sir Charles Tupper, Nicholas Flood Davin, M. P., Clarke Wallace and Mr. Foster will cover every part of the province in the Conservative interests. At Winnipeg on Saturday night a tremendous big crowd gathered at the Conservative meeting called by Mayor Andrews. The meeting was remarkable by the presence on the platform of prominent Liberals who are opposed to the Greenway Government. North and South Winnipeg are now conceded to the Conservatives by the Liberals.

To Change Government Home

Ottawa, Nov. 28.—The suggestion is thrown out by ex-Mayor Stewart to exchange the present Government grounds around Rideau Hall for a portion of Rockcliffe park, equally valuable, and erect there a new and suitable home for the Queen's representative, the present Government House building being converted into a fire-proof geological and art museum.

OUR SPORTING COLUMN.

Hockey

Oshawa will have not only the fastest but heaviest hockey team they have ever had in the history of the game in that town. Lennox, their goal-keeper, who put up such a fine game last season, will be there again, while Hastings and Scarborough at point and cover [illegible], will make an impregnable defence. Gill Holliday and Dryden, of Brooklyn, will not be seen on the team. Their places will be splendidly filled with Walter French who played last year with them Paterson, who played with Waterloo and Berlin, will be seen also on the forward line. Then there is also Will Lawrence, who put up such a good game for Port Hope last season, and George Barnes, the captain of last season's Whitby team. Can you beat this combination?

The Pittsburg Despatch publishes the appended interview with "Scuddy" Phelan, formerly of town;

Walter Phelan of Peterborough, Ontario, the famous Canadian hockey player who has been secured by the P.C. & A.C. team of the Western Pennsylvania League, to coach the team and play forward during the coming winter, arrived in Pittsburg this morning and declared himself ready to jump in at once. Phelan is rated as one of the best that ever played the game. He has played with the leading teams in Canada and has ranked with the top-notchers for years past. Phelan expressed great surprise this morning when informed that Pittsburg had eight hockey teams. "I did not dream that the game had such a hold in this section. Eight teams is a remarkable number and actually shows that hockey is more popular here in Pittsburg than in Canada." Phelan says that the Victoria team of Montreal is the strongest this season and will win the championship."

The Peterborough Bank Hockey Club is the latest entry into the arena of local sport. The organization was unanimously agreed upon at a most enthusiastic meeting in the Oriental parlors last evening. As there are some first-class players and promising beginners in the different banks, a strong team may be expected. The elections were by acclamation and are as follows;—Patrons—Mr. R. C. McHarrie, Mr. A. G. Parker, Mr. Peter Cambell, and Mr. W. D. Parker. Hon. President, R. W. Grubbe; President, J. Crane; 1st Vice-Pres., R. W. Hamilton; 2nd Vice-Pres., A.A. Hollingshead; 3rd Vice-Pres., J. H. Carter; Secretary, A. S. Houston; Treasurer, A. C. B. Poussette. Executive Committee—E. W. Lamprey, F. B. Francis, C. W. Bell, E. G. Milburn. After a lively discussion it was decided that the colors should be white and green. Matches will be arranged with local teams, and it is the intention of the club to bring some of the crack bank teams from Toronto and other places.

Wallace Ross, the sculler, died at Charing Cross hospital on Sunday.

IS THE MERRIMAC LOST?

Montreal, Nov. 27.—The long over-due steamer Merrimac, of the Elder-Dempster line, has now been thirty-five days out from Quebec and nothing has been heard of her. Grave fears are now being entertained for the 45 of a crew, as none of the incoming steamers on either side of the Atlantic have reported any sign of a steamer answering the Merrimac's description. Insurance men are of the opinion that she may any day be posted at Lloyd's as lost. The theory advanced is that she has foundered, and that, forseeing the danger of such a misfortune, the crew abandoned her and went south, knowing well the infrequency of passing steamers on the Northern Atlantic at this season.

SOO CHANNEL AGAIN BLOCKED

Sault Ste. Marie, Mich., Nov. 28.—The Bessemer boats Siemens and Holly, laden with iron ore, two of the largest vessels on the lakes, and the steamer North Star, of the Northern Steamship Company, are all aground at the head of Little Rapids Cut, and the channel is again completely blocked. They were all bound down. The North Star, laden with flour and merchandise, undertook to pass the Siemens towing the Holly, when they came into collision. The Siemens has a hole in her starboard bow and is sunk. The North Star is also damaged, but not leaking. The channel will not be clear before to-night, possibly longer.

PRES. WEIR FOUND GUILTY.

Montreal, Nov. 27.—The jury in the Ville Marie Bank case to-day brought in a verdict against President Weir of guilty, with a recommendation to mercy. Mr. Weir, who is a very old man, was visibly affected by the verdict. Sentence was reserved to allow the hearing of a motion by the defence for a reserve case.

Trent Canal Contract

Ottawa Nov. 28.—The Department of Railways and Canals is calling for tenders for constructing an additional section of the Trent canal, viz., that from Trenton to Frankford, a distance of nine miles. The work includes the deepening of the Trent river between these two points, the construction of seven locks and seven dams. As the works on the St. Lawrence are nearly completed, thus freeing a number of contractors, it is expected that the competition for this work will be very keen.

Foul Play is Suspected.

Winnipeg, Nov. 28.—A murder mystery is reported from Canmore, Alberta. Corporal O'Kelly, of the Mounted Police, found the body of Joseph Defoe, whose death is undoubtedly due to foul play. Defoe was a storekeeper and lived almost directly opposite Canmore station. He was well liked and no motive can yet be discovered to account for the murder.

Morning Times

PETERBOROUGH, NOVEMBER 14, 1899

MANITOBA ELECTIONS.

A keen interest centres in Manitoba. The provincial elections are now on, and the whole country is concerned for the result. The issues are local, and for the most part, narrow, but the dicision of the electorate will vitally affect the position of parties at the federal election. Mr. John Hugh Macdonald, as the son of his father, would, in any case, wield a considerable influence. In his own proper person, however, he is eminently fitted for leadership. In a striking degree he has the wonderful tact of his great father. His nature is cordial. He has a large heart. He is widely tolerant. He looks upon the world and life with geniality. His personality is wholesome. He draws men by an innate charm. He is frank and open; meets men upon the plane of experience; is without crotchets; finally, he understands the provincial situation. His opposition to the immigration policy of the government will be a strong card, for while Manitoba needs immigrants, the great majority of the population are opposed to illiterate and pauperized foreign elements which will be unfit for citizenship for two generations.

DEAD AS A DOORNAIL

The Times has already given its opinion of the revival of the Manitoba school question, and we are happy to believe that its views are endorsed by the great majority of the electors of the country, whether Conservative or Liberal. The Conservative policy on the subject was made one of the leading issues in the last general elections for the Dominion, and it was rejected; the mass of the electorate was opposed to arbitrary intervention, and no province was more emphatic in marking its disapproval of any such proposition than French Catholic Quebec, which might have been expected to be strongly in favor of it. The situation therefore at the close of the elections amounted to this, that the Dominion refused to intervene, and the question was left to come up, if it ever came up at all, as a local issue. The general elections of the Province of Manitoba are now on, but, we believe we are right in stating that the battle will not be fought out on the school lines and that this question does not form a plank in the opposition platform. If this view of the case be correct, it is obvious that the Dominion at large is not called upon to take sides in a quarrel which the principals themselves have tacitly agreed to drop, and that an endeavor to revive the question here would be not only an absurdity, but actually an impertinence.

NOTES AND COMMENTS

Weather prognostications are to the effect it will be a mild winter. The more it is open the more of us can crowd through it better.

•• • ••

Rev. Dr. Potts, of Toronto, preaching in Douglas Methodist church Montreal, last Sunday said that up to Saturday he had received $455,000 for the twentieth century fund, and that he hoped by Tuesday to have half a million.

•• • ••

Ten to one before the trouble is over England's wits will be referring to the defence of diamond-bearing Kimberly as a brilliant affair.

•• • ••

There is one grain of comfort for Canadians in this Transvaal war. It is exemplifying the fact, not for the first time, that the numerical strength of a people is no criterion of their power in offensive or defensive operations. The relative strengths of Canada and the United States in 1812 contrasted more unfavorably for us than it does at the present time, yet there were Queenston Heights, Capture of Detroit, Stony Creek, Lundy's Lane, Chateauquay and Beaver Dams. Canada more than held her own on land.

•• • ••

The fate of the Ross government probably begins in the bye-elections in South Brant, South Ontario and East and West Elgin. South Brant is not liable to elect a Conservative, but unless the other three ridings go Tory, Mr. Whitney may as well hang his harp on a weeping willow tree and postpone his aspirations for a more convenient season.

A Little Christian Squabble

A rather lively squabble is in progress among the Christian Scientists. There are secessionists from the ranks. Col. O. C. Sabin, publisher of the News Letter, of Washington, D. C., has seceded, and with him a number of others, who have organized the Reform Christian Science Healers. Their objection is that Mrs. Eddy, the leader, or Mother, as she now calls herself, of the Scientists, is too much disposed to make filthy lucre out of her inspiration. Her book, in which the teachings of the Scientists are conveyed, she has copyrighted and sells at $3. As it is said to cost 47c. a copy, the Sabinites think the touch of the old Adam is rather too pronounced, for one who professes to be the Simon-pure follower of He who was born in a manger, and had to borrow another man's grave to be buried in. The seceders say that no one should trade and truck in the Divine spirit, and the seceders will have the approval of many who take little stock in the Science, but who can quite appreciate the unseemliness of those who believe they have a divine idea to convey, or can invoke the divine spirit, getting a copyright monopoly on the idea, and selling the divine spirit at so much per dose. The Colonel's paper contains a large amount of manifestly good thought. His gospel is the gospel of Love, and Love, he contends, should be the one predominant and ruling thought of the mind. In the last number a series of daily helps are given for each day in the month. The help for each morning is to be read over and the object is to induce one to control one's thoughts during the day. A few selections are made from the Scriptures and from good authors. For instance, the following selections are given as one morning's help:

Speak not evil of another.

If aught good thou canst not say of thy brother, foe or friend, take thou, then, the silent way, lest in word thou shouldst offend.

If there is any person to whom you feel dislike, that is the person of whom you ought never to speak.—R. Cecil.

For the last day of the month a quotation is taken from the Psalms, and a verse of Cardinal Newman's Lead Kindly Light.

Certainly anything that leads people to think good instead of evil, is to be commended.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

Wood, soft $4.00.
Tallow, rendered, per lb., 2 1/2 to 3c.

What an Editor Says

One of the editors of a Toronto paper was of the party who were entertained by the Grand Trunk Railway on the recent inauguration of their fast service to Montreal. "Before leaving Toronto," he says, "a friend who came to see me off brought me a vial of **Hutch Tablets**, saying he would not think of going away from home without having a supply. I laughed and put them in my bag. Feeling uncomfortable after two or three hours out (living too high I guess). I began their occasional use and offered them to different members of the party. I soon had my regular patients, and all pronounced Hutch very handy things to have along."

Ten Hutch ten cents, at all druggists or by mail from the WOODWARD MEDICINE Co., Limited, 11 Colborne street, Toronto.

Situations Vacant.

PRINTER—A YOUNG MAN WHO HAS had some experience at printing wanted at the Times Job Rooms. This is a rare chance to learn job printing.

5 and 6 Van Valkenberg Block, Spokane, Wash., U.S.A.

Ready for Another Contingent

Toronto, Nov. 27.—Military men are of the opinion that a second contingent will in the near future be sent from Canada, and in order that there will be no delay when the order comes preparations are being made to have the men who are willing to go at any moment.

The captains of the various companies of the 12th York Rangers have received a communication from Colonel Wayling asking for the names of all the men in the regiment who will volunteer in the event of a second contingent being recruited.

Mr Pattullo's Opponent

Woodstock, Nov. 27.—On Saturday the Conservatives of North Oxford met and nominated Mr. Abramam Montague to contest the riding in the next Provincial elections against Andrew Pattullo. Several others were nominated, but all retired in favor of Mr. Montague.

A DAY WITH THE QUEEN.

How Victoria Passes Her Time From Morning Until Midnight.

Queen Victoria's day does not begin quite so early as it once did. She has a light breakfast brought to her apartment before she rises, and in the summer time her actual breakfast is more of a nature of a continental dinner.

After breakfast Princess Beatrice reads aloud portions of the Times which she thinks may interest her mother. Then comes the consideration of various dispatches and letters which have arrived from London and from relations in different parts of the world.

Breakfast served usually in the oak room, after which the secretary brings to her notice any papers requiring her attention. She glances over these and expresses her wishes thereon, when he removes basket after basket of documents for formal answers. The Queen can then give her attention to her private correspondence, which is enormous. Afterwards she goes out for a morning drive. A luncheon is served at 1.30 and this is her majesty's chief meal of the day.

After her luncheon her majesty has a period of rest, and perfect quiet is kept in the neighborhood of her apartments. For about an hour all is silent then follows a drive, which lasts about two hours. Upon returning home, after another period of rest, the daily dinner party takes place—a quiet, but stately function, at which only a low murmur of conversation is heard. Few of the guests have anything like a conversation with the Queen, and then only in response to direct questions from her.

After the Queen leaves the dining-room, the guests all follow, to reassemble in the drawing room, where her majesty is seated on a raised chair. Every one else stands. Sometimes there is a little good music. If her majesty desires to converse with any guests she gives the hint to one of the princesses and the favored individual advances to the dias. Shortly after 11 o'clock the Queen retires, when the princesses and others sink into seats for a short time, before they, too, seek their own apartments. Such is a fair sample of the day of Queen Victoria.

VINEGAR, THEN LEAD.

They Settled the Trouble at the Carbonville Postoffice.

"I think my most exciting official experience," said Captain J. E. Stone, formerly United States postal inspector, "was at the town of Carbonville, Colo., in 1879. It was a star route post, and there was much complaint about the nonreceipt of mail, so I went over to investigate.

"The postmaster was a man named Wilson, who kept a general store, and the postoffice consisted of a soap box on the end of his counter. When mail arrived, it was dumped in, and every fellow helped himself, an arrangement that worked well enough until a chap known as Black Hills Pete came to town. Pete disturbed the entire system. When he didn't get a letter himself, he would tear up several others on the principle that misery loves company, and, being a notorious desperado, nobody dared interfere. I got the facts, and as the mail came in that evening I took a seat in the corner and awaited developments, first ordering the box removed.

"A little after dark the miners from camp began to assemble, and presently in came Black Hills Pete. He was a big brute of a fellow, and I saw at once there was going to be trouble. 'Where's that letter box?' he demanded of Wilson. 'I've ordered him not to use it any more,' I said, getting up. 'Who the blank blank are you?' roared Peter. 'I'm the inspector,' I replied. 'Well, you get me that box quick,' he retorted, and, seeing him reach toward his pocket, I made a grab for my gun; but, as bad luck would have it, the confounded thing caught in the holster.

"In a twinkling he had me covered, but before he could turn loose a quavering voice called out: 'Pete! Oh, Pete!' The desperado glared around, and there stood Wilson holding a large tin squirt gun used for drawing liquors. The sight was so ludicrous that the bully burst into a guffaw, and as he did so Wilson let drive the piston and hurled about a quart of the strongest kind of vinegar squarely into his face. The stuff blinded him, and before he could recover himself the storekeeper had two bullets in his shoulder.

"That's the true story of the strangest fight that ever occurred in the west. Pete recovered, but before he could be arrested was spirited away by friends to New Mexico. His right name was Luther Coleman, and there is a warrant now standing against him for destroying United States mail matter. After the episode I have narrated there was no further trouble at the Carbonville postoffice."—New Orleans

To Crisp Lettuce Leaves.

Do you know how to crisp lettuce leaves? A most simple process, but one rarely adopted judging by the wilted stuff we generally see served. A gentleman of the old school was my teacher, and while yet a mere child I was promoted to the proud dignity of crisping the lettuce.

First carefully separate the leaves from the stalk, discarding discolored and imperfect ones and leaving untouched the tiny hearts; lay them at in cool, clear water for awhile, all morning if you choose; pick them over a couple of times before serving; wash one by one and lay in a wire basket if you have one; if not, a clean, soft towel will answer; gather the ends and sides loosely in your hand and lightly shake the lettuce; then put the leaves in a colander, which you set in the refrigerator, but not on the ice. Leave until needed, when you will find the lettuce deliciously cool and crisp enough to crack. Never cut the leaves. If very large, divide with the fingers into smaller pieces.—What to Eat.

An Additional Company.

Kingston, Ont., Nov. 27.—Lieut.-Colonel Hunter has received permission to form a new company in connection with the 47th Battalion. It will have headquarters at Kingston.

Instructor Lindberg, of Sarnia, comes to Kingston to take charge of the famous band of the 47th Battalion.

THE BRITANNIA

CONSOLIDATED GOLD MINING COMPANY
OF ONTARIO, LIMITED

CAPITALIZATION:

$300,000.00 fully paid and non-assessable.

Par value of shares, 30c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,308 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controled by strong Montreal Syndicate.

Several hundreds of feet of work done.

Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.

A working property now producing bullion.

Assays are usually satisfactory, running from $3.00 to $400.00 per ton.

Mill runs show the ore to average $15.00 to $20.00 per ton. Last mill run (August 21, 1899), of 38 tons, gave $579.85, or $15.25 per ton. The next mill run is expected to exceed this value per ton.

For shares and reports by John E. Hardman, S. B., and Capt. Z. J. S. Williams, apply to

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 50 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

The GRAPHOPHONE.

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment.

Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

WANTED FIRE BELL CLOTHES.

He Just Made Up His Mind to Kill That Town of St. Joe.

"Ah'm come back home for some clothes, an Ah want 'em wahm," said a tall young negro to a Walnut street haberdasher one day last spring. "Ah'm jes' agoin to kill that town of St. Joe. Show me the heatedest clothes yo' got in the house."

He was not cool as to raiment to start with. His overcoat was cream colored, overlaid with pearl buttons the size of those small butter plates still in use in restaurants. His trousers were green and ended in yellow shoes with brown shot silk tops. His hat was light blue, mottled in brown; his gloves were red and his cane heavily silvered.

"Can't no St. Joe nigger tell me Ah come from Raytown," he muttered. "Ah goes up to St. Joe to work, and the coons there laugh at me and tell me Ah ain't from Kansas City, because mah clothes is so inconspicuous, and Ah just save up mah money, and Ah'm agoin back to kill the town. Now what I want is some underclothes and socks and shirts and things that are the wahmest you've got."

"How will these do?" asked the haberdasher, exposing some scarlet hosiery, banded with wide white stripes.

"That's it. That's the kind of clothes Ah want. They ain't nothin in St. Joe like that. *Lemme look at them underwear.*"

He inspected some red underwear with white stripes, some of baby blue with pink stripes and others of green with blue, black and red stripes. He bought neckscarfs of every shade of red, blue and green and of the most bewildering patterns. His purchases included zebra collars and pale pink shirts, diamond scarfpins at 85 cents each but with $85 of shine, and a brown waistcoat with scarlet moons emblazoned on it.

"Ah've got 'em dead," he exclaimed when he has finished. "They've ceased to live. When Ah get back to that town of St. Joe they'll ask me if I come from Raytown, will they? Ah'm agoin to take back to that little ole burg such wahm clothes that they'll meet me with the fish department. That town's dead now, and Ah've killed it."

How Wealth is Carried.

"It is rather amusing," remarked the head of the biggest bureau de change in London to the writer, "to notice the various methods in which men of different nationalities carry their worldly wealth. The Englishman carries his all loose in his right hand trousers pocket—gold, silver and copper all mixed up together. He pulls a handful of the mixture out of his pocket in a large, opulent way and selects the coins he has need of. The American carries his wad of bills in a peculiar long, narrow pocketbook, in which the greenbacks lie flat; the Frenchman makes use of a leather purse with no distinguishing characteristics, while the German uses one gayly embroidered in silks by the fair hands of some Lottchen or Mina.

"The half civilized capitalist from some torrid South American city carries his dollars in a belt with cunningly devised pockets to baffle the gentlemen with the light fingers. Some of these belts are very expensive. The Italian of the poorer classes ties up his little fortune in a gayly colored handkerchief secured with many knots, which he secretes in some mysterious manner about his clothes. A similar course has charms for the Spaniard, while the lower class Russian exhibits a preference for his boots or the lining of his clothes as a hiding place for his savings."—London Answers.

They Keep One Eye Shut.

A recent traveler in Mexico, who visited the mines there during his journey, says that he was much astonished at seeing the men who carry the ore come out of the mine, each with one eye shut.

The foreman, seeing his surprise, explained the matter. He said the candles belonging to the tarateros (who drill and blast) do not give sufficient light in the drifts, where it is consequently quite dark, but where, nevertheless, the tarateros see well enough not to run their heads against the rocks, but, on emerging into daylight, they would be blinded did they not take precautionary measures.

For this reason, as they approach the mouth of the shaft, at the point where they catch the first glimpse of light, they drop the eyelid of one eye and keep this down while they are discharging their ore and until they have redescended the shaft.

When they are again in the dark, they open the eye kept hitherto in reserve and at once see everything distinctly, while the other eye, previously open and somewhat blinded by the daylight, perceives nothing.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the graphophone catches instantly and preserves every tint and shade of sound. A most interesting use of a graphophone is to make records of your friends voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return as much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

THE HOME DOCTOR.

Cocoanut oil [illegible] darkens the eyebrows.

A raw egg swallowed will detach a fish bone in the throat.

A good [illegible] for corns is to rub them night and morning with a piece of ordinary sandpaper. If this method is persevered in, great relief is at once obtained and the corns will gradually disappear.

"A good stout toothbrush, plenty of water and some antiseptic dentifrice applied morning and night," says one who has given much thought in the interests of antiseptic purity, "will afford a greater safeguard against many diseases than most people are aware."

THE NEW SPAIN.

About the worst that can be said of Spain now is that it is the Washington Baseball club of nations.—Chicago News.

Nothing seems to be said about what Spain is going to do at the Paris exposition. It might at least make a display of mananas.—Council Bluffs Nonpareil.

Now that we are friends with Spain once more, she may give us the contract of building her new navy. She has reason to know that we build a fairly good article of warship.—St. Louis Republic.

Only Healyites Attended

New York, Nov. 26.—The London correspondent of the World says:—"The Irish unity conference held yesterday in Dublin under the presidency of Tim Healy proved of no account. Only 19 members out of a possible 80 attended, all, with the exception of three non-descripts, being Healyites. Redmond's party was absent, also those who usually follow Dillon.

"The meaning of Healy's action in now proposing unity after obstructing all similar preceding efforts is quite patent. Outside of Dublin and Waterford, where the Parnellites are still supreme, the only live political organization is Wm. O'Brien and Davitt's *United Irish League*. It is spreading steadily, and receiving substantial financial support. Its policy is to make a clean sweep of all existing Irish parties as such, and it is predicted quite confidently that the Healyites anyway, will be obliterated at the next general election. Hence their present anxiety for the reunion of the present parties to check the growth of the United Irish League."

Bank Safe Blown Open

Montreal, Nov. 27.—The Montmagny, Que. branch of the Banque Nationale was robbed of the entire contents of the safe during last night. The exact amount could not be ascertained, but it is said to be between $12,000 and $15,000.

The safe was inside the vault and the doors of the vault and safe were found wide open early this morning. A large arc light located close to the premises was found to have been tampered with, and would not light. The electric lights in the bank were burning all night.

The robbery is supposed to be the work of three strangers, who were seen in the vicinity of the village yesterday. They broke into the I. C. R. trackmen's tool house and secured tools, with the aid of which they succeeded in opening the vault.

Miller's Club Popular.

New York, Nov. 27.—It developed that William F. Miller, of the Franklin syndicate, which promised to pay its patrons 520 per cent. a year, had another pet scheme which he was working, known as the "Paris excursion club."

It is thought he got several thousand dollars from this source. Membership in the club cost $100. Its circulars were sent broadcast all over the country. Miller using the machinery of the Franklin syndicate to do this, and the responses were quick. It is said that more than one hundred members were obtained on Long Island, while many more sent in $100 from New England and the Central States. The circular stated that for $100 all members of the "Paris Excursion Club" will be given first cabin steamship accommodation, and could spend 30 days at the best hotels in the Exposition city. The condition that the $100 must be deposited nine months in advance was insisted upon and an extraordinary number of credible people responded.

VIVID • HEALTH

Nothing so rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness to the gain of wealth. A loaded purse cannot atone for the deranged liver, the [illegible] [illegible] stomach. Every pulse beat of impoverished blood carries weakness and disease. [illegible] and the [illegible] of life is gone. An empty sack cannot stand upright, and no health [illegible] in his cheques.

CO BO

Stimulants and Purgatives cannot cure you, but the GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evident old time taint of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries food and strength to every tissue, and gives back health when once jerked down. The Emperor's Sunday

London, Nov. 27.—Emperor William and the other members of his party went yesterday to Sandringham church, where Dr. Creighton preached. The Empress and the ladies with her drove home, but the Emperor and the gentlemen with him walked through the park, His Majesty being respectfully greeted by crowds of people who had arrived from the neighboring towns and villages by motor cars, carriages and bicycles.

During the afternoon the Kaiser and the Prince of Wales inspected the Prince's stables, kennels and stud farm.

It is arranged that the Imperial yacht Hohenzollern is to remain at Sheerness with the Imperial family on board until Wednesday morning.

Sandringham, Nov. 27.—Emperor William, the Prince of Wales and Duke of York went shooting in the Wolferton this morning, and the Imperial and royal ladies joined the party at lunch. The covers have not been shot this season, so game was plentiful.

COPPER SHARES.
LARGEST DIVIDENDS. SAFEST INVESTMENT.

Boston & Texas Copper Company.

CAPITAL STOCK $2,500,000.
250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:

HON. EMERY M. LOW, President.
Manufacturer (Mayor), Brockton, Mass.
GEORGE W. RUSSELL, 1st Vice-President.
Paper Manufacturer, Boston, Mass.
JAS. M. WHEATON, Secretary.
EDW. B. ROBINS, Treasurer.
F. M. SPAULDING, 2d Vice-President and General Manager.

STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at-Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

Sash Factory Explosion

Montreal, Nov. 27.—A serious explosion took place this morning shortly before seven o'clock, in the sash and door factory of Messrs. Pacquette, on Parthenais-st., as the result of which three men are now in the Notre Dame Hospital and are likely to die as the result of their terrible injuries. Their names are August Lizotte, Narcisse Habale and Joseph Lacroix. About ten others were slightly injured. When the men congregated for work it was customary to stand around the boiler for warmth. When thus located this morning a valve burst, fearfully scalding the above named three men.

A Good Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

To Be a New Yorker.

New York, Nov. 27.—The Washington correspondent of the Press says that while many representatives favor Lieut. Governor Woodruff, of this state, as Vice-President, on the McKinley ticket, the Senators favor Governor Roosevelt or Secretary of War Root. The candidate will certainly come from New York.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

News of Pitcairn Island

Philadelphia, Nov. 27.—The British ship Centurion, Captain Collins, has arrived at this port and brings the first news received for a long time from Pitcairn island, in the South Pacific ocean, where reside the descendents of the mutineers of the famous ship Bounty.

The island is but two and a quarter miles long, a mile and a half wide, and lies out of the track of travel. Captain Collins says there are at present about 128 persons on the island, nearly all of whom are women, the men and boys as a rule having sought work on passing vessels or whalers. Those left in the male line are descendents from the mutineers of the ship Bounty, who landed in 1789.

According to Captain Collins nobody on the island indulges in intoxicants, tobacco or profanity. There are no cattle, but goats are plentiful. The main paths are attractively bordered with orange groves and palm trees.

A Petrified Body

New York, Nov. 27.—Despatches received here from Aconda, Mont., say there has been on exhibition in the city lately a petrified man, which according to the story was found in the waters of the Missouri river, near Fort Benton. Much interest has been shown on account of the remarkable natural appearance of the body, which is without a blemish.

An old-time miner and prospector named Walton swears that the body is that of a noted Irishman, Gen. Thomas Francis Meagher, Governor pro tem of Montana, who on July 1, 1867, fell into the Missouri river at Fort Benton from the deck of a steamboat and was drowned.

THE KAFFIRS AND THE SOUTH AFRICAN WAR.

Now that war between the British and the Boer farmers of the Transvaal and the Orange Free State has actually begun, the world is awaking to consideration of the part the millions of Kaffirs of all the various tribes, the original rulers of the great South African continent will take in the struggle. It is inconceivable that they will remain passive while the excitement of war is in their midst, and their appalling numbers make them a factor which cannot be lightly dismissed. The probable attitude of the native population either resident within the two Boer republics, the British colonies or just without their borders, is perhaps the most important consideration at the present stage of affairs.

Has the cruelty of the Boer farmers been such that the natives will seize their opportunity for revenge? Will the Swazis take sides against their old enemies of the Transvaal, and what will be the attitude of the Basutos towards the Orange Free State, which has driven them from the land where stood the kraals of their forefathers?

How will the Zulus and Matabeles, still smarting from the sting of defeat at the hands of the British, act when they realize that their influence could scarcely fail to turn the tide of victory against their former conquerors? And in the common struggle which—the Boers or the British—will have most, to fear from an uprising of the Kaffir tribes, which to some extent cannot fail to become a factor in the South African war?

It is certain that a century ago the

It is certain that a century ago the Boers were the natives' hardest taskmasters. It was they who held the Kaffirs in slavery, and, on account of the freeing by England of the native slaves, occurred the great treks into what is now the Orange Free State and the Transvaal.

To this day the more old-fashioned of the Boers believe that the blacks have no souls, and that they must be considered merely as animals. Still, there is no doubt that since the mining industry dominated South Africa the Boers have treated the natives much more kindly than the English, who have made them mere machines for labor. The Dutchmen have never accorded to the Khaffirs justice even in the courts of law, but they have not been quite so flagrantly cruel to them as the younger colonists of Rhodesia. It has been a similar case to that of one man knowing how to handle a horse, and another expecting expecting to get a week's work out of him within twenty-four hours.

There are already indications that the Boers will have trouble with the Kaffirs in the Zoutpansberg district, at the extreme north of the republic's territory, where there is an enormous native population. Until within recent years the Khaffirs had this hilly district almost entirely to themselves. The Boer farmers were content to remain in the south, and the natives were allowed to do practically what they pleased.

But when the English settlers increased in the Transvaal and the mining industry developed, many of the young Boer farmers, true to their unsociable instincts, trekked further north. Friction soon arose in the Zoutpansberg district. It was followed by expeditions against certain chiefs, and there were bloody conflicts, which showed that General Joubert's boast that the Transvaal alone knew how to deal with the native question was too precipitate. These blacks of the north may now see their opportunity for revenge. This is the most serious aspect of the Kaffir question, so far as the Transvaal is concerned.

In the Orange Free State, on the other hand, there has never been trouble with the native population, the number as well as the employment of the Kaffirs have been carefully restricted.

It is with the people of Swaziland that the greatest uncertainty and danger to both Boers and British lies. The Transvaal government has only recently forcibly annexed a large portion of their territory, and the Swazis have never forgiven the British government for not giving them protection when they asked for it.

They understood that British protection had been guaranteed them by Sir Evelyn Wood at the close of the last Transvaal war, during which they offered their assistance against the Boers. But it was England that handed over Swaziland to the Boers, and the Swazis have since believed themselves to have been cruelly betrayed.

The Swazis will not assist the Boers, nor will they take sides with the English. It is safe to predict, however, that they will not remain peaceful. It is not in their nature when blood is in the air. Their territory is to the east of Natal, adjoining the land of the Zulus, who also have old sores to settle with the British. Dinizulu, nephew of Cetewayo, is now at their head. He was released from exile in St. Helena last year.

On the southern border of the Orange Free State is Basutoland. This extensive territory was formerly annexed to Cape Colony, but in 1884 it became a separate crown colony, and here ideal conditions of home rule have obtained. Still the fear of re-annexation is rampant, and this might incline the Basutos to dread the success of British arms. On the other hand, the Basutos have never forgotten that half the republic of the Orange Free State consists of territory which was once their own. It is quite an open question with which side the Basutos would sympathize, although it seems certain that with the English overrunning the Dutch, they would be in opposition, realizing what would be their own ultimate fate.

To the southwest of Basutoland is Transkie, Pondonland and East Griqualand, now incorporated with Cape Colony. Here there may be trouble, but the natives are not fighting men, like the Basutos and the Swazis. There is little doubt that the latter will seize the opportunity to throw off the Boer yoke, but they will probably act independently, waging war against all whites. The Basutos are most likely to stand by the Boers against the British especially if, as is more than likely, they get guarantees of independence and protection from the Orange Free State.

So much for the possibilities of trouble from the Kaffiers on the eastern and southern borders of the seat of war and those within the allied republics. The natives in the colonies are a mixed and spiritless lot, and will possibly be kept in subjection.

But on the west and northeast are the Bechuanas, the Matables and the Mashonas. From them may be expected such troubles as will absolutely dwarf the conflict between the white races which has already begun. To neither side will they extend support. They are the natural enemies of the white man. They are as incapable of civilization as the American Indian. They are eager for fighting. That they will remain quiescent while slaughter is on hand is absolutely impossible.

While the world is calmly contemplating the possibilities of the white men's war, those who know the continent of South Africa well are occupied in speculating on the part the millions of Kaffiers will take when the horrors of war are enacted in their midst.

CURTAIN RAISERS.

A new comedy called "Wheels Within Wheels" is expected to go the rounds.

Robert Drouet will play John Storm in "The Christian" with Miss Allen next season.

"Annie Rooney" is undergoing a revival in Paris to the temporary eclipsing of Dreyfus.

Richard Mansfield is reputed to have taken out a life insurance policy for $100,000 recently.

David Belasco has completed an original play which will be produced early in the season with a specially selected company.

An elaborate revival of Shakespeare's tragedy of "Macbeth" will be the feature of Frederick Warde's repertory next season.

It is unofficially announced that Rudyard Kipling is to write the fairy play to be produced at the London Lyceum next season.

Some German statistician has discovered that stage dancing is conducive to longevity. Taglioni lived to be 80 and Fanny Elsler to be 74.

Rose Coghlan has been re-engaged for her original role of "Mlle. Fifi" for next season, the piece to open its tour in August in Chicago.

Emma Calve's much talked of monument represents her as Ophelia, and the sculptor has promised to exhibit it at the Paris exposition.

Minnie Seligman will appear in the vaudeville houses in a one act play called "Therese," which has been done in Europe by Sarah Bernhardt.

In a play called "Wine, Women and Song," recently produced at the Princess theater, London, two demimondaines, armed with butchers' knives, fight to the death in a beautiful setting profusely decorated with flowers.

George Bernard Shaw submitted his new play, "Caesar and Cleopatra," to Richard Mansfield, but as Shaw had required a 56-year-old baldheaded Caesar to make love to a 16-year-old Cleopatra the manuscript was returned.

BEE BUZZES.

Beeswax is dark because of the impurities mixed with it.

All excess of drone comb should be removed from the hive.

Bees start to work earlier if the hives face the south or east.

It is essential during hot weather that the hives be well ventilated.

Avoid blowing your breath among the bees while handling the comb.

Dirt and filth accumulating on the bottom boards make a propagating place for the moths.

Bees reared in the spring and summer are shorter lived than those reared later in the season.

The swarming season usually begins about 10 or 20 days after white clover comes into bloom.

Bees will enter a cool hive much more readily than one which had been baked in the hot sun all day.

Honey properly kept will improve with age. The older it is the better it will be, but it must be kept dry.

All bees should be examined now and the hives thoroughly cleaned. No trash of any kind should be left on the bottom boards.—St. Louis Republic.

Kansas is a state of long obituaries and neglected graves.—Atchison Globe.

What between J. Sterling Morton's new party and Senator Thurston's poetry, the state of Nebraska has our profound sympathies.—[illegible]

THE SHOT THAT TELLS.

Do you know what happens when one of our big thirteen-inch shells strikes a fortification? It is fairly *lifted* off its foundations.

This is the modern way of doing things: concentrating every ounce of power and energy into one tremendous irresistible blow that simply annihilates opposition. This is the method that means success.

It is just the same in the warfare against disease. While all sorts of half way compromising medicines in the hands of only partially experienced doctors make a feeble, "small-calibre" sort of resistance to the enemy, Dr. Pierce's magnificent "Golden Medical Discovery," with its splendid blood-purifying, liver-toning, strength-creating power, hurls the fortress of disease from its very foundations, and searches and drives out the lurking symptoms of weakness and debility from every secret hiding place in the entire physical system of mankind.

The work of this grand "Discovery" is thorough; it gives the health that is all health; the strength that is solid and substantial and lasting; not flabby fat; not false stimulus; but genuine, complete, renewed vitality and life-force.

"I had been a sufferer for fifteen years nearly all the time," says Mrs. Sarah E. Taylor, of Eureka, Greenwood Co., Kans., in a friendly letter to Dr. Pierce. "In August, 1896, was taken with severe cramping pain in my stomach. The doctor here said it was due to gall-stones. He relieved me for a short time, and then there was a hard lump about the size of a goose egg formed in my right side. It became so sore I could scarcely walk about the house, and I had no appetite. I consulted the best doctors in town and they said medicine would do me no good. I gave up all hope of ever getting well again. You advised me to take your 'Golden Medical Discovery' and 'Pleasant Pellets,' which I did according to directions. I began to feel better and my appetite came back. Now it is a little over a year since I began to do my own work. I am stronger than I have been for five years."

Morning Times

PETERBOROUGH, NOVEMBER 15' 1899

TOWN AND COUNTY NEWS

$400 Returned.

The Secretary-Treasurer of the Charity Board gave a cheque yesterday for $400, being on account of advances made for wood.

THE BEST 25c STOCKINGS.

Scotch Fingering Worsted Yarn is the strongest yarn. Stockings made from this yarn are therefore the strongest and best stockings. These stockings nicely ribbed and well made are sold every day at the Port Hope Knitting Works for 25c in large sizes running down to 13c in smaller sizes We haven't heard of this quality being equaled anywhere, have you? Ask for trading stamps.

A Coincidence.

Toronto Star ;—The battle of last week in South Africa brings out a peculiar coincidence in names. General Methuen was the victor at Belmont. In the County of Peterboro there are two townships bordering on one another which have recently been joined together. The name of one is Methuen and the other is Belmont.

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 168 Hunter St.; from Wednesday, Dec. 13th to Saturday, Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

Laid at Rest.

The remains of the late Charles Sheffield were interred in the Little Lake Cemetery yesterday afternoon from the residence of Miss Chamberlin. A considerable number of citizens followed the remains to their last resting place. There is universal sympathy for the sorrowing family and friends.

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

HIGH COURT OF JUSTICE.

Judgment Reserved in the Case of Brown vs Eager.

The non-jury sitting of the High Court of Justice, Justice Falconbridge presiding, was concluded, a night session being held to finish the suit of Brown et al vs Eager, a suit of Brown, Love and Aylmer contractors, against William Eager, money lender, Morrisburg, and Joseph Filion, contractor, Ottawa, concerning work on dams on the Lakefield-Nassau section of Trent canal. The question considered by the Judge was the liability of Eager for advances made to his co-defendant Filion. Judgment was reserved. The accounts in question will probably be referred to the Master. E. B Edwards, Q. C., for plaintiffs; Leitch, Cornwall, for defendants.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your health, the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and home-made. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

Sent to the Mercer.

At the police court yesterday the hearing of evidence in the charge against Mrs Mary McDonald of being the keeper of a house of ill-fame and against Mrs Adelaide St. Claire of being an inmate of the same, was resumed and the case was concluded. Both of the women gave evidence in their own behalf. They denied all wrongdoing. They were found guilty and Mrs McDonald was sentenced to six months in the Mercer reformatory at Toronto with a fine of $50, in default of payment distress, and default of sufficient distress three months to be added. Mrs St. Claire was sentenced to six months in the Mercer.

Holiday Books.

If you are looking for bargains in books come to us. Have just received a choice lot of books, handsomely bound as follows: Cloth with artistic stampings in colored inks and gold; English Vellum English silk-ribbed cloth; uniform cloth; also a choice lot of embossed padded leather covers. The books are just what you will be looking for for Xmas pesents. Come early and get first choice. Times Bookstore.

For a Fourth Year.

Among other items of business transacted on Saturday, Nov. 25th, by the Official Quarterly Board of Mark street Methodist church, representatives being present from all the appointments, a unanimous invitation was extended to the popular pastor of the circuit, Rev J E Moore, Ph. B., to remain for the fourth year. During Mr Moore's pastorate the work has prospered both financially and spiritually. Great improvements have been made in the church property, adding very much to its usefulness and attractiveness.

A Good Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10¾. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

Fined $20.

County Police Magistrate Edmison on Monday fined Pat Murphy, of Ashburnham, $20 for assaulting Hugh Connor, of Douro. It appears that the former swore that the latter had held him up on the Norwood bridge, over the Trent Canal, and had attempted to relieve him of some money he had in his pistol pocket. Connors said it was the other way about. The Magistrate "split the difference" and mulched the defendant to the tune of $20.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

OURSELVES.

A few Opinions of The Times at Home and Abroad.

Mr. J. Maynard, Campbleford writes—The Times is a good paper.

Mr. R. J. Kidd, the local boot and shoe merchant, told our reporter yesterday—"I have had splendid results from my little ad in the Times. I know that the paper is a good advertising medium for I have proved it to be so."

Mr. Robert Munro, Lakefield, says that the Times is eagerly sought after, and is widely read, not only in the village but in the country.

Mr. T. McIntyre, Warsaw, writes—Please find enclosed a couple of new subscribers Everybody reads the Times here.

Could Play The Piano.

Yesterday a young girl applied at a house on Sherbrooke street for relief. She claimed to be in extremely poor circumstances and asked for clothing. The young lady who answered to the summons at the door went to interview her mother, leaving the girl in the vestibule. When she returned she found the seeker for charity calmly seated on a piano stool and playing the piano. She did not play by ear but by note.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

LITTLE LOCAL LINES.

The Times is adding new subscriptions to its lists every day.

The Rathbun Company sent a gang of men back north from Peterborough yesterday.

The steamer Rainbow is the only vessel navigating the river now, the others having all been put in winter quarters.

The Charity Ball in the Opera House on Monday evening was patronized by upwards of 400 persons. It was a success in every way.

Large shipments of poultry are being made to England this week from Peterborough and adjacent points on the railways.

Thos. McKinley and Chas. Cromie were charged with being drunk and disorderly at the police court yesterday and were fined $2.

Mr. Chas. Crowe was presented with a handsome chair and an address by the E.L. and S.S. of Marks st. church, Ashburnham on the eve of his departure from town.

A horse belonging to a well-known Smith farmer was left tied up to a hotel shed over night recently. Its owner got a jag on, and forgot where he left the animal.

The Children's Aid Society gratefully acknowledges the receipt of clothing for its wards from Mrs. Maun, Norwood; Mrs. T. Bradburn, Mrs. George Graham, Mrs. F. H. Doboin, Mrs. J. W. Hall and Mrs. Wm. Kennedy.

PERSONAL.

Mr. John Lang, M. P., was in town yesterday.

Dr. McKinnon, of Milbrook, was in town yesterday.

Mr. George J. Sherry, of Norwood, was in town yesterday.

Dr. Dewart is the guest of Mr. J. S. Knapman while in town.

Mr. and Mrs. J. S. Knapman, of Toronto, are the guests of Dr. Fife.

Miss Florence Sothern, Millbrook, is in town, the guest of Miss Gertrude Lattimer, Gilmour, Gilmour street.

Rev. J. J. Rae, of Bowmanville, formerly of the Charlotte street church, has accepted a warm invitation to the Simcoe street church, Oshawa.

Captain W. H. White, proprietor of the steamer Sunbeam, is in town for a day or two. The captain reports having had a very successful season.

Mr. and Mrs. D. Roblin, Belleville, are in town, the guests of Mrs. Roblin's parents, Mr. and Mrs. Wm. Snowden. Mr. Roblin reports business good wherever he goes.

Port Hope Guide—Rev. Father Brown, Peterborough, former pastor of St. Mary's church here, spent a few hours with his friends here on Saturday, on his way home from the east.

Mr. S. B. West, of Windsor, is in town. Mr. Best sold the Times the first typesetting machines ever brought to Peterborough, subsequently disposing of machines to our local contemporaries.

Globe—Captain George Kirkpatrick, of the Royal Engineers, a son of Sir George Kirkpatrick, reached Cape Town on Saturday with his company on the way to the front. Mrs. Kirkpatrick is in the city and will stay with her mother, Mrs. Dennistoun, till the end of the campaign.

HARD ON TRAVELLER.

Nearly Killed By Coffee.

"It is hard to teach a travelling man that coffey don't agree with him. I had the fact forced on me pretty thoroughly.

"I have been connected with an importing coffey house in New York and [illegible] to drinking a great deal of coffee

"My stomach got so badly out of order that I thought for a time I would not live. The heart was also involved, and gave so much trouble that I was afraid to drop off to sleep, fearing that I would never wake up.

"The cause of the trouble was not known until my attention was called to it by reading about Postum Food Coffee. I dropped the coffee at once, and have since been drinking nothing in that line but Postum. The results have truly surprised me. I am on the road travelling, and carry a package of Postum wherever I go. Since using the Postum Food Coffee (eight months) my stomach and heart seem to be in a perfect state of health, and I have gained over 25 pounds. I have recommended it to a score of friends and have been thanked by them repeatedly." R. S. Frear, Tunkhannock, Pa.

THE NEW YORK WORLD,
THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism,—"America's Greatest Newspaper," as it has been justly termed—The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

Y. W. C. A. Notes.

We hope that the young women who carry their luncheons from home will feel free to use the Y.W.C.A. rooms at noon. You will find a comfortable room and the daily papers.

All young women who purpose joining the class for cutting and fitting garments send their names in at once. Class begins the first week in December.

Painful Accident.

Capt. John Milleage, of the steamer Sunbeam, Lakefield, happened with a very painful accident on Monday morning. While swinging an ax he had the misfortune to nearly sever one of his feet in two. The accident occurred about a mile and a half above Lakefield, at the "three sister islands," and Mr. Milleage had to paddle the large boat belonging to the Sunbeam all the way to Lakefield, one of the oars being broken. Capt. Milleages many friends will be pleased to hear of his speedy recovery.

James Reid Acquitted.

The case of James Reid, of Smith, who was charged with having committed a criminal assault upon Bertha Freeburn, came up before County Police Magistrate Edminson yesterday, and the girls was examined. No other witnesses were called, and Reid was honorably acquitted, not the slightest evidence being adduced against him. County Crown Attorney Wood prosecuted, while Mr. R. F. McWilliams, of Poussette & McWilliams, acted for the defense

Subscribe Now.

The present is an excellent time to subscribe for the Morning Times. Every Canadian is interested in the struggle in progress in the Transvaal, and the news from the seat of war is eagerly looked for. The most important despatches come in during the night and are published in the morning papers. These the Times will receive and publish. The news found in the evening papers is largely a repetition of the news of the morning papers. The Times will contain all the latest war news up to 3 o'clock each morning. In addition it will continue to maintain its excellent local and district service. To anyone desiring to keep abreast of the stirring events of the times a daily newspaper is almost indispensable. For those who reside in Peterborough and the Midland district the Times is—par excellence—for the reasons enumerated above, the paper that should be taken. Subscribe for the daily now and keep posted from the first on all the news. Send your name and address to the business office or give it to one of the carrier boys and the paper will be delivered regularly.

THE NIGHTLY EDUCATION GOING ON IN OUR CITY.

Editor Morning Times.

Dear Sir,—Please kindly allow me a small space in your paper. Having occasion last evening to walk a short distance through two or three of our quiet streets, the education of young boys at night was brought before me in a vivid and distressing manner. I had a little girl with me under my protection, and on our way we had to pass two or three groups of boys in quiet, shady nooks, one especially in secret conclave. Of course, I did not stop to see or listen, but what I heard and saw at a little distance was convincing enough, and we were glad to pass on as quickly and quietly as possible; but even then not without seeing and hearing too much.

No doubt there is here a most powerful and subtle education going on, and it is so fascinating that each boy, small as he may be, is all eyes and ears and heart in it, open as a young flower to the sun; and as soon as he can slip out at front or back door he is there. I saw, in the one I especially refer to, a number of quite small boys with the large, and after my return home I read the very sad suicide that had occured during the day. You may imagine how I felt in reference to this evil—this almost all-powerful education that is going on in our midst.

What can the parents of these young boys be thinking about? No doubt, many of the fathers and mothers are good, honest, hard-working, respectable citizens. The father, perhaps, after a hard day's work, reading his paper, smoking his pipe or off to the meeting of his society, all legitimate enough, and the mother at her domestic duties—both of them providing honestly for the children. But this education that is so evil is going on without their knowledge, and that must corrupt them young chaps for life, not only staining them, but fixing on them thoughts and habits from which they can never escape.

There is only one other educational influence that is stronger and more lasting, if well used, and that is the loving influence of a mother in the infancy and youth of a child, and that can be the making or unmaking, I must think, of any or every child. Yes, all that are carefully brought up under it. The very manners, the thoughts and pleasures of the mother will be natural to the child. A wise and judicious mother may plant the seed and cultivate it better than one can a garden, for she has the first love, the first confidence and the first thoughts of her child. And a true mother is a mercy to any son or daughter; and a treasure in any community. This is also true, in another sense, in reference to a father, especially if he seconds the mother's influence by his own life and example. But when a boy goes into the world without these good influences he has a struggle indeed. If bad influences have had their way he lies under an incubus for life; he is stunted and crippled; he must go wriggling in misery through the world.

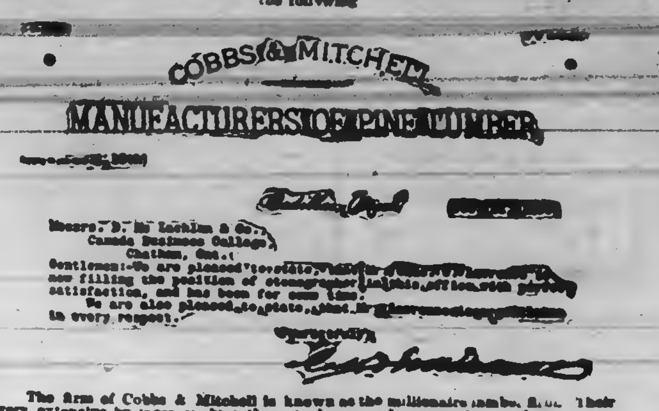
ONE DEEPLY CONCERNED.

WHEN YOU ARE A GRADUATE FROM

THE Canada Business College.

CHATHAM, ONT.

it means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL

MANUFACTURERS OF PINE LUMBER

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

Gentlemen:—We are pleased to state [illegible] is now filling the position of stenographer in this office with perfect satisfaction, and has been for some time.

We are also pleased to state that Mr. [illegible] in every respect.

Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they get him.

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for supplying teachers for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address

FROF. J. H. DeSILBERG, OPTICIAN, SPECIALIST.

An Early Morning's Blaze.

Shortly after one o'clock this morning a fire occurred in a brick building on Murray street, used as a stable and storehouse by Mr Ben Yelland The alarm was at once given and the brigade were soon afterwards on hand and had a stream playing on the blaze. The fire was soon under control although the building was badly gutted. Probable loss is not known.

Sir F. W. Borden.

Ottawa, Nov. 28.—Decorations of knighthood were received at the Department of the Militia to-day, which has given rise to the report that Dr Borden is to be knighted. The report may be premature, but the general belief is that the list of New Year's honors will contain the name of the Minister of Militia.

It must be seen to that when those ballot-box stuffers are tried in court no stuffing shall be allowed in the jury box.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,

LACK OF NEWS CAUSES VERY MUCH ANXIETY IN GREAT BRITAIN.

No Indication as to Whether the Boers Occupied the North or South Bank of Modder River.

THE BLOODIEST BATTLE OF THE CENTURY.

British Troops Fight All Day Without Food or Water and Drive the Boers From Their Positions—Third Victory for Methuen—The Canadians Have Arrived.

London, Nov. 30.—1.30 a.m.—Twelve hours reflection upon Lord Methuen's brief despatch has only served to increase public anxiety and suspense. All kinds of speculations are indulged in. In the absence of any indication as to whether the Boers occupied the north or South bank of Modder river, the best opinion inclines to the latter theory and it is pointed out that the British must have been utterly exhausted if they could not follow up the retiring Boers and crush them as the enemy crowded over the bridge, their compulsory line of retreat.

The Morning Post's military correspondent, who has usually shown great ability, suggests that the Boers are still on the south side of the river and that the bridge is in their hands. He points out the great danger to the small British force which crossed on Pontoons.

The importance attached to his pontooning is proved by the fact that General Carew one of the only two brigadier generals was selected to superintend it. No word has since arrived either from Lord Methuen or from Natal. Speculation, therefore is useless. It is believed that Lord Methuen will be instantly re-inforced from Cape Town by two battalions of infantry, a detachment of cavalry and a battery of artillery.

Col. Albrecht is directing the work of the Boers in opposing Lord Methuen, was orginally an officer in the Austrian army. He entered the Free State army and soon brought its artillery to a high state of efficency. He is known as an able artillerist and strategist. Some surprise is expressed at the fact that Lord Methuen had to fight without food or water. It seems, however, that he is not using the canned rations. He seizes and pays for fresh food. Usually he begins a march about three in the morning, after breakfast of cocoa. Then does his fighting or marching, and afterwards pitches his camp near the best water dining when his transports arrive. Their afternoons are given over to resting. Only bare necessities are allowed as one correspondent describes it, the British are fighting, an "omnipresent, but almost invisible foe." Unstinted admiration is everywhere expressed of the splendid work of Lord Methuen's column, with a force really inadequate he has marched 53 miles, and fought three battles within seven days. While no credence is given to the rumour that Ladysmith has fallen, the scare serves to impress the public with the danger of what is still within the bounds of possibilities. Such a misfortune would produce a formidable revolt among the Cape Dutch.

The Daily Mail says;—"Whatever comes we must brace our nerves to meet it. Certainly to-day it looks as if we had before us a very stern and earnest struggle, before we see our way clear to final victory. The Times comments upon the fact that thus far the Boers have been able to compell acts by inadequate forces upon their well chosen positions while keeping the initiative in their own hands. It says;—"Ample numbers are our greatest need; and the decision to send out the sixth division has certainly not been taken too soon. Now that disloyalty in Cape Colony has to be faced, even greater numbers will have to be made. The only wise course is to turn to account the somewhat bitter lessons of the last six weeks, and to employ a large factor of safety."

FROM LADYSMITH.

London, Nov. 30.—The Standard publishes the following despatch from Ladysmith dated Tuesday, Nov. 21.—"Last Saturday I had a whole sackfull of my correspondence returned to me, showing the difficulty of communication with the outside world. The Boers cannonade almost daily but there has been few casualties. Evidently the object of the enemy is to exhaust the spirits of the British troops by incessant harrassing. The prospects of the British advance from the south has impelled them to redouble efforts, they are mounting more guns and drawing the lines of investment closer."

METHUEN'S GREAT VICTORY.

London, Nov. 29.—11.55 a.m.—General Methuen has defeated the whole Boer force at Modder river.

London, Nov. 29.—A special despatch from Windsor says that General Methuen's despatch to the Queen after the battle of Modder river says;—

"The battle was bloodiest of the century. The British shelled the enemy out of the trenches and they charged. The result was terrible."

London, Nov. 29.—The War Office has received the following despatch from General Buller;—

Cape Town, Tuesday, Nov. 28.—General Methuen reports:—

"Modder river, Tuesday, Nov. 28.—Reconnoitered at 5 a.m. enemy's position on River Modder and found them strongly entrenched and concealed. No means of out-flanking, river being full. Action commenced with artillery, mounted infantry and cavalry at 5.30. Guards on right, Ninth Brigade on left. Attacked position in widely extended formation at 6.30, and supported by the artillery found itself in front of the whole Boer force, 8,000 strong, with two large guns, four Krupps, etc.

"The Naval Brigade rendered great assistance from the railway.

"After desperate fighting, which lasted ten hours, our men, without water or food and in the burning sun, made the enemy quit his position.

"General Pole-Carew was successful in getting a small part across the river gallantly assisted by 300 sappers.

"I speak in terms of high praise of the conduct of all who were engaged in one of the hardest and most trying fights in the annals of British army. If I can mention one arm particularly it is two batteries of artillery."

London, Nov. 29.—A revised list of the British casualties at Belmont shows;—Officers killed four, wounded 22, non-commissioned officers and privates killed 46, wounded 225, of which number the Guards had 35 killed and 159 wounded.

London, Nov. 19.—People here are greatly excited over the news of Methuen's great victory at Modder River. It opens up the way to Kimberley, and probably to Mafeking.

London, Nov. 29.—A family at Rotterdam have received from the son, who is in the Transvaal, a cable despatch, reading, "Am all right," which, according to pre-arranged agreement, signifies "Ladysmith has fallen." No stock is taken in this story here.

London, Nov. 29.—The Times, in its second edition, prints the following from Orange River, dated Nov. 27, says—"Only bare necessities are allowed General Methuen's force on the march, but the troops are in excellent spirits. The heat is severe from nine o'clock in the morning until six o'clock in the afternoon, and the evenings are cool. The force is fighting an always present, but invisible foe, It, however, is progressing slowly, but certainly, to Kimberley."

BOERS FOUGHT HARD.

London, Nov. 29.—The expected great battle at Modder River has been fought, and General Methuen has added another victory to his achievements of the past week. That the Boers defended their position with all their old-time gallantry is amply proved by General Methuen's despatch, and it will probably be further testified to when the heavy British casualties shall be made known.

There appears to be no doubt that Gen. Methuen has gained a real advantage; though the details must be awaited before the full effect of his ten hours desperate fighting can be gauged. Presumably the burgher army was on the south bank of the river, but whether when the Boers retreated they crossed the river northward, or retired in an easterly direction into the Orange Free State remains unexplained.

The British appears to have surmounted the difficulties of crossing the river, and to have seized for themselves a position on the north side of the stream.

Clears the Road.

This success of the British clears another stage of the road to Kimberley, the seige of which General Cronje must have partially raised in order to give battle to General Methuen. The burghers are understood to have a strong laager at at Spyfontein, 14 miles north of the Modder River, so another engagement possibly awaits the British before they can commence the last stage of the eleven miles from Spyfontein to Kimberley, though Gen Cronje would thereby run a great risk of being caught between General Methuen and Colonel Kekewick, the British commander at Kimberley.

A belated despatch from Orange River says General Methuen's troops are advancing under the greatest possible difficulties, fighting an omnipresent but invisible foe.

CANADIANS ARRIVE.

Cape Town, Nov. 29.—The Allan Line steamer Sardinian, from Montreal, with the Canadian contingent, one thousand strong has arrived here.

HORSE GUARDS DEPART.

London, Nov. 29.—Enthusiastic scenes marked the departure to-day of the first detachment of the composite battalion of the Household Cavalry going to South Africa. Crowds thronged Windsor cheering and singing, and similar scenes were witnessed in London in spite of a dense fog.

Lord Wolseley bade the Horse Guards ("Blues") farewell at Knightbridge barracks. He made a speech, reminding the men of the grand military deeds of the "Blues" saying he was assured that they would do their utmost to add to the glory of a regiment of which they were so justly proud, and wishing them Godspeed, luck and a safe return.

Struggling crowds lined the route to the station incessantly singing and cheering until the cavalry were entrained for Southampton, to embark on board the transport Maplemore.

Queen and the Troops.

There was an interesting ceremony at Windsor to-day when the Queen inspected the men of the Grenadier Guards who recently returned from Omdurman, and conversed with the wives and families of the soldiers who have gone to South Africa from the Windsor district. The weather was beautiful. The Queen was accompanied by the Princess Henry of Battenberg, and Princess Christian.

After an inspection of the troops Her Majesty briefly addressed Colonel Hatton, congratulating him on the splendid conduct of the Guards in South Africa, and expressed deep regret at the losses sustained. Queen Victoria's words were all the more earnest, inasmuch as just before her arrival at the barracks she received news of General Methuen's great victory in what another telegram received at the barracks termed the "bloodiest battle of the century."

Colonel Hatton thanked the Queen for her kind words and the Guards cheered repeatedly.

The wives and families of the soldiers were then grouped in front of the royal carriage and Her Majesty sympathetically addressed them, saying how much she felt for them, and hoping they would have good accounts of their husbands and fathers.

No News From Natal.

There had been no news of any kind from Natal up to this forenoon, since General Buller's message of yesterday. The independent communications stopped abruptly with the announcement that Gen. Hildyard had been ordered to advance on Colenso. Therefore there is considerable solicitude regarding the course of events since Monday.

BAD NEWS FOR BOERS.

Pretoria, Monday, Nov. 27.—General Duteri reports that the British made a sortie from Kimberley early Saturday morning and fired on the Boers with artillery and infantry in the darkness. He says the British sortied where the Bloemhof Boer force was stationed. On our side there were 300 men. General Duteri, who was nine miles off, hastened to the assistance of the Bloemhof contingent with a hundred men. Nine burghers were killed, seventeen were wounded, and there were some missing. The British left on the field a private and a sergeant.

It is reported that the British attempted to leave Kimberley on the east side to assist the troops from Belmont.

Railroad Repaired.

Commandant Lubu was slightly wounded

The British have repaired the damage to the railroad.

The Free Staters engaged with the British were overwhelmed by numbers, and after a brave stand until the afternoon we were compelled to take up another position on the other side of the railroad.

Delary says it is impossible to give the numbers of killed and wounded Boers, but the loss is not great.

The Boers had four guns to the British twenty-four.

The general says the Free Staters are full of courage.

London, Nov. 29.—The latter part of the Pretoria despatch from the Free Staters Onward, evidently refers to either the battle of Belmont or the battle of Enslin

AFFAIRS IN NATAL.

Chicago, Nov. 29.—The Record's London correspondent, cables;—As regards Natal, it is not known that the Boers have hurried northward and are concentrating in the neighborhood of Colenso. General Clery is evidently hurrying in pursuit, with the hope of cutting them off before they reach Tugela, and also to secure the passage of the bridge before the Boers have time to destroy it. If he succeeds, the relief of Ladysmith is certain within a few days, though he has already delayed much longer than experts like.

a few days, though he has already delayed much longer than experts like.

Buller's presence in Natal leads to the belief that the blow will soon be struck, and that the chief engagement of the near future will be expected at the passage of the Modder River, in Cape Colony, and at the Tugela, in Natal.

Meanwhile the continental papers make much of the British formal declaration that war has existed since October 11. French and German papers assert this amounts to the recognition by England of the position of the Boers as belligerents, and that consequently England is bound to accept mediation or arbitration. This view is scoffed at here. It is asserted that the admission that even rebels are belligerents does not involve the acknowledgment of their claim to independence. It is claimed that it is for the advantage of both belligerents where a state of war exists, even between established government and insurgents, that there be a recognition of the rules of warfare, without respect to the legitimacy of the demands of rebels. During the American war not only foreign Governments treated the Confederates as belligerents, but even the Government of the United States did so itself. The English recognition of the Boers as belligerents does not imply an acknowledgment of their independence more than the recognition of the belligerency of the Confederates involved the Government at Washington as an admission of the rights of secession.

"Startling Information."

London, Nov. 30.—The Daily Chronicle this morning publishing what it calls "startling information," says — "Russia has decided to establish a permanent diplomatic agency in Cabul next spring. The Ameer's consent has been obtained, and four parleys have been exchanged between Count Muravieff and Great Britain, who is not likely to oppose the step."

BOMBARDMENT OF VIGAN.

What the U. S. Sailors and Marines Have Been Doing in the Philippines.

Manila, Nov. 29.—A despatch from the Associated Press correspondent at Namacpacan, Province of Union, dated Sunday, November 26, says,—

The Oregon, Samara and Callao with 160 bluejackets and marines from the Oregon, captured the port of Vigan, Province of South Ilocos, north of here tod-ay. The Samara and Callao ran close in shore, a few shots were fired, and then the three vessels engaged in a sharp bombardment of Vigan. The firing from the shore ceased almost immediately, and the sailors and marines, with a field piece, were landed.

It is reported that 1,700 insurgents under Generals Tino and Pilar are massed at Tagudin, 10 miles north, and it has been concluded to wait at Namacpacan for the rest of the reinforcements

The American military force was still at Namacpacan Sunday, but a move north was expected to take place Monday.

Manila, Nov. 29.—By courier from the mountains to Dayamban, Province of Pangasinan—The fight in which Col. Bell defeated and scattered the rebel brigades of General Salejandrino and San Miguel, took place on the summit of the mountains, west of Mangalaren, forming the divide between the Dagupan valley and the ocean.

At daylight, Nov. 28 troops emerged from a timbered canon upon the divide running into the rebels advance guard who retreated to the main body before shooting. Col. Bell, who was in advance with the scouts and one company, had the rebels in full route before the main body of his troops arrived, and they fled down the mountains to the swamps between Mangalaren and Aguinas, leaving ten dead and many wounded and abondoning two Nordenfeldts, one two-inch Krupp, one Maxim and one Hotchkiss. They were chased throught the swamps and thoroughly dispersed. Col. Bell captured all their artillery, supplies and clothing many Mausers and Remingtons, some American Winchesters, and a thousand rounds of ammunition. Arms and impedimenta were abandoned in the rebels' retreat and were scattered along their trail for two miles, the enemy escaping empty handed, with the exception of a few rifles.

The women and children in shacks of the camp had no time to escape. Col. Ruscar, chief of the arsenal, and a few other prisoners were taken. The rebels had artillery trained to command the regular trail from Mangalaren, but Col. Bell approached from the opposite direction. The rebels are estimated to have numbered 2,000 men with some English, Japanese and four Spanish officers

When Aguinaldo passed through Namacpacan all his talk was in favor of continuing the war. He is believed to be hiding in Abra Province.

Kaiser Says Farewell.

Sheerness, Nov. 29.—The Imperial German yacht Hohenzollern, with the Emperor and Empress of Germany and their party on board, left here for Flushing at 7.50 a. m. As she passed the British battleship Sans Pareil, the port admiral's flagship, a royal salute was fired, the band on board the battleship playing the German National Anthem, and the band of the Hohenzollern replying with the British National Anthem.

Wants Good Hay Only.

Ottawa, Nov. 29.—Prof. Robertson, Dominion Commissioner of Dairying and Agriculture, was seen this forenoon in regard to a story from Boston that the steamer Montauk, which is chartered to go to South Africa with Canadian hay, was under demurrage there to the extent of $125 per day to the Canadian Government because the hay was not ready for shipment. Mr. Robertson, who will leave for Boston to-night, said that the Dominion Government was merely acting for the Imperial authorities and a cable was received at the Department this morning from the War Office expressing satisfaction with the arrangements which had been made. What the War Office is most concerned in is to get good hay, and Mr. Robertson is determined that nothing else will be shipped.

Mr. Fielding Satisfied.

Halifax, Nov. 29.—Hon. W. S. Fielding was banqueted by the Liberals of Pictou last night. Replying to a flattering address the Minister of Finance among other things said—"We have recently closed the third year of Liberal administration. The accounts have been made up, and though the blue book of the department has not yet been issued, the principal results have already been given to the public, and instead of the deficit predicted by our opponents, we have the pleasure of announcing the magnificant surplus of $4,833,000.

Jumped His Bail.

Montreal, Nov. 29.—When the case of Ferdinand Lemieux, ex-accountant of the defunct Ville Marie Bank, was called this morning before Judge Wurtele, Lemieux was not on hand, and his bail bonds of $20,000 were declared forfeited, and a bench warrant issued for his arrest. This was the second trial in the series against the officials of the bank, charged with issuing a false statement of the affairs of the bank to the Dominion Government.

From Anticosti to Manitoba.

Quebec, Nov. 29.—Rev. Dr. Griffith, of this city; Mr. Mills, of Toronto, and Mr. J. A. Cannon, advocate, returned to town yesterday from the Island of Anticosti, where they went to investigate the difficulty between Mr. Menier and the Fox Bay settlers, and to try and reach a settlement between all interested parties. Owing to the severity of the weather and a snowstorm they were forced to take refuge at Esquimault Point on Wednesday, and to remain there till Friday. They reached Fox Bay, Anticosti Island Friday night, and passed the whole day Saturday in conference with the settlers. Their mission was successful. They all speak in the highest terms of the skill displayed by Captain May of the Constance.

THE PAVING CONTRACTS

Town Engineer Hay Again on the Witness Stand.

SOME IMPORTANT FIGURES.

Cost of the Pavement When Done By Day Work.

Detailed Statement of the Cost on the Different Sections—Mr. Evans Testifies re the Evans and Langford Contract.

The pavement investigation resumed yesterday morning at ten o'clock.

Town Engineer Hay was again put in the witness box and asked to give the estimates of the work done by the contractors and by day labor during the year. These he gave as follows—

Sheehy's first contract	41,096 sq ft
Sheehy's second contract	36,473 ...
Evans & Langford contract	40,478 ...
Bartlett, London street	2,778 ...
Bartlett, Dalhousie street	4,800 ...
Rowe, Hunter street	5,121 ...
Rowe, Park street	3,614 ...
Rowe Charlotte street	5,300 ...
Rowe, Stewart street	3,264 ...

Cost of Day Work.

Total cost of Bartlett's work on London street, $512.87, average cost per sq. ft. 21 51-100 cents, without Mr. Bartlett's time cost would be 19 91-100 cents; without plant and tools 20 13-100 cents per square ft.

Dalhousie-st.—Total cost $935.90; cost per sq ft including Mr. Bartlett's time as inspector 19 29-100 cents; without inspector's time 18 3-100 cents; without plant and tools but including inspector's time 18 20-100.

Mr. Rowe's Hunter street section—Total cost $838.11; per sq. ft. including foreman's time, 15 75-100 cents; without foreman's time 15 2-100; including foreman's time but without plant and tools 15 53-100 cents per sq. ft.

Park street—Total cost $541.72; per sq. ft. including foreman's time 14 80-100 cents; without foreman's time 14 23-100; including foreman's time but without plant and tools 14 55-100 cents.

Charlotte street—Total cost $841.00; cost per sq. ft. 15 67-100 cents; without foreman's time 14 92-100; with foreman's time but without plant and tools 15 46-100 cents.

Stewart street—Total cost $690.93; per sq. ft. 20 86-100 cents; without foreman's time 19 85-100 cents; with foreman's time but without plant 20 51-100 cents.

Most of these sidewalks were 4 ft. wide, the others being 5 ft. wide.

Quantity of crushed granite supplied to Sheehy on first contract, 71 11-100 yards; on second contract 44 95-100 yards.

Mr. Dennistoun submitted that Mr. Hay could not swear to these figures. He had got them from Mr. Raper, the man at the crusher, but did not know them of his own knowledge.

Granite supplied to Evans and Langford 89 77-100 yards. Further evidence of this nature was objected to.

Mr. Edwards then put the question to the engineer whether the test made by him on Stewart St. was finally and definitely applicable to the work of the contractors.

Mr. Dennistoun objected that Mr. Hay had given it as final and had applied it to the contractors' work. The examination of Mr. Hay as to his previous evidence was adjourned till the official report could be prepared.

Mr. Evans.

Mr. H. Evans, of Evans & Langford, was then put in the witness box. He had assisted in calculating the tender of the firm. He had not seen the specifications when the tender was put in but had figured from what he had seen Mr. Sheehy putting in his contract. The day the work was started Mr. Bartlett, the inspector, started a discussion about the proportions to be used. Mr. Bartlett objected that the proportions were not up to the mark and Mr. Evans retorted that others were using it and he could use it also. While this discussion was going on Ald. Langford and Mr. Hay came along and the witness insisted that he would use the proportions he had figured on. Ald. Langford corrected Mr. Bartlett's figures and it was decided by Mr. Hay and Mr. Bartlett that if the proportions were not up to specifications they were very near it. It was settled right there at the time. This was all about the base. Then Mr. Evans asked Mr. Hay about the surface finish, asking if he was to use a 9 foot box. Mr. Hay appeared to be in a hurry and did not want to say anything about it but he replied "all right, go ahead."

Mr. Dennistoun here put in a report from Mr. Hay to the Town Council in which it was stated that the use of Ensign cement in the base did not affect the rate per foot between the contractors and the corporation.

Mr. Evans went on that there was no question raised as to the surface finish other than that just described.

To Mr. McWilliams witness stated that he was not working on the St. John's schoolhouse. He had never contracted for concrete work before this year. Mr. McWilliams questioned regarding Ald. Langford's connection with the firm. Mr. Evans stated that he himself fixed the price, insisted on fixing it himself, though Ald. Langford did not want it at that figure. He thought it was a little too high. Ald. Langford assisted with the figures.

Ald. Langford here observed that he gave Mr. Evans and his son all the information he could and advised them to put in a low figure.

The investigation then adjourned.

Mr. Tarte Indisposed.

Ottawa, Nov. 29.—Owing to indisposition arising from his recent severe illness, and operation, Hon. J. I. Tarte has to-day been reluctantly obliged to cancel his engagement to attend the St. Andrew's Society banquet at London, Ont., to-morrow.

The Polar Bear

Is not more warmly clad than the woman who invests in a fur garment here.

Warm, durable and exquisite in taste, style and finish, these goods are unquestionably the best offerings of the season.

We invite you to call and inspect the rare Furs we are selling at low figures.

☞ We don't give Trading Stamps, but we give better value than those who do

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

THE ROYAL BOUNTY.

Paris, we are told, is moved to merriment by Queen Victoria's gift to the army—a tin of chocolate to every man, and is making sarcastic remarks about chocolate soldiers. The boulevards have been made sensitive by English criticism of French army methods and are glad of a chance to turn the laugh. But there really is nothing rediculous in giving soldiers chocolate. It certainly is better than tinned beef, and it is questionable if there is anything, outside the regular rations, that would be found more helpful on the march.

It must be confessed that as a manifestation of royal and imperial bounty, a tin of chocolate does not seem imposing. But the good Queen's frugality is well known, and having a large army of dependent relatives to provide for, she should not be expected to bestow great largesse on Tommy Atkins. At royal weddings, her gift is usually an India shawl, likewise procured at wholesale, and on less distinguished occasions she has been known to bestow a pair of knitted socks. A tin of chocolate may be not a magnificent gift, but sixty or a hundred thousand tins would make quite a drain upon the royal purse.

Besides, we have not heard that the recipients of the chocolate think it funny. They are probably satisfied with that at the outset, hoping that when they come back victorious, the Queen may have something else to bestow, that may not have more intrinsic value, but will be more lasting. The French used to say that every one of their soldiers carried a marshal's baton in his knapsack. That was a long while ago, and of late the baton, if it was in the knapsack, has remained there. Even a tin of chocolate might be more comforting, and it may be that some of these soldiers in Africa have also in their knapsacks the Victoria cross.

THE WHITE TSAR NEVER SLEEPS.

If the Russian troops have advanced from Turkestan into Western Afghanistan and occupied Herat, as announced from Vienna yesterday, an overt act has been committed that can only have one interpretation, namely: Russia has decided upon an outlet to the Indian Ocean, as a prelude to her campaign against British India.

In crossing the Afghan border Russia crossed the Rubicon!

The great and final strugle between Briton and Russ for Hindoostan is on!

Inch by inch, mile by mile, Russia has pushed her frontier line around the Aral sea, across the Kizzil Kum to the Oxus, then southward, as by a flying wedge to Penjdeh. Khiva was taken by assault in 1873. Kauffmann next turned eastward and captured Bokhara, then Samarcand and Tashkent. Kuldja was ravished from Mongolia two years before the Emperorer of China knew the fact. Merve of the desert was soon occupied and the Trans-Caspian Railway under the impulse of Russian engineers and American locomotives was going eastward at the rate of five miles a day to effect a junction with the troops. At Askabad, it touched the Persian frontier but carefully avoiding trespass, pushed on to the Merve and finally to Bokhara. The road had to be built across a thousand miles of sandy desert on which not a spear of grass grew or a well of water existed for hundreds of miles at a time. The great white Tsar never slept. He was always moving on!

Siberia was already his. Not so long ago he invaded Manchuria, on the Chinese coast and to-day his arbitrary empire, like a cancer, is eating its way into the vitals of the Middle Kingdom.

Since 1839 England has tried many times to ally herself to the Afghans. But the people on "the roof of the world" have always preferred Tartar to Anglo Saxon. They have massacred many Englishmen since 1839—the days of Dost Mohammed, the ablest ruler that Central Asia has known since Ahmed Khan. The Kyber pass has been the place of sacrifice for British soldiers for half a century. True, England has conquered the Punjaub, but she holds it by a tenure of doubt. Her agents are potent at Candahar and are tolerated tentatively at Cabul, though they are hated in cold blood when they become tiresome. England has employed, alternately, a policy of brilliant agression and one of supine indifference. More brave men have won the Victoria cross on the Northwestern frontier of India than in any other part of the earth. If we remember aright, one woman an officer's widow, there secured the famous reward of individual heroism in the face of enemies of Imperial England. The alliance with the Afghan Emir has been "on and off" like a coquette's engagement in marriage. The temper of the Afghans is at this hour friendly to Russia.

Taking advantage of the South African embroilment into which Great Britain has pushed herself, Russia has challenged her natural foe. The hour has come in which to avenge the Crimean humiliation and the more galling defeat of Russia's ambitions in 1877, when the minarets of Constantinople were in sight.

When all these things are recalled the grave importance of the Russian advance towards the Indus and the Indian Ocean is understood. The Tsar selects this time to advance his frontier line another step, and now Russ and Turkoman muster side by side.

BELMONT AND METHUEN COUNCIL MEETING.

The Council met at the Town Hall, Belmont, on Saturday, the 18th day of November, 1899. Members all present, John A Sexsmith, Esq., Reeve, in the chair.

Minutes of former meetings were read and signed.

Application of Abraham Brown, pathmaster, for 3 days expenses in connection with trial of municipality vs. Mr. Tesson, received and laid over.

Application of Richard Cole for a grant of $10 between lots 26 & 27 in the 4th con of Methune, as the road is in a bad condition. Moved by Mr. Sophe, seconded by Mr. Seeney—That Mr. Cole's request be granted, and also a commission to expend the same.—Carried.

Moved by Mr. Seeney, seconded by Mr. Johnston—That the Clerk notify Joseph Wrighley, Clerk of North Dumfries, that the Council sympathies with their effort to compel the C. P. R. to put down proper cattle guards at all public crossings, but cannot see their way clear to appoint a delegate to attend meeting at Galt—Carried.

Received from the County Tresurer a list of lands liable to be sold at the next land sale. Moved by Mr. Burgess, seconded by Mr. Seeney—That the Reeve and Clerk look after the matter and fill in blanks and return the same to the county Treasurer—Carried.

Moved by Mr. Seeney, seconded by Mr. Johnston—That the Collector be insturcted to rebate all the Statute labor done on Mr. Richard Bemish road beat, and also on John J. Maloney's road beat, and also Wm. Buchanan's road beat, and Michael McNicholl one day as the pathmasters certified that the work had been performed—Carried.

Moved by Mr. Seeney, seconded by Mr. Johnston—That Mr. Ezekiel Munroe get a rebate of $6.40 back taxes charged against the e h of e h of lot 30 in the 10th con. of Belmont, as he had paid them—Carried.

Application of Calab Bannon to have $8.64 back taxes abated charged against n h of lot 18 in the 8th con. of Belmont for the year 1897. Mr. Bannon produced his tax bill signed by Mr. Daniel Young, Collector. Moved by Mr. Seeney, seconded by Mr. Johnston—That the Clerk look up the matter and report next meeting of Council—Carried.

Moved by Mr. Seeney, seconded by Mr. Burgess—That the following accounts be paid—

Geo. Sexsmith, repairing Round Lake road near Mud creek, $6.00; Thos. Westcott, rebate 2 days statute labor, $2.00; Mrs. M. J. Brown, compensation for road for the years 1897-98-99; Steven Copperthwaite, repairing Valegreen Creek bridge; $2.00; Ezekiel Munroe, rebate of back taxes, $6.40; John McCann, rebate of 2 days statute labor, $2.00

Moved by Mr. Seeney seconded by Mr. Johnston—That the Council adjourn until the 16th day of December, 1899.

Amount voted up to date $1,439.79.

Wm. H. JOHNSTON, Clerk.

SCARCITY OF RAILWAY CARS

Reported Shortage of 1,000 Daily on the Midland Division G T R

The scarcity of freight cars which has existed for the last month on the Canadian railroads shows no sign of a let-up and the situation to-day is as unpleasant as ever for Ontario shippers. One feature of the present car famine is that local business in this province is being starved in order that through business, that is, grain from the United States and Western Canada to the seaboard, may be accommodated. In order to take advantage of the lake and rail rates, which cease when navigation closes, western grain shippers are rushing their stuff through in great quantities. Another reason for the rush is that shippers want to get the grain into Montreal before the last boats leave. This has been an extra tax upon the resources of the several railroads, and this year the demand for cars is greater than ever before experienced. The railroads claim that they must accommodate this through traffic, and that, therefore, the local business must suffer. They argue that they cannot permit the elevators at shipping points to be blocked and boats to be detained, so that this traffic must be handled first. The railroad side of the question is that it would be bad business to build cars enough to handle all the fall traffic promptly, for this would mean that a large number of cars would have to be idle for nine months of the year. As an instance of this they say, that there is at present a demand for flat cars for hauling lumber, but as soon as this demand ceases the cars will be placed on sidings, and will, perhaps, not be used till next fall again.

At the present time there is on the Midland division of the Grand Trunk alone a shortage of from 1,200 to 1,500 cars daily. There is hardly a station along the line that can secure an adequate supply of cars, while on the Canadian Pacific Railway the daily shortage would be in the neighborhood of 1,000 cars. The Canadian roads are sending very few cars into the United States, as if they did the cars would be stolen by the American roads, which are so badly off for cars as the railroads on this side. On the contrary any cars coming into Canada from over the border are being utilized by the roads here to relieve the pressure.

The lumbermen have been unable to obtain anything like the cars they require, and have, therefore, not been in a position to deliver lumber on contract time, with the result that building operations throughout the province are seriously hampered. This means that work will be closed down, perhaps a month earlier than usual, and men thrown out of employment. In the spring, when building operations are resumed, there will be a rush to get the work done quickly and outside labor will be employed, taking work and wages away from the residents of the towns.

BITS ABOUT THE BOERS.

A Budget of Facts, Historical and Otherwise.

The most important holiday in the calendar of the Transvaal Boer is December 16, known as "Dingman's day," and celebrated in the short and simple annals of the South African republic. More than 50 years ago the warlike savages of Zululand were dominated by their king Dingman. It was in his time that the Great Trek of the Boers from the Cape Colony government took place. Of those who took part in the great emigration movement few survive, but among them is the case of "Oom" Paul, Mr. Kruger, now president of the Transvaal. He was then a boy of ten years, and followed his father's herds as they were driven northward across the veldt. The leaders of a well-organized body of Boers thought it worth while to propitiate the Zulu king by endeavoring to obtain from him a formal grant of the land in due form. The Boers went to Dingman's kraal and obtained their grant, but the next day the treacherous king offered them a "stirrup cup" of drink as they were about to depart, and so doing gave a signal to the Zulu soldiers to "kill the wizards." The Boers leaders were massacred on the spot, and the body of Dutch immigrants who were awaiting their return at a short distance from Dingman's kraal wre also surprised and slain, by an overpowering Zulu force.

The Boer emigrants' having found peaceful measures a failure, were now roused to revenge, and in a terrific battle on December 16, 1838, a mere handful of Boers vanquished a large army of Zulus. The Boers, slow to rouse, fought with a dogged fury and with a steady valor, remarkable when the relative proportion of Dingman's band and their own numbers is considered. This defeat was considered such an overwhelming disgrace to the Zulus that they drove Dingman out of their country. The anniversary of Dingman's day is still celebrated by the people of the Transvaal.

It was on "Dingman's Day," 1880 that the Boers were called to arms, and a triumvirate of statesmen—Mr. Pretorius, Paul Kruger and General Joubert—proclaimed the re-establishment of the South African republic, thus terminating Great Britain's "annexation." Joubert's operations at Laing's Nek and Majuba Hill followed hard upon British attempts to regain sovereignty, and by March 5, 1881, the "Transvaal State" was recognized by convention. No wonder Dingman's Day" is kept as a national holiday in the republic.

Kicked by a Horse.

Collingwood, Nov. 28,—A man called Mooney, from the mouth of the Nottawasaga river, was kicked by a horse at the Arlington Hotel shed here last evening. His skull was broken in at the eye; he cannot recover. It appears that he had been drinking and foolishly pulled a horse's tail without giving the animal warning.

Foul Play is Suspected.

Winnipeg, Nov. 28.—A murder mystery is reported from Canmore, Alberta. Corporal O'Kelly, of the Mounted Police, found the body of Joseph Defoe, whose death is undoubtedly due to foul play. Defoe was a storekeeper and lived almost directly opposite Canmore station. He was well liked and no motive can yet be discovered to account for the murder.

New Readers.

HERRIN & REINER, MINING BROKERS
Spokane, Wash.

A STRONG COMPANY

A Bird's Eye View of the Directorate of the Erie Mountain Consolidated Mining Co., Ltd. of Spokane, Washington.

There are probable few American Mining Companies having men of more prominent connections to represent the management of its affairs.

Their properties are strictly Canadian possessions, being located on the Spokane Falls and Northern Railway, at Erie, in the Nelson, Ymir Mining district British Columbia.

Regarding the directorate of the company's business, whose advertisements appear in another column, there are some Canadian as well as American officers at the helm of affairs. The President of the company is Dr. G. S. Allison, a prominent physician, who is one of the pioneers of Spokane. Mr. J. A. Reinhardt, Vice President, an old Ontario boy from Strathroy, and local manager for the Northwestern Mutal Life Ins. Co., is also one of the early arrivals to the great mining metropolis of the West. The Messrs. Merriam, under whose guidance this company's affairs are run, are well and favorably known in many of the States, members of their families occupying positions of distinction in Military and Civil life and for their integrity have always enjoyed the confidence of their business associates.

Mr. Rufus Merriam, the Secretary of the company, is a brother of Brig. Gen. Merriam, U.S.A. and Mr. Willis H. Merriam, Treasurer, and Atty., is a nephew of the Messrs. Merriam above mentioned; both well-known and old residents, Mr. Rufus Merriam having been engaged in the Real Estate, and Financial Agent in Spokane, Washington, for the last 12 years.

Subscribers to this company's stock will not fail to appreciate the prominence of its officers, and their careful and conservative management of its affairs.

THE NEW YORK WORLD,
THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism — "America's Greatest Newspaper," as it has been justly termed —The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

THE SPECTRAL BELL.

A Superstition of the Sea Sometimes Met With on Land.

The tolling of a spectral bell is one of [illegible] of the [illegible] [illegible] What [illegible] but there is [illegible] Mobile to [illegible] who has not at one time or other, heard the sound. They describe the note as extraordinarily sweet and clear, rising and falling in solemn cadence and always seemingly close at hand. It is entirely different, they say, from any other noise of the ocean, and they scout the theory that it could possibly be produced by waves.

"It isn't water," said an old seafaring man the other night, "and, for that matter, it's sometimes heard on land I know, because I've listened to it myself. Back in 1877, if you care to hear the story, I quit sailorizing for awhile and went out west and tried mining. I had a partner named Whicher, and, away up in the Sierra Madre range, in north New Mexico, we found an outcropping of rotten quartz that showed gold. It looked so good that we started to sink a shaft, although it was the most God forsaken spot you ever laid eyes on. It was in a little canyon, a thousand miles from nowhere, ugly black peaks all around us, and lonely—well, lonely is no name for it.

"One day, while Whicher was in the hole and me at the windlass he heard the bell. It was clear as my voice and seemed right over a mountain spur, where we knew there was no living being for three days' travel. It rang awhile and then stopped. Next day it rang again, slow, solemn and plainer than ever. It was broad daylight, and that made the thing all the worse, which sounds funny, but is true. We stood it four times, and then Whicher climbed out of the hole and said, 'Let's go.' I was willing. I believe we had a good thing, but that bell—it was too many for us. It makes my flesh crawl to think about it even now."

An Unprofitable Bone.

Last summer a friend presented us with a tortoise. I do not know whether our dog had heard of turtle soup or whether he regarded the creature as a new kind of bone that walked about; at any rate, he determined to eat it.

Whenever the tortoise started out on a constitutional down the garden path Gyp arrested it and carried it into his kennel, where he gnawed at the impenetrable armor till his jaws ached.

The calm and philosophical manner in which the tortoise resumed its interrupted promenade irritated the dog exceedingly, but no failure discouraged him. Whenever we reminded him of the tortoise, he would go in search of it all round the garden, peering into every crevice, till eventually the creature was found, and then fresh but futile attempts were made to extract the meaty portions from the shell.—

THE BRITANNIA

CONSOLIDATED GOLD MINING COMPANY

OF ONTARIO, LIMITED

CAPITALIZATION:

$300,000.00 fully paid and non-assessable.

Par value of shares, 80c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,306 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controled by strong Montreal Syndicate.

Several hundreds of feet of work done.

Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.

A working property now producing bullion.

Assays are usually satisfactory, running from $3.00 to $400.00 per ton.

Mill runs show the ore to average $5.00 to $20.00 per ton. Last mill run (August 21, 1899), of 38 tons, gave 6579.85, or $15.25 per ton. The next mill run is expected to exceed this value per ton.

For shares and reports by John E. Hardman, S. B., and Capt. Z. J. S. Williams, apply to

THE SAWYER COMPANY,

There is still a portion of the last authorized sale of the Treasury stock that can be had AT ONLY 5c PER SHARE.

For further particulars apply to

RUFUS MERRIAM, Secretary.
224 Mohawk Building, Spokane, Washington.

"Next to the art of living justly and kindly with our fellow [illegible] maintaining a life of happiness [illegible] quil[illegible]," writes [illegible] Dwight Hillis of "The Secrets of a Happy Life" in The Ladies' Home Journal, "for the soul was made for joy and good cheer. Life is a school; labor and sorrow, victory and defeat toil together as teachers, but happiness is life's aim and graduating point. Next to the duty of self denial comes the duty of delight. What ripeness is to an orange, what song is to the lark, what culture and refinement are to the intellect, that happiness is to the soul. As vulgarity and ignorance betoken a neglected mind, so unhappiness and misery proclaim the neglected heart.

"The normal nature will keep strong and fresh the chords that vibrate joy. Depression and worry take the nerve out of man's arm, take the keen edge from his mind, rob life of its victory, for unhappiness wins no battles, gloom invents no tool, wretchedness writes no drama. Earth's great achievements represent those whose hearts sang over the tasks. To meet storm with calm, defeat with faith, ingratitude with charity, is not an easy thing. Nothing requires so much wisdom, practice and skill as learning how to live habitually above the distemperatures of life."

Two Legitimate Mining Propositions

The Great Western Mining Co.

Property situated on the south half of the Colville Indian Reservation, good wagon road to property from railroad. Lead and Silver, 3 claims deeded to company, ledge shows entire length of claims, the ore shute on the surface, when work is in progress, shows 25 feet by 100 feet in length average assay of 25 tons of ore now on dump gives 51 per cent in lead and 55 oz. in silver, this property will without doubt be a shipper before spring, share in this property can be had of at per share the par value.

The Noonday Mining Co.

Property situated about 2½ claim lenghts from the great Republic Mine Republic Wash right in the belt, ledge 20 feet wide, assay from $3.20 to $12.00 in gold, work now in progress on cross cut tunnel at present is about 50 feet. Share in this property can be had at 3c per share. Maps on prospectus can be had at Company office and for application for stock and other information, address.

COPPER!

WANTED—First class man to sell stock in A. 1 Copper Company now at work. Liberal terms to right party. Address with references, P. O. Box 181, Boston, Mass.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 60 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

A Big Sale of Republic Stocks

THE FAIRFAX CO., OF REPUBLIC, J. J. Brown, Pres., Willis Mountain Texas, after securing the Jim Hill claim adjoining it on the north, sampled the ledge and W. H. [illegible]well reports on this cropping $10 [illegible] in gold, immediately upon the result becoming known in Republic, a Mining Supt., through our agent there, Tom Angel, negotiated the purchase of $[illegible] worth of Treasurer's stock, the company has authorized me to place a small amount of this stock at 3cts. Remember the Fairfax and Jim Hill are less than 800 feet from the Mountain Lion, which is now $1.00 per share, and is an investment at that. The Fairfax at 3¼ cts., is a speculation. Work is to be pushed.

A SIMPLE LITTLE MIX UP.

How It Helped One Man at the Expense of Another.

How a bunch of roses sold a couple of high-priced railroad tickets is the basis of a queer little comedy of errors enacted the other day at a leading city hotel. Among the guests of the house was a wealthy Texas merchant who was en route with his wife for a visit to New England. The Texan has a local business representative here in the person of a bustling young man about town, who was especially anxious to make the stay of his principal as pleasant as possible. Accordingly he rushed to a florist's as soon as he saw the names on the register and ordered him to put up the handsomest bunch of roses he had in the shop and send them over to Mrs. Blank at such and such a hotel. In his hurry he forgot to leave his card for inclosure, and, supposing it was omitted intentionally, the florist proceeded to prepare a magnificent bouquet, which he dispatched forthwith by messenger.

It so happened at the moment the flowers arrived that a city passenger solicitor for one of the north bound roads had just handed over his card to be sent to the Texas gentleman's apartment, and quite naturally the pasteboard and the roses went up together. The visitors were both astonished and pleased. "This is certainly a princely way of soliciting business," exclaimed the merchant, examining the flowers. "Why, these things must have cost all of $10. Show the gentleman up."

The solicitor was shown up, received most cordially and given an immediate order for through transportation both ways. He departed, chuckling merrily, but a little dazed by the facility of his deal and puzzled to understand the many references to his "courtesy" and "thoughtfulness."

An hour or so later the local representative dropped around and was met by his employer in the lobby. The greeting was painfully matter of fact, and not a word was said about the flowers. The young man was greatly chagrined and began to believe he had made a bad break. Next day he accompanied the couple to the depot, and incidentally something was said about the route.

"We decided to go this way on account of the gentleman who called to sell us tickets," explained the lady. "He was so courteous and pleasant! Why, would you believe it," she continued, "he actually sent me an enormous bunch of beauty roses with his business card!"

Light dawned on the local representative, and he groaned. In his pocket was a florist's bill for $13.75.—New Orleans Times-Democrat.

A JUMPING TOOTHACHE.

How It Won Its Victim Credit For Bravery in Battle.

"It was a toothache," said the veteran, "that won me a reputation for daring at the battle of Bull Run. That was the only fight I was ever in where I didn't wish I could find a hole to crawl into. All this talk about coolness on the eve of battle is nonsense, invented by people who have never been there or old soldiers whose tongues get away with their memories. Our men and officers were as brave as any in the war and made good records, but they all had the ague and longed for sick leave just about the time the bullets began to fly. But I had the toothache for two days before that battle, and if there is an aggravation on earth that will make a man want to bat his best friend in the face that is it.

"On the night before the fight I did not sleep a wink. The old tooth got to jumping like a goat, and I couldn't have suffered more from an amputated leg. I was also furiously mad. I felt that I'd either got to bolt for the rear in search of relief or encourage some rebel to put a ball through my head.

"We'd been waiting in battle line for an hour, and the boys had grown white and were all choked up. I had been entirely occupied with the old tooth, and the first thing I knew the fight was on. We were holding them in check, but that didn't suffice me. As I got hold of my gun and pulled the handkerchief off my jaw I yelled out for the boys to follow, and we struck a whole brigade and whirled it around and sent it back half a mile. I felt that I could lick the whole of Lee's army for an hour or two! They told me that I yelled and dodged death a thousand times, but I remember nothing but the jumps of that tooth. When they stopped, or for what particular reason, I could never say, but after a couple of hours I came to myself, as it were, and was being complimented on all sides, and the jumps had ceased."

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the graphophone catches instantly and preserves every tint and shade of sound. A most interesting use of a graphophone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main Street, Buffalo, N. Y.

THE KAISER RETURNS HOME.

London, Nov. 28.—The Emperor and Empress of Germany left Sandringham today and took a train at Wolferton and Port Victoria at ten o'clock. The Prince and Princess of Wales, the Duke and Duchess of York, the Duke of Cambridge and other members of the royal family preceded the Majesties to the railroad station, the approaches to which were lined by crowds of people assembled from the surrounding country. A strong force of the constabulary guarded the route. The Emperor and Empress affectionately bid farewell to the Prince and Princess of Wales in the waiting room of the station. The Prince of Wales conducted the Empress, who wore a lavendar costume and violet bonnet, to the royal saloon carriage and the Duke of York accompanied the Emperor, who wore plain clothes, a dark overcoat and a Derby hat.

The Empress smilingly acknowledged the bows of the few privileged persons who were admitted to the platform.

After their Majesties had entered the train the Prince and Princess of Wales stood at the door of the carriage repeating their farewells. They embraced the Emperor and Empress and the train moved off amid the acclamations of the officials and villagers. The Duke of York accompanied their Majesties to Port Victoria, where they boarded the imperial yacht Hohenzollern.

SOO CHANNEL AGAIN BLOCKED

Sault Ste. Marie, Mich., Nov. 28.—The Bessemer boats Siemens and Holly, laden with iron ore, two of the largest vessels on the lakes, and the steamer North Star, of the Northern Steamship Company, are all aground at the head of Little Rapids Cut, and the channel is again completely blocked. They were all bound down. The North Star, laden with flour and merchandise, undertook to pass the Siemens towing the Holly, when they came into collision. The Siemens has a hole in her starboard bow and is sunk. The North Star is also damaged, but not leaking. The channel will not be clear before to-night, possibly longer.

CAMPAIGN IN MANITOBA.

Winnipeg, Man., Nov. 27.—The provincial campaign is becoming warmer every day. Mr. Sifton has hurried back from the West to take charge of the campaign in the western part of the province. Sir Charles Tupper, Nicholas Flood Davin, M. P., Clarke Wallace and Mr. Foster will cover every part of the province in the Conservative interests. At Winnipeg on Saturday night a tremendous big crowd gathered at the Conservative meeting called by Mayor Andrews. The meeting was remarkable by the presence on the platform of prominent Liberals who are opposed to the Greenway Government. North and South Winnipeg are now conceded to the Conservatives by the Liberals.

IS THE MERRIMAC LOST?

Montreal, Nov. 27.—The long overdue steamer Merrimac, of the Elder-Dempster line, has now been thirty-five days out from Quebec and nothing has been heard of her. Grave fears are now being entertained for the 45 of a crew, as none of the incoming steamers on either side of the Atlantic have reported any sign of a steamer answering the Merrimac's description. Insurance men are of the opinion that she may any day be posted at Lloyd's as lost. The theory advanced is that she has foundered, and that, forseeing the danger of such a misfortune, the crew abandoned her and went south, knowing well the infrequency of passing steamers on the Northern Atlantic at this season.

To Change Government House

Ottawa, Nov. 28.—The suggestion is thrown out by ex-Mayor Stewart to exchange the present Government grounds around Rideau Hall for a portion of Rockcliffe park, equally valuable, and erect there a new and suitable home for the Queen's representative, the present Government House building being converted into a fire-proof geological and art museum.

PRES. WEIR FOUND GUILTY.

Montreal, Nov. 27.—The jury in the Ville Marie Bank case to-day brought in a verdict against President Weir of guilty, with a recommendation to mercy. Mr. Weir, who is a very old man, was visibly affected by the verdict. Sentence was reserved to allow the hearing of a motion by the defence for a reserve case.

Trent Canal Contract

Ottawa Nov. 28.—The Department of Railways and Canals is calling for tenders for constructing an additional section of the Trent canal, viz., that from Trenton to Frankton, a distance of nine miles. The work includes the deepening of the Trent river between these two points, the construction of seven locks and seven dams. As the works on the St. Lawrence are nearly completed, thus freeing a number of contractors, it is expected that the competition for this work will be very keen.

COPPER SHARES.

LARGEST DIVIDENDS. SAFEST INVESTMENT.

Boston & Texas Copper Company.

CAPITAL STOCK $2,500,000.

250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:

HON. EMERY M. LOW, President.
Manufacturer (Mayor), Brockton, Mass.

GEORGE W. RUSSELL, 1st Vice-President.
Paper Manufacturer, Boston, Mass.

JAS. M. WHEATON, Secretary.

EDW. B. ROBINS, Treasurer.

F. M. SPAULDING, 2d Vice-President and General Manager.

STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at Law, Boston.

CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.

E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-19 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

A TRANSPORT DRIVEN BACK.

[illegible] of dying horses and mules and fifty-five empty stalls the United States transport Victoria returned to port late last night, having been forced by unprecedented stress of weather off Cape Flattery to turn back from her voyage to the Philippines. Of the four hundred and ten horses and mule carried by the Victoria fifty-five were literally pounded to death against the sides of their stalls in the storm and the remaining animals are so badly bruised that the officials of the vessel believe that they cannot be saved. The Victoria sailed for the Philippines on Nov 23rd. The weather grew worse as the Victoria advanced towards the open ocean. On November 24, just outside the straits, the vessel was tossing on the crest of the waves described in the log as mountains, and the strong gale flew thick with a blinding mist.

The ship labored so heavily that Capt. Michaels decided to round the vessel and hold for Seattle. Fifty-five dead horses and mules were weighted and thrown overboard.

Purser Lockwood was seen this morning and said that during thirty-six voyages he had sailed the Pacific he had never seen such weather as that encountered by the Victoria. Aside from the loss of the animals no other damage was done, the Victoria having behaved splendidly.

OWNERSHIP OF KIMBERLEY.

Source of a Free State Grudge Against The British.

The capture of Kimberley would be of even more importance to the Orange Free State than to the South African republic. The Free State has always been exasperated by what it considers British injustice in seizing the diamond fields where Kimberley now stands. In the years 1869 and 1870 diamonds were discovered in a corner of Orange river territory in a district between the Vaal and Modder rivers. A rush of Europeans was made from all parts of South Africa to this region, and the question was raised. "To whom does it belong?" The Orange Free State naturally claimed it, and it was also claimed by an African native chief, by the Transvaal republic and by a half-breed or "Griqua" called Waterboer. The Governor of Natal was chosen as arbitrator by all three of the disputers, but not by Orange Free State. He decided that Waterboer was the rightful owner, and then Waterboer placed himself under British sovereignty. Great Britain immediately gave the name of Griqualand West to the diamond region, erecting it into a crown colony. The Free State protested and actually procured judgement from a British court, showing that Waterboer was not the lawful owner. But by this time the English flag was flying over Kimberley. Who would suggest to haul it down? Great Britain declared that a shifting and turbulent mining centre required a strong controlling hand, and without either admitting or denying the sovereignty of the Orange State over the country offered it a sum of $90,000 in settlement of whatever claim it might be supposed to possess. The Orange Free State took the money in 1876. It had not much choice in the matter. But many of the citizens have felt aggrieved over the affair, and a sense of being unjustly treated still rankles.

How Boer Should be Pronounced.

You often hear the word "Boer" spoken as if it rhymed with door or even with Moor. Cultivated people are now adopting as correct the pronunciation of the word "Boer" as used in Great Britain and on the continent. It is a cross between "burg" and "bear," but if you do not sound the "r" at the end of "bear" you will produce an approximately correct sound.

Boer Dialect.

The language spoken by the Africander Boers is by no means the tongue now spoken in the Netherlands. The Dutch colonization movement in South Africa started in a modest way as far back as 1652. More than two centuries have passed, and the Boer tongue has adopted many Kaffir and Hottentot words and has grafted these on the Dutch as spoken 250 years ago—by no means the speech of cultivated Hollanders to-day. It is said that many of the Transvaal Boers cannot understand a modern Dutch book, "hardly even a newspaper."

Not a Graceful Term.

The Transvaal Boer dislikes the English because they conquered the Dutch settlement at the Cape of Good Hope, and because the English treated them so that that escaped by preference to the African wilderness because they annexed the infant republic in 1877, and broke the promise of self-government previously given, and because British diplomacy stopped further Boer immigration on the west and north, to say nothing of subsequent proceedings. The Transvaal Boers have an unpleasant term for an Englishman when they talk among themselves. It is "a rotten egg."

They Keep Moving.

The religion of a Bedouin tribe seems to be to "move onward." Having once begun the nomadic life, it becomes almost necessary for them to keep it up. In the first place, they don't want to settle down, and they wouldn't have any place to stop if they wanted to. Sometimes it becomes expedient that they make great haste in these long journeys. Wandering around over the plains are other tribes whose only occupation is "moving on." There is frequently enmity between two of these Arabian families, and should one pursue the other it behooves the pursued to hasten onward with all the speed their animals are capable of. Or it may be that the springs of water are so widely separated that hard travel is necessary to make the distance from one to the other in a day.

When either of these contingencies arises, they cook and eat while on the march. They don't eat much. Two or three dinners such as American boys and girls are used to every day and something extra for Sundays and company are supposed not to agree with Bedouin children's stomachs. When on the road, bread is their chief food. This is baked while riding. One woman will mix the coarse flour which is carried in a sack on the back of her camel, another will roll and shape the dough, which is brought to her in small quantities, and a third will make a fire in an earthen vessel and attend to the baking. Women or boys on foot run along from one cook to the other and carry the material, and when the feast is ready they distribute it among the various members of the tribe.

True Boston Culture.

"Fifty cents for this beautiful little vase," called the auctioneer. "Going, going for 50. Do I hear 55 for this beautiful little vase?" and no one thought anything about the auctioneer or the vase which went for 50 cents until another one was put up, an immense affair of cloisonne. "Now we will show you an exquisite piece, not to be duplicated in this country," he went on. "An exquisite cloisonne varse"—and there the Wellesley girl said excitedly to her companion:

"Now, that is what I call true Boston culture. Would you expect a man of that kind to make such a delicate distinction? He must have been educated at a woman's college. When he is selling a 50 cent article, he says vase in the ordinary way, with the long sound of the 'a,' but when he comes to a big piece of cloisonne it is varse, with the broad 'a' every time. That is according to rule. Over $10 in price you find a varse, but under that nothing but an ordinary, everyday vase."—New York Times.

Crocodile Tears.

The expression "crocodile tears" can be found in almost every European language, but it is doubtful if one in a thousand of those who use it have an idea of its origin. We are told in the Bestiary of Guillaume le Clerc that when the crocodile finds an unwary traveler it devours him, but afterward weeps over him all the rest of its life. This is very evidently the allusion in "Othello," "Each drop she falls would prove a crocodile" (1, 257).

There is another version of the fable, however, which is more often referred to in literature, and according to which the crocodile sheds tears in order to allure the traveler to destruction. Shakespeare alludes to this in the passage where he tells how

> the mournful crocodile
> With sorrow snares relenting passengers.
>
> —"2, Henry VI.," 1, 225.
>
> —"Poet's Lore."

THE MAGICAL MIRROR

A CURIOUS GLASS OWNED BY A WASHINGTON MAN.

Several Well Known Persons Have Seen Portentous Pictures Reflected In Its Oval Surface, Although It Will Not Work For All.

While all of us have heard in early childhood of the tales of magical mirrors, in which impossible heroes saw impossible heroines in danger, from which said heroes proceeded to rescue the fair maidens, yet such things have been relegated by most of us to the region of the imagination. We regard such things as being outside of the real world of today and belonging to the region of myth and fable. Yet, in spite of our prosaic nineteenth century it is nevertheless a fact that a Washington gentleman is the possessor of an article which might be classed as appropriately belonging to the time of Aladdin and the wonderful lamp.

This strange acquisition is a mirror which came from India, and in which one can see the events which the future will bring forth. That such is its power is attested by some of the best known gentlemen of the city, who, for obvious reasons, do not wish their names to be mentioned.

This mirror came into the possession first of a Washington lady who was traveling in India, and, being interested in the religion of the country, took a trip to the famous temple of Alora, which lies in a rocky side of the foothills of the Himalaya mountains. This temple is now but a ruin of jagged rocks, jutting out harshly into the soft greensward that rolls smoothly down into the valley below. Above tower the vast mountains with their glittering caps of snow looking down on the peaceful tropical scene where for ages the followers of Brahma have performed their sacred rites.

The ruins of the temple stand open to the weather, and its ancient glory, which shone in such splendor before the English came to India, is now diminished. But a small band of Brahman monks still kept the sacred secrets and ceremonies alive. Few Europeans ever penetrate this section of the mountains, but the Washington lady mounted and visited the monastery. While there she managed to secure possession of one of the mirrors made by the monks and reputed to possess wonderful properties.

The lady brought the mirror with her on her return to town, and at her death it came into the possession of Mr. Lowdermilk. From him it was bought by a gentleman who takes great interest in such matters, but who would not like the fact of the existence of the mirror in his house to be known, as it would attract thousands of seekers after the curious. After paying quite a large sum for the glass the mirror was brought home and put to the test.

The mirror is oval in shape, about a foot long and is surrounded by a wooden frame two inches in width and painted a dark green. The back of the glass is coated with asphaltum and then covered with dark linen, so that the whole has the appearance of a lustrous opal. The method of use is by sitting with the mirror in one's lap and holding the glass so that there is no reflection of other objects shining on the surface of the glass. If the test is a success, there will appear in about a quarter of an hour a thin, cloudy mist, which will slowly float over the surface, and then the images of future events will be mirrored in the seemingly fathomless depth of the dark glass.

The gentleman who owns the mirror has never been himself successful in seeing anything, but a friend of his, a prominent judge and a thirty-third degree Mason, had a remarkable experience. He placed the mirror in his lap, and, after half an hour, a mist floated over the surface; then he saw reflected in the glass a picture of a coffin, within which was the still, white face of a dead man. At first glance the features seemed those of the gazer, but on looking closely it was seen that they represented exactly the brother of the gentleman—a man then in perfect health. In a second the picture shifted, and another face—that of a friend—appeared within the sides of the coffin. The gentleman in two weeks afterward lost his brother, and in a short while his friend, whose face he had also seen, passed to another world.

A son of the owner was one evening looking into the mirror, when he saw within a picture of a house in flames. There were the servants leaping from the porches, then returning to drag out the furniture. The glare shone around on a yard which the gazer recognized as that of his own farmhouse down the Potomac. By the mail two days afterward he received from his housekeeper an account of a fire which had destroyed his home, and the description tallied exactly with the picture seen in the mirror.

Another man, a gentleman employed in the bureau of ethnology and well known as a scientist and linguist, has also seen many pictures in the mirror—pictures of events in his life which were afterward realized to the letter.

By a student of occultism the following directions were given in a treatise on that subject, which dealt with the methods employed in making such mirrors: The materials used are one glass, 6½ inches by 8½ inches, free from flaws and concave in shape; a small amount of turpentine asphaltum, a pint of spirits of turpentine, a small hairbrush, a box in which to case the mirror, and a half a yard of new cloth.

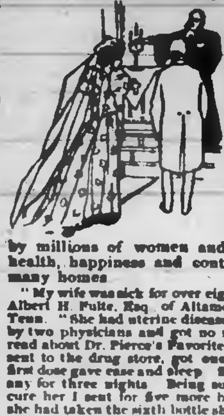
The glass is placed in a clean, light and airy room, the materials washed perfectly clean; then the brush and the glass are wiped over with turpentine. Afterward the back of the glass is coated smoothly with a thin varnish of the asphaltum and left to dry, the operation being repeated for the two following days. At the end of that time the mirror is magnetized by placing the hands above it and slowly waving them to and fro, so that the animal magnetic force may be well absorbed by the asphaltum. The asphaltum is the best known material for absorption of the aura of the human body, and this is the reason for its use. The test should be made also in a clean, airy chamber when alone and when the mind is composed, and by perseverance the inquirer is sure to be rewarded—so say the books on magic.—Washington Post.

The Birds Save Us.

A French naturalist says that if the world were to become birdless man could not inhabit it after a nine years' time. In spite of all the sprays and poisons that could be manufactured for the destruction of insects the bugs and slugs would simply eat up orchards and crops.

Fact Versus Fiction.

"Talk about the seven sleepers," mused the [illegible]; "I'll bet there are 7,000 of them between Albany and [illegible]



MARRIED HAPPINESS

is dependent upon the health of the wife more than on any other one thing. If a woman is troubled in a distinctly feminine way the most delicate nerves of her body are in a state of chronic irritation. She has headache and backache. She is listless and spiritless. She is cross and blue. She feels that life is not worth living and her temper reflects the condition of her nerves. Poor, suffering wife — poor, distracted husband. If the husband is a cheerful, good-humored man he will sympathise — if he is nervous, tired and irritable himself, he will probably go off to the club or seek elsewhere more congenial company.

A sick woman is to be pitied because she is miserable and because she has not yet learned that Dr. Pierce's Favorite Prescription will make her well.

The "Favorite Prescription" was developed over thirty years ago in the regular practice of Dr. R. V. Pierce who is and was then, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Since then it has been used by millions of women and has brought health, happiness and contentment to as many homes.

"My wife was sick for over eight years," writes Albert H. Fulte, Esq., of Altamont, Grundy Co., Tenn. "She had uterine disease and was treated by two physicians and got no relief. At last I read about Dr. Pierce's Favorite Prescription. I sent to the drug store, got one bottle and the first dose gave ease and sleep. She had not slept any for three nights. Being sure that it would cure her I sent for five more bottles and when she had taken the sixth bottle she was sound and well. We now have a fine boy at our house."

The "Favorite Prescription" contains no alcohol and no opium or other narcotic, and is perfectly harmless in any condition of the system.

TOWN AND COUNTY NEWS

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

Another Section.

By reference to our advertising columns it will be seen that the government are advertising for tenders for the lower section of the Trent Valley Canal. This, when completed, will give us a clear water way to Lake Ontario.

A Bond Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

Idyl-Wild Hotel Burned.

News was brought to town yesterday by a farmer living near Rice Lake, to the effect that the new Idyl-Wild hotel had been burned. No particulars are known, but the house is totally destroyed with its contents

THE BEST 25c STOCKINGS.

Scotch Fingering Worsted Yarn is the strongest yarn. Stockings made from this yarn are therefore the strongest and best stockings. These stockings nicely ribbed and well made are sold every day at the Port Hope Knitting Works for 25c in large sizes running down to 13c in smaller sizes We haven't heard of this quality being equaled anywhere, have you? Ask for trading stamps.

Holiday Books.

If you are looking for bargains in books come to us. Have just received a choice lot of books, handsomely bound as follows: Cloth with artistic stampings in colored inks and gold; English Vellum English silk-ribbed cloth; uniform cloth; also a choice lot of embossed padded leather covers. The books are just what you will be looking for for Xmas pesents. Come early and get first choice. Times Bookstore.

THE LIFT LOCK.

Work Progressing Favorably on the Ashburnham Section.

Yesterday The Times visited the work on the Ashburnham section of the Trent Valley Canal, in company with Mr T F Johnston, of the London Times, who is on his way across the continent, and who stopped off at Peterborough to look at the work on the hydraulic lift lock. Mr Johnston, who represents the greatest newspaper on earth, naturally called on its less pretentious namesake in Peterborough, and after exchanging the usual greetings Mr Johnston and the Times adjourned to the back parlour of the Snowden House, where several matters of international concern were disposed of, after which the canal was visited.

We found that work on the lift lock was progressing favorably, although the foundation had not yet been reached. Mr Thos Kelly showed the two newspaper men over the ground, and explained everything, Mr Hammill, the government engineer, also lent a hand, and the scribes came away much impressed with what they saw and heard.

The work at this point will probably take two or three years yet to complete. It will last until after the next general election.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your, health. the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and home-made. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.
Established 1893. Phone 303.

An Evening With the Wesleys.

Owing to lack of space our report of the entertainment in the George-st. Methodist Church on Tuesday evening was left over. Mrs Kendry read an essay on Susanna Wesley, the mother of John and Charles, which was carefully prepared and well read. But what captured the audience was the address of Mr J W Flavelle, of Toronto, formerly of Peterborough. He referred, in feeling terms to his memories of the past, and touched the hearts of all by his reference to his early days in Peterborough. Mr Flavelle was followed by Dr Dewart, of Toronto, who was listened to with attention. Music by several ladies connected with the church, helped to make the evening a thoroughly enjoyable one.

CATARRH OF LONG STANDING RELIEVED IN A FEW HOURS.

It is not alone the people of our own country, and prominent citizens like Urban Lippe, M. P., of Joliette, Que., and other members of Parliament, who, having used Dr. Agnew's Catarrhal Powder, pronounce it the most effective remedy they have ever known, but people everywhere are expressing their gratification at the effectiveness of this medicine. C. G. Archer, of Brewer, Maine, says—"I have had catarrh for several years. Water would run from my eyes and nose days at a time. About 4 months ago I was induced to try Dr. Agnew's Catarrhal Powder, and since using the wonderful remedy I have not had an attack. I would not be without it." It relieves in ten minutes. Sold by Ormond & Walsh and H. S. McDonald.

A Coming Event.

The social concert to be given by St. Paul's church choir on Friday evening of next week, promises to be a great success. The following talent has been engaged, and will take part: Miss Edith J Miller, contralto, New York; Mr Holmes Cowper, tenor, Chicago; Mr W Spencer Jones, solo organist, and the choir of the church.

Children's Aid Blameless.

The Times is requested to state that the case of alleged indecent assault preferred by a young woman who sought shelter at the Children's Aid Shelter as an outcast, against a farmer of Smith, fell to the ground on Tuesday. The charge was laid before the County Crown Attorney by the girl herself, and not by the society, who had nothing whatever to do with it. The County Attorney heard the girl's story and advised her to follow the course which she did follow.

Boy Wanted.

The Times requires a smart boy for night work, to set headings and run messages. Short hours and fair pay. Apply in evening to night foreman, in daytime to Times Bookstore,

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

THE MACFARLANE WILSON CO.
LIMITED

China Hall and Silver Bazaar.

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 168 Hunter St.; from Wednesday, Dec. 13th to Saturday Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

A November Wedding.

A very pleasing event occurred at the the residence of Mr Chas Edwards, of Otonabee, when his eldest daughter Miss Mary E., was united in the holy bonds of matrimony to Mr Joseph Manley. Rev Mr McCauley of Keene, performed the ceremony in the presence of a large number of invited guests. At the conclusion of the ceremony the wedding march was feelingly rendered by Mrs Edwards, of Keene. The bride who was charmingly attired in cream with garniture of satin and pearls, was assisted by her sister, Miss Bella, who was similarly dressed. The groom was assisted by his brother, Mr C W Manley. A large number of presents testified to the high esteem in which the young people are held. The Times joins in hearty congratulations.

A Bad Sidewalk.

The sidewalk on Argyle street, near the hospital, is in a disgraceful condition, and has been so for some time. A lady told The Times yesterday that when coming from the hospital on Tuesday evening she stepped into one of the openings in the sidewalk, and had a bad fall, receiving several severe bruises. The Town Engineer should see that repairs are made at once.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

The Butter Board.

The second meeting of the Butter Board was called for yesterday morning, but again only two factories were represented, while Mr Fitzgerald was the only buyer present. The factories represented were Warminster, 26 packages, and Norwood, 50 packages. Mr Fitzgerald offered these two factories a guarantee of 19 cts. for their butter, with a possibility of getting more for them. This arrangement was accepted. There is not as much butter being made this year as last, and this accounts for the non-success of the Butter Board, which will now be abandoned for this season.

Wedding Bell.

A very pretty wedding was celebrated on Wednesday evening at the residence of Mr George Hansfield, Park street, when his daughter Miss Allice, was united in marriage to Mr Ernest Carveth, a printer. The ceremony was performed by Rev W L Armitage, of All Saints' church, only the intimate friends of the bride and groom being present. The Times extends its congratulations.

LITTLE LOCAL LINES.

There was a fair market yesterday

The Gun Club will hold a trap practice at three o'clock sharp to-day.

Having killed the Khalifa, Kitchener might now take the Kairo-Khartum route to Kimberley, relieve Kekewich, and put the Kibosh on Kruger. Everything then would be O. K.

The Matthews company received a "double decker" of hogs from Fenelon Falls yesterday.

Mr. Robert Stewart took a contract to deliver 500 hogs in a couple of day's time to the Matthews Company. He had the porkers there on time.

We want a bright boy for the Time's night department. This is a good change for a good boy to learn the business. Apply at the business office.

Mr. W. F. Green, window shade manufacture, was in Lakefield yesterday on a business trip.

Some Old Bank Bills.

Lindsay Post; There are yet some thrifty people in this country who have not acquired confidence in banks, and prefer to store their savings in a stocking. One of our leading business men beheld a convincing illustration of the fact the other day when a farmer was called to liquidate an account handed over a couple of dozen of $2 bills or "Ten Shillings" tokens issued by the Bank of Toronto, Merchant's Bank, Ontario Bank, Bank of Commerce and Province of Canada Bank, between the years 1859 and 1866—prior to Confederation. The bills had been issued to banks at Belleville, Oshawa, Ottawa and Alexandria The vignettes are creditable specimens of engraving, and some of the issues are superior in appearance to those issued by some of our banks to-day.

Starving in Chicago

Detroit, Nov. 29.—A special from Chicago says; Joseph McCarthy, 50 years of age, who has not tasted food for five days, was found unconscious under a freight car. A patrol wagon took him to a police station. McCarthy said the meal give him there had saved his life. "My home," he said, "is in Hamilton, Canada. I am a carpenter, but as I could not get any employment there, I started six days ago for Chicago. I had no money, and rode on freight cars." The aged man says he has a wife and six small children living in Hamilton. McCarthy will be cared for at the police station for the present.

St. Andrew's Night.

By John Imrie, Toronto, for the Times.

The farther Scotchmen gang frae hame
  They seem to grow the fonder
O' everything that's Scotch in name,
  An' crack about it yonder—
Ayont Atlantic's briny foam;
  They a' ken me anither—
The Scot's at hame where'er he roam,
  An' share to find a brither!

Cho.—St. Andrew's, Caledonians, Clans,
    As Sons o' Scotland gather;
  An' gallant braw "John Heilan'
    mans!"
  Are proud o' hame and heather!

An' whan St. Andrew's day comes roon
  There's aye a demonstration,
They march wi' pipers through the toon,
  In honour o' oor nation;
At nicht they spread a table fair,
  An' mak' a jolly party,—
They're share to hae a' guid things there,
  Tae mak' them crouse an' hearty!—Cho.

The hall is set a' roon wi' flags,
  And sometimes screeds o' tartan;
Wi' claymores, shields, and heids o'
    stags.
  Frae Oban to Dumbarton!
Each coat, in button-hole, is seen
  A sprig o' Heilan heather,
Wi' a bonnie rose-bud in between,
  To show they gree thegither!—Cho.

It's then they crack o' Scotland's micht
  O' Wallace, Knox, an' Burns:
An' how a Scotchman fechts for richt,
  Gie speeches a' in turns!
The auld Scotch sangs their hearts enthral,
  They lo'e the words sae fine,
Tae the "wee short hour ayont the
    twal,"
  Whan they pairt wi' "Auld Lang
    Syne!"

LIVELY LAKEFIELD.

Budget of News from our Northern Suburb.

The annual report of the Medical Health Officer for the year ending Nov. 15th, was submitted to a meeting of the Board of Public Health held on Saturday last. The village has been free from typhoid fever and diptheria during the past year, and the sanitary inspector's round of visits shows very satisfactory conditions. A large number of samples of well-water the very dry season were such as to call for prompt action on the part of the owners, and no doubt the precautions taken have been tested and the results owing to are responsible for the freedom from zymotic disease. There was a slight outbreak of scarlet fever of a very mild type in October. The death rate was abnormally high, being 28 in a population of about 1200. This was accountable for largely by the epedemic of la grippe, followed by bronchial and lung affections, and also by bronchitis following on whooping cough among young children.

The Board passed the report and closed up the year's business by paying bills amounting to $26.65.

Obitutary.

The funeral of the late J. Jackman on Tuesday afternoon was very largely attended. Death occurred on Sunday last after a lingering illness. The deceased was a Past Chief Ranger of Court Lakefield No. 43 C.O.F., and the funeral was conducted by the Court whose members attended in a body.

A Bad Cut.

Capt. John Millage, of the steamer Sunbeam, is laid up with a severe axe-cut on the right foot. The wound, which is a very bad one, was dressed by Dr. Bell, it is to be hoped that permanent lameness will be averted.

Farmers' Institute.

Notices have been issued for the annual meeting of the West Peterborough Farmers' Institute in the village Town Hall on Tuesday, Dec. 4th. Meetings will be held at 1.30 p.m., and 7.30 p.m., and the following gentlemen are billed to address the meetings—Messrs. J. S. Woodward, of Lockport, N. Y.; E. Hawthorne, R. E. Birdsall, T. Blezzard, M.P.P., and G. Hayward

Large Order.

Strickland & Co. have commenced work on a large order for canoes for England, and the factory will be kept busy during the winter.

PERSONAL.

Mr. J. H. Brandon, of Fenelon Falls, was in town yesterday.

Mr. T. L. Johnston, of the London Times was in town yesterday, the guest of Mr. W. H. Robertson.

Capt. Eden, who has been away in British Columbia since early last spring, arrived in town last night. The Captain looks as though the western country agreed with him. He will only remain a day or two.

Miss Muggie Kearney of Young's Point and Miss Josie Phalen of Lakefield are visiting friends in town for a day or two

The Slave
OF CIRCUMSTANCE AND CONDITION
SUFFERS
If he uses the wrong kind of food. He thrives on
Grape-Nuts

NATURAL FOOD.

For Highly Organized People.

How to select food that will make a sick body well, is a problem. There are food experts that make that question the study of their lives; to know what the human body is built of, and just where to look for the nerve elements in the grains, fruits and other forms of food furnished by Mother Nature.

The food Grape-Nuts was originated for a reason, and with the above facts in view. It is perhaps the most popular food on the American table to-day, for while it has been in use but little over a year, many of the best people have discovered its unquestioned value.

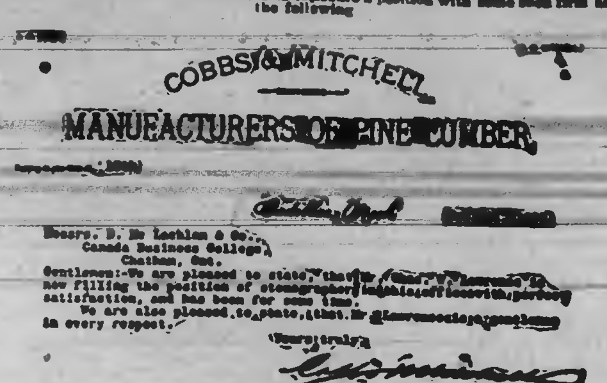
It is pre-digested and ready for immediate assimilation. It is also thoroughly cooked at the factory, and therefore ready for instant service. Grape-Nuts can be digested by a child in arms, and is appreciated by the athlete because of its flavor and strength. Sold by all first-class grocers, and made by Postum Cereal Co., Ltd. at their factories in Battle Creek.

WHEN YOU ARE A GRADUATE FROM

THE Canada Business College.

CHATHAM, ONT.

It means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL

MANUFACTURERS OF PINE LUMBER

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.
Gentlemen:-We are pleased to state, that Mr [illegible] Lawrence is now filling the position of stenographer [illegible] with perfect satisfaction, and has been for some time.
We are also pleased to state that Mr [illegible] gentleman in every respect.
Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they see him.

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for [illegible] for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address

FROF. J. H. DESILBERG, OPTICIAN, SPECIALIST.

The Burleigh Falls Development.

Says the Lindsay Post—Mr. J. Alex. Culverwell is in town to-day, having returned from New York last week to Peterborough. He was accompanied, both in New York and Peterborough, by Mr. Eugene Coste, M. E., late mining Engineer to the Geological survey of Canada, and director of the Provincial Natural Gas and Fuel Company, which supplies gas to Buffalo from Canada.

Their trip to New York was an entire success to the arrangement of details of the financing and development of the Burleigh Falls power enterprise by the banking house who have undertaken the deal. Mr. Coste will take an important position on the directorate of the new company, which is applying for incorporation under the name of "The Central Ontario Power Co.," the matter being in the hands of Mr. R. J. McLaughlin, of Lindsay, the local director and solicitor of the company. Mr. Culverwell has been successful in having all the larger Lindsay contracts for power extended so as to enable the company to fulfill the terms upon completion of construction.

The Catholic Literary Association passed a resolution of condolence on the death of Mr. Patrick Begley.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,

LORD METHUEN WAS SLIGHTLY WOUNDED IN LAST ENGAGEMENT

And in Consequence May be Compelled to Temporarily Abandon Personal Direction of the Movements.

LADYSMITH IS ONCE MORE BOMBARDED.

Lancers Attack Boers at Weenan—General Joubert Believed to to be Either Sick or Wounded—News From Kimberley The New Army Division to Embark at Once.

LONDON, Dec. 1.—Beyond the report from Estcourt that firing was heard in the direction of Ladysmith on Monday. There is not a shred of news of any kind from the seat of war. A semi-official statement has been issued that Lord Methuen's wound is not serious, and that he is expected to be all right in the course of a few days. It is certain, however that the wound will prevent his being in the saddle and there is great anxiety to know whether he will be compelled temporarily to abandon the personal direction of affairs. His next in command is Col. Colville commanding the Guards brigade. He has a reputation as an excellent officer. As men are needed in all directions Lord Wolseley's announcement that a new division will be embarked without delay, has been received with the greatest satisfaction. The transports will soon be returning from the Cape and it is hoped that the next will be despatched speedily. On this point the Morning Post says; The sooner we can make up our minds as to the magnitude of the work on hand, the sooner it will be accomplished. Lieut. Stopford's death ends a most promising career. He was the officer mainly responsible for working out the details of the mobilization scheme.

LADYSMITH BOMBARDED.

London, Dec. 1.—The Times publishes the following despatch from Freere, Natal, dated Monday, Nov. 27, "Ladysmith was heavily bombarded to-day."

AMERICAN FRIENDSHIP.

London, Nov. 30.—The annual thanksgiving banquet of the American society in London was attended by 275 guests and was marked by the enthusiastic demonstration of friendship for England in the war against the Boers. A striking speech by Ambassador Choate along that line and the presence of the uniformed nurses and doctors of the American hospital ship Maine were the features of the occasion.

NEWS FROM KIMBERLEY.

Kimberley, Friday, Nov. 24.—By way of Klokfontein. Nov. 27.—There were a few rifle shots early to-day from the direction of Wright's Farm, but this was regarded as merely one of the numerous Boer tricks to draw our men out by inducing us to believe that the relieving forces are drawing near. This afternoon the Boers blew up two large culverts near the rifle butts on the railway line towards Spyfontein. The news of the proximity of the relieving force greatly cheers the garrison and the inhabitants. A few Boers were seen to-day, but it is believed that the enemy is only in small bands around Kimberley in lots of fifty or so, the greater part having gone to Spyfontein, where firing is believed to have been heard about noon.

From Kaffir sources comes a report that there are two large Boer laagers at Olyfants Dam, with 150 wagons for water supplies. The Boers have cut the existing dam three miles distant, allowing the water to run down towards their laager into an old dry dam on the farm. This is believed to be the Free State base of operations on the western border. The official estimate places the number of Boer shells fired during the bombardment of Kimberley at about 1,000, and ours at no fewer than 600. As the enemy's shells so often hit soft sandy ground the explosive effect is greatly neutralized.

All our wounded are in a very satisfactory condition.

An armored train proceeded towards Drenfield to reconnoitre, but this immediately roused the enemy's cordite guns and the train returned, after the fifth shell had been fired. The Boers are firing on the reservoir from Wimbleton.

METHUEN WOUNDED.

London, Nov. 30.—It is officially announced that General Methuen was among those wounded at the battle of Modder River.

COMMENTS ON CHAMBERLAIN'S SPEECH.

London Dec. 1.—Commenting on Chamberlain's speech of yesterday the Daily Mail says—"Once more Mr. Chamberlain has acted as interpreter for the nation. The new alliance of England, the United States and Germany, with possibly Japan thrown in and Austria and Italy in the background, is something to make those foul mouthed Parisians shiver. If they cannot cease their insults their colonies will be taken from them and given to Germany and Italy. England has no quarrel with the present French Government, but how long will it stand against the machinations of Dr. Leyds and the general staff who are deliberately seeking to make an Anglo-French war."

The Graphic says—"This country will be glad to hear that its relations with the United States and Germany are so cordial and of so close a character as to justify Mr. Chamberlain speaking of an understanding amounting to a new triple alliance."

THE SITUATION REVIEWED

London, Nov. 30.—Authentic news from Ladysmith, covering the period from Nov. 9th to 25th, has at last been received and affords ground for the deepest satisfaction. General Butler reports to the War Office that Mitchell, a telegrapher, succeeded in passing the Boer lines around White's position during the night of Saturday last and reached Weenen, some twenty-five miles to the southeast, having evidently made a detour to avoid approaching the railway, where the enemy is, of course, congregated in large numbers. The story of Mitchell's escape from the beleagured town will doubtless furnish food for some future war story. The message he sent from Weenen to the commander-in-chief does not confirm the stories of desperate encounters previously received by "Kaffirgram." General White defeated the Boers with great loss on Nov. 9th, and for 16 days was left severely alone, the burghers having probably come to the conclusion that Ladysmith could not be taken, and that the better course would be to employ their energy in resisting the relieving column by operations to the south. Gen. White's losses during the seige are remarkably small and are anything but complimentary to the Boer gunners—only eight British soldiers have been killed by the enemy's shells during an intermitten bombardment of about four weeks, and in the numerous skirmishes which have taken place around his camp not more than a hundred men of General White's division have lost their lives.

To this news is added an official statement from the War Office, to the effect that the early relief of Ladysmith is imment, so that the Boers have not long to remain in Natal. The fact that Mitchell sent a despatch from Weenen to his commander, is valuable as a piece of news, inasmuch as it indicates that this town, which lies almost on a level with Frere, occupied by General Hildyard, is not in any danger from the Boers, who have doubtless recrossed the Tugela in the course of their concentration for the defence of that river. Hence it may reasonably be inferred that Natal, south of the Tugela is practically clear of the burgher forces.

General White has had, perhaps the most difficult task a British general has had these fifty years to fulfil. He has for six weeks kept at bay a force three times as great as his own. Not only has he done this, but he has caused Joubert to draw his scattered cohorts into such a position that his chief may at the smallest sacrifice of life, meet them when the time comes with greatly superior numbers on ground not of their own choosing. It is certain that by his rigorous and active defence of Ladysmith, he has held the greater part of the Boer force in check, while General Buller was making the necessary preparations for the campaign on the eastern and southern borders of the Orange Free State.

Hence, the statement that he is shortly to be relieved, creates especial pleasure.

The Boers have certainly not accomplished much, considering the great superiority in numbers and mobility with which they commenced the campaign. They have failed in their attempt upon Mafeking and Kimberley and on the northern border of Cape Colony have only succeeded in capturing a few isolated posts of mounted police, and in blowing up some bridges, which will retard the British operations. True, they have occupied a large part of Natal, but their honors are barren ones. At Glencoe their faulty leading caused them to bring about an encounter before their forces were concentrated. They failed alike to pursue General Yule in his retreat or to interrupt it by occupying the difficult pass near Helpmakaar along his line of march. For all these weeks General White has held them in check and they have done nothing of military importance. Their opportunity for taking the defensive is gone, and they have now become the attacked instead of the attacking party—a distinct loss. On the whole it appears that the burghers have not had any strong hand to guide them in their campaign, for they have not acted boldly or with alacrity.

RELIEF OF LADSMITH AT HAND.

London, Nov. 30.—The War Office today reiterate that they have received absolutely nothing to indicate the slightest likelihood of Ladysmith surrendering, while, on the other hand, tehy expect th eplace will be relieved shortly.

VEIL LIFTED FROM LADYSMITH.

London, Nov. 30.—The War Office today makes public the followind despatch from the officer commanding at Cape Town, under date of Nov. 29; "Kimberley all well to Nov. 23. Rail and telegraph open to Modder River. Gatacre reports, Nov. 28, that the situation is unchanged."

The War Office has received the following despatch from General Buller, dated Pietermaritzburg, Wednesday, Nov. 29:—

"Mitchell, a telegraphist, has just made his way out of Ladysmith to Weenen, whence he sends the following message:

"On Nov. 9 we beat back the Boers, with great loss to the enemy. Our total casualties were remarkably small. There were only eight men killed during the siege by shells, and in all the battles only a hundred men have been killed."

"I left Ladysmith the night of Nov. 25. Since Nov. 9 no attempt has been made to attack Ladysmith in force."

LORD METHUEN'S SPEECH.

London, Nov. 30.—Although telegraph and railroad communication is open with Modder River, no further news of Gen. Methuen's movements or the big fight was given out up to 2.30 this afternoon. This is generally taken to indicate that General Methuen is again on the march and that as heretofore, he will not again be heard from until he has fought another battle and gained another stage. That the General anticipated dogged resistance on his northward march is shown by the speech which he delivered to his troops Nov. 27 after the battle of Graspan, reports of which have just arrived here. After reading a telgram from Governor Milner, congratulating the troops and sympathizing with the wounded. General Methuen personally congratulated the troops on the work done, and expressed appreciation of the manner in which they had endured the hardships. The work, he said, was the most severe encountered by the British army for many a long day. They had in front of them, he added, an enemy to whom they could not afford to give a single point. Their tactics had been excellent and he recognised and admired their courage. Continuing, Gen. Methuen said that when called upon to fight for his country he preferred to fight a foe worthy of his steel rather than savages whose sole recommendation was bravery

Dastardly Conduct.

He then expressed the hope that he and his men had gained each other's confidence and would all do their duty to their country as Englishmen should. General Methuen also described as "dastardly" the conduct of the Boers in firing on ambulance wagons, the shooting of a British officer by a wounded Boer, and the Boer's use of dum-dum bullets. But he refused to believe that these acts were characteristic of the Boers. He gave them credit, until convinced to the contrary, that they, like the British, wished to fight fair and square.

Those who are acquainted with Gen. Methuen think his terse description of the battle of Modder River forecasts "a fearful butcher's bill."

ENORMOUS BOER LOSSES.

Orange River, Monday, Nov. 27.—Boer prisoners here report that the number of Boers killed at Belmont is believed to have been 150 and at Enslin, Graspan 400

Among the prisoners are several with enormous red crosses on their sleeves. It is reported that they fought with the artillery.

BOERS ARE NERVOUS.

London, Nov. 30.—A despatch from Cape Town, dated Monday, Nov. 27, gives reports of the nervousness of the Boers of the Orange Free State border. Some of the Boe rforces it is added, have been hurriedly withdrawn from Ladygrey and Barclay East.

LANCERS ATTACK THE BOERS.

Estcourt, Monday, Nov. 27.—The 13th Lancers are reported to have attacked Piet Retrief's force at Weenen and to have inflicted great loss on the Boers.

General Hildyard's troops bivouacked yesterday at Frere. Two Boers were captured. One of them, a doctor, entered the British camp under the belief that it was a Boer bivouac.

General Joubert is reported to have retreated to Solenso yesterday by way of Chieveley. He travelled in an omnibus drawn by six horses.

Two Estcourt trains arrived at Frere yesterday evening. There is great rejoicing at the reopening of the line.

Boer prisoners report that General Hildyard's night attack with cold steel paralyzed the burghers, whose loss was thirty killed and over a hundred wounded.

THREE KILLED, EIGHT WOUNDED.

London, Nov. 30.—The War Office has received from the general commanding at Cape Town the following—

Received from Modder River, Nov. 30.—Killed—Staff Col. H. P. Northcutt, 2nd Coldstreams; Lieut.-Col. H. R. Stopford, Captain S. Earle.

Wounded—Artillery, Major W. Lindsay, Captain Farrell, Lieut. Dunlop, Lieut. Fuge. Third Artillery—Major Count Gleichen, Lieut. the Hon. E. H. Lygon. Coldstreams—Lieut. Viscount Acheson. Medical Corps—G. A. Moore.

The casualties among the officers of the Ninth Brigade and the men of the division will follow.

SAILORS TERRIBLE CHARGE.

London, Nov. 29.—Additional details of the fight at Enslin (Graspan) on Saturday were received to-day from the Orange River. When the Naval Brigade started there was no sign of the enemy. Shell fire had apparently driven them back, but there was a sudden and rude awakening. When the naval men were within two or three hundred yards of the enemy's lines they were met by one blast of fire right round a kopje. The fire was so murderous that no troops could live in it, and the men fell back for a few moments under cover.

The charge resounded, and then the men rushed to the foot of the kopje. What this run was will be realized when it it stated that the shower of bullets striking the ground gave the appearance of a raging sandstorm. There was an instant's pause at the foot of the kopje, and then with a wild rush the men rushed up the hill. The Boers could not stand this charge, and the few who held their ground were killed. The majority fled, after the guns had been removed, at a smart trot.

Every officer but two of the Naval Brigade was killed. How the Boers lay low under defences during the terrible shelling is regarded as a marvel by the military men here. Though the Boers suddenly retired, their retreat was not by any means a rout.

Methuen's force is constantly harassed by sharpshooters.

WHERE IT WAS FOUGHT.

New York, Nov. 30.—Cabling to the Tribune, I. N. Ford says—"A South African describes the scene of the battle to me as a particularly favorable one for Boer tactics. He had crossed the river when it was a mere dribble, and again when it was broad and deep. The northern bank, he said, was much higher than the opposite one, and, unlike most African water courses, there were trees and brushwood on each side. It was not a rocky country, but otherwise the Boers had chosen an admirable position for defence, and had made excellent use of it.

One of Lord Roberts Men.

Major-General Pole Carew, who was reported by General Methuen as having effected the crossing of the Modder river under exceptionally difficult circumstances, is an old-time Oxford athelete, and a former member of Parliament. He was one of Lord Roberts' men in India, served in the Afghan campaign, and has won medals for bravery and brilliant exploits in several wars. His friends describe him as one of the most intrepid men in the army. He has been private secretary to Lord Lytton and Sir Hercules Robinson, and is one of the personal friends of the Duke of Connaught.

Methuen Will be Popular.

It cannot be doubted that General Methuen, if he reaches Kimberley, without reverse, will be the most popular soldier of the war. Critics may complain that he neglects the advantage of manoeuvering power, and neither takes guns nor many prisoners, but his bulldog method of fighting is British, is easily understood and is liked. He knows South Africa well, for he commanded Methuen's Horse in Bechuanaland, but he fights without reference to defensive positions or disadvantages on the ground, attacking every time in front and marching forward the next day.

WHY FOSTER GOES.

Details of Charges Against the Warden of Dorchester Penitentiary.

Ottawa, Nov. 30.—Commissioner E.N. Bell, who was appointed to investigate the affairs of Dorchester, N.B., Penitentiary, forwarded his report to the Government some time ago. Mr. Bell was appointed a year ago to make investigations, and the outcome of it has been to produce evidence, which has been established by proof, to make one wonder why the warden has been left so long undisturbed in his position.

The commissioner's report shows that for years past the warden has been using convict labor in such a way as made him unfit to be an officer of the crown. Convicts were employed in his barns, and around his residence

Cattle were exchanged and sold by him in such a way as to make the transactions a source of profit to himself.

The guards and prisoners worked his farm, and certain dyking which he had placed around his own lands was charged to the Government, when it ought not to have been done.

Inferior horses and cattle were taken from the warden's own farm and given to the penitentiary for superior animals.

In a somewhat similar way did he deal with the produce which came from his own farm.

The whole story of the management of the institution, while not revealing such a deplorable state of affairs as existed at St. Vincent de Paul prior to the investigation there, has been such as to necessitate the removal of Warden Foster. It is understood that he will be replaced by Lieut.-Col. J. Angus Kirk, ex-M.P. for Guysborough who is well known in Ottawa, having made many friends here while attending to his sessional duties.

MANITOBA ELECTIONS.

A Contest in Every Constituency—Several Three Cornered Fights.

Winnipeg, Nov. 30.—Nominations for the Manitoba Provincial general election, which take place on Thursday, December 7, were held to-day. There will be a contest in every constituency. In three, namely, Cypress, Emerson and Mountain, there is a third, or independent, candidate.

At present the contest in Winnipeg looks favorable to the Opposition candidate in the north division, and it is anybody's fight in the centre and south. At the last general election the Greenway party had eight acclamations.

A mishap has occurred in Turtle Mountain constituency, which may throw the election over for a week later. Standrod may also go over owing to a mistake. This may make four elections, including Dauphin and Gimlie, in doubtful constituences for later dates. Independents and Conservatives do not relish this postponement.

NEWS OF IRELAND.

Why He Vanished—Wants a Divorce.

Montreal, Nov. 30.—It now looks as if the mystery surrounding the sudden disappearance in this city of Dr. W. Ireland, who was supposed to have slipped over the wharf into the St. Lawrence on the evening of October 10, 1898, will be cleared up.

It is stated that a letter has been received from Ireland, from a town in Michigan, by a lawyer at Trenton, his former home, stating that he is practising his profession there under the name of Dr. H. H. Gray.

He stated that his object in disappearing was to get clear of his wife and that he will now seek divorce from her. He states in his letter that his object in writing to Trenton is to prevent Mrs. Ireland from recovering any insurance he had, and for which he understood suit was to be taken.

Mrs. Ireland is at present residing with an aunt, Mrs. Garvie at London, Ont., while his mother is making her home with his sister Mrs. E. L. White recently married and residing in Toronto

New Postmaster.

Ottawa, Nov. 30.—The appointment of Beausoleil, M.P., as Postmaster of Montreal may be looked for soon.

THAT GERMAN ALLIANCE

Is a Natural One Whether it is on Paper or Only an Understanding.

SPEECH BY CHAMBERLAIN.

Broad Hint to Franhe and a Declaration Regarding Britain's Strength.

Mr. Chamberlain Says Great Britain Owes Lord Salisbury a Debt of Gratitude for the Great Improvement in the Country's Position.

London, Nov. 30.—Mr. Joseph Chamberlain, in a speech at a luncheon at Leicester to-day, said that ever since the great split in the Liberal party he had found himself a mark for the slanders and misrepresentations of the "baser sort of politicians." But, he added, he had found compensation in the generous appreciation of the majority of his countrymen.

Continuing, Mr. Chamberlain said he was deeply gratified that the foreign relations of Great Britain were so satisfactory, and he asserted that the country owed a debt of gratitude to Lord Salisbury for the great improvement in Great Britain's position. It was especially gratifying, he pointed out, to note the friendly relations existing between the Anglo-Saxon branches, saying that the understanding between the United States and Great Britain was indeed a guarantee of the peace of the world.

This statement was greeted with loud cheers.

It was of the utmost importance, Mr. Chamberlain further remarked, that Great Britain should not remain isolated in Europe and her natural alliance was with the German empire. They had had difficulties with Germany, but their interests and sentiments were the same, and an understanding between the Teutonic and Anglo-Saxon races might do more than any combination of armies to preserve the peace of the world.

The world, he asserted, was not governed entirely by interest. Sentiment was one of the greatest factors.

A Hint to France.

Referring to the attacks of the foreign press, Mr. Chamberlain said these newspapers had not even spared the "almost sacred person of the Queen." This, continued the speaker, provoked natural indignation, "which may have serious consequences, if our neighbors do not mend their ways."

An outburst of cheering greeted this threat of the Colonial Secretary. It was a matter for congratulation. Mr. Chamberlain afterwards asserted that the worst of these "disgraceful attacks" did not appear in the German papers. A new alliance between the Teutonic race and great branches of the Anglo-Saxons, would, said the Secretary, be a potent influence in the future of the world.

As Good as an Alliance.

The speaker explained that he used the word "alliance" but he added that it mattered little whether they had an alliance committed to paper or "an understanding which existed in the minds of the statesmen of the respective countries."

A determination in every case to look for favorable motives upon the part of those with whom friendship was desired would be an enormous advantage to both the nations concerned and others.

HUTTON IN TROUBLE.

An Announcement of His That Stirred Up a Little Military Dust.

Ottawa, Nov. 30.—Up to noon to-day the Militia Department had received no official intimation of the arrival of the Sardinian. The only notification received was through the Allan Company.

Major-General Hutton has landed himself in a nice snarl with the authorities of the Militia Department, through his styling Lieut.-Col. Stone the senior lieutenant-colonel in Canada.

The General, having instituted the Daily Orders as his official organ, issued twice weekly, has been in the habit of putting in them exactly what he liked, without let or hindrance. In these he gave Lieut.-Col. Stone seniority over all the lieutenant-colonels in the Canadian militia. This has given offence from Halifax to Vancouver, as Lieut.-Col. Stone's commission only bears date 25th May last.

The General defends his action on the ground that Lieut.-Col. Stone holds Imperial rank, but the authorities hold that inasmuch as Colonel Stone only holds Imperial rank as a major and requires a Canadian commission before he can exercise any function in the Canadian militia the General's argument does not hold water. The Imperial army list merely gives him as a major, in 1898, and adds in a distinct column, "a lieutenant-colonel in the Canadian militia." A brief on the case is being prepared for submission to the Department of Justice. Meantime it has been ordered that the General shall not continue to issue his periodical orders without censorship, and they will have to be submitted to the Minister before being promulgated.

Ottawa, Nov. 30.—The Minister of Justice has received the report of the evidence in the case of Hilda Blake, the Brandon murderess, condemned to death on December 27th, and a report thereon is being prepared.

To Connect With the C.P.R.

Ottawa, Nov. 30.—Colonel James McNaught, of New York, came here yesterday in company with ex-Senator Warren Miller, of the United States. Colonel McNaught is interested in the construction of the Great Northern Railway, which is to connect with the Canada Atlantic at Hawkesbury, and from an independent line for the Booth system from Parry Sound to Quebec. Col. McNaught says the track work will be finished in 60 days. The road will be ready for traffic by the first of June.

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

WHY BRITAIN IS AT WAR.

When people ask you why Britain is fighting in the Transvaal can you answer them? If not, read the concise statement of the case as forcibly put by the Newcastle Chronicle as to why she is fighting. Here it is:—

"The issue has been mystified by carping critics and jealous partisans, but it is very simple.

"We are fighting to prevent men of British blood from being treated as 'helots' on British territory by a sordid oligarchy which British arms saved from extinction and British generosity endowed with autonomy.

"We are at war for the purpose of preventing our brethern in South Africa from being taxed without representation; from being placed under the control of courts whose judges take their orders from a corrupt Executive; from being refused the right to carry arms while their oppressors flourish theirs with insolent brutality; from being compelled to contribute to schools in which English is treated as a foreign tongue; in short, from being denied the elementary rights of *self-government* in territory undoubtedly British.

"We ask no privilege for ourselves that we would not give to the Boers, but we will not submit to be ostracized and domineered over in our own dominions.

"We cherish no revengeful feelings.

"The British flag is the herald of mercy as well as might.

"But we will have justice for our countrymen and control of our own Empire, come what may."

THE CHURCH AND THE PEOPLE.

The complaint is common that church life does not grip the affections. There is a tremendous energy going to waste in all our churches. The world gets it; frivolity claims it; the church might have it if she understood. The church is too self-contained; she believes she has a clear-cut creed which is not to be departed from, however the world may think or act; if the people will not identify themselves heart and soul with certain operations which are chilling in the officialism, then so much the worse for the people. In our large cities the church could be a tremendous power. Of a truth, she does something (we speak of the church in a general way). She has a vast deal of machinery; she has her societies and guilds, and yet she has missed the secret of making church work supremely attractive to the young. The church is still unwilling to acknowledge human nature. She has frowned upon the romance, the poetry of the fresh young heart. She asks for subscriptions to a formula; she has been fatally unwilling to make average human nature subserve her ends. In every centre there is abundant material, which only waits to be yoked to service, but which shrinks from the crucifixion of the ardent nature which bloodless forms and organizations seem to demand. In every church you find a small band of workers—admirable persons, doubtless, who, however, present the idea of duty—persons whose sympathies seem to be withdrawn from the world of breathing men and women. They walk the streets with an inward look; they have banished the world from hearts which must no longer yield to the joys of earth. The great mass of young people are unmagnetized by the church. They are living their lives their own way. They are wasting energies which, properly directed, might transform the community. Were the church wise, all this could be employed with saving effect. The church can only justify its existance by entering into the life that [illegible] the streets, in the stores and office. If the church is a place for prayer on the Sunday merely, it may have a certain æsthetic value; it can never be a living force, vitally affecting the life in all its relations. Human nature—even what is called orthodoxy called unregenerate human nature—has something of the divine in it. The love of life, of human joys, comes from heaven. The affections of the heart are divinely inspired. Human love has the smile of God. Laughter and recreation and happiness are as natural as sunlight. Let the church come to human nature as she finds it. Let her live with it and love it, and laugh and weep with it. How fatal it is to frown and lift the virtuous skirt! Let the church sanctify the common life. Let her acknowledge that there is something of heaven in every human creature. And instead of ignoring common joys and common experiences, which thus seem to be forced to make [illegible], let her, by love and understanding and sympathy, so draw the world that the life of the latter will be, all unconsciously transformed, and men and women, who feel that the church and its doings are nothing to them, will give themselves *to the service of others*, under wise inspiration, with results which, in every community, would mean an incalculably higher level of spiritual apprehension and attainment. Let the church, as by a divine compulsion, draw the heart when it is young and fresh, and the problem of the lapsed masses will be solved.

A MASTER OF TATICS.

An interesting feature of the present campaign in South Africa will be afforded by the presence of Major-General C. F. Clery, C.B. in command of the division which will releive Ladysmith and thread the Bloody Angle formed by the Drakenberg mountains and having as its apex the defile of Laing's Nek. General Clery is known to the military world as the author of Clery's Tactics and other text books in use in the military schools and colleges. He was formerly professor of tactics at Sandhurst, and nearly all the younger officers of the British army, including those from the Canadian Royal Military college have been educated in tactics by him or through his text books. The entrance to the Transvaal via Laing's Nek is the one campaign which has so far thwarted the British army during this century and it is fitting that Britain's crack tactican should be put to solve the problem of drivnig those hardy Dutchmen out of their fastnesses. The thousands of young soldiers who have burned the midnight oil over Clery's text books will watch with interest to see if he be as good in example as in precept. If this finished expert in the art of war, at the head of a crack division of troops magnificently trained and equipped regardless of expense, cannot manoeuver a self-taught soldier like old Joubert with a militia army into several kinds of a cocked hat, then the art of war is going to get a black eye.

NOTES AND COMMENTS.

The brilliant victory in the Soudan by Col. Wingate, Kitchiner's lieutenant, finally redeems that country from the baneful power of Mahdism which has held it in thrall since the rise of the False Prophet, in 1882. The Khalifa was his wicked partner and successor. His death removes from earth a tyrnat who has been instrumental in causing an immense amount of human misery. Even the most lenient would find material wherewithal to "speak him fair in death."

HOW THE PRINCE DIED.

Pathetic Description of the Death of Prince Imperial of France.

Louis Napoleon, the young prince Imperial, was killed by Zulus in 1879. Sir Redvers Buller was then Colonel Buller and taking an active part in the Zulu war. When Lieut. Carey, the officer in charge of the little reconnoitering party of which the Prince was a member, returned to Col. Buller's camp and reported the disaster that grim and taciturn warrior only said, with a terrible look at the lieutenant, "How is it that you are alive?"

In this matter there has been a great deal of injustice done Lieut. Carey, who subsequently left the service and died a broken hearted man. The presence of the Prince Imperial with the British forces in the Zulu campaign added a tremendous responsibility to every man in the British camp, and as a matter of fact not one of the British wanted him there. But he was rather self-willed and of exceedingly high rank and unfortunately he had his own way.

The story of the death of the Prince Imperial may prove of some interest at this juncture. It occured just after the fearful massacre of the 24th regiment by the Zulus at Isandhlwana and the gallant defence by the few British of Rorke's drift, when, pending a general advance of the main force under Lord Chelmsford, Colonel Buller was vigorously patrolling the country and preventing the Zulu from concentrating their forces about Ulundi. The country was reported clear of the enemy for twenty miles around. According to Cassell's history, on the morning of June 1 the Prince Imperial received permission to accompany a patrol that was to be sent in advance to choose the site for the camp for the following day. The party consisted of Lieut. Carey, of the 98th., and six troopers. The country seemed deserted, and theydismounted near an empty kraal about noon for lunch. It is said that the Prince had gone a little to one side to sketch, when a friendly Zulu who had come with them ran up to say that the enemy was approaching. The Prince had just shouted "prepare to mount" when the Zulus fired a volley which killed one trooper. There was a helter-skelter rush for the horses and the party [illegible]. It was every man for himself. Some versions say that the Prince's horse was so frightened that he could not mount while others say that defective harness prevented his escape. The horse bolted and the brave young prince turned his face to the foe and was found next day pierced by 18 assegai wounds and stripped of everything except a locket given him by his mother, the Empress Eugenie.

Naturally there was a great outcry over this sad event, and the blame was laid upon many British shoulders. Lord Chelmsford was blamed for allowing him to go to the front, Col. Harrison for allowing him insufficient escort, and Lieutenant Carey for deserting him in the hour of need. But Lord Chelmsford proved that he had distinctly ordered the Prince not to go on a distant reconnaissance without special permission, and that even when engaged about the camp he was to have an escort. These commands were apparently not carried out strictly by Col. Harrison, whose instructions to Lieut. Carey were criticised for not being sufficiently explicit. It is said that he had failed to impress upon the Prince his duty of deferring to the military orders and advice of the officer who accompanied him. Indeed, upon the fatal day the party seems to have been under the impression that the Prince and not Lieut. Carey was in command. But Lieut. Carey's explanation of the disaster was very complete. It showed that he had not ridden from the kraal in a panic but had pulled up behind the donga to wait for the Prince, that it was impossible to see anything owing to the long grass, and that he did not even know that the Prince had failed to mount. Much to the general satisfaction the finding of the court-martial, which had sentenced him to be cashiered on account of "misbehavior before the enemy," was quashed.

The death of the young Prince was a fearful blow to his mother, who was living at Chislehurst, not far from London, where the bones of the ex-Emperor Napoleon III lay, and where the body of the Prince was buried subsequently with military honors and in presence of Queen Victoria. But—though it may seem harsh—many people considered the tragic death of the Prince Imperial a fortunate thing for France. Had he lived his claims to the throne of France would have in all probability occasioned a fierce struggle in the republic.

A MINISTER'S EXPERIENCE.

With a Bridegroom Who Made a Mistake in His wedding Fee.

A New York clergyman tells of a couple who were married by him a long time ago. At the conclusion of the ceremony the bridegroom handed a bill to the minister, who, without glancing at it, put it into his pocket. Upon his arrival at home he found that the bill was $20. He gave it to his wife, and of course the money was judiciously expended for the good of the household.

Some months afterward a man called upon the minister, explained that he had been married by him and asked if the fee tendered had not been a $20 bill. The minister did not at first recognize the man, but on his mentioning the $20 bill recalled the circumstance and said so.

"Well," replied the man, "that explains where that $18 went to. I had a $20 bill and a $2. Of course I meant to give the $2 to you, and gave you the $20 bill by mistake."

The minister was somewhat taken aback, but he returned the bridegroom $18 at once and tried to dismiss the matter from his mind. A few days later the man returned.

"I've been thinking over matters," he said, "and I think you ought to pay me interest on that $18. Its only a few cents, of course, but you've had the use of the money several months, and you ought to pay the interest."

The audacity and imprudence of the man so amazed the clergyman that he at once wrote out a check for the interest demanded. The cancelled check was secured at the bank by the clergyman and framed. Until he removed from this city the check hung on his library wall, a relic of a most amusing experience.

Most fascinating invention. Always ready to entertain. It requires no skill to operate it and reproduces the music of bands, orchestras, vocalists, or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is famed as Headquarters of The World for Talking Machines and Talking Machine Supplies. Write for catalogue.

CURTAIN RAISERS.

A new comedy called "Wheels Within Wheels" is expected to go the rounds.

Robert Drouet will play John Storm in "The Christian" with Miss Allen next season.

"Annie Rooney" is undergoing a revival in Paris to the temporary eclipsing of Dreyfus.

Richard Mansfield is reputed to have taken out a life insurance policy for $100,000 recently.

David Belasco has completed an original play which will be produced early in the season with a specially selected company.

An elaborate revival of Shakespeare's tragedy of "Macbeth" will be the feature of Frederick Warde's repertory next season.

It is unofficially announced that Rudyard Kipling is to write the fairy play to be produced at the London Lyceum next season.

Some German statistician has discovered that stage dancing is conducive to longevity. Taglioni lived to be 80 and Fanny Elsler to be 74.

Rose Coghlan has been re-engaged for her original role of "Mlle. Fifi" for next season, the piece to open its tour in August in Chicago.

Emma Calve's much talked of monument represents her as Ophelia, and the sculptor has promised to exhibit it at the Paris exposition.

Minnie Seligman will appear in the vaudeville houses in a one act play called "Therese," which has been done in Europe by Sarah Bernhardt.

In a play called "Wine, Women and Song," recently produced at the Princess theater, London, two demimondanes, armed with butchers' knives, fight to the death in a beautiful setting profusely decorated with flowers.

George Bernard Shaw submitted his new play, "Cæsar and Cleopatra," to Richard Mansfield, but as Shaw had required a 56-year-old baldheaded Cæsar to make love to a 16-year-old Cleopatra the manuscript was returned.

BEE BUZZES.

Beeswax is dark because of the impurities mixed with it.

All excess of drone comb should be removed from the hive.

Bees start to work earlier if the hives face the south or east.

It is essential during hot weather that the hives be well ventilated.

Avoid blowing your breath among the bees while handling the comb.

Dirt and filth accumulating on the bottom boards make a propagating place for the moths.

Bees reared in the spring and summer are shorter lived than those reared later in the season.

The swarming season usually begins about 10 or 20 days after white clover comes into bloom.

Bees will enter a cool hive much more readily than one which had been baked in the hot sun all day.

Honey properly kept will improve with age. The older it is the better it will be but it must be kept dry.

All bees should be examined now and the hives thoroughly cleaned. No trash of any kind should be left on the bottom boards.—St. Louis Republic.

Where the Pot of Gold is Buried.

How many women are fretting and struggling along on a very little money when a good sized yard or adjoining patch of ground is going to waste! Yet that very piece of ground may contain all sorts of possibilities—clothes, furniture, books, medicines, luxuries and even necessities otherwise impossible.

Clear, plow, fertilize and plant. This done the great beginning is made, and perseverance and attention will secure the rest. Onions, tomatoes, cabbages, celery, a small poultry farm, a violet or rose farm—any one of these may add several hundred dollars to one's purse every year. Small fruits, hops, tuberoses and grapes are also very profitable. With some intelligence a blooming garden can always be made a paying one. Make it a principle to have no more waste in the garden than in the kitchen.

If there is only a very small place and just enough raised for one's own family, try, after the table is supplied, to prepare what vegetables and fruits are left over for sale for winter use. There is always a demand for good homemade canning and preserving. Do not let a valuable scrap of ground be idle.—Annette Halliday-Antona in Woman's Home Companion.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return as much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

BOMBARDMENT OF VIGAN.

What the U. S. Sailors and Marines Have Been Doing in the Philippines.

Manila, Nov. 29.—A despatch from the Associated Press correspondent at Namacpacan, Province of Union, dated Sunday, November 26, says:—

The Oregon, Samara and Callao with 160 bluejackets and marines from the Oregon, captured the port of Vigan, Province of South Ilocos, north of here to-day. The Samara and Callao ran close in shore, a few shots were fired, and then the three vessels engaged in a sharp bombardment of Vigan. The firing from the shore ceased almost immediately, and the sailors and marines, with a field piece, were landed.

It is reported that 1,700 insurgents under Generals Tino and Pilar are massed at Tagudin, 10 miles north, and it has been concluded to wait at Namacpacan for the rest of the reinforcements.

The American military force was still at Namacpacan Sunday, but a move north was expected to take place Monday.

Manila, Nov. 29.—By courier from the mountains to Dayamban, Province of Pangasinan—The fight in which Col. Bell defeated and scattered the rebel brigades of General Salejandrino and San Miguel, took place on the summit of the mountains, west of Mangalaren, forming the divide between the Dagupan valley and the ocean.

At daylight, Nov. 28 troops emerged from a timbered canon upon the divide running into the rebels' advance guard who retreated to the main body before shooting. Col. Bell, who was in advance with the scouts and one company, had the rebels in full route before the main body of his troops arrived, and they fled down the mountains to the swamps between Mangalaren and Aguinas, leaving ten dead and many wounded and abandoning two Nordenfeldts, one two-inch Krupp, one Maxim and one Hotchkiss. They were chased through the swamps and thoroughly dispersed. Col. Bell captured all their artillery, supplies and clothing many Mausers and Remingtons, some American Winchesters, and a thousand rounds of ammunition. Arms and impedimenta were abandoned in the rebels' retreat and were scattered along their trail for two miles, the enemy escaping empty handed, with the exception of a few rifles.

The women and children in shacks of the camp had no time to escape. Col. Ruscar, chief of the arsenal, and a few other prisoners were taken. The rebels had artillery trained to command the regular trail from Mangalaren, but Col. Bell approached from the opposite direction. The rebels are estimated to have numbered 2,000 men with some English, Japanese and four Spanish officers.

When Aguinaldo passed through Namacpacan all his talk was in favor of continuing the war. He is believed to be hiding in Abra Province.

Kaiser Says Farewell.

Portsmouth, Nov. 29.—The Imperial German yacht Hohenzollern, with the Emperor and Empress of Germany and their party on board, left here for Flushing at 7.30 a. m. As she passed the British battleship Sans Pareil, the port admiral's flagship, a royal salute was fired, the band on board the battleship playing the German National Anthem, and the band of the Hohenzollern replying with the British National Anthem.

Wants Good Hay Only.

Ottawa, Nov. 29.—Prof. Robertson, Dominion Commissioner of Dairying and Agriculture, was seen this forenoon in regard to a story from Boston that the steamer Montauk, which is chartered to go to South Africa with Canadian hay, was under demurrage there to the extent of $125 per day to the Canadian Government because the hay was not ready for shipment. Mr. Robertson, who will leave for Boston to-night, said that the Dominion Government was merely acting for the Imperial authorities and a cable was received at the Department this morning from the War Office expressing satisfaction with the arrangements which had been made. What the War Office is most concerned in is to get good hay, and Mr. Robertson is determined that nothing else will be shipped.

VIVID · HEALTH

Nothing as rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is—vivid health. Many a man has paid the forfeit of robustness to the gain of wealth. A loaded purse cannot atone for the deranged liver, the altering step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO

Stimulants and Purgatives can not cure you, but The GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evident sickness tells of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries fuel and strength to every tissue, and gives back health where once lurked death. For sale from all druggists

ORMOND & WALSH PETEBOROUGH AGENTS

From Anticosti to Manitoba.

Quebec, Nov. 29.—Rev. Dr. Griffith, of this city; Mr. Mills, of Toronto, and Mr. J. A. Cannon, advocate, returned to town yesterday from the Island of Anticosti, where they went to investigate the difficulty between Mr. Menier and the Fox Bay settlers, and to try and reach a settlement between all interested parties. Owing to the severity of the weather and a snowstorm they were forced to take refuge at Esquimault Point on Wednesday, and to remain there till Friday. They reached Fox Bay, Anticosti Island Friday night, and passed the whole day Saturday in conference with the settlers. Their mission was successful. They all speak in the highest terms of the skill displayed by Captain May of the Constance.

The Gun Club will hold a trap practice at three o'clock sharp to-day.

F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor at Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment. This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

LATEST MINING NEWS.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as $62.50.

Write for maps and full particulars.

H. R. MANN.
601 Riverside Ave.
Spokane, Wash.

Here Are Some Snaps.

I will sell below quoted stocks at prices quoted, subject to change at any time. They are all first-class propositions, all in operation, some will ship soon.

30,000 shares of Lost Lode (Republic) Gold, 1-4 mile from Republic Mine, part of Town site of Republic on.at—7 1-2 per share.

25,000 shares of Eclipse Con. M. & M. Co., lead and silver, in Cœur d' Aline Mining District 2; $10,000 worth of work done, R.R. through the property—5 cents per share.

25,000 shares of Noonday stock, Republic, gold, 20 foot ledge, adjoins Republic No. 2; and close to Golden Harvest,—3 cents per share.

25,000 shares of Great Western, south half Colville Reservation, lead and silver, fine showing,—5c. per share.

25,000 shares of Honest Johns M. Co., lead and silver, almost a shipper, will ship in less than sixty days, 2 1-2 miles from R.R. station, 8 feet of ore —15c per share.

25,000 shares of British American Gold Syndicate Development Co. The par value of this stock is $5,—$1 per share.

25,000 shares of Golden Crown Con. M. & M. Co., Idaho Gold Fields. A mill will be erected soon, gold,—7 1-2 cents per share.

35,000 shares of Jean Monitor, Republic, almost adjoins the Republic,—7 1-2 per share

There is no chance to take, and there is the greatest possibility of reward to buy any one of the above stocks. Address.

Jumped His Bail.

Montreal, Nov. 29.—When the case of Ferdinand Lemieux, ex-accountant of the defunct Ville Marie Bank, was called this morning before Judge Wurtele, Lemieux was not on hand, and his bail bonds of $20,000 were declared forfeited, and a bench warrant issued for his arrest. This was the second trial in the series against the officials of the bank, charged with issuing a false statement of the affairs of the bank to the Dominion Governemt.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

EUGENE FIELD AND TABOR.

How the Humorist Made Life a Burden For the Millionaire.

"Up to middle age the late Senator Tabor's life was one of great hardship," said a former resident of the Silver State, "and when he suddenly became fabulously rich he plunged into luxuries like a starving man wading into a banquet. One of his early freaks was the purchase of several magnificent lace nightrobes which cost $100 apiece and which he kept locked up in a safe during the day. Eugene Field was editor of the Denver Tribune at the time, and those lace nightrobes made him simply hysterical. He wrote column upon column about them, describing the garments in detail, with numerous diagrams depicting sections fore and aft. The diagrams were hideous affairs, which Field carved out himself with a penknife on the back of old wood type. He used to describe how Tabor would forget the combination of the safe and sit up, shivering and naked, half the night trying to remember the right figures.

"Altogether he kept Denver in a roar for weeks and made Tabor so wild that one day he rushed into his office, snatched the unfortunate nightrobes out of their compartment and tore them to threads. 'There, now!' he exclaimed, wiping his forehead and kicking the tattered fragments into a corner, 'I hope that fool will be satisfied. I'll be hanged if I ain't going to get a gunny sack,' he continued, 'cut some holes in the end for my head and arms, and then sleep in it for the rest of my life!'

"When Tabor was appointed to the senate to fill an unexpired term of exactly 30 days, Field broke loose again and had all kinds of fun with the old man. He declared that Tabor opposed the tariff bill on the ground that it encouraged lawlessness in the west. 'I don't know this tariff bill,' he reported the senator as saying in a speech, 'but we have entirely too many of 'em out where I live. There's Wild Bill and Pecos Bill and Billy the Kid—all no good. If you let Tariff Bill have everything to do with the custom house he is liable to steal the Atlantic ocean.' Many of the honest frontier folk took these flights of fancy seriously, and drove Tabor nearly distracted by long letters of remonstrance, urging him to read up and get posted, so as not to disgrace the state.

"At the expiration of the senator's brief term he circulated an autograph album among his fellow members, and the incident tickled Field immensely. He gave what purported to be a copy of the 'sentiments' inscribed in the volume by the different statesmen—such things as 'When this you see, remember me, Roscoe Conkling,' and 'Sure as the moss grows 'round a stump you are my darling sugar lump—I mean chump—George F. Hoar,' and similar nonsense, all of which maddened his victim.

"I think 'Gene Field was the only man Tabor never forgave, for in spite of his gaunt, forbidding exterior, the miner magnate was as tender hearted as a girl. He was really full of sterling qualities, and in his proper sphere he would have been anything but grotesque. One thing is sure—if every fellow he helped in secret would have joined his funeral procession he would have gone to his grave like an emperor of old."

THE NEW YORK WORLD,
THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism — "America's Greatest Newspaper," as it has been justly termed —The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

Mr. Fielding Satisfied.

Halifax, Nov. 29.—Hon. W. S. Fielding was banqueted by the Liberals of Pictou last night. Replying to a flattering address the Minister of Finance among other things said—"We have recently closed the third year of Liberal administration. The accounts have been made up, and though the blue book of the department has not yet been issued, the principal results have already been given to the public, and instead of the deficit predicted by our opponents, we have the pleasure of announcing the magnificant surplus of $[illegible].

"Startling Information."

London, Nov. 30.—The Daily Chronicle this morning publishing what it calls "startling information," says — 'Russia has decided to establish a permenent diplomatic agency in Cabul next spring. The Ameer's consent has been obtained, and pour parlers have been exchanged between Count Muravff and Great Britain, who is not likely to oppose the step."

Mr. Tarte Indisposed.

Ottawa, Nov. 29.—Owing to indisposition arising from his recent severe illness and operation, Hon. J. I. Tarte has to-day been reluctantly obliged to cancel his engagement to attend the St. Andrew's Society banquet at London, Ont., to-morrow.

Five properties, to wit: **Houlton, M. & C., Princess No. 1, Mabee** and **Gilford,** owned by the Company, situated only 1,000 feet from Nelson & Fort Sheppard Railroad at

Erie, in Ymir, Nelson Mining Districts, British Columbia

Over 250 feet development work done, work now in progress and to continue through to the Winter. Our manager writes that with 25 feet extension of our tunnel he expects to strike the thick ore vein, when preparations will be made to ship ore.

Following are some of the essays had from this property: $12.95, $29.65, $154.03, $9.05, $14.27 $64.86, $11.50, $68.11, $9.33 and $155.48. The last essay giving $85.78 gold, $42.55 copper and $10.50 silver balance lead.

COST OF FREIGHT AND SMELTING ONLY $6.00

There is still a portion of the last authorized sale of the Treasury stock that can be had AT ONLY 5c PER SHARE.

For further particulars apply to

RUFUS MERRIAM, Secretary.
224 Mohawk Building, Spokane, Washington.

They Keep Moving.

The religion of a Bedouin tribe seems to be to "move onward." Having once begun the nomadic life, it becomes almost necessary for them to keep it up. In the first place, they don't want to settle down, and they wouldn't have any place to stop if they wanted to. Sometimes it becomes expedient that they make great haste in these long journeys. Wandering around over the plains are other tribes whose only occupation is "moving on." There is frequently enmity between two of these Arabian families, and should one pursue the other it behooves the pursued to hasten onward with all the speed their animals are capable of. Or it may be that the springs of water are so widely separated that hard travel is necessary to make the distance from one to the other in a day.

When either of these contingencies arises, they cook and eat while on the march. They don't eat much. Two or three dinners such as American boys and girls are used to every day and something extra for Sundays and company are supposed not to agree with Bedouin children's stomachs. When on the road, bread is their chief food. This is baked while riding. One woman will mix the coarse flour which is carried in a sack on the back of her camel, another will roll and shape the dough, which is brought to her in small quantities, and a third will make a fire in an earthen vessel and attend to the baking. Women or boys on foot run along from one cook to the other and carry the material, and when the feast is ready they distribute it among the various members of the tribe

Having killed the Khalifa, Kitchener might now take the Kairo-Khartum route to Kimberley, relieve Kekewich, and put the Kibosh on Kruger. Everything then would be O. K.

Two Legitimate Mining Propositions

The Great Western Mining Co.

Property situated on the south half of the Colville Indian Reservation, good wagon road to property from railroad. Lead and Silver, 3 claims deeded to company, ledge shows entire length of claims, the ore shute on the surface, when work is in progress, shows 35 feet by 100 feet in length average assay of 25 tons of ore now on dump gives 51 per cent in lead and 55 oz. in silver. this property will without doubt be a shipper before spring, share in this property can be had of at per share the par value.

The Noonday Mining Co.

Property situated about 2½ claim lenghts from the great Republic Mine Republic Wash right in the belt, ledge 20 feet wide, assay from $3.20 to $12.00 in gold, work now in progress on cross cut tunnel at present in about 30 feet. Share in this property can be had at 3c per share. Maps on prospectus can be had at Company office and for application for stock and other information. Address.

SPOKANE, WASH.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
152 YONGE STREET, TORONTO

A Big Sale of Republic Stocks

THE FAIRFAX CO., OF REPUBLIC, J. J. Brown, Pres., Willis Menaine Treas., after securing the Jim. Hill claim ajoining it on the north, sampled the ledge and W. H. Stowell reports on this cropping $16 [illegible] in gold, immediately upon the result becoming known in Republic, a Mining Supt., through our agent there, Tom. Angel, negotiated the purchase of $1,000 worth of Treasurer's stock, the company has authorized me to place a small amount of this stock at 5cts. Remember the Fairfax and Jim. Hill are less than 800 feet from the Mountain Lion, which is now $1.00 per share, and is an investment at that. The Fairfax at 5½ cts., is a speculation. Work is to be pushed.

THE WAR SITUATION AT A GLANCE

IN NATAL.

LADYSMITH—In British hands. British hold their own. Unconfirmed reports of a successful sortie by Gen. White's force.

COLENSO—In the hands of the enemy, who have destroyed the big bridge over the Tugela River.

WEENEN—Between Colenso and Escourt occupied by the enemy as a base of action to thwart the advance of the relieving column.

ESCOURT—Cut off from communication since Tuesday noon, with Boers swarming in the south. Gen. Hildyard's force besieged and unable to move until Gen. Clery advances from the south.

HOWICK—The enemy is in force in this district and is attacking Gen. Barton's camp.

MOOI RIVER—All communication with the North has been cut off.

PIETERMARITZBURG—The headquarters of Gen. Clery's column, which is weak of cavalry and artillery. No news received to-day from the country north of here.

IN CAPE COLONY.

CAPE TOWN—Embarkation of troops continues here. The military authorities have given permission to the Canadian contingent on its arrival to march through the city, which will be beautifully decorated, and the day will be observed as a holiday.

DE AAR JUNCTION—British force under command of Gen. French moving to the [illegible] of Colesberg.

COLESBERG—Occupied by Boers on November 16, and now menaced by a joint British movement.

QUEENSTOWN—General Gatacre in command of the column, assembled to advance on Bloemfontein, will co-operate with Gen. French in a movement on Colesberg.

STORMBERG—Occupied by Boers.

ALIWAL NORTH—Occupied by Boers.

NAAUWPOORT—Re-occupied by British.

BURGHERSDORP—Occupied by Boers on November 14.

STEYNSBURG—Occupied by Boers on November 20.

NORVAL'S PONT—In hands of Boers.

BELMONT—About midway between Orange River and Kimberley—Lord Methune attacked and captured the Boer position here on Thursday morning with the loss of 39 killed and 156 wounded. "The victory is complete."

BECHUANALAND.

MAFEKING—Baden Powell's garrison continues to hold its own; all was well up to Nov. 15, but the besieged are suffering considerably.

GRIQUALAND, WEST.

KIMBERLEY—Official reports are all well up to Nov. 17. The fighting of late has not been serious.

PERSONAL.

BULLER—Officially reported to have left Cape Town for Natal.

WHITE—Still holding Ladysmith.

BADEN-POWELL—Holding Mafeking.

JOUBERT—In command of Boers in Natal, presumably below Estcourt.

CRONJE—In command of Boers at Mafeking.

RHODES—In Kimberley.

WOLFE-MURRAY—In command at Peitermaritzburg.

MILNER—In Cape Town.

METHUNE—In command of column for the relief of Kimberley, and responsible for a Boer defeat at Belmont.

MEYER—In command of a Free State force besieging Ladysmith.

CLERY—In command of Ladysmith relief column at Estcourt.

GATACRE—At Queenstown in command of column to advance on Bloemfontein.

FRENCH—In command at DE AAR.

BARTON—In command of British camp at Mooi river, now being attacked by Boers.

HILDYARD—In command of British graison at Estcourt.

WHERE THE FIGHTING IS.

Topography and Climate of the County of the Boers—How They Affect the Campaign.

In the earlier part of this century the region which has become the theatre of a new war was practically a blank upon the map. It was inhabited by native races, chiefly Basutos, but in part dominated by the Zulus, and remained for some time unknown to the white man. But in the fourth decade of the century the Boer began to make his way towards and across the Vaal, and by 1837 had reached what is now known as the Transvaal, or South African Republic, the Orange Free State being occupied by another detachment of Dutch inhabitants of the Cape Colony, who had left their homes in order to find a country where they would have a freer hand in treating the natives as slaves. The two States, now allied against us, are separated by no more important barrier than the Vaal River, and in physical geography are practically one region. The outside bears a very rude resemblance to the profile of a flat-nosed monkey looking towards the west. Natal cuts off the Orange River Free State from the Indian Ocean, Zululand and Portuguese East Africa do the same for the Transvaal. Both states have British territory on the west, which also forms the northern boundary of the one and the southern of the other. The valley of the Limpopo constitutes the northern limit of the Transvaal, a richly wooded and luxuriant region, but one ill-suited for military operations, as it is very malarious, and parts of the neighborhood are haunted by the worst of scourges, the tetse fly.

The most striking feature of the region, and its principal natural defence, lies on the eastern side. Here the country is distinctly mountainous. In fact, the two States might be described as a vast upland plateau, bordered on one side by a group of mountain ranges. These run through a considerable part of South Africa northward from the Cape. At the extreme south they lie far back, the Little and the Great Karoo forming, as it were, steps in the ascent from the sea to the inmost range. This, called further north the Drakenberg, is in some sort of relation with the coast of Southern and Eastern Africa, for in the former part it has an almost west and east trend, and then sweeps gradually round towards the northeast, dying away beyond the Limpopo. It passes through Natal, affording some fine scenery in Basutoland, the Switzerland of South Africa, where its summits are occasionally about 11,000 feet above sea level, and there separates Natal from the eastern part of the Orange River Free State; then enters the Transvaal, having lastly Portuguese East Africa between it and the ocean. In the northern part geographers divide this chain of hills the Drakenberg proper, a larger and a loftier massif, for even in the Transvaal it rises about 8,000 feet in elevation, and an outer one, the Libomba range—much lower, for it only attains some 2,000 feet—which overlooks the hot and rather malarious costal plains.

The scenery of the Drakenberg north of the granite region of Basutoland is not particularly imposing, especially on the Transvaal side, for there the plateau itself is often quite 4,000 feet above sea level. The mountains are rounded, or, at most, tabular in outline, consisting largely of stratified rock, sandstone and shale, which lie in almost horizontal beds, but capped occasionally by sheets of basaltic rocks probably fragments of ancient lava flows, which have preserved the softer masses beneath from denudation. Cliffs now and again offer some striking variations in the scenery; but as a whole, it is rather monotonous. Majuba Hill, of evil memory, has just such a structure as we have mentioned—alternately sandstone and shale, capped with igneous rock; and the adjoining ridge to which it sinks down is Laing's Nek, over which the road to the Transvaal from Natal once ran, and which is now pierced by the railway. But such is the elevation of the surrounding district that Laing's Nek, though only 5,500 feet above sea level, is only above 800 feet above its base, Majuba Hill overtopping it by about twice as much.

The mountain barrier once passed, we enter the great South African plateau, of which the Transvaal and the Orange River Free State are the eastern portion, for it extends to the west far away beyond both. On this side, indeed, the frontier line between them and our own territory is largely artifical, the one almost everywhere lies open to attack from the other. Thus Mafeking, near the border of the one, and Kimberley, near that of the other, are, we know, liable, unless adequately protected, to be rushed by strong bands of raiders. In the Transvaal three regions are recognised—the Bush Veldt in the north, which is not very likely to play any part in the present campaign; the Baken Veldt, lying east of the Drakenberg, which also may probably be excluded, and the Hooge Veldt, forming the major part of the republic. From one side to the other the principal outlines of the scenery are the same, broad undulating plains, rising sometimes into hills, now low and rounded—now craggy, but of no great elevation—the kopjes—the sandstone rock of which sometimes assumes strange forms. These plains are furrowed here and there by valleys, in many of which the streams run dry in the winter season. They flow on the one side to the Limpopo, on the other to the Vaal River. Pretori itself stands in a valley commanded by low hills, now crowned with batteries, behind which rise some of greater elevation. The stream from the capital flows north, so that the waterhed between the Limpopo and the Vaal is a comparatively unimportant rock region—the Witwatersrand, near Johannesburg. In scenery the Orange River State is not very different from the Transvaal—an upland plateau, perhaps rather less interrupted, a little better watered, and much of it from four to five thousand feet above sea level. Thus as has been well remarked, a journey of 200 miles in Western Europe would afford a greater variety of scenes than twice that distance in the Transvaal; but the clear air produces fine effects of color.

The climate of the High Velt and the region south of the Vaal river in most places is very healthy. Though these correspond roughly in latitude with Lower Egypt, the heat of summer is mitigated by their much greater elevation, and the winters are rather cold—the winds being very keen, and snow falling on the slopes of the Drakenberg. The air for most of the year is clear and bracing, but the summers are hot—at Pretoria the January temperature being given as 90 degrees, or even 95 degrees, the winter as 40 degrees. But the summer is also the rainy season; storms, with thunder and hail are frequently severe floods occasionally occur, as at Pretoria, in January 1891; and the rains which begin in October last intermittently till April, almost the whole fall taking place during these months. The quantity varies. It amounts to about thirty inches a year at Pretoria, increases toward the east, reaching a maximum in the mountain region, and decreases westward in the direction of the Great Kalahari Desert—a barren and dry land—so that on the frontier it is about twelve inches. Such a climate, obviously, is not favorably to the growth of timber, except in the lowlands by rivers. Thus, in both States, anything bigger than bushes is not often seen on the veldt; but this frequently supports an abundant herbage. This in the winter becomes dry and brown. But the fresh blades spring up with the first rains.

Had it not been for the discovery of minerals, especially gold, in the Witwatersrand around Johannesburg, the Transvaal would no doubt have remained a pastoral country, like many inland parts of Australia. It has to be farmed very much in the same way. Large game of many kinds and antelopes were once abundant, but they are so no longer. As the pasturage is scanty for half the year, the farms are necessarily large, for the stock sometimes must be driven to long distances in search of fodder. The Veldt is essentially a pastoral district, though where irrigation is possible, garden and other produce may be readily obtained; but the greater part is not good for fruit, or even for corn, though in one district the latter does well, and in another fair tobacco can be grown. Thus both States are thinly peopled, the number amounting in the Transvaal to an average of seven to the square mile, and of only four in the Orange Free State—the latter figure, as the influx of miners has been much smaller, giving a better idea of the general distribution. Thus, neither country, once entered, will offer any serious obstacle to the movement of troops. There may sometimes be difficulties about water, and as the cattle will probably be driven away, the commissariat department will not be easily replenished from the surrounding district. On certain routes the kopjes may shelter "snipers," but otherwise the physical features of the country should not present any serious difficulties to an army advancing in force, especially with light artillery.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

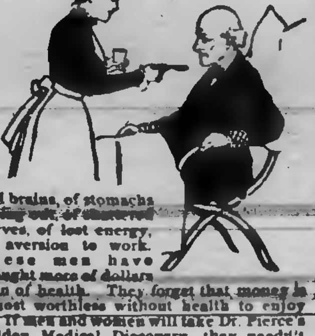
PREMATURELY OLD.

A man ought not to *feel* old, or to *be* old until well up towards the nineties, but now-a-days you don't see many such men. Instead, you hear people no older than 40 or 45 who begin to complain of tired backs



and brains, of stomachs giving out, of shattered nerves, of lost energy, of aversion to work. These men have thought more of dollars than of health. They forget that money is almost worthless without health to enjoy it. If men and women will take Dr. Pierce's Golden Medical Discovery, they needn't worry much about old age. The years will go by, but they won't show it. This medicine makes digestion perfect, and changes a disordered stomach into a healthy one that works as Nature intended. It regulates the liver, enriches the blood and tones the nerves. It prevents consumption by curing bronchitis, lingering coughs and bleeding lungs. The "Discovery" contains no alcohol; no false or uncertain stimulus; the power it gives is the power of Nature: deep, genuine and lasting. It does not create a craving for stimulants. In serious cases of sickness, Dr. R. V. Pierce, Buffalo, N. Y., will give free advice and counsel to those who write him.

"The reason I delayed writing was because I wanted to wait *one year* after I had taken the medicine before giving my statement, and now I can send a good, conscientious testimonial," writes Chas. H. Sergeant, of Plain City, Madison Co., Ohio. "During the summer and fall of 1896 I became all 'run-down,' nerves and stomach were out of order. I wrote to Dr. Pierce for advice. He said I had general debility, and advised Dr. Pierce's Golden Medical Discovery, and I used six bottles. Since I stopped taking it about one year ago, I have not taken any medicine of any kind, and have been able to work every day. My appetite is good, I can eat three square meals a day, and I do not feel that miserable burning in the stomach after eating."

TOWN AND COUNTY NEWS

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

Next Year's Council.

The Times will, in order to stir up interest in municipal matters, open a voting contest for mayor and council in a few days, similar to what was done by us last year. We hope to have a great deal of interest aroused before the day of nomination, with the result that plenty of good men will consent to take a turn at the helm of the civic ship.

A Dead Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10¾. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

Belleville's New Industry.

The growing time at Belleville has been signalized by the establishment of the Abbot Mitchell rolling mill in that city. The description of the new industry shows that it is thoroughly equipped for the production of rolled bars, spikes, nails, horseshoes, etc. It is expected that from 175 to 200 men will be employed, and about sixty tons of finished iron can be produced per day.

Holiday Books.

If you are looking for bargains in books come to us. Have just received a choice lot of books, handsomely bound as follows: Cloth with artistic stampings in colored inks and gold; English Vellum English silk-ribbed cloth; uniform cloth; also a choice lot of embossed padded leather covers. The books are just what you will be looking for for Xmas pesents. Come early and get first choice. Times Bookstore.

Municipal Committees.

The Finance Committee met last night. A statement of accounts for the month of November, was gone into and certified to. Mr T E Bradburn complained of being assessed for too much frontage in connection with his arcade property, for sewerage purposes, and the matter was referred to Town Solicitor Edwards. The Legal Committee will meet this afternoon at five o'clock.

THE HOCKEY CLUB SMOKER

Was Well Attended and a Financial Success.

The Hockey smoking concert last night was a huge success, Bradburn's Opera House being filled with a good natured audience loudly applauded each member on the programme, the talent was purely local with one exception Mr William Breen, of Toronto, who is sojourning in Peterborough for a short time as Mr Chris Graham's trainer. Mr Breen, with two solos and a recitation, was very well received and made himself very popular with the audience.

Mr Teddy Andrews, in his baton swinging was good and at some time in the future he may make his debut as a professional and rank with the best of them.

Mr Sam Hollihan, in buck and wing dancing was well received, Mr Alex Smith contributed severel solos during the evening in a very acceptable manner, his rendition of "Soldiers of the Queen" stirred up the patriotic feelings of the audience who heartily joined in the chorus.

A three round bout between Thos Raymond better known as "The Glommer" and Eddie Graham, was declared a draw.

The star attraction of the evening was the three round contest between Chris Graham and his trainer Billy Breen, this was a scientific go, both boys showing that they knew all the tricks of the manly art, they both were as quick as lighthiog and showed some very clever work with perhaps Chris a shade the quicker on his feet, the bout was declared a draw, which decision seemed to please the audience.

A wrestling bout in which George Gauthier and Jack McDonough participated was also declared a draw neither party gaining a fall.

The proceeds of the concert netted a handsome sum which will augument the funds of the Hockey Club.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your, health, the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and home-made. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.
Established 1893. Phone 303.

SUCCESSFUL HIGH TEA

And Lecture by the Rev. Provost Welsh, M.A. at All Saints'.

The ladies of the congregation of All Saints' Church gave a large tea in the lecture room of the church from 5 to 7.45 yesterday evening, which was followed by a very interesting lecture by Rev Provost Welsh, M.A. of Toronto, on "John Bunvan," and a choice programme of vocal instrumental music in which the following ladies and gentlemen took part: Mr and Mrs Parker, Miss Rackham and Mrs Seward, and Miss Barton.

At the conclusion of the entertainment a vote of thanks was tendered the lecturer. A very large number of people patronized the affair, which was a decided success in every way.

SATURDAY BARGAINS.

The Port Hope Knitting Works' famous 2 and 1 all wool, extra heavy Stockings, with double heel and toe will be on sale on Saturday for 19c. These hose are much superior to the usual 25c quality. Be sure and see them. Ask for trading stamps.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

Boy Wanted.

The Times requires a smart boy for night work, to set headings and run messages. Short hours and fair pay. Apply in evening to night foreman, in daytime to Times Bookstore.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

THE MACFARLANE WILSON CO.
LIMITED

China Hall and Silver Bazaar.

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 168 Hunter St.; from Wednesday, Dec. 13th to Saturday Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

OUR SPORTING COLUMN.

Hockey

It is said that Messrs. Reid and McClennan are to organize a hockey team of "Coal Heavers," the result, doubtless, of last summer's dissipation on the baseball diamond. It is hardly likely that the public will be able to bear the strain of the excitement that will follow, should this proposed combination become a reality. Just now the newspapers are chiefly engaged in manufacturing war news—at least out boiler plate contemporaries are—and the change from the gore of bloody battle to that of hockey would no doubt be too great a strain for the scribes as well as the general reader. It is to be hoped, therefore, that Gen. Buller will have subdued the Boers before the Reid-McClellan club starts to bang all creation.

LITTLE LOCAL LINES.

Everybody reads the Times.

There are a large number of vacant stores in town. Rents should take a drop.

Manvers Township is passing a by-law to aid the Lindsay, Bobcaygeon and Pontypool railway to the extent of $5,000.

The Matthews Company is erecting a four-foot smoke stack one hundred feet high. It will rest on a twenty-four foot brick base.

There is a large amount of poultry being brought in at present by the farmers and the annual slaughter of the herds of swine is going on.

A big social in aid of the Dorcas Society was held at the residence of Mrs Wm. Pilling, 14 Holiver street, on Wednesday evening. A musical programme was provided and an enjoyable evening was spent by about 80 persons.

A prominent farmer told the Times yesterday that the ground has been in prime condition for ploughing the greater part of this month, and more favorable weather for general work on the farm could not be desired. Some farmers are of the opinion that plowing will be done two or three weeks hence.

It may be repeated for the benefit of some that the sale of anything by means of dice, commonly known as a raffle, is not lawful, and any person may be arrested and fined who engage in it. In Toronto on Monday night, a boat house where a raffle for a bicycle was in progress, was surrounded by the police and thirty-five men had to surrender and give an account of themselves the next day in the police court.

PERSONAL.

Dr. John McLean, of Orillia, was in town yesterday.

Miss Fannie McManus is visiting her friends in Cavan.

Mrs. R. E. Wood has gone to Preston Springs for a few weeks.

Miss Mabel Moore is visiting her aunt, Mrs. R. Deyell, at Foweler's Corners.

Hon. J. R. Stratton is taking part in the West Elgin bye-election campaign.

Miss Maggie McCarthy is the guest of her sister, Mrs. S. J. Brown, Lindsay.

Mr. Thos. Fortye's many friends will regret to learn that he is suffering from an attack of typhoid fever.

Alderman James Mahoney, of Niagara Falls, N. Y., is in town for a few days, a guest at the Snowden House.

Mr. and Mrs. Meagher, of Montreal, have been spending a few days in town with the former's sisters, the Misses Meagher.

E. A. Stevens, advance agent for Prof. A. H. Welch, phrenologist, arrived in the city yesterday and is putting up at the Oriental.

Brockville Times—"Stewart Trickey, of Belleville, was in town yesterday seeing his brother, who is seriously ill with typhoid fever."

Port Hope Guide—Miss Winnie Reid, daughter of Mr. G. A. Reid, of Peterborough, returned to her home on Tuesday, having spent a few days in town, the guest of her aunt, Mrs. R. Boundy, Bloomsgrove avenue.

COMMITTED FOR TRIAL.

Henry Williams, One of the Slayers of Varcoe Up for Examination.

Toronto, Nov. 30.—The preliminary investigation against the young man, who gives the name of Henry Williams, on the charge that he murdered J. E. Varcoe on Nov. 8, was begun this morning before Police Magistrate Denison. Crown Attorney Curry conducted the prosecution and T. C. Robinnette the defence. The evidence was taken verbatim by Alexander Downey, official stenographer. The witnesses examined were Allan Varcoe, Frank Armstrong, Noah Thomas, Dr. J. Caven, Police Constable Dickson, Harry Spottiswood, C. H. B. Johnson, Patrol Sergt. Willis and Crown Attorney Curry.

The evidence was a repetition of that already given at the inquests, and the prisoner was committed for trial. The burglary charge is withdrawn for the present and will be laid again if necessary.

Hay Was Musty.

Ottawa, Nov. 30.—Contractor Bloomingdale, of Boston, who is supplying 2,000 tons of pressed hay for shipment by the Canadian Government to South Africa, tried, it is said, to ship some hay on the Montauk, which was musty and unfit for food. He was made to understand that he would be expected to give value for the money he is to receive. A telegram was received from the War Office to-day expressing appreciation of the efforts of the Department of Agriculture to secure a good cargo of hay, and intimating that the home authorities would pay the demurrage.

THE PAVING CONTRACTS.

Continuation of the Evidence of Town Engineer Hay.

On Wednesday afternoon the investigation was resumed.

Mr. John Raper, who was engaged at the town stone crusher, was the first witness. He stated to Mr. Edwards that he kept track of the granite supplied to the contractors during the season by means of a book with stub attached for each load. Tickets from this book were given to the men who drew the granite. To Mr. McWilliams he stated that he was always careful to protect the town's property. He was often present at the yards considerably before the time expected of him as the men would sometimes be waiting there with their wagons to be filled.

Mr. Hay was then put in the box and was asked by Mr. Edwards if he does apply the tests made by him on Stewart St., wherein he found a difference of 1 4-5 cents per sq. ft. between the two methods of work, to the work of the contractors. Mr. Edwards asked if these tests applied definitely and conclusively to the Sheeby and Evans and Langford contracts.

Mr. Dennistoun objected that Mr. Hay had applied them to the contracts and that he should not be put in the box that the evidence that he had given might be discredited.

Mr. Edwards stated that it was fair to ask Mr. Hay if he had inadvertently prejudged the matter or if he considered the tests as final and conclusive and to be used in making the final estimate.

Mr. Hay stated that the test was made with all due precaution but he was not prepared to say that the result was binding in making the final settlement with the contractors. He also stated that he had become rather doubtful as to the liability of that test as from measurements made since he had found the work done since under the inspectors did not demand the amount of granite shown in the test made on Stewart St. 18 ft. of granite and nine of cement as laid at the test on Stewart St. covered 184 sq. ft. and the same quantity as avaraged up from all the work done by Mr. Bartlett covered 174 square feet. Mr. Edwards questioned the witness as to whether he had attempted to form any judgment of the saving to the contractors by the work done but Mr. Dennistoun objected.

Mr. Edwards stated that the counsel for the contractors were anxious to have that calculation of a gain of $740 on each contract stand as Mr. Hay's evidence in order that Mr. Hay's position as arbitrator be not damaged. Mr. Edwards wanted Mr. Hay's capacity as arbitrator to be not damaged in any way.

Mr. Hay stated that he could not say how much should be deducted from the contractors but he was rather doubtful of the estimate made before.

Mr. Edwards stated that there was no need for Mr. Hay to make an estimate. The judge could answer the questions asked by the council regarding the cost from the evidence given showing the quantities of different materials put in the walks.

Mr. McWilliams then cross-examined the witness regarding the figures given by him regarding Mr. Rose's work. Witness stated that the cost of Mr. Rose's work was 14 77-100 cents per sq. ft. on Hunter St., 13 79-100 cents on Park St., 14 71-100 cents on Charlotte St., and 19 1-2 cents on Stewart St., all these figures being arrived at by deducting the foreman's wages and the cost of the tools. The difference in cost of the work on Park St., and that on Stewart St., a difference of 5 or 6 cents, arose from the proportions being changed and to the men becoming more skilled as the work progressed. Proportions of 2 to 1 were used on Stewart St.

Mr. Dennistoun objected that it was not fair to estimate the cost of the work and deduct the cost of all tools, appliances and supervision.

In answer to Mr. McWilliams, Mr. Hay stated that he could not remember when he first learned as to what time he had first learned as to what quanties were being used on Mr. Sheehy's first contract but he remembered that it was while the work was going on between Murray and Brock Sts. on Water Sts. He learned it there from Mr. Ranney. Mr. Ranney said they were using less granite and less cement than the specifications called for.

In comparing the costs of sidewalks depths of excavation and widths of walk should be considered. A narrow sidewalk cost more per sq. ft. than a wide one, the curb being the most expensive part.

Mr. Dumble questioned the witness next bringing out the point that a batch in which sand is used does not cover as much ground as if cement were used instead and that, therefore, more cement would be necessary in doing a contract with sand than if all cement were used, the use of sand being, therefore, not all profit.

It is not fair to test green concrete with a sledge hammer. Sand is used in the making of all concrete.

The investigation adjourned until Friday morning.

Death of Thomas D. Hodgins.

London, Ont., Nov. 30.—Thomas D Hodgins, M.P.P., died of heart failure at eleven o'clock this morning. Mr Hodgins was born at Stradbally, Queen's county, Ireland, in 1837. In 1886 he was elected Mayor of London. In 1898 he was the Conservative candidate for the Legislature from East Middlesex, and was elected. Mr Hodgins was one of the most prominent horse breeders in Canada.

Formal Protest to be Made.

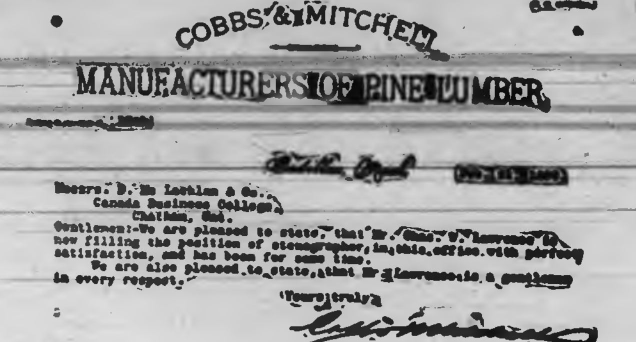
Ottawa, Nov. 30.—The fraternal organizations will not permit the passage of the Government's proposed measure affecting them, without energetic protest. A meeting, attended by representatives of the various organizations, was held last night and opinion was found to be strongly antagonistic to the proposed legislation. A sub-committee will formulate the objections and submit them to the consideration of the Government.

WHEN YOU ARE A GRADUATE FROM

THE Canada Business College

CHATHAM, ONT.

It means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL
MANUFACTURERS OF PINE LUMBER

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

Gentlemen:-We are pleased to state, that Mr. Chas. V. Lawrence is now filling the position of stenographer in this office with perfect satisfaction, and has been for some time.

We are also pleased to state that Mr. Lawrence is a gentleman in every respect.

Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they see him.

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for supplying teachers for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address

D. McLACHLAN, Principal C. B. College, CHATHAM ONT

FROF. J. H. DeSILBERG, OPTICIAN, SPECIALIST.

An Italian Fiend's Deed.

Niagara Falls, Ot., Nov. 30.—Frank Werken, a worthless, drunken and bad tempered Italian, last night went to his home and in an altercation with his wife who is a hard working woman, whom he habitually abused, stabbed her first in the head and then in the neck, causing her death. A boarder living in the house heard the fracas, but did not reach the scene in time to prevent bloodshed. Werken escaped from the house, but was captured by Chief Young and a posse on the upper steel arch bridge. Dr. McGarry, the coroner, was called, and found that the woman's juglar vein was completely severed.

The couple had three grown up children, one son and two daughters, one of the girls being married to an Italian named Frank in this town.

Advance in Coal.

Philadelphia, Nov. 30.—The coal companies of this city have announced that owing to the short supply of anthracite pea coal an advance of 25 cents to 50 cents per ton will be made on December 1. The advance in most cases will be 30 cents. The price of buckwheat coal will be advanced 25 cents.

GRAND CONCERT

St. Paul's Church

FRIDAY, DEC. 8th

Miss Edith J. Miller
Mr. Holmes Cowper
Mr. W. Spence Jones
The Choir

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 11th November, 1899.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

Tenders for Supplies, 1900

The undersigned will receive tenders for supplies up to noon on MONDAY, DEC. 4th, 1899, for the supply of butchers' meat, butter, dairy and creamery, giving the price of each, flour, oatmeal, potatoes, cordwood, etc., for the following institutions during the year 1900, viz —

At the Asylum for the Insane in Toronto, London, Kingston, Hamilton, Mimico, Brockville and Orillia; the Central Prison and Mercer Reformatory, Toronto; the Reformatory for Boys, Penetanguishene; the Institutions for Deaf and Dumb, Belleville, and the Blind at Brantford.

Two sufficient sureties will be required for the due fulfillment of each contract. Specifications and forms of tender can only be had by making application to the bursars of the respective institutions.

N. B.—Tenders are not required for the supply of meat to the asylums in Toronto, London, Kingston, Hamilton and Mimico, nor to the Central Prison and Mercer Reformatory, Toronto.

The lowest or any tender not necessarily accepted.

Newspapers inserting this advertisement without authority from the department will not be paid for it.

R. CHRISTIE, T. F. CHAMBERLAIN, JAMES NOXON, Inspectors of Prisons and Public Charities, Parliament Buildings, Toronto, Nov. 20th, 1899.

THE ABSOLUTE SILENCE OVER OVER AFFAIRS IN SOUTH AFRICA

Causing Murmurs of Dissatisfaction From the British Public, Who Are Being Kept in Painful Suspense.

MAKING PREPARTIONS FOR THE FINAL BLOW.

Both Mehuen and Hildyard Are on the Eve of Striking Hard for the Relief of Kimberley and Ladysmith—Kimberley Co-operate With Gen. Methuen.

LONDON, Dec. 2., 4.30 a.m.—Absolute silence over in South Africa. The War Office has not yet received Lord Methuen's casualty list.

The public spirit of the people, hitherto patient are beginuing to murmur at the apparently needless delay which keeps many families in a state of painful suspense. It is re-garded as practically certain that Lord Methuen has been reinforced by half a battalion of the Gordon Highlanders, a regiment of cavalry,, and a battery of artillery, and that De Aar is being daily reinforced by troops to hold the lines.

It is supposed that the Natal advance has been delayed by the necessity of getting supplies to Pietermaritzburg, but not a word emanates from any of the various commands. Lieut.-Gen. Sir Charles Mansfield Clarke, who as already announced will command the sixth division, has seen much service in South Africa, particularly in the Zulu and subsequent wars. He has also held a number of high staff appointments at home, and is reputed to be a very capable officer.

LADYSMITH AND KIMBERLEY.

London, Dec. 1.—While the rumors of the relief of Kimberley, current on the stock exchange to-day, may be premature in their literal seuce, there seem no doubt that the pressure on the garrison has been much lightened by General Methuen's successes, and the actual relief of the place must, seemingly, be a fact very shortly. A clue to the urgency reasons which dictated General Methuen's hurried march may be found in Governor Milner's hint to the relief Committee at Cape Town to prepare for the reception of 70,000 refugees, indicated that the garrison must have had reasons to fear the reduction of Kimberley by starvation and disease.

The recent news from Kimberley comes by way of Pretoria, and almost seems to show that Kimberley and Mafeking are acting in concert with General Methuen, for at the time the battle was raging at Graspan both Col. Kekewich and Col. Baden-owPell made sorties and assailed the beleaguerers. The result of the Mafeking sorties is not known, but according to a despatch from Pretoria Col Kekewich inflicted considerable loss on the Boers, two shells killing nine and wounding 17 of a group of Boers.

#### Attacking the Rear

It is suggested in some quarters that the Boer forces have been withdrawn from the north of Cape Colony, and may be hurrying to attack Gen Methuen's rear But reinforcements have been pushed rapidly forward from Orange River and De Aar, and it is said they ought to circumvent such designs.

From Lord Wolseley's announcement that it has been decided to call out one more division it appears clear that the War Office does not look for a speedy collapse of Boer resistance The brief telegrams coming from Natal and the central theatre of the war convey little information about the situation. Naauwpoort reports that half the Colesburg Dutch who responded to the Boer summons and for military service have now returned to their homes, so perhaps the serious civil troubles hampering General Gatacre may be lessened and the military operations under his direction will commence.

Hildyard Near Frere.

So far as known the Ladysmith relief force is still at Frere, though the bridge was perhaps sufficiently repaired to permit of its passage November 30, in which case the opposing forces may have already come in contact near Colenso, where apparently the Boers are strongly entrenched on the north side of the river.

A special despatch from Pretoria, dated Sunday, November 26, says there was another sortie from Mafeking on Saturday November 25. On the morning of that day the chartered police attacked Eloff's fort with great determination. The fight was progressing when the despatch was sent.

Several ambulance trains left Mafeking November 25 for the Free State, where heavy fighting was expected during the coming week, when the Boers would resist the advance of the British in the direction of Kimberley.

IN LADYSMITH.

London, Dec. 1.—George W. Steevens, war correspondent of the Daily Mail, in a despatch to that paper covers events in Ladysmith from Nov. 16 to Nov. 20. He says,

The siege is degenerating into a farce. The sole hardship is the monotony.

On Nov. 14 a reconnaissance westward reveale dth efact that the Boers were weak. It is stated that only 4,000 were disclosed.

Our guns silenced the enemy's which re-opened on our retirement, with a loss of one wounded. The Boer loss is reported to have been forty this is probably an exaggeration.

On Nov. 15, at 12.30 o'clock, a dozen shells fell in Ladysmith, and rifel fire was heard. The troops turned out with the exception of one midshipman, who said he had the middle watch, and did not see why he should be awakened. Nothing followed.

On Nov. 17 there was a languid bombardment

The Boers hvae mostly gone south, leaving only a skeleton force remaining.

A few houses have been hit lately. The smoking room of the Royal Hotel has been smashed. The same morning a shell burst under a room in which several officers, including Col. Rhodes, was about to breakfast. A floor plank was blown up and stuck in the ceiling. Nobody was hurt, and the officers were at breakfast five minutes later.

The health of the officers is excellent, though they are fattening from want of exercise.

At 7.30 on the evening of November 18 the Boers fired three rounds from a howitzer. The second shot pierced the roof of the Royal Hotel, ricochetted off a wall, flew out of the front door, and kicked up a paving-stone without bursting. Mr. Stark, a naturalist, who was standing in the doorway, was hurled into the street, and both his legs were torn off. He said; "Look after my cat," and died.

The same afternoon a shell fell among some Gordon Highlanders, who were playing football, and plowed a hole in the ground. The men continued the game, but afterwards, finding that they offered too good a target they substituted mule polo for football

To-day, Nov. 19, there is the usual Sunday truce.

WITH RHODES' COMPLIMENTS

London, Dec. 1.—The Daily Telegraph publishes this despatch from its special correspondent.

Kimberley, Thursday, Nov. 23.—An armored train making a reconnaissance to-day was fired upon by a Boer gun, but no damage was done.

Our artillery replied with shells of the De Beers Company's manufacture, marked "With C. J. Rhode's compliments." Under this fire the enemy fled.

A native who was a prisoner in the Boer camp for a fortnight, and then escaped, states that in the Dronfield fight, besides Commandant Botha, four others were killed on the spot, and two died on the road to Boshof. Many Boers have been killed in recent engagements.

BIG CARGO OF AMMUNITION

London, Dec. 1.—The steamer Karame sailed to-day for South Africa, taking one of the heaviest war cargoes on record. It includes 40,000,000 rounds of small arm ammunition, 7,000 sharpnel shells, 4,000 lyddite shell-s, 815 boxes of fuses, 40 boxes of pistol ammunition, and a large number of star shells for discovering the enemy's position at night, and for signalling. Each of these shells contains six magnesium light stars which burn for 14 seconds, and seven stars, which burns for 34 to 36 seconds.

DRIVEN FROM COLENSO BRIDGE.

London, Dec. 1.—A special despatch received here to-day from Frere, dated Nov. 28, says that, while attempting to blow up a 500-foot bridge over the river at Colenso, the Boers were driven back by the British arwere driven back by the British artillery and mounted infantry.

AUSTRIA WILL BE NEUTRAL.

Vienna, Dec. 1.—Replying to the addresses of the Presidents of Hungarian and Austrian delegations to-day, Emperor Francis Joseph referred with emotion to the "innumerable manifestations of devotion to himself and the imperial house." in which the peoples of the monarchy had united with himself in deep sorrow at the death of the Empress.

His Majesty said the relations of the monarchy with the powers continued friendly and appeared to justify confidance that they would not be disturbed. The continuance of the peace of Europe was the surest guarantee, and this was afforded by the "undisturbed existence of the close and trustful relationship with our allies."

A further guarantee of peace was the harmonious co-operation of all the civilized States at the Hague conference, originated on the magnanimous initiative of the Czar, which had imparted fresh and increased hopes to those recognizing the need of peace throughout the world.

The Emperor also referred to the friendly relations with Russia in regard to the Balkans and alluding to the Transvaal said—"We have resolved to observe the strictest neutrality and can only wish the conflict was approaching an early conclusion."

After saying that the demands of the War Department was confined to the most urgent requirements, the Emperor concluded with an appeal to the patriotism of the delegations and assured them they were heartily welcome.

NEWS FROM MAFEKING.

London, Nov. 30.—Col. Baden-Powell, under date of Mafeking Nov. 29, has sent the following to the War Office through Gen. Forestier-Walker at Cape Town—"All well here. Cronje has gone with commando and with about twenty wagons to Riecsters, Transvaal, leaving most of the guns here with the Marico and Lichtenberg contingents, with orders to shell us into submission. Bombardment and sniping continue with very small results.

"The enemy's sentries drew us out Saturday by making a show of going away and leaving a big gun apparently in a state of being dismantled. Our scouts found the enemy hidden in force. So we sat tight.

"The enemy's 94-pounder became damaged and has been replaced by another more efficient. I am daily pushing out our advance work, with good effect. The health of the garrison is good. No casualities to report."

ALL ARRIVED SAFELY.

Ottawa, Nov. 30.—The Militia Department this afternoon received a cablegram from Lord Strathcona as follows—"Am informed S.S. Sardinian has reached Cape Town safely."

This contradicts the rumor that one of the contingent had died.

Ottawa, Nov. 30.—A second cablegram received from Lord Strathcona at 4 o'clock says—

"All well on board the Sardinian."

GERMAN ALLIANCE.

What the Papers of Paris Are Saying About Chamberlain's Speech.

Paris, Nov. 1.—Some of the newspapers attach considerable importance to the utterance of Joseph Chamberlain at Leicester yesterday, and consider that they show that Emperor William's visit to England was partially political. The majority, however characterize certain of Mr. Chamberlain's declarations as empty threats and regard the suggestion of an alliance between Great Britain, the United States and Germany as simply eccentric.

The Matin observes that Mr. Chamberlain alludes to the alliance as an accomplished fact and as being his work, and "seizes on the opportunity to address threats to France, which leave us as unmoved as does the famous prospect of a new triple alliance."

The Journal urges the recall of Admiral Fournier's squadron from the Levant, in view of "Eventualities which may result from the present anti-British campaign in France.

Coasting Laws.

Ottawa, Dec. 1.—There was a meeting of the Cabinet yesterday afternoon, when the Government policy in regard to the abrogation of the coasting laws in the great lakes was discussed, but it is understood that nothing definite was decided upon. It is understood that a section of the Cabinet was strongly in favor of introducing legislation to permanently give American boats the priviliges they enjoyed under the much complained of order-in-Council.

Mr. Collingwood Schreiber, Deputy Minister of Railways and Canals, is to-day at Peterborough inspecting the Trent canal.

Smuggling Chinamen.

Albany, N.Y., Dec. 1—When the United States District Court, Judge Cox presiding, convenes in this city in January probably the most interesting case to be tried will be that of the alleged conspirators, all Government employes, who are accused of plotting to aid in the importation of Chinese laborers in this country. Nelson W. Potter, William M. Claminshire and Moy Soy will be charged with conspiring to smuggle Chinese across the Canadian border at $50 a head.

A Peculiar Sect.

Toledo, Ohio, Dec. 1.—Attorney N.J. Harrington has returned from a secluded spot in a wilderness of Texas, where he went to take the deposition of Mrs. Shinabarger, who has begun action against her husband for a division of a farm. Mrs. Shinabarger went to Texas with some fourteen members of a sect known as "roll flyers." They were under the directions of a roll or chart claimed to be sent them from heaven and indicating a particular spot in the wilderness, containing about 200 acres, which is to be the future heaven after the destruction of the world. Here they have erected a rude pine temple. There is a feeling of unrest in the little colony now. One of the members urged that the chart had indicated a place in Oregon. He was promptly cast out, but the other members are commencing to think that he may have been right.

Mr. Tarte to Resign ?

Montreal, Nov. 30.—Rumors in regard to Mr. Tarte's ill-health are again flying around. La Patrie, in referring to Mr. Tarte's inability to attend the London banquet, says that he has been indisposed for some days, and suffers pain in the region of the liver. It is rumored that a dissolution is near at hand, and that Hon. Mr. Tarte will, immediately, retire from the Government, and accept a general commissionership of the Paris Exposition, while Mr. Bernier, M. P., will succeed the Minister of Public Works as Cabinet representative from this district. Those who seem to be well posted declare that this is the real reason of Hon. Mr. Tarte's absence from the London demonstration and that Mr. Bernier will have to look after this part of the province when a general election is called.

Wilhelmina's Husband.

New York, Dec. 1.—A Berlin cable says that after the return of the Kaiser to Berlin a report was spread that Queen Wilhemina of the Netherlands was to be married to Crown Prince William of Germany.

The report says that German diplomats are already speculating on the vast political importance of such a match. It would probably mean the aiding of another country, small yet of powerful influence in the European body politic to the great German Empire. If the Netherlands became a part of Germany it would result in naval advantages such as no country could boast of on the European continent.

AN ASSASSIN'S DEED.

Revolutionary Leader Slain in a Treacherous Manner.

Manila, Dec. 1.—The steamer Salvador, from Zamboanga, Island of Mindano, which has arrived here, brings details of the occupation of the town by Commander Very, of the United States gunboat Castine. The revolutionists in Mindanao were led by Alvrez and Calixto, who left Luzon some time ago and for the last seven months had been stirring up the people and winning a considerable following. The commercial depression and the lack of food resulting from the island's blockade set the people against the revolutionists and culminated in the assassination on Nov. 18 of Calixto a firebrand and the real leader of the revolution, by Midel, Mayor of the town of Tetuan. Midel, under a pretext, secured Calixto's presence in Tetuan, and when Calixto was within a distance of thirty yards from the point where the Mayor's guards were stationed the latter fired a volley, killing Castilo instantly. Midel at once repaired to the Constine and arranged with Commander Very for the occupation of Zamboanga. Commander Very asked that Datto Mundi with 500 of his followers stationed on a neighboring island come to Zamboanga. The following morning Midel raised the American flag over Zamboanga, the insurgents offering no resistance and evacuating the town. The Castine was saluted with 21 guns and Commander Very landed a hundred bluejackets and took possession of the town and of the fortifications. Datto Mundi's men arrived in the afternoon. They were armed with wooden shields and swords and were used on picket duty only.

On the afternoon of Nov. 20, Midel called a meeting of the local chiefs, who formally deposed Alavrez as leader of the revolutionists in the island and electedd Midel president of the insular Govemernt established under American sovereignty and control.

Washington, Dec. 1.—General Otis' advices to the War Department to-day show that the advance into the interior is being vigorously pushed and the American troops continue to drive back and disperse the scattered bands encountered. He states that Captain Warwick, 18th Infantry, was killed in an engagement at Passi, Iloilo province, on the 26th inst.

Morgan's Big Fee.

New York, Dec. 1.—The reported deal between the Pennsylvania Railroad and the Baltimore and Ohio is startlingly significant, says The Press to-day. Several months ago when Mr. Morgan and his chief executive, President Samuel Spencer, were in London in the interest of the Southern Railway, a rumor became current that an arrangement had been made whereby the Baltimore and Ohio would either pass under the control of the Southern or enter into an alliance with it that would seriously embarras the Pennsylvania. One Wall street broker went to the vice-president of one of the systems to make inquiry into the matter, and received a confirmation of the statement. The vice-president was one of his regular customers, and at that time was long of a block of Southern Railway preferred.

It is common knowledge in the street that J. Pierpont Morgan for his fee for reorganizing the Southern Railway, accepted $1,500,000 of the common stock at $9 a share. The highest point reached since was 14 7-8. The Press does not agree with some wiseacres has closed out his Southern common stock. He expects soon to get a great deal more than 14 7-8 for it notwithstanding Pennsylvania and Baltimore and Ohio deal.

Fight With a Burglar.

New York, Dec. 1.—John B. Brooks and his wife, of New Milford, N. J., returned home at two o'clock yesterday morning, after a visit to friends in Hackensack. They found a man in their house ransacking the drawers in their bedroom. The man fled by an open window to the roof of the piazza, where he was caught. Mr. Brooks seized him and dragged him and dragged him into the room, where for several minutes they struggled in the dark.

Mrs. Brooks got a light, and then assisted her husband to bind the robber, who proved to be James Ferguson. He had been in the employ of Mr. Brooks for four days, and had been told that Brooks kept considerable money and jewelery in the house.

When Mr. and Mrs. Brooks reached the house the wife tried to persuade her husband from encountering the robber, whose shadow they saw on the window shade, but when Mr. Brooks declared his intention to protect his property Mrs. Brooks insisted upon aiding him. It was her courage and coolness which finally gave the victory to her husband. When she entered the room with a light Mr. Brooks had Ferguson by the throat and was pummelling him. Mrs. Brooks placed the light on a table and, seizing a chair, went to her husband's assistance. Ferguson then surrendered, Mrs. Brooks assisting in tying him, and he was taken to Hackensack jail.

Ferguson's face was severely cut by a ring on the hand of Mr. Brooks. Mr. Brooks did not escape without damage, as a bone in his right wrist was broken by a blow he struck the burglar.

During the day Mrs. Brooks was visited by many neighbors, who complimented her for her bravery, and she received several floral tokens from unnamed admirers of her conduct.

Protest to France.

London, Dec 1.—The Paris correspondent of the Evening News, telegraphs to his paper to-day there is reason to believe that Sir Edmund J Monson, the British Ambassador of France, will shortly apply for a prolonged leave of absence, as a protest against the attacks made by the French press on Queen Victoria and the Prince of Wales.

Crazy Through Speculation.

New York, Dec. 1.—Samuel Simeon 32 years old, of 1445 First avenue, has become crazy over the losses sustained by reason of the collapse of the Franklyn syndicate. Discouraged by his poor luck in several legitimate investments Simeon gave heed to Miller's promise to pay 520 per cent. per year. Some of his neighbors had entrusted their hard earned savings to the Franklyn syndicate and had received weekly dividends. Simeon put into Miller's hands just before the crash every cent of his money.

SHORT NEWS ITEMS.

Condensed Telegraphic Despatches From All Parts of the World.

DOMINION.

Woodstock may seek incorporation as a city.

Collingwood will grant a bonus of $50,000 to the proposed steel ship yards.

Footpads held up and robbed James Breen, tailor, in Kingston, last night.

Wm. Chisholm, "king of horse thieves," died in jail at Woodstock yesterday.

Capt. George Duff, son of Colonel Duff, of Kingston, left there yesterday on his return to India.

South Essex Conservatives will nominate a candidate for the Commons at Kingsville on Dec. 8.

Detroit police have seized four packing cases of valuables belonging to Mrs. O'Neill, held at Montreal on charges of defrauding Chicago firms.

Liniere Taschereau, ex-M. P., for Beauce will be the Conservative candidate for the Commons in Kamouraska against H. G. Carrol, M. P.

For the first five months of the current year the customs revenue has increased $1,481,172, compared with the corresponding period last year.

Mr. James Watson, a man of over 70 years of age, got lost Wednesday afternoon on the prairie near Gladstone and has not yet been found.

An Ottawa despatch says that Mr. Beausoleil, M. P. for Berthier, will likely be appointed postmaster of Montreal at to-day's meeting of the Cabinet.

Healey and Padden, who robbed the Chinese laundry at Norwich, were sentenced to five and seven months in the Central Prison by the magistrate at Woodstock yesterday. Rawlings was sent to the Reformatory.

While hunting on J. Tackaberry's farm in Tecumseth, about two miles south of Alliston, on Saturday afternoon last, Bernard Heslin, a 14 year old boy, who has been living with his grandmother on the 4th line of Adjala, met with a fatal shooting accident.

UNITED STATES.

It is said that Michael J. Sampson, under arrest in London, England, at the instance of the chief dective of Chicago, is a defaulting ex-auditor of that city.

GENERAL.

The Colombian revolution is spreading.

The Holland-American Line steamer Statendam from New York, is ashore near Rotterdam

The increase in the Austrian budget for the army and navy is said to be due to Emperor William's influence.

Kimball Goes Before a Jury.

Toronto, Dec. 1.—Leander or Manley Kimball, the Victoria street gunsmith, in whose house at 42 Bond street the detectives found 12 pounds of dynamite, several coils of fuse, detorating caps, long tubes used by safe-blowers in putting dynamite behind safe door locks, and in fact, almost a full cracksman's outfit, was to-day sent for trial by Magistrate Denison on a charge of unlawfully having in his possession high explosives.

More Bye-Elections.

Toronto, Dec. 1.—The bye-elections in East Middlesex and West Huron, if bye-elections are necessary, will come on soon after the present series are over. The Liberals are of the opinion that they can carry East Middlesex, though it has been Conservative nearly always. Mr Richard Tooley held the seat with difficulty for a number of years and Mr Hodgins carried the riding by but 96 at the last election. It is understood that the Liberal candidate will be Dr McWilliams and the Conservative candidate may be Mr Thomas Essery. The flag at the Parliament buildings is at half-mast in respect to the late T D Hodgins, M.P.P.

Turner Ministry Defeated.

Melbourne. Dec. 1.—After an all-night session of the Legislative Assembly of Victoria, the Ministry of Sir George Turner was defeated by 11 votes on a resoluton of want of confidence. The Premier has resigned. The Governor, Lord Brassey, has summoned Mr A MacLean, to form a new Ministy.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

Merrimac Lost.

Liverpool, Dec. 1.—Considerable anxiety is felt here in regard to the safety of the British steamer Merrimac, which left Quebec, October 27 for Belfast, and fears are expressed that the vessel has foundered.

A Sudden Death.

Mr W H Bowman, proprietor of the Oxford House, opposite the Canadian Pacific station, died at a few minutes past one this morning. Mr Bowman was in his usual good health until a few days ago and his sudden death will shock his many friends and acquaintances.

NO CENSORSHIP.

Is Giving the News of the Great Cures Effected by South American Nervine.—It Has Saved an Army of Sufferers From the Pangs of Indigestion and Nerve Troubles.

L. M. Holmes, of Parrsboro, N.S., was taken severely ill about a year ago with nervousness and indigestion, and for some time was completely prostrated. He consulted best doctors, but they failed to help him. A newspaper advertisement brough South American Nervine to his notice. He tried it with the result that he was greatly benefitted from the first bottle, and six bottles completely cured him, and he would be pleased to give all details of his case to any persons asking him. Sold by Gransted & Walsh and H. S. McDonald.

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

THE SOLIDITY OF THE EMPIRE.

Canada has made a precedent in spite of the Hon. Mr. Tarte. The Dominion can never be parochial again. Her outlook will more and more broaden. She has identified herself with the ultimate aspiration and design of the empire. She is no longer a detached colony. She is an indivisible and integral portion of the British Empire. What she has done lamely, through governmental indifference (if not worse), she will do gloriously, upon a future occasion. The Dominion shares in the Imperial idea. There is one sentiment throughout the empire, and the Dominion of Canada is vitally concerned with India, with Australia, with South Africa. The Transvaal war has demonstrated the solidarity of the British empire.

WHAT THEY SAID IN ENGLAND.

How the News of the Disaster to General White's Force Was Received on That "Terrible Tuesday."

Sad, and even sombre, before the war office entrance, stood the pensive monument of Sidney Herbert, brooding, with bent, uncovered head, upon the surrender of 2,000 British to the Boers at Ladysmith. From the time of the first published reports of Sir George White's melancholy telegram, visitors were incessant. Ladies tripped down from the steps of innumerable landaus, gentlemen sprang out of hansoms, and turned, with dogged steps as though determined to know the worst, into the grim portal. A constant stream of inquirers flowed in at another doorway, and a crowd of onlookers waxed and waned on the other side of Pall Mall. Now and again a newsvender's voice forced upon unwilling ears "British Disaster! Two thousand men surrendered to the Boers," and one could almost detect a raising of the eyebrows of that silent monument, in mute inquiry.

But only monuments can preserve their composure when news of such purport arrives. The man in the street has a tongue, and he uses it.

"We're a big sight too cocky," says one man, taking the clay pipe from between his teeth. "They know the country, we don't; yet we go prancin' about as if all we had to do was 'up guards an' at 'em!' There will be an alteration in the program now."

A Man of the Dorsets.

Here is a man of the Dorsets. What does he think of the reverse?

"That'll make a better chance for us to get out there," he says, and when told that other three battalions are to be sent to the Cape, "That's all right. We're the first to go, so I'm as good as booked. That's what I wanted. It's a better place than Crete. If I can only get a photo of the hangin' of Kruger, like the hangin' of them Cretans, it'll make a good addition to my gallery. I'm collectin' hangin's like stamps. Kruger would be worth somethin'."

An old lady is wandering about opposite the war office, evidently ill at ease. She wants to know the fate of a certain "Willie," a lieutenant in the Royal Irish Fusiliers.

"I nursed him when he was five months old," says the old lady, with an Irish groan in her tearful voice, "and he was a great favorite with me. I am a soldier's widow myself, and I know what a distressing thing war is. Isn't it dreadful! Poor Willie! His mother wrote me from Ireland on Saturday, and in her letter she said she prayed God night and day to shield her dear boy's head from the Boer bullets."

The Mother's Prayer.

A look down the list of captured officers shows that "Willie" is among them.

"May God be with him!" exclaims the old lady, whose tears are raining through her thick veil. "God protect him, and keep him, poor boy! Isn't it dreadful! Two thousand! Just fancy! His mother will cry her eyes out. His father was a brave soldier, too, and he was killed in battle. But you say Willie's not wounded, only a prisoner? That's bad enough, but, thank God, his mother's prayer has been heard! Willie is not killed!" and the kind old lady goes on her way, relieved to know that her "boy"—he whom she had nursed as a baby—is not hurt, but with a heart bleeding for those who have been.

"One touch of nature makes the whole world kin." The overcoat protecting this old man from the cold only partly hides the ribbons on his breast. He is an old soldier, eking out his slender pension by selling papers.

"What does it mean?" he says. God help me if I ever heard the like of it. What the——" But here he breaks out into a tornado of martial expressions that would shock civilians. "I've bin in a tight corner meself before now, but I'm—well, we was never in a place we didn't get out of."

Suddenly he stands smartly at attention, and makes a military salute to two gentlemen coming along the pavement, one of them on the arm of the other as though in pain.

"Say, Smith," says the limping gentleman, addressing the old soldier as they stop at the corner, "you'll have to shoulder your old musket again, it seems to me."

"An' if I did, colonel, I hope I'd make better use of it than some of our men seem to have done. What's the matter with 'em?"

"I don't know, Smith, I'm sure. They seem to have gone silly," is the reply, as the colonel limps away on the arm of his friend.

An Angry Veteran.

"Now, there you are," says an old soldier, "it 'ud be a blessed hot corner that he'd surrender in. That's my old Colonel, God bless him! I fought in Delhi and other parts durin' the mutiny with him, for eleven year. But we never surrendered. No, no. Surrender? Two thousand. God help me——," and once more his feelings overcame his stock of parliamentary language.

Suppressed excitement is evident everywhere, and everybody is apparently buying all the papers. People withdraw into quieter thoroughfares and into doorways to read the dreadful news. Military pictures and photographs in shop windows are surrounded by crowds, who study the war maps exhibited in the newspaper offices, or discuss the situation. Many of them keep an open mind and blame nobody. "We don't know everything yet, you know. White takes the responsibility, but that only shows his pluck. It's a grand thing!"

A three-medaled commissionaire, another old soldier, says he cannot understand the surrender.

"Somebody has made a mistake," he says. If the men are led properly, they will fight properly."

"And the effect of the disaster on the men?"

"Our men?" he asks, "oh, that will do them no harm. It will do them good. It will probably make them a bit more cautious, and they will fight now like the devil. It would take a great deal more serious blow to dishearten our men. In fact, I tell you, it will improve them in every way. They are British soldiers after all. Somebody has blundered, but not Tommy Atkins. You may depend upon it he will give a good account of himself yet. He only wants the chance, and with Buller at the head. Mark my words!"

And that was how the news of the disaster was received in London on Terrible Tuesday. We feel better today.

THE COUNTRY'S CROPS

How Farm Crops Are Looking throughout the Province.

ARE GENERALLY GOOD.

Interesting Reading for Farmers as well an City People.

Carefully Prepared Report by the Ontario Government Bureau of Agricultural Statistics.

The following is a report of the crop conditions, made to the Ontario Department of Agriculture by a special staff of correspondents—

The Weather.—The most noteworthy feature of the three months period August-October was the heat and drouth of August, the temperature being over three degrees above the average, and the rain-fall only 0.81 inches. This was followed by abundant rain in September and October, the weather of the former month being cooler than usual, while October was four degrees above mean temperature.

Fall Wheat.—The extent to which the fall wheat suffered from winter-killing entailed a considerable decrease in the yield, and later unfavorable conditions have made the falling off greater than was anticipated. The crop has been a poor one in many parts, more especially the west, the grain being light and shrunken owing to over rapid ripening. Rust and chess have occasioned injury in some directions, but there has been a notable absence of insect pests. Reports from the eastern counties are slightly more favorable, although some loss is indicated to grain on low lying lands from heavy summer rain storms. In the northern and north-western portions of the Province the fall wheat has yielded well.

The New Fall Wheat.—Owing no doubt to the unsatisfactory experiences of this season the acreage devoted to fall wheat has been, if anything, somewhat reduced. Reports from many of the western counties indicate a decrease which will be hardly counterbalanced by some increase in the Lake Ontario counties. The time of seeding covers a wider range than usual, owing to the dryness of the ground which induced many farmers to postpone sowing until late in the season in the hope of rain. As usual, most of the work appears to have been done in the earlier half of September, the ground in most localities being in good condition apart from the lack of moisture. The young plants are generally looking well, having received the benefit of later rains, and although somewhat backward in places seem promising, and cover the ground well, having a heavy top. There are few complaints of insect pests, except that Hessian fly, the joint worm and wire worm have done some damage. There is little change in the varieties sown, Dawson's Golden Chaff and Red Clawson retaining their popularity, while the Manchester, Genesee Giant' and Democrat come next on the list.

Spring Wheat.—The same causes which have injuriously affected the fall wheat more especially the dryness of the season and the prevalence of rust, have been felt by the spring wheat crop. In some localities the grain is light, but the general tenor of the reports from those neighborhoods where the crop is still grown is encouraging, and indicate a fair output.

Barley.—There has been an exceedingly good crop of barley in all parts of the Province. The yield is large and excellent in quality, the berry being unusually plump and bright, though in some instances discolored. The crop has suffered but little from parasites, though a few cases of smut and rust are mentioned by correspondents.

Oats.—This has been a particularly fine crop in nearly all localities, the grain being generally full and heavy, and the production per acre in excess of the average. Grasshoppers and smut have wrought some injury in a few neighborhoods, but the principal and most widespread drawback has been rust. The late sown crops have been especially subject to its attacks, and have also been lighter than those planted early in the season.

Rye.—The area devoted to this grain has been exceedingly limited, and the reports of correspondents have been on the whole favorable, indicating a return up to or slightly above the average.

Peas.—The pea weevil or "bug", as it is popularly termed, has wrought much havoc with this crop, but for which the crop would have been above the average, as reports from localities which are free from the pest are mainly favorable. There has also been some damage from excessive rains. Peas appear to have done considerably better in the eastern counties than elsewhere.

Buckwheat.—This will be a light output, owing to the injury occasioned by the dryness of the weather and losses sustained by frost. The grain is frequently small where the yield has been fairly good.

Corn.—This has been a bad year for corn. Much of it matured too early, the ears being small and light, and there were serious losses from frost and floods, so that there will be considerable shortage in the crop. There will be a fair yield for silage in the west and the Lake Ontario counties, but further east and north the crop is decidedly poor. There is but little mention of insect pests, the only noteworthy cause of loss under this head being the destructive attacks of grasshoppers in one or two neighborhoods.

Tobacco.—There has been a great falling off in the cultivation of tobacco, and there are but few reports concerning this product by our correspondents. It appears to have been generally successful where grown.

Beans.—The bean crop has felt the effects of drouth severely, and the returns are very variable. Where produced in eastern localities it appears to have yielded better than in the western counties.

Clover Seed.—A very large proportion of the clover crop was winter killed, and consequently the yield of seed under any circumstances would have been much below the average. Correspondents are almost unanimous in stating that the drouth has so injured the second crop that very little seed has been secured. The midge has also proved destructive in many neighborhoods. The few favorable reports are mostly from the eastern section of the Province.

Potatoes.—The potato crop is for the most part of excellent quality, having been housed in sound condition and free from disease, except in a few localities where rot has appeared, which in some cases attacked the crop after it was taken up. The plant has been remarkably free from injury from insect pests. The effect of the drouth in numerous neighborhoods has been seriously to diminish the yield. The comparative effect of early and late planting has been very variable. In the western section the later planted seem generally to have yielded better than the earlier varieties, while in the eastern counties the reverse was the case in some instances. The exceptionally fine fall weather was specially favorably to the securing of the crop.

Turnips.—The drouth has seriously injured the turnips in common with other crops, and the yield as a rule has been light in all sections. The best returns have come from those sown early in the season. Insect ravages are reported from many quarters, some damage having been done by cabbage worms and grasshoppers. The crop has been nearly all got in in good condition.

Mangels.—The yield of mangels has been on the whole satisfactory, more especially in the Lake Erie counties, though the effect of the dry weather in many localities is noticeable in light yields and small roots. The quality of the crop as a rule is first class, and the great bulk of it has been safely got under cover.

Carrots.—Reports as to the carrot crop indicate a fair production, probably somewhat below the average by means of the drouth, owing to which the development of all root crops has been unfavorably affected. In some of the western counties considerable damage by grasshoppers is noted.

Sugar Beets.—This crop is confined to comparatively few localities, and has thriven well considering the want of moisture at a critical season, owing to which the roots were frequently small. It had practically been all housed at the time the returns were received.

Fruit and Fruit Trees.—The condition of fruit trees and vines as a rule is excellent, the principal drawbacks being the effects of drouth in a few localities, injuries from winds and recent snow storms, and more especially the damage inflicted by tent and forest caterpillars, which has been severe where spraying has been neglected. These and other insects—notably the codling moth—have seriously affected the apple crop, much of the fruit being wormy and inferior. Another cause of shortage was the heavy rain while the trees were in blossom, which interfered with fertilization. In most fruit-producing sections there was, however, a considerable surplus, especially of apples, over local demands, and many heavy shipments are noted, though the crop on the whole was much below the average. The quality was very variable. Pears, plums and grapes in excess of home requirements were also produced in some parts, although the early frosts spoiled the grapes in some instances. Owing to the wholesale destruction of peach trees last winter the output of this fruit was very limited. There was an abundance of small fruits, as well as a plentiful growth of the wild varieties in the back townships. But little mention is made of the San Jose scale, and curculino and blackknot are hardly as much in evidence as formerly.

Pastures and Live Stock.—Fall pasturage as a rule has not been good, the fields in most localities being dry and bare until a comparatively late period in the season, when they were revived to some extent by heavy rains. Live stock

THAT GERMAN ALLIANCE

Is a Natural One Whether it is on Paper or Only an Understanding.

SPEECH BY CHAMBERLAIN.

Broad Hint to Franhe and a Declaration Regarding Britain's Strength.

Mr. Chamberlain Says Great Britain Owes Lord Salisbury a Debt of Gratitude for the Great Improvement in the Country's Position.

London, Nov. 30.—Mr. Joseph Chamberlain, in a speech at a luncheon at Leicester to-day, said that ever since the great split in the Liberal party he had found himself a mark for the slanders and misrepresentations of the "baser sort of politicians." But, he added, he had found compensation in the generous appreciation of the majority of his countrymen.

Continuing, Mr. Chamberlain said he was deeply gratified that the foreign relations of Great Britain were so satisfactory, and he asserted that the country owed a debt of gratitude to Lord Salisbury for the great improvement in Great Britain's position. It was especially gratifying, he pointed out, to note the friendly relations existing between the Anglo-Saxon branches, saying that the understanding between the United States and Great Britain was indeed a guarantee of the peace of the world.

This statement was greeted with loud cheers.

It was of the utmost importance, Mr. Chamberlain further remarked, that Great Britain should not remain isolated in Europe and her natural alliance was with the German empire. They had had difficulties with Germany, but their interests and sentiments were the same, and an understanding between the Teutonic and Anglo-Saxon races might do more than any combination of armies to preserve the peace of the world.

The world, he asserted, was not governed entirely by interest. Sentiment was one of the greatest factors.

A Hint to France.

Referring to the attacks of the foreign press, Mr. Chamberlain said these newspapers had not even spared the "almost sacred person of the Queen." This, continued the speaker, provoked natural indignation, "which may have serious consequences, if our neighbors do not mend their ways."

An outburst of cheering greeted this threat of the Colonial Secretary. It was a matter for congratulation, Mr. Chamberlain afterwards asserted that the worst of these "disgraceful attacks" did not appear in the German papers. A new alliance between the Teutonic race and great branches of the Anglo-Saxons, would, said the Secretary, be a potent influence in the future of the world.

HUTTON IN TROUBLE.

An Announcement of His That Stirred Up a Little Military Dust.

Ottawa, Nov. 30.—Up to noon to-day the Militia Department had received no official intimation of the arrival of the Sardinian. The only notification received was through the Allan Company.

Major-General Hutton has landed himself in a nice snarl with the authorities of the Militia Department, through his styling Lieut.-Col. Stone the senior lieutenant-colonel in Canada.

The General, having instituted the Daily Orders as his official organ, issued twice weekly, has been in the habit of putting in them exactly what he liked, without let or hindrance. In these he gave Lieut.-Col. Stone seniority over all the lieutenant-colonels in the Canadian militia. This has given offence from Halifax to Vancouver, as Lieut.-Col. Stone's commission only bears date 25th May last.

The General defends his action on the ground that Lieut.-Col. Stone holds Imperial rank, but the authorities hold that inasmuch as Colonel Stone only holds Imperial rank as a major and requires a Canadian commission before he can exercise any function in the Canadian militia the General's argument does not hold water. The Imperial army list merely gives him as a major, in 1893, and adds in a distinct column, "a lieutenant-colonel in the Canadian militia." A brief on the case is being prepared for submission to the Department of Justice. Meantime it has been ordered that the General shall not continue to issue his periodical orders without censorship, and they will have to be submitted to the Minister before being promulgated.

Ottawa, Nov. 30.—The Minister of Justice has received the report of the evidence in the case of Hilda Blake, the Brandon murderess, condemned to death on December 27th, and a report thereon is being prepared.

An Italian Fiend's Deed.

Niagara Falls, Ot., Nov. 30.—Frank Werken, a worthless, drunken and bad tempered Italian, last night went to his home and in an altercation with his wife who is a hard working woman, whom he habitually abused, stabbed her first in the head and then in the neck, causing her death. A boarder living in the house heard the fracas, but did not reach the scene in time to prevent bloodshed. Werken escaped from the house, but was captured by Chief Young and a posse on the upper steel arch bridge. Dr. McGarry, the coroner, was called, and found that the woman's jugular vein was completely severed.

The couple had three grown up children, one son and two daughters, one of the girls being married to an Italian named Frank in this town.

Hay Was Musty.

Ottawa, Nov. 30.—Contractor Bloomingdale, of Boston, who is supplying 2,000 tons of pressed hay for shipment by the Canadian Government to South Africa, tried, it is said, to ship some hay on the Montauk, which was musty and unfit for feed. He was made to understand that he would be expected to give value for the money he is to receive. A telegram was received from the War Office to-day expressing appreciation of the efforts of the Department of Agriculture to secure a good cargo of hay, and intimating that the home authorities would pay the demurrage.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

THE BRITANNIA

CONSOLIDATED GOLD MINING COMPANY

OF ONTARIO, LIMITED

CAPITALIZATION:

$300,000.00 fully paid and non-assessable.

Par value of shares, 30c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,308 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controled by strong Montreal Syndicate.

Several hundreds of feet of work done.

Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.

A working property now producing bullion.

Assays are usually satisfactory, running from $3.00 to $400.00 per ton.

Mill runs show the ore to average $15.00 to $20.00 per ton. Last mill run (August 31, 1899), of 38 tons, gave $579.85, or $15.25 per ton. The next mill run is expected to exceed this value per ton.

For shares and reports by John E. Hardman, S. B., and Capt. Z. J. S. Williams, apply to

THE SAWYER COMPANY,
TEMPLE BUILDING, MONTREAL, CANADA.

Local Agents Wanted.

NEWS OF IRELAND.

Why He Vanished—Wants a Divorce.

Montreal, Nov. 30.—It now looks as if the mystery surrounding the sudden disappearance in this city of Dr. W. Ireland, who was supposed to have slipped over the wharf into the St. Lawrence on the evening of October 10, 1898, will be cleared up.

It is stated that a letter has been received from Ireland, from a town in Michigan, by a lawyer at Trenton, his former home, stating that he is practising his profession there under the name of Dr. H. H. Gray.

He stated that his object in disappearing was to get clear of his wife and that he will now seek divorce from her. He states in his letter that his object in writing to Trenton is to prevent Mrs. Ireland from recovering any insurance he had, and for which he understood suit was to be taken.

Mrs. Ireland is at present residing with an aunt, Mrs. Garvin at London, Ont., while his mother is making her home with his sister Mrs. E. L. White recently married and residing in Toronto

Two Legitimate Mining Propositions

The Great Western Mining Co.

Property situated on the south half of the Colville Indian Reservartion, good wagon road to property from railroad. Lead and Silver, 3 claims deeded to company, ledge shows entire length of claims, the ore shute on the surface, when work is in progress, shows 35 feet by 100 feet in length average assay of 35 tons of ore now on dump gives 51 per cent in lead and 35 oz. in silver. this property will without doubt be a shipper before spring, share in this property can be had at [illegible] per share the par value.

The Noonday Mining Co.

Property situated about 2½ claim lenghts from the great Republic Mine Republic Wash right in the belt, ledge 20 feet wide, assay from $3.20 to $12.00 in gold, work now in progress on cross cut tunnel at present in about 50 feet. COPPER!

WANTED—First class man to sell stock in A. 1 Copper Company now at work. Liberal terms to right party. Address with references, P. O. Box 181, Boston, Mass.

ADVERTISE IN THE TIMES

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

A Big Sale of Republic Stocks

THE FAIRFAX CO., OF REPUBLIC, J. J. Brown, Pres., Willis [illegible] Treas., after securing the Jim. Hill claim ajoining it on the north, sampled the ledge and W. H. Stowell reports on this cropping $16 80 in gold, immediately upon the result becoming known in Republic, a Mining Supt., through our agent there, Tom. Angel, negotiated the purchase of $1,000 worth of Treasurer's stock, the company has authorized me to place a small amount of this stock at 3½cts. Remember the Fairfax and Jim. Hill are less than 600 feet from the Mountain Lion, which is now $1.00 per share, and is an investment at that. The Fairfax at 3½ cts., is a speculation. Work is to be pushed.

From Our Special Correspondents and Local Exchanges

MILLBROOK

Batch of Breezy Notes From Peterborough's Southern Suburb.

Mr. J. A. Platt, of Cobourg, our popular egg and poultry dealer, shipped a large consignment of turkeys on Thursday for the English market, but owing to a misunderstanding made by his agent, with the farmers re the killing, plucking and quality of the birds, Mr. Platt was the subject of some very sarcastic remarks which we think the farmers were a little too hasty in and should overlook to a great extent, as Mr. Platt has for numerous years been our chief egg buyer and also our principal poultry dealer and has left thousands of dollars in our neighborhood. This year, owing to the poor facilities for transportation caused by the war, he was obliged to secure skilled help from elsewhere for the purpose of making a hurried shipment. But the farmers mistook the helpers for sharpers, thinking they had come for the sole purpose of beating them, and, thus made some very unfavorable comments. It is through ignorance that to-day our foreign market is ruined to a great extent by disposing of goods unfit for exportation.

Owing to the large amount of fowl which had not been plucked as desired, Mr. Platt was obliged to secure the services of a number of our young men and boys who all worked dexterously (but occasionaly throwing a turkey through a broken board or window) till six o'clock, when Mr. Platt and his staff went to their hotel for supper. Upon returning on one occasion, they found all had disappeared, with the exception of one boy, who, upon being questioned, stated that the rest had given him five cents a piece to remain, and tell Mr. Platt that they had gone to sea. But Mr. Platt, upon looking over his birds, found that about 15 of the choicest were missing. Detective Wm. Lang, who was with Mr. Platt at the time, at once began to cross-examine the boy, who, after a few denials, made a clear account of the affair. He stated that one of our most prominent and popular young men, in the person of Mr. S.—, gave him ten cents to leave two in the rear of the blacksmith shop, which he cheerfully did. The others gave him 5 to 15 cents, according to size and number taken, and carried them away in bags supposed to contain feathers. However, ill-luck being against the coveters, Mr. Platt, after a deligent search, located all the birds excepting three. Mr. S.—, after following the boy up and getting the ten cents, paid $1.25 for a 50 cent turkey, and then gave a supper to his numerous friends.

Notes.

Mr. and Mrs. Geo. Needler went up to Toronto, Friday, to visit their son.

Mr. Robt. Fair, of Peterborough, who has been visiting in town and vicinity during the past few days, returned home Friday.

Misses Flossie Theeton and Ethel Richardson spent Saturday with friends in Peterborough.

Miss Mina Bateson left on the evening train Saturday, to visit her friend, Miss E. Crossley, Peterborough.

We would like to know how Mr. N. McBrien spends his hours of idleless—well-at-Lindsay; as numerous reports state he is taking the forty-fifth degree of blissful rest on board the Crandella.

Rev. Wm. Allen left on the evening train Saturday, for Coboconk and Victoria Harbor, where he was engaged to preach the mission sermons.

Mr. Fred Horner and Miss Flossie Sothern spent Sunday at the home of Mr. H. Ryley, Peterborough.

We would like to know what the next move will be of the young lady that took the blissful drive east on Sunday arrayed in Cupid's favorite color, and trimmed with the delicate hue of the lily.

We expect our suspense will soon be obliterated by the precious words—"Dear mother, if you consent to let your loved one be mine, my heart and honour will be thine."

Mr. A. Irwin spent Sunday with friends at Centreville.

Mr. A. Chambers, of Oshawa, spent Sunday under the parental roof.

Miss Lily Bullied was the guest of her friend, Miss Cassie Herron, Fraserville, Sunday.

Mrs (Dr) N. McKennon left on Monday for a short visit with friends in Sarnia.

One of our young men was heard to remark Monday that he found the old saying to be quite true on Sunday—That it's an expensive thing to cage another man's bird; better luck next time Fred.

Mr. H. A. Maddock, of the A. B. Scott Co., went up to the Queen city on a pleasure and business trip Monday.

Miss M. Vance returned home Tuesday, after a pleasant visit with friends in Western Ontario.

Sons of Rest.

The United Sons of Rest held a mammoth meeting in their modern hall, fitted out on the American plan, in the fifteenth flat of Hogan's alley on Tuesday evening. The occasion for such a large gathering being that 20 members of the famous conversazioned Lamp Post Society were to be initiated as well as the superflous amount of other business transacted, which had been neglected on the previous meeting owing to the illness of the Hon. President, Wm. Barts, who had a severe attack of gout. At 65 minutes past 7, as stated by Mr. E. Kerr, jeweler to Her Majesty, by one of his Waterbury watches, the Hon. President, Wm. Barts; Vice-President, Jas. Sanderson; Secretary Geo. Leach, and Treasurer Fred Horner, had arrived at the ante room where, after refreshing themselves with some of the Victoria House unseated stimulants, gave Mr. Bruce and his creditable friends an enthusiastic welcome and wished them success in coming forward to join the World Renowned Fraternal and Beneficiary Society. When the President and members had all taken their respective places in the beautiful hall, his honour arose and said it was with the greatest pleasure he filled his office of this noble society this evening. (Applause), and was greatly pleased to see such a large number present, but would not trouble making any further remarks owing to the large number to be initiated as well as the usual amount of business to be disposed of. He would open the meeting by singing "Dishonesty's our Policy," and would then ask chaplin Wm. McLoor to get the coal stolen from Wm. Theeton, and the limestone begged of Millionare Hall and put into the soap box bought of H. A. Maddock and set in the centre of the floor, and they would then proceed to ballot for candidates, according as he read the names of the role. After the balloting had been done to the satisfaction of all it was found that all the members of the L.P.S. had been accepted with the exception of Hughie Johnson, who was unwilling to sign the pledge on account of the numerous fastings it required towards helping charity. They were then ushered into the hall by Messrs. J. McMahon and N. McBrien, amid the harmonious music played by J. Howard, O.H.M.S., from the bell of McLoor's cow, which had just been released from Robbie Burns' pound. The candidates were after a severe acquaintance with the goat, led forward to his honour for the final blessing grips, signs and passwords. They were then discharged as full fledged members and allowed the honour of using the reserved seats for the evening. His Honour then renewed the meeting by calling on the secretary for any reports during the past fortnight of sick members or other business in general. The secretary stated that he had answered all business matters, while the surgeon, Jas. Deyell, had either restored the sick or killed them. His Honour then stated that the next order of business was Good and Welfare, and expected to see a large amount of business transacted under this heading. But the members must not all rise at once, as the shorthand writer, Mr. Joseph Thorndyke, would not be able to write it down.

Mr. H. Sketch was the first on the floor, and moved that the present quarterly password—"Dishonesty" be "turkey", which was quickly seconded by Johnnie Bateson, who made the amendment that 10 cents be added to it, which was carried by a large majority. So thus the password for the following term will be "Ten Cent Turkey."

J. B. McMahon then moved that William Bruce be elected to the President's chair, as he would save the buying of hammers for the knocks by using his neat little feet. Mr. McMahon's motion was carried amid applause.

Treasurer Fred Horner then moved that John Bullied be appointed as delegate to the meeting of the financial committee of the surrounding lodges at Lakefield on the 5th of December, in view of buying a cemetery on the banks of the Trent Valley Canal, as he would save the hotel expenses with Bro. R. Munro by being a great favorite among the Lakefield ladies, and would make a very suitable man owing to his intellectual lack of integrity, and also that Bro. H. Hewson be appointed as delegate to the Meeting of the Supreme Grand Lodge at Lindsay, Dec. 31st, 1899, as he would also be able to save the board bill. Mr. Horner's long headed motion was seconded and carried amid great enthusiasm.

The President then arose and stated as it was 3 o'clock he would have to adjourn the meeting till the coming week and would close by singing the poets parting song "Wind up the Clock, put out the Dog, and see the Goat is fed."

KEENE

A meeting of unusual interest was held last Saturday night in the Hall of Wisdom by the members of the Lime Juice Club. All the members were present as well as a number of visitors from other clubs. Minney Whale Jones, after emptying his mouth of about a gallon of tobacco juice (not Lime Juice) rose to his feet and in a very sanctimonious tone asked Professor Exon and Jumbo Wond to sing the opening ode. In justice to these two brothers I must confess that they rendered the ode in a very creditable manner, bringing tears to many of the brethren's eyes. Minney Whale now took the platform and addressed the brethren as follows—"Brethren, I stand before you to-night as your honorable President feeling highly elated over the office. As it had been customary in the past for the newly elected President to give an address, it is my ambition to-night to do so also. Although I cannot boast of my merits as a fluent orator, nevertheless, I wish you to understand that I am the possessor of a goodly amount of sensibility wit and humor, backed up by a firm determination. At the commencement of my address I wish to apprize you that I am boss of this club, and it is my intention to make you all toe the mark. Should any brother, through stupidity or obstinacy, act derogatory to my wishes or orders you may rely on it that they will know the meaning of compunctions before my term as President expires.

Sleepy Swan, of Zion, intimated to Minney Whale that he considered him rather severe.

Minney Whale told Sleepy that he was differently constituted than others, and if this meeting didn't suit him he could go to Zion and take a sleep—it might be instrumental in cooling his brain.

Sleepy took his seat and drew a long deep sigh.

Minney Whale again endeavored to proceed with his address but was interrupted by Positive Legget, Bruin Speirs, Fighting Archy, and Ponty Mack, who had got into a dispute over the possibilities of shooting a bear which was seen in the vicinity of Lang. Minney Whale became very much annoyed and let one of his war whoops, which sent terror into the brethren.

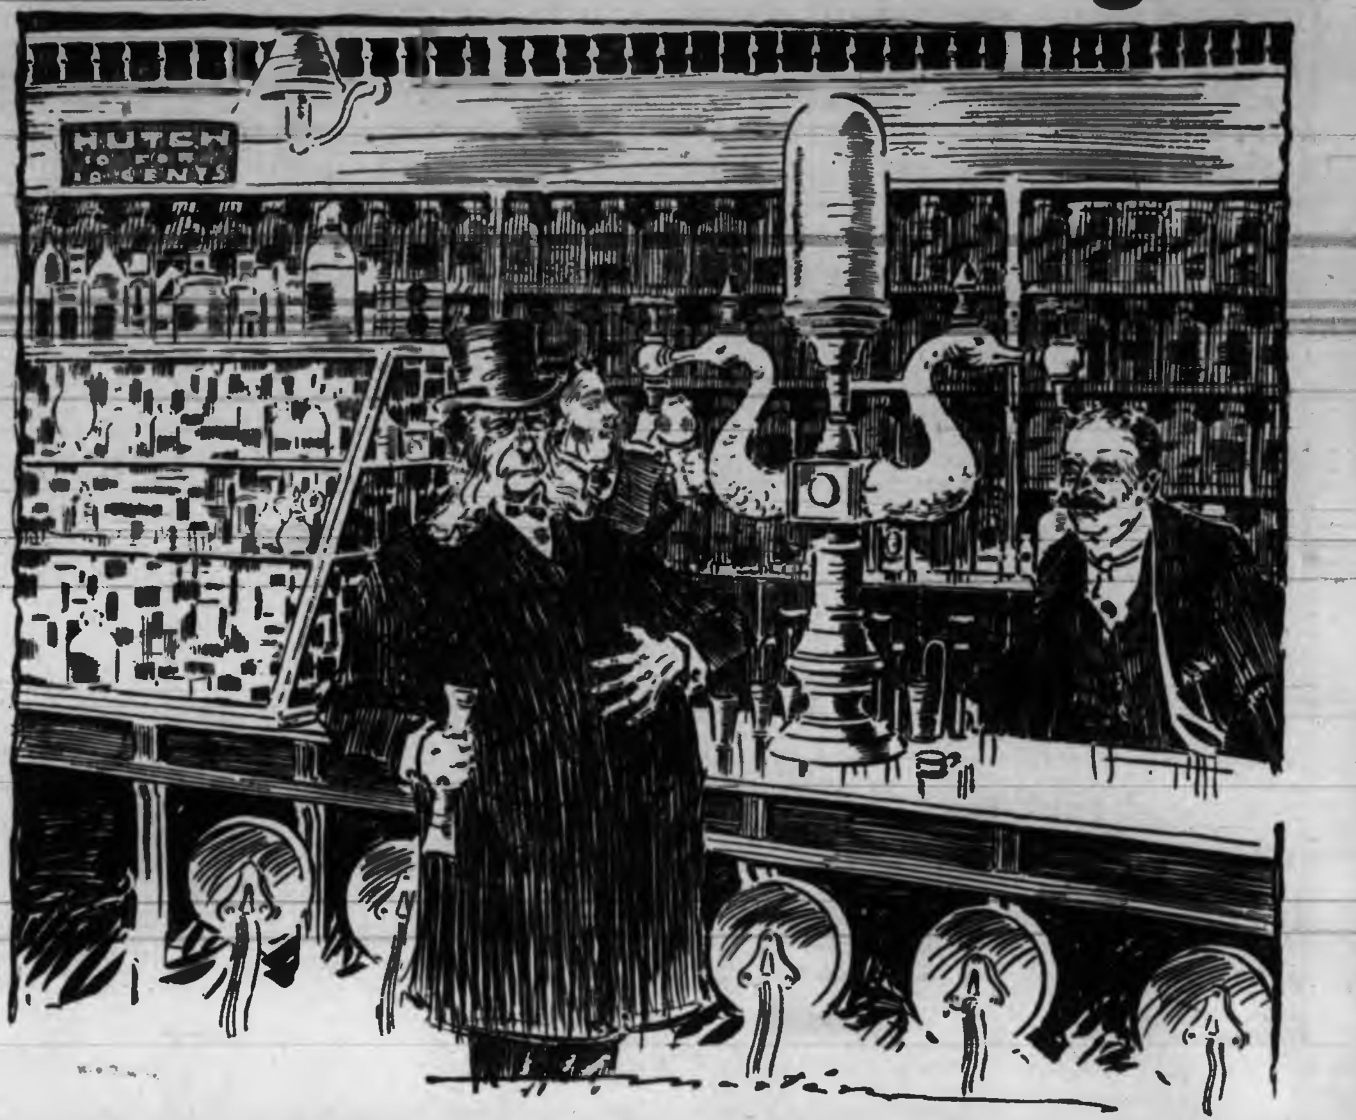
Cautious Miller rose and very politely asked the President to please not yell so loud in the future as it was a great shock to the nervous system of the members.

Minney Whale again attempted to proceed with his address but was again interrupted by Rinker Jack and Bismark Miller, who had hot words over a fair damsel of this village.

The President became disgusted and asked Tobin Brown and Buttermilk Humphries to sing the closing ode. Gewhitacker! how they did sing! I believe if cream had been placed in the hall butter would have been produced in a short time. Before the ode was concluded about a yard of plaster dropped from the ceiling on Minney Whale's head. He called out "this meeting is closed, and it has been a corker! We will meet again next Saturday night."

An Italian Fiend's Deed.

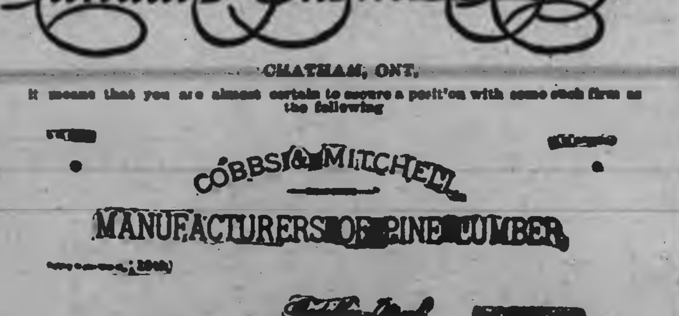
Niagara Falls, Ot., Nov. 30.—Frank Werken, a worthless, drunken and bad tempered Italian, last night went to his home and in an altercation with his wife who is a hard working woman, whom he habitually abused, stabbed her first in the head and then in the neck, causing her death. A boarder living in the house heard the fracas, but did not reach the scene in time to prevent bloodshed. Werken escaped from the house, but was captured by Chief Young and a posse on the upper steel arch bridge. Dr. McGarry, the coroner, was called, and found that the woman's jugular vein was completely severed.



Hutch in the Rossin House Drug Store

Thanks to the very high standard our Canadian Government demands in pharmacy, the druggists who practise in this country are an exceptionally gifted set of men and have anatomy, materia medica, etc., at their finger tips. Toronto is especially fortunate in this respect, and among those whose name is a synonym for rigid purity, and only the best in drugs, is George Harbottle, the proprietor of the Rossin House Drug Store. Mr. Harbottle was chatting with several friends the other night, and expressed some pretty outspoken views on Hutch. "Hutch," said he, in his terse, vigorous style, " is to my mind a perfect treatment for dyspepsia. It is quick, you don't have to wait an hour to be relieved from pain, and it is ultimately beneficial. We have several people who claim to be cured by Hutch after every other treatment has been tried by them. Everybody is taking Hutch, and some of our high civic notabilities are among its warmest friends. Hutch cures. When I have an efficaceous remedy I recommend it. I recommend Hutch every time."

Ten Hutch Ten Cents. All druggists, or by mail from the Woodward Medicine Company, Limited, 11 Colborne Street, Toronto.



WHEN YOU ARE A GRADUATE FROM

THE Canada Business College.

CHATHAM, ONT.

it means that you are almost certain to secure a position with some such firm as the following

COBBS & MITCHELL
MANUFACTURERS OF PINE LUMBER

[illegible], 1899)

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

The GRAPHOPHONE

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

A Curious Old Ad.

A Boston paper has unearthed this curious old advertisement from the Boston Post Boy and Advertiser for March 16, 1767: "The Bell-Cart will go through Boston, before the End of next March, to Collect Rags for the Paper Mills at Milton, when all People that will encourage the Paper Manufactory may dispose of them; the best Price will be given. They are taken in at Mr. Caleb Davis's Shop, at the Fortification; Mr. Andrew Gillespie's, near Dr. Clark's; Mr. Andrew Ramsdale's, near Phillips's Wharf; and Mr. John Boies's in Long Lane; Mr. Frothingham's in Charleston; Mr. Williams's in Marblehead; Mr. Ellson's in Salem; Mr. John Harris's in Newbury; Mr. Daniel Fowle's in Portsmouth; and at the Paper Mill in Milton.

"Rags are as Beauties, which concealed lie;
But when in Paper, how it charms the Eye;
Pray save Rags, new Beauties to discover,
For Paper truly, every one's a Lover:
By th' Pen and Press such Knowledge is displayed,
As wouldn't exist if Paper was not made.
Wisdom of Things, mysterious, divine,
Illustriously doth on Paper shine."

But They Weren't Civilized.

Traveling in southern India, one day I was taken into the country to see tapioca roots gathered and ground for use. The adults working in the grove, men and women, had each a rag around the loins, but the boys and girls, with their black, glossy skins, were free of all incumbrance.

Our guide explained to these people that we were from a country so far away and so different from theirs that the waters were sometimes made solid by the extreme cold and we could walk upon them; that sometimes it was so intensely cold that the rain was frozen into particles and lay on the earth so deep that people could not walk through it, and that three and four layers of heavy clothes had to be worn.

This happy people, as our guide told us, wondered why we staid there, why we did not come and enjoy life in their favored clime.—Andrew Carnegie in North

Woes of Millionaires.

An English millionaire has just been adjudged incapable of looking after his property. He imagines himself the Prince of Wales.

Some years ago a rich merchant took the idea that he was penniless. His sons, to stop his worrying, assured him they had rescued his business and was to continue it. They offered him a clerkship at a small salary in his own office. He took it and kept at work nearly 20 years. When he died, he left nearly $15,000,000.

Two English millionaires were noted for their parsimony. One picked up and smoked cigar ends. The other, after fine receptions in his house, would go around carefully collecting candle ends to be used again. Neither of these men was insane. Both were shrewd in business.

Another millionaire imagined for a considerable time that he was a squirrel, and would eat nothing but nuts.

Another was too parsimonious even to buy himself a warm overcoat. Some of his friends made him a present of one, and he promptly sold it at secondhand and pocketed the money.—St. Louis Post-Dispatch.

Was Hanged Over Again.

G. W. Stevens, who traveled extensively in India, tells the following interesting story: A Pathan was being hanged, when the rope broke. The warder bade him go up on to the scaffold again, but he objected. "No," he said, "I was sentenced to be hanged, and hanged I've been."

"Not so, friend," argued the warder, "you were sentenced to be hanged until you were dead, and you're not dead."

It was a new view to the Pathan, and he turned to the superintendent. "Is that right, sahib?"

"Yes, that's right."

"Very well. I didn't understand," and he went composedly up the steps and was hanged again like a man.—Pittsburg Dispatch.

What He Really Owed.

"Doctor," said the grateful patient, seizing the physician's hand, "I shall never forget that to you I owe my life."

"You exaggerate," returned the doctor mildly. "You owe me only for 15 visits. That is the point which I hope you will not fail to remember."

All Roads Lead to the Dressmaker.

Mr. Hornbill—Do you know, darling, I could pick you out of a crowd of women just by your style!

Mrs. Hornbill—I don't wonder, and me with this same old dress for the last two seasons!

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y. [illegible]

WHY FOSTER GOES.

Details of Charges Against the Warden of Dorchester Penitentiary.

Ottawa, Nov. 30.—Commissioner E. N. Bell, who was appointed to investigate the affairs of Dorchester, N.B., Penitentiary, forwarded his report to the Government some time ago. Mr. Bell was appointed a year ago to make investigations, and the outcome of it has been to produce evidence, which has been established by proof, to make one wonder why the warden has been left so long undisturbed in his position.

The commissioner's report shows that for years past the warden has been using convict labor in such a way as made him unfit to be an officer of the crown. Convicts were employed in his barns, and around his residence.

Cattle were exchanged and sold by him in such a way as to make the transactions a source of profit to himself.

The guards and prisoners worked his farm, and certain dyking which he had placed around his own lands was charged to the Government, when it ought not to have been done.

Inferior horses and cattle were taken from the warden's own farm and given to the penitentiary for superior animals.

In a somewhat similar way did he deal with the produce which came from his own farm.

The whole story of the management of the institution, while not revealing such a deplorable state of affairs as existed at St. Vincent de Paul prior to the investigation there, has been such as to necessitate the removal of Warden Foster. It is understood that he will be replaced by Lieut.-Col. J. Angus Kirk, ex-M.P. for Guysborough who is well known in Ottawa, having made many friends here while attending to his sessional duties.

New Postmaster.

Ottawa, Nov. 30.—The appointment of Beausoleil, M.P., as Postmaster of Montreal may be looked for soon.

MANITOBA ELECTIONS.

A Contest in Every Constituency—Several Three Cornered Fights.

Winnipeg, Nov. 30.—Nominations for the Manitoba Provincial general election, which take place on Thursday, December 7, were held to-day. There will be a contest in every constituency. In three, namely, Cypress, Emerson and Mountain, there is a third, or independent, candidate.

At present the contest in Winnipeg looks favorable to the Opposition candidate in the north division, and it is anybody's fight in the centre and south. At the last general election the Greenway party had eight acclamations.

A mishap has occurred in Turtle Mountain constituency, which may throw the election over for a week later. Standrod may also go over owing to a mistake. This may make four elections, including Dauphin and Gimlie, in doubtful constituences for later dates. Independents and Conservatives do not relish this postponement.

To Connect With the C.P.R.

Ottawa, Nov. 30.—Colonel James McNaught, of New York, came here yesterday in company with ex-Senator Warren Miller of the United States. Colonel McNaught is interested in the construction of the Great Northern Railway, which is to connect with the Canada Atlantic at Hawkesbury, and from an independent line for the Booth system from Parry Sound to Quebec. Col. McNaught says the track work will be finished in 60 days. The road will be ready for traffic by the first of June.

Advance in Coal.

Philadelphia, Nov. 30.—The coal companies of this city have announced that owing to the short supply of anthracite pea coal an advance of 25 cents to 50 cents per ton will be made on December 1. The advance in most cases will be 30 cents. The price of buckwheat coal will be advanced 25 cents.

Death of Thomas D. Hodgins.

London, Ont., Nov. 30.—Thomas D Hodgins, M.P.P., died of heart failure at eleven o'clock this morning. Mr Hodgins was born at Stradbally, Queen's county, Ireland, in 1837. In 1886 he was elected Mayor of London. In 1898 he was the Conservative candidate for the Legislature from East Middlesex, and was elected. Mr Hodgins was one of the most prominent horse breeders in Canada.

Formal Protest to be Made.

Ottawa, Nov. 30.—The fraternal organizations will not permit the passage of the Government's proposed measure affecting them, without energetic protest. A meeting, attended by representatives of the various organizations, was held last night and opinion was found to be strongly antagonistic to the proposed legislation. A sub-committee will formulate the objections and submit them to the consideration of the Government.

COPPER SHARES.
LARGEST DIVIDENDS. SAFEST INVESTMENT.
Boston & Texas Copper Company.
CAPITAL STOCK $2,500,000.
250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:
HON. EMERY M. LOW, President. Manufacturer (Mayor), Brockton, Mass.
GEORGE W. RUSSELL, 1st Vice-President. Paper Manufacturer, Boston, Mass.
JAS. M. WHEATON, Secretary.
EDW. B. ROBINS, Treasurer.
F. M. SPAULDING, 2d Vice-President and General Manager.
STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

THE COUNTRY'S CROPS.

are reported in a healthy condition, though thin for the most part in consequence of short pasturage, but there is no allusion to any form of animal disease by any of our correspondents. Very little has been done in any part towards fattening stock for market, and a great many cattle have been sold off as stockers at good prices, so that there is a decided scarcity of saleable cattle in many parts, more especially in eastern Ontario. The practice of stall feeding appears to be falling off to some extent. Sheep where kept have generally done well, and in some instances farmers find it profitable to fatten sheep and lambs on rape. Hogs are plentiful, and are being continually shipped to market; but present prices are low, and if continued will have a tendency to discourage hog-raising. There is plenty of fodder in nearly all localities for the winter's supply, especially of corn and coarse feed, but the hay crop has been light, and it commands a high price in many places. Some correspondents also notice a shortage in roots. Corn has been very largely grown for fodder purposes, both as ensilage and dry feed. The use of the silo is steadily increasing, though the partial failure of the corn crop in some neighborhoods has operated against the movement. The almost universal silage material is corn, the leading varieties used being the Leaming, Mammoth Southern, Compton's Early, and Yellow Dent.

The Dairy.—The dairy industry, though injured to some extent by the dryness of the season, has on the whole been flourishing under the stimulus of good prices. In many parts—more particularly in the west—the manufacture of butter is gaining upon that of cheese, though the latter still generally maintains the lead as a factory product. The movement for the manufacture of butter in cheese factories in the winter season has become general. There is a noticeable improvement in the quality of the butter output, and the price is universally higher than last season. There is little change in the breeds of cattle kept for milk. The Durham grade retains its old-time predominance as a general purpose cow, but in the eastern counties, where cheese making is a speciality and beef qualities less regarded, the Ayrshire and Holstein strains are much in favor.

Poultry.—The returns regarding the poultry industry are generally of a highly encouraging character, indicating that farmers in all parts are devoting more care and attention to this department, and engaging more extensively than hitherto. The profits have been good wherever fowls have received proper treatment. The egg production has been above the average, and prices have been renumerative. A large number of turkeys are ready for the market in some parts, though the season was not too favorable for raising them successfully. Poultry generally are in fine condition, and there has been but little disease of any kind.

The Apiary.—Bees wintered badly, many hives having been lost. The season has been very unfavorable for honey production, there being little nectar available, and the supply of honey will be a good deal short of the average, and the quality is frequently inferior. There have been but few swarms. The bees as a rule are in a healthy condition, there being but little mention made of foul brood. Owing to the light yield of honey it will be necessary in many cases to supply colonies with winter food.

Threshing and Marketing.—Threshing has been finished except in a few localities, the work being lighter than usual by reason of the shortage in the wheat crop. A comparatively small portion of the product has as yet been marketed, as farmers are not disposed to let their wheat go at the prevailing prices where they can afford to hold it. Barley, oats and peas have been sold freely where a surplus was available, but an increasingly large percentage of the coarse grains is retained for stock feeding.

Fall Plowing.—The fine autumn weather has enabled farmers to make good progress with their fall plowing, as the ground for the most part was in splendid condition, except in a few localities where operations were delayed somewhat by drouth. Late harvests is another reason assigned by some correspondents for backwardness. Generally, however, conditions have been highly favorable, and advantage has been taken of them to get the work done early. In some instances the ground has been plowed over more than once to kill out weeds and to increase fertility.

Farm Improvements.—There has been fair progress made in under-draining, the work being chiefly done by hand, tile drain machines not having given satisfaction as a rule. A great deal of fencing has been done, principally of wire. Barbed wire has gone out of vogue, and plain and woven wire fences, with iron posts, appear to be most in favor, although some appear to prefer a combination of wood and wire. An unusual amount of improvement has also been made in farm buildings, more especially in bank barns, etc.

Labor and Wages.—Except at harvest time, when there was a scarity of help in many quarters, the supply of farm laborers has been sufficient for the demand. Correspondents report the exodus of a large number of young men from Ontario farms to the Northwest and some are of opinion that this will mean an increase in farm wages in this Province in the near future. Others claim that the rate of wages now paid is as high as employers of agricultural labor can afford to give and that improved machinery is rendering farmers more and more independent of outside help. Domestic servants on the farm are reported scarce, as usual.

YIELDS OF CROPS.

Fall wheat, 14,139,827 bushels, or 13.8 bushels per acre.

Spring wheat, 7,041,217 bushels, or 17.7 per acre.

Barley, 14,830,891 bushels, or 30.2 per acre.

Oats, 83,897,724 bushels, or 38.0 per acre.

Rye, 2,284,846 bushels, or 16.7 per acre.

Peas, 15,140,790 bushels, or 20.4 per acre.

Buckwheat, 2,203,289 bushels, or 16.7 per acre.

Beans, 651,009 bushels, or 16.1 per acre.

Potatoes, 19,933,464 bushels, or 119 bushels per acre.

Mangel-wurzels, 20,806,387 bushels, or 391 per acre.

Carrots, 3,674,035 bushels, or 309 per acre.

Turnips, 57,878,390 bushels, or 377 per acre.

Corn for husking)in the ear(21,673,234 bushels, or 65.0 per acre.

Corn for silo and fodder)green(, 1,007,755 tons, or 9.82 per acre.

Hay and clover, 3,498,705, or 1.40 per acre.

Apples, 19,126,439 bushels, or 3.02 bushels per tree.

Tobacco, 2,341,563 lbs., or 1,016 lbs. per acre.

None of the crop vary very much from the August estimate of yield, except beans, which has fallen off over one-fifth.

Of the root crops potatoes is the only one going over the average.

Some cooks bake with cottolene,
Some cooks bake with lard,
Some cooks use no grease at all,
But their crust's mighty hard.
Some men chew their plug tobacco,
Some men chew the tag,
Some men never work their jaw,
Except to chew the rag.
Some men put their ads. in papers,
Some men put them on the fence,
Some men never advertise,
Who ought to have more sense.

THANKS TO CANADA.

Mr. Chamberlain Sends a Despatch to the Governor-General.

Ottawa, Nov. 29.—The following despatch from Mr. Chamberlain was received by Lord Minto yesterday and forwarded to the Minister of Militia and Defence.

Mr. Chamberlain to Lord Minto.

Downing street, Nov. 15th, 99.

My Lord I received from you on the 2nd inst. a copy of an approved minute of the Dominion Privy Council, dated the 14th of October, 1899, which your Ministers authorized the equipment and despatch of 1,000 volunteers for service with the Imperial troops in South Africa.

The great enthusiasm and the general eagerness to take an active part in the military expedition which has unfortunately been found necessary for the maintenance of British rights and interests in South Africa, have afforded much gratification to her Majesty's Government and the people of this country. The desire thus exhibited to share in the risks and burdens of Empire have been welcomed, not only as a proof of the staunch loyalty of the Dominion, and of its sympathy with the policy pursued by her Majesty's Government in South Africa, but also as an expression of that growing feeling of the unity and solidarity of the Empire which has marked the relations of the mother country with the colonies during recent years

The thanks of Her Majesty's Government are specially due to your Ministers for the cordial manner in which they have undertaken and carried through the work of organizing and equipping the Canadian contingent.

Sgd. J. Chamberlain, Privy Council.

Major Rutherford, of the 8th Battery, Quebec, at present taking the long course of instruction in England has been forwarded for service in South Africa

Will Not Buy Pontiac Road.

Ottawa, Nov. 30.—P W Resseman, manager of the P & P J Railway, says that there is no truth in the statement that the C P R had taken steps to buy the Pontiac-Pacific Railway.

WANTED FIRE BELL CLOTHES.

He Just Made Up His Mind to Kill That Town of St. Joe.

"Ah'm come back home for some clothes, an Ah want 'em wahm," said a tall young negro to a Walnut street haberdasher one day last spring. "Ah'm jes' agoin to kill that town of St. Joe. Show me the beatedest clothes yo' got in the house."

He was not cool as to raiment to start with. His overcoat was cream colored, overlaid with pearl buttons the size of those small butter plates still in use in restaurants. His trousers were green and ended in yellow shoes with brown shot silk tops. His hat was light blue, mottled in brown; his gloves were red and his cane heavily silvered.

"Can't no St. Joe nigger tell me Ah come from Raytown," he muttered. "Ah goes up to St. Joe to work, and the coons there laugh at me and tell me Ah ain't from Kansas City, because mah clothes is so inconspicious, and Ah just save up mah money, and Ah'm agoin back to kill the town. Now what I want is some underclothes and socks and shirts and things that are the wahmest you've got."

"How will these do?" asked the haberdasher, exposing some scarlet hosiery, banded with wide white stripes.

"That's it. That's the kind of clothes Ah want. They ain't nothin in St. Joe like that. Lemme look at them underwear."

He inspected some red underwear with white stripes, some of baby blue with pink stripes and others of green with blue, black and red stripes. He bought neckscarfs of every shade of red, blue and green and of the most bewildering patterns. His purchases included zebra collars and pale pink shirts, diamond scarfpins at 85 cents each, but with $85 of shine, and a brown waistcoat with scarlet moons emblazoned on it.

"Ah've got 'em dead," he exclaimed when he has finished "They've ceased to live. When Ah get back to that town of St. Joe they'll ask me if I come from Raytown, will they? Ah'm agoin to take back to that little ole burg such wahm clothes that they'll meet me with the fish department. That town's dead now, and Ah've killed it."

How Wealth Is Carried.

"It is rather amusing," remarked the head of the biggest bureau de change in London to the writer, "to notice the various methods in which men of different nationalities carry their worldly wealth. The Englishman carries his all loose in his right hand trousers pocket—gold, silver and copper all mixed up together. He pulls a handful of the mixture out of his pocket in a large, opulent way and selects the coins he has need of. The American carries his wad of bills in a peculiar long, narrow pocketbook, in which the greenbacks lie flat; the Frenchman makes use of a leather purse with no distinguishing characteristics, while the German uses one gayly embroidered in silks by the fair hands of some Lottchen or Mina.

"The half civilized capitalist from some torrid South American city carries his dollars in a belt with cunningly devised pockets to baffle the gentlemen with the light fingers. Some of these belts are very expensive. The Italian of the poorer classes ties up his little fortune in a gayly colored handkerchief secured with many knots, which he secretes in some mysterious manner about his clothes. A similar course has charms for the Spaniard, while the lower class Russian exhibits a preference for his boots or the lining of his clothes as a hiding place for his savings."—London Answers.

Proof of Him.

When he was 50, he returned to his native town "just to see how the old place looked." He found it unchanged. The old store, where as a lad he had clerked in and sold calico and groceries to the old farmers, was just the same. He contrasted the sleepy old place with himself and felt a glow of satisfaction when he thought how much those 30 years had done for him. "They ought to be proud of me," he said to himself.

Presently he met one of the old inhabitants.

"Wal, I declare, is it really you, Hank?" said the old man incredulously. "We've heard you've been prospering fast rate since you went west. They've made you a railroad president or suthin of the sort, ain't they? I heard so, but I couldn't believe it. It's really true, is it? Wal, all I've got to say is they must be pretty hard up for railroad presidents out there."

He took the next train for the west.—

There is no argument so good as an absolute, plain, truthful statement of fact. There is nothing so interesting as fact.

In the true happenings in the every-day life of every-day people are materials for most thrilling novels. There are every day stories of heroism, suffering and the final triumph of good over evil — of happiness finally crowning endeavor. Here is a case in point:

In the county of Escambia in Alabama is the little town of Flomaton and there lives Mrs. Mollie Grimes. She was a good wife and mother but several years ago she found her health slipping away from her. She realized that this meant the inevitable nervousness and irritability that would surely lose for her the affection of her children and husband, and that as her health declined discord and misery would appear in her home. She was filled with the loving motherly instinct, but two miscarriages in succession almost broke her heart. She had almost lost hope when the clouds rolled away and the light of health and happiness returned.

She tells her story in these words:

"I was almost heart broken to think I could not raise any more children and had to suffer as I did. I had lost two children by miscarriages and I fully expected to lose another when, in August 189 I learned of and began taking Dr. Pierce's Favorite Prescription and took it until after baby was born in November. With my other children I had suffered everything that flesh could suffer but this time I was in perfect health and had a very easy time. I was in labor only a short time. I cannot praise Dr. Pierce's medicines enough for I believe they certainly saved my baby's life and maybe my own life as well. I took the 'Favorite Prescription' and also the 'Pleasant Pellets.' The 'Pleasant Pellets' act like a charm."

PETERBOROUGH, NOVEMBER 15 1899

TOWN AND COUNTY NEWS

TEMPLARS IN SESSION.

The District Lodge I. O. G. T. is in Session in Peterborough.

District Lodge No. 10, Independent Order of Good Templars, met in their hall yesterday afternoon in private session. In the evening a public meeting was held a large number of Good Templars and their friends being present. Chief Templar Spence, of Toronto, delivered an address in which the state of temprance work was discussed.

◆

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

◆

Refused to Work.

Yesterday the Times office was visited by a couple of men who were anxious to have a statement which they made published. They claimed to have gone back to the shanties for the winter, under a promise that certain wages would be paid them. They say that when they had worked a month they were not paid the amount agreed upon by the men who engaged them, only getting $15, and they quit work. It cost them $10 to get back as far as Peterborough, so they would have the trip for their month's work.

◆

SATURDAY BARGAINS.

The Port Hope Knitting Works' famous 2 and 1 all wool, extra heavy Stockings, with double heel and toe will be on sale on Saturday for 19c. These hose are much superior to the usual 25c quality. Be sure and see them. Ask for trading stamps.

◆

Jumped off a Box Car.

Lindsay Post.—A boy named Jas. Johnston, whose relatives reside on Glenelg street east, received a bad shaking up last night. He had been at work for some days plucking fowl at Flavelle Bros.' egg-house in the east ward, and last evening, while standing on top of a refrigerator car being loaded with boxes of fowl, he slipped and rolled to the ground, dislocating and breaking the collar-bone. He was driven to Dr. White's surgery, where his injuries were attended to.

◆

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper the price is reduced to 50c. Procure one before it is too late.

◆

Married in Chicago.

From the Chicago South Side we learn that Mr. John P. Dickson, formerly of Peterborough, was married on the 23rd instant to Miss Isabella Markham. The wedding took place at the residence of Mr. John Byrnes, uncle of the groom.

◆

Boy Wanted.

The Times requires a smart boy for night work, to set headings and run messages. Short hours and fair pay. Apply in evening to night foreman, in daytime to Times Bookstore.

◆

A Big Lawsuit.

Last spring when the members of the Street and Bridge Committee, or what is now known as the Works Committee (we presume on account of the way it "worked the ratepayers") were out on their annual tour of inspection, the committee went to the Snowden House for dinner and refreshments. Unlike the Aldermen of Toronto, when they are out for a time, our city fathers drink buttermilk, and smoked ordinary cigars. The bill was certified to by the then chairman and sent to the Council for payment, which was refused, and again and again it was presented, the last occasion being on Thursday night, when the Council in Committee once more drew it out. Mr. Snowden told the Times yesterday that he had instructed his solicitor to bring an action against the corporation for the amount of the account. He has no objection to treating the boys to cigars, but buttermilk is cash. So now he proposes to put the kibosh to the town in dead earnest.

◆

A CURE FOR ASTHMA.

Asthma sufferers need no longer leave home and business in order to be cured. Nature has produced a vegetable remedy that will permanently cure Asthma and all diseases of the lungs and bronchial tubes. Having tested its wonderful curative powers in thousands of cases (with a record of 90 per cent. permanently cured), desiring to relieve human suffering I will send free of charge to all sufferers from Asthma, Consumption, Catarrh, Bronchitis and nervous diseases, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail. Address with stamp, naming this paper, W. A. Noyes, 820 Power Block, Rochester, N. Y.

◆

THE MUNICIPAL SITUATION.

No Candidates Have as Yet Declared Themselves.

The question of who are to be the municipal candidates for the council next year, is now in order. Everything is singularly quiet at present which no doubt is the calm that precedes the storm. Ald. McWilliams will be a candidate for the office of Mayor, and it is doubtful whether or not he will have opposition. Mayor Davis no doubt will be urged to stand once more, but it is known that he is not ambitious for a third term. Mr. James Kendry is said to covet the position, and may consent to run. If so, a fierce fight will be on.

In the council many old faces will disappear Aldermen Weir, Corkery, Sawers, Denne and Best will probably seek re-election and Aldermen Langford, Hall, and Neill will retire.

◆

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 163 Hunter St.; from Wednesday, Dec. 13th to Saturday Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

◆

The Nicholls Hospital.

The following is the Lady Superintendent's report for the Nicholls hospital for the month of November:—

No. of patients remaining in the hospital	19
No. treated	51
Pay patients	27
Free patients	24
From town	29
Other places	22
Cured	230
Improved	1
Died	1

Dr Eastwood attending physician for the month. Drs Halliday, Boucher, King, Pigeon, Greer, Carmichael, Scott, Brown and Bradd attending private patients.

◆

PERSONAL.

Mr. S. R. Armstrong was in Belleville on Thursday.

Game Warden H. K. Smith is seriously ill at the Belleville hospital.

Mrs. T. F. Matthews and children have been spending the last few days in Lindsay.

Miss Louie Stanley, of Hunter street, left town yesterday on a visit to her aunt, Mrs. W. S. M. Turner, 202 Robinson street, Toronto, and will be away for a week or two.

The Port Hope Guide announces that the Rev. W. R. Young, pastor of the Methodist church in Port Hope, has accepted the unanimous invitation to that church to remain with them another year.

The lady organizer of the Companion Court I. O. F., has been in town for the past week in the interest of the order, and has met with fair success so far in obtaining applications to form a court. It is commended as a good society and seems destined to become popular, not only in the United States, where it is growing rapidly, but also in Canada, and the ladies of Peterborough are interested in establishing a court in this town.

◆

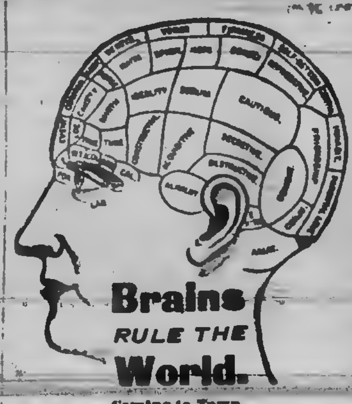
PLEASUREABLE ANTICIPATION.

When Food is Used in Moderation.

If you are one of those who have eaten too freely of Grape-Nuts and have been satiated we have a word of help and advice for you.

It is a concentrated food and the system requires and can handle only a small amount at a time.

If too much is taken nature revolts against the overloading. Be moderate and enjoy the food day by day. It is too valuable to your system and to your sturdy health to give over. It is a common fault for people to overeat candy or any other delicacy at some time in life and from an excess be driven to abstinence. But with Grape-Nuts it will richly repay you to start again on the fixed allowance of not more than 2 heaping teaspoons for the cereal part of the meal and so long as you use the food in moderation you will stick to it and look forward to the meal with pleasurable anticipation. Remember Grape-Nuts furnishes the most delicious tasting cereal food known, and contains the certain elements nature uses for repairing and rebuilding the brain and gray matter in the nerve centres. The steady and moderate user of Grape-Nuts can depend upon daily nourishment of the kind that gives one that feeling of reserve strength so essential to a successful active brain worker.



Coming to Town.

Prof. A H Welch the renowned character reader will arrive in the city this evening and be staying at the Oriental Hotel for a week or two where he may be consulted, hours 10 a.m. to 10 p.m. Lecture in the Y. M. C. A. Hall. Watch for bills.

◆

LITTLE LOCAL LINES.

Municipal nominations three weeks from yesterday.

The pavement investigation was resumed yesterday afternoon.

There was no session of the police court yesterday.

Rev. Mr. Symonds' Bible class will meet in the Y.M.C.A. building this afternoon at three o'clock.

Read the Times Bookstore full page advertisement in this paper. It will interest you.

The water has been let out of the Little Lake in order to facilitate work on the canal.

The steamer Rainbow is still hauling wood to town.

The coal merchants are praying for cold weather.

Merchants are complaining of poor business.

Store rents should come down they are altogether too high.

The Stanley Piano Co., has had its building lettered on the front and both sides.

The new tank at the C.P.R. can fill a tender tank in one minute and a half.

The Matthews Co. is getting in a great number of hogs these days. 8 car loads came in Thursday and four to-day from outside points.

We are pleased to learn that Mr. Thos. Fortye, who was reported to be laid up with typhoid fever, is somewhat better. No typhoid symptoms have yet appeared.

The Idyl-Wild hotel, destroyed by fire a few days ago, will, it is said, be rebuilt in the spring.

Engineer Rust, of Toronto, has reported on the Lindsay water works, placing the value at $72,000. The town propose to purchase them at $70,000.

The Times was yesterday favored with a call from Mr. G. B. Hilliard, of Lakefield, who spent half an hour in our sanctum. Mr. Hilliard states that the Times is eagerly looked for every morning by the people of the village, who have long since come to regard it as the brightest and best local paper.

◆

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your health, the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and home-made. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

◆

THE T. EATON Co. LIMITED

190 Yonge Street, - - TORONTO, CAN.

PLAYINGWITH FIRE.

A Suggestion which Puts Evil into the Innocent Mind.

"Now, Johnnie, don't you play with the fire while I'm out."

And after she goes Johnny proceeds to do just that thing, and there's a hot time in the old town that night.

He hadn't thought of playing with the fire until his mother suggested it.

It's just that way with some evil spirits who have been belittling and libelling the Times. We know of cases where they have by hints and innuendos kept merchants from using our columns, and thus do the merchants as well as ourselves a lot of harm. Remember the Times is printed in the morning, and has a circulation covering all the country villages, in addition to its town circulation. It is the popular paper of the town, and is practically read by everybody. Our mailing lists are open for inspection.

◆

New Mud Lake Bridge.

Mr Collingwood Schreiber, Deputy Minister and chief engineer of railways and canals for Canada arrrived in town yesterday morning. His business is in connection with the new bridge over Chemong lake. He drove out to the lake accompanied by Mr R B Rogers, Ald McWilliams, Warden Hawthorne, the chairman of roads and bridges committee of the Couny Council and others. He selected the Kelly site as the one for the bridge. In the afternoon the deputy minister visited the lift lock and other points on the canal.

◆

To Elect Trustees by Popular Vote

Orillia school board has taken advantage of recent legislation, and has passed a motion authorizing the election of school trustees by popular vote of the ratepayers of the entire municipality. In introducing his motion Trustee Evans said that its adoption would do away with the twisting and pulling for ward honors and improvements. Another advantage in his opinion would be that the best men would be the successful ones at the polls.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal," will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $35,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 24th November, 1899.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

A Course of Lectures.

The Lindsay Collegiate Institute has organized a course of four lectures for the season of 1899-1900. The first of the series will be by Sir Charles Tupper, on "The Past, the Present, and the Future of Canada." Sir John Bourinot, Mr. J. H. N. Bourassa, M.P., and Hon. David Mills complete the list for the season. Sir John Bourinot will lecture on "Canada's Debt to the United Empire Loyalists," Mr. Bourassa on "The Contribution of the French-English Races to the making of Canada," and Hon. David Mills on "The English in Africa." This is the third season for the Collegiate Institute to organize a lecture course, and the success of the past is a proof that this broader view of its functions is fully appreciated.

VOL. 25.—NO 281. PETERBOROUGH, ONTARIO, MONDAY, DECEMBER 4, 1899 PRICE TWO CENTS

SERIOUS NEWS FROM NORTHERN SECTIONS OF CAPE COLONY!

The Whole Border District Between Colesburg Burghersdorp Has Declared for the Transvaalers.

GEN. BULLER'S PROCLAMATION TRAMPLED UPON.

Canadian Regiment Ordered to Belmont—New and Apparently Substantial Reports of Joubert's Death—No Reliable Details of Battle at Modder River.

(Special Despatches to The Times, 5 a.m.)

LONDON, Dec. 4.—4.30 a.m.—The week opens without a word of war such as the British public is so anxiously awaiting. With a larger army in the field that the country ever before mobilized, it can only be said that the loss of 3,500 men entailed before the enemy's borders have been crossed is a serious matter, and while there is no feeling of despondency as to the eventual result of the war, it is regretfully admitted on all sides that the strength of the Boer resistance has been woefully underestimated

It is now seen that the attempt to hold a useless position at Mafeking was a serious tactical mistake as was also the endeavor to keep the large civil population at Kimberley. Perhaps the brightest spot for English readers to-day is the announcement that President McKinley has designated the son of Secretary Hay to succeed Mr. Macrum in Pretoria. The Daily Telegraph says:—"This appointment is a graceful concession on the part of the United States Government to British feeling. Our country men's interests will be safe in the hands of the new consul."

South African news is now six days in arrears. The censorship does not permit details of the Modder River battle to be transmitted. Some vague statements have been published in Cape Town papers and according to these the Boers numbered 8,000 men and were encamped on both banks of the stream although mostly on the north bank. The British according to these accounts, drove the enemy across the river, compelling them to retreat and established themselves on both banks. These details, however, are too meagre to enable an accurate idea of the engagement to be formed. A despatch has reached London announcing that Lord Methuen is again in the field and it is also said that Count Gleichen, who was wounded in the fighting at Modder River, was struck by a bullet in the neck. Serious news comes from the northern sections of Cape Colony. The whole border district between Colesburg and Burghersdorp has declared for the Boers. In Venterstaad alone more than 2,000 have joined the rebellion. The farmers have formed a commandering committee and talk confidently of a truimphant march on Cape Town. Gen. Buller's proclamation has been torn down and trampled upon, and the loyalists are bidden to hurry to Cape Town to prepare coffee for the rebels.

The official list shows that a modification has been made in the command of the sixth division. Instead of Lieut.-Gen. Sir Chas. Mansfield-Clarke, the commander will be Major-Gen. Thos. Kelley-Kenney, inspector general of auxiliary forces and recruiting with Major-Gen. Knox and Major-Gen. Clements as brigade commanders.

General Kelley-Kenney has had no South African experience.

With regard to Natal, it is still doubtful whether the bridge over the Tuegla at Colenso has been destroyed. There is a report that they drove the Boers off while attempting to destroy it but the probability is that the structure was mined and fired afterwards.

According to a despatch from Pitter's Kraal dated Tuesday, Nov 28, the Boers were then attempting turning movements from Steynsburg and the districts north of Steerkstrop in cooperation with the rebels by way of Maraisburg and Tarkastad against Gatacre's column. The wreck of the troopship Lanore may result in the loss of 350 horses.

GEORGE ST.
TELEPHONE 148

THE QUEEN'S GRIEF.

London, Dec. 3.—According to "M. A." (Mainly About People), the Queen is grieving so deeply over the heavy losses of the British troops in South Africa that she can scarcely be induced to talk on any other topic, and, as a result, she is subject to severe sciatic and other nervous attacks.

TRANSPORTS ACTIVE.

London, Dec. 3.—The transports Idaho and Bavarian, arrived at Natal Port, on Friday. The Cheshire sailed from Cape Town for Port Elizabeth, and the Decanter left the Cape for East London. The Mount Regal, with 1,962 miles has arrived at Cape Town.

BOER REPORT OF GRASPAN.

Pretoria, Monday, Nov. 27.—Via Lorenzo Marquez, Dec. 3.—Commandant Delarey has reported to President Kruger that the Burghers, in spite of their determined defence at Graspan, Nov. 25, were completely surrounded by the British and were compelled to retire. The Boer commander on the western border reports that 12 burghers were killed and forty wounded in the fight at Belmont.

Pretoria, Nov. 26.—Commandant Dutoit sends the following report to the Council of War from Kimberley—"Early yesterday the British made a sortie, supported by cannon and maxims. Under cover of darkness they advanced in the direction of Bloemhof. Two hundred burghers encountered them and I brought up an additional one hundred. 9 burghers were killed and 17 wounded. The British left two on the ground, but an ambulance removed them."

BOERS BACK AT OLD POSITIONS.

Durban, Natal, Tuesday, Nov. 28.—The Natal Mercur publishes the following despatch from its correspondent at Frere—"The Boers have reconcentrated at their old position near Colenso, back of Grobler's Kloof, and everything points to a determined effort to prevent the British crossing the Tuegla River. The reports of wanton destruction of property by Boers looters are confirmed."

MOREE TROOPS ARRIVE.

Cape Town, Tuesday, Nov. 28.—The troop ship Barvarian, from Queenstown, Nov. 10, with Col. Ivor Herbert, Asst. Adjt.-General for the home district, and the foreign military attaches, together with the Connaught Rangers, the First Battalion of the Royal Dublin Fusiliers and a contingent of miscellaneous troops arrived here to-day. Col. Herbert and the military attaches immediately landed and the Barvarian proceeded with the troops, presumably to Durban.

NATAL POLICE ATTACK BOERS.

Pretoria, Tuesday, Nov. 28.—The Boer laager at Derderpoort was attacked last Saturday by a strong force of the Natal Mounted Police. Mr. Barnard, a member of the Volksraad, was killed.

TRANSPORT ASHORE.

London, Dec. 2.—The War Office publishes the following despatch from Cape Town, dated yesterday—"The transport Lanore is ashore on the rocks in St. Helena Bay. The troops have been safely landed, but the horses are still on board. H. M. S. Doris and Niobe with the transport Columbian have gone to her assistance. Col. Kekewick reports under date of Thursday, Nov. 30, that the Bechuana police captured the Boer laager west of Kimberley, Tuesday, Nov. 28. Communication by searchlight with Kimberley has been established with Modder River."

Ottawa, Dec. 2.—The following cable was received to-day by the Governor-General from Sir Alfred Milner, Governor of British South Africa:—

Cape Town, Dec. 1.—Just said good bye to the Canadian contingent. All well and delighted to be going to the front. The people here showed in unmistakable manner their appreciation of the sympathy and help of Canada in their hour of trial.

MILNER.

London, Dec. 1.—The official list of the British killed at the battle of Modder River totals up 438.

London, Dec. 2.—The War Office has received the following from General Forestier-Walker;—

Cape Town, Friday, Dec. 2.—General Gatacre reports no change in the situation.

General French has made a reconnaissance from Naauwpoort to Rosemead. The troops returned to-day.

General Methuen's flesh wound is slight. He is remaining at Modder River for the reconstruction of the bridge. Am reinforcing him with Highlanders and a cavalry corps.

Horse Artillery, the Canadian regiment, Australian contingents, and three battalions of infantry moved up to the De Aar and Belmont line.

London, Dec. 2.—Cape Town advices of the 28th ult. say Methuen's victories have made a great impression on the Colonial Boers. There is no fear now that any more Cape Dutch will join the Boer army.

There are recurring and substantial rumours that General Joubert was killed near Ladysmith on Nov. 10. A correspondent has seen a letter written by a Boer in Pretoria to his wife who is at that town, in which he stated he had just returned from Joubert's funeral.

The Grahamstown Journal publishes a letter from a correspondent with the Free State burghers at Ladysmith, in which he says;—"You will have heard of Joubert's death before this. He was killed by a shell which ricocheted and hit him in the head. He expired soon afterwards. I was standing within ten yards of him at the time."

London, Dec. 2.—The revised list of Modder River casualties, non-commissioned officers and men, is divided as follows;—

Ninth Lancers—One wounded.

Engineers—Two wounded.

Artillery—Three killed, 25 wounded

Second Coldstreams—Ten killed, 56 wounded.

Third Grenadiers—Nine killed, 38 wounded, four missing.

Scots Guards—Ten killed, 37 wounded, one missing.

Northumberland Fusiliers — Eleven killed, 31 wounded.

First Northumberlands — Three wounded.

Second Yorkshire—Nine killed, 44 wounded

First North Lancashire—Three killed, 14 wounded.

Argyll and Sutherland Highlanders—Fifteen killed, 95 wounded, 2 missing.

First Coldstreams—Twenty wounded

South African Reserve—One wounded.

Medical Corps—One wounded.

KILLED NUMBER 73.

London, Dec. 2.—As surmised, the British dead and wounded at the hard-fought battle of Modder River number hundreds. Up to 2 o'clock this afternoon only the bare total, 438, of which number 73 were killed, had been given out. So it is impossible to deduct from the "butcher's bill" such information regarding the nature of the fight as details as to the losses of the different units generally indicate.

From General Forestier-Walker's despatch it is proved that all reports of General Methuen's advances after the battle of Modder River were premature, though, with the railroad working, he should not be long in constructing a temporary bridge. His enforced delay will doubtless be of considerable service in giving his hard-pushed column needful rest, and in allowing the arrival of reinforcements, of which he must be sorely in need, after three such fights, placing hors de combat upwards of a thousand men out of less than seven thousand.

Canadian Marksmen.

General Forestier-Walker's announcement that the Canadian marksmen and other reinforcements have been pushed forward to the neighborhood of the Orange River, to protect General Methuen's line of communications, has relieved much anxiety here, where it was fully expected the Boers would attempt to attack the vulnerable points of the line of communication.

News From Natal.

The latest news from Natal indicates that the bulk of the Ladysmith relief force has arrived at Frere, although there is considerable conjecture as to the whereabouts of Gen. Clery, whose movements have not been chronicled lately. It is surmised in some quarters that he may reappear in a totally unexpected quarter on the flank or rear of Gen. Joubert's force, which is supposed to be concentrated at Grobelaar's Kloof, north of the Tugela River. As Gen. Hildyard's advance guard was in touch with the Boers as long ago as Tuesday last, developments should not be long delayed

Dundonald's mounted force on Nov. 28, accompanied by four guns, went in pursuit of a body of Boers returning to Colenso. The followed the Boers to within 2 1-2 miles of Colenso, when the Boers replied to the British shells with long-range guns. There were no casualties. Colenso bridge was afterwards blown up

Another detachment of 3,000 British troops sailed for South Africa to-day.

Owing to the phenomenal sale of the newspapers consequent upon the war, a paper famine is threatened. It is reported that the American supplies have failed temporarily.

ANXIETY IN LONDON.

London, Dec. 2.—Anxiety here over Lord Methuen's troops is most intense. People do not know what to believe. They are all groping in the dark, and as usual in such circumstances, are fearing the worse.

The belief is gaining ground that General Methuen's losses at the battle of Modder river were very severe, in fact, there are many who believe them to have been enormous. The absence of the slightest shred of information on this head has increased the general uneasiness, and every day the War Office is crowded with friend and relatives of the British soldiers in both eastern and western campaigns Methuen's urgent call for heavy reinforcements right on the heels of his report of the battle, has convinced even the most optimistic military experts here that his three hard fights have so depleted his ranks that it is impossible for him to push on past Modder river without 2,600 men hurried to him by General Forestier-Walker.

HORSES IN BAD CONDITION.

London, Dec. 2.—Special—Cape Town Nov. 28.—The bad condition of the British cavalry horses alone prevented the complete annihilation of the Boer force at Belmont. The English horses reached here with swollen and stiff joints. The Australian horses, however, arrived in good condition. This was especially true of the mounts of the New Zealanders, the best mounted contingent yet landed.

METHUEN'S ADVANCE.

Chicago, Dec. 2.—Special—The Record has the following special from London;—The extent of the victory claimed, and doubtless rightly, by Gen Methuen is still doubtful, but it is considered here that Kimberley is practically relieved, and it is unlikely there will be any very serious opposition to Methuen's continued advance. The Boers are unlikely to run the risk of making a stand against a considerable force, with active and aggressive garrison a few miles in the rear. If they do, however, Steitfontein is most likely to be the position. It is more likely, however, they will operate on Methuen's right flank or his line of communications, especially in view of the importance of the latter

There is a good deal of satisfaction expressed here at the news that railway communication is now practically restored with Modder River. This is of immense advantage, as it will enable supplies to be sent direct from Cape Town, and refugees now in Kimberley can be sent to the coast with little trouble as can also the sick and wounded. Sir Alfred Milner's suggestion to the Refugee Committee in Cape Town to arrange for the reception of 8,000 to 10,000 refugees from Kimberley explains the urgency of Methuen's advance. So many refugees must imperil the safety of Kimberley and lead to starvation and disease.

No News From Natal.

There is no news of importance from Natal later than Monday. General Hilyard seems not to have advanced north from Frere to Colenso, as was supposed here, and the Boers seem to be strongly entrenched. The Frere railroad bridge was badly wrecked by the Boers, and three day's repairs were necessitated by it. Meanwhile Hildyard's and Barton's forces have consolidated, and the bridge, which was tolerably new, has been restored.

Should the advance have taken place fierce fighting is imminent, as the Boers are expected, according to Pietermaritzburg despatches, to make a stand south of Tugela. It is hoped here that this is true, as they would then but play into British hands, as the flooded Tugela in the rear would mean a crushing disaster. So it is thought that the Boer commanders are too cautious and well-advised to adopt an obviously dangerous plan. Experts think fighting will all be north of the Tugela, and cannot be much longer delayed

General Gatacre's brief quotation, "Situation unchanged," is disappointingly vague to experts here, but it doubtless means more to the authorities, who are exactly acquainted with the disloyalty of the Cape Dutch! It is believed civil rather than military difficulties are hampering Gatacre, for the Free Staters seem to be retiring gradually under the pressure of our increasing strength. It seems unlikely that they will be able to hold Steynsburg and Stormberg, or make a stand south of Orange River. It is probable though that Gatacre has not advanced, and will not until he is substantially reinforced.

Good News From Mafeking.

The news from Mafeking is satisfactory. It was clear a week ago that Colonel Baden-Powell had no idea of surrendering, still it is beginning to be felt that his position is more critical. Unless the Boers voluntarily raise the seige it is not seen howthe garrison can be relieved before Christmas at the earliest. The military officials here are hinting that Mafeking may possibly fall, and it is admitted it was a mistaken policy to ever have ordered it held. Certainly Baden-Powell, by his plucky defence, has gained the highest encomiums at home of any leader since the beginning of the war.

Elected Vice-President.

Mr. Lionel King, of this town, had the honor of being elected Vice-President of the Ontarion Hockey Association on Saturday last at the annual meeting of the Association.

PRUSSIA AND AUSTRIA

A Collosal Political Deal Now On the Wing.

AUSTRIA TO DISAPPEAR.

Emperor William's Big Scheme to Absorb the Austrian Empire.

An Alliance With France and Russia—France to Receive Back Lorraine and Russia to be the Head of a Great Slav Union

(Special To The Times.)

Rome, Nov. 5.—Questions of an international character are at present keeping the Vatican court very busy. The Holy Father, whose mind is open to all new currents, feels that stormy days are drawing near for the Catholic nation and the Lation races. It is impossible to ignore the fact that if England has undertaken the war to absorb the Transvaal it is only because the Kaiser has authorized her to go to the very end, without risk of interference. What compensation have Cecil Rhodes, Mr. Chamberlain and Lord Salisbury promised to Germany? On what ground have the Anglo-German forces united?

That is the disturbing mystery. It is believed in well informed quarters that there is ground to fear that England will give Prussia free hand in her scheme for the future conquest of Austria. In the very first skirmishes of the "los von Rom" party the Vatican was able to make out that that anti-Catholic religious movement was merely one form of Pan-Germanism. Opposed to the dynasty, Protestant-loving Germany, the party of Wolff and Schronerer, shamelessly exposed its design of having the northern provinces, as far as and including Trieste, incorporated in the German Empire.

This policy of treason and terrorization had openly the material and moral support of the Lutheran pastors in Munich and the rest of Germany. The interchange of ideas and aid between the two groups was established permanently. The separist movement failed. The Lutheran Synod itself has admotted with official figures that instead of wholesale abjuration the conversions have been no more than three thousand. What is more essential, however, and what will be an enormous force in case of complications, is the fact that Prussia has an active army on the banks of the Danube. She has confederates in the fortress. The work of gradual investment recalls the mysterious relations of Prince Bismark with the official journals of the Second Empire up to the time when the Chancellor suspended payments and those journals muddled the clear stream of patriotism by their cries for revenge, "On to Berlin!"

Parallel with this Austro-German "los von Rom" tendency, there is spread everywhere the watchword, the international dogma so long as Francis Joseph lives, that Austria cannot escape dissolution. The ready made theory is found everywhere, on every lip. A secret general propaganda has made it an axiom of European politics. If some independent thinker expresses a doubt, he is greeted with contempt; he is behind the times. In France this deadly idea has been accepted in the most ingenious and friendly manner. French political men, however little connected with parties talk with satisfaction of the event, as though it were fated in history.

Whence arises the general conviction? who has created this death-bringing atmosphere? It seems that the Free Masons in all countries have allied themselves with the Pan-German party. In Italy Signor Luzzati spreads the foreign doctrine. In France it is M. Leon Bourgeois. The Vatican has no doubts as to its being in the presence of an international conspiracy against a Catholic nation. Looking at the matter from that standpoint it is very much concerned about the Kaiser's plans as regard the Centre, the Church and the ecclesiastical hegemony of Germany. Some of the Kaiser's speeches have seemed to superficial minds so eccentric as to excite a smile, but the Vatican has not Dr. Pangloss's optimism. The dreams of hegemony have a direct relation to the approaching crisis in German diplomacy. Since Austria's German-speaking provinces and Trieste are Catholic, and since Germany intends to establish a Holy Roman Empire, the sovereign's conduct is merely the prelude to some great action in which all Europe is involved. Once installed at Trieste a promise of the restitution of the Patrimony of St. Peter will be made to the Holy See; the promise will be spread abroad, so as to secure, if not the support, at least the neutrality of the Pope.

Though at Rome they are sure of the existence of this plan, they do not yet know how it will be carried out. To accomplish her end Prussia must find France either powerless to interfere or else a consenting party. Negotiations are at work secretly on the establishment of a Franco-Russo-German understanding of the following basis—France to receive back Metz and Russia to carry through the federation of the Slav races under the protectorate of the Czar, and Prussia to swallow the Austrian provinces. Can France share in this repetition of the partition of Poland?

I cannot tell. Metz as a compensation is ridiculous. The day when the country is shut in by the enlarged German Empire, with Trieste in the south and Antwerp in the north without counting Genoa, which Prussia covets, France will be hardly more than a prefecture of the new Teltonic monarchy. The latter would be head of a hegemony on land and sea alike. Why is the Kaiser so anxious for the constant increase of his fleet? William II counts, too, on the powerlessness of the French Government. He wishes to see it degraded in succession by a Kulturkampf and by internal dissensions. That perhaps will be his solution of the problem.

Russia, on her part, even more than France, cannot afford to lend her assistance to this great game. Bulgaria is an example of the gratitude of the liberated countries. What will the federation of Slav races do? Will not Germany, all powerful in the heart of Europe, turn the confederacy against the Czar at the first favorable opportunity? Will she not be obliged to tuirn the tide of Russinatation upon Asia where she has a civilizing task to perform. It seems that at Berlin they count much on Count Mouravieff, whose hope is to loosen slowly the bonds between Paris and St. Petersburg and to bring Germany and Russia closer together.

Just now it would seem as if Germany were certain of England, who on her side has made sure of the friendliness of Berlin in the Transvaal business. Against the Franco-Russian alliance William II. is employing the policy of becoming an arbiter, the policy, that is, of keeping his hands full. By means of that contradictory association he counts on attaining slowly, with leaden steps, the realization of the master aim of his reign.

This information, obtained from sources that have always been trustworthy, will seem perhaps extraordinary, if not extravagant, to practical minds. The near future will reveal the real character of the present situation.

—Innominato.

MURDER AT THE CENTRAL.

A Convict Ferociously Attacks a Prisoner.

Toronto, Dec. 3.—At half-past four o'clock yesterday afternoon a Central Prison convict named Arthur Cardinal, now serving a fifth term, having been sent from Ottawa for one year in May last, concealed himself in the cell of another prisoner named John Hughes, a lad of only 16 years of age, who with his father, James Hughes, was sent here from Lindsay for six months on a charge of vagrancy, and with a 16-inch bladed knife, obtained by stealth from the kitchen, stabbed him so furiously and repeatedly that his victim's life has undoubtedly been sacrificed.

Cardinal was employed as a cleaner in one of the wings and young Hughes was a messenger. Earlier in the day there had been some altercation between them. Cardinal alleged that Hughes told lies about him.

At the hour named above the prisoners go to their cells. Cardinal slipped up very quietly and entered Hughes' cell to await his victim's arrival. When the latter came the other leaped upon him and stabbed him twice on the head, and again on the neck, shoulder and back. Hughes' screams of pain and terror brought the guards on the run and Cardinal was overpowered, disarmed and placed in solitary confinement. Dr. Sloan, the prison doctor, and Dr. Harris were summoned, and Hughes was put in the hospital. His injuries are terrible. One gash had cut out a part of the skull and exposed the brain. During the night he began to sink, and this morning when Crown Attorney Dewart, and Alexander Downey, official stenographer, went up to get his ante-mortem statement he was unconscious.

In 1897, while servin ga term at the Central Prison, Cardinal clubbed another prisoner and for so doing was tried and sent to the Kingston Penitentiary for two years.

Father Walsh went up to the prison today to administer the last rites, but, Hughes being insensible, the reverend gentleman went away again.

There is practically no hope of the lad's recovery, and if he dies Cardinal will be tried for murder.

A BOY HERO.

Trumpeter of 5th Lancers Shows Bravery

London, Dec. 4.—Every campaign in which England engages develops some individual act of heroism that stirs the British blood throughout the entire empire and sets tongues going in ceaseless praise of the hero. The latest instance of this was furnished by Piper Findlater in the war against the Hill tribes of India. At Dargai, where the Highlanders were charging the tribesmen, Piper Findlater was shot, but, falling, continued to play on his hornpipe the charge. His regiment, stirred by his bravery, went on up the hill and captured the point attacked, and Findlater returned to England to be personally honored by the Queen herself.

It was expected that true to English precedent, the Boer war would call forth some similar act. But no one expected that it would be as soon as it has. John James Shurlock, of the Fifth Royal Lancers, is the hero, and he is a trumpeter in the service. He is a mere lad of sixteen summers, but he did a days work of which any man of mature years would be proud. And justly so.

It was in the fight at Elandslaagte, when the Lancers were so severely set upon by the Boers. They were hard pressed, and it developed upon Trumpeter Shurlock to sound orders on the bugle. As he raised the instrument to his lips he was set upon by three Boers at once. He saw he could not blow the blast so he slung his horn again and drew his revolver. It took the coolest kind of work to avoid the first of his assailants. As he dodged the blow aimed at him he fired his weapon point-blank in the face of the burly charger. Down the fellow fell in a heap at his feet. With an instant's hesitation he turned to the next and shot him clean through the heart, and as the third engaged him he warded off the point of the bayonet with his open hand and shot the fellow through the shoulder. Then, without the slightest delay, he sounded the order that held the Lancers firm and kept them from any possibility of retreat that might have ended in dishonor

It required the nicest courage to withstand such an attack successfully. It not only took the nicest courage, but it took the nicest accuracy of aim with a revolver. Had he missed any-one shot he must have paid the forfeit with his life. It would have cost him more perhaps, that which he valued more than his life. His wound was quite a severe one, but it was soon dressed in the hospital, and he is now doing nicely with the prospect of a distinguished service ahead of him and a Victoria cross.

The little fellow is a born soldier, being bred in the service. He is the son of a trooper in the Fifth Lancers who lost his life by an accident in the service several years before. He enlisted in the army when he was fourteen years of age, with the full consent of his widowed mother, who is herself the daughter of Sergeant John Progett, a soldier with a record of thirty-one years including distinguished service.

Morning Times

PETERBOROUGH, NOVEMBER 16, 1899

TO THE PUBLIC.

The Times has completed arrangements for a telegraphic service by which it will be supplied with the news up to 2.30 o'clock each morning. In other words we will give the same news as is found in the Toronto morning papers of the same day, five or six hours in advance of them.

We think we are entitled to the hearty support of the citizens in our efforts to supply them with a bright and newsy morning daily newspaper. We always give prominence to Canadain news, but besides being loyal to its own country, the Times claims the entire support of the people of Peterborough and surrounding towns and villages on account of its fearless attitude on all public questions. We cannot do otherwise than regard with serious misapprehension the position of the town of Peterborough, with its decreasing population and rapidly increasing debt. It is not pleasant to be told that there are nearly two-score empty stores in the heart of the town, as well as a large number of tenantless houses. But the truth must be known in order to discover the cause, and, if possible, secure its removal, even at the risk of offending some of the gentlemen whose interest it is to keep such matters hidden.

Any newspaper can pass compliments and ladle and taffy to those who have printing contracts to let, but it requires a certain amount of backbone to tell such men as Ald. Neill, for instance, that his conduct in sending Messrs. Adam Dawson and James Montgomery, two local contractors to Toronto to figure on the Rubber Company's building at an expense of some five dollars each, and billing the town $20 therefor, is not creditable or honest; that the roadwork done in the vicinity of his and the Mayor's residence during the past season, while other much more important thoroughfares are overlooked does not furnish evidence that they put the people's affairs before their own. It is an easy matter for the goody-good evening papers, who regard journalism chiefly for what there is in it to speak in flattering terms of Ald. Langford when he is right, and when he is wrong, to be mum as an oyster. Our contemporaries have no word of reproof for a man who is Alderman and contractor at the same time; who by his own shewing knew of wrong-doing in connection with the streets and said nothing. They leave all such matters to the Times, and while it is unpleasant in a way, the Times has always endeavored to do its duty without regard to personal or other considerations. In the larger sphere of Dominion politics, this paper has always endeavored to speak out fearlessly. It conscientiously opposed with all its might, the remedial legislation proposed by Sir Charles Tupper in regard to Separate Schools in Manitoba, with the result that at least two of the prominent Roman Catholic storekeepers of the town, who were formerly our customers, have never since darkened our doors. These men, in their bigotry and narrow-mindedness, are evidently incapable of doing justice to one who thinks and acts for himself. They do not seem to comprehend that the Times holds no ill-will to them or their creed, and that the great principle that if we are to have a united people we must have a united school is sound. There are scores of good, honest Catholics and Protestants who would be glad to know the names of these merchants, that they might give them a little taste of their own medicine. But it would only serve to create discord by revealing their identity and we refrain from doing so at present. All we ask is the support of the honest, broadminded men who regard our efforts with favor, and who are interested in the advancement and prosperity of our town and country.

In conclusion we may simply add that if we get the support which we expect, and to which we believe we are entitled it will not be long until we we will produce a morning daily newspaper that will be read from in all the important points between [illegible]

Dear reader, we ask you therefore, to fill in the following blank and mail it to us, or leave it at the Times office.

Date.............................1899.

Times, Peterborough—

Please send the Daily Morning Times to the address below, for which I agree to pay $3 per year.

Name...

Street No., or P. O.............................

If you are already a subscriber, take enough interest in the matter to get a friend or neighbor to subscribe. We want as many new subscriptions as early in December as possible. You can enclose 75c. which will pay for three months, or pay for the full year, if you wish, or, if not convenient, send the order in, and let the cash follow at your leisure.

THE VOTING MACHINE.

A committee of the Ithaca, N. Y., Common Council has investigated the voting machine and reported that it is a simple, reliable, and durable and convenient apparatus for its purpose. The machine compels the deposit of a perfect and accurate ballot, of the form chosen by the voter. It restricts the voter absolutely to the limits of the law and permits him freedom as absolute in voting within that limit. Blank and defective ballots, the usual fault of ordinary methods of voting are entirely done away with, and no man loses his vote through defect of the system, or fault of his own if he votes at all. The disfranchised voter becomes unknown. Fraudulent voting is impossible as well as errors in voting. The vote cast is registered, vote by vote, with absolute accuracy and certainty. The result can be declared immediately upon the close of the polls, having been already completely counted. The cost of the system is so much less than that of the old method that the machines usually pay for themselves in from three to seven years.

As this committee says further, the machines retain all the virtues and exclude all the vices of the old methods of balloting. This machine will surely find favor wherever Preston's has been. 'Had it been at work in West Elgin last March, there would have been no need for a bye- election in December. A machine is needed throughout Ontario to exclude the vicious methods of the Preston variety.

THE NEW YORK WORLD,
THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism — "America's Greatest Newspaper," as it has been justly termed —The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

A Dead Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

Tallow, rendered, per lb., 2 1/2 to 3c.

KEENE.

Departing Residents Given a Cordial Send Off.

Mr. and Mrs. John W. Humphries, who have been residents of Keene for some time, left on Monday last for Acton, where Mr. Humphries has leased a flour mill and where he will reside in the future. Mrs. Humphries has long been an active worker in the Bethel church of the Keene circuit, and her fellow church-workers could not let the occasion of her departure from the village go by without expressing to her their high appreciation of her faithful work. On Sunday morning Mrs. Humphries was presented with the following address, on behalf of the Bethel Sunday school and Epworth League by Miss Bella Nelson, secretary

To Mrs. J. W. Humphries,

Dear Teacher and Fellow-worker,—We, the members of the Bethel Sunday school and Epworth League, feel that we cannot allow you to sever your connection with us without expressing in some measure our gratitude for the services you have rendered us as organist and teacher in our school, and a faithful member of our League. We regret that the time has come when we must lose a highly esteemed friend and fellow-worker, who has been associated with us in so many ways from childhood until now, but we know that our loss will be others' gain

As a class we always knew that in you we had a sympathetic friend, ever ready to aid us in the removal of difficulties from our way, and never wearied of impressing spiritual truths on the minds of each, and bringing before us the beautiful character of Christ in all His love and mercy.

Our sincere wish is that God will watch over you, that you may be a living witness of our Saviour, and a faithful servant in His vineyard.

Though we shall be separated by distance we can work together in the service of our Master, and we earnestly pray that wherever you may be, your tireless efforts for the salvation of souls may be rewarded by God's richest blessings.

Although we may meet no more on earth we hope to meet at Jesus' feet, and receive the "Well Done, Good and Faithful Servant, enter thou into the joy of the Lord."

Signed on behalf of the Sunday school and Epworth League:—Samuel Armstrong, Superintendent S. S.; Herbert Patterson Pres. of League; Bella Nelson, Sec.-Treas. of League; Lena Reid, George Patterson, Edithe A. Armstrong, Lizie Nelson, Nellie Shearer, ex-Pres. of League.

Holiday Books.

If you are looking for bargains in books come to us. Have just received a choice lot of books, handsomely bound as follows: Cloth with artistic stampings in colored inks and gold; English Vellum English silk ribbed cloth; uniform cloth; also a choice lot of embossed padded leather covers. The books are just what you will be looking for for Xmas pesents. Come early and get first choice. Times Bookstore.

The GRAPHOPHONE

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment.

Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

THE FALL OF RICHMOND.

A Graphic Description of the Confederates Evacuation of Their Capital.

An interesting description of the fall of Richmond, the capital of the Southern Confederacy, is given in the current number of the Woman's Home Companion by Edward Page Gaston. On Sunday, April 2, 1865, Jefferson Davis, while attending service at St. Paul's Episcopal Church, received a dispatch from Gen. Lee at Petersburg, notifying him of the precarious condition of the Confederate forces at that place and intimating that it might be necessary for the Confederate government to abandon Richmond. Mr. Davis left the church and summoned his cabinet around him at the Capitol.

"A brief conference," says Mr. Gaston, "was held, after which preparations were immediately pushed for the removal of the executive departments to Danville, Va. Eight railway trains were summoned by telegraph to be in readiness at 8 o'clock to carry the archives and treasures. Hearses and wagons were pressed into service for moving the government properties to the railroad yards, and the streets were thronged with citizens seeking to escape with their belongings. As much as $100 in gold was paid in hire for vehicles. It was a throng of fear-fed fugitives, fleeing many knew not where.

"The banks were all open on that Sunday afternoon, busy with customers removing their deposits of specie, and from their vaults wagons were loaded with silver, gold and securities. Confederate money had already sunk so low in purchasing power that hundreds of thousands of dollars were destroyed, and it entirely ceased to pass current in Richmond a few days afterward.

"Darkness came down, and with it a wilder chaos. There was no sleep for Richmond that night. The City Council had wisely ordered all liquors destroyed, and the street gutters were swollen with pungent floods. Some retreating soldiers managed to procure a quantity of the intoxicants, and from that time law and order ceased. Pillage of stores and residences began, and the night was hideous with the orgies of lawless marauders as the community floundered helplessly in its wild disorders.

"This was but the mild beginning of the hell that was to rage in Richmond on that most terrible time in history. Fire began to light the scene with its dread beacon, for military orders had been given to torch the four principal tobacco warehouses to prevent their stores falling into Federal hands. This meant the certain destruction of a large part of the city, as licks of flame and faltering funnels of smoke appeared in various quarters late in the night, and it was but a short time until the heart of the city was a roaring field of flame. Tremendous explosions towards daybreak told of the blowing up of the arsenal, army and government laboratory. The fire finally burned itself out on the following afternoon with a total destruction of 700 buildings. The armored rams on the James River were blown up to prevent their capture, together with all the Confederate shipping, with the single exception of a truce steamer. After the government had gone the commissary department was thrown open to the hungry population with its appetite and greed whetted by months of short rations and want. Onlyt he day before shad had sold in the Richmond markets for $50 a pair in Confederate money; half a hundred dollars would hardly buy a chicken, and potatoes were $75 a bushel. The struggling mob of men, women and children gathered for the distribution thus secured the means for the first full meal many of them had enjoyed in the months of seige. The clamorous crowd was also given large amounts of clothing and other abandoned stores

"Simultaneously with the evacuation of Richmond the defending forces withdrew from its front, and Monday morning saw no gray uniform on the city's defenses When day had begun to add its dim dwan to the ghastly glare of the burning city, an excited shout of 'Here come the Yankees!' rose on the outskirts of the town as a troop of 40 cavalry cautiously pushed into the wreck-strewn streets. They met with no resistance, and on a clattering trot proceeded to the capitol where two guidons of the Fourth Massachusetts Cavalry were slipped upon the halyards. With a cheer they were pulled to the top of the flagstaff and the Stars and Stripes floated over the late capitol of the Confederacy."

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a graphophone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return as much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 39 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street, Buffalo, N. Y.

AN ASSASSIN'S DEED.

Revolutionary Leader Slain in a Treacherous Manner.

Manila, Dec. 1.—The steamer Salvador, from Zamboanga, Island of Mindano, which has arrived here, brings details of the occupation of the town by Commender Very, of the United States gunboat Castine. The revolutionists in Mindanao were led by Alvrez and Calixto, who left Luzon some time ago and for the last seven months had been stirring up the people and winning a considerable following. The commercial depression and the lack of food resulting from the island's blockade set the people against the revolutionists and culminated in the asination on Nov. 15 of Calixto, a firebrand and the real leader of the revolution, by Midel, Mayor of the town of Tetuan. Midel, under a pretext, secured Calixto's presence in Tetuan, and when Calixto was within a distance of thirty yards from the point where the Mayor's guards were stationed the latter fired a volley, killing Castilo instantly. Midel at once repaired to the Constine and arranged with Commander Very for the occupation of Zamboanga. Commander Very asked that Datto Mundi with 500 of his followers stationed on a neighboring island come to Zamboanga. The following morning Midel raised the American flag over Zamboanga, the insurgents offering no resistance and evacuating the town. The Castine was saluted with 21 guns and Commander Very landed a hundred bluejackets and took possession of the town and of the fortifications. Datto Mundi's men arrived in the afternoon. They were armed with wooden shields and swords and were used on picket duty only.

On the afternoon of Nov. 20, Midel called a meeting of the local chiefs, who formally deposed Alavrez as leader of the revolutionists in the island and electedd Midel president of the insular Governemt established under American sovereignty and control.

Washington, Dec. 1.—General Otis' advices to the War Department to-day show that the advance into the interior is being vigorously pushed and the American troops continue to drive back and disperse the scattered bands encountered. He states that Captain Warwick, 18th Infantry, was killed in an engagement atP asal, Iloilo province, on the 26th inst.

GERMAN ALLIANCE.

What the Papers of Paris Are Saying About Chamberlain's Speech.

Paris, Nov. 1.—Some of the newspapers attach considerable importance to the utterance of Joseph Chamberlain at Leicester yesterday, and consider that they show that Emperor William's visit to England was partially political. The majority, however characterize certain of Mr. Chamberlain's declarations as empty threats and regard the suggestion of an alliance between Great Britain, the United States and Germany as simply eccentric.

The Matin observes that Mr. Chamberlain alludes to the alliance as an accomplished fact and as being his work, and "seizes on the opportunity to address threats to France, which leave us as unmoved as does the famous prospect of a new triple alliance."

The Journal urges the recall of Admiral Fournier's squadron from the Levant, in view of "Eventualities which may result from the present anti-British campaign in France.

Fight With a Burglar.

New York, Dec. 1.—John B. Brooks and his wife, of New Milford, N. J., returned home at two o'clock yesterday morning, after a visit to friends in Hackensack. They found a man in their house ransacking the drawers in their bedroom. The man fled by an open window to the roof of the piazza, where he was caught. Mr. Brooks seized him and dragged him and dragged him into the room, where for several minutes they struggled in the dark.

Mrs. Brooks got a light, and then assisted her husband to bind the robber, who proved to be James Ferguson. He had been in the employ of Mr. Brooks for four days, and had been told that Brooks kept considerable money and jewelery in the house.

When Mr. and Mrs. Brooks reached the house the wife tried to persuade her husband from encountering the robber, whose shadow they saw on the window shade, but when Mr. Brooks declared his intention to protect his property Mrs. Brooks insisted upon aiding him. Itwas her courage and coolness which finally gave the victory to her husband. When she entered the room with a light Mr. Brooks had Ferguson by the throat and was pummelling him. Mrs. Brooks placed the light on a table and, seizing a chair, went to her husband's assistance. Ferguson then surrendered, Mrs. Brooks assisting in tying him, and he was taken to Hackensack jail.

Ferguson's face was severely cut by a ring on the hand of Mr. Brooks. Mr. Brooks did not escape without damage, as a bone in his right wrist was broken by a blow he struck the burglar.

During the day Mrs. Brooks was visited by many neighbors, who complimented her for her bravery, and she received several floral tokens from unnamed admirers of her conduct.

We are pleased to learn that Mr. Thos. Fortye, who was reported to be laid up with typhoid fever, is somewhat better. No typhoid symptoms have yet appeared.

VIVID • HEALTH

Nothing so rare as charity, easily [illegible] and often lost—the envy of all and the grandest jewel in the [illegible] is vivid health. Many a man has [illegible] in the gain of wealth. A loaded purse cannot atone for the deranged liver, the [illegible] step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO

Stimulants and Purgatives cannot cure you, [illegible] the GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood-maker and flesh builder carries a positive GUARANTEE. [illegible] tale of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, [illegible] every phase of mal-nutrition, makes blood and carries fuel and strength to every tissue, and gives back health where once lurked death. COPPER SHARES.

LARGEST DIVIDENDS. SAFEST INVESTMENT.

Boston & Texas Copper Company.

CAPITAL STOCK $2,500,000.

250,000 Shares. Full Paid and Non-assessable.

OFFICERS AND DIRECTORS:

HON. EMERY M. LOW, President.
Manufacturer (Mayor), Brockton, Mass.
GEORGE W. RUSSELL, 1st Vice-President.
Paper Manufacturer, Boston, Mass.
JAS. M. WHEATON, Secretary.
EDW. B. ROBINS, Treasurer.
F. M. SPAULDING, 2d Vice-President and General Manager.

STILLMAN CLOUGH, Capitalist, Lowell, Mass.
F. M. SPAULDING, Boston, Mass.
C. T. CROSBY, Manufacturer, Lowell, Mass.
H. F. BARNES, Manufacturer, Lowell, Mass.
JOHN A. SULLIVAN, Counsellor-at Law, Boston.
CHAS. O. BRIGHTMAN, Contractor and Builder, New Bedford, Mass.
PRESTON R. MANSFIELD, Treasurer Abbott M'f'g Co., Dedham, Mass.
HON. GEO. D. ALDEN, Boston, Mass.
E. A. SMITH, Capitalist, Lowell, Mass.

The Company owns over twelve thousand acres of rich copper land in Texas, opened, tested, developed and NOW BEING OPERATED. Millions of tons of copper bearing clay and marl running from five to ten per cent., and large quantities of ore carrying from fifty to seventy per cent. copper in sight. Cheaply mined and treated, favorable climate, cheap fuel, and ample water. Stated by geologists, chemists, experts and engineers to be one of the greatest and best in the world. Amount of land, quantity and quality of ore, cheapness of mining and treatment, the increasing demand and profit in producing copper considered, the Boston and Texas Copper Company possesses unequalled advantages and affords the best kind of an investment.

This Company can produce copper as cheaply as any in the world.

COPPER MINING IS THE SAFEST AND MOST PROFITABLE OF ALL INDUSTRIES.

Calumet and Hecla ore averages 4 1-2 per cent. copper. It has paid $62,850,000 dividends
Tamarack ore averages 3 per cent. It has paid $5,910,000 in dividends.
Atlantic ore averages 85-100 of 1 per cent. It has paid $780,000 in dividends.
Boston and Montana ore runs 7 per cent. It has paid $10,775,000 in dividends.
Franklin ore averages 1 37-100 per cent. It has paid $1,290,000 in dividends.
The Quincy ore averages 1 8-10 per cent. It has paid $11,070,000.

THE AVERAGE OF BOSTON & TEXAS ORE IS OVER 50 PER CENT., and of copper marls and clays from 5 to 10 per cent. Both the ore, marl and clay are within a few feet of the surface of the ground, so that the expense of mining and hoisting is minimized. A party of New England capitalists who have just returned from an examination of the mines in conjunction with one of the ablest mining engineers in the country, report the property to be one of the largest and best in America, and to contain inexhaustible quantities of rich copper deposits.

It is estimated that the plant now being arranged for will produce $3,000 to $5,000 per day, NET.

Prospectus, engineers' reports, assays and full information will be furnished on application. Remit by check, P. O. order, draft or registered letter to Treasurer.

Limited amount of stock only at $5 per share, full paid and non-assessable, by immediate application.

GENERAL.

The Colombian revolution is spreading.

The Holland-American Line steamer Statendam from New York, is ashore near Rotterdam.

The increase in the Austrian budget for the army and navy is said to be due to Emperor William's influence.

A Peculiar Sect.

Toledo, Ohio, Dec. 1.—Attorney N.J. Harrington has returned from a secluded spot in a wilderness of Texas, where he went to take the deposition of Mrs. Shinabarger, who has begun action against her husband for a division of a farm. Mrs. Shinabarger went to Texas with some fourteen members of a sect known as "roll flyers." They were under the directions of a roll or chart claimed to be sent them from heaven and indicating a particular spot in the wilderness, containing about 200 acres, which is to be the future heaven after the destruction of the world. Here they have erected a rude pine temple. There is a feeling of unrest in the little colony now. One of the members urged that the chart had indicated a place in Oregon. He was promptly cast out, but the other members are commencing to think that he may have been right.

Erie Mountain Consolidated Mining Co., Ld
Spokane, Washington.

The Erie Mountain Consolidated Mining Co. was incorporated last May under the laws of the State of Washington, and British Columbia, registered, non-personal liability, stock fully paid and non-assessable.

The Company has a large treasury of 1,200,000 shares shares of its stock to be used for development of the five mineral properties which it owns, the same being located in the well-known Nelson, Ymir, mining district near Erie, British Columbia.

Mr. Willis H. Merriam, treasurer of the Company, who has just returned from the Company's property, says that they are opening up a well mineralized ledge 40 ft between walls which are well defined on the "Houlton," and traceable for a distance of fully 1,000 ft. in length. In one shaft which has been sunk only 25 feet, there is a three foot lead of fine quartz from which five assays ranging from $9.05 to $68.10 gave an average of $31.19 gold, copper and silver, and is a magnificent showing.

The "Gilford," another property belonging to the Company, Mr. Merriam says has simply a wonderful showing. There is a huge mineral dyke more than 100 feet in width, on which they hvae run a tunnel for a distance of about 60 feet, this tunnel is being run to catch at greater depth a rich vein which was encountered in the upper tunnel. From this property thirteen assays ranging from $5.56 to $154.03 gave an average of $39.42. The ore from the lower tunnel is growing richer as progress is made, and greater depth is obtained, and with fifty feet further they expect to cut the main lead of rich ore. Mr. Merriam says the company is in receipt of a letter from the Northport Smelter offering to freight and treat their ore for $6.00 per ton. The amount of silica and other fluxing ingredients which it carries makes this ore particularly desirable.

All the properties of this company lie in the vicinity of the well known Silver King, Ymir, Second Relief, and some join the well known Canadian King and Arlington mines.

The "Gilford" is where the main development is now being done lies only about 1000 feet from the railroad, and only about 30 miles from the Nelson Northport and Trail Smelters.

It will be seen that the development of these properties is yet in its infancy, but with their present showing and very favorable location, with transportation and smelters close at hand, make the prospects very bright for this company.

Their principal offices are located at No. 224 Mohawk Block, Spokane, Washington.

Mr. Tarte to Resign ?

Montreal, Nov. 30.—Rumors in regard to Mr. Tarte's ill-health are again flying around. La Patrie, in referring to Mr. Tarte's inability to attend the London banquet, says that he has been indisposed for some days, and suffers pain in the region of the liver. It is rumored that a dissolution is near at hand, and that Hon. Mr. Tarte will, immediately, retire from the Government, and accept a general commissionership of the Paris Exposition, while Mr. Bernier, M. P., will succeed the Minister of Public Works as Cabinet representative from this district. Those who seem to be well posted declare that this is the real reason of Hon. Mr. Tarte's absence from the London demonstration and that Mr. Bernier will have to look after this part of the province when a general election is called.

Engineer Rust, of Toronto, has reported on the Lindsay water works, placing the value at $72,000. The town propose to purchase them at $70,000.

Morgan's Big Fee.

New York, Dec. 1.—The reported deal between the Pennsylvania Railroad and the Baltimore and Ohio is startlingly significant, says The Press to-day. Several months ago when Mr. Morgan and his chief executive, President Samuel Spencer, were in London in the interest of the Southern Railway, a rumor became current that an arrangement had been made whereby the Baltimore and Ohio would either pass under the control of the Southern or enter into an alliance with it that would seriously embarras the Pennsylvanie. One Wall street broker went to the vice-president of one of the systems to make inquiry into the matter, and received a confirmation of the statement. The vice-president was one of his regular customers, and at that time was long of a block of Southern Railway preferred.

It is common knowledge in the street that J. Pierpont Morgan for his fee for reorganising the Southern Railway, accepted $1,500,000 of the common stock at $9 a share. The highest point reached since was 14 7-8. The Press does not agree with some wiseacres has closed out his Southern common stock. He expects soon to get a great deal more than 14 7-8 for it notwithstanding Pennsylvania and Baltimore and Ohio deal.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

Two Legitimate Mining Propositions

The Great Western Mining Co.

Property situated on the south half of the Colville Indian Reservation, good wagon road to property from railroad. Lead and Silver, 3 claims deeded to company. ledge shows entire length of claims, the ore shuts on the surface, when work is in progress, shows 25 feet by 160 feet in length average assay of 25 tons of ore now on dump gives 51 per cent in lead and 35 oz. in silver, this property will without doubt be a shipper before spring, share in this property can be had of at per share' the par value.

The; Noonday Mining Co.

Property situated about 3½ claim lenghts from the great Republic Mine Republic Wash right in the belt, ledge 20 feet wide, assay from $3.20 to $12.00 in gold. work now in progress on cross cut tunnel at present is about 50 feet. Share in this property can be had at 3c per share. Maps on prospectus can be had at Company office and for application for stock and other information. Address.

SPOKANE, WASH.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

A Big Sale of Republic Stocks

THE FAIRFAX CO., OF REPUBLIC, J. J. Brown, Pres., Willis [illegible] Treas., after securing the Jim. Hill claim ajoining it on the north, sampled the ledge and W. H. Stowell reports on this cropping $16 [illegible] in gold, immediately upon the result becoming known in Republic, a Mining Supt., through our agent there, [illegible] Angel, negotiated the purchase of $1,[illegible] worth of Treasurer's stock, the company has authorized me to place a small amount of this stock at [illegible]. Remember the Fairfax and Jim. Hill are less than [illegible] feet from the Mountain Lion, which is now $1.[illegible] per share, and is an investment at that. The Fairfax at 3½ cts., is a speculation. Work is to be pushed.

SIR REDVERS BULLER.

Pen and Ink Sketch of the Officer Who Commands British Force in South Africa.

The following sketch of General Sir Redvers Buller appears in Mainly About People —

What manner of man is Sir Redvers Buller, who left amid the plaudits of the crowd, carrying with him the good wishes of all ?? Well, he is a soldier of distinction, one who has won battles, and wears the V. C., who has led and followed the lead of others, who has worked his way up, step by step, with no particular influence to help him, to the highest prize of his profession, the command of what will be the largest British army that has ever left these shores. All this you know; you know his counterfeit presentment, too, but not to a very large extent, for Buller is a rare product in this advertising age; he has always been averse from giving an interview to a pressman or a photograph to a newspaper, and if his picture is to be seen in print or in the London shop fronts to-day it is but a recent and certainly a grudgingly concession. Buller in full dress, blazing with medals; Buller in undress on horseback, reviewing troops; Buller as a slim young colonel—a Queen's aide-de-camp; Buller as a middle-aged man of greater girth and with something of a jowl; all these are familiar enough to you now. But the Buller intime, the personal Buller himself, his traits, character, idiosyncrasies; how much does the public at large know of these? Little enough, and only through a glass darkly. It is high time that the generalissimo of Her Majesty's forces in South Africa, who will shortly bear a great burden fraught with the most momentous national issues, should be better understood by his fellow countrymen.

First and before all, it cannot be stated too clearly and emphatically that he is what our friends across the pond call a "real live man." There is no humbug about him, nor anything unreal; what what he says he means; what he promises, he performs; what is given to him to do, he does; or has done so far, and that is much to say in this disappointing world. His fitness for the job now entrusted to him cannot be questioned. He is the best soldier of his standing available for the present crisis. Lord Wolseley's time for field service is pretty well over, so is that of Lord Roberts. The Sirdar can afford to wait for his next great chance, and seriously speaking, he has not Buller's qualifications for this particular business.

Buller knows his trade by heart, is up to every move, can handle every tool with the perfected skill of the master craftsman. He has studied soldiering incessantly, practiced it continually, and has gained an intimate acquaintance with that most difficult profession, war. Those who have seen him at work will bear ample testimony to his worth. He has the natural gifts indispensable to a good general; he is watchful and observant, with a keen eye for country, a full appreciation of what troops can do and when it should be done; he can wait for the right moment and then strike with concentrated effect. He has the cool judgment that comes of profound self-reliance, and his courage is not only of the "two o'clock in the morning" kind, amply shown by feats of daring that are household words, but the rarer moral quality that rises superior to the darkest and most dangerous crisis of war. His record tells but badly of the day at El Teb, or that other day at Tamai, when the shakened squares stiffened into fresh and successful resistance under his personal direction; or of the masterly manner in which he got the desert column out of the tightest of tight places at Metemmeh, after Herbert Stewart and Burnaby had been struck down by Abu Klea.

A British general called to high command has more to do than march and countermarch to bring his enemy to battle and meet him. He has to manipulate the threads of the somewhat cumbrous military machinery that holds him tight, and may often hamper and hinder him from a distance. He is never quite free of war office control, for he is at the end of the wire, and may also expect interference. Not the least of Buller's merits is that he knows our war office by heart, for he has been closely associated with it for years as a military staff officer in the highest grades. His evidence given before the committee for decentralizing war office work and giving more initiative to the generals commanding districts and stations at home and abroad, was quite amusing in its out-spoken ridicule of war office methods. He gave it as his opinion that the clerks thought the army existed solely for them, and that they had invented half the red tape and routine simply that they might justify their existence, and that one of the first results of decentralization would be to cut down their number.

Buller is no courtier, but he has always been popular with the royal family. There is a strong bond of personal attachment between him and the Duke of Cambridge. He was long the trusted friend and right hand man of the late commander-in-chief, to such an extent that he was practically the head of the army for years. It was then, no doubt, that Sir H. Campbell-Bannerman, as secretary of war, conceived that high opinion of him which so nearly made him the Duke's successor, Buller could say anything to the duke. A year after the latter's retirement, he was sitting in Buller's room—the Duke could not keep away from the war office at first; the habit had become ingrained—bemoaning his hard lot, when Buller turned to him and said; "Come sir, admit that you are ever so much better since you went out of harness." "Upon my soul, you're right!", admitted the Duke, with a loud laugh; "I believe it has added years to my life."

Another plain speech to a more august personage, is attributed to him which is ben trovato, if not precisely true. At the first Aldershot review graced by the Queen's presence, after Buller took up the command, Her Majesty is reported to have said; "I have not seen much of you lately, Sir Redvers Buller." "That's not my fault, madam!" was the blunt reply. Perhaps the Queen had not forgotten his speech when she issued her command for him to go to Balmoral to say good-bye.

Buller's tenacious self-reliance which has served him so well in the field before, and will, no doubt, again, has its roots in great obstinacy of character. He does not like to admit that any one else is right, or so exactly right as he is himself. One story is worth reviving in this connection. It is not very new perhaps, but it is so strinkingly illustrative of that trait that it is worth repeating. When he was coming down the First Cataract on the Nile with Charlie Beresford, after the evaculation of the Soudan, a sharp discussion arose as to which was the proper channel for the gunboat to take. Buller advised one and Beresford another, but in the end Buller's channel was followed with perfect success. "You see, I was right," he chuckled exultantly. "Not at all," retorted Charlie, "I knew it was the right one myself; I only recommended the other because I knew you would oppose whatever I said!" This tendency to take up a hostile attitude to whatever is said or proposed is so well known in Buller that it is rather militated now against the effective preparation of his force. Even high officials have hesitated to make suggestions that were pregnant and useful, fearing that he would oppose them because they were not his own. On the other hand, it is certain that his selection of Sir Archibald Hunter, as his chief of staff, was at the instance of another, and his employment of Colonel Brocklehurst as a cavalry brigadier was accepted by Buller on the urgent advice of General French.

If Buller is self-opinionated he has some excuse. He is remarkably well instructed, well equipped with practical knowledge. A man of great mental activity and grip he likes to master the technique and inner workings of all sorts of subjects. Thus, he is a first-class electrician, and when his house in Bruton street was wired a few years back for the electric light, he surprised the engineers with his knowledge of details. Finance, again, greatly interests him; he has a first-rate head for figures, and if he had not taken to arms he would have been a magnate in the city. His astute management of the resources of the Naval and Military club, his favorite club, put it on its present sound footing. He was almost perpetual president of its committee, and the club cuisine, and especially the club cellar, have been under his fostering care. Omniscence is no doubt a role he likes to play, but he can assuredly hold his own with the experts in many lines. One of his hobbies is agriculture and stock raising. At home on his own estates at down, near Crediton, he is an enthusiastic farmer and has very sound judgment on crops, horses and cattle. With that peculiar bias of his, to believe that all he has is the best possible, he always stoutly maintains that the products of his lands are unrivaled, and, indeed, agricultural shows often bear out this claim for he is a great prize winner.

Buller is seen at his best in his own house, whether at his country place, or till lately, in Bruton street and government house, Aldershot. There's no sign there of his somewhat brusque, abrupt surface maner, which many are inclined to call rude. He is the kindliest and most hospitable of men, and likes nothing better than to welcome his friends, and particularly an old friend, to his board. He has no greater joy than to make a night of it, talking everything out, past, present and to come, till a very late hour in the snug privacy of his study, when he lets out freely, not over pipe or cigar, for he is no smoker, and of late he is very abstemious in fluids. As a case in point, showing his fondness for sitting up, he wa eto be seen and heard "cracking" in the Beefsteak Club till 1.30 last Saturday morning, the very day of his departure. He is, as a matter of fact, satisfied with very little sleep, and has often been heard to declare that he hates going to bed. A strong constitution and great physical energy are inestimable natural gifts to the campaigner.

There are two very different and distinct aspects of Buller's personality—the stern look, the brief, caustic speech, the fierce contempt he shows for fools. Yet he will never fuss and storm and worry. Quite lately, since he has commanded at Aldershot, a great change has come over the drills before the field days. Buller did not believe in letting his men grow stale by over preparation, not always to the contentment of the staff. As his own deputy adjutant general put it, mildly protesting: "In the Duke of Connaught's time we had too much rehearsal, now—" "There are not enough, eh?" retorted Buller, catching him up, but quietly insisting on his own plan. He always has his own way, by book or crook, sooner or later. Yet he is withal a very kind-hearted man, and after he has let off his indignation against an offender, he will certainly take the most lenient view of the case. When he was adjutant general of the arm some of his immediate subordinates found fault with this—to them—excessive tenderness for mistakes and wrong-doing. Within his own family circle, Buller altogether unbends; he is the life and soul of the talk and the friend and companion of his children, although he has only one of his own.

Lady Audry Buller was previously married, and there are two Misses Howard, of whom Sir Redvers is exceedingly fond. A great grief recently fell upon the Bullers in the death of Lady Audry's only son, Mr. Howard, of the King's Royal Rifles, who was carried off by enteric fever in India last summer. It should be noted that the stepson had entered Buller's old corps, for Sir Redvers is, and always will be, "one of the Sixteenth." He loves the King's Royal Rifles with the affection of an old soldier for his alma mater, and nowadays wears for choice at his dinner parties the green jacket and mess dress of the rifleman.

THE PUNSTER.

It's easier to pass a resolution than it is to keep it.

When the baby is asleep, it's a case of kid napping.

"Never wear shoes too small for you" is a good foot rule.

A telegraph operator demands cash for what he does on tick.

It's surprising how easy it is to get something you don't want.

Law books are bound in sheep out of respect for those who go to law.

Some people are so miserly one can't even have a joke at their expense.

A married man says the jaws of death are not to be compared with the "jaws" of life.

STATE LINES.

Lumber can't help being high in Oregon. It grows that way.—Oregonian.

Iowa, Kentucky, Maryland, Massachusetts, Mississippi and Ohio are the only states that elect governors and state officers this year.—St. Louis Republic.

Missouri now has a beer inspection law. The rush for appointments as inspectors will be akin to the opening of an Indian reservation to settlement.—Omaha Bee.

It is predicted that a comet will strike Iowa next fall, but a comet will have no terrors for the Iowan who has lived through an active cyclone season, with a political campaign the next year.

POND'S EXTRACT CO., 76 Fifth Avenue, New York.

NOTHING "JUST AS GOOD."

If a sufferer from any of the various forms of Piles, however severe, or in need of a specific for skin diseases, use

Pond's Extract Ointment

It heals cuts, burns or bruises, and should be in every home. *All druggists or by mail. [illegible] Prepared only at our laboratory.*

POND'S EXTRACT COMPANY, [illegible]

Among all the mocking horrors of chronic indigestion and liver complaint, none is more unbearable than that dreadful sensation of giddiness in which the whole world, indoors or out, seems to swim around before the sight in the most sickening and nauseating manner until one's entire being becomes faint and wretched with indescribable misery.

"I was suffering with what the doctors called chronic indigestion, torpid liver, and vertigo," writes Mrs. Martha E. Barham, of Newville, Prince George Co., Va. "The doctor did me no good. My symptoms were [illegible] in the head, pains in the chest and an uneasy feeling all over. I also suffered with female weakness.

"I was all run-down and could not do any work at all without suffering from nervous attacks. I wrote to Dr. R. V. Pierce, of Buffalo, N. Y., for advice. He advised to use Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription.' I did so, and used five bottles of each, and I cannot express the benefit I have received from these medicines. I gained in health and strength. When I commenced to use the medicines I weighed only 112 pounds, now I weigh 140 pounds. I thank God and Dr. Pierce for my recovery. My husband and friends all thought I would die but to-day I am a well woman."

The wonderful effects of this great "Discovery" are genuine and permanent; they are not due to any false or alcoholic stimulus for it contains no alcohol. Real substantial healthy muscular strength is built up; the stomach and liver are toned; the blood is purified and vitalised; the nerves are steadied; the entire constitution is rejuvenated and renewed.

In case of constipation, there is nothing quite so effective as Dr. Pierce's Pleasant Pellets. They act comfortably though surely; they do not gripe; you do not become a slave to their use. Their effect is lasting. There are countless substitutes; but nothing else is like them.

Morning Times

PETERBOROUGH, NOVEMBER 15 1899

TOWN AND COUNTY NEWS

Xmas Boxes.

The most suitable and seasonable Xmas Box is some thing warm, comfortable, neat and pretty from the Port Hope Knitting Works. Telephone 330, Ask for Trading Stamps. See Friday's paper for Saturday bargains.

Lunatic Committee.

At the police court on Saturday morning Magistrate Dumble committed David Kenealey, an unfortunate young man from Otonabee, to the asylum for the insane. He has been in custody for some time, and medical testimony was given to show that he was an improper person to be at large.

Sham Rock

is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

Very Sad Death.

Joseph's Hospital on Saturday morning. Mr. White was stricken with appendicitis, and an operation was successfully performed. He appeared to rally, and strong hopes were entertained of his recovery. A turn for the worse, however, occurred on Friday, and he rapidly sank, passing peacefully away on Saturday morning, at the early age of 17 years. Dominic was very popular with a large circle of friends being a favorite with all who happened to know him. Mr. and Mrs. White and family have the sympathy of the entire community in their bereavement.

Boy Wanted.

The Times requires a smart boy for night work, to set headings and run messages. Short hours and fair pay. Apply in evening to night foreman, in daytime to Times Bookstore.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your, health. the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and home-made. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

FROM THE GOLDEN NORTH.

Mr. James Regan Returns From the Atlin Gold Fields.

Mr. James Regan, an old Peterborough boy, whose arrival in town was announced in these columns a few days ago, favored the Times with a call on Saturday, accompanied by an old friend, Capt. Martin, who has also spent the summer in the golden north.

Mr. Regan left Seattle in February last for Skagway, where he purchased half a ton of hay, half a ton of oats, tobacco, flour, sugar, etc.; and took the stuff into Atlin over the ice, where he opened out a general store. The following were the prices current last winter and spring; hay, $600 per ton; oats, 30c. per pound, sugar, 40c.; flour, $20 per 100; eggs, $1 per dozen; potatoes, $1 per pound, and frozen ones at that; condensed milk, 60c. per can. Laborers get $6 per day, and mechanics 75c. per hour. Meals are $1 each, and it costs 50c to sleep on the bare floor, using your own blankets.

Capt. Martin related an incident that occured while he was there. A miner came to Mr. Regan's store driving a poor, jaded looking mules. He bought a bundle of hay and some oats. The hay he tucked under one arm and the oats in a parcel under the other. He paid $22.50 for the fodder.

Mr. Regan says that it costs $2.50 to speak to the Gold Commissioner. He has a mighty poor opinion of all the officials, who appear to have no honesty in themselves and regard everyone else as a thief.

Mr. Regan says that Mr. C. W. Sawers is doing well in Atlin. He won't touch anything without a cash deposit of $25 and upwards, and is making stacks of money. Capt. Martin, who is president of the Miner's Association on Spruce Creek district, employed Mr. Sawers in his lawsuits over claims, and came out on top every time. The next thing we will probably hear is, that Mr. Sawers will be writing M.P. after his name.

Mr. Regan disposed of his business and will not return to the north, having made his little pile. He will leave for Seattle in a week or ten days, where he will reside in future.

Subsequently Mr. Regan told the Times that Capt. Martin would undoubtedly pull a lot of gold out of his claims. He was, he believed, on the road to great wealth.

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 168 Hunter St.; from Wednesday, Dec. 13th to Saturday Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

Death of W. H. Bowman.

We regret to chronicle the death of Mr. W. H. Bowman, of the Oxford Hotel, which occurred on Saturday morning, after an illness lasting only a few days. Mr. Bowman was sixty years of age, and was born in Kent County, England. He spent a few years as seaman in the merchantman service, and came to Port Hope about 32 years ago, where he opened a hotel. He subsequently removed to Peterborough, where he has been engaged in the hotel business, one way or another, ever since. He leaves a wife and a son and daughter, both grown up. Funeral took place yesterday, under the auspices of the Sons of England.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

PERSONAL.

Mrs. J. R. Stratton returned from Toronto Friday evening.

Miss Kindred is visiting Miss Myrtle Fitzgerald in Lakefield.

Miss Barton sang at the evening service in St. Paul's church.

Mr. and Mrs. Geo. J. Early, of Cannington, are in town renewing old acquaintances. They are in excellent health and were welcomed by old friends.

Rev. Thomas Manning, B.A., a former Peterborough pastor, now of Lindsay, has been invited to remain for a fourth year in Lindsay.

Captain Hugel, brother of Miss Hugel, who is visiting friends in town, is among the wounded with General Methuen. Being of the Royal Engineers, he was probably with the Sappers, who so gallantly crossed the Modder.

Mr. W. G. McClellan, who is at present relieving Mr. Bethune, accountant in the Dominion Bank, Lindsay, who is absent on sick leave, spent Sunday in town at his father's, Mr. J. H. McClellan, of the People's Coal Co.

Mr. H. W. Fowlds, of Hastings, lumber merchant, spent Saturday in town and left by the midnight train for the east. Harry is the popular adjutant of the 40th Battalion, and his host of friends in Peterborough are alwas pleased to meet him.

A HAVELOCK WEDDING.

A Very Pretty Wedding in Havelock on Monday Last.

One of the prettiest events of the season took place in Havelock on Monday afternoon, at the "Waymark" family residence when Miss Bessie, the youngest daughter of the late Henry Waymark, Esq., was united in wedlock to Mr. Wm. Hillis Backus, of the C. P. R.

The ceremony was performed at precisely 2.30 p. m., by the Rev. R. J. Carson, the rector of St. John's church. The bride was assisted by her cousin, Miss E. Pressley, of Big Springs, and Miss Madge Curtis, as maid of honor, while the groom was supported in his trying crisis by Mr. Thos. J. Baker, of town.

After the nuptial knot was tied and the congratulations were over, the company present, which consisted only of the immediate friends of the contracting parties, sat down to a neatly served lunch. Then in a short time the adieus were said and amid a perfect storm of rice, the happy couple were off on their bridal tour to Toronto, Windsor and Detroit.

The bride was prettily dressed in ladies cloth with brocaded satin and trimmings, while the bridesmaids and maid of honor were also very becomingly attired.

The many presents received by the bride showed the esteem in which this very popular young couple are held by their many friends, who unite with the Standard in wishing them a happy and prosperous journey through life.—Standard.

Our Advertisements.

You should read the advertisements in this great family journal. They are so artistically set that they command attention—you cannot getaway from them, and they constitute the most interesting reading in the paper. Read them all and then you are ready to go out to make your purchases. You can make no mistake in dealing with the Times' advertisers—they are all soild, respectable, enterprising business men, who will treat you right and give you big vaule for your money.

LITTLE LOCAL LINES.

A rural hotelkeeper in the east riding was fined $20 and costs for selling liquor on Sunday, Nov. 5.

The fire brigade was called out at one o'clock Saturday to a house at the corner of King and George streets. It proved to be only a chimney and their services were not required.

The Horticultural Society is finding a difficulty in maintaining the wire fence around Victoria park. It is being continually broken down by persons who insist in crossing the park and school children.

The Board of Education will meet tomorrow evening.

Mr. C. S. Mallet, who has been connected with the Canadian General Electric Works, has accepted a position in Manc"hester, England. He was presented with an address and a teachers' Bible by the Sabbath school of St. Andrew's church.

The Chief of Police has received notice that a thief on the night of Nov. 21st stole from J. H. Underhill, Claremont, a horse, top buggy, robe, blanket, brush and comb and a bag of feed. The horse was black and aged.

Rev. W. L. Armitage began a series of sermons on the Advent at All Saints yesterday.

Young women seeking employment at house work in all lines, can be supplied by calling at the Y. W. C. A. rooms, free of charge. Come and we will do our best for you.

The Ministerial Association will meet this morning at ten o'clock. Rev. Mr. Shorey will introduce a paper on "The Individual or Common Communion Cup."

Rev. Principal Wilkie, principal of the college at Indore, India, preached in St. Paul's church yesterday morning and in St. Andrew's in the evening.

Bob. Ind.—C. Wilder and Coy, of Toronto, have made a large purchase of scrap iron, and several teams are engaged in drawing the stuff to the railway at Fenelon Falls. He has one car of twenty tons loaded, and will load another car. It would hardly be thought that forty tons of old iron were lying around, useless.

The steamers on the back lakes were still doing business in towing as late as Saturday last.

Many complaints have been made this fall by the hunters of having their dogs poisoned. There was considerable friction this year, in many quarters, between the hunters and the settlers.

Escaping coal gas nearly asphyxiated the family of Mr. Frank Stinson, Lindsay, on Thursday night last.

OnThursday evening one of the "double header" grain trains that operate between Midland and Belleville, had a smash near Lindsay. Several of the cars left the rails and turned over in the gutter. No one was injured.

SLUGGISH INTELLECT

Caused By Coffee.

"Carefully inquiry in the school-room developed the fact that those children who are habitually given coffee to drink have a sallow complexion, are nervous, more or less irritable and very sluggish intellect or an over-wrought and abnormal imagination, results of extreme nervousness. My own experience with coffee drinking kept me afflicted for some years with severe and constant headaches, with extreme nervousness at times.

"I was compelled to abandon coffee altogether and was quickly relieved of the headaches and other troubles. I was fortunate enough to secure a *package of Postum Food Coffee*, but my first attempt at making it was a failure. After another trial and following directions (which are very easy, by the way) I secured a delicious drink, far superior in my mind to coffee. I have continued to use it from the start and my improvement has been steady with no ill effects at all."

The above was written by a school teacher, Miss E. Barnard, of Oxford, Kan.

It is an easy matter to leave off the coffee habit, if Postum Cereal Food Coffee is used in its place, particularly when attention is given to its proper preparation. The whole secret of the preparation is in allowing the Food Coffee to boil long enough to bring out the taste and food value.

All first-class grocers sell Postum.

OUR TOWN COUNCIL.

The Times Invites Votes for the Best Men.

WHO WILL BE OUR MAYOR?

The People are now Interested in the Matter.

The Morning Times Makes the Start—The Plan Likely to Awaken the Interest—Some Really Good Men are Talked of—Send your Votes in at Once by Letter or Leave them at Our Office.

In order to induce people to take a greater interest in municipal matters, the Times has decided to adopt the plan which has become so popular with many of the *leading newspapers in United States* and Canada.

Who will be our next Mayor?

Who is to represent us in the Town Council?

Probably never before has Peterborough been in greater need of careful, prudent legislation than at present. She has arrived at the period in her history when the movement will be either forward or backward; when retrenchment and a careful overhauling of our civic expenditure is an absolute necessity, with a view to greater economy. The ratepayers must be made to realize that if Peterborough is ever to amount to anything our taxes must be reduced. Halfway measures are utterly useless. The evil must be met in a careful thorough, practical manner, and this can only be done by the selection of men who sit at our council board who will be pledged to cut down our civic expenditure to the lowest possible amount consistent with the dignity of the town, and a proper administration of our civic affairs.

The Times speaks its mind freely on all matters that concerns the people, we should be sorry to offend anyone, and our purpose is not to do so. If however, we have to speak plainly to accomplish the end we have in view, and our language is not what some think it should be, we hope that they will appreciate our position, and give us credit for what we try to do—fearless in advocating what we believe is for the best interests of the people. The result of each day's voting will apear in the Times every morning.

As before indicated, the object of the whole thing is to excite interest in municipal matters. Everyone wi'l have a chance to name the men they think best fitted for a position at the council board.

How To Vote.

Each coupon will have the value of five votes. Cut the coupons out and either mail it addressed to the Times or leave it at our office.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

Kaiser Came Back With Boils.

Emperor William is carrying an ugly reminder of his Palestine journey around with him, and what is worse the thing probably will stick to him for months to come. For weeks it has been announced every few days that His Majesty was confined to his room, or to his bed, by colds. "Colds" stand for a good many things in courtly language. In this case a new, or rather heretofore a little known, old sickness masquerades under this convenient term, namely, Clou de Biskra, also described in recent medical annals as Jericho or Aleppo boil.

This is a disease peculiar to certain Mahomedan cities and districts, and Dr. Kolle, a member of the German sanitary council, has just been despatched to Africa and Asia to study it in the regions where it is at home. Dr. Kolle is the man who assisted Dr. Koch in the rinderpest investigation, and it is hoped that he will reveal the true nature of the mysterious boil, thus laying the foundation for curing it.

Meanwhile the kaiser, kaiserin and most of the excellencies, lordships and ladyships and common everyday people who attended their majesties to Jerusalem are suffering considerably from the distemper that developed some few weeks after they returned home and that then was thought to be nothing worse than a rash caused by the climatic change.

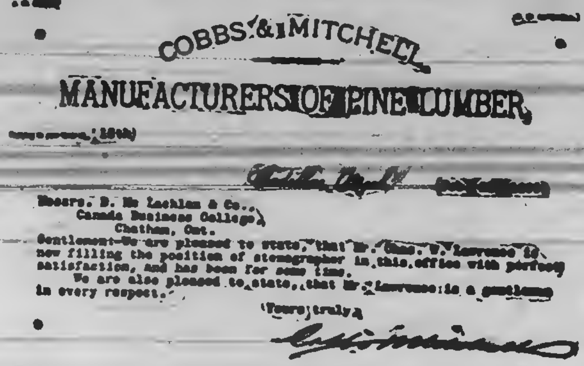
The first to consider it seriously were the ladies of the court, as it prevented them from wearing low-neck dresses or even from appearing in public. Their skin, particularly on parts of the face, breast and along the limbs, became inflamed, then whitish welts developed that came and went away, disfiguring the sufferer and refusing to take notice of the cold creams and lotions applied. When the kaiserin, who has a beautiful complexion and dearly loves to exhibit her shoulders, was stricken all the skin specialists of the realm were called in for consultation. But these learned gentlemen, one after the other shook their head. At last the Emperor fell ill with the same symptoms. More consultations and more [illegible] in the medical fraternity resulted.

WHEN YOU ARE A GRADUATE FROM

THE Canada Business College,

CHATHAM, ONT.

it means that you are almost certain to secure a position with some such firm as the following



COBBS & MITCHELL

MANUFACTURERS OF PINE LUMBER.

Messrs. D. McLachlan & Co.,
Canada Business College,
Chatham, Ont.

Gentlemen—We are pleased to state, that Mr. Chas. V. Lawrence is now filling the position of stenographer in this office with perfect satisfaction, and has been for some time.

We are also pleased to state, that Mr. Lawrence is a gentleman in every respect.

Yours truly,

The firm of Cobbs & Mitchell is known as the millionaire lumber firm. Their very extensive business enables them to know and appreciate a good man when they get him.

Notice how highly they speak of Mr. Lawrence's work and his personality.

Besides filling many calls from business firms such as the above, we have also had numerous calls for supplying teachers for other business schools.

SEVEN OF OUR PUPILS HAVE ACCEPTED POSITIONS AS TEACHERS IN COMMERCIAL SCHOOLS SINCE SEPT. 1st, 1899, and we have at the present moment five unfilled calls from other Business Colleges for similar help.

PUBLIC SCHOOL TEACHERS who have made a success in teaching should take our course and qualify for some of these excellent openings. For handsome catalogue, address.

FROF. J. H. DeSILBERG, OPTICIAN, SPECIALIST.

"Ev'ry Month" for December.

The Christmas cover of EV'RY MONTH is a welcome relief from the wild and inartistic display of color seen at this time of year on most of the magazines, and is very attractive in its simple beauty. The contents carry out the promise of the cover. A novel article on the "Human Side of a Big Departmental Store" is profusely illustrated and contains information which will be a most astonishing to the ordinary customer of the bargain sales, with its mass of facts and details concerning the life of the girl behind the counter. "Hostesses of a By-Gone Day" is a description of some celebrated New York women whose hospitality was lavish and who were the foremost entertainers in metropolitan life a generation ago. This is accompanied by a number of rare photographs never before printed. "Forest Giants," an account of the famous Redwood Trees of California, illustrated by several special photographs. "Scenes from the Plays of the Month," a page of illustrations of the most dramatic situations of the newest plays. The *magizine* also furnishes three stories, "A Christmas Outside" a short descriptive story of prison life, "The Eternal Feminine," a clever tale exemplying the vagarities of a woman's mind, and presenting a problem to the reader which will be quite as puzzling as Stockton's "The Lady and the Tiger;" and "Her Little White Shoes," a story of the Thames. The Fashion article also holds its usual important place and contains information gathered especially for the readers of EV'RY MONTH from inspection and interviews with the leading importers and designers. The music, consisting of 4 pieces or 14 pages, goes beyond the usual in popularity and desirability and comprises "Lotta," Valse Lente, by William Furst, one of the most charming compositions of this celebrated writer, whose "Babble Waltzes" and intermezzos are known by every musician. "In the Shadow of the Rockies," a genuine pathetic ballad with none of the mock sentiment which impairs so many pieces of the same class, with a melody which is bound to make it one of the songs of the season. "Jasper John on's Jubilee," Cake Walk and Two-step, an irresistibly attractice march, with a swing that forces the hearers to tap time to its every movement. "Sweet Savannah," by Paul Dresser, which will strengthen the proof that this composer is unquestionably the foremost song-writer of the day. To follow up "The Banks of the Wabash Far Away" with so excellent a composition as this, and one laid upon somewhat similar lines, but with an absolute different treatment and melody, goes far to prove his mastery of the art. All those who appreciated his former wonderful popular success should not fail to secure a copy of EV'RY MONTH with this future "hit."

GRAND CONCERT

St. Paul's Church

FRIDAY, DEC. 8th

Miss Edith J. Miller

Mr. Holmes Cowper

Mr. W. Spence Jones

The Choir

A Dead Bargain.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

"THE WATERLOO OF THE CAMPAIGN" FOUGHT AND WON AT MODDER RIVER!

Graphic Description of Methuen's Great Battle by a War Correspondent Who Was in Action.

NO QUARTER WAS GIVEN ON EITHER SIDE.

Boer Sharpshooters Fire Upon Stretcher-Bearers, and the Argyle Highlanders Storm a House Held by Boers and Shoot Occupants Who Displayed the White Flag.

(Special Despatches to The Times, 3 a.m.)

London, Dec. 5

The correspondent of the Associated Press with Gen. Lord Methuen's column telegraphing from Modder River last Thursday says: "The Waterloo of the campaign has been fought and won. The battle was conducted with unprecedented stubborness on both sides. There was no flinching on either side and not a moments pause. For five hours the British batteries poured tons of shrapnel, grape, and shells into the Boer positions. General Lord Methuen had 22 guns and each fired an average of 200 rounds. The Boers had an almost equal number of guns which it was reported were served by French an dGerman artillerists. It is believed that the Boers had occupied the position seven weeks before and had spent the interval in fortyfying and rendering it, as they considered impregnable. They did not seem to fear to expend their ammunition; and their guns were well and smartly handled. Owing to the bend in the river on the right, the Boers had an opportunity of cross firing on the British attack. A Boer hotchkiss was directed with marvellous accuracy against a British Maxim, killing the sergeant in charge, wounding an officer and disabilng the gun. This occurred quite at the beginning of the engagement. When ever the Boer fire was silenced in a direction, it was immediately reopened in another.

Owing to the terrific fire nobody on the plain was out of danger. Stretcher bearers found it impossibel to go forward in the cases they were called upon to attend. The wounded were compelled if possible to crawl out of the lines.

No quarter seems to have been given on either side. The British assert that amid the bullets, the ambulance wagons displayed their falgs prominently to no advantage. These were repeatedly driven back and compelled to take refuge out of sight. It is alleged that the Boers used dum-dum bullets and made a special target of the horses on the plain in hope of hitting the riders. While the Argyle Highlanders were pushing up the river they wore fired upon from a house and several fell Thereupon the Highlanders stormed the house although the Boers hoisted a white flag no attention was paid to it and all Boers were shot.

GEORGE ST.
TELEPHONE 118

It is reported that General Cronji with his contingent retreated toward Landberg at four o'clock in the afternoon. Others followed in the direction of Jacobsdale and the main body of the Boers retired with the guns about eight in the evening. On the following morning at daybreak, the British fired a few shells into the village. Getting no response a patrol of cavalry crossed the river and foun dthe enemy's camp deserted. Dead Boers and many who were dying, were to be seen everywhere in the entrenchments as well as numerous new graves. Several buildings were in smoking ruins. Some of the Boer prisoners say that General Cronje was in supreme command. He had to whip his men to prevent them from desetting and despite this, many threw down their rifles and fled."

HOWITZER BATTERY ARRIVES.

Cape Town, Dec. 4.

The British transport Hurona, from New Orleans, Nov. 3, has arrived here. The transport Canning from London, Nov. 12 has also arrived here with the first battery of Howitzers.

COULD NOT SEE THE ENEMY.

London, Dec. 5.

Mr. Julian Ralph, describing in the Daily Mail this morning the battle at Modder River, says—"I can testify that the British never once saw the enemy, yet they were not able to raise hand or foot without being riddled. Despite all this, however, the day belonged to the artillery. The infantry, however, advanced two paces during the day of hell. The shells of our twenty guns were accurately planted in the enemy's trenches, and broke the hearts of the Boers, for after dark they all retreated."

A SERIOUS LOSS.

London, Dec. 4.

The loss of the Ismores horses is quite serious at the present moment, when they were particularly needed. They consisted of specially trained chargers and gun teams. It is not yet clear whether the six field guns on board the transport were saved. In any case much war material and hospital equipments were lost.

BOERS RETREAT TO BLOMFONTEIN.

London, Dec. 5.

The special correspondent of the Daily News with Gen. Methuen, telegraphing from Modder River on the day after the battle says—"I hear that the Boers are in full retreat to Blomfontein."

BOERS VISIBLE AT COLENSO.

London, Dec. 5

The Times has the following from Frere Camp dated Wednesday, Nov. 29—"The Boer camp at Colenso is visible from a point near Chievaley. It is a strong position and difficult for a direct front attack."

TO SEND A DEPUTATION.

London, Dec. 5

The Cape Town correspondent of the Standard says—"The Cape Government intend at an early date to send one of the Ministers to England to urge upon the Imperial authorities the acceptance of the Cape Cabinet's view regarding the final settlement after the war."

SITUATION IN SOUTH AFRICA.

London, Dec. 4.—The first detailed account of the battle of Modder River has at last reached England in the form of a special despatch from the correspondent of the Daily Chronicle and adds little to the interpretation of General Methuen's official story, contained in this despatch on the day of the battle. The correspondent settles the controversy which has been going on among so-called military experts—who had evidently not read the official message with care—as to whether the Boers were posted on the farther side of the stream and were resisting the attempt of the British to force the passage. This they seem to have been successful in doing for many hours, being finally compelled to give way in face of a tremendous artillery fire from the other bank.

The reference of the correspondent to the attempt to rush the bridge is somewhat obscure, seeing that it is hardly likely the Boers would leave the bridge intact at such a crisis, they having had ample time to make all preparations for the battle. Moreover, General Forestier-Walker stated in his despatch of Saturday last that Methuen was halting in order to repair the bridge, and it is much more probable that the burghers would destroy it before, rather than after the battle. There is no doubt, after the battle. There is no doubt, however, that the Boer positions are in the hand of the British, who, despite the flooded state of the river, succeeded in getting across. The story of the gallantry displayed by a handful of men from the Coldstream Guards, who tried to swim the river under fire, adds another laurel to the records of this regiment, and will probably be heard of later when decorations are given out.

The silence as to affairs in Natal still continues and it is exceedingly probable that General Buller will shortly astonish the Empire by some bold and unexpected move. There is little doubt that he is now arranging with General White for combined operations against the Boers. He must have close upon 30,000 men in Natal outside of General White's force and this army should make headway against the Boers and drive them over the Drakensberg without much trouble

BATTLE OF MODDER RIVER.

London, Dec. 4.—The Daily Chronicle publishes the following despatch dated Wednesday morning, Nov. 29, from its correspondent at Modder River camp.

"The severest engagement our column has yet had and probably the severest of the whole campaign was fought yesterday on the banks of the Modder River. The battle waged fiercely for nearly fourteen hours.

"The enemy occupied a strong entrenched position, their front extending five miles along the bank of the stream. They were well supplied with artillery and fought desperately. Our force consisted of the second battalion of the Coldstream Guards, the first battalion of the Scots Guards, the third battalion of the Grenadier Guards, the first battalion of the Northumberland Fusiliers, the second battalion of the Yorkshire Light Infantry, a part of the first battalion of the Loyal North Lancashire regiment, the Ninth Lancers, the mounted infantry, three batteries of field artillery and the first battalion of the Argyll and Sutherland Highlanders. The latter reinforced us from General Wauchope's brigade and arrived just in time for the fight.

"The battle started at daybreak, our guns shelling the Boers' left. The enemy replied with artillery, Hotchkiss and Maxims, and the artillery duel lasted some hours. Then there was a brief lull in the enemy's operations of which the General immediately took advantage.

The Advance.

"Our infantry advanced across the plain towards the river in two brigade The Guards on the right were met by an awful hail of bullets from the enemy's sharpshooters posted close to the river on the opposite banks. Our troops had no cover whatever and were simply mowed down. It seemed impossible to live through the terrible fire, but the brave fellows did not retreat an inch. The Boe rfire was horrible accurate and they must have numbered at least ten thousand. The Scots Guards advanced 600 yards before they were fired upon. Then they had to lie down to escape the deadly fusilade, which lasted without intermission throughout th eday. The Highlander smade several attempts to force a passage of the river but htey were exposed to such a murderlous enfilading fire that they had to retreat after they had suffered terribly. Subsequently a party of the Guards got over an dheld their own for hours against a vastly superior force.

Fell in Dozens.

"The general opinion of th estaff is that there had never been such a sustained fire in the annals of the British army as that which our troops had to face yesterday. Our men fell in dozens while trying to rush the bridge.

"Among the many heroic deeds one of the most conspicious was that of Lieut.-Colonel Codrington of the Coldstream Guards, Captain Sellpein of the Queensland contingent and a dozen members of the Coldstream Guards who jumped in the river and swam nearly to the other side in th efsce of a stead fire. They were forced to retire, however, and swam back, two of their number being nearly drowned in the return. The British guns kept up a heavy fire all day, and fearful havoc was wrought in the Boer positions, the enemy being forced to fly from their entrenchments. Night put an end to the terrible bloodshed. The infantry brigade was terribly cut up. The Boers retreated at night, taking their guns with them and we are now occupying their positions. The enemy's loss was tremendous."

The Cable Repaired.

The Great North Western Talegraph Company has received advice that the Aden—Zanzibar cable has been repaired, thus restoring the route via Aden to the south and east coast of Africa.

ARMY CORPS HAS ARRIVED.

London, Dec. 4.—The army corps has now virtually arrived in South Africa, only a few cavalry and artillery details being still about or on the rocks. The entire British force now in the field, as estimated by Colonel Brunker, is 72,000 men, with 174 guns, exclusive of naval brigades, colonial contingents and local forces, which range between 25,000 and 35,000, fifth and sixth divisions, when they arrive, will increase the strength of the army by 20,000 men, and there are additional frees of cavalry and artillery now afloat not included in these figures. The British army in South Africa has been underestimated by nearly all the writers for the London press. The mounted force, however, is now said to range between 12,000 and 14,000 men, including 5,000 provincial volunteers and Gen. White's cavalry, but this looks like an overestimate of this particular branch.

ONE MEMBER DIED.

A Member of the Ottawa Company of Canadian Contingent Died at Sea.

Ottawa, Dec. 4.—The following cable was received to-day from Col. Otter—

Cape Town, Dec. 4.—Chief Staff Officer, Ottawa, Canada—Just landing here. Excellent health and spirits. Deslauriers, of Ottawa, died third day out, of heart failure.

Ottawa, Dec. 4.—A notable incident occurred at the Central Station here on Oct. 30, when thousands thronged the platform to see the Ottawa Contingent off. The men broke ranks for a minute before being entrained, and "Teddy" Deslauriers, a well-known militia man, ex-Rough Rider of the Princess Louise Dragoon Guards, and a great practical joker, rushed up to a party of perhaps a dozen young women, and announced with much earnestness that he had been ordered by Major Rogers to kiss them all good-bye. The fair maidents put no obstacle in the way of Deslauriers carrying out his orders, and in a moment the resourceful young man was Hobsonized a dozen times amidst the uproarious laughter of all who witnessed the scene.

Murder Most Foul.

London, Ont., Dec. 4.—A brutal murder was committed her early yesterday morning. John Cavanagh is in jail charged with killing his mother, Mrs. Mary Cavanagh, who was 75 years old, and lived with her son,, aged 53; at 437 Philip street. About 2 o'clock this morning James Harris a neighbor was aroused by John Cavanagh. Cavanagh had been drinking. He asked Harris to call a doctor. "Mother has fallen out of bed and is dead," he said. Mr. Harris telephoned at once to the police station and two officers were sent out. At the home of the Cavanaghs they came upon a ghastly scene. Mrs. Cavanagh's body was lying on the floor beside her bed, lifeless. Her nose was split open and the floor was covered with blood. A torn nightdress partly covered the body. In other parts of the house clothes soaked in blood were found, and itwas evident an attempt had been made to mop up the blood which lay in pools about the floor. Though the woman was quite dead the body was scarcely cold. The wound in the face had been made with some sharp instrument. The weapon used, however, has not yet been found. Cavanagh made no attempt to get away. He made no statement to the police. When arrested he was still under the influence of liquor Coroner Piper reached the house at 3 o'clock, and says the woman hadbeen dead an hour and a half at that time.

Canada to the Fore.

One thing Canadian's can boast of over their American cousins is the fact that Canada has a bigger, better family paper with more subscribers than any paper across the line. We allude, of course, to "The Family Herald and Weekly Star," of Montreal, which is read in Canada alone by over half a million people each week. The immence increase in the "Family Herald's" subscription lists year is a great tribute to it and it is due to some extent to the two handsome pictures, "Battle of Alma" and "Pussy Willows," both of which are included in the year's subscription. Can our American friends show a bigger dollar's worth? We think not.

Financial Panic Feared.

St. Johns, NFld., Dec. 3.—The Canadian banks doing business in this colony imported yesterday a quarter of a million dollars in gold coin, as for the past week heavy withdrawals of gold have been made from Harbor Grace, Belle Isle, and other sections, and it is feared that the panic may spread to this city.

The Government crisis is held to be responsible for this uneasiness, the masses of the people fearing financial trouble.

Many Heads Felt.

Prof. A. H. Welch, F. A. I. P., though only arriving in the city on Saturday evening is doing quite a business. A good number of people visited him yesterday at his private rooms in the Oriental Hotel, and he delinated their character with the great skill of the expert phrenologist which be is. Those desirous of being read by the professor should call on him as early as possible, for as his visit draws to a close he will be so busy that many who put it off till the last day will miss the opportunity of having the professor adapt them to where they will make life a success. Rooms at Oriental Hotel. Hours 9.30 a. m. to 10.30 p. m. Bell boys will usher to his parlors.

France is Responsible.

New York, Dec. 3.—The Sun's London correspondent cables that the French newspaper campaign against the Queen is exciting the deepest resentment among Englishmen. He says that the excuse that only a portion of the French press is guilty is a poor one. The fact that these obscene sheets, which, apart altogether from the manner the Queen appears therein, could not possibly be transmitted by mail or offered for sale in the United States on account of the lewdness and blasphemy of the illustrations and letterpress, and are yet published and sold in France without Government or other hindrance, makes France as a nation responsible.

Charged With Manslaughter.

Kingston, Ont., Dec. 4.—On Saturday, Charles E. Fralick was arrested by Police Officer Alben, and was charged at the police court by Crown Attorney Whoting with having killed one John E. James on the morning of Nov. 15th. Fralick thought was stealing chickens on his premises, when he shot James. Two companions escaped. The prisoner was allowed bail, the amount being $3,000, of which his father furnished $1,000 and himself the rest.

A Lindsay Bandit

At Phoenix, Ariz., Pearl Hart, the alledged woman bandit, who was charged with holding up a stage near Florence, was acquitted. Miss Hart addressed the jury in her own defence and pleaded passionately for freedom that she might return to Lindsay, Ont., to her fast-failing mother. Immediately after her acquittal the woman was re-arrested, charged with interfering with mails, and will be tried again.

THE PROTECTION OF RAILWAY CROSSINGS

INTRODUCED BY ALD. HALL AT LAST NIGHT'S COUNCIL MEETING.

The Cost of Arbitration Also to be Looked Into—A By-Law to Regulate Width of Tires for Road Vehicles Passes Its Several Readings—Miscellaneous Business.

Town Council met in regular session last night, when there were present Aldermen Best, McWilliams, Sawers, Neil, Corkery, Weir, Hall and Langford.

In the absence of Mayor Davis, Ald. Best was voted into the chair.

The minutes of the preceeding meetings were read and confirmed.

Communications.

From H. Evans asking for settlement of his bill for work on Dalhouise and Sherbrooke street bridges—Received.

From Solicitor E. B. Edwards stating that the Auburn Power Company desires to erect further poles than those referred to in agreement with the town and asking for further instructions in the matter.

Board of Works.

From Mrs. Mary Eano, asking for remission of taxes.—Court of Revision.

From Miss Grundy asking that the crossing which was torn up at corner of Water and McDonnel streets, during construction of granolithic pavement, be replaced—Board of Works with power to act.

From Frank Smith complaining of loss to his business through the impassable condition of Murray street during construction of sidewalk, and putting in a claim of $50 for damages—Board of Works to report at next meeting

From E. Goodfellow asking for a rebate on amount paid by him re shortage on market tolls last year—Committee of whole council, together with Mr. R. Green's communication on similar lines

From Peter Gifford asking for a reduction in assessment—Court of Revision

From Engineer Hay as follows;

"In accordance with a resolution of Council, That the engineer furnish report to next regula rmeeting as to broken stone olaned to the Dickson Co., from Oct. 8198 to October 1899. I beg to report as follows; As to what was loaned between Oct. 1898 and April 1st, 1899. I of course have no record. Between June 16th and Sept. 4th, 1899, 289 18-100 cubic yards were handled by the Dickson company's teams from the stone yard on London street and used in construction of their power house and flumer. I placed a man at the stone yard during the time the Dickson company's teams wree hauling stone, who kept account of the number of loads and size of the boxes. This man's wages were paid by th etown and charged to the company by the treasurer to whom I gave a weekly statement—Board of Works to look into the matter and adjust the same

From P. N. Roddy asking permission to conduct a rifle range free of license—License Committee.

From Elizabeth Sullivan asking for revision of taxes.—Court of Revision

From Engineer Hay re his authority for constructing certain gulley traps on Water street—Board of Works for investigation.

From Engineer Hay re cost of construction of granolithic sidewalks by Messrs. Rase and Bartlett—Received.

From inspector re steam fire engine giving recent test as satisfactory—Received.

From Engineer Hay sugesting that granolithic sidewalks be cleared of snow this winter by shovelling instead of snow plough—Board of Works with power to act.

At this juncture Ald. Neil explained that Mr. Seinery of Barrie had offered to send a couple of his new patent snow ploughs on approbation.

Ald. Hall favored the work being done this year by town laborers. The matter was left in abeyance.

From E. B. Stone, solicitor for John Marton, who threatens suit against the town for damages sustained in being thrown from his bycle through a defective road, and proposing to settle the matter for $30.—Legal Committee

From S. R. Armstrong, secretary of joint committee, recommending a grant of $300 to the Public Library—Received

From M. H. Hill re Sun Life Income Tax, an daskimg for remission of insurance assessment—Court of Revision.

From Mr. Bell stating that the Grand Trunk denied their liability for reconstruction of bridge over creek on Smith street. Ald. Hall moved that the matter be referred to a committee of the whole, who shall likewise investigate the question of railway companies' liability for the protection of railroad crossings.—Carried

From Dennistoun, Peck and Stevenson re construction of defective pavements on Charlotte street by Sheehy & Dolan—Received.

From Dennistoun, Peck and Stevenson, re opening up of pavement on Water street without sanction of the contractor, Mr. Sheehy, who thereby claims the work to have been thereby taken off his hands, and his sureties released from all liabilities in connection therewith—Received.

Accounts.

The following accounts were presented an drefeferred to Finance Committee for certification thereto;

C. N. Brown	1	00
W. J. Kennedy	1	00
C. Londerville	1	00
R. H. Leary	1	00
Light and Power Co.	15	00

A. R. Masley	3	00

Continued on page six.

THE PAVING CONTRACTS

Ald· Langford to be Accused of Breach of Trust

ENGINEER HAY TO SUFFER.

Counsel for Ald. McWilliams to formulate Specific Charges.

The Most Important Session of the Investigation Yet Held—Ald. McWilliams Evidence.

After an adjournment of a day and a half the investigation regarding the pavements resumed on Friday afternoon at 2 o'clock before Judge Weller. The attendance had dwindled down to the contractors, Ald. McWilliams and Sawers, Town Engineer Hay, the counsel engaged in the case and a couple of witnesses.

Mr. Raper, who kept track of the granite supplied from the town crusher, was the first witness. He put in a statement showing the amount of granite furnished for the work done under the supervision of Mr. Bartlett. The statement showed 308 cubic feet supplied for the London-st work, and 546 for the Dalhousie-st work. To Mr. Dennistoun witness stated that Mr. Barlett should know best how much went into the London-st contract. Mr. Bartlett had testified, said Mr. Dennistoun, that all he got was 308 feet. Witness could not contradict this. Mr. Hay had testified that 484 cubic feet went into the Dalhousie-st work. Witness was sure he had sent 546 cubic feet. Witness could not say where the difference went to. A large part of the granite for London-st was drawn by the town team. Witness kept no account of the granite for the Rose contract.

GEORGE ROSE.

George Rose was again put in the box and gave evidence regarding the amount of stone, gravel and cement used by him in his work. Witness had lost the book containing the statement of the amount of granite used by him but Mr. Hay had a record furnished by him of the same. Wiotness was questioned by Mr. Dennistoun regarding the cost of the work done by him on the different streets. He said that Mr. Hay's report of the cost of his (Rose') work was not correct. Neither were the figures he had put in himself when previously examined correct. They were too high. He had made a mistake. He had not done himself justice. Mr. Hay had figured wrongly on the cement. There was a difference of $40 in the cement. The Hunter-st pavement cost the town according to the witness' calculation, "something in the neighborhood of 14c. a square foot." Mr. Hay's figure was 14.77 cents. Witness thought Mr. Hay was all mixed up. Witness thought that that "anybody that knows Jack Hayes would not think very much of what he says. He is called 'shoot-off' Hayes." John Hayes is the man who found some fault with Mr. Rose's pavement on Charlotte-st.

ENGINEER HAY.

Mr. Hay was put in the box and revised his figures of the cost of the work done on Stewart-st made the day before. The revised figures were total $90*, cost per square foot including foreman's time 24.37 cents, without foreman's time 23.57 cents, without plant or tools 24.22, without either 23.211 cents, raising the cost about 4 cents. To Mr. McWilliams the witness stated that between the work done on Stewart-st in the proportion of 2 to 1 and the work done on Charlotte, Park and Hunter-sts, similar to that done by the contractors, there was a difference in cost per square foot of about 3 cents.

Mr. Dennistoum put in a statement computed from the figures furnished by Mr. Bartlett showing that each batch of concrete made of 18 feet of granite and 1 of cement made 176 square feet of laid concrete. Mr. Hay, the witness, agreed that this was correct. Mr. Dumble had it figured out at 174 square feet, which was assumed, for purposes of calculation, as being correct. A batch as made by the contractor laid 166 square feet of pavement. The cost per square foot, it was figured out, was practically the same. It was also figured out by Mr. Dumble that to complete 174 square feet the contractor who used 5 1-2 bags of cement to the batch he would have used more cement than would be used if the proportions of 2 to 1 were carried out. Mr. Dumble also submitted that in each batch the contractors put in 42 cents work of granite less than contract called for, but sand to the value of 55 cents were used.

Mr. Dennistoun.—We built a more expensive pavement than was called for.

ENGINER HAY CROSS-EXAMINED.

To Mr. Dennistoun it was admitted by Mr. Hay that according to the test made by Inspector Bartlett on London-st, north between George and Water-sts, when the proportions are two of granite to one of cement, the cost of the surface materials in the pavement is 5 1-2 cents per sq. ft.; and that according to the test made by Engineer Hay the cost of the same materials in the work done by Contractor Sheehy when the proportions are 2 of granite 2 of sand and 5 1-2 bags of cement is 5 1-2 cents per sq. ft. The difference is only 1-4 of a cent per foot in favor of the way the work was done by Sheehy and not 1-4-5 cents per foot as previously claimed. The following is the calculation—

London-st. Test.

Quantities two of granite to one of cement.

Total granite used 128 1-2 cubic feet.

There are 18 feet of granite to a batch.

Therefore there are 7.1 batches in that work.

7.1 batches laid 1238 sq. ft. or 174 square feet were covered by each batch.

Each batch cost, 18 cb. ft granite....$4.00
5 bags cement... ... ... 5.74

$9.74

or a cost of 5 1-2 cents per sq. ft.

Stewart-st. Test.

Quantities 2 of granite 2 of sand and 5 1-2 of cement. The quantities actually used by the contractors cost 5 1-2 cents per sq. ft. as demonstrated by Mr. Hay

Continued to-morrow.

Enameline is the Modern Stove Polish, because it has all the latest improvements. A brilliant polish is produced without labor, dust or odor. There are three styles of package—paste, cake or liquid. Get the genuine.

J. L. PRESCOTT & CO., New York.

Morning Times

PETERBOROUGH, NOVEMBER 14, 1899

TO THE PUBLIC.

The Times has completed arrangements for a telegraphic service by which it will be supplied with the news up to 2.30 o'clock each morning. In other words, we will give the same news as is found in the Toronto morning papers of the same day, five or six hours in advance of them.

We think we are entitled to the hearty support of the citizens in our efforts to supply them with a bright and newsy morning daily newspaper. We always give prominence to Canadain news, but besides being loyal to its own country, the Times claims the entire support of the people of Peterborough and surrounding towns and villages on account of its fearless attitude on all public questions. We cannot do otherwise than regard with serious misapprehension the position of the town of Peterborough, with its decreasing population and rapidly increasing debt. It is not pleasant to be told that there are nearly two-score empty stores in the heart of the town, as well as a large number of tenantless houses. But the truth must be known in order to discover the cause, and, if possible, secure its removal, even at the risk of offending some of the gentlemen whose interest it is to keep such matters hidden.

Any newspaper can pass compliments and ladle and taffy to those who have printing contracts to let, but it requires a certain amount of backbone to tell such men as Ald. Neill, for instance, that his conduct in sending Messrs. Adam Dawson and James Montgomery, two local contractors to Toronto to figure on the Rubber Company's building at an expense of some five dollars each, and billing the town $20 therefor, is not creditable or honest; that the roadwork done in the vicinity of his and the Mayor's residence during the past season, while other much more important thoroughfares are overlooked does not furnish evidence that they put the people's affairs before their own. It is an easy matter for the goody-good evening papers, who regard journalism chiefly for what there is in it to speak in flattering terms of Ald. Langford when he is right, and when he is wrong, to be mum as an oyster. Our contemporaries have no word of reproof for a man who is Alderman and contractor at the same time; who by his own shewing knew of wrong-doing in connection with the streets and said nothing. They leave all such matters to the Times, and while it is unpleasant in a way, the Times has always endeavored to do its duty without regard to personal or other considerations. In the larger sphere of Dominion politics, this paper has always endeavored to speak out fearlessly. It conscientiously opposed with all its might, the remedial legislation proposed by Sir Charles Tupper in regard to Separate Schools in Manitoba, with the result that at least two of the prominent Roman Catholic storekeepers of the town, who were formerly our customers, have never since darkened our doors. These men, in their bigorty and narrow-mindedness, are evidently incapable of doing justice to one who thinks and acts for himself. They do not seem to comprehend that the Times holds no ill-will to them or their creed, and that the great principle that if we are to have a united people we must have a united school is sound. There are scores of good, honest Catholics and Protestants who would be glad to know the names of these merchants, that they might give them a little taste of their own medicine. But it would only serve to create discord by revealing their identity and we refrain from doing so at present. All we ask is the support of the honest, broadminded men who regard our efforts with favor, and who are interested in the advancement and prosperity of our town and country.

In conclusion we may simply add that if we get the support which we expect, and to which we believe we are entitled it will not be long until we we will produce a morning daily newspaper that will be read from in all the important points between Toronto and Montreal.

Dear reader, we ask you therefore, to fill in the following blank and mail it to us, or leave it at the Times office.

Date..........................1899.

Times, Peterborough—

Please send the Daily Morning Times to the address below, for which I agree to pay $3 per year.

Name..............................

Street No., or P. O...............................

If you are already a subscriber, take enough interest in the matter to get a friend or neighbor to subscribe. We want as many new subscriptions as early in December as possible. You can enclose 75c. which will pay for three months, or pay for the full year, if you wish, or, if not convenient, send the order in, and let the cash follow at your leisure.

THE ONTARIO SAW LOG CASE.

The High Court of Justice, Toronto, has rendered a decision which sustains the action of the Ontario Legislature in regard to saw logs cut on Crown lands. The judgement is one of supreme importance. It is certain to have a far-reaching effect upon our tariff relations with the United States. It was one of the questions which International Commission for adjusting matters in dispute between Canada and the States.

The saw log case, briefly stated, is as follows—The Province of Ontario owns vast areas of land on which there is timber. This timber is needed by the lumbermen of Michigan as raw material for their saw mills. They have been in the habit of purchasing the right to cut down the trees on Ontario Crown lands. These trees, when sawn into logs in the woods, were shipped across Lake Huron to American mills. The Ontario Government, recognising the desirability of encouraging home industries, passed an Act, (61 Vic., cap. 9) which required all logs sawn on its Crown lands to be converted into sawn lumber in Canada. Those who purchased the right to cut timber after this Act was passed did so with the knowledge raised an obstacle to the progress of the new conditions, they therefore had no legal grievance against the Ontario Government. But, when the Act was passed there were American lumbermen who already held licenses to cut timber in Ontario. Such licenses, when first issued had no specific clause requiring the logs cut to be manufactured with some lumber in Canada. They, therefore, claimed that the government, by introducing this new regulation, had violated their contract. Suit was brought to recover damages and to restore what the American lumbermen regarded as their legal rights as owners of timber licenses.

The judgement of the High Court reads—"Their claim was placed upon the ground that they, or their predecessors, had purchased the right to the timber upon the limits from the Crown upon a contract for perpetual renewal of the yearly license, so long as they should comply with the regulations in force at the time they purchased, and that, in the absence of the clearest provisions to that effect in the writings forming their contract, it would be unreasonable to hold their rights to be subject to alteration from year to year, to their prejudice, by Order-in-Council made without their consent. Held, that not only the terms of the original licenses themselves, which, prima facie, at all events, must be taken to show the rights of the licensees, but everything surrounding the transaction, before and since, is opposed to the contention of the supplicants. The statute under which the Commissioner acts, empowers him to issue licenses, but only upon the terms prescribed from time to time by Order-in-Council, and he is forbidden to grant any license for a longer period than a year. The supplicants contended that the language of the Act 61 Vic., ch. 9, applied only to licenses issued upon sales made before it was passed. The 4th section of the Act brings into force on 29 April, 1897, the Order-in-Council of 17th December, 1898, the first section of which requires "the manufacturing condition" to be made a condition of every license or permit to cut pine timber, which should be issued after 30th April, 1898."

That is, in brief, the lumbermen claimed to have the right of a yearly renewal of their license on its original terms, while the Ontario Government claimed, that by the very terms of the license, its conditions were subject to the regulations it might make from time to time. On this clause in the original licenses the case of the lumbermen was wrecked. The Judge said—"The rights of the supplicants are to have their licenses renewed according to the conditions which at the time of renewal have been generally imposed upon license-holders, and so long as renewals are offered them which the Crown has the power to impose, no breach of their rights is committed."

Neither then in law, nor equity had the lumbermen a leg to stand upon. They then contended, that the Ontario Act was "ultra vires," as, the British North America Act reserves the right of making laws to regulate trade and commerce to the Dominion Legislature. This was shown to be unfounded, as, in imposing regulations on the lumbermen's operations the Ontario Government was simply acting as a land owner dealing with its own property. Such proprietor has the right to impose on the buyer any condition he thinks proper as to the disposition to be made of the article bought from him. This obvious right the Ontario Government exercised, when it required purchasers of its timber sawn into boards in Canada. The petition of the American lumbermen, in whose name suit was brought against the Ontario Government, was dismissed with costs.

The case may be appealed, for such an orange is not likely to be cast aside by the lawyers while any justice remains; but there can be no doubt as to the above judgement being sustained. What the effect will be on the negotiations, in regard to lumber, of the International Commission, remains to be developed. Our American friends will realize by this judgement that Canada is determined to do her own manufacturing, more especially of her native raw materials.

NOTES AND COMMENTS.

On the principle that he who fights and runs away may live to fight another day, the Boers will be heard from agian on numerous occasions.

•• • ••

A special correspondent of the Globe, writing from Parry Sound, reports a wonderful revival of the sawmill industry along the shores of Georgian Bay. This is partly owing to the rise in the price of lumber, but chiefly to the law passed by the Ontario government, requiring logs cut on crown lands to be sawn in this province before being exported. During the present season buildings to the value of $100,000 have been erected in the town of Parry Sound, due mainly to the expansion of the lumber industry. There is some reason for the further decision of the Ontario government to prohibit exportation of nickel and copper ore.

New Readers.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

'Endorsed by Physicians

"I desired to test in my practice various Witch Hazel products. I have done so, and am thoroughly convinced that your preparation (Pond's Extract) is preferable to all others for either internal or external use."

H. W. MARSH, M.D., Detroit, Mich.

We have thousands of testimonials from well-known physicians.

Pond's Extract

is and always has been manufactured by ourselves, at our own factory, and is guaranteed unequaled, in quality, purity, uniformity and medicinal virtue.

It is FOUR times as strong as Witch Hazel. Never sours.

Send for Yellow pamphlet.

POND'S EXTRACT CO., 76 Fifth Avenue, New York.

NOTHING "JUST AS GOOD."

If a sufferer from any of the various forms of Piles, however severe, or in need of a specific for skin diseases, use

Pond's Extract Ointment

It heals cuts, burns or bruises, and should be in every home. *All druggists or by mail. Price 50c.; trial size 25c. Prepared only at our laboratory.*

PRUSSIA AND AUSTRIA

A Collosal Political Deal Now On the Wing.

AUSTRIA TO DISAPPEAR.

Emperor William's Big Scheme to Absorb the Austrian Empire.

An Alliance With France and Russia—France to Receive Back Lorraine and Russia to be the Head of a Great Slav Union

(Special To The Times.)

Rome, Nov. 5.—Questions of an international character are at present keeping the Vatican court very busy. The Holy Father, whose mind is open to all new currents, feels that stormy days are drawing near for the Catholic nation and the Latin races. It is impossible to ignore the fact that if England has undertaken the war to absorb the Transvaal it is only because the Kaiser has authorized her to go to the very end, without risk of interference. What compensation have Cecil Rhodes, Mr. Chamberlain and Lord Salisbury promised to Germany? On what ground have the Anglo-German forces united?

That is the disturbing mystery. It is believed in well informed quarters that there is ground to fear that EEngland will give Prussia free hand in her scheme for the future conquest of Austria. In the very first skirmishes of the "los von Rom" party the Vatican was able to make out that that anti-Catholic religious movement was merely one form of Pan-Germanism. Opposed to the dynasty, Protestant-loving Germany, the party of Wolff and Schronerer, shamelessly exposed its design of having the northern provinces, as far as and including Trieste, incorporated in the German Empire.

This policy of treason and terrorization had openly the material and moral support of the Lutheran pastors in Munich and the rest of Germany. The interchange of ideas and aid between the two groups was established permanently. The separatist movement failed. The Lutheran Synod itself has admitted with official figures that instead of wholesale abjuration the conversions have been no more than three thousand. What is more essential, however, and what will be an enormous force in case of complications, is the fact that Prussia has an active army on the banks of the Danube. She has confederates in the fortress. The work of gradual investment recalls the mysterious relations of Prince Bismark with the official journals of the Second Empire up to the time when the Chancellor suspended payments and those journals muddled the clear stream of patriotism by their cries for revenge, "On to Berlin!"

Parallel with this Austro-German "los von Rom" tendency, there is spread everywhere the watchword, the international dogma so long as Francis Joseph lives, that Austria cannot escape dissolution. The ready made theory is found everywhere, on every lip. A secret general propaganda has made it an axiom of European politics. If some independent thinker expresses a doubt, he is greeted with contempt; he is behind the times. In France this deadly idea has been accepted in the most ingenious and friendly manner. French political men, however little connected with parties talk with satisfaction of the event, as though it were fated in history.

Whence arises the general conviction? who has created this death-bringing atmosphere? It seems that the Free Masons in all countries have allied themselves with the Pan-German party. In Italy Signor Luzatti spreads the foreign doctrine. In France it is M. Leon Bourgeois. The Vatican has no doubts as to its being in the presence of an international conspiracy against a Catholic nation. Looking at the matter from that standpoint it is very much concerned about the Kaiser's plans as regard the Centre, the Church and the ecclesiastical hegemony of Germany. Some of the Kaiser's speeches have seemed to superficial minds so eccentric as to excite a smile, but the Vatican has not Dr. Pangloss's optimism. The dreams of hegemony have a direct relation to the approaching crisis in German diplomacy. Since Austria's German-speaking provinces and Trieste are Catholic, and since Germany intends to establish a Holy Roman Empire, the sovereign's conduct is merely the prelude to some great action in which all Europe is involved. Once installed at Trieste a promise of the restitution of the Patrimony of St. Peter will be made to the Holy See; the promise will be spread abroad, so as to secure, if not the support, at least the neutrality of the Pope.

Though at Rome they are sure of the existence of this plan, they do not yet know how it will be carried out. To accomplish her end Prussia must find France either powerless to interfere or else a consenting party. Negotiations are at work secretly on the establishment of a Franco-Russo-German understanding of the following basis—France to receive back Metz and Russia to carry through the federation of the Slav races under the protectorate of the Czar, and Prussia to swallow the Austrian provinces. Can France share in this repetition of the partition of Poland?

I cannot tell. Metz as a compensation is ridiculous. The day when the country is shut in by the enlarged German Empire, with Trieste in the south and Antwerp in the north without counting Genoa, which Prussia covets, France will be hardly more than a prefecture of the new Teltonic monarchy. The latter would be head of a hegemony on land and sea alike. Why is the Kaiser so anxious for the constant increase of his fleet? William II counts, too, on the powerlessness of the French Government. He wishes to see it degraded in succession by a Kulturkampf and by internal dissensions. That perhaps will be his solution of the problem.

Russia, on her part, even more than France, cannot afford to lend her assistance to this great game. Bulgaria is an example of the gratitude of the liberated countries. What will the federation of Slav races be? Will not Germany, all powerful in the heart of Europe, turn the confederacy against the Czar at the first favorable opportunity? Will she not be obliged to turn the tide of Russianization upon Asia where she has a civilizing task to perform. It seems that at Berlin they count much on Count Mouravieff, whose hope is to loosen slowly the bonds between Paris and St. Petersburg and to bring Germany and Russia closer together.

Just now it would seem as if Germany were certain of England, who on her side has made sure of the friendliness of Berlin in the Transvaal business. Against the Franco-Russian alliance Wilhelm II. is employing the policy of becoming an arbiter, the policy, that is, of keeping his hands full. By means of that contradictory association he counts on attaining slowly, with leaden steps, the realization of the master aim of his reign.

This information, obtained from sources that have always been trustworthy, will seem perhaps extraordinary, if not extravagant, to practical minds. The near future will reveal the real character of the present situation.

POLITICAL QUIPS.

The presidential bees have gathered very little honey thus far in the campaign. —Los Angeles Express.

It is coming to pass in this country that it is almost libelous for a newspaper to call a man a politician. It is the imputation that he is guilty of things criminal.—Binghamton Herald.

If Princeton wants a professor of politics to be a professor of politics, she will not experiment with Grover Cleveland, but go straight to Dick Croker or Matt Quay.—

Where the Pot of Gold is Buried.

How many women are fretting and struggling along on a very little money when a good sized yard or adjoining patch of ground is going to waste! Yet that very piece of ground may contain all sorts of possibilities—clothes, furniture, books, medicines, luxuries and even necessities otherwise impossible.

Clear, plow, fertilize and plant. This done, the great beginning is made, and perseverance and attention will secure the rest. Onions, tomatoes, cabbages, celery, a small poultry farm, a violet or rose farm—any one of these may add several hundred dollars to one's purse every year. Small fruits, hops, tuberoses and grapes are also very profitable. With some intelligence a blooming garden can always be made a paying one. Make it a principle to have no more waste in the garden than in the kitchen.

If there is only a very small place and just enough raised for one's own family, try, after the table is supplied, to prepare what vegetables and fruits are left over for sale for winter use. There is always a demand for good homemade canning and preserving. Do not let a valuable scrap of ground be idle.—Annette Halliday-Antona in Woman's Home Companion.

Two Legitimate Mining Propositions

The Great Western Mining Co.

Property situated on the south half of the Colville Indian Reservation, good wagon road to property from railroad. Lead and Silver, 3 claims deeded to company, ledge shows entire length of claims, the ore shute on the surface, when work is in progress, shows 25 feet by 100 feet in length average assay of 25 tons of ore now on dump gives 51 per cent in lead and 55 oz. in silver, this property will without doubt be a shipper before spring, share in this property can be had of at par share' the par value.

The Noonday Mining Co.

Property situated about 2½ claim lengths from the great Republic Mine Republic Wash right in the belt, ledge 20 feet wide, assay from $8.20 to $12.00 in gold, work now in progress on cross cut tunnel at present in about 80 feet. Share in this property can be had at [illegible] per share. Maps on prospectus can be had at Company office and for application for stock and other information. Address.

SPOKANE, WASH.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 20 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of **at least 100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO.

A Big Sale of Republic Stocks

THE FAIRFAX CO., OF REPUBLIC, J. J. Brown, Pres., Willie Monaipe Lowe, after securing the Jim Hill claim adjoining it on the north, sampled the ledge and W. H. Stowell reports on this sampling [illegible] in gold, immediately upon the [illegible] becoming known in Republic, a Mining Supt., through our agent there, Tom Angel, negotiated the purchase of [illegible] worth of Treasurer's stock, the company [illegible] stock at [illegible]. Remember the Fairfax and Jim Hill are less than 600 feet from the Mountain Lion, which is now $2.00 per share, and is an investment at that. The Fairfax at 5½ cts., is a speculation. Work is to be pushed.

A SIMPLE LITTLE MIX UP.

How It Helped One Man at the Expense of Another.

How a bunch of roses sold a couple of high priced railroad tickets is the basis of a queer little comedy of errors enacted the other day at a leading city hotel. Among the guests of the house was a wealthy Texas merchant who was en route with his wife for a visit to New England. The Texan has a local business representative here in the person of a hustling young man about town, who was especially anxious to make the stay of his principal as pleasant as possible. Accordingly he rushed to a florist's as soon as he saw the names on the register and ordered him to put up the handsomest bunch of roses he had in the shop and send them over to Mrs. Blank at such and such a hotel. In his hurry he forgot to leave his card for inclosure, and, supposing it was omitted intentionally, the florist proceeded to prepare a magnificent bouquet, which he dispatched forthwith by messenger.

It so happened at the moment the flowers arrived that a city passenger solicitor for one of the north bound roads had just handed over his card to be sent to the Texas gentleman's apartment, and quite naturally the pasteboard and the roses went up together. The visitors were both astonished and pleased. "This is certainly a princely way of soliciting business," exclaimed the merchant, examining the flowers. "Why, these things must have cost all of $10. Show the gentleman up."

The solicitor was shown up, received most cordially and given an immediate order for through transportation both ways. He departed, chuckling merrily, but a little dazed by the facility of his deal and puzzled to understand the many references to his "courtesy" and "thoughtfulness."

An hour or so later the local representative dropped around and was met by his employer in the lobby. The greeting was painfully matter of fact, and not a word was said about the flowers. The young man was greatly chagrined and began to believe he had made a bad break. Next day he accompanied the couple to the depot, and incidentally something was said about the route.

"We decided to go this way on account of the gentleman who called to sell us tickets," explained the lady. "He was so courteous and pleasant! Why, would you believe it," she continued, "he actually sent me an enormous bunch of beauty roses with his business card!"

Light dawned on the local representative, and he groaned. In his pocket was a florist's bill for $12.75.—New Orleans Times-Democrat.

A JUMPING TOOTHACHE.

How It Won Its Victim Credit For Bravery In Battle.

"It was a toothache," said the veteran, "that won me a reputation for daring at the battle of Bull Run. That was the only fight I was ever in where I didn't wish I could find a hole to crawl into. All this talk about coolness on the eve of battle is nonsense, invented by people who have never been there or old soldiers whose tongues get away with their memories. Our men and officers were as brave as any in the war and made good records, but they all had the ague and longed for sick leave just about the time the bullets began to fly. But I had the toothache for two days before that battle, and if there is an aggravation on earth that will make a man want to hat his best friend in the face that is it.

"On the night before the fight I did not sleep a wink. The old tooth got to jumping like a goat, and I couldn't have suffered more from an amputated leg. I was also furiously mad. I felt that I'd either got to bolt for the rear in search of relief or encourage some rebel to put a ball through my head.

"We'd been waiting in battle line for an hour, and the boys had grown white and were all choked up. I had been entirely occupied with the old tooth, and the first thing I knew the fight was on. We were holding them in check, but that didn't suffice me. As I got hold of my gun and pulled the handkerchief off my jaw I yelled out for the boys to follow, and we struck a whole brigade and whirled it around and sent it back half a mile. I felt that I could lick the whole of Lee's army for an hour or two! They told me that I yelled and dodged death a thousand times, but I remember nothing but the jumps of that tooth. When they stopped, or for what particular reason, I could never say, but after a couple of hours I came to myself, as it were, and was being complimented on all sides, and the jumps had ceased."

TRAITORS ARE PUNISHED.

London, Dec. 2.—Two Irish magistrates have been deprived of their offices by Lord Ashbourne, the Lord Chancellor of Ireland, on account of anti-British comments on the Boer war. The proceeding is most unusual, especially as one of the delinquents was a nobleman, Lord Emly, who, speaking to some laborers at Limerick, inferred that Great Britain might have another Ladysmith in Ireland. Lord Ashbourne asked for an explanation, but Lord Emly haughtily refused, whereupon he was removed. Lord Emly is prominent in Ireland, both socially and politically, and an ardent Home Ruler. The only other instance of record is when Mr. Gladstone, years ago, deprived Lord Rossmore of a magistracy for similar utterances.

MURDER AT THE CENTRAL.

A Convict Ferociously Attacks a Prisoner.

Toronto, Dec. 2.—At half-past four o'clock yesterday afternoon a Central Prison convict named Arthur Cardinal, now serving a fifth term, having been sent from Ottawa for one year in May last, concealed himself in the cell of another prisoner named John Hughes, a lad of only 16 years of age, who with his father, James Hughes, was sent here from Lindsay for six months on a charge of vagrancy, and with a 16-inch bladed knife, obtained by stealth from the kitchen, stabbed him so furiously and repeatedly that his victim's life has undoubtedly been sacrificed.

Cardinal was employed as a cleaner in one of the wings and young Hughes was a messenger. Earlier in the day there had been some altercation between them. Cardinal alleged that Hughes told lies about him.

At the hour named above the prisoners go to their cells. Cardinal slipped up very quietly and entered Hughes' cell to await his victim's arrival. When the latter came the other leaped upon him and stabbed him twice on the head, and again on the neck, shoulder and back. Hughes' screams of pain and terror brought the guards on the run and Cardinal was overpowered, disarmed and placed in solitary confinement. Dr. Sloan, the prison doctor, and Dr. Harris were summoned, and Hughes was put in the hospital. His injuries are terrible. One gash had cut out a part of the skull and exposed the brain. During the night he began to sink, and this morning when Crown Attorney Dewart and Alexander Downey, official stenographer, went up to get his ante-mortem statement he was unconscious.

In 1897, while serving a term at the Central Prison, Cardinal clubbed another prisoner and for so doing was tried and sent to the Kingston Penitentiary for two years.

Father Walsh went up to the prison today to administer the last rites, but, Hughes being insensible, the reverend gentleman went away again.

There is practically no hope of the lad's recovery, and if he dies Cardinal will be tried for murder.

WANTED FIRE BELL CLOTHES.

He Just Made Up His Mind to Kill That Town of St. Joe.

"Ah'm come back home for some clothes, an Ah want 'em wahm," said a tall young negro to a Walnut street haberdasher one day last spring. "Ah'm jes' agoin to kill that town of St. Joe. Show me the heatedest clothes yo' got in the house."

He was not cool as to raiment to start with. His overcoat was cream colored, overlaid with pearl buttons the size of those small butter plates still in use in restaurants. His trousers were green and ended in yellow shoes with brown shot silk tops. His hat was light blue, mottled in brown; his gloves were red and his cane heavily silvered.

"Can't no St. Joe nigger tell me Ah come from Raytown," he muttered. "Ah goes up to St. Joe to work, and the coons there laugh at me and tell me Ah ain't from Kansas City, because mah clothes is so inconspiculous, and Ah just save up mah money, and Ah'm agoin back to kill the town. Now what I want is some underclothes and socks and shirts and things that are the wahmest you've got."

"How will these do?" asked the haberdasher, exposing some scarlet hosiery, banded with wide white stripes.

"That's it. That's the kind of clothes Ah want. They ain't nothin in St. Joe like that. Lemme look at them underwear."

He inspected some red underwear with white stripes, some of baby blue with pink stripes and others of green with blue, black and red stripes. He bought neckscarfs of every shade of red, blue and green and of the most bewildering patterns. His purchases included zebra collars and pale pink shirts, diamond scarfpins at 35 cents each, but with $85 of shine, and a brown waistcoat with scarlet moons emblazoned on it.

"Ah've got 'em dead," he exclaimed when he had finished. "They've ceased to live. When Ah got back to that town of St. Joe they'll ask me if I come from Raytown, will they? Ah'm agoin to take back to that little ole burg such wahm clothes that they'll meet me with the fish department. That town's dead now, and Ah've killed it."

How Wealth Is Carried.

"It is rather amusing," remarked the head of the biggest bureau de change in London to the writer, "to notice the various methods in which men of different nationalities carry their worldly wealth. The Englishman carries his all loose in his right hand trousers pocket—gold, silver and copper all mixed up together. He pulls a handful of the mixture out of his pocket in a large, opulent way and selects the coins he has need of. The American carries his wad of bills in a peculiar long, narrow pocketbook, in which the greenbacks lie flat; the Frenchman makes use of a leather purse with no distinguishing characteristics, while the German uses one gayly embroidered in silks by the fair hands of some Lottchen or Mina.

"The half civilized capitalist from some torrid South American city carries his dollars in a belt with cunningly devised pockets to baffle the gentlemen with the light fingers. Some of these belts are very expensive. The Italian of the poorer classes ties up his little fortune in a gayly colored handkerchief secured with many knots, which he secretes in some mysterious manner about his clothes. A similar course has charms for the Spaniard, while the lower class Russian exhibits a preference for his boots or the lining of his clothes as a hiding place for his savings."—London Answers.

They Keep One Eye Shut.

A recent traveler in Mexico, who visited the mines there during his journey, says that he was much astonished at seeing the men who carry the ore come out of the mine, each with one eye shut.

The foreman, seeing his surprise, explained the matter. He said the candles belonging to the tarateros (who drill and blast) do not give sufficient light in the drifts, where it is consequently quite dark, but where, nevertheless, the tarateros see well enough not to run their heads against the rocks, but, on emerging into daylight, they would be blinded did they not take precautionary measures.

For this reason, as they approach the mouth of the shaft, at the point where they catch the first glimpse of light they drop the eyelid of one eye and keep this down while they are discharging their ore and until they have redescended the shaft.

When they are again in the dark, they open the eye kept hitherto in reserve and at once see everything distinctly, while the other eye, previously open and somewhat blinded by the daylight, perceives nothing

A BOY HERO.

Trumpeter of 5th Lancers Shows Bravery.

London, Dec. 4.—Every campaign in which England engages develops some individual act of heroism that stirs the British blood throughout the entire empire and sets tongues going in ceaseless praise of the hero. The latest instance of this was furnished by Piper Findlater in the war against the Hill tribes of India. At Dargai, where the Highlanders were charging the tribesmen, Piper Findlater was shot, but, falling, continued to play on his hornpipe the charge. His regiment, stirred by his bravery, went on up the hill and captured the point attacked, and Findlater returned to England to be personally honored by the Queen herself.

It was expected that true to English precedent, the Boer war would call forth some similar act. But no one expected that it would be as soon as it has. John James Shurlock, of the Fifth Royal Lancers, is the hero, and he is a trumpeter in the service. He is a mere lad of sixteen summers, but he did a days work of which any man of mature years would be proud. And justly so.

It was in the fight at Elandslaagte, when the Lancers were so severely set upon by the Boers. They were hard pressed, and it developed upon Trumpeter Shurlock to sound orders on the bugle. As he raised the instrument to his lips he was set upon by three Boers at once. He saw he could not blow the blast so he slung his horn again and drew his revolver. It took the coolest kind of work to avoid the first of his assailants. As he dodged the blow aimed at him he fired his weapon point-blank in the face of the burly charger. Down the fellow fell in a heap at his feet. With an instant's hesitation he turned to the next and shot him clean through the heart, and as the third engaged him he warded off the point of the bayonet with his open hand and shot the fellow through the shoulder. Then, without the slightest delay, he sounded the order that held the Lancers firm and kept them from any possibility of retreat that might have ended in dishonor

It required the nicest courage to withstand such an attack successfully. It not only took the nicest courage, but it took the nicest accuracy of aim with a revolver. Had he missed anyone shot he must have paid the forfeit with his life. It would have cost him more perhaps, that which he valued more than his life. His wound was quite a severe one, but it was soon dressed in the hospital, and he is now doing nicely with the prospect of a distinguished service ahead of him and a Victoria cross

The little fellow is a born soldier, being bred in the service. He is the son of a trooper in the Fifth Lancers who lost his life by an accident in the service several years before. He enlisted in the army when he was fourteen years of age, with the full consent of his widowed mother, who is herself the daughter of Sergeant John Froggett, a soldier with a record of thirty-one years including distinguished service.

ORCHARD AND GARDEN.

Cultivate the young orchard thoroughly early in the season.

In selecting trees, take those with smooth, healthy looking bark.

Ground bone is good for small fruit plants, grapevines and bearing apple orchards.

The deeper the culture the larger the reserve of moisture for the roots in time of drought. To secure quick growth prepare the soil deeply

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

MEN OF ALL AGES

suffering from the effects of early folly quickly restored to robust health, manhood and vigor. Lost Manhood, Premature Decay, Weak Memory, Errors of Youth, Night Losses, Varicocele for ever cured.

$1 BOX OF MEDICINE FREE.

OLD DR. GORDON'S REMEDY FOR MEN in a few days will make an old man of 60 feel 20 years younger. VIVID HEALTH

Nothing so rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness to the gain of wealth. A loaded purse cannot atone for the deranged liver, the altering step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO

Stimulants and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evident sickness tells of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries fuel and strength to every tissue, and gives back health where once lurked death. HYPNOTISM THE UPLIFTER.

"Hypnotism," says Dr. John D. Quackenbos, emeritus professor in Columbia University, a specialist in nervous diseases, and an authority on neurasthenia, is one of the greatest agents in the hands of man for the uplifting of the soul of the young." He adds that by its proper use the morally deformed and wicked can be turned from their evil inclinations and equipped with clean thoughts and wholesome aspirations.

In a lecture before the Psychic Study club in the Hotel Majestic last night, Dr. Quackenbos gave concrete instances of such cures made by him recently, and made the startling assertion that he believes that hypnotism is a more wonderful agent than religious teachings and exhortations for the moral regeneration of the young.

Has Cured Many.

He gave the names, detailed conditions and results of his hypnoses of nearly a dozen young persons, whom he has cured of moral and physical disorders.

The lecture was given before a large crowd. The doctor attacked Christian Science methods of cure bitterly and evoked hisses from several, but the majority applauded.

The Rev. Dr. Henry Frank, president of the club, introduced Dr. Quackenbos, who said in part:

"I am under obligations to confine myself on the present occasion to the value of post-hypnotic suggestion in the treatment of moral obliquity. It has long been known that a human being can be thrown into an artificial sleep, called hypnosis, during which he sustains such a relation to an operator who has induced the state that he is sensitive only to what the operator tells him he is sensitive to, and wholly subject, so far as his mental operations and physical actions are concerned, to the volition of his hypnotist.

"His ears become avenues of suggestion, and thoughts intruded by emphatic declaration upon the subliminal consciousness of the double self promptly and irrevocably modify character for good or for bad.

Owns His Subject.

"Directions given are carried out in the minutest detail, and suggestions of any nature, though involving attitudes and actions conspicuously at variance with the patient's dominant ideas and daily routine, are fulfilled at the time and after waking. A hypnotist litterally owns his subject. The superiority of hypnotism as an instrumentality for exalting human character over the conventional methods of instructing, reforming and persuading to meritorious action, is thus as unique as it is startling.

"I have reached the conclusion that every person of ordinary intellectual capacity can hypontize some other person, and that the great mass of men are hypnotizable.

"The suggestion is given that refreshing sleep is about to ensue; and in a few moments a deep breath is taken, the lids close with a slow, regular movement, deep inspirations follow, and I know that I have been given possession of that soul for such a time as I may prescribe, to do with it what I will.

"The responsibility of the few moments that follow is awful beyond any power of mine to picture to you. I stand in a closer relation to that sleeping mind than father or mother, teacher or preacher, husband or wife can ever attain, and it becomes my Christian manhood to act only as the vicegerent of the Almighty in the use I make of this great power and sacred opportunity.

Great Reverence.

"My friends, I look upon hypnotism with a reverence that is felt by very few. I regard it as a great instrument for the moral and spiritual elevation of mind, for the giving of definition to the intellectual and ethical divine in human character. And the secret of success consists in the substitution of lofty and happy standards for the unnatural, sinful impulses and beliefs that hold sway.

"It was with the hope of establishing an inductive principle as regards the applicability of hypnotism to the eradication of criminal traits, hereditary and acquired, that I began during the past winter a series of experiments, the results of which I now take pleasure in announcing to the members of the Psychic Study club.

"W. C., aged 17, who had been a thief for five years, had been repeatedly arrested, once for house breaking, and was, as he expressed it in the habit of swiping whenever a good chance offered itself, came to me on March 19 and begged me to cure him of his uncontrollable propensity, which he was sure, would sooner or later land him in a felon's cell.

"After considerable difficulty I succeeded in putting him in a state of profound lethargy and gave him two suggestions, each repeated three times—first you will not feel the inclination to steal any more; second, you will not steal any more.

Cured the Thief.

"I then suggested that he lived in a country where honesty was sure to succeed, and promised a bright future conditioned entirely by his respect for the property of his neighbours. I finally said; 'Lose that hang dog, guilty expression; put on a manly bearing and look everybody straight in the eye.'

"A week later my light-fingered young friend met me with a frank smile, and, looking me straight in the eye, said—'Doctor, you didn't put me to sleep last Sunday, but its very funny, I haven't had any temptation to swipe since.'

"It is not uncommon for hypnotized patients to say they have not been asleep at all. This boy was profoundly lethargic for twenty minutes, and I had considerable difficulty in arousing him.

"The next case, aged 12, was brought to my house on May 11, to be treated for kleptomania. She was subject to sudden and uncontrollable impulses to steal, without regard to any possible use she could make of the appropriated articles. She simply stole for the love of stealing, and lied to excite attention and secure admiration.

"The child was hyptonized and told that she would not lie or steal, nor feel any further desire to do so.

"On May 15 her godmother brought Stella again to my office, with the report that she had made no attempt at pilfering since our last interview, returned the correct change when sent on errands, and had excited the surprise of the home circle by her respectful demeanor.

Saved From Ruin.

"Many perversions that have been removed by hypnotic treatment can hardly be described before this audience. In the case of one young man I devoted four consecutive Sunday afternoons to the construction of moral ideas through hypnotic suggestion. And ladies and gentlemen, I have the satisfaction of knowing that I have been the instrument in the providence of God of rescuing a bright young life from ruin.

"I did not dare to abandon that boy until I had placed him beyond the reach of temptation, and, although worn out by mental work and greatly in need of my Sunday rest, I found absolute pleasure in denying myself and thus giving of my soul to save a soul."

THE NEW YORK WORLD, THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism — "America's Greatest Newspaper," as it has been justly termed—The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

ROBBING UNCLE SAM.

Ingenious Methods Restored to in "Lightening" Gold Coins.

The many ingenious methods resorted to by persons who endeavor to accumulate a "pile" by sharp practices with Uncle Sam's keeps the government officials trying to devise plans that will result in their undoing. A comparatively safe and at the same time lucrative method is carried on to a considerable extent west of the Rocky Mountains, and is known as "coin sweating."

In "sweating," a gold piece is merely immersed, or suspended, in mixtures of nitric and hydrochloric acids, which attacks the metal at once. The manipulator keeps the piece in his bottle only a short time, for a few minutes suffice for the mixture to absorb and hold in solution as much as six to eight shillings' worth of the gold from a twenty-dollar piece. The coin is then washed in water and polished with whiting, as otherwise its surface would betray the ordeal through which it had passeded, showing "pockmarks" in great variety. The process is continued with other coins until the acid is "saturated," when it will absorb no more of the metal. The coins are exchanged for silver or other currency, as only an expert could detect the small subtraction in weight. It is only necessary for the sharper to boil down the acid to complete evaporation, when the residue in the kettle will be found in the shape of a gleaming button of pure gold, varying in size according to the amount of acid and the charge it carried in solution.

Insidious as this acid thieving may appear, it might be regarded as crude by those who are acquainted with the "tricks that are vain" exercised by the "heathen Chinee." John Chinaman has never learned the "art" of sweating the coins with acid, but he accomplishes his purpose in his characteristically patient manner. He simply places many coins together in a buckskin bag and proceeds to shake and toss and otherwise agitate that receptacle until he has worn off by abrasion $10 or $20 worth of dine dust of gold. The coins present the appearance, when at length they emerge from the sack, of having been regularly abraded by pocket-to-pocket circulation, and therefore to all intents and purposes nothing illegal has been done.

An Unprofitable Bone.

Last summer a friend presented us with a tortoise. I do not know whether our dog had heard of turtle soup or whether he regarded the creature as a new kind of bone that walked about; at any rate, he determined to eat it.

Whenever the tortoise started out on a constitutional down the garden path Gyp arrested it and carried it into his kennel, where he gnawed at the impenetrable armor till his jaws ached.

The calm and philosophical manner in which the tortoise resumed its interrupted promenade irritated the dog exceedingly, but no failure discouraged him. Whenever we reminded him of the tortoise, he would go in search of it all round the garden, peering into every crevice, till eventually the creature was found, and then fresh but futile attempts were made to crunch the meaty portions from the shell.—

When a mother thinks she is going to die and rather wishes she could, what happens to the child? Where else shall the child get the love, kindness and care that is to ripen it into useful, happy maturity?

Where is the husband to turn for the comfort of home—the sympathy of wifely affection—the support that only a strong, cheerful, healthy help-mate can give?

Who is to be pitied most? Mother—father—child?

Whose fault is it?

Nobody's maybe — certainly not the child's. Either the mother or father can write to Dr. Pierce and receive medical advice free. Thousands have done it. Thousands of homes have been made happy by it. Thousands of weak women suffering with the pains and debilitating drains of a diseased condition of the distinctly feminine organism have followed Dr. Pierce's advice and become again blooming, vigorous, loving, cheerful and loved.

Dr. R. V. Pierce is chief consulting physician at the world-famous Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., and during his thirty years' practice here developed his great family medicines—Dr. Pierce's Favorite Prescription, Dr. Pierce's Pleasant Pellets, Dr. Pierce's Golden Medical Discovery.

Mrs. Claus Nelson, of Pico Heights, Los Angeles, Cal., Box 31, writes: "I send you my picture taken with my little boy. I do not look so sad now as I do in the picture; I was sick then and I thought my days would not be long, but your kindness and medicine would not let me die. You have my heart-felt thanks for your kindly advice to me in my sickness; also for your book which I received two years ago, and which I could not do without. It is all the Doctor I have had since I got it. I had female trouble, and Dr. Pierce's Favorite Prescription, together with the advice given in his book, cured me of five years' sickness."

The book Mrs. Nelson mentions is Dr. Pierce's 1,000 page "Medical Adviser." A copy in stiff paper-covers sent on receipt of 31 one-cent stamps to pay expense of customs and mailing *only*; in handsome cloth-binding 50 stamps. Dr. R. V. Pierce, Buffalo, N. Y.

Proud of Him.

When he was 30, he returned to his native town "just to see how the old place looked." He found it unchanged. The old store, where as a lad he had clerked it and sold calico and groceries to the old farmers, was just the same. He contrasted the sleepy old place with himself and felt a glow of satisfaction when we thought how much those 30 years had done for him. "They ought to be proud of me," he said to himself.

Presently he met one of the old inhabitants.

"Waal, I declare, is it really you, Hank?" said the old man incredulously. "We've heard you've been prospering fust rate since you went west. They've made you a railroad president or suthin of the sort, ain't they? I heard so, but I couldn't believe it. It's really true, is it? Waal, all I've got to say is they must be purty hard up for railroad presidents out there."

He took the next train for the west.—

Briggs—Appearances, you know, are often deceptive.

Griggs—Yes. A person can never tell just how much it is going to cost to keep them up.

Peterborough Business College, opp. post office

Morning Times

PETERBOROUGH, NOVEMBER 15 1899

TOWN AND COUNTY NEWS

Xmas Boxes.

The most suitable and seasonable Xmas Box is some thing warm, comfortable, neat and pretty from the Port Hope Knitting Works. Telephone 330. Ask for Trading Stamps. See Friday's paper for Saturday bargains.

The Saturday Times.

The Times on Saturday next will contain a large amount of new and original matter, including the Lime Juice Club, and other special matter. Everbody reads the Times.

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

Fire in Galway.

Word was received that Mr. Chas. McMahon, of Galway, lost his dwelling and contents on Thursday morning last. Mr. McMahon is entirely destitute, as there was no insurance. The building was the property of Mr. W. Irwin, of Peterborough.

Boy Wanted.

The Times requires a smart boy for night work, to set headings and run messages. Short hours and fair pay. Apply n evening to night foreman, in daytime to Times Bookstore,

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your health, the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and home-made. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

This Evening.

At the meeting of the Fortnightly Club this evening, Messrs. Walden and Crane will sing a patriotic duet. Miss Mary Grant and Miss Nellie Davies will supply instrumental music. Rev. H. Symonds will read a paper on "Alexander the Great." Public cordially invited.

THE ASHBURNHAM COUNCIL.

Regular Meeting Last Night—Monthly Statement Presented—Accounts.

The Ashburnham Council met in regular monthly session last night. Those present were Reeve Adams, in the chair, and Councillors Craig, Rutherford, Sheridan and Pollock. The minutes of the last meeting were read and confirmed.

Communications.

From John Carlyle, asking the Council to assist him in gravelling Euclid Ave.—Referred to Street and Bridge Committee.

Monthly Statement.

The following statement of receipts and expenditures, from 7th Nov. to 30th Nov., 1899, inclusive, was presented—

Simon Clancy, account	6 85
	$ 448 72

By-Laws.

A by-law fixing the different polling places and the deputy returning officers for the same, for the coming municipal elections, received its several readings and was passed.

Tenders for Snow Plowing.

The following tenders were received for snow plowing—

Wm. Frith, North Ward, $45.00; J. Tighe, North Ward, $45.00; J. Craig, sr., South Ward, $37.00, and for the North Ward, $35.00; Zimri Blodgett, North Ward, $45.00; South Ward, $45.00.

Some discussion took place as to the advisability of having the plowing done by day work. The matter was left over till the next meeting.

The Council then adjourned.

A DECEMBER WEDDING.

Marriage of Mr. Richard C. Heard and Miss Mary A. Northey.

A very pretty wedding took place last night, at six o'clock, at the residence of Mr. and Mrs. R. S. Northey, corner Benson and Bennett streets, when their youngest daughter, Mary A., was united in marriage to Mr. Richard C. Heard, blacksmith, of Bridgenorth. The nuptial knot was tied by Rev. S. J. Shorey. The bride was assisted by Miss Mary Buntin, Rubidge-st., while Master Whitfield Northey, brother of the bride, acted in a similar capacity for the groom.

The bride was becomingly attired in an English steel grey suit, trimmed with white satin and chiffon. The bridesmaid wore an English Ripley's pearl grey, decorated with Nile green and Satin and white chiffon trimmings.

The presents were numerous and costly, attesting the high esteem in which the young people were held.

A large number of guests were present. The Times extends its hearty congratulations.

THE IDYL-WILD HOTEL.

Particulars of the Destruction of this Fine Summer Hotel.

On Monday morning last, says the Cobourg Post, about 10 o'clock, the large frame hotel at Idyl Wyld was totally destroyed by fire. Mr. Gliddens, who was in charge of the house, for Mr. W. Macdonald, was out on the lake with Mr. Bertram Macdonald, a younger brother of the proprietor, when the fire broke out, and when they returned to the island the hotel was completely enveloped in flames. The building and contents were totally destroyed. Bertram Macdonald, who had been in delicate health for some time, received a terrible shock, and became prostrated. He was removed to Harwood and medical aid summoned, but all efforts to rally him proved unavailing, and at 6 o'clock he passed away. He was 23 years of age and much respected by a large circle of acquaintances. This sad affliction has caused much sympathy for the bereaved mother and surviving relatives. Yesterday the remains were brought to Coubourg and interred in St. Peter's cemetery.

Police Court.

Thomas Dolan and Joseph Hume were arrested on Saturday afternoon charged with stealing two overcoats from Steve Holland. One of the overcoats was afterwards recovered at Crimmin's Hotel, where it is alleged Dolan left it. They were remanded until to-day.

Dolan is an employee of the C.P.R. and Hume is a resident of Ashburnham.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

Your committee also recommend that J. H. Sherwood and Geo. Rose be paid for work done under the instructions of the Town Engineer as certified by the engineer.

All of which is respectfully submitted.
The report was adopted as read.

Court of Revision.

Ald. Langford presented the following report—

Gentlemen,—Your Court of Revision beg leave to report and recommend as follows—

1 That $1 paid as dog tax and 87 cents paid in error by Mr. N. T. Lapiante be refunded to him and a cheque issued for them amounts.

2. That $3.33 paid by Mrs. Annie E. Lane on a personal property assessment be refunded and a cheque issued to her for the amount.

All of which is respectfully submitted.
The report was adopted as read.

Appointments and Licenses

Ald. Corkery presented the following report—

Gentlemen,—Your Appointments and License Committee beg leave to report and recommend as follows—

1. That A. Romano be given $10 as a refund of part of a pedlar's license fee paid by him.

2. That this committee be authorized to procure winter caps for the members of the police force.

All of which is respectfully submitted.
The report was adopted as read.

To Regulate Tires.

Ald. Hall introduced a by-law to regulate the width of tires for vehicles in the Town of Peterborough. The instrument provides that after July 1st, 1901, the tires of all vehicles of a carrying capacity of from a half to one ton and over shall be three inches in width, while vehicles of two tons capacity and over shall be furnished with four inch tires. Any person violating said by-law will be subject to a fine of not less than $5 and costs, and not exceeding $50 with costs. The by-law passed its second and third readings.

Ald. Langford moved, seconded by Ald. Hall,—That 2,000 copies of the above by-law be printed and thoroughly distributed.—Carried.

Miscellaneous.

Ald. McWilliams moved, seconded by Ald Corkery,—That the members of Ashburnham Council be invited to meet the members of this Council with regard to the amalgamation of the two municipalities.—Carried

Ald Hall moved that the question of wide tires be referred to a legal committee with a view to memorializing Government in the matter.—Carried.

Ald. McWilliams moved,—That the question of settlement with Mr. Green re right of way on Wolfe street be referred to a committee of the whole Council, with power to act.—Carried.

Ald. McWilliams moved, seconded by Ald Denne,—That the Town Commissioners be requested to furnish a detailed statement of the cost of arbitration between the town and the bondholders of the [illegible] block.—Carried.

The Council then adjourned.

AN EARLY MORNING BLAZE.

Fire in the Bindery Department of the Examiner Office.

A serious fire broke out shortly after two this morning in the bindery department of the Examiner office. The brigade turned out and were soon on the scene. At the hour of going to press the firemen were still at work and apparently the worst is over. A quantity of fine stock was destroyed, and the water coming through the ceiling has done considerable damage to Mr. A. H. Stratton's bookstore situated immediately below the bindery.

A Crowded House.

Physiognomy combined with Prof. Welch's popularity, crowded the Y. M. C. A. Hall last evening so full that the class room doors had to be thrown open to accommodate the eager crowd. The Prof. talked for about one hour and a half on the different parts of the face, taking up the eye-brow of different casts, eyes of various hues; Roman, Greek, commercial and other types of noses; the lips, the chin, etc. It was indeed a very amusing and instructive lecture. At the close of the lecture he read the heads of two ladies and two gentlemen very accurately. The Prof. is kept very busy at his private room in the Oriental when not lecturing.

Toronto Visitors.

Families going to Toronto would make no mistake if they will stay at the Richardson House, where everything will be found first-class at reasonable prices. It is convenient to railroad stations, theatres and principal stores.

Railway Notes.

An amicable settlement has been reached between the G.T.R. trainmen and the Company and the result is a victory for the men. The new scale will mean a big increase for the men, the fast freight men getting an increase of over $1.00 a day, while the passenger men get an advance of 37 cents. The trainmen have more work but they get more money.

The Grand Trunk Railway authorities are fitting their locomotives with a new style of snow plough. The ploughs are left on the engines in fine weather because of the difficulty of removing them, and also to provide against any sudden change. They are said to have worked satisfactorily and can be worked to good advantage from the cab of the engine.

The Canadian Pacific Railway Company are unable to obtain sufficient cars or engines to move the grain now lying at Owen Sound for shipment east, and while this is so they are not free from accidents. Tuesday night, in their hurry to remove several trains at the round house at Owen Sound, several engines were run out over the turning table into the pit. Both of them will necessarily be in the shops for at least two weeks.

THE HEART WAILS.

Of Thousands Have Been Turned Into the Joy Song of the Cured by the Almost Magic Medicine, Dr. Agnew's Cure for the Heart—It Relieves in Thirty Minutes.

Mrs. John Fitzpatrick, of Gananoque, was for five years a great sufferer from heart disease—spent some time under experts in Kingston hospital without getting any benefit and was pronounced incurable. She commenced taking Dr. Agnew's Cure for the Heart, and when she had taken three bottles all dropsical tendencies, palpitation and pain left her, and she has had no return of it, and ascribes her cure to this greatest of heart remedies. Sold by Ormond & Walsh and H. S. McDonald.

Power of Music.

It is alleged that the Boers' war song stampeded the mules at Nicolson's Nek. We once knew a distinguished local gentleman, with distinct foreign accent, stampede a hunting party to the tune of the "Marseillaise." Which goes to show that the Boers haven't got a monopoly of the world's best vocalists. Indeed the editor of this g. f. j. once undertook to sing at a banquet. The effect was simply wonderful. In less than two minutes there wasn't a soul within hearing. The power of real, eloquent music is very great.

A Scarcity.

Chief Rossel informs us that there are very few tramps registered at the police stations of late. The late action of the Provincial Dectectives in their efforts to rid the province of the tramp nuisance has evidently proved successfully.

LITTLE LOCAL LINES.

The Board of Education will meet to-night.

It is said that Ald. Langford will not again be a candidate for fear of some lyddite shells from the McWilliams guns striking him.

Wm. Nicholls, who was charged with non-support at the police court yesterday, was allowed to go on promise of better conduct.

Word was receive dyesterday of the death of Mrs. Louis Cote at Hamilton. The deceased lady was a sister of Rev. Dean O'Connell, Mount Forest, and mother of Rev. Father Cote, rector of St. Peter's Hamilton, and Mrs. W. Rudkins of Peterborough.

PERSONAL.

Mr. and Mrs. Geo. J. Early, of Cannington, are in town visiting for a week with friends.

Mrs. T. G. Hazlitt, Mrs. Wm. Walsh, and Miss Bryson returned home from Clifton Springs.

Mr. W. T. J. Lee and Dr. McEwen, of Toronto, were in town over Sunday, the guests of Mr. Gus. Gough.

Miss Buck of London, who has been visiting at the residence of Mr. and Mrs. A. P. Poussette, returned home on Saturday.

Miss Ruby Barron, daughter of Judge Barron, formerly of Lindsay, is visiting Mr. and Mrs. A. P. Poussette.

Mr. A. N. Skill, teller of the Traders' Bank, Newcastle, and son of Col. Skill, of Cobourg, has been appointed to a good position in British Columbia. Mr. Skill is a brother of Mr. Edgar Skill, of the Bank of Montreal here.

THE Canada Business College.

CHATHAM, ONT.

CANADA'S GREATEST SCHOOL OF SHORTHAND AND BUSINESS

PUBLIC SCHOOL TEACHERS SHOULD NOTICE

This institute has prepared over seventy teachers for other Business Colleges and Commercial Schools in Canada and the United States, more than twice as many as all other Business Colleges in Canada, combined, have so placed.

The proprietors of five of the leading business colleges in Western Ontario, who are to-day among our strongest opponents in the field of Shorthand and Business training, received THEIR training under the Principal of this institution. Besides these, there are five others holding leading positions as teachers in Business Colleges in Ontario.

Since Sept 1st, seven of our pupils have accepted positions as teachers in Business Colleges and Commercial Schools in Canada and the United States; another is now negotiating for a similar opening in a Business College in a leading American city, and there are five unfilled calls of this kind on hand still.

DOES IT NOT PAY TO ATTEND THE BEST! You must decide.

23 of our pupils secured good positions in seventeen months, and the good work of placing our students still continues.

For catalogue of either department address,

D. McLACHLAN & CO., CHATHAM ONT.

PROF. J. H. DeSILBERG

OPTICIAN - SPECIALIST

FROM GERMANY

EYES TESTED FREE OF CHARGE. He has always a full assortment of 9 kinds of Spectacles and Eye Glasses for young and old persons afflicted with Weak Eyes, Tenders, Quavers, Spotted, Cataracts, Short Eye-Sight, Weakness Eyes and Eyes with Red Vims. He guarantees entire satisfaction to everyone.

CONSULTATION FREE

NOTICE: Prof. J. H. De Silberg will be in Peterborough from Monday, Dec. 4th to Saturday Dec. 11th, and may be consulted at Lynch's Drug Store, 163 Hunter St.; Wednesday, Dec. 13th to Saturday, Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store.

OUR SPORTING COLUMN.

Hockey.

The Pittsburg Despatch publishes the appended interview with "Scuddy" Phelan, formerly of Peterboro'—

"Walter Phelan, of Peterborough, Ontario, the famous Canadian hockey player, who has been secured by the D. C. & A. C. team, of the Western Pennsylvania League, to coach the team and play forward during the coming winter, arrived in Pittsburg this morning, and declared himself ready to jump in at once. Phelan is rated as one of the best that ever played the game. He has played with the leading teams in Canada and has ranked with the top-notchers for years past. Phelan expressed great surprise this morning when informed that Pittsburg had eight hockey teams. 'I did not dream that the game had such a hold in this section. Eight teams is a remarkable number, and actually shows that hockey is more popular here in Pittsburg than in Canada.' Phelan says that the Victoria team, of Montreal, is the strongest this season and will win the championship."

HOW TO VOTE.

Each coupon will have the value of five votes. Cut the coupons out and either mail it addressed to the Times or leave it at our office.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $35,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 24th November, 1899.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

THE MOBILIZATION OF A SEVENTH ARMY DIVISION NOW ORDERED.

It Is Now Certain That The Boers Are in Great Force on the Further Side of the Tugela River.

IS LORD ROBERTS TO SUPERCEDE GEN. BULLER?

Persistent Rumors in London That He Will Have Chief Command or British Forces in South Africa—Complaints That Parsimony Prevents Cavalry Being Sent.

(Special Despatches to The Times, 3 a.m.)

London, Dec. 6.—4.30 a.m.

The censorship continues to be of the strictest character—virtually no news is allowed to pass except diaries of events within the beleaguered garrisons and positions.

According to the latest accounts of the battle of Modder River, the Boer fire was the hottest on record and will revolutionize existing theories It was effective up to 1659 yards, but the casualties among the troops was trifling. It was found impossible to bring the British ammunition reserves to the firing line. Many Boers wearing red cross badges were actually employed in serving out ammunition.

In connection with the many accusations against the Boer indifference to the laws of war, a letter published in Cape Town asserts that before the Transvaal ultimatum was sent the Boer leaders discussed the policy of using the white flag, when driven into a corner in order to deceive the British commanders, and this policy was generally approved.

It is reported that the mobilization of a seventh division will be ordered at Aldershot, as a preparation for emergencies

The Morning Post complains that there are plenty of cavalry men available at home but that parsimony prevents their being sent to South Africa where they are urgently needed.

LANCERS MEET BOERS.

London, Dec. 6.

A Modder River special dated Thursday, Nov. 30, says;—

"The Boers occupy a strong ridge about six miles north of this point. To-day the Lancers came into contact with them."

GEN. YULE'S ILL-HEALTH.

London, Dec. 6.

The Daily Mail announces that Col. W. A. Yule, who succeeded Gen. Sir William Symons in command of the British troops in Natal, after that officer was wounded in the battle of Talana Hill, and who was promoted from the rank of Lieut.-Col. in the army to that of Major-General on the staff, to command the eight brigade of the South African field force with the substantive rank of Col. in the army, is on his way to England, being in broken health.

"ALL WELL."

London, Dec. 6

The Daily Mail prints a despatch from Mafeking dated Tuesday, Nov. 28 which says;—"All well."

ADMIRAL HARRIS CENSURED.

London, Dec. 6

A special despatch from Estcourt censures Rear Admiral Sir Robert Harris, commander-in-chief of the Cape of Good Hope and West African Squadron, for his delay in sending Capt. Scott and Capt. Lambton with guns to Ladysmith. "It is notorious," says the correspondent, "that only at the last moment, on Oct. 30, while a decisive action was pending, did Capt. Lambton(of the Powerful) arrive at Ladysmith. A week, a day, a few hours, might, and I doubt not would, have saved the situation, and delayed the investment, if it had not ended the Boer attempt."

THE SITUATION.

London, Dec. 5.—The long pause of General Hildyard at the Tugela and General Methuen at the Modder are rather indicative of a good than of a bad turn of events. Both commanders are in communication by searchlight with the towns which they are about to relieve, and the fact that after opening such communication they have halted for several days, clearly points out that both Kimberley and Ladysmith are in no immediate danger and have so informed the relieving columns, which are naturally taking advantage of the further time allowed them to make their advance stronger and its success doubly sure.

The complete details of the battle of Modder River have again awakened the military critic, whose occupation would, of course, be gone if he could not find some flaw in the conduct of a campaign thousands of miles away, and of which he apparently knows little judging from the muddles he has made in interpreting such simple thing as official despatches. The critic finds that General Methuen is not as strategical as his soldiers are brave, and that too many battles are being won by a front attack. Although General Methuen distinctly stated in his bulletin that the Modder River was unfordable these self-constituted critics, probably military men who have been laid on the shelf and are sore about it, complain that he did not attempt any manoeuvre or flanking movement. The truth of the matter is that with a flooded river on his front and the enemy in a strong position on the farther side commanding the railway, which was essential to the success of Methuen's operations, the General had no alternative but to make a direct attack. It would have been impossible for him to march his army through a swollen river and take the Boers in flank. Even in that case there would have been fighting to do, and the British would probably have lost quite as many men. The military critics would do well to allow generals in the field acquainted with all conditions to act as they please.

The news that the Boers who have been besieging Mafeking have melted away, points to their co-operation in the opposition to General Methuen's advance on Kimberley. It is probable that Cronje's commandos have moved to the south to take part in the great stand outside of Kimberley, which is bound to be heard of shortly.

People who have grown accustomed to sharp campaigns among the hill tribes of India, and rapid movements against the natives of South Africa—wars finished in a few weeks—are naturally under the impression that the war is dragging. As a matter of fact, it is moving very briskly for a struggle on so large a scale, and by no means promises to be a repetition of the seven years war, or other historical struggles. Twenty-four engagements, including eight important ones in less that two months is a record to be proud of, and when it is considered that the British have been worsted in all, except one of them, the achievement of British soldiers becomes a great one.

London, Dec. 5.—A delayed despatch from Cape Town received to-day describes the departure of the Canadian contingent of troops for the front. The streets were decorated and dense enthusiastic crowds lined the municipal thoroughfares

Governor Milner bade the Canadians farewell at the railway station. All the officers were individually presented to the Governor, who was heartily cheered by the Canadian soldiers. They also sang the National Anthem.

A party of 39 Canadians remained at Cape Town as the men had not passed the medical inspection. The Canadian contingent will act in consort with the Black Watch and Seaforth Highlanders.

The fact that 39 Canadians were left behind evidently indicates that this number had not sufficiently recovered from the affects of a sea voyage of nearly a month to the front. As the contingent is brigaded with such fighting regiments as the Black Watch and the Seaforths there is evidently hard work in store for them

LORD ROBERTS FOR AFRICA.

London, Dec. 5.—All England is aroused over the necessity of doing something that will quickly decide the Boer war. The popular demand is for a man, for a new Wellington, to take the place of General Buller in supreme command. The Government has already met this cry. Field Marshal Lord Roberts has been chosen, and has been ordered to hasten to South Africa by the swiftest steamer available.

In anticipation of his coming, Gen Buller is devoting his chief attention to the campaign in Natal, which will, it is supposed, be his particular province, after Lord Robert's arrival.

There is universal sorrow in the United Kingdom over the losses in South Africa.

CALLS IT A DRAWN BATTLE.

Chicago, Dec. 5.—*The Record's London correspondent*, cabling to-day, says;—Accounts sent by various correspondents of the Moddder River fihgt, are beginning to arrive, and are eagerly scanned by the military authorities and experts here. In the absence of an explanatory despatch from General Methuen himself, as anticipated his fighting across the flooded river, with the Boers north, and the British south, and with most of the fighting at long or medium ranges, cannot be understoodd, and the tendency is to sharply criticize his tactics.

Though the heaviest British losses were sustained in a comparatively short time, when the troops unavailingly attempted to force a passage across the river, the only explanation offered here of General Methuen's extrairdinary tactics in sending his troops headlong across the groundd, devoidd of any cover, in the face of carefully entrenched Boers, is that Kimberley's need of relief was more pressing than was generally supposed otherwise General Methuen would surely have spared a day or two to cross the river with a portion of his force out of the range of the Boer guns, in order to fusiladde the entrenchments and threaten the Boer line of retreat. In any case, the British seem to have been literally mowed down in the face of a most galling fire, to which the British troops were ever subjected. "Mowedd down", is the expression heard on all sides in reference to the fight, and the feeling pretty extensively prevails — though not given much expression to — that had the Boers heldd on to their positions the British death list wouldd have been simply awful. As it was, the affair seems to have been somewhat in the nature of a drawn battle. However, the result no doubt justified the audacity of the British attack. The retreat of General Methuen would have meant an irremediable disaster. Kimberley would inevitably have fallen, and with Kimberley in the hands of the Boers, the Cape Dutch would have gone over to the enemy in a body,andd it might tax all the resources of the great British Empre to put down the revolt.

SIEGE OF MAFEKING RAISED.

New York, Dec. 5.—There is good news at last from Mafeking, says the Herald's London cable news. It is reported that General Cronje has removed his commandos south and that the siege is practically over, to the intense joy of the beleaguered garrison. Everything points to the substantial accuracy of this piece of intelligence.

CONCENTRATING AT LADYSMITH.

Lorenzo Marquez, Delagoa Bay, Wednesday, Nov. 29.—The following despatch has been received here—

Head Laager, (undated).—General Joubert has retired from Estcourt and is now blowing up Colenso bridge. He brings a large herd of cattle and intends concentrating around Ladysmith."

FORCES ON THE TUGELA.

New York, Dec. 5.—A London despatch says that it is now certain that the Boers are in great force on the further side of the Tugela river. The Boer army which invaded Natal was put by good judges at 20,000 to 30,000 men, and the army confronting General Buller may be from 15,000 to 20,000 men. There are not likely to be more than thirty or forty Boer guns, if so many, on the Tugela.

Against this General Buller has 42 guns besides naval weapons.

Some news has come through from Ladysmith, showing that while on the one hand the Boer bombardment was becoming severe, on the other that one of the navy guns had once more silenced the big Boer 40 or 100 pounder.

General Gatacre has occupied Molento and secured a large quantity of corn, which would doubtless have been commandeered had been the Boers been allowed to make a longer stay.

The two remaining squadrons of Household Cavalry left London yesterday for the front. This is the first occasion since the Egyptian war that the Life Guards have taken the field. They should prove a very valuable reinforcement, as the British are still weak in cavalry.

BRITISH PRISONERS WELL.

London, Dec. 5.—Although the repairing of the cable between Aden and Zanzibar has restored the route via Aden to South Africa and there relieved quite a budget of belated despatches, there is nothing throwing light on General Buller's propositions for the relief of Ladysmith, or the movements of the other British columns. News from Ladysmith has been received up to the night of Wednesday, Nov. 29, when all was well. Despatches from the Boer headquarters of the same date refer to the renewal of a heavy bombardment with a fourth siege gun christened "Franchise" which has just arrived from Pretoria and a lifeless response from the garrison.

A special despatch from Durban says the Boers lost 1,800 men at what has been popularly known as the battle of Glencoe. It is also said that scurvy and dysentery are rampant among the burghers who are beleaguering Ladysmith. This story must be accepted with a grain of salt.

A despatch from Pretoria mentions an unimportant sortie from Kimberley Nov. 27, and says—

"The British prisoners are well. The Government has permitted them to subscribe to the State library and also allows them to purchase beer and newspapers."

A YELLOW DESPATCH.

The following is published, not because the Times believes it to be true, but as an instance of the blatant ignorance displayed in the office of the New York Journal, the yellowest of sheets.

New York Dec. 5.—That Field Marshal Lord Roberts will be ordered to Cape Town to take chief command of all the British forces in South Africa to supercede Gen. Buller is a prevailing rumor, says a London cable to the Journal and Advertiser. Lord Roberts ranks next to Lord Wolseley, the commander-in-chief of Her Majesty's forces, and was long commander-in-chief in India. This news caused a decided commotion in military quarters, which were already greatly agitated by the ordering out of 10,000 fresh men under Major-General Thomas Kelly-Kenny, inspector general of the auxiliary forces and recruiting. Military experts think General Buller has enough to do to look after Natal, while Generals Gatacre, French and Methuen are operating almost as independent commanders. Continental critics insist that the Boer tactics will land Gen. Methuen at Kimberley so weakened that he will not be able to move toward Blomfontein or Pretoria because his lines behind him will be cut by raiders. The same authorities declare that the Free Staters can hold Generals French and Gatacre while all the remaining Boers—those in the east—will check General Buller at Tugela river and eventually wear out General White at Ladysmith.

LONDON TIMES COMMENT.

London, Dec. 5.—The Times this morning, commenting editorially on the battle of Modder River, says—

"The battle afforded splendid proof of the unsurpassed qualities of the British soldier, but while victories are won solely by the excercise of those qualities, which are indeed magnificent, they are not war They fill us with pride, but this pride not unmingled with regret, at the persistent perversity of circumstances, which, apparently, prevents us obtaining equal or greater results by processes savoring a little of that military science of which we hear so much."

Hutton Must be Modest.

Montreal, Dec. 5.—La Patrie, Mr. Tarte's organ, still continues to lecture General Hutton. It says that the Major-General, formerly a colonel in the British army, is acting in such a manner that if he does not soon put a brake on his intemperate zeal the Canadian people will absolutely object to have our volunteers commanded by an officer coming from the other side of the Atlantic. We pay with our own money the commander of the Canadian militia, and the one who pays generally likes to have control. When the Canadian contingent left for the Transvaal, *Major-General Hutton* said at Quebec that Canada would be disposed to contribute 50,000 or 100,000 men if England desired them. We may say that such language from the mouth of a subaltern officer, paid, we repeat, by the ratepayers of this country, is inexcusable; but General Hutton seems to believe what he says, as he appears to be undertaking exercises in Toronto just as if he were on the eve of participating in a great war. We are quite certain that the Major-General is very much deceived as to the character of the Canadian people, if he thinks they want to return to the old days of military regime.

Was she Really Dead?

Rat Portage, Dec. 4.—A couple of weeks ago Mrs Taylor, a servant, died apparently from heart failure. The medical man gave an order for burial, but when the undertaker was about to screw down the coffin lid he noticed that the body did not show any of the usual postmortem signs but that on the contrary, it presented a very natural appearance, just as if the woman was asleep, except that there was no signs of breathing. It was decided to hold over the burial for a time, and as days passed without any change the story got around that the woman was in a trance. The woman's face presented quite a healthy look, her lips were rosy red, though the eyes were somewhat dull and sunken, while there was an entire absence of rigor mortis and the flesh did not pit when pressed with the finger. One man says he took hold of the woman's hand and alleges that he distinctly felt a return pressure. The medical men again examined the body and confirmed the opinion that they already expressed that death had resulted days before and that it was a case of delayed decomposition. The coroner's order for burial was then obeyed.

Under the Fire Box

Teeswater, Ont, Dec. 5.—Harry Pinchon, of Toronto, a brakeman on a C. P.R. freight train, fell between the cars last night at Glenannan, five mile from here, and had his leg badly crused, five cars passing over him. When found the poor fellow was under the fire box of the engine and it was necessary to back up the engine before he could be released. He was brought into Teeswater and as soon as possible an engine was got ready and took him to Toronto, accompanied by Dr. Gillies. He is a young married man whose home is in Parkdale.

Their Bodies Found.

Kingston, Ont., Dec. 4.—The bodies of Mrs. McPhee and her granddaughter, Miss Moreland, drowned on Friday last crossing from Salmon Island lighthouse to Amherst Island, were found on the south east shore of Amherst Island. Archie McPhee, who accompanied the two women, had his back injured in trying to save Miss Moreland, his cousin, whom he got across the boat twice, only to have her washed away.

MADE OF MUD, AND HARDENED WITH BLOOD.

Text of Scurrilous Attacks Which Excited the Ire of Chamberlain.

Paris, Dec. 5.—The intimation from the Prince of Wales that he will decline to take anything more than the most formal part in the Paris Exhibition, unless the scurrilous attacks made by the French press on Englandd and the English cease, comes none too soon. By all decent-minded Frenchmen, it will be cordially welcomed.

It is impossible to describe the gross caricatures that are being published by certain French papers of the Royal family, and more particularly of the head of the Royal family. They surpass all bounds of decency; no French paper shop in England would dare to exhibit them simply because of the English law against such publications for they are ten times worse than the Boorast picture that has evec defiled the lowest type of English police gazette. The letter-press that accompanies these caricatures is just as vile.

I give below some mild—very mild—specimens of the scurrility that is now in vogue here, taken from this week's papers

In the Libre Parole we have the following effusion on the gift of chocolates by the Queen to her soldiers;

Made of mud and hardened with blood—such is Victoria's Royal present to the soldiers who are about to die for the iniquities of their Queen.

Hurrah! The Queen forever! Listen, valiant soldiers of England, who are dying at Ladysmith, penned in the iron circle which every day tightens on you more mercilessly. The Queen is going to send you something—a present. It is a box of chocolate made of mud—the mud of England's treacheries and iniquities and perfidies—hardened with blood, the blood of all those who have fallen already for the *most odious* of causes, of those who died at Glencoe, at Dundee, at Colenso, and at Estcourt for the villainy of Chamberlain and the humiliation of England.

Eat the Queen's chocolate, good soldiers at Ladysmith, while the Queen in London decides that in order to make up for this reckless expenditure it will only be right to ask Parliament for another grant; while your Prince enjoys himself, and while his sons, his nephews and his cousins, and all the Hanoverian offshoots of the Hohenzollerns and the Battenbergs fatten on the fertilizing exhalations of your corpses.

MESSAGE TO CONGRESS.

The President Speaks of the AngloAmerican Congress.

Washington, D.C., Dec. 5.—Some important messages are foreshadowed in the President's message to the fifty-fourth Congress, delivered to-day. He observes that much progress has been made by the Anglo-American Commission, when the Alaskan boundary difficulty brought the negotiations to an end. A modus vivendi, the President observes, has been agreed upon, and hope is expressed that a permanent delimitation of the boundary will soon be effected. There is not a word to indicate that the International Commission will be revived.

The President speaks of the neutrality of the United States concerning the Boer war, and says that had either of the belligerents requested mediation, the American Government would have gladly have offered its services. A deficit of 19 million dollars is noted for the past fiscal year, but a surplus of forty millions is expected next year. A change in the Banking Act is suggested so that the circulation may be increased.

The President asks that additional power be given the Secretary of the Treasury to sell United States bonds and to employ such effective means as may be necessary to those ends.

Congress is asked to take such means as are found to be within its power to eradicate the Trusts evil.

President McKinley says the commercial rights of the United States in China will be maintained.

The Government has no intention of asserting sovereignty over Cuba.

It is suggested that the various Latin republics of Central and South America should hold a conference looking to the improvement of trade.

BURLEIGH FALLS POWER.

The Lindsay Street Lighting Contract is Extended.

The Times received a telephone message from Lindsay last night, stating that a meeting of the Lindsay council, the by-law passed last summer granted Mr. C. Alex. Culverwell, managing owner of the Burleigh Falls Power, was extended by a unanimous vote of council, until next spring, to enable the Central Ontario Power Company, now applying for incorporation, to fulfil the contract upon completion of construction of the Burleigh-Peterborough-Lindsay enterprise The application for charter was produced, showing the following signatures, namely; Hon. R. Harcourt, James Kendry, M.P., Eugene Coste, M.E., F. W. Barrett, Edward Adams, M.D., R. J. McLaughlin and J. Alex. Culverwell.

Cavanagh Remanded

London, Ont., Dec. 5.—John Cavanagh, charged with the murder of his aged mother, was remanded in the police court yesterday for one week. An autopsy was held yesterday by Drs. Teasdall, Neu and McCallum. There was along, narrow wound from the inner side of the deceased's left eye, extending down the nose. The nose was cut, both eyes were blackened, and there were cuts about the mouth. These marks, the doctors state, would not likely be made by the woman falling out of bed as Cavanagh told a neighbor. Mrs. Cavanagh, it is known, suffered from heart trouble.

The police have been searching for the flat-iron or other weapon with which the wounds were inflicted, but have failed to find it.

Pillage and Massacre.

Constantinople, Dec. 5.—Private advices received here report that the Kurds have avenged the recent incursion of Russian Armenians into the Alashgerd district in Turkish Armenia, by pillaging the Armenian village of Kostur and massacring 300 of the inhabitants.

60,000 BOERS ARE NOW IN THE FIELD

This is the Army That is Opposed to Britain in South Africa.

BRITISH FORCE INADEQUATE

After Deducting Men Required for Garrison Duty Only About 35,000 Remain.

A Much Larger Force is Needed Than at Present in Africa—The Colossal Task Which Britain Has Undertaken.

(Special To The Times.)

London, Dec. 5—A prominent German general and staff officer in friendly criticism, has been telling the British authorities in the Times this week how grave is the necessity for sending large reinforcements to South Africa. He affirms from positive knowledge that the Boers are able to put 60,000 men in the fied., Against this force the English have 80,000 men. From these, he points out, must be deducted those needed to keep open the requisite base lines as well as the forces necessary for checking risings in Cape Colony and for garrison duty in the chief centres. He adds: "I hold the opinion, one which is freely shared by brother staff officers, that not less than 40,000 to 45,000 men will be absorbed by such necessities, leaving 35,000 to 40,000 for active military operations. It must be further taken into account that a majority of the men are unused to the climate and an unusual percentage of sickness must be expected. The local geography is a sealed book to most of the British and an unusual number of reserve men must be pressed into use before the English are in a military condition necessary for such a campaign. I do not consider that our German view is unjustified, viz.: How can England expect to crush a force of at least 50,000 Boers with an army of 40,000 available for offence, when we consider that these 50,000 Boers are acclimatized and know every yard of the country, and its capacities for traps for the bravest European troops! They shoot admirably and they are manoeuvred with an astonishing strrategical ability. They have already revealed in trifling operations that they can ignore the questions of food and encampment to a degree out of the question with the British-fed troops, and they are contending for their rotten oligarchy with the courage of despair, which has been heightened by a success of a certain nature up to the present. They have time during their advance south to put their rear route in an able state of defence. Finally, Pretoria has been fortified in such an able manner that an almost insignificent defensive force will be able to hold the place, while the main army can be devoted to other duty. Taking all the foregoing into account the conclusion has to be arrived at, that if England means to come out victorious she will have to be represented in South Africa by an immensely increased numerical force, at any rate, by one quite beyond the proportions of anything as yet conceived by the public."

An experienced war correspondent, in a despatch mailed to escape the censor, predicts that by the beginning of Dec 30,000 British Dutchmen will have joined the invaing Boers. He adds that every Boer commando that has come on British soil has been like a rolling snowball, increasing as it it moved. The same correspondent says that all the staff officers with whom he has discussed the situation agree in fixing the middle of March for the end of the campaign.

It is said that on Thursday the Cabinet considered the intimation, cabled presumably by American Consul Macrum, that a mission has left Pretoria for Cape Town to propose an armistice preliminary to negotiations for peace. Premier Salisbury's speech at Guildhall, when he was reported to have said that England did not desire to acquire gold mines or territory, was the reason for sending the mission. Lord Salisburfy has since disavowed the meaning placed on his words, leaving the conclusion that the two republics will lose their cherished independence. The mission is absolutely hopeless. The Boers will not surrender everything dear to them at the moment when they have had the best of the fighting. On the other hand England will not negotiate so long as a single Boer invader is on British soil. The suggestion for an armistice is in any case inopportune now from a political point of view. A vast majority of Englishmen have gone into this war with a determination to make it a fight to afinish. If the Government were to show indications of repeating the policy of 1881 their large Parliamentary majority would not save them from being outvoted. Although Englishmen are bitterly surprised and disappointed at events in South Africa, no candid observer can deny the strength of the popular feeling at this moment in favor of fighting to the end and absorbing the Transvaal and the Orange Free State into the British Empire.

Sir Henry Tate

London, Dec. 5.—Sir Henry Tate, formerly head of the firm of Henry Tate & Sons, sugar refiners, and donor of the Tate collection and picture gallery at Westminster, is dead. He was born in 1819.

Morning Times

PETERBOROUGH, DECEMBER 6, 1899

PRESERVE OUR GAME.

It is said that deer are scarce in Muskoka. A writer in a western paper, who is a deer hunter, and who has been to Muskoka and consequently is in a position to speak with a certain degree of accuracy of the effect of the recent repeal by the Ontario Legislature of the anti-hounding clauses of the game law has spoken of the fast disappearing deer. There is a wide divergence of opinion among sportsmen regarding the hounding of deer. The more skilful in woodcraft a man is the less use he has for dogs, for he can go into the woods, and unaided save by his intelligence, his steady nerve, his keen eye and the thousand and one little things that go to make a man an expert in woodcraft, can get his deer if there are any to be got. He naturally disapproves of hounding. On the other hand the man who knows little and cares not to learn about woodcraft finds it a a comparatively easy task getting venison by the aid of dogs. He puts his dogs in the woods, and they simply tear around making the welkin ring till they strike a deer trail, which they proceed to follow, with the result that the deer to save it self from being torn to pieces by the dogs, makes for the nearest lake or pond, where the dog owner's rifle gets in its deadly work.

There can be no question as to which is the most sportsmanlike method of deer slaying. Anyone can shoot a deer in the water, and if he can't shoot he can take the butt of his gun and hammer the helpless beast to death.

If the object of the game laws is to make the killing of game easy, the repealing of the anti-hounding clause was a wise move, but if the object of the game laws is to protect and preserve the game from extermination which is as a matter of fact, the theoretical aim of the game laws, the repeal of the clause was a piece of legislative idiocy.

NOTES AND COMMENTS.

The British channel squadron is now scattered about the Mediterranean, and the Mediterranean squadron is at Gibraltar. The special service squadron has been ordered there, together with a further reinforcement of a battleship and three cruisers. With the Channel fleet, which is also in readiness at now at the Rock, Britain will have mobilized the strongest fleet that has ever been together in the world's history. There is something in the wind but nobody seems to know what. Such a concentration is most unusual and seems to anticipate a French descent on Egypt, but Gibraltar is the strategic base from which to keep an eye on France, Egypt, Turkey, the Suez canal and Dardanelles, as well as a general police supervision of the route from Britain to South Africa, and probably the B. lion has merely decided to crouch there ready to spring in any direction should any European foe feel like interfering while the Transvaal war is on.

•• • ••

General Methune's fights usually begin at daylight. He believes that the early bird catches the Boer.

•• • ••

It is reported that when the retreating Boers fell back towards Kimberley the rear guard hung out the sign—"Follow us and you will wear diamonds."

•• • ••

These armored trains are very like the ones the ladies wear. They are all right until some boor gets tangled up with them.

•• • ••

A division of the British army never did harder service than that of Lord Methune. Few troops could march fifty miles and fight three desperate battles in about as many days.

•• • ••

It will always be a puzzle to thinkers that if 800 shots are fired for every person killed in war, why there is such a big percentage of loss from accidental shooting in the hunting season.

THE PAVING CONTRACTS

Continued from Yesterday.

In his report to the Council previously published, the difference being 1-6 of a cent per ft.

Mr. Hay further admitted that this does not take into consideration the labor. It takes less labor to make a pavement when the batches cover 174 sq. ft. than when they cover only 105 square feet. As a matter of fact the pavement built by Sheehy was more expensive than called for by the specification, if the tests referred to are correct.

To Mr McWilliams, Mr. Hay stated that he could not swear as to Mr. Bartlett's figures. The only test he had made himself was that on Stewart-st. To Mr. Dennistoun witness stated that Mr. Bartlett's test, comprising a number of batches, should be more complete than his own of one batch.

ALD. McWILLIAMS.

Ald. McWilliams then went into the witness box to give a detailed statement figured up by him of the amount saved by the contractors by following the method they did. His statement was as follows—

The tests on Stewart-st were made in presence of Engineer Hay, Inspectors Rose and Bartlett, Mayor Davis, Aldermen Denne, Best, Sawers, Hall and McWilliams and showed that—

18 cubic feet of granite, 8 bags of cement the proportions called for by specifications covered an area 33 ft. 6 1-2 in. by 4 ft. equal 134 1-6 square feet, and 9 cubic feet of granite, 9 cubic feet of sand and 5 1-2 bags of cement the proportions used by the contractors covered 26 ft. 4 1-2 in. by 4 ft. equal 105 1-2 square feet.

The cost on material on 1st test which covered the 134 1-6 square feet would be 18 cubic feet granite at $6.00 per yard... ... ...$4.00

$9 74

If 134 1-2 square feet cost $9.74, one square foot would cost 7-26-100 cents.

The cost of material in second test which covered 105 1-2 square feet would be 9 cubic feet of granite at $6.00 per yard.. ... ...$2.00

9 cubic feet of sand at 55 cents per yard... ... ... 0 18

5 1-2 bags of cement at $2.55 for 4 bags.. ... ... 3 50

$5 68

If 105 1-2 square feet cost $5.68, one square foot would cost 5-26-100 cents. The difference in cost per square foot would be 7-26-100 minus 5-38-100 equal 1-88-100 a cent per foot.

Mr. Sheehy's 1st contract.

According to Mr. Hay's report surface finish costs 1 4-5c. less per square foot as done by Mr. Sheehy as compared with the specifications. 41,006.56 square feet at 1 4-5c. equal $738.06 amount saved by contractor on surface alone...$ 738 11

The base 41,006.56 square feet, 4 inches deep, equal 13,668.85 cubic feet. According to Mr. Hay's evidence, 1 batch consisting of 1 box gravel (27 cubic feet) and 4 bags cement makes 26 2-3 cubic feet when put in the base. 13,668.85 cubic feet divided by 26 2-3, equal 512 batches. On each batch contractor saved 1-2 bag or 256 bags equal 64 barrels at $2.55... ... ... 163 20

The curb contains 6,044 lin'l feet 18 inches deep, 6 inches thick equal 4,533 cu. ft., divided by 26 2-3 equal 169 batches. Contractor saves 1-2 bag cement on each batch, 169 divided by 2 equal 84 1-2 bags saved, equal 21 barrels at $2.55... ... ... 53 55

512 batches and 169 batches equal 681 batches at 4 bags each, equal 681 barrels. The difference inprice between Star and Ensign cement 30c. 681 barrels at 30c... 204 30

$1,159 16

According to Mr. Hay's report 1 box containing 9 cubic feet of granite 9 of sand and 5 1-2 bags cement will make surface finish of 26 ft. 4 1-2 in. by 4 ft., equal 105 1-2 square feet, 41,006.56 divided by 105 1-2 equal 388 batches containing 9 cubic feet each of granite, 388 by 9 divided by 27 equal 129 cubic yards that should have been used. Mr. Sheehy only used 71, leaving a shortage of 58 yards at $6.00... ... ... 348 00

$1,507 16

Mr. Sheehy's 2nd Contract.

According to Mr. Hay's report surface finish cuts 1 4-5c. less per square foot as done by Mr. Sheehy as compared with the specifications, 36,478.00 square feet at 1 4-5c..$ 656 60

The base 36,478.00 square feet by 4 inches thick equal 12,159.36 cubic feet. According to Mr. Hay's evidence 1 batch consisting of 1 box granite (27 cubic feet) and 4 bags cement make 26 2-3 cubic feet when put in base. 12,159.36 divided by by 26 2-3 equal 456 batches in base. On each batch contractor saved 1-2 bag cement, 456 divided by 2, equal 228 bags, equal 57 barrels, at $2.55... ... ... 145 35

After allowing for 6 inches stone in bottom, 4 inches base and 1 1-2 top finish, the curb will be 4,422 lin'n feet by 18 inches. 6 inches, equal 3,317 cubic feet, 3,317 divided by 26 2-3 equal 124 batches. 1-2 bag cement saved on each batch, 124, equal 62 1-2 bags divided by 4, equal 15 1-2 barrels at $2.55.... ... ... 39 52

456 plus 124, equal 580 batches, equal 4 bags to batch, equal 580 barrels. Difference between Star and Ensign cement 30c. 580 barrels at 30c... ... ... 174 00

$1,015 47

According to Mr. Hay's report 1 box contained 9 cubic feet of granite 9 cubic feet sand and 5 1-2 bags cement will make surface finish of 26 ft. 4 1-2 in. by 4 ft. equal 105 1-2 square feet. 36,478.00 divided by 105 1-2, equal 345 batches at 9 feet each. 345 by 9 divided by 27 equals 115 yards. Mr. Sheehy only used 89 yards making a shortage of 26 yards at $6.00... ... ... 156 00

Evans & Langford Contract.

According to Mr. Hay's report the surface finish costs 1 4-5 less per sq. ft. as done by contractor than if done by according to specifications. 49,478.44 sq. ft. at 1 4-5c.$ 890 61

The base 49,478.44 sq. ft. by 4 in. deep equal 16,492.81 cubic feet According to Mr. Hay's evidence one batch consisting of 1 box of granite and sand and 4 bags cement when placed in base covers 26 2-3 cubic feet, 16,492.81 divided by 26 2-3 equal 618 batches.

Evans and Langford batch being 20 cubic feet compared 27 would be a greater number by 618 by 27 divided by 20 equal 834.

Evans and Langford used 3 bags cement, 20 cubic feet, instead of 4 bags to 24 cubic feet, saving 1-3 bag cement in each batch. 834 divided by 3, equal 278 bags.. ... ... 177 22

The curb 8,667 1-2 lin. ft. by 18 in. deep by 6 in. thick equal 6,500 cubic feet. 6500 cubic ft. divided by 26 2-3 equal 243 batches.

243 by 27 divided by 20 equal 328 batches, 1-3 bag saved on each. 328 divided by 3 equal 109 equal 27 barrels, at $2.55... ... ... 68 85

831 plus 328 equal 1162 batches at 3 bags each 3486 bags equal 871 1-2 bbls. at 30c. difference between Star and Ensign cement... ... . 261 45

According to Mr. Hay's report 1 box of granite 9 cubic feet sand and 5 1-2 bags cement makes a surface finish of 26 feet 4 1-2 by 4 feet of 105 1-2 equal 469 batches of 9 feet granite, each 469 by 9 divided by 27, equal 156 yds. Evans and Langford only used 90 yds. making a difference of 66 yds at $6.00... ... ... 396 00

$1,794 12

RECAPITULATION.

The total difference between doing the work as called for by the original specifications and as done by the contractors shows a saving in

Mr. Sheehy's first contract of...$1,507.16
Mr. Sheehy's second contract of... 1,171.47
Evans and Langford contract of... 1,794.13

$4,472.76

Figuring at a difference of 1 88-100 cts. in surface instead of 1 4-5 cts., it will add $82.86 to Sheehy's first contract, $29.20 to the second and $39.50 to the Evans and Langford, making $171.61 on the three contracts, making a total saving of $4,574.33.

To Mr. Dumble Alderman McWilliams stated that the contractors were not represented at the test on which he based his calculations. He thought this test better than the work done by the inspectors for basing calculations.

Mr. Dumble—You want your pound of flesh on theory?

Ald. McWilliams—I only want to do my duty.

Mr. Dennistoun—Mr. Sheehy's sidewalk having been narrowed after he got the contract should not some allowance be made for this?

A.—Yes.

Q.—Would not this make a material difference in what you claim Mr. Sheehy has saved?

A.—Not a material difference. It has nothing to do with the case.

Q.—You do not claim that your figures should represent the final settlement?

A.—No, if Mr. Sheehy has any counter claim he should be allowed for it.

Q.—There was an inspector over each contractor to see that he did his work properly?

A.—Yes.

Q.—Mr. Bartlett's work done carefully

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 24th November, 1899.

"ADMIT WITHIN FIRE LINES."

An Extraordinary Motto For a Reporter's Funeral Emblem.

In his story of "The Last of the Mulberry Street Barons," in The Century, Mr. Jacob A. Riis, author of "How the Other Half Lives," tells a rather gruesome but very amusing anecdote of a fellow reporter attached to police headquarters in Mulberry street, New York.

There had been a feud of long standing between the reporters in Mulberry street, and in consequence news was plentiful. There were mutual scores to be paid off, and we paid them off in the coin of the realm. The coin of Mulberry street was murder, fire and sudden death (we had passed the stage of boxing gloves and did not speak as we passed by), and it went a long way. I do not mean, of course, that we murdered or burned up one another, but these things were the staples of our daily work as police reporters, and when we were "out" the precinct returns received an extra sifting, with the result that many a grain of newspaper wheat that would otherwise have escaped was rescued from the dust bin.

We had our specialties in this contest of wits. One was distinguished as a sleuth. He fed on detective mysteries as a cat on a chicken bone. He thought them out by day and dreamed them out by night, to the great exasperation of the official detectives, with whom their solution was a commercial, not in the least an intellectual, affair. They solved them on the plane of the proverbial lacking of honor among thieves, by the formula, "You scratch my back, and I'll scratch yours."

Another came out strong on fires. He knew the history of every house in town that ran any risk of being burned, knew every fireman and could tell within $1,000, more or less, what was the value of the goods stored in any building in the dry goods district and for how much they were insured. If he couldn't, he did anyhow, and his guesses often came near the facts, as shown in the final adjustment. He sniffed a firebug from afar and knew without asking how much salvage there was in a bale of cotton after being 24 hours in the fire. He is dead, poor fellow. In life he was fond of a joke, and in death the joke clung to him in a way wholly unforeseen.

The firemen in the next block, with whom he made his headquarters when off duty, so that he might always be within hearing of the gong, wished to give some tangible evidence of their regard for the old reporter, but, being in a hurry, left it to the florist, who knew him well, to choose the design. He hit upon a floral fire badge as the proper thing, and thus it was that when the company of mourners was assembled and the funeral service in progress there arrived and was set upon the coffin, in the view of all, that triumph of the florist's art, a shield of white roses, with this legend written across it in red immortelles: "Admit Within Fire Lines Only." It was shocking, but irresistible. It brought down even the house of mourning.

To Crisp Lettuce Leaves.

Do you know how to crisp lettuce leaves? A most simple process, but one rarely adopted judging by the wilted stuff we generally see served. A gentleman of the old school was my teacher, and while yet a mere maid I was promoted to the proud dignity of crisping the lettuce.

First carefully separate the leaves from the stalk, discarding discolored and imperfect ones and leaving untouched the tiny hearts; lay them all in cool, clear water for awhile, all morning if you choose; pick them over a couple of times before serving; wash one by one and lay in a wire basket if you have one; if not, a clean, soft towel will answer; gather the ends and sides loosely in your hand and lightly shake the lettuce; then put the leaves in a colander, which you set in the refrigerator, but not on the ice. Leave until needed, when you will find the lettuce deliciously cool and crisp enough to crack. Never cut the leaves if very large, divide with the fingers into smaller pieces.—What to Eat.

THE PAVING CONTRACTS.

Continued From Page 5.

Mr. R. E. Wood appeared for Town Engineer Hay when the pavement investigation re-opened on Monday morning, His Honor Judge Weller explaining to him that his client was not accused of dishonesty or bad faith but simply of negligence.

Mr. Wood inquired why Mr. Hay was treated differently from the others against whom charges were being made. He instanced the fact that when Alderman Sawers made certain statements against Inspector Dawson, that he was not allowed to proceed until Mr. Dawson was able to hear what was being said. Mr. Hay, he pointed out, had not been notified when statements were being made concerning him. By the course of procedure an advantage had been taken of his client. Charges had been cropping out all along. In order to acquaint himself with the evidence which had been adduced, he would have to recall all previous witnesses. This investigation was of more importance to Mr. Hay than to anyone else. In case he was found at fault his means of livlihood were taken from him. The charges, if any, which were laid against him, should be such as were contemplated by statute, but this only covered wilful wrong doing. Mr. Hay had no opportunity of having the witnesses explain anything or to cross examine them.

His Honor pointed out that there had been nothing said against Mr. Hay except what he had said about himself.

Mr. Wood—The charge shouldd be drawn up in writing. It is not within the statute at present.

Judge Weller—That is, you mean he is not charged with fraudulent negligence or corrupt motives?

Mr. Wood—Yes, that is it.

Judge Weller—Why ddon't you take proper steps then. This is not the place to do it

Mr. Wood—Your Honor should rule whether the proceedings are within the statute or not—whether the allegations are proper ones to be made at this investigation.

Juddge Weller—Suppose I should say then that the case is one which is not properly referable to me, and the Town Council says that it is?

Mr. Wood—I understood that this charge against Mr. Hay is not laid by the Council or by its solicitor. Has every individual councillor a right to come here and lay charges? The Town Solicitor makes no further charges than those at the beginning. There is no charge of dishonesty against Mr. Hay. It is only a question of capacity. Is this court to judge of this?

Judge Weller—If I take it upon myself to run my pen through some of these questions, what remedy has the council?

Mr. Wood—If we have a right to a prohibition they have an equal right to a mandamus

Judge Weller—You have no right to a prohibition, but you have a right to something else. I am not going to say though what proceedings you should take.

Mr. Dennistoun—If we get an injunction quashing the resolution as not being drawn in accordance with the statute, the council then might draw up a resolution in conformance with the statute

Judge Weller—That's not the question. Suppose I struck out these questions and I was wrong—what court could compel me to restore those questions to the resolution? Has the council any right to appeal against any opinion I may form about these questions?

Mr. Wood—I think it is incumbent on Your Honor to decide in the matter. You should decide whether this charge against Mr. Hay came within the provisions of the statute or not.

Judge Weller—I will not give an opinion on the matter one way or the other. You can hear what is said in argument against your client, if you care to let matters take their course.

Mr. Wood—Regarding the evidence then———

Judge Weller—Mr. Hay will have an opportunity of calling all the witnesses he may require. He will receive fair treatment, but if he chose not to be represented by counsel from the start, it is his fault, and no one else's

His Honor explained to Mr. Wood the order of procedure to be observed on Thursday. Mr. Edwards would be heard, then Mr. McWilliams, Mr. Dumble and Mr. Dennistoun. Mr. Wood would follow, and then counsel for Alderman Langford. Mr. Edwards would have the right to make a short reply

Mr. Wood wished to have the priviledge of calling witnesses when it was his turn to address the Court, but Judge Weller decided that this would not be allowable. No more evidence would be taken after argument had commenced.

His Honor then called on Alderman Langford regarding the charges which had been preferred against him.

Alderman Langford stated that he had only received notice of the charges on Saturday evening, and therefore had no time to summon witnesses. He desired, however, to read the charges which were preferred aginst him

Financial Panic Feared.

St Johns, Nfld., Dec. 5.—The Canadian banks doing business in this colony imported yesterday a quarter of a million dollars in gold coin, as for the past week heavy withdrawals of gold have been made from Harbor Grace, Belle Isle, and other sections, and it is feared that the panic may spread to this city.

The Government crisis is held to be responsible for this uneasiness, the masses of the people fearing financial trouble.

France is Responsible.

New York, Dec. 5.—The Sun's London correspondent cables that the French newspaper campaign against the Queen is exciting the deepest resentment among Englishmen. He says that the excuse that only a portion of the French press is guilty is a poor one. The fact that these obscene sheets, which, apart altogether from the manner the Queen appears therein, could not possibly be transmitted by mail or offered for sale in the United States on account of the lewdness and blasphemy of the illustrations and letterpress, and are yet published and sold in France without Government or other hindrance, makes France as a nation responsible.

ONE MEMBER DIED.

A Member of the Ottawa Company of Canadian Contingent Died at Sea.

Ottawa, Dec. 4.—The following cable was received to-day from Col. Otter—

Cape Town, Dec. 4.—Chief Staff Officer, Ottawa, Canada—Just landing here. Excellent health and spirits. Deslauriers, of Ottawa, died third day out, of heart failure.

Ottawa, Dec. 4.—A notable incident occured at the Central Station here on Oct. 26, when thousands thronged the platform to see the Ottawa Contingent off. The men broke ranks for a minute before being entrained, and "Teddy" Deslauders, a well-known militia man, ex-[illegible] of the Princess Louise Dragoon Guards, and a great practical joker, rushed up to a party of perhaps a dozen young women, and announced with much earnestness that he had been ordered by Major Rogers to kiss them all good-bye. The fair maidents put no obstacle in the way of Deslauriers carrying out his orders, and in a moment the resourceful young man was Hobsonized a dozen times amidst the uproarious laughter of all who witnessed the scene.

Murder Most Foul.

London, Ont., Dec. 4.—A brutal murder was committed her early yesterday morning. John Cavanagh is in jail charged with killing his mother, Mrs. Mary Cavanagh, who was 75 years old, and lived with her son, aged 53; at 437 Philip street. About 2 o'clock this morning James Harris a neighbor was aroused by John Cavanagh. Cavanagh had been drinking. He asked Harris to call a doctor. "Mother has fallen out of bed and is dead," he said. Mr. Harris telephoned at once to the police station and two officers were sent out. At the home of the Cavanaghs they came upon a ghastly scene. Mrs. Cavanagh's body was lying on the floor beside her bed, lifeless. Her nose was split open and the floor was covered with blood. A torn nightdress partly covered the body. In other parts of the house clothes soaked in blood were found, and it was evident an attempt had been made to mop up the blood which lay in pools about the floor. Though the woman was quite dead the body was scarcely cold. The wound in the face had been made with some sharp instrument. The weapon used, however, has not yet been found. Cavanagh made no attempt to get away. He made no statement to the police. When arrested he was still under the influence of liquor. Coroner Piper reached the house at 3 o'clock, and says the woman hadbeen dead an hour and a half at that time.

Many Heads Felt.

Prof. A. H. Welch, F. A. I. P., though only arriving in the city on Saturday evening is doing quite a business. A good number of people visited him yesterday at his private rooms in the Oriental Hotel, and he delinated their character with the great skill of the expert phrenologist which he is. Those desirous of being read by the professor should call on him as early as possible, for as his visit draws to a close he will be so busy that many who put it off till the last day will miss the opportunity of having the professor adapt them to where they will make life a success. Rooms at Oriental Hotel. Hours 9.30 a. m. to 10.30 p. m. Bell boys will usher to his parlors.

Charged With Manslaughter.

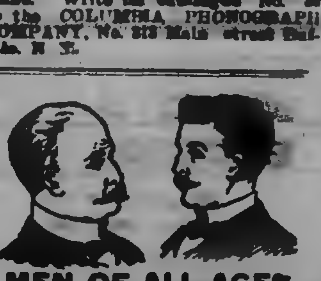
Kingston, Ont., Dec. 4.—On Saturday, Charles E. Fralick was arrested by Police Officer Aiken, and was charged at the police court by Crown Attorney Whiting with having killed one John E. James on the morning of Nov. 18th. Fralick thought was stealing chickens on his premises, when he shot James. Two companions escaped. The prisoner was allowed bail, the amount being $2,000, of which his father furnished $1,000 and himself the rest.

A Lindsay Bandit

At Phoenix, Ariz., Pearl Hart, the alledged woman bandit, who was charged with holding up a stage near Florence, was acquitted. Miss Hart addressed the jury in her own defence and pleaded passionately for freedom that she might return to Lindsay, Ont., to her fast-failing mother. Immediately after her acquittal the woman was re-arrested, charged with interfering with mails, and will be tried again.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 20 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.



MEN OF ALL AGES

suffering from the effects of early folly quickly restored to robust health, manhood and vigor. Lost Manhood, Premature Decay, Weak Memory, Errors of Youth, Night Losses, [illegible] forever cured.

$1 BOX OF MEDICINE FREE.

OLD DR. GORDON'S REMEDY FOR MEN in a few days will make an old man of [illegible] feel [illegible] years younger. VIVID • HEALTH

Nothing as rare as charity, easily impaired and often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness for the gain of wealth. A loaded purse cannot atone for the deranged liver, the altering step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO

Stimulants and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evident sickness tells of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries fuel and strength to every tissue, and gives back health when once lurked death. For sale from all druggists

THE POULTRY YARD.

Pea fowls are small bodied birds, and it will not pay to raise them for their flesh.

Do not hatch bantams too early. Small size is desirable. Hatching in August will give the best results.

Lack of shade in hot weather and too much exposure in the sun are often prolific causes of disease.

Clean earth is a first class disinfectant and purifier. As long as it is dry it can hardly be used to excess.

Until your experience and accommodations warrant confine yourself to one or two well known varieties.

"Next to the art of living justly and kindly with our fellows comes the art of maintaining a life of happiness and tranquillity," writes the Rev. Dr. Newell Dwight Hillis of "The Secrets of a Happy Life" in The Ladies' Home Journal, "for the soul was made for joy and good cheer. Life is a school; labor and sorrow, victory and defeat toil together as teachers, but happiness is life's aim and graduating point. Next to the duty of self denial comes the duty of delight. What ripeness is to an orange, what song is to the lark, what culture and refinement are to the intellect, that happiness is to the soul. As vulgarity and ignorance betoken a neglected mind, so unhappiness and misery proclaim the neglected heart.

"The normal nature will keep strong and fresh the chords that vibrate joy. Depression and worry take the nerve out of man's arm, take the keen edge from his mind, rob life of its victory, for unhappiness wins no battles, gloom invents no tool, wretchedness writes no drama. Earth's great achievements represent those whose hearts sang over the tasks. To meet storm with calm, defeat with faith, ingratitude with charity, is not an easy thing. Nothing requires so much wisdom, practice and skill as learning how to live habitually above the distemperatures of life."

General Methune's fights usually begin at daylight. He believes that the early bird catches the Boer.

EUGENE FIELD AND TABOR.

How the Humorist Made Life a Burden For the Millionaire.

"Up to middle age the late Senator Tabor's life was one of great hardship," said a former resident of the Silver State, "and when he suddenly became fabulously rich he plunged into luxuries like a starving man wading into a banquet. One of his early freaks was the purchase of several magnificent lace nightrobes which cost $100 apiece and which he kept locked up in a safe during the day. Eugene Field was editor of the Denver Tribune at the time, and these lace nightrobes made him simply hysterical. He wrote column upon column about them, describing the garments in detail, with numerous diagrams depicting sections fore and aft. The diagrams were hideous affairs, which Field carved out himself with a penknife on the back of old wood type. He used to describe how Tabor would forget the combination of the safe and sit up, shivering and naked, half the night trying to remember the right figures.

"Altogether he kept Denver in a roar for weeks and made Tabor so wild that one day he rushed into his office, snatched the unfortunate nightrobes out of their compartment and tore them to threads. 'There, now!' he exclaimed, wiping his forehead and kicking the tattered fragments into a corner. 'I hope that fool will be satisfied. I'll be hanged if I ain't going to get a gunny sack,' he continued, 'cut some holes in the end for my head and arms, and then sleep in it for the rest of my life!'

"When Tabor was appointed to the senate to fill an unexpired term of exactly 29 days, Field broke loose again and had all kinds of fun with the old man. He declared that Tabor opposed the tariff bill on the ground that it encouraged lawlessness in the west. 'I don't know this tariff bill,' he reported the senator as saying in a speech, 'but we have entirely too many of 'em out where I live. There's Wild Bill and Pecos Bill and Billy the Kid—all no good. If you let Tariff Bill have everything to do with the custom house he is liable to steal the Atlantic ocean.' Many of the honest frontier folk took these flights of fancy seriously, and drove Tabor nearly distracted by long letters of remonstrance, urging him to read up and get posted, so as not to disgrace the state.

"At the expiration of the senator's brief term he circulated an autograph album among his fellow members, and the incident tickled Field immensely. He gave what purported to be a copy of the 'sentiments' inscribed in the volume by the different statesmen—such things as 'When this you see, remember me, Roscoe Conkling,' and 'Sure as the moss grows 'round a stump you are my darling sugar lump—I mean chump—George F. Hoar,' and similar nonsense, all of which maddened his victim.

"I think 'Gene Field was the only man Tabor never forgave, for in spite of his gaunt, forbidding exterior, the miner magnate was as tender hearted as a girl. He was really full of sterling qualities, and in his proper sphere he would have been anything but grotesque. One thing is sure—if every fellow he helped in secret would have joined his funeral procession he would have gone to his grave like an emperor of old."

They Keep Moving.

The religion of a Bedouin tribe seems to be to "move onward." Having once begun the nomadic life, it becomes almost necessary for them to keep it up. In the first place, they don't want to settle down, and they wouldn't have any place to stop if they wanted to. Sometimes it becomes expedient that they make great haste in these long journeys. Wandering around over the plains are other tribes whose only occupation is "moving on." There is frequently enmity between two of these Arabian families, and should one pursue the other it behooves the pursued to hasten onward with all the speed their animals are capable of. Or it may be that the springs of water are so widely separated that hard travel is necessary to make the distance from one to the other in a day.

When either of these contingencies arises, they cook and eat while on the march. They don't eat much. Two or three dinners such as American boys and girls are used to every day and something extra for Sundays and company are supposed not to agree with Bedouin children's stomachs. When on the road, bread is their chief food. This is baked while riding. One woman will mix the coarse flour which is carried in a sack on the back of her camel, another will roll and shape the dough, which is brought to her in small quantities, and a third will make a fire in an earthen vessel and attend to the baking. Women or boys on foot run along from one cook to the other and carry the material, and when the feast is ready they distribute it among the various members of the tribe.

It is reported that when the retreating Boers fell back towards Kimberley the rear guard hung out the sign—"Follow us and you will wear diamonds."

Those armored trains are very like the ones the ladies wear. They are all right until some boor gets tangled up with them.

There is no chance to take, and there is the greatest possibility of reward to buy any one of the above stocks. Address.

W. C. APPELQVIST.
5 and 6 Van Valkenberg Block, Spokane, Wash., U.S.A.

Canada to the Fore.

One thing Canadians can boast of over their American cousins is the fact that Canada has a bigger, better family paper with more subscribers than any paper across the line. We allude, of course, to "The Family Herald and Weekly Star," of Montreal, which is read in Canada alone by over half a million people each week. The immense increase in the "Family Herald's" subscription lists year is a great tribute to it and it is due to some extent to the two handsome pictures, "Battle of Alma" and "Pussy Willows," both of which are included in the year's subscription. Can our American friends show a bigger dollar's worth? We think not.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

The Honest Johns Mining Company

has been organized for about 3 years, during that time, steady development, work has been in progress with the result that the Company have got now about 8 feet of ore lead carbonate, about two and a half miles from the track and about 60 miles from the Smithe (Le Roy Smithe at Northport). The average assay is about $45.00 in Lead and Silver.

The Company are offering now a limited amount of Stock at 15c per share, which will be the last offered.

The Company owns three claims, with only a capital of 500,000 shares. If our readers want to get put in to a first class proposition, that will ship in about 60 days, now is your time. Address

HONEST JOHNS MINING CO.,
5 and 6 Van Valkenburg Block, - - - - SPOKANE, WASH

AMES LYNCH, Druggist, 163 Hunter St. Peterborough, On.

THE PAVING CONTRACTS.

Continued from page 2.

should be a better test than the test you made?

A.—It should be as good a test if it were done according to specifications and if all the work were the proper thickness.

In answer to a question Mr. Sheehy stated that he finished laying concrete on his first contract on Aug 29th. He started his second contract on the same day. Mr. Ranney was acting as inspector on the first contract and Mr. McFadden on the second contract on the same day.

Mr. Sheehy stated that he used a few yards more granite on his second contract than on his first, which was the larger, because of the difference on quality in the granite.

THE CHARGES LAID.

Mr. R. F. McWilliams then sprang something of a surprise. When the investigation was decided upon they were able to state that the pavement contract had been carried out in a very inferior manner but had not stated who was to blame. His honor had stated at that time charges might be laid against any town officials or representatives who might be thought blameworthy. Mr. Ranney as inspector, Mr. Hay as engineer, and Ald. Langford, as chairman of the Board of Works, are involved, said Mr. McWilliams. Mr. Ranney might be charged with negligence. He acknowledged to have made the changes but claimed he did so through the deception of some of Mr. Sheehy's employees. So far as Mr. Hay's good faith or honesty is concerned there is not the slightest question. He is not accused of any dishonesty or wilful wrongdoing. But on the evidence we are justified in finding Mr. Hay guilty of gross negligence in allowing important changes to go on some time without knowing of them and without bringing it before the Council as soon as he learned it. Mr. Hay's justification was that whatever was done he did it with the knowledge of the chairman of the Board of Works, and the evidence showed that the latter was chiefly to blame.

His Honor—Do you want to lay some specific charge against Mr. Langford?

Mr. McWilliams—If your honor thinks it is necessary we are prepared to make a specific charge.

His Honor—No, Mr. Langford ought to have some notice that you intend to proceed in that course. He would then be here and might have some witnesses. There had never been any statement imputing his character put into writing nor has there been any such charge put in in any way that he might know such was coming. I understand you now to abandon all charges of misconduct against Mr. Ranney or Mr. Hay?

Mr. McWilliams—If misconduct means "wilful wrongdoing" then we do. There is, as I stated, a lesser charge. The more serious charge can, I think, on the evidence be laid against Ald. Langford.

His Honor—The engineer by reason of his education as an engineer knew more than the chairman or any member of the Board of Works. Was it his duty to report to the Council?

Mr. McWilliams—His evidence was that he considered himself justified in acting with the knowledge of the chairman of the Board of Works. I think Mr. Hay failed in his duty without any wrong intention.

Mr. Edwards—It amounts to formulating a charge against Ald. Langford?

His Honor—That is what it amounts to. I want to know whether Mr. Ranney and Mr. Hay are relieved?

Mr. McWilliams—I do not want to withdraw the case against them from Your Honor. I am willing to lay a charge of negligence against either of these officials but do not consider their case as serious as that of Ald. Langford.

His honor advised Mr. Hay to have counsel present to represent him regarding this charge of neglect in not reporting to the Council or committee sooner than he did that changes had been made.

Mr. McWilliams—Also in not knowing I think we are justified in charging him with gross negligence.

Mr. Hay—Mr. McWilliams in making the charge of negligence has overlooked one matter I spoke of in my evidence, the matter of overwork.

His Honor and Mr. Edwards here interrupted and advised Mr. Hay not to reply immediately. He took their advice.

Mr. Edwards—Does Mr. McWilliams propose to put charges in writing. Any specific charges should be expressed specifically in writing. They should be put in precise character.

His Honor—The memorandum that I have made, Mr. McWilliams, is that you abandon the charges against Ranney, that you make no charges against Hay of dishonesty but that you make one of gross negligence and that you intend to lay a charge against Ald. Langford.

Mr. McWilliams—I have given notice of the lines on which I intend to argue.

His Honor—Yes. Had you proceeded to argue against Ald. Langford without this notice, I feel that I would have been compelled to stop you. Mr. Hay is given notice here now and Ald. Langford will now take notice that there is a charge against him. It would be as well to state in writing shortly what you consider to be the result of the evidence as far as Ald. Langford, and to go on to state that that will be urged by you at the next meeting. Ald. Langford may want to give evidence himself or to have witnesses testify and I will hear it.

Mr. Edwards—It seems difficult to dissassociate Ranney, the inspector who allowed the change, from Mr. Hay, the engineer, who afterwards adopted it.

His Honor—If you propose to lay any charge of negligence on behalf of the town, well and good.

Mr. Edwards—I'm not endeavoring to bring Mr. Ranney in any way as responsible. I don't want to have the appearance of prosecuting Mr. Ranney.

His Honor—Then why not abandon it with regard to Mr. Ranney?

Mr. Edwarrds—I have no charge of misconduct against him.

His Honor—The charge of gross negligence against Mr. Hay amounts to official misconduct.

The case as reagrds Mr. Ranney was, therefore, dropped.

Mr. Dennistoun stated that he would call no witnesses. He did not think it necessary judging from the nature of the evidence of the past week.

The Judge appointed next Monday for the hearing of any witnesses Ald. Langford or Mr. Hay might desire to have heard and Thursday next at ten o'clock as the time for hearing the argument. Mr. Edwards and Mr. McWilliams the Judge suggested, should speak first, Messrs Dumble and Dennistoun next and Mr. Edwards be allowed time for a short reply.

Concluded on Page 3.

PERT PERSONALS.

Mayor Jones appears to be something of a Toledo blade.—Boston Herald.

Tom Reed's first jury will be strongly tempted to vote him down for the mere novelty of the thing.—Washington Post.

If General MacArthur is not already in the thrashing machine trust, he is certainly eligible to membership.—Chicago Inter Ocean.

It is plain from the lawsuits that he is bringing that Mr. Kipling has a due appreciation of the white man's boodle.—Pittsburg Times.

It was right and proper for Mary Anderson Navarro to come back to America on the Majestic. She is that kind of a woman.—Kansas City Star.

It is reported that Grover Cleveland has purchased a plover field. This will furnish amateur poets with another base of attack on Mr. Cleveland's first name.—Chicago Democrat.

Ingersoll has been sued for $135 for breaking a statue of Charles Dickens in a house that he rented furnished. The owner has only himself to blame, for Colonel Ingersoll is a notorious iconoclast.—Boston Traveler.

Russell Sage gave a little flower girl whom he accidentally jostled a $5 bill, and Hetty Green has leased a cottage at Newport. Is the millennium in the offing, or have those New York reporters been stringing us about these worthy people?—Cleveland Plain Dealer.

How He Misunderstood.

There were loud cries from a man in the back of the hall, and the cornetist went at it again.

There were more cries from other parts of the hall, but, with that one still ringing in his ears, the cornetist kept it up.

"What are you trying to do?" cried the manager. "That's no encore."

"No encore?" exclaimed the cornetist when he had been induced to break off. "Didn't that man back there yell. 'Toot, man!' four or five times?"

"Not any," answered the manager 'He's a Scotchman, and what he said was, 'Hoot, mon!'"

Kansas is a state of long obituaries and neglected graves.—Atchison Globe.

What between J. Sterling Morton's new party and Senator Thurston's poetry, the state of Nebraska has our profound sympathy.—Denver News.

AN EXACT PARALLAL.

Here are a Few Plain Truths for Merchants to Ponder Over.

Can you imagine a steamship company building a handsome, palatial steamer and then saving a few dollars on her compasses? What would you think of such economy?

Can you imagine a builder erecting a 15-story granite building and saving $75 by driving old second-hand piles for a foundation? What would be your idea of such economy?

What would you say of the watchmaker who should build a $400 chronometer watch and save 50c. by using a cheap mainspring, or of the picture-dealer who should save 25c. by using a cheap wire to hang a $500 picture?

In each case the appalling feature is the smallness of the actual saving as compared with the magnitude of the risk incurred. It has an exact parallel in conducting a business without an ad. in The Times, Peterborough's brightest, best and most widely read daily newspaper. For the saving of a few dollars a man will lose hundreds. "Everybody reads The Times."

THE NEW YORK WORLD,
THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existance—the wonder of modern journalism — "America's Greatest Newspaper," as it has been justly termed —The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

RETURNING YOUTH.

"I am seventy years young," said Oliver Wendel Holmes when they asked his age. True enough. He was young because his heart was young; his step was firm; his eye was bright; his laugh was clear and merry; his appetite was good, and above all—so was his digestion.

No man should be old before his time because of a weak stomach, sluggish liver, shaky nerves and flabby muscles. There is no need of it. Dr. Pierce's Golden Medical Discovery cures these things. It brings back youth to the feeble because it brings back keen appetite and good digestion. It tones up the liver, puts oxygen and life into the blood, and solid strength into the flesh and muscles. It contains no alcohol to inebriate or create a morbid appetite or craving for stimulants.

"I have never felt better in my life than I do now," says Charles Hunwick, of Lenox, Macomb Co., Mich., in a remarkable letter to Dr. R. V. Pierce, of Buffalo, N. Y. "I have taken Dr. Pierce's Golden Medical Discovery right along. I can now walk quite well with a cane and hope to throw even that away before long, and as I have had to use crutches for nearly two years, I think I am doing fine. I do not cough now and I can eat and sleep like a school boy. I think I will have to change my mind about 'Patent Medicines,' as I never had much faith in them; but you must know that I have been treated in two hospitals and by three doctors besides, and received no benefit; so I think your medicine is the only medicine for me."

There is nothing in the world for constipation like Dr. Pierce's Pleasant Pellets. They should be taken in conjunction with the "Discovery," whenever any disease is complicated with that dangerous condition. Nothing else that may be offered in their place will accomplish what they will. And their relief is permanent. Write to Dr. Pierce for free advice.

An Unprofitable Bone.

Last summer a friend presented us with a tortoise. I do not know whether our dog had heard of turtle soup or whether he regarded the creature as a new kind of bone that walked about; at any rate, he determined to eat it.

Whenever the tortoise started out on a constitutional down the garden path Gyp arrested it and carried it into his kennel, where he gnawed at the impenetrable armor till his jaws ached.

The calm and philosophical manner in which the tortoise resumed its interrupted promenade irritated the dog exceedingly, but no failure discouraged him. Whenever we reminded him of the tortoise, he would go in search of it all round the garden, peering into every crevice, till eventually the creature was found, and then fresh but futile attempts were made to extract the meaty portions from the shell.—

New York has established a state college of forestry. One of its labors will be to replant the tracts denuded of pine and other valuable conifers. It set out a large area this spring and is rearing 5,000,000 seedling pines for future use.—St. Louis Globe-Democrat.

TOWN AND COUNTY NEWS

Xmas Boxes.

The most suitable and seasonable Xmas Box is some thing warm, comfortable, neat and pretty from the Port Hope Knitting Works. Telephone 230, Ask for Trading Stamps See Friday's paper for Saturday bargains.

The New Sergt.-Major.

Sergeant-Major Brittain, of London, has been appointed to the 57th Battalion, Peterborough. He is now in town, and has formally assumed his duties. He has an exceptionally good record, having been connected with the permanent corps for five years. Col. Bell and the Battalion are fortunate in securing the services of so efficient and capable an officer.

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

P. P. Home.

The committee of management of the P.P. Home gratefully acknowledge the following donations for the month of November; Mrs. Brown, reading matter; J. H. Bell, milk; E. F. Mason, oyster and milk; R. A. Dutton, Apples; Mrs. J. B. McWilliams, roast of venison; Mr. J. W. Smith, men's clothing; Mrs. DR. George Burnham, Toronto papers.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your, health. the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and homemade. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

Go Early and Avoid the Rush.

Lecture on phrenology to-night by Prof. A. H. Welch, F.A.I.P., in the Y.M.C.A., at 8 o'clock. Go early and secure a good seat. The hall at his last lecture was crowded so that many had to stand. The lecture will be illustrated by life-sized portraits, skulls, busts, etc. Silver collection at the door. Public readings at the close of lecture by two ladies and two gentlemen. Private rooms at the Oriental Hotel. Ushers will meet you at the door and show you to Prof. Welch's parlors.

BOARD OF EDUCATION.

BOYS DESTROYING SCHOOL PREMISES TO BE SEVERELY PUNISHED.

A Full Attendance of Trustees at the Meeting Last Night- The Inspector's Report—Attendance for Months of October and November.

The Board of Education met in regular session last night, when there were present Peter Hamilton in the chair and Trustees Jas. Stevenson, Dr. Caldwell, W. G. Ferguson, Jas. Edgcumbe, W. S. Rumford, Dr. Burnham, W. H. Wrighton, J. J. Hartley, V. Eastwood, J. J. McBain, W. H. Hill, L.M. Hays and secretary W. G. Morrow.

The minutes of the preceding meeting were read and confirmed.

ACCOUNTS.

The following accounts were presented and referred to Finance Committee for certification thereto, with the exception of that for supply teachers, which was ordered to be paid forthwith.

INSPECTOR'S REPORT.

Gentlemen,—The pupils enrolled in October numbers 1,432, classed as follows—

Fourth Book classes	228
Third Book classes	265
Second Book classes	278
Part II. Book classes	236
Part I. Book classes	226
Kindergarten classes	106

It will be seen that the attendance is somewhat less than that for the corresponding month of last year. Notwithstanding the fact that strenuous efforts had been made to enforce the act respecting truancy, there may be, however, and doubtless are, cases not yet discovered in which the Act is being evaded.

During the past month I made my inspection of the various classes, the report of which will, it is expected, be laid before your Committee on Appointments at your next meeting.

Your buildings are in a satisfactory state of repair and the teachers are found to be vigilant in preventing any unnecessary damage to, or destruction of, school property. The repairs and improvements which have lately been effected at the Central School will, undoubtedly, add much to the neatness and cleanliness of the building as well as to the comfort of the pupils in attendance there.

The work done by the different teachers and classes will be commented upon elsewhere. It has to be reported, however, that good order continues to prevail throughout the schools, and at present there is an almost entire absence regarding any unpleasantness or friction between pupils and teachers. This fact would indicate that the pupils yield a ready submission to the rules of the school, while the teachers are apparently enforcing those rules with tact and good judgment.

In several of the subjects examined I find the work of the pupils manifesting a lack of accuracy and thoroughness, the removal of which will require the constant care and attention of the teachers of all grades. No teaching can be considered perfectly satisfactory which does not eliminate carelessness, inattention and lack of natural concentration, to which the above defect is partly due. The fault may in a measure result likewise from a desire on the part of the teacher to cover a great amount of work in a too short time, thus occasioning a neglect of those apparently minor details which are of the greatest importance for the acquisition of thoroughness. "Make haste slowly" is a safe maxim for the teachers to follow.

In order to remove one of the main causes for this hasty teaching, I purpose, with your concurrence, to dispense, for the present term at least, with our regular half-yearly written examination, and shall make provision, under proper safeguards, for the promotion of pupils upon the recommendation of the teacher—such recommendation to be based upon the ability of the pupil, the regularity of his or her attendance, and the class standing obtained by him throughout the term at his monthly examinations. This method is now followed in the schools of many of the larger towns and cities.

For some time past the work of the four upper grades in the Central School was divided among four teachers, each taking a few of the subjects in each of the grades. The results of this plan have not been so markedly gratifying as to warrant its permanent adoption, and I have taken the liberty of limiting this change system to the two upper grades in each school, the subjects being divided between the two male characters in each case. This method will, it is thought, cause less strain upon both pupils and teachers.

All of which is respectfully submitted.

DUNCAN WALKER,
Inspector.

The above report was referred to the Supervision Committee with power to act.

FINANCE REPORT.

The Finance Committee recommended payment of the following accounts—

Globe Printing Co.	$1 28
Mail Printing Co.	1 23
Review Printing Co.	1 80
Examiner Printing Co.	7 95
A. E. Micks & Co.	3 42
Adam Hall	35 62
Dickson Co.	33 62
Ormond & Walsh	23 11
A. H. Strickland & Co.	6 73

MISCELLANEOUS.

On motion of Trustee Hartley the Secretary was allowed $15 for petty cash.

Trustee Ferguson complained of boys breaking windows and otherwise destroying the West Ward School premises, and asked the Board to take action in the matter.

Inspector Walker at this juncture remarked that the steps of the North Ward building had been maliciously damaged, the staple of a door removed, and every indication of paper having been placed against the door and set on fire.

The Board decided to offer a reward of $5 for the conviction of any boy or boys for injuring school property, and instructed Secretary Morrow to have bills printed and pasted to this effect.

The Board then adjourned.

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 168 Hunter St.; from Wednesday, Dec. 13th to Saturday Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

LITTLE LOCAL LINES.

The Times circulation is on the upward scale, in bounds and jumps.

The Ashburnham School Board met last night.

The Fortnightly Club met last night.

A very interesting meeting at the hall of the Ancient Order of United Workmen took place last night.

All Saints' congregation met last night,

At the police court this morning a drunk was remanded until Thursday A boy charged with breaking a window in the Chinese laundry on Hunter street, was fined $1, and paid $1 for the light of glass.

The Times Bookstore is filled to the doors with holiday goods.

A runaway occurred yesterday on Simcoe street, no serious damage being done.

St. Paul's Concert.

Conspicuous among the artists of the season so far is Holmes Cowper, tenor. This gentlemen has proved himself worthy of the advance notices concerning him. Mr. Cowper delighted the people by his artistic work. He keeps a lot in reserve and does not give all that he has to his audience—a most commendable trait.—Musical Courier.

Holmes Cowper, coming a comparitively unknown tenor, made a reputation in one appearence that can hardly fail to secure for him future engagements. He was an instantaneous success. His voice is smooth and rich, his style artistic, and his stage presence pleasing. Beginning with an aria from Faust ("Salve Dimora"), he was obliged to respond to a double encore.

Mr. Cowper in an aria from "Faust" won an immediate success. He has a wonderful tenor voice, with all the richness and warmth of a baritone. Each tone, from the lowest to the highest, was round, full and sweet. Mr. Cowper came here a stranger, but with such a beautiful voice, cultivated and under perfect control, he is sure to be in demand. He received a double encore. The audience were even then loath to let him go.

Office Removed.

The Manitoba Government Emigration office has been moved from 30 York street to the Union station, Toronto. Parties interested will please take notice and govern themselves accordingly.

NEXT YEAR'S COUNCIL

Result of Yesterday's Vote for Mayor and Aldermen.

ALD. McWILLIAMS LEADS

With R. M. Dennistoun a close Second for Mayor

A Batch of New Men for the Council The Old Councillors All Behind Showing the Trend of Public Opinion.

The leading candidates for the Mayoralty up to three o'clock yesterday were—

Alderman McWilliams	65
R. M. Dennistoun	60
Richard Hall	55
Mayor Davis	30
Alderman Best	30
Dr. Geo. Burnham	25
Ex-Mayor Yelland	25
J. H. Burnham	15

The leading candidates for Councillors were—

J. H. Cobb	75
Joseph Yelland	73
Gus. Gouth	70
W. Salisbury	70
Dickson Davidson	70
R. F. McWilliams	70
Alderman Best	65
E. F. Mason	60
Alderman Denne	55
Alderman Sawers	50
Kelsey Hall	40
J. W. Green	40
G. M. Roger	40
E. H. D. Hall	35
Alderman Corkery	35
Alderman Langford	10
George Giroux	5

The intelligent and independent electors have been quick to perceive the advantage which the preliminary selection of candidates offers to them, and the benefits which may be derived by the town from a general adoption of a method to discover who, in the opinion of the people, are the best qualified to promote and protect the town's interests. For many years choice claim has been made for them by men who have private ends to serve. In the coming municipal contest it will be well for the ratepayers to secure pledges from the candidates as to their future course in the Council in respect to street expenditures. The Times is not in favor of employing a high-priced man to over see our streets. We think a large majority of taxpayers favor the appointment of a good, practical man, who understands making roads, and handling men to look after our public highways. If an engineer is needed at any time, employ him, but under no conditions pay him a stated salary. Our experience during the past summer is not such as would make the present most expensive system desirable. It should and no doubt will be discontinued as soon as the new Council for next year assumes office.

The Times invites all who take an interest in the welfare of the town to cast a ballot every day for the men that they believe to be the best for the position. We also would like letters on the subject

A GOOD MAN,

A correspondent writes—I send two ballots marked for Ald. J. B. McWilliams for Mayor, believing him to be the best man for the position in town. The way he has performed his duty in regard to the streets paving contracts, has earned for him the gratitude of the people. I would favor Mr. W. Salisbury for the Council.

MAYOR DAVIS AGAIN.

A workingman writes—I am in favor of giving Mayor Davis another term. He did very well during his term and deserves a third term.

We are besieged with a host of other letters, all speaking in favor of different candidates.

HOW TO VOTE.

Each coupon will have the value of five votes. Cut the coupons out and either mail it addressed to the Times or leave it at our office.

5 Votes

For Mayor of Peterboro

....

For Alderman

....

Rabbit Metal Exploded.

Lindsay Post; While Mr. David Gage, contractor for the Beal tannery, buildings, was engaged babbitting some engine boxes this morning, the metal exploded, flying principally in his face in the region of his eyes, cementing the eyelids together and burning and blistering his forehead and cheeks.

Dr. Shier, who was called in, found it necessary to shave Mr. Gage's eyelids and eyebrows to remove the clinging metal, when he discovered that the right eyeball was burned at the inner edge but not seriously. Mr. Gage is well pleased at his escape, as he had planned to leave town to-night for Midland city to undertake a large contract.

Yesterday Morning's Fire.

The fire which occurred yesterday morning in the premises of the Examiner, was a very serious one. The origin of the fire is not known, and had gained considerable headway before it was discovered.

The water leaked through the floor to the second and ground stories and almost the entire stoc of books, stationary, fancy goods, etc., was affected and damaged. The water was ankle deep on the ground floor in the morning. Mr. A. H. Stratton estimates his loss at about $20,000. He usually carries about $18,000 stock and had added about $8,000 for the Christmas trade. He carried $12,000 insurance. The Examiner Ptg. Co. also suffered damages to the amount of between $2,500 and $3,000.

PERSONAL.

Mr. Frank Young, of Young's Point, was in town yesterday.

Miss Edith McKee has returned from a pleasant visit to Campbellford.

Mr. S. Syre and wife, of Port Hope, are registered at the Oriental Hotel.

Miss Jessie Sullivan, of Cheboygan, Michigan, has been visiting friends in Ennismore for some time.

THE Canada Business College.

CHATHAM, ONT.

CANADA'S GREATEST SCHOOL OF SHORTHAND AND BUSINESS

PUBLIC SCHOOL TEACHERS SHOULD NOTICE

This institute has prepared over seventy teachers for other Business Colleges and Commercial Schools in Canada and the United States, more than twice as many as all other Business Colleges in Canada, combined, have so placed.

The proprietors of five of the leading business colleges in Western Ontario, who are to-day among our strongest opponents in the field of Shorthand and Business training, received THEIR training under the Principal of this institution. Besides these, there are five others holding leading positions as teachers in Business Colleges in Ontario.

Since Sept 1st seven of our pupils have accepted positions as teachers in Business Colleges and Commercial Schools in Canada and the United States; another is now [illegible] a similar opening in a Business College in a leading American city, and there are five [illegible] calls of this kind on hand still.

DOES IT NOT PAY TO ATTEND THE BEST? You must decide.

[illegible] of our pupils secured good positions in seventeen months, and the good work of placing our students still continues.

For catalogue of either department address

METHUEN STILL AT MODDER RIVER WAITING FOR STORES AND GUNS

Recent News From Ladysmith States That the Boers Shell the Town Without Ceasing.

THE BRITISH LOST 53 MEN AT KIMBERLEY.

Twenty-Two Men Were Killed in the Recent Sortie, and Thirty-One Wounded—Boers Are Now Getting the Range of the Camp.

(Special Despatches to The Times, 3 a.m.)

London, Dec. 7—4.30 a.m.

Again there is a complete lull of news from the seat of war. Ladysmith has established heliographic communication with Frere, and it is reported that all was well up to Sunday. A despatch from the Boer laager by way of Lorenzo Marquez, dated Thursday, Nov. 30 confirms the report that the commanders have been closing in on Ladysmith, and mounting big guns in new positions. According to the same advices, a heavy cannonade had been maintained an da general assault had been ordered for Thursday morning, but was countermanded at the last moment.

Modder River despatches say that the Boers are encamped amid the hills half way to Kimberley, but it is also added that a large body of the enemy has gone in the direction of Jacobsdale. It is possible therefore that Lord Methuen may endeavor to clear his right flank as far as Jacobsdale before continuing his advance. He is still waiting at Modder River for stores, guns and ammunition. The sortie from Kimberley on November 25 appears to have been much more serious than had been supposed. Details are now arriving of a reconnaissance in force by mounted troops under Scott-Turner, at dawn in the direction of a ridge near Carter's farm, where the Boers were strongly entrenched.

Finding the Boer pickets asleep, Major Scott-Turner proceeded along the ridge under cover and rushed the Boer redoubts at 5.25 a.m. in the face of a hail of bullets. The Boers hoisted a white flag and fired at the British under its protection before surrendering. Owing possibly to the exhaustion of their ammunition the British were unable to follow up th eattack and to seise a large Boer laager about 300 yards ahead, especially as Boer reinforcements were seen approaching and the enemy was keeping up a heavy fire from the shelter of the thick bush.

During the sortie an armored train reconnoitered northward, while a considerable force of British, with field guns and maxims, advanced toward Speytfontein, holding the Boers in check in that direction. The guns were engaged simultaneously and viewed from the conning tower, an artillery duel seemed proceeding in every direction except towards Kenilworth. The fusilade being terrible at eight o'clock. Having no force sufficient to hold the position be had stormed, Major Scott-Turner began gradually retiring his men. He had a horse shot under him, and a bullet went through the fleshy part of his shoulder. Several men had terrible wounds.

It is alleged that the Boers used marintis and explosive bullets and that they frequently fired at the British ambulance wagons. The British captured twenty-eight of the enemy. There appears to be some doubt as to whether this was the reconnaisance in which, according to the announcement of the War Office Major Scott-Turner was killed or whether that officer met his fate in a subsequent sortie.

It is reported from Cape Town that the Transvaal Government will refuse to acknowledge th eright of the United States to interfere regarding prisoners in Pretoria, insisting that Great Britain must enquire through Commandant General Joubert.

London, Dec. 7

A despatch from Frere Camp, dated Dec. 5, says—"The Boers are firing into Ladysmith. It is rumored that six thousand Free State troops have left Ladysmith, entertaining the gravest fears as to the safety of their own country."

Ladysmith, Saturday, Dec. 2

The hottest bombardment of the seige took place last Thursday. The Boers got a new big gun in position on Lombard's Kop, completely commanding the town and shelled our camp that day and yesterday, planting shells with great accuracy in the camp of the Gordon Highlanders and Manchester regiments, where there were many narrow escapes. To-day the enemy resumed the bombardment, doing some very effective shooting. Several of our guns have been shattered by the Boer big guns.

Queenstown, Cape Colony, Dec. 2.

The Boers have become very active in the country around Stormburg Junction, to which General Gatacre will take his next move. The telegraph lines have been cut in various places, and communication with Steynesburg, Derdrecht and Marisburg has been severed. It is believed here that the Boers have occupied Steynesberg. Firing has been heard in the direction of Stormberg, probably between General Gatacre's vanguards and the Boer commando.

Lisbon, Dec. 6

Two Russian colonels, a French general and a French colonel, who have been engaged by Dr. Leyds, to assist in the defence of Pretoria, left to-day for Lorenzo Marquez. They were escorted to the steamer by the secretary of the French Legation here.

THE SITUATION.

London, Dec. 6.—The Boers are evidently making their last desperate effort to subdue Ladysmith before the arrival of the relieving column. Recent despatches put a much more serious complexion upon the position of the garrison than has been hitherto been infered. General White's supplies are being exhausted, with the result that his men have been placed upon short rations, and, what is still worse, much sickness prevails in the camp, and the Boer gun which has been stationed 5,000 yards away to the west is inconveniently accurate, which shows that the Boer artillerymen are beginning to master the mysteries involved in the regulation of time fuses so as to make their shells burst at the proper moment, ignorance of which branch of war has hitherto made the Boer missiles of little value, seeing that they either explod too early or too late

Though the report of sickness, that bugbear of armies, and of British armies in particular, is serious, it is not likely that the occurrences in England's past history, amounting almost to the decimation of armies, will be repeated. Vast as have been the changes in the English army during the last hundred years, none have been so marked as in the treatment of sick and wounded. The terribly mismanaged hospitals of the campaigns in Flanders, where 18,000 men perished in a year, in Walcheren, where an army of 30,000 was wrecked by fever, and in the Peninsula and Crimea, are no longer known, and Tommy Atkins will be as well cared for at Ladysmith as he would be at the best London hospitals.

The state of affairs referred to above prevailed at Ladysmith on Nov. 29th, and, according to a Pretoria despatch, the Boers on December 2nd held a council of war to consider the advisability of assaulting the town. Whether they decide to do so or not is not stated, though it is more probable that the report is a mere piece of bombast of the Boer commanders designed to deceive the British, as it is not likely that the Boers would assault the town at the eleventh hour, and with the possibility of interruption from the south. It is much more likely, as is reported, that the burghers are preparing for a retreat through the Drakensburg upon their failure of a final effort to capture the position, and it is probable that the continued shelling and the report of an assault may be the cover for such a retreat.

Details of the sortie from Kimberley, on Tuesday last show that it was a much more formidable affair than reported at the time, the British losing twenty-two in killed and thirty-one in wounded—fifty-three in all—a loss which must be formidable to Colonel Kekewich's comparatively small force.

The report that the Pope contemplates a protest against the suppression of the two belligerent republics, if true, which is doubtful, will not cause any serious apprehension in England, as the influence of the Holy See over English temporal affairs is a negligeable quantity. Neither is it likely that the French republic will join with the Vactican in any such a protest. The prospect of France and the Holy See forming an alliance to save the Boers is too ridiculous to be discussed.

LIST OF CASULATIES.

London, Dec. 6.—The War Office has received the list of casualties during the sortie from Kimberley, Nov. 28, as follows:—

Killed—Major Scott-Turner, of the Black Watch; Lieut. C. Wright, of the Kimberley Light Horse, and twenty non-commissioned officers and men.

Wounded—Captain Walleck, Lieut. Watson and twenty-eight non-commissioned officers and men.

If General Buller should ask for further reinforcements a brigade of militia will be sent to South Africa, with the view of conciliating the militiamen, who think that branch of the service has been slighted in favor of the reservists.

BOERS HIDE THEIR LOSSES.

London, Dec. 6.—The War Office has received the following from General Buller:

"Pietermaritzburg, Tuesday, Dec. 5—It is very difficult to make any statement in regard to the enemy's loss. For instance, at Belmont 81 of their dead were accounted for. The enemy gave fifty as the number of killed. There is every reason to believe that the enemy's loss in the fight at Ladysmith on Nov. 9 was over 800 killed and wounded. Information from a trustworthy Boer source shows that at Hilyard's fight Nov. 23, the enemy lost thirty killed and 100 wounded. It is impossible to say how far these numbers are correct, but it is evident that the enemy does not admit a tenth of its losses. Intercepted despatches to Joubert from a commander show that even the official despatches contain decidedly inaccurate information in this respect."

LADYSMITH BEGINS TO SUFFER.

London, Dec. 6.—A budget of news from Ladysmith, which arrived this morning brought the history of the beleagured garrison up to Nov. 29. In spite of the rumors of a retrogade movement on the part of the Boers the stories just received show the garrison, although still strong, was suffering from confinement, restricted diet and the increasing volumne of the Boer artillery fire, especially that of the additional heavy calibre gun placed in position 5,000 yards from the western defences.

Disagreeable Shelling.

The despatches relate that the Boers had discovered the most vulnerable positions of the garrison and that the shelling was becoming disagreeably effective. The rations had been reduced and there was a great deal of sickness. Nevertheless the troops of the garrison were in every way preparing to meet the assault which it was anticipated the Boers would carry out in a final effort to reduce the city. The belief was current in Ladysmith that the Boers were preparing for a retrograde movement after another attack Several bodies of burghers were reported to have been seen on Nov. 28 moving in the direction of the Drakensburg, range, while on November 29 detachments were observed journeying northward with wagons. Discord between Transvaalers and Free Staters is also reported. There was no indication that the Boers were preparing to dismantle their gun positions, but the idea was prevalent in some quarters of Ladysmith that the continued shelling of the place was continued to cover the retirement of other Boer forces toward the Transvaal frontier. The Pretoria despatch of Dec. 2, via Lorenzo Marques, Dec. 4, however, announced that a Boer council of wa ron Dec. 2 was planning a renewed assault on Ladysmith.

FIFTEEN BOERS KILLED.

A despatch from Frere, dated Dec. 3, reports that in Colonel Lord Dundonald's reconnaissance, near Colenso, fifteen Boers were killed and many wounded. The road bridge across the Tugela river is intact. The same message reports that President Kruger is anxious that the burghers leave Ladysmith in order to oppose the British marching in th edirection of Pretoria from th ewest

Entered Dordreght.

Advices from Putter's Kraal, the headquarters of General Gatacre's division dated Dec. 2, say the Boers entered Dordrecht this morning. This is probably General Grobler's force of 1,500 men from Stormberg.

GENERAL JOUBERT SICK.

Pretoria, Saturday, Dec. 2—via Lourenco Marques, Monday, Dec. 4.—Gen. Joubert is indisposed and has arrived at Volksrust, across the Transvaal border, not far from Charlestown, in the extreme north of Natal, for medical treatment

A despatch from th ehead laager, where General Schalkburger is in supreme command during th eabsence of General Joubert, announces that a council of war was held Dec. 2 with reference to assaulting Ladysmith.

The State Attorney has arrived at the camp to advis ethe Boer commanders.

Everthing is quiet at Ladysmith.

Despatches from the west report that there was a heavy artillery duel at Mafeking during the morning of Dec. 2. All is quiet at Kimberley.

Comfortable wood an diron houses have been erected at Waterfall, a few miles from Pretoria, for the rank and file of the British prisoners.

Count Deville Lebelois, a colonel in the French army, has joined the Transvaal forces as an authorized military attache.

THE POPE WILL BROTEST.

New York, Dec. 6.—Leo XIII follows the vicissitudes of the Transvaal war with the keenest interest, and every morning before attending to the usual affairs of State with the Cardinal Secretary insists on hearing the latest war news which his Cameriere Segreta Participante, Mgr. Merry Del Val, translates from the English papers, says the Rome correspondent of the World.

CLERY'S TURNING MOVEMENT.

London, Dec. 6.—A feeling of anxiety and irritation was in the air last evening at the clubs, hotels, theatres and wherever men were congregated, and was reflected in the columns of several great London dailies in criticism of the manner in which the censor is holding back the news. What makes the suspense more difficult to endure is the knowledge that it is caused, not by the natural circumstances of the case but by the deliberate determination of the military authorities. From Natal comes the word that the Boers have retired from Weenen, southeast of Colenso. It looks as if part of Sir Frederick Clery's division had been detached to make a wide detour of the east of Frere station. The first result of such a movement would be to drive any outlying forces of Boers across the Blauwbank river. Its subsequent object would be to work around so as to menace the enemy's position at Colenso from the east.

A Strong Position.

The Boer position on the Tuegla has been made exceedingly strong as against any front attack, while the character of the country in this region largely helps Joubert's dispositions. The Boers are reported to be in very great numbers at Grobler's Kloof and elsewhere around Colenso. From a British point of view it is hoped that the Boers will stand and await the attack in a given position. Should they spread themselves in mobile bodies for miles along the course of the Tuegla the result would be something like guerilla warfare.

The delay which has occurred in the British advance can be explained not only by Gen. Buller's desire to get up an overwhelming number of batteries, but also some carefully planned and extensive movement whereby the Boer position at Colenso can be simultaneously attacked from the north, south, east and from the west.

Resumed His Advance.

General Methuen, it is reported, resumed his advance towards Kimberley to-day in personal command of his column.

It is reported that fighting has taken place at Arundel between General French's forces, which is advancing from Naauwpoort, and the Free State commandos.

The two relief expeditions now in progress must not be confused with the general scheme of invasion of the Boer republics. When Kimberley is relieved most of its inhabitants will go south, and it will become the advanced base for the invasion of the Free State. Stores of every kind will have to be brought from De Aar to Kimberley before any advance towards the east can begin. This is a matter of weeks, not days.

The relief of Ladysmith may be the beginning of the Transvaal campaign. The Natal operations will be directed mainly against the Transvaal Boers. It is quite possible that the defeat of General Joubert's force will be followed by the invasion of the Transvaal, not from the Orange Free State, as originally intended, but from Natal.

CAPTAIN SCOTT'S SEARCH-LIGHT.

London, Dec. 6.—A cable from Pietermaritzburg, dated Sunday last, says that Captain Percy Scott, of H.M.S. Terrible, has devised a searchlight signalling apparatus for communication with Ladysmith.

The 1st squadron of the Colonial Scouts, 100 strong, which is the fourth emergency corps raised in Natal, left for the front on Sunday.

The armored train has arrived at Frere without any mishap.

A PROTEST IN DUBLIN.

London, Dec. 6.—In compliance with a requisition signed by Messrs. W. Redmond, John Clancy and others, the Lord Myor of Dublin's locumtenens has called a meeting of the corporation for Dec. 11 to dispose of a motion in which the corporation will deplore the "infliction of the South African Republics of this lamentable, cruel and unnecessary war," and protest against a policy involving loss of life and enormous expenditure.

FIRST BATCH OF WOUNDED.

London, Dec. 6.—The first batch of wounded soldiers from South Africa, numbering 120 men, arrived in the Thames today on board the British transport Sumatra, which left Table Bay about Nov. 15.

BRITAIN'S STAYING POWER.

Over Eight Weeks Since the Ultimatum Was Sent.

(Special To The Times.)

London, Dec. 6—It is over eight weeks since the Boers delivered their ultimatum to Great Britain. Forty-eight hours later they commenced the invasion of British territory, east, west and south. They were fully prepared, having their forces massed on the frontiers and all needed supplies ready. Furthermore, they outnumbered the British forces opposed to them at least three to one, and had much heavier artillery. Yet with all these enormous advantages, what have they accomplished in the eight weeks that have intervened since October 9th? It is true that they have destroyed some railway bridges and torn up some miles of railway track along the Cape Colony frontier, but they have not taken a single place of any strategical importance. Kimberley, against which they sent their second largest force, is still in British hands and will soon become a British base of operations. Mafeking, 225 miles farther away from British succour than Kimberley, and with less than half its garrison, still flies the Union Jack, and successfully repells all attempts to take it. On the Natal side, where the largest Boer force under their most experienced officers has been hard at work for at least six weeks they have only succeeded in investing Ladysmith, but, so far as known, have made no serious attempt to capture it. For a few days they surrounded Estcourt, but are now falling back with the prospects very good for their being compelled to raise the seige of Ladysmith ere many days. On the whole, therefore, the war so far, with all the advantages in favor of the Boers, has only served to demonstrate the immence staying powers of the British.

COMMENTS OF THE TIMES.

It Approves of McKinley's Message Relating to British Relations.

London, Dec. 6.—The Times this morning editorially says of the President's message—The President shows the best of spirit in touching upon the relations between the United States and the United Kingdom. The delicate nature of the relations ending with Canada regarding the Alaskan boundary does not allow him to go beyond the expression of a hope that these will end in agreement for the establishment and delimitation of a permanent boundary. Apart from this, however, a most friendly disposition marks the discussion of the numerous matters of intercourse between the United States and Great Britain.

"The benevolent neutrality which has been observed by the United States during our conflict with the Boers is only what might be expected from a nation in which international law has always been a favotite study.

"The President is looking in the right direction when he contends for the gradual creation of a constitutional system for the Philippines. To insist on a cut and dried constitution at this stage in the history of the Philippines would be no less absurd than to demand, before the war with the Boers had been fought out, that we should settle the future of the Transvaal in accordance with the views of some political theorists at home."

EXHIBITS FOR PARIS.

Expected That the Canadian Quota Will Exceed a Thousand.

Ottawa, Dec. 6.—From present appearances the number of exhibits from Canada at theP aris Exposition will greatly exceed those sent to any previous exhibition, the World's Fair not excepted, if the stock exhibits are not counted. Up to the present time the total number of entries is over 800, and by the time the books are closed they are fully expected to exceed a thousand. It is not yet settled whether there is to be a live stock exhibit. Commissioner Perreault is obtaining information on this point, and will advise Professor Robertson, Agriculture Commissioner, as soon as possible, when it will be decided whether or not Canada is to exhibit in the live stock classes.

Lord Strathcona has cabled the authorities here that the contract for the supplying of the electric plant and light in the Canadian building has been awarded to a Paris firm. It was hoped that a Canadian firm would obtain the contract, but the tenders of the Paris companies, having the advantage of being on the spot, are much lower. The successful tender was $1,000 lower than that submitted by the Royal Electric Company, of Montreal.

Alleged Theft of $50,000.

Montreal, Dec. 5.—J. N. Fulton, a well-known account, who assigned some time ago, filed his statement this morning. The liabilities are over a hundred thousand dollars. Among the principal creditors are C. J. Richards, $32,965; Miss Napier, of Gloucester, Eng., $14,975; Dame S. Brossen, $10,400; Union Bank of Canada, $10,000. Mrs. T. J. Coristine, $11,000. Shortly afterwards Mr. Fulton was arranged before Judge Desnoyers charged with stealing different sums of money aggregating about $50,000, the property of Mrs. Elizabeth Reid [illegible], widow of the late Thomas J. Coristine.

Red Tapism

Ottawa, Dec. 6.—Some of the families of the Canadian soldiers in the Transvaal are finding some difficulty in getting their remittances from the department here.

The regulations provide that the wives shall receive 16 cents and each child 4 cents per day. General Hutton's recommendation is that wives receive 15 cents and children 5 cents.

The Auditor General refuses to pass the account until the matter is fixed. This and a number of other matters affecting the contingent will come before the Cabinet at once.

Weir Sentenced.

Montreal, Dec. 6.—Wm. Weir, president of the defunct Ville Marie bank, was sentenced to two years imprisonment, less one day, by Judge Wurtele this afternoon, for issuing false statements of the affairs of the bank to the Dominion Government.

Ministers' Movements.

Ottawa, Dec. 5.—Sir Louis Davies has returned to the city and is engaged in the consideration of the lobster fishery regulations.

Hon. Dr. Borden returns to the city to-morrow.

THE CAPITAL OF NATAL.

Sketch of the City to Which the Boers Are Advancing.

(Special To The Times.)

London, Dec. 6.—Pietermaritzburg, generally abbreviated to Maritzburg, is the capital and centre of government in Natal, situated seventy and one-quarter miles north-west of Durban, in the centre of a plateau, which forms the second terrace of the colony, 2,218 feet above sea level. It may here be mentioned that Maritzburg is only seventy-five and a half miles from Estcourt, which is the chief centre of Weenen country, now threatened by the Boers.

Pietermaritzburk is named after the two famous Boer leaders, Pieter Retief and Gert Maritz, who laid out the city in 1839. After the "trekkers" from the Cape entered Natal, the bulk of the people, about 2,000, congregated at Bushman's Rand, the present capital, situated among hills on the ridge and sides of a gentle slope, which forms part of the north bank of the River Umsunduzi, a tributary of the Umgeni. Water was led down the streets, the erven, or plots, were surrounded by turf walls and planted with fruit trees or vegetables. Gradually houses—low, one-storied buildings—began to fill up the square, subdivided into blocks, formed in the town; and even in 1839 Pretorius described it as "a large, pleasant and well-watered town." In the centre of the city was the open space known from its foundation as the "market square," a rendezvous for countrymen arriving with their wagons on a pleasure visit or for business purposes, ere the era of the locomotive. In those early days Maritzburg was devoid of trees—a bare, desolate expanse. Now it is a city bosomed in trees, with with plantations on the neighboring hills.

To the north-west of the city, and 1,000 feet above it, is what is known locally as the Town Hall, an elevation in the third of the series of terraces rising from the coast. There are over thirty miles of streets, laid out in regular blocks. The population of Martizburg, taken last year, was 20,155 comprising 11,300 Europeans, 6,150 natives and 2,700 Indians. The garrison, which is the headquarters of the Imperial troops in the colony, is situated at Fort Napier, on a kopje overlooking and commanding the city, from the south-west. The main line of the railway runs through the upper end of Maritzburg, just below the garrison, and in 1883 a commodious and central station was built there. Its dark brown soil, its red-tiled houses, its wild rose hedges and the abundance of trees give it the appearance of a large English village. But of late years extensive building operations have been in progress, villas of the modern English type are springing up in every direction. In 1893 the Town Hall was completed at a cost of over £50,000, and it was destroyed by fire in 1898. Other public buildings of importance are the Legislative Assembly, now utilized as a hospital; the railway station the post office, Supreme Court and market house. Outside the city, and across the Umsunduzi River, are the college and the Natal police headquarters in the colony. The college, presided over by Mr. R. D. Clark, M. A., an Old New College man, and colleague of Sir Alfred Milner, is a very handsome building, and the police barracks form a substantial block half a mile distant from the college. Martizburg is well supplied with water, and the cost of the present system amounts to over £65,000. A large library supplies the literary wants of the capital, containing, as it does, over 12,000 volumes; the Government makes a grant of £250 per annum to this institution. There are several manufactories in the capital; a large brewery, which caters for the Imperial troops; a tannery, and wattle bark factories are among the industries of the city, which, however, mainly depends for its prosperity on its agricultural surroundings and the permanent garrison of Imperial troops.

Apart from the inadequate protection afforded by Fort Napier, Martizburg has absolutely no permanent defences. Should the Boers, by any chance, be so venturesome as to attempt an assault on the "City of the Great White Elephant," the improvised defences should prove equal to the occasion. Guns have doubtless been brought up from the warships at Durban, and with the forces now stationed there, no fears should be entertained for the safety of the capital of Natal.

CANADIANS TO THE FRONT.

General Hutton Thinks Our Contingent Will Smell Powder.

Ottawa, Dec. 6.—General Hutton, though he has declined to talk for publication concerning the progress of the war or the tactics employed by our Generals, has taken a tremendous interest in the campaign from day to day, and, of course, has his theories as to the trend operations will take. The General did not hesitate to say yesterday that it has been his opinion all along that the Canadians would be sent north to De Aar or some neighboring point, where they will probably be given a week or ten days' stiff field work to harden them after their long voyage. It is certain that Col. Otter gave the men all the exercise possible on shipboard, but at best they must be pretty soft. The Gen. is quite confident that our men will smell powder and will have as active service as any of the corps. This morning General Hutton received a letter from Colonel Foster which strengthens him in this opinion. Colonel Foster wrote that he had an interview with Mr. Joseph Chamberlain during which the Colonial Secretary said inplain terms that the Canadians would be treated neither better nor worse than any other corps as far as field service was concerned. It is evident that the gentlemen who have been prophesying that the Dominion soldiers would be placed in garrison or in charge of supplies are entitled to another guess.

Off the Track on a Bridge.

Montreal, Dec. 6.—Just after the New York Central fast express, due here at 8.45, had passed over the Canadian Pacific Ry. bridge, near Lachine, a first-class car left the rails, owing to a defective frog. The engine and forward cars passed over safely. The train was quickly stopped and no serious damage resulted, though all eastern and southern trains were delayed, the Halifax express, due at 10.45, not reaching Windsor station until nearly 1 o'clock.

The track, where the accident occurred is very high, being elevated for the approach to the bridge over the St. Lawrence.

Morning Times

PETERBOROUGH, DECEMBER 6, 1899

EXPRESS TRAIN SPEED AT SEA.

It is evident that the highest limit of speed for ocean going steamers has not been reached. At the recent trial trip of the British torpedoboat destroyer Viper, a vessel of 325 tons, with engines capable of developing between 10,000 and 12,000 horses power, a speed of thirty-seven knots was attained, or two knots above contract requirement. She was built by the Parsons Steam Turbine Company, of Wollsend, and is the first war vessel to be fitted with the new system of steam turbine engines.

The experimental trip of the Viper indicates a possible future steamer that will travel at express train speed, its builders having offered to build a boat on the same plan to steam at the rate of forty-four knots or upwards, or fifty miles an hour. The two present obstacles to this high rate of speed consist in the difficulty of keeping the decks clear of water, the Viper in its trial trip having been submerged time and again, wetting all on board to the skin, and the enormous coal enough for a run of one or a few hours and quite unable to find storage room for enough to keep up a fifty-mile speed for a trip from New York to Liverpool.

It is evident, however, from the success of the Viper's trial trip that a voyage across the Atlantic within three days is among the possibilities of the future, and it is this possibility that is of the highest importance to the public. That it will relegate the most modern of warships to the canal boat class so far as comparative speed is concerned is probable, but the world at large has a far greater interest in commerce than in war. Naval officers will be deeply interested in experiments tending to show a possible speed for torpedoboats and torpedoboat destroyers of forty or fifty miles an hour, but the great mass of peaceably disposed humanity will be more interested in an increase of steamer speed, which will make a voyage to Europe and return, with a week for sight-seeing, possible within the ordinary two weeks' vacation.

THE FENIAN RAID.

An Account of the Ridgeway Campaign From an Irish-American Source—Some Amusing Inaccuracies—How Britain Was Frightened Into Paying the Alabama Claims.

Friday the thirty-third anniversary of the battle of Ridgeway, which was fought on Canadian soil on June 2, 1866, was variously celebrated in Chicago by survivors of both parties of belligerents. The Canadian Veterans' association of Illinois, composed of natives of the Dominion who opposed the Fenian raid, met and perfected their organization. These include Dr. John A. McGill (president), John Allan, Thomas S. Quincey, Dr. Jos. H. Martin, and Major Francis La Pointe. Among the chief local representatives of the invaders are John S. Mullen, Lawyer William J. Hynes, John F. Finerty, and Mortimer Scanlan. Of these, the first named—Captain John S. Mullen, a civil war veteran, who was wounded at Missionary Ridge—is now probably the only surviving resident of this city who took actual part in the memorable fight at Ridgeway.

It was a lively and exciting time among the Irish-American element of Chicago in the closing days of May of 1866. The Roberts wing of the Fenian organization, despite the opposition of the O'Mahony section, which urged that Canada had done no wrong to Ireland and, therefore, deserved to be left in peace, had decided at striking at England through her possession north of the St. Lawrence. English oppression in Ireland had grown intolerable; it demanded urgent retribution; and as it would be foolhardy, in face of a powerful and vigilent fleet, to attempt to convey a Fenian army across the Atlantic, the only available battle ground was Canada. There was no grudge or ill will against the Canadians; it was only the exigency of war.

So the call to arms went forth and met with hearty response. Fifteen hundred Fenians assembled and encamped at the stone quarries at the northwestern section of the city. Colonel James Quirk, who had been second in command to the gallant Mulligan, during the war, organized a regiment 800 strong, all disciplined, armed and uniformed. Men who are now staid and wealthy citizens of Chicago stole from their parental homes to join the movement toward the Canadian frontier.

Aroused by the Women.

The Irish Fenian Sisterhood, locally headed by Miss Kate Scanlan and Miss Celia O'Malley, was active in raising funds and arousing the enthusiasm of the younger men. Money of "the Irish Republic" was produced—bills of very creditable execution, bearing the signatures of Michael Scanlan (father of Lawyer Kickham Scanlan) and Daniel O'Sullivan. The great watchword of the hour was "On to Canada!"

The Federal government looked on passively for the time being. England's unfriendliness to the Union had been too recently manifested, during the civil war, to encourage urgent zeal on the part of the executive. Secretary Stewart, through the information of the government agents, could have laid his hand at any moment on every case of Fenian rifles and on the person of every Fenian leader. But the Alabama claims were unsettled and he though he might give reluctant Great Britain a hint of the club he carried in facilities for expansion northward.

The chief Fenian rendezvous on the frontier was Buffalo. A Southern contingent was the first to arrive, largely made up of the soldiers of both armies in the "late unpleasantness"—the first friendly combination of the blue and the gray. About 2 o'clock on the morning of June 1 an advance guard of about 800 crossed the Niagara river from Black Rock, three miles east of Buffalo, and encamped within the grass-grown parapets of old Fort Erie, a relic of the British-American war of 1812. They were under command of Colonel John O'Neill, a veteran of the civil war. From their places of debarkation they marched to Frenchman' Creek, four miles down the river. Supports failed to arrive from the other side; on the contrary a large number of the undisciplined straggled back across thr river, reducing O'Neill's force to about 250. Late in the evening scouts brought in warning that two British columns were advancing, one from Chippewa—regulars under Colonel Peacock—the other from Port Colborne. To attack one of these columns O'Neill marched at dead of night. But first he burned the abandoned arms of the recreants.

Failed to Draw the Charges.

"It was an exciting burning, too," said Captain Mullen. "We made a big pile of brushwood, threw the muskets on it, poured oil on the heap, and set fire to it. Most or maybe all of the muskets happened to be loaded, and as soon as they got heated they began to go off, sending bullets in all directions."

The night march was made over bad roads, soft from recent rains and cut up by wagon wheels. They tramped first toward Chippewa and then turned off toward Limestone Ridge highway, running toward the town of Ridgeway. On this road, on the morning of June 2, they were opposed by the enemy, who had come by train.

"We first caught sight of them about 8 o'clock," said Captain Mullen. "Most of them were in dark green uniforms, the rest in red—and at the sight of the English redcoats some of our fellows got mad to get at them. The dark green was the Tenth Royals of Toronto, called the Queen's own, under Colonel Booker, ten companies; the scarlet, the Thirteenth infantry battalion of Hamilton, four companies—about 1,200 in all, or nearly three times our number. Both sides threw out skirmishers, and the shooting began. To most of us, who had been in the war it was plain that fighting was new to them; they exposed themselves unneccessarily, which trained men never do. About all they could see of us was a line of flags—one of the biggest displays of green flags I ever saw, each with the sunburst on it. Most of us lay along a rail fence, other had cover in an orchard. After I think, about an hour and a half's shooting, and maneuvering we got the order to charge. We ran fast, many of us being barefooted after the march of the night before, but they ran faster, a confused crowd of red and dark green, throwing away their muskets, knapsacks and overcoats. We pursued them for three miles, into the town of Ridgeway, and found the place deserted by all save one man. Their dead and wounded lay along the road and in the fields. We lost one man killed and about a dozen wounded."

Loss of the British Forces.

The British loss at Ridgeway was one officer and twelve privates killed, two officers and sixty-five privates wounded, and a dozen rank and file made prisoners.

From Ridgeway, where the Fenians captured the large British flag which was displayed two years ago at the Irish fair, they returned about 5 p.m. to Fort Erie, just as a British battery was being landed to attack them in the rear. The tug, with the artillery and about fifty captured Fenian stragglers on board, steamed away before O'Neill's men could reach the dock, but about 150 men who had been put ashore lined up in the town square and showed fight. A volley from the Fenians broke and dispersed them; some took refuge in the hotel and began firing from the upper windows; several jumped into the water and clung to the piles of the dock; among these was Captain King, commander of the Welland Canal volunteer battery, whose leg, broken by a shot, was afterwards amputated.

After a few were killed and wounded on both sides, the troops in the houses surrendered on threat of being burnt out, and fifty more prisoners fell into the hands of the Fenians.

Abandonment of the Expedition.

But the army of about 2,000 British regulars was now closing in on the invaders, no supports had reached the latter, the Fenian programme of invading Canada at a dozen points at once had miscarried, so the enterprise was abandoned. That night O'Neill and his party recrossing the river were made prisoners by the United States revenue cutter Michigan. Officers and men were put under bonds, and later the former were subjected to a form of trial and were discharged. President Andrew Johnson issued on June 6 a proclamation against the breach of the neutrality laws. About 30,000 Fenians, who had assembled along the frontier in preparation for the raid, were transported to their homes at the expense of the Federal government.

But wily Secretary Stewart had gained his point. The hint had been given, the demonstration made. England had been shown the vulnerability of her Canadian frontier and the mistake of continuing her enmity with Americans. The Alabama claims were quickly settled, and America became richer by $15,000,000.

Such was at least one material effect of the dashing and daring, if more or less grotesque, raid, of which both the raiders and the raided are now after the lapse of thirty-three years, reviving many interesting memories.—Chicago Inter-Ocean.

BLOODIEST BATTLES OF THE PRESENT CENTURY.

In view of the statement in General Lord Methune's message to the Queen in reference to the battle at Modder River that "the battle was the bloodiest of the century," it may be interesting to recall some statistics concerning great battles of the century—

Battle	Date.	Men engaged.	Total losses.	P.C. loss.
Jena,	14 Oct., 1806	110,000	31,000	28
Waterloo,	18 June, 1815	139,603	29,508	21
Magenta,	4 June, 1859	130,000	21,000	16
Bull Run,	21 July, 1861	60,527	4,675	8
Antietam,	17 Sept. 1862	181,000	31,000	17
Gettysburg	1-3 July, 1863	150,000	59,190	40
Sadowa,	3 July, 1866	291,000	42,000	15
Gravelotte,	18 Aug., 1870	296,000	62,000	15
Sedan,	1 Sept. 1870	311,000	47,000	15

Where the Pot of Gold Is Buried.

How many women are fretting and struggling along on a very little money when a good sized yard or adjoining patch of ground is going to waste! Yet that very piece of ground may contain all sorts of possibilities—clothes, furniture, books, medicines, luxuries and even necessities otherwise impossible.

Clear, plow, fertilize and plant. This done, the great beginning is made, and perseverance and attention will secure the rest. Onions, tomatoes, cabbages, celery, a small poultry farm, a violet or rose farm—any one of these may add several hundred dollars to one's purse every year. Small fruits, hops, tuberoses and grapes are also very profitable. With some intelligence a blooming garden can always be made a paying one. Make it a principle to have no more waste in the garden than in the kitchen.

If there is only a very small place and just enough raised for one's own family, try, after the table is supplied, to prepare what vegetables and fruits are left over for sale for winter use. There is always a demand for good homemade canning and preserving. Do not let a valuable scrap of ground be idle.—Annetta Halliday-Antona in Woman's Home Companion.

Briggs—Appearances, you know, are often deceptive

Griggs—Yes. A person can never tell just how much it is going to cost to keep them up

Endorsed by Physicians

"I desired to test in my practice various Witch Hazel products. I have done so, and am thoroughly convinced that your preparation (Pond's Extract) is preferable to all others for either internal or external use."

MESSAGE TO CONGRESS.

The President Speaks of the Anglo-American Congress.

Washington, D.C., Dec. 5.—Some important messages are foreshadowed in the President's message to the fifty-fourth Congress, delivered to-day. He observes that much progress has been made by the Anglo-American Commission, when the Alaskan boundary difficulty brought the negotiations to an end. A modus vivendi, the President observes, has been agreed upon, and hope is expressed that a permanent delimitation of the boundary will soon be effected. There is not a word to indicate that the International Commission will be revived.

The President speaks of the neutrality of the United States concerning the Boer war, and says that had either of the belligerents requested mediation, the American Government would have gladly have offered its services. A deficit of 89 million dollars is noted for the past fiscal year, but a surplus of forty millions is expected next year. A change in the Banking Act is suggested so that the circulation may be increased.

The President asks that additional power be given the Secretary of the Treasury to sell United States bonds and to employ such effective means as may be necessary to those ends.

Congress is asked to take such means as are found to be within its power to eradicate the Trusts evil.

President McKinley says the commercial rights of the United States in China will be maintained.

The Government has no intention of asserting sovereignty over Cuba.

It is suggested that the various Latin republics of Central and South America should hold a conference looking to the improvement of trade.

Pillage and Massacre.

Constantinople, Dec. 5.—Private advices received here report that the Kurds have avenged the recent incursion of Russian Armenians into the Alashgered district in Turkish Armenia, by pillaging the Armenian village of Kostur and massacring 800 of the inhabitants.

LATEST MINING NEWS.

A Rich Lode

Spokane, Washington, Oct. 23, 1899
Rufus Merriam, Esq., Secy. Erie Mountain Consolidated Mining Co., Limited, Spokane, Washington

Dear Sir,—After a thorough examination of the ore extracted from the "Gilford" and "Houlton" claims belongig to the Erie Mountain Consolidated Mining Co., during the process of assaying same, I am in position to give my opinion on the character of the ore, and the probability of its permanancy and value with depth. After various assays and analysis of the ore from the "Gilford" claim, I pronounce the ore to be of a highly siliceous nature. The minerals contained in the ore are, gold, silver copper and lead. The lead exists in both a sulphide (Galena) and an oxcide state, the sulphide predominating. The ore is a crystalized porus quartz, with perfect cleavage, and from my former experience, I believe it of undoubted permanancy, increasing with depth, both in quantity and value.

The ore of the "Houlton" is somewhat similar to that of the "Gilford", but instead of being porus, is solid with fully as much silica, and with closer cleavage. The "Holton" ore also differs from that of the Gilford in that it carries only gold, silver and copper. The copper in the ores of both the above properties exists in a sulphide state.

My opinion as to permanency and increase of value with depth, in this latter claim is as favorable as that expressed in the foregoing, with reference to the "Gilford."

The following assays of ores from the respective properties have been made by me, on the dates and with the results mentioned.

"Gilford."

July 17, 1899—Gold, $1.86, Silver $1.20, Copper $15.73, lead $11.85; total $30.65. July 28, 1899—Gold $121.95, Silver $0.63, Copper $31.45; total $154.03. July 30, 1899—Gold $2.32, Copper $11.95; total $14.27. July 31, 1899—Gold $4.05; Silver $2.85, Copper $57.35; total $64.86. Sept 9, 1899—Test for silica 69 1-3 per cent., lead $16.85. Oct. 21, 1899—Gold $85.78, Silver $10.50, Copper $42.55; total $155.48.

"Houlton"

Aug. 19, 1897—Gold $26.24, Silver $1.50; $1.50; total $29.74. Aug. 5, 1897—Gold $20.67, silver $0.90; total $21.57. July 17, 1899—Copper $12.95. July 30, 1899—Gold $2.58, Copper $4.47; total $9.05. Aug. 2, 1899—Gold $1.95, Silver $0.15, Copper $4.62; total $6.82.

Conclusions.

From the foregoing derived from my examination and treatment of the ores, and from the cleavage and texture of same, I am of the opinion that the ore bodies from which the ore was taken are of a permanent nature, and at depth will probably be encountered in immense quantities. These facts taken together give me a favorable opinion of the two claims above mentioned.

Very respectfully,
P K. McNamara, assayor & Mining & Milling Engineer, 823 First Ave. Spokane, Washington.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as $62.80.

Write for maps and full particulars.

H. R. MANN,
601 Riverside Ave.
Spokane, Wash.

Here Are Some Snaps.

I will sell below quoted stocks at prices quoted, subject to change at any time. They are all first-class propositions, all in operation, some will ship soon.

30,000 shares of Lost Lode (Republic) Gold, 1-4 mile from Republic Mine, part of Town site of Republic on.it—7 1-2 per share.

25,000 shares of Eclipse Con. M. & M. Co., lead and silver, in Cour d' Alline Mining District 2; $20,000 worth of work done, R.R. through the property—5 cents per share.

25,000 shares of Noonday stock, Republic, gold, 10 foot ledge, adjoins Republic No. 2; and close to Golden Harvest,—3 cents per share.

25,000 shares of Great Western, south half Colville Reservation, lead and silver, fine showing,—5c. per share.

25,000 shares of Honest Johns M. Co., lead and silver, almost a shipper, will ship in less than sixty days, 2 1-2 miles from R.R. station, 8 feet of ore—15c per share.

25,000 shares of British American Gold Syndicate Development Co. The par value of this stock is $5,—$1 per share.

25,000 shares of Golden Crown Con. M. & M. Co., Idaho Gold Fields. A mill will be erected soon, gold,—7 1-2 cents per share.

25,000 shares of Iron Monitor, Republic, almost adjoins the Republic,—7 1-2 per share

There is no chance to take, and there is the greatest possibility of reward to buy any one of the above stocks. Address.

W. O. APPELQVIST,
5 and 6 Van Valkenberg Block, Spokane, Wash., U.S.A.

Cavanagh Remanded

London, Ont., Dec. 5.—John Cavanagh, charged with the murder of his aged mother, was remanded in the police court yesterday for one week. An autopsy was held yesterday by Drs. Teasdall, Neu and McCallum. There was along, narrow wound from the inner side of the deceased's left eye, extending down the nose. The nose was cut, both eyes were blackened, and there were cuts about the mouth. These marks, the doctors state, would not likely be made by the woman falling out of bed as Cavanagh told a neighbor. Mrs. Cavanagh, it is known, suffered from heart trouble.

The police have been searching for the flat-iron or other weapon with which the wounds were inflicted, but have failed to find it.

THE BRITANNIA
CONSOLIDATED GOLD MINING COMPANY
OF ONTARIO, LIMITED

CAPITALIZATION:

$300,000.00 fully paid and non-assessable.

Par value of shares, 30c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,308 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controlled by strong Montreal Syndicate.

Several hundreds of feet of work done.

Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.
A working property now producing bullion.
Assays are usually satisfactory, running from $3.00 to $400.00 per ton.
Mill-runs show the ore to average $15.00 to $30.00 per ton. Last mill run (August 21, 1899), of 38 tons, gave $579.85, or $15.25 per ton. The next mill run is expected to exceed this value per ton.
For shares and reports by John E. Hardman, S. B., and Capt. Z. J. S. Williams, apply to

Hutton Must be Modest.

Montreal, Dec. 5.—La Patrie, Mr. Tarte's organ, still continues to lecture General Hutton. It says that the Major-General, formerly a colonel in the British army, is acting in such a manner that if he does not soon put a brake on his intemperate zeal the Canadian people will absolutely object to have our volunteers commanded by an officer coming from the other side of the Atlantic. We pay with our own money the commander of the Canadian militia, and the one who pays generally likes to have control. When the Canadian contingent left for the Transvaal, Major-General Hutton said at Quebec that Canada would be disposed to contribute 50,000 or 100,000 men if England desired them. We may say that such language from the mouth of a subaltern officer, paid, we repeat, by the ratepayers of this country, is inexcusable; but General Hutton seems to believe what he says, as he appears to be undertaking exercises in Toronto just as if he were on the eve of participating in a great war. We are quite certain that the Major-General is very much deceived as to the character of the Canadian people, if he thinks they want to return to the old days of military regime.

Under the Fire Box

Teeswater, Ont, Dec. 5.—Harry Pinchon, of Toronto, a brakeman on a C. P.R. freight train, fell between the cars last night at Glenannan, five mile from here, and had his leg badly crused, five cars passing over him. When found the poor fellow was under the fire box of the engine and it was necessary to back up the engine before he could be released. He was brought into Teeswater and as soon as possible an engine was got ready and took him to Toronto, accompanied by Dr. Gillies. He is a young married man whose home is in Parkdale.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

The Honest Johns Mining Company

has been organized for about 3 years, during that time, steady development work has been in progress with the result that the Company have got now about 8 feet of ore lead carbonate, about two and a half miles from the track and about 60 miles from the Le Roi Smelter at Northport). The average assay is about $46.00 in Lead and Silver.

The Company are offering now a limited amount of Stock at 15c per share, which will be the last offered.

The Company owns three claims, with only a capital of 500,000 shares. If our readers want to get in to a first class proposition, that will ship in about 60 days, now is your time. Address

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 24th November, 1899.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

The GRAPHOPHONE

Most fascinating invention ... always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment.

Other so-called talking machines reproduce only records of cut-and-dried subjects specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

CURTAIN RAISERS.

A new comedy called "Wheels Within Wheels" is expected to go the rounds.

Robert Drouet will play John Storm in "The Christian" with Miss Allen next season.

"Annie Rooney" is undergoing a revival in Paris to the temporary eclipsing of Dreyfus.

Richard Mansfield is reputed to have taken out a life insurance policy for $100,000 recently.

David Belasco has completed an original play which will be produced early in the season with a specially selected company.

An elaborate revival of Shakespeare's tragedy of "Macbeth" will be the feature of Frederick Warde's repertory next season.

It is unofficially announced that Rudyard Kipling is to write the fairy play to be produced at the London Lyceum next season.

Some German statistician has discovered that stage dancing is conducive to longevity. Taglioni lived to be 80 and Fanny Elssler to be 74.

Rose Coghlan has been re-engaged for her original role of "Mlle. Fifi" for next season, the piece to open its tour in August in Chicago.

Emma Calve's much talked of monument represents her as Ophelia, and the sculptor has promised to exhibit it at the Paris exposition.

Minnie Seligman will appear in the vaudeville houses in a one act play called "Therese," which has been done in Europe by Sarah Bernhardt.

In a play called "Wine, Women and Song," recently produced at the Princess theater, London, two demimondaines, armed with butchers' knives, fight to the death in a beautiful setting profusely decorated with flowers.

George Bernard Shaw submitted his new play, "Caesar and Cleopatra," to Richard Mansfield, but as Shaw had required a 56-year-old baldheaded Caesar to make love to a 16-year-old Cleopatra the manuscript was returned.

BEE BUZZES.

Beeswax is dark because of the impurities mixed with it.

All excess of drone comb should be removed from the hive.

Bees start to work earlier if the hives face the south or east.

It is essential during hot weather that the hives be well ventilated.

Avoid blowing your breath among the bees while handling the comb.

Dirt and filth accumulating on the bottom boards make a propagating place for the moths.

Bees reared in the spring and summer are shorter lived than those reared later in the season.

The swarming season usually begins about 10 or 20 days after white clover comes into bloom.

Bees will enter a cool hive much more readily than one which had been baked in the hot sun all day.

Honey properly kept will improve with age. The older it is the better it will be, but it must be kept dry.

All bees should be examined now and the hives thoroughly cleaned. No treat of any kind should be left on the bottom boards.—St. Louis Republic.

Was She Really Dead?

Rat Portage, Dec. 4.—A couple of weeks ago Mrs Taylor, a servant, died apparently from heart failure. The medical men gave an order for burial, but when the undertaker was about to screw down the coffin lid he noticed that the body did not show any of the usual postmortem signs but that on the contrary, it presented a very natural appearance, just as if the woman was asleep, except that there was no signs of breathing. It was decided to hold over the burial for a time, and as days passed without any change the story got around that the woman was in a trance. The woman's face presented quite a healthy look, her lips were rosy red, though the eyes were somewhat dull and sunken, while there was an entire absence of rigor mortis and the flesh did not pit when pressed with the finger. One man says he took hold of the woman's hand and alleges that he distinctly felt a return pressure. The medical men again examined the body and confirmed the opinion that they already expressed that death had resulted days before and that it was a case of delayed decomposition. The coroner's order for burial was then obeyed.

Babbit Metal Exploded.

Lindsay Post; While Mr. David Gage, contractor for the Beal tannery, buildings, was engaged babbitting some engine boxes this morning, the metal exploded, flying principally in his face in the region of his eyes, cementing the eyelids together and burning and blistering his forehead and cheeks.

Dr. Shier, who was called in, found it necessary to shave Mr. Gage's eyelids and eyebrows to remove the clinging metal, when he discovered that the right eyeball was burned at the inner edge but not seriously. Mr. Gage is well pleased at his escape, as he had planned to leave town to-night for Midland city to undertake a large contract.

60,000 BOERS ARE NOW IN THE FIELD

This is the Army That is Opposed to Britain in South Africa.

BRITISH FORCE INADEQUATE

After Deducting Men Required for Garrison Duty Only About 35,000 Remain.

A Much Larger Force is Needed Than at Present in Africa—The Colossal Task Which Britain Has Undertaken.

(Special To The Times.)

London, Dec. 5—A prominent German general and staff officer in friendly criticism, has been telling the British authorities in the Times this week how grave is the necessity for sending large reenforcements to South Africa. He affirms from positive knowledge that the Boers are able to put 60,000 men in the field. Against this force the English have 80,000 men. From these, he points out, must be deducted those needed to keep open the requisite base lines as well as the forces necessary for checking risings in Cape Colony and for garrison duty in the chief centres. He adds: "I hold the opinion, one which is freely shared by brother staff officers, that not less than 40,000 to 45,000 men will be absorbed by such necessities, leaving 35,000 to 40,000 for active military operations. It must be further taken into account that a majority of the men are unused to the climate and an unusual percentage of sickness must be expected. The local geography is a sealed book to most of the British and an unusual number of reserve men must be pressed into use before the English are in a military condition necessary for such a campaign. I do not consider that our German view is unjustified, viz.: How can England expect to crush a force of at least 50,000 Boers with an army of 40,000 available for offence, when we consider that these 50,000 Boers are acclimatized and know every yard of the country and its capacities for traps for the bravest European troops? They shoot admirably and they are manoeuvred with an astonishing strategical ability. They have already revealed in trifling operations that they can ignore the questions of food and encampment to a degree out of the question with the British-fed troops, and they are contending for their rotten oligarchy with the courage of despair, which has been heightened by a success of a certain nature up to the present. They have time during their advance south to put their rear route in an able state of defence. Finally, Pretoria has been fortified in such an able manner that an almost insignificent defensive force will be able to hold the place, while the main army can be devoted to other duty. Taking all the foregoing into account the conclusion has to be arrived at, that if England means to come out victorious she will have to be represented in South Africa by an immensely increased numerical force, at any rate, by one quite beyond the proportions of anything as yet conceived by the public."

An experienced war correspondent, in a despatch mailed to escape the censor, predicts that by the beginning of Dec 30,000 British Dutchmen will have joined the invaing Boers. He adds that every Boer commando that has come on British soil has been like a rolling snowball, increasing as it it moved. The same correspondent says that all the staff officers with whom he has discussed the situation agree in fixing the middle of March for the end of the campaign.

It is said that on Thursday the Cabinet considered the intimation, cabled presumably by Amerrican Consul Macrum, that a mission has left Pretoria for Cape Town to propose an armistice preliminary to negotiations for peace. Premier Salisbury's speech at Guildhall, when he was reported to have said that England did not desire to acquire gold mines or territory, was the reason for sending the mission. Lord Salisburfy has since disavowed the meaning placed on his words, leaving the conclusion that the two republics will lose their cherished independence. The mission is absolutely hopeless. The Boers will not surrender everything dear to them at the moment when they have had the best of the fighting. On the other hand England will not negotiate as long as a single Boer invader is on British soil. The suggestion for an armistice is in any case inopportune now from a political point of view. A vast majority of Englishmen have gone into this war with a determination to make it a fight to a finish. If the Government were to show indications of repeating the policy of 1881 their large Parliamentary majority would not save them from being outvoted. Although Englishmen are bitterly surprised and disappointed at events in South Africa, no candid observer can deny the strength of the popular feeling at this moment in favor of fighting to the end and absorbing the Transvaal and the Orange Free State into the British Empire.

Their Bodies Found.

Kingston, Ont., Dec. 4.—The bodies of Mrs. McPhee and her granddaughter, Miss Moreland, drowned on Friday last crossing from Solomon Island lighthouse to Amherst Island, were found on the south east shore of Amherst Island. Archie McPhee, who accompanied the two women, had his back injured in trying to save Miss Moreland, his cousin, whose he got across the boat twice, only to have her washed away.

MADE OF MUD, AND HARDENED WITH BLOOD.

Text of Scurrilous Attacks Which Excited the Ire of Chamberlain.

Paris, Dec. 5.—The intimation from the Prince of Wales that he will decline to take anything more than the most formal part in the Paris Exhibition, unless the scurrilous attacks made by the French press on England and the English cease, comes none too soon. By all decent-minded Frenchmen, it will be cordially welcomed.

It is impossible to describe the gross caricatures that are being published by certain French papers of the Royal family, and more particularly of the head of the Royal family. They surpass all bounds of decency; no French paper shop in England would dare to exhibit them simply because of the English law against such publications for they are ten times worse than the foulest picture that has ever defiled the lowest type of English police gazette. The letter-press that accompanies these caricatures is just as vile.

I give below some mild—very mild—specimens of the scurrility that is now in vogue here, taken from this week's papers

In the Libre Parole we have the following effusion on the gift of chocolates by the Queen to her soldiers;

> Made of mud and hardened with blood—such is Victoria's Royal present to the soldiers who are about to die for the iniquities of their Queen.
>
> Hurrah! The Queen forever! Listen, valiant soldiers of England, who are dying at Ladysmith, penned in the iron circle which every day tightens on you more mercilessly. The Queen is going to send you something—a present . . It is a box of chocolate made of mud—the mud of England's treacheries and iniquities and perfidies—hardened with blood, the blood of all those who have fallen already for the most odious of causes, of those who died at Glencoe, at Dundee, at Colenso, and at Estcourt for the villainy of Chamberlain and the humiliation of England.
>
> Eat the Queen's chocolate, good soldiers at Ladysmith, while the Queen in London decides that in order to make up for this reckless expenditure it will only be right to ask Parliament for another grant; while your Prince enjoys himself, and while his sons, his nephews and his cousins, and all the Hanoverian offshoots of the Hohenzollerns and the Battenbergs fatten on the fertilizing exhalations of your corpses.

Snap Shots With a Graphophone

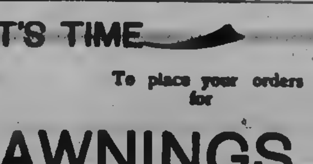
The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

Sir Henry Tate

London, Dec. 5.—Sir Henry Tate, formerly head of the firm of Henry Tate & Sons, suger refiners, and donor of the Tate collection and picture gallery at Westminister, is dead. He was born in 1819.

Office Removed.

The Manitoba Government Emigration office has been moved from 30 York street to the Union station, Toronto. Parties interested will please take notice and govern themselves accordingly.



MEN OF ALL AGES

suffering from the effects of early folly quickly restored to robust health, manhood and vigour. Lost Manhood, Premature Decay, Weak Memory, Errors of Youth, Night Losses, Varicocele for ever cured.

$1 BOX OF MEDICINE FREE.

OLD DR. GORDON'S REMEDY FOR MEN in a few days will make an old man of 60 feel 20 years younger. VIVID • HEALTH

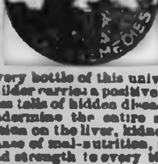
Nothing as rare as charity, easily impaired as often lost—the envy of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness to the gain of wealth. A loaded purse cannot atone for the deranged liver, the altering step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.



Stimulants and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE must and will.

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evident sickness tells of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries food and strength to every tissue, and gives back health where once lurked death. For sale from all druggists

SICKENING SCENES.

AWFUL HORRORS OF THE BATTLEFIELD AT GLENCOE.

Heaps of Mutilated Bodies and Trenches Full of Dead—Hospitals Were Human Sawmills—Blood-stained Farewells From the Dying.

Uitlanders refugees arriving here, writes a correspondent at Durban, South Africa, brings news of the battlefield of Glencoe and of the situation in Johannesburg. Pretoria and the Transvaal generally. Henrich Auer, who had been forced to leave Johannesburg because, as husband of an English woman, he was suspected of British sympathies, says—

"I judge there were about 1,000 dead and wounded on the battlefield of Glencoe when we passed it on October 21, in the afternoon. I shall never forget the sight, and I haven't slept a second since then. Picture to yourself heaps of bodies, some stretched out beyond their own length it seemed, as if they had grown longer with the infinity of torture. Others curled up as if in dying they had been searching for a friendly hand, and in their anxiety had perhaps caught hold of their own limbs.

"There were rows of Boers who died kneeling in the trenches in a natural position. Several bodies I found standing boldly upright, leaning against trees or other impediments that had prevented them from falling. They were all shot in the head and their faces were black from powder, dust or the beginning of putrefaction.

The Wails of the Dying.

"Many of the horse carcasses were already shapeless masses, gases having swelled them. And all over this living grave rose the gurgling wailing of wounded and expiring men, who groaned and sighed for help, or for death to come, while the red saliva ran from the mouth and while their hands and nails clutched at the earth and grass.

"Ah, that one might be a ministering angel and despatch some of these unhappy ones by a beneficial dose of poison! I caught myself running away, howling and blubbering from the side of a Boer who was vainly trying to stuff back his protruding entrails. There a brave rifleman had bitten off his tongue while seized by spasms. I saw three or four die within arm's length of me. One suddenly rose, jumped high in the air and fell back dead.

"Outside the hospital tents I found Boers lying on cots, fidgeting round with their arms and murmuring 'What's the use; let's retreat and back at them.' Here was a

Whole Row of Sharpshooters.

disposed in excellent order, with their officer in the center, evidently struck by a volley as they were obeying a command to shoot. An overturned battery there, the piece of ordnance buried in the sand, parts of human and horses' bodies mingled indissolvably, swimming in a pool of blood. Many of the dead had their faces turned in the direction of the sinking sun. Their spirits were sinking at the same time, I reckon.

"Over the flying hospitals hung the awful smell of chloroform. Saws were buzzing there over bones, knives sharpened and draughts concocted in the open air. The sentinels and outposts shot vultures by the dozen without driving all away. Thank God, the human hyenas of the battlefield were missing, though there are not enough people in this neighborhood to yield those outcasts that in civilized Europe abound.

"One of the English sanitary officers showed me a basket full of letters which his men had gathered on the battlefield. Wounded to death, despairing of timely rescue, many English officers and men had died, scribbling

A Word of Farewell.

to their loved ones or else pressing to their lips some lines received from mother or father, wife, sister, bride or intended. I myself ran across some of these flying messages, chased by the playful breeze. One or two seemed stained with tears—all had blood spots on them. Several were beyond deciphering. A hospital nurse told me that he found many dead Englishmen stretched on their back, knapsack under their head and a photograph in their uninjured hand. Maybe they had been dying for hours, having just strength enough to make themselves comfortable and take the picture from their pocket. An old campaigner of the Irish Fusiliers was discovered with his hand raised to his mouth, the hand clutching the medals which the dying man had torn from his breast. A young lieutenant of the rifles near by had his dying look riveted upon a rose-colored billet doux with gilt margin. It began—'My darling—,' Five weeks ago this 'darling' promenaded at the side of the beautiful writer in Belgravia.

"The number of dead and wounded Boers was at least four times that of the English, but these Boers had wasted no sentiment in making their exit out of the world. No letters were found with the dying and wounded; no photographs. The Boer strikes no attitudes; his heroism is blunt, but unpicturesque."

FROM PULPIT TO GALLOWS.

Career of a Texas Preacher, Which Ended in a Hangman's Noose.

The way of the transgressor, no matter what his condition in life, is hard. This thought is brought forcibly to mind by the recent execution of Rev. George E. Morrison, at Vernon, Texas, for the murder of his wife in 1897 He administered poison to her, in order to get rid of her and marry another woman. Morrison met his death resignedly, but declared that he was innocent, circumstances over which he had no control placing him where he was. He had a large following of friends who made strenuous efforts to have the Governor commute the sentence to imprisonment for life, but without success.

Morrison was married to his wife, who was Minnie Brady, at Hanford, Tex., in 1881. She sang in the church choir. Later they moved to Pan Handle City. In 1897 he went to Topeka, Kan., to attend a Sunday school convention. Here he met Miss Anna Whittlesey, whom he knew at school. She had fallen heir to $100,000 and he fell deeply in love with her. He told her that his wife had been dead 11 years, that he had retired from preaching and owned a ranch near Higgins, Tex. He made her an offer of marriage and she agreed to become his wife. He returned to Texas and kept up a correspondence with Miss Whittlesey. To get his wife out of the way was the next question. He made up his mind to murder her. This was in October, 1897. He went to a druggist to obtain some strychnine, which, he said, was to poison some "varmints" that were killing his chickens.

The crime was committed on a Sunday night. Before the deed he preached a particularly effective sermon, speaking in a pathetic manner of the sad parting with loved ones at death. Then he went home and gave his wife an apple in which he had put some strychnine. She died the same night with her arms about her husband's neck. She never knew of his treachery. He still continued the correspondence with Miss Whittlesey and the day after his wife's burial he sent a letter in which he expressed his love in the most lavish terms. He went to Topeka a few days later and obtained a promise from Miss Whittlesey that she would become his bride. On his return he was arrested, suspicious circumstances coming to light concerning his wife's death, but was soon released. He fled, but three months later was re-arrested in San Fransisco and taken back to Texas, where the full extent of his villany became known. At the trial Miss Whittlesey was the principal prosecuting witness and her testimony sent him to the gallows.

THE NEW YORK WORLD, THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern Journalism — "America's Greatest Newspaper," as it has been justly termed —The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

STATE LINES.

Lumber can't help being high in Oregon. It grows that way.—Oregonian.

Iowa, Kentucky, Maryland, Massachusetts, Mississippi and Ohio are the only states that elect governors and state officers this year.—St. Louis Republic.

Missouri now has a beer inspection law. The rush for appointments as inspectors will be akin to the opening of an Indian reservation to settlement.—Omaha Bee.

It is predicted that a comet will strike Iowa next fall, but a comet will have no terrors for the Iowan who has lived through an active cyclone season, with a political campaign due next year.

How He Misunderstood.

There were loud cries from a man in the back of the hall, and the cornetist went at it again.

There were more cries from other parts of the hall, but, with that one still ringing in his ears, the cornetist kept it up.

"What are you trying to do?" asked the manager. "That's no encore."

"No encore!" exclaimed the cornetist when he had been induced to break off. "Didn't that man back there yell, 'Toot, man!' four or five times?"

"Not any," answered the manager. 'He's a Scotchman, and what he said was, 'Hoot, mon!'"

The work of a farmer's wife is never ended. But it is wholesome, enjoyable, productive work that is pleasurable if the farmer's wife is a well woman.

The work becomes weary drudgery when the woman is sick. The work drags and the woman's pride is hurt. Her ambition is to do as much and better work than her neighbors. It is a distinct triumph if her butter is generally regarded as the finest in the county. But fine butter and bad health don't go together.

Mrs. W. J. Kidder, of Hill Dale Farm, Enosburg, Vt., writes to Dr. R. V. Pierce, Buffalo, N.Y.: "During the past year I found that I was to become a mother and that I was in rapidly failing health. I suffered dreadfully from bloating, and urinary difficulty. I was growing perceptibly weaker each day and suffered much sharp pain at times. I had to give up my work and I felt that something must be done. I sought your advice and received a prompt reply. I followed your directions and took twelve bottles of Dr. Pierce's Favorite Prescription, and also followed your hygenic instructions. I began to improve immediately, my health became excellent, and I could do all my work (we live on a good sized farm). I walked and rode all I could, and enjoyed it. I had a short, easy confinement and have a healthy baby boy."

The one medicine that gives prompt and sure relief is Dr. Pierce's Favorite Prescription. It is a tonic and purifier that works on one special set of organs and puts them in a perfectly vigorous, healthy condition. It quickly soothes inflammation and stops debilitating drains on the system. Taken regularly during the period of gestation it greatly lessens the pain and danger of childbirth.

Although sweet to the taste it contains no sugar which often disagrees with weak stomachs; nor does it contain any alcohol, or opium in any form, and therefore does not induce a craving for stimulants. Keeps perfectly in any climate.

An Unprofitable Bone.

Last summer a friend presented us with a tortoise. I do not know whether our dog had heard of turtle soup or whether he regarded the creature as a new kind of bone that walked about; at any rate, he determined to eat it.

Whenever the tortoise started out on a constitutional down the garden path Gyp arrested it and carried it into his kennel, where he gnawed at the impenetrable armor till his jaws ached.

The calm and philosophical manner in which the tortoise resumed its interrupted promenade irritated the dog exceedingly, but no failure discouraged him. Whenever we reminded him of the tortoise, he would go in search of it all round the garden, peering into every crevice, till eventually the creature was found, and then fresh but futile attempts were made to extract the meaty portions from the shell.—

New York has established a state college of forestry. One of its labors will be to replant the tracts denuded of pine and other valuable conifers. It set out a large area this spring and is rearing 3,000,000 seedling pines for future use.—St. Louis Globe-Democrat.

TOWN AND COUNTY NEWS

MARRIED.

FROST—LUCAS.—At the Methodist Parsonage, Hastings, on Wednesday, 29th ult, by the Rev. F. Johnson, Miss Winifred Lucas, of San Francisco, Cal., to Mr. C. E. Frost, of Peterborough.

Xmas Boxes.

The most suitable and seasonable Xmas Box is some thing warm, comfortable, neat and pretty from the Port Hope Knitting Works. Telephone 230, Ask for Trading Stamps. See Friday's paper for Saturday bargains.

Hearing on Friday.

The two men arrested last Saturday on the charge of stealing a coat and subsequently admitted to liberty to come up for hearing on Thursday will be before the Magistrate on Friday, the date having been changed.

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

Argument To-day.

Argument in the pavement investigation will be heard before Judge Weller in the County Council Chamber in the Court House this morning at ten o'clock, and is expected to be of considerable interest. Messrs. E. B. Edwards, Q. C., R. F. McWilliams, R. E. Wood, D. W. Dumble and R. M. Dennistoun will address the court.

Bates' Bread at Ten Cents

Is all right. It is made in a large airy bake-shop, by practical men. We use only the best Manitoba Patent and hop and malt yeast, which Dr Goodfellow, the cooking expert, says is the most healthful bread made.

During my seven years' experience in bread and pastry business I have learned that the best is none too good for the people of my town, and they are willing to pay the price.

Preserve your, health, the health of your husband, the health of your children, if you have any, and buy the best bread. I make both kinds, baker's and homemade. Ask for Bates', or have it delivered at your door.

WALTER BATES, Baker.

Established 1893. Phone 303.

The Saturday Times.

Look out for Saturday's Times. It will contain several new features of interest. The Times will be delivered to any address in Peterborough or Ashburnham for 25c per month.

COUNCIL IN COMMITTEE.

They Favor Co-operating With the Prisoners' Aid Society in the Matter of Pauper Inebriates.

Town Council met in Committee of the Whole last night, when there were present Mayor Davis, and Aldermen Sawers, McWilliams, Best, Weir, Langford, Neill, Hall and Denne.

Mr. Innes, representing the Charity Board, waited upon the council with a view to securing an office for the use of Relief Officer Miller. The matter was referred to a committee consisting of Aldermen Langford, Weir and Sawers.

Mr. John Green met the committee with a view to coming to an amicable arrangement with the town for damages sustained by him through blocking the right of way on Wolfe street by the Matthews Co's new siding. On motion the committee agreed to pay the same proportion of settlement as in the case of Mr. Harper.

Mr. John Dapte asked the Committee to allow him a further rebate on amount paid by him for market tolls for 1898. He based his claims on a loss of revenue arising out of changing the by-law to enforce the weighing of meat and potatoes, which amendment was made after his purchase of the said tolls. The matter was left in abeyance.

Contractor Evans asked for an immediate settlement of his account with the town for the construction of Dalhousie and Sherbrooke street bridges. Mr. Evans was instructed to prepare a statement of his claim, when the account will be paid.

A petition from the Prisoners' Aid Association for co-operation in providing treatment for pauper inebriates was favorably received, and Council will be recommended to vote a grant for the purpose.

The Peterborough Central Poultry and Pet Stock Association were allowed a grant of $30.

Board of Works.

The Board of Works will recommend advertising for tenders for snow plowing on all sidewalks but the granolithic.

Mr. Frank Smith's claim of $50 for damages by reason of the late impassible condition of Murray street was considered favorably.

Phrenology.

Prof. A. H. Welch, F.A.I.P., Consulting Phrenologist, is at the Oriental Hotel for a few days. Hours 10 a. m. to 10 p. m. Consult him now and make your future a happy success. Ushers will take you to his parlors when you enter hotel.

SPORTING GOSSIP.

Arthur Poe, Once More a Hero on the Gridiron.

For the second time in his career Arthur Poe, of Princeton, gains the coveted honor of being the foot-ball hero of the year. He won fame in the Princeton-Yale game last year by capturing the ball when it was in dangerous proximity to the Tigers' goal and running almost the length of the gridiron for a touchdown that brought victory to his team. In the mighty struggle of Saturday last at New Haven, when the colors of old Eli were trailed in the dust by the Princeton eleven by a score of 11 to 10, it was young Poe who carried the day for the Tigers, when, in the last minute of play, by a magnificent effort, he kicked a goal from the field.

Poe comes of a family the most famous in American foot-ball history. He is the fifth successive brother who has played on Princeton's elevens. From 1887 to the present time there has been an unbroken line of Poes who have helped to plant victory on old Nassau's banner. All the brilliant players, although short and rather slight of build. This is the third time that a Poe has been responsible for defeating Yale. There is still another Poe at Princeton, Gresham, who gives promise of keeping up the family reputation in the foot-ball line.

A new league is on the tapis composed of the following clubs—Campbellford, Keene, Lakefield, Norwood, Peterborough Lakeviews and Millbrook. Delegates from the above clubs will shortly meet and arrange a schedule of games.

Peterborough's senior team promises to be stronger than ever this year.

St. Paul's Concert.

Conspicuous among the artists of the season so far is Holmes Cowper, tenor. This gentleman has proved himself worthy of the advance notices concerning him. Mr. Cowper delighted the people by his artistic work. He keeps a lot in reserve and does not give all that he has to his audience—a most commendable trait.—Musical Courier.

Holmes Cowper, coming a comparitively unknown tenor, made a reputation in one appearence that can hardly fail to secure for him future engagements. He was an instantaneous success. His voice is smooth and rich, his style artistic, and his stage presence pleasing. Beginning with an aria from Faust ("Salve Dimora"), he was obliged to respond to a double encore.

Mr. Cowper in an aria from "Faust" won an immediate success. He has a wonderful tenor voice, with all the richness and warmth of a baritone. Each tone, from the lowest to the highest, was round, full and sweet. Mr. Cowper came here a stranger, but with such a beautiful voice, cultivated and under perfect control, he is sure to be in demand. He received a double encore. The audience were even then loath to let him go.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

THE MACFARLANE WILSON CO.
LIMITED
China Hall and Silver Bazaar.

LITTLE LOCAL LINES.

"SUFFERED UNTOLD MISERY."

South American Rheumatic Cure Thwarted Disease and Cured Him Outright.

Robert E. Gibson, merchant, Pembroke, says that ten years ago he contracted rheumatism in a very severe type, suffered untold misery—resorted to fly-blisters and other severe treatments with no lasting good or relief. When hope of recovery was well nigh gone he was induced to try South American Rheumatic Cure. The first dose gave him instant relief, half a bottle cured him outright. His own words were—"It is the best rheumatic remedy on earth." Sold by Ormond & Walsh and H. S. McDonald.

ASHBURNHAM BRIEFS.

The canal attracts a considerable number of visitors daily.

Messrs. W. J. Johnston and J. H. Smith are mentioned as likely candidates for the Ashburnham Council at the coming municipal elections.

The Times is read by nearly everyone in the village. The midnight despatches are what everybody looks for.

The steamer City of Peterborough is sitting high and dry on the shore of the lake

The Calcutt Brewery company report a splendid year's business.

Lecture in Y.M.C.A. Hall.

Another crowded house greeted Prof. A. H. Welch, F.A.I.P., last night to hear his lecture on phrenology, which was very interesting. The Prof. handled the subjects in a very masterly manner. At the close of the lecture he portrayed the characters of a young lady and three young men. After hearing the readings they thanked the professor and testified to the audience that he had read them like he would an open book, and not only that, but told them many things which will be a benefit and a guide in their lives. To-morrow night he lectures on "Large Heads, Small Heads, Idiots, and Why So."

CELEBRATED EYE SPECIALIST.

Visit to These Districts of Prof. DeSilberg, Specialist, from Germany.

Prof. J. H. DeSilberg will be in Peterborough from Monday December 4th to Saturday, December 11th, and may be consulted at James Lynch's Drug Store, 168 Hunter St.; from Wednesday, Dec. 13th to Saturday Dec. 16th, will be in Lakefield and may be consulted at Dr. Burgess' Drug Store. All consultations are free of charge. Those having weak or imperfect eyes should not fail to consult the professor. Satisfaction guaranteed.

Latest War News.

The Times contains the latest war news, giving exactly the same despatches as the Toronto morning papers contain. We hope those who desire a bright and newsy morning paper in the town, to give us their patronage. Delivered for 25c per month.

Friday Night's Concert.

The Globe has the following: —"If Miss Edith Miller's success as a vocalist is to be measured by the success of her song recital on Saturday evening, she has a brillant future before her. Rarely has such a delightful musical programme been rendered in the pretty hall, and rarely has a young artist attracted such an audience of social and musical leaders, critics and journalists, which filled every part of the building. Miss Miller's part was a heavy and exacting one, comprising ten numbers, besides encores, and she is entitled in consequence to a corresponding meed of praise for fully measuring up to the anticipations of her hearers. The advantages of her recent studies in Paris and London were apparent in a wider range of voice, a clearer intonation and a perfect self-mastery. The selections from the great oratorios were the best revalation of her vocal powers. The recitative and air, "My Heart is Weary," procured for her a double recall and an encore, while a selection of old English and Irish ballads and lullaby songs proved the exquisite sweetness of her tones. Beethoven's "In Questa Tomba" may also be singled out for special praise; indeed, it is no exaggeration to compliment Miss Miller on the undoubted success she achieved in her whole programme." Miss Miller, Mr. Holmes Cowper, tenor; Mr. W. S. Jones, organist, and St. Paul's church choir will present a grand programme of sacred music in St. Paul's church on Friday evening, Dec. 8th. Tickets 25 cents.

Yaqui War Continues.

Ortix, Mex., Dec. 6.—A courier has just arrived here from the scene of the Yaqui war with despatches from Gen. Torres for the War Department. This courier reports that the fighting between the Yaqui Indians and Gen. Torre's troops ceased November 28, the Indians retreating towards Tonichi. Several hundred Yaquis, who have been strongly fortified in a position near Sahuripa, it is thought, are preparing the join the main bodies of braves driven back by General Torres. Signal fires indicate a concerted movement by the Indians are being planned. The courier says the Yaquis' losses in killed and wounded during the ten day's engagement was estimated at 228. The Mexicans losses were fifteen killed and thirty wounded.

NEXT YEAR'S COUNCIL

The Result of Tuesday's Vote for Mayor and Aldermen.

Fire on Sherbrooke street

Shortly after two o'clock this morning a fire occurred on Sherbrooke street in the outbuildings in rear of the residence of Mr. Wm Hamilton, grocer. A Times representative seeing the blaze gave the alarm by telephone from the C. P. R. station, and the fire brigade arriving soon after had the fire under control in a few minutes. The family, unconscious of their danger, were awakened by Nightwatchman Finnie. The horses were hastily taken out of the stable, next to which the fire was raging. The loss will not be very great.

Composition of Lyddite.

What is lyddite? The high explosive thus called from the name of the small Kentish town and gunnery centre, where the experiments with it were made, is nothing less than picric acid brought into a ddense state by fusion. Picric acid is a bright yellow substance freely used in peaceful industries for ddyeing purposes. It is obtained by the action of nitric acidd on phenol or carbolic acid. It burns very violently, and owing to the tremendous blast prodduced by the exploson, the destructive effect of a bursting shell filled with it is some eleven times greater than that of a shell filled with powdder.

Common shells of forged steel filledd with lydddite are used with 6 and 9 2-inch breech-loading guns, andd with howitzers; also with 4 to 6 inch quick firing guns. Now, we have none of the first mentioned for landd service proper, guns of precicion up at the front; neither has we vyet despatcheild any of our field howitzer batteries. Therefore the lydddite shells of which Joubert complains must have been fired from the 4 to 6-inch quick firing guns which the naval brigade so opportunely brought with them. In fact, the fighting around Laddysmith on Monday, October 30, must have witnessed the Boers first introdduction to lydddite, for the common shell fired by our field batteries—andd up till then the enemy had not hadd to face any other kind of gun—are not charged with it, but with powdder.

All lyddite shells are equipped with percussion nose fuzes only; hence their exploson taikes place on impact in the following fashion: The percussion fuse ignites the bursting charge of lyddite, the ddetonation of the fuse and of the two explosives inside the shell being instantaneous. The picric powder exploddder, we should add is inserted in a recess left in the lydddite for that purpose. Lydddite shell is to some extent less barbarous than shrapnel explodedd by powder, for, though widespreddad, its death-dealing effects are due more to air concussion than to the wounding effects of theflying fragments. In other words, in the case of a lyddite shell bursting in a group of men, the greater number will be killed not by pieces of the shell, but by the blow of the suddenly compressed air.

Run in the Profession.

Toledo, Ohio, Dec. 5.—Captain E. A. Abbott, of the United States secret service, this morning identified in Cyrus Davis, arrested here on Thanksgiving day, Charles Johnson, one of the last of the Johnson family, which has been counterfeiters through three generation. The gradfather of the Toledo prisoner was the first counterfeiter of Canadian currency, and died in a Dominion prison. Twelve years ago Johnson was arrested at Detroit for uttering a "Grant five." He escaped, fled to Canada, was arrested and served ten years for counterfeiting the "Commercial tens," the finest bit of counterfeiting on record in the Dominion. Captain Abbott found an outfit in Johnson's possession. The counterfeiter was to-day held to the Federal jury.

Put Poison in the Food.

Bowmanville, Dec. 6.—The entire country side is up in arms over the disgraceful conduct of four young men who, on Sunday, diguised with masks entered the dwelling of J. Frank Osborne, two miles east of Bowmanville while Mr. and Mrs. Osborne were absent, and after driving the servant girl upstairs began to destroy the furniture. After cutting the carpets, destroying valuable pictures, etc., the visitors attempted to poison the family by mixing Paris green with the flour, oatmeal and other breadstuffs. They spread the poison on pies, bread and apples, and then decamped,, but returned later when the family had retired, and endeavored to burn the house and its occupants. Suspicion points to one young man in the village as being one of the culprits, and a warrant has been issued for his arrest.

Netting in Lake Simcoe.

Barrie, Dec. 6,—The Board of Trade passed a resolution last night to join other places on the lake in memorializing the Ontario Government to appoint one fishery inspector for Lake Simcoe, instead of the half-dozen at $100 each. Netting is going on continually, two barrels of netted fish having been delivered in Allandale this morning.

CHATHAM, ONT.

CANADA'S GREATEST SCHOOL OF SHORTHAND AND BUSINESS

PUBLIC SCHOOL TEACHERS SHOULD NOTICE

This Institute has prepared over seventy teachers for other Business Colleges and Commercial Schools in Canada and the United States, more than twice as many as all other Business Colleges in Canada, combined, have so placed.

The proprietors of five of the leading business colleges in Western Ontario, who are to-day among our strongest opponents in the field of Shorthand and Business training, received THEIR training under the Principal of this institution. Besides these, there are five others holding leading positions as teachers in Business Colleges in [illegible].

Since [illegible] of our pupils have acquired positions as teachers in Business Colleges and Commercial Schools in Canada and the United States; another is now negotiating for a similar opening in a Business College in a leading American city, and there are five unfilled calls of this kind on hand still.

DOES IT NOT PAY TO ATTEND THE BEST? You must decide.

[illegible] of our pupils secured good positions in seventeen months, and the good work of placing our students still continues.

For catalogue of either department address

PREPARATIONS ARE COMPLETED FOR RELIEF OF LADYSMITH.

General Buller's Arrival at Frere is Held to Indicate Preparations to Relieve Ladysmith Are Complete

AND STIRRING NEWS WILL SOON BE HEARD.

Gen. Methuen Communicates Nightly With the Besieged Town of Kimberley—Three Thousand Men For Gen. Cronje. Ladysmith Signals All is Well.

(Special Despatches to The Times, 3 a.m.)

Pietermaritzburg, Tuesday, Dec. 5 General Buller and his staff have started for the front.

Modder River, Monday, Dec. 4. A searchlight message from Col. Kekwich at Kimberley says that the town is provisioned for thirty days and forage for thirty days, and has a plentiful water supply.

London, Dec. 8. The Berlin correspondent of the Daily Mail says; The German steamer Konig has just arrived at Lourenzo Marquiz with the German and Dutch red cross contingents. She has also thirteen German, two French, and one Swedish officers, who are going to join the Boers.

London, Dec. 8. The Daily Mail publishes this despatch from Mr. Julian Ralph at Modder River, who says, the Kimberley people are troubled by the necessity of feeding ten thousand Basutos in diamond field, whom the burghers refused to allow to depart, and who should they fail to get enough to eat would become very restless.

On the night of the battle at Modder River, Kimberley, missing the accustomed signals from here was in great anxiety fearing that we had been defeated. The fact was that we did not use our searchlight for fear the Boer guns would wreck the apparatus. Five hundred and thirty British were killed or wounded in the battle here. That number has already been accounted for, and the enemy's losses were probably much heavier.

Modder River, Dec. 3. Gen. Cronje, who is concentrating below Speyfontein, about six miles north of here, has been reinforced by 3,000 Boers from Natal.

The new bridge over the Modder River, which is being constructed by the engineers, is rapidly nearing completion. Gen. Methuen is waiting on this to get the artillery across, when he will be in condition to advance on the last stage to Kimberley. Some naval guns with lyddite shell are expected here shortly. Methuen has been reinforced by the 12th Lancers, and more field guns have arrived together with tents and stores. It is expected that the rest of the reinforcements will be here in another week. Twelve of the British wounded died yesterday. A few cases of fever have appeared, probably because of the corpses in the river. Consequently the camp has been shifted back. The morale of the troops is excellent.

London, Dec. 8. A special despatch from Kimberley dated Nov. 29 says; As a result of signals from the relief to the south and of certain movements on the part of the Boers, Col. Kekewich determined to make a sortie with a view of keeping a large force of Boers employed here.

Yesterday afternoon a portion of the garrison with artillery under Major Chamier, and mounted troops under Major Scott-Turner, advanced south west towards the Boer positions and captured Carter's Farm, which completed the line it was intended to hold in view of Lord Methuen's early approach.

Major Scott-Turner then turned his attention to the Boer laager, which he captured in fine style, in spite of the enemy's heavy fire. All the camp equipment was captured or destroyed. Finally the British stormed the ridge and captured three redoubts after severe fighting.

In leading the men who were storming the fourth redoubt Major Scott-Turner and Lieut. Wright were killed. It is alleged that they were struck by explosive bullets. The death of Major Scott-Turner compelled the British to retire upon Carter's Farm. The whole affair lasted four hours."

London, Dec. 8. General Buller's arrival at Frer is held to indicate that all the preparations for an advance to the relief of Ladysmith are complete, and that stirring news will soon be received. The fact that Lord Methuen is announced as resuming his command at almost the same moment is interpretated in some quarters to mean that battles will be fought simultaneously in Natal and Spytfontein It appears doubtful, however, whether General Methuen's force is yet ready for what will evidently be a heavy encounter.

The construction of the temporary bridge across Modder River has entailed enormous labor; and even now, the structure is liable to be washed away, should a heavy storm come. Lord Methuen has been obliged to move his camp a mile north in consequence of the unsanitary state of the stream, due to the presence of the bodies of dead Boers. As the railway bridge was completely destroyed, he has been compelled to leave a considerable force to protect his communications.

A special correspondent sends the interesting information regarding Boer tactics that commandant Gen. Joubert has given general orders to reserve fire until the British are within the close range of 400 yards. At the Modder River battle the Free State burghers became nervous, opened fire prematurely, thus revealing their position and frustrated the Boer plans.

The Morning Post publishes an article warning the British public that the disillusionment already experienced respecting the Boer forces in Natal is likely to be repeated on the western border. It says that men are wanted everywhere, and asks why the splendid body of twenty thousand Royal Marines is now being employed in sweeping floors and washing paint in England and is not sent out to handle the naval guns instead of the hurriedly trained men, unfamiliar with these weapons, who have gone.

The Government has decided to despatch to South Africa at the earliest possible moment a cavalry brigade of about 4,000 men

At the Modder River battle the fire

KIMBERLEY ALL RIGHT.

London, Dec. 7.—The War Office has received the following message from General Forestier-Walker, the British commander at Cape Town: "Wednesday, Dec. 6.—General Methuen wires to-day that he has resumed command, and is nightly in communication with Kimberley. The health of the troops is excellent."

REPORTED BRITISH SUCCESS.

London, Dec. 7.—A story was current at Durban on Tuesday December 5, to the effect that the Boers had made what was thought to have been their final effort to capture Ladysmith on December 4, that they had been defeated and had retreated. As the story was brought by runners, it should be received with caution, as the unreliability of these "Kaffirgrams" is notorious. According to this report the Boers opened a furious bombardment during the morning of Dec. 4. After several hours the British silenced the Boer guns, made a sortie and hard fighting followed, the Boers retreating after very heavy losses, estimated in hundreds.

It is reported from Orange River to-day that 107 dead Boers were taken to Kaffirskop after the battle of Belmont.

The despatch from Frere camp partially confirms a retirement of Free State burghers from the vicinity of Ladysmith, but does not indicate that the retreat was the result of a defeat on the previous day, while the statemen tin the sam edespatch that the Boers aer efiring into Ladysmith shows the Boer guns were still active.

It is also pointed out that all suggestions of weakening refer to the Free Staters. Apparently the Transvaal Boers are still full of fight, though it is reiterated that they are short of supplies. According to a despatch from General Schalksburger's laager, dated Dec. 3rd, the French and Austrian military attaches had arrived there while the German attaches had gone to join the Boer forces along the Tugela river, where a collision was momentarily expected.

The Great Battle.

Perhaps an explanation of the retirement of burghers from Natal can be found in a despatch from Modder River, Dec. 3, saying that a strong Boer force estimated to number 3,000 men were reinforcing General Cronje from Natal. The same despatch says that everything points to the fact that a great engagement will be fought at Spyfontein. The Boers are massing on the hills there vigorously building stone defences and are digging rifle pits in every direction. The Boer redoubts on Lazaretto ridge, west of Kimberley, are also being extended and strengthened, showing that the rumors of the intentions of the Boers to abandon the attempt to stem General Methuen's advance are unfounded. The British have shifted their camp a few hundred yards away from the battle field and are settling down for a week. There is undoubtedly a large concentration of Boers ahead of General Methuen. Practically the whole of their Mafeking forces have joined the Kimberley besiegers.

RUMOR ABOUT LADYSMITH.

London, Dec. 7.—A rumor on the Stock Exchange here to-day that Ladysmith has been relieved aided the market and cause dnoisy bidding for South African securities.

PRESIDENT STEYN MOVES.

London, Dec. 7.—The announcement is made in a special despatch from Bloemfontein, dated Sunday, Dec. 3, that President Steyn of the Orange Free State has joined the Boer forces at the Modder River. His appearance it is added, caused great enthusiasm among the Boers. The source of the information is doubtful.

THE BRIDGE A COMPLETE RUIN.

Pretoria, Dec. 6.—Official despatches received here from the different Boer forces say that all is quiet except at Kimberley when can armored train made a sortie this morning. The Orange Free Press has proclaimed the annexation of Dordrecht, about fifty miles north of Queenstown, Cape Colony.

The Tugela bridge is so completely ruined that it will be a work of great magnitude for either belligerent to restore it. The British fired on some republican scouts of the Tugela this morning. There were no casualties.

A newspaper correspondent named Lynch, who entered the Boer lines at Ladysmith on Monday with the alleged purpose of exchanging newspapers has been made a prisoner and will be brought to Pretoria

FARMERS JOIN THE BOERS.

London, Dec. 6.—The Boer advance in the northeastern part of Cape Colony is becoming remarkable. The local farmers are flocking to the Boer laagers, the townspeople in many instances welcoming the invaders with every demonstration of joy. The annexation of British territory proceeds daily. The reported Boer successes have made a great impression among the Basutos.

Advices from Pretoria say the Government has allowed two cable messages to reach Winston Churchill.

The mint at Pretoria is coining a hundred thousand sovereigns monthly.

The War Office has been notified that the British had five killed and 25 wounded in the sortie from Kimberley, November 25, including three colonial officers.

Special despatches from Lourenzo Marques, dated Thursday, December 5, says President Kruger is only prevented from going to the front by the objections of the members of the Executive Council. Mrs. Kruger is ill.

MAFEKING STILL HOLDS OUT.

Mafeking, Nov. 27.—The Boers continue the investment of the town, but are raiding the back country in preference to attacking our position. They have raided cattle belonging to the Barralong tribe in the Molopo valley and th enatives are therefore disinclined to remain idle.

Should the Mafeking garrison eventually enter the Transvaal there would be great danger of a general rising of the natives, there not being a force available to check it.

The past few days have been quiet. There has been the usual amount of shelling and sniping, but the Boer force here is not of great strength, every available man having been called to Natal

It is six weeks since Mafeking was beleaguered, yet though commercial intercourse with the outside world has been impossible, prices are very little above the normal. Distress is wholly absent. Danger is largely a question of accident.

Mafeking was stored with provisions by Government contractors, and the defences were equipped by Colonel Baden-Powell. The Boers' acquaintance with th eforce here is thedetermining factor of the close investment but it is impossible for them to capture the town

FRANCE WANTS TO FIGHT.

Paris, Dec. 6.—The Petit Journal says to-day that M. Delcasse, Minister of Foreign Affairs, has received proof that the disorders which resulted in the murder of French naval officers, at Kwang-Chao, China, recently, were fomented by the British.

The paper urges Delcasse that now is the time for France to avenge Fashouda.

The whole French press is urging war with England, which the Figaro calls a giant with feet of clay.

The Echo de Paris says England's navy is her onlu line of defence, and this is 'vul'nerable, because it is at the mercy oft he elements.

Admiral Dupont, in The Gaulois, urges the immediate completion of the naval plans and the voting of credits to prepare the French fleet for war.

YOUNGS' LATEST BATTLE.

Washington, Dec. 7.—To the relief of the War Department General Young has been heard from after a week's absence in the interior of Luzon. General Otis cabled this morning as follows—

"Manila, Dec. 7.—General Young reports his arrival at Vigan on the evening of the 5th, having encountered a force of the enemy at Narbacan, 12 miles south of the city, whom he drove to the eastward of the same into San Quentin canyon. His troops are now pressing them back. Country is extremely rough and strongly entrenched. About 600 prisoners who escaped reported that the insurgents allowed all but the American and prominent Spanish prisoners to escape from Bangued. Later, the insurgents were driven back into the mountains. Will send transportation with subsistence and medical supplies to Vigan to-morrow to bring the prisoners to Manila and to supply Young's troops with necessary quarter-master's stores. Our casualties were one killed and 12 wounded, wounds most slight. Enemy left in trenches 28 dead, a few rifles, several thousand rounds small ammunition and forty shrapnel. Young has sufficient troops to meet all difficulties."

HUGH J. COMES OUT ON TOP OF THE HEAP!

The Government of Manitoba Completely Snowed Under as a Result of General Elections Yesterday.

The result of the general elections in Manitoba yesterday is a great surprise to all. Although it was generally conceded that the Opposition under such a popular leader as Hugh John Macdonald, would make a good run, even the most sanguine Conservatives did not expect that the Greenway Government would be so completely snowed under as a result of the popular vote. The returns showed twenty-three Conservatives elected as against fourteen Liberals, with one constituency more with one place to hear from, which will not materially change the situation. Thus the Manitoba Government is defeated by a majority of nine.

Owing to the lateness and the uncertainty of the returns the Times is unable to give the vote by constituencies, and below will be found the final result sent from Winnipeg at 2.45 this morning.

Toronto, Dec. 4.—2.45 a.m.—Latest from Winnipeg says Government 14, Opposition 23 One constituency more with one place to hear from. Elections in constituencies of Gomlie and Dauphin take place next week.

THE PAVING CONTRACTS

The Argument of Counsel at Yesterday's Session.

TOWN SOLICITOR ARGUES.

He is Very Easy on the Aldermen and Town Officials.

And is Also of Opinion That the Town Got the Benefit of Any Change Made in the Second and Third Paving Contracts.

The pavement investigation resumed yesterday morning before Judge Weller.

Ald. Langford was asked if he had any witness and in reply Ald. Hall went into the box. Ald. Langford questioned him Ald. Hall testified that the Council decided when Mr. Hay was engaged that he shoul dnot be interfered with by Aldermen individually or by the Chairman of the Board of Works, that he was to be allowed to follow out his own judgment. Ald. Hall stated that in the absenc eof fraud, he did not consider it Ald Langford's duty to report to the Board of Works the proportions being used. Ald. Hall also stated that he knew of no act of Ald. Langford's which was not consistent with his duty as an alderman. Even having regard to all disclosed in this investigation Ald. Hall was of the opinion that Ald. Langford had done his duty.

Mayor Davis was also put in the box. He stated that he looked upon Ald. Langford as one of the best and most reliable members of the Council and had every confidence in him. The Mayor stated to Mr. McWilliams also that as far as his judgment goes the contracts have been carried out according to specifications. Last year I saw sand put in under Mr. Belcher's supervision. I believe the contracts this year have been carried out. Mr. McWilliams questioned the Mayor as whether he would not have told Mr. J. Hayes, the contractor, what changes had been made and what changes would be allowed. The Mayor replied that he would give the whole information to every one. Mr. Langford asked "if you knew that there was no change, that the work was to go on just as it had been going on in the streets for months would you have considered it your duty to mention or explain it?" The Mayor replied that he would not. The Mayor also stated that he as acting chairman of the Board of Works had given Mr. Hay a free hand

Mr. McWilliams—Did you not interfere so far as to alter some of the grades?

Mayor Davis—That matter was brought up in the Council andit was decided that a committee of the Board of Works should confirm the levels. They were to be submitted to the committee. He had altered the grade near Oak Hall corner to save the town from a lawsuit by the Dickson Co.

Ald. Neill thoroughly endorsed the statements of Ald. Hall. "I must say that all your transactions in the Council have been most unselfish and most fair to others. I also regard you as one of the most capable aldermen," he stated, addressing Ald. Langford.

Ald. Langford—As I said before you will find the most sticks under the tree where the good apples are.

Ald. Neill—Oh, you're all right Langford.

Ald. Langford—Well, I consider where all this business comes from.

This concluded the evidence.

Mr. Edwards' Argument.

Mr. E. B. Edwards, town solicitor, then began his argument regarding the evidence. He pointed out that there has been put as the basis of this investigation a supposed "malfeasance, breach of trust or other misconduct," all of which words seem to be used to express the same idea. We have had members of the council, officers of the corporation and contractors brought before the Court regarding these charges. There is also a charge, said Mr. Edwards, that the contracts have not been fulfilled and that this non-fulfillment has been at the foundation of "malfeasance, breach of trust or misconduct."

The position of the town, said Mr. Edwards, is somewhat peculiar. The people of the town are interested in seeing that proper value is received for their money. The Council has sent this case up to His Honor the judge because of allegations made in the Council. The corporation is not interested in either condemning or acquitting. It desires to arrive at the truth and not necessarily in convicting anybody or acquitting anybody. The end will be served so long as the truth comes out, whether it establishes malfeasance or clears the air of all suspicions.

Mr. McWilliams, said Mr. Edwards, has since the beginning of this investigation, an din his character, as it were, of private prosecutor, formulated a charge of breach of trust against Ald Langford and against Mr. Hay of gross neglect amounting to misconduct

Several matters have been cleared up. The general charge which hung over aldermen an dofficials has been removed except as regards those two. The charge that the use of Ensign cement in th ecase was not in accordance with the contract has also fallen through. We are rid of that.

Mr. Edwards then took up the contracts of Mr. Sheehy and Messrs. Evans and Langford. The engineer is entrusted with large power and discretion. In the contract there is nothing to give anybody else such wise discretion. The power is not given to the Council or the Board of Works or the Chairman of the Board of Works to control the engineer. The engineer is to have power to decide between the contractors and the Council or Aldermen and his judgment shall be final. Personal fraud on the part of the engineer would take away from him the power of arbitrating between the town and the contractor. It is a matter of great importance to the town that the engineer shall retain this power. The requirement of an engineer is of the utmost importance to both parties because no action can be sustained by the contractor unless such certificate is given. The engineer is the officer who acts for the contractor as well as for the Council. The speaker held that he could not adopt and press the charges made by the private prosecutor with regard to these gentlemen. He did not believe that there was breach of trust on the part of the chairman of the Board of Works (Ald. Langford) or of conduct allied to breach of trust, viz. gross neglect, made against Mr. Hay. Unless personal fraud is brought home to the engineer that engineer remains sole arbitrator between the town and th econtractor. The chairman of the Board of Works has no standing between them and there can be no breach of trust by him. The engineer has power to use his judgment and whether we agreed with his judgment or not can make no difference in the case an dthere is no evidence to put upon Mr. Hay any suggestion of wrongdoing of Malfeasance or misconduct. It comes down to a question as to whether there has been sufficient neglect on th epart of Mr. Hay as to amount to malfeasance of breach of trust. If Mr. Hay went away and left his work altogether there would be. But as long as he attended to his work as well as circumstances allowed and saw that it was apparently going on all right it comes down to a question of degree of attention and the case must be looked at differently.

The question as to how the substitution of one part of sand for granite came about is an important one. The evidence on the first Sheehy contract shows a discrepancy between Mr. Hay and Mr. Ranney. But it seems that Mr. Ranney must be associated with Mr. Hay regarding this and as no charge is laid against Mr. Ranney it seems all the more difficult to substantiate a charge against Mr. Hay. If Mr. Ranney made any changes he did so without the authority of Mr. Hay. Mr. Edwards stated that in regard to both the second Sheehy contract and the Evans & Langford contract he was aware of nothing pointing to fraud on the part of the contractors or anybody else, except what might be in the fact that they followed the system, however established, which was used on the first contract.

There is a discrepancy between the evidence of Mr. Ranney and that of the workmen on the first Sheehy contract. The evidence is conflicting. The engineer is given power to add some sand. The inspector is not in terms given such power but he did exercise such power and reported it to the engineer and received his approval. Mr. Hay, however, states that it was not until they had got down some distance on Water-st. that he knew of the quantities being actually used. Then he adopted it and approved of it. He is the one with power to adopt it or not and with power to make a deduction if he did adopt it if he thought such deduction right, such power to lie in him in the absence of fraud on his part. Mr. Ranney testified that he himself fixed the proportion of sand with the finishers, but states that he was not aware of the quantity of cement used until he heard Mr. Bartlett's statements. On Aug. 7th, however, Mr. Hay approved of the change and the question comes to be whether he had authority. If he exercised it honestly it must be accepted as conclusive and it comes to be a question for him as to how much shall be deducted, if any, from the contractors afterwards. The question of fraud or wrongdoing on his part seems to be eliminated. If we drop that branch of the enquiry with regard to him it will be dropped also with regard to members of the Council.

With regard to the second and third contracts there appears to have been a knowledge that sand was to be added. The contractors all stated that they knew sand was to be used and the town has got the benefit of the reduction in price caused by the reduction, as it might be called, in specification. The evidence shows that the second and third contracts were bona-fide entered into and the town received the direct benefit.

If a gain to the contractors in the execution of the work is established it does not follow necessarily that there is a loss to the town as several thousand dollars have been kept back to be deducted by the engineer if he sees fit. That question will be decided by him provided there has bee nno fraud by him. If fraud appears on the part of any contractor His Honor's duty shall be to report it. Mr. Edwards stated that he found it difficult to express an opinion on this point.

The court adjourned for noon, Mr. Edwards to resume his argument at two o'clock.

Duke Summoned Home.

New York, Dec. 7.—It is announced here that the young Duke of Manchester, who arrived here a few days ago from England has been hurriedly recalled by a cable from his mother, the Duchess of Manchester, announcing that his sister, the young Lady Alice Montagu, is dying of consumption. The Duke is devotedly attached to his sister. The Duke will sail on Saturday.

Miller Not Arrested.

New York, Dec. 7.—Captain McCluskey, chief of the New York city detective bureau, when asked if Miller of the Franklin Syndicate had been arrested, said that he knew nothing of it, and declared that he did not believe it was true.

Toss Didn't Count.

Ottawa, Dec. 7.—Charles Roger and Wm Grant tossed for a suit in a tailor's establishment here. Roger won and ordered the suit. Grant refused to pay and the tailor took action against Roger. To-day Judge MacTavish refused to consider the tossing and decided that Roger should pay, leaving the merits of the copper-tossing contest to the parties concerned in it.

Eaten By Cannibals.

Vancouver, B.C., Dec. 4.—Details were brought by the steamer Warrimoo, from Australia, of the atrocious murder of a white man, and subsequent devouring of the body, by the treacherous cannibals of the Admiralty Islands. About a year ago two Germans, named Metz and Molte, opened a trading station on the Island of St. Andrew, in the Admiralty group, and did a profitable business with the natives. A short time ago Molte went to New Britain on business, leaving Metz with ten Solomon Island boys. Upon Molte's return he found that Metz had been murdered, together with four of his boys, and the bodies had been cut up, cooked and eaten by the savages.

Tolstoi Ill

London, Dec. 7.—A special despatch from Berlin says that Count Tolstoi has been seriously ill for two days. He was unconscious, but he is now slightly better, although great anxiety is still manifested in regard to him.

The Polar Bear

Is not more warmly clad than the woman who invests in a fur garment here.

Warm, durable and exquisite in taste, style and finish, these goods are unquestionably the best offerings of the season.

Morning Times

PETERBOROUGH, DECEMBER 6, 1899

MONEY IN IRON MINING.

In Hon. G. W. Ross' programme for the development of Ontario, as laid down in his Whitby speech, he made reference to the mineral deposits in the Province, pointing out that Canada does not produce enough iron for her home consumption ,and mentioning the extent of the world's demand for that metal. Even with liberal appropriations for surveys and explorations, it will take some time for Canada to become an exporter of iron But the present demand throughout the world is so great that the time is opportune for Canadians to find out what their country can supply to add to the general stock. A remarkable expansion has come over the metalurgical trades during the past twelve months. The most remarkable feature of this development is that it does not exist in isolated places, but in general all over the world. In Great Britain all the iron and steel works and engineering shops are fully employed; in the United States the productive capacity has had to be enormously increased to keep pace with the requirements; in France manufacturers can take no more orders; and in Germany a wave of unparalled prosperity has swept over all branches of the industry. The cause of this state of things is to be found, not only in the reawakening on both sides of the Atlantic, in the extension and equipment of railways, in the building of ships, and above all in the wonderful extension of the electrical industry, but more especially in the opening up of new countries, the development of hitherto unknown resources, and the construction of railways and bridges in all of the five continents. Russia is being opened up to industrial enterprise from the Baltic to the Pacific Ocean. China has been obliged to open the door to Western civilization, and Japan, Egypt and other countries are buying enormous quantities of material. These requirements are so enormous that the resources of Western countries are scarcely sufficient to satisfy them, and it is certain that for two or three years at least manufactures will have enough to do to supply all these vast needs. With such a heavy expansion of the metallurgical industry the consumption of iron has grown so enormously that it has, for the moment outstripped the supply. In Germany, the manufacturers of raw steel can only meet about half the requirements for 1900. The blast furnace proprietors have sold forward the whole of their production until the end of next year, and consumers who have not entered into contracts find themselves faced with the impossibility of getting any pig iron at all. Russia promises to become one of the biggest producers of ironstone, for as soon as adequate transport facilities are provided the magnetite deposits of the Urals will provide enormous quantities of metal for the native industry, while in the Caucasus there is plenty of iron ore, and it is possible that Siberia may reserve some surprises in this direction. British companies are prospecting in the North of Spain, where there is, undoubtedly, plenty of metal to keep her ironworks supplied for an indefinite period, and even at home recent researches have shown the existence of hitherto unsuspected deposits of ironstone. Ironstone mining, therefore, appears to be one of the most profitable branches of industry, and Canada should go in for a share of the profit to be made out of it.

A NEW PHASE OF THE INDUSTRIAL SITUATION.

The invasion of the ranks of the employed by the fair sex is getting to be an old story now, and does not excite the comment that it once did. Men are getting used to being crowded out of their jobs by sweet young things who desire to make a little money on the side wherewith to buy hair pins and perfume, and incidentally shirk the disgustingly prosaic occupations comprised in helping mother wash the dishes and make the beds. Social reformers, too, who see the ranks of the demi-monde constantly recruited from the ranks of the girls who work for a living and find it impossible to earn one owing to the cut-throat competition of their better-off-sisters, have well nigh given up the discussion of this particular evil and an effort to make pin money workers think where the practice will end, but a Boston despatch tells that the conflict is entering on a new phase.

In Boston, it seems the unmarried working women and girls have inaugurated a movement against married women who work in the big stores and restaurants simply to earn money to spend on dress, which the single women need for bread and butter.

A preliminary meeting of the unmarried working women has been held and the organization will be completed at a meeting this week. The first movement will be made against the employment of married women as noon waitresses in the down-town restaurants.

It is claimed by the single women that nearly every big cafe in the business district employs married women in this capacity.

After the restraunt forces have been thoroughly organised the girls will attack the larger stores and in this crusade they will ask the assistance of the association of Boston society women which has been formed to better the condition of the girls working in these stores, and the Young Women's Christian Association.

There is no earthly reason that The Times knows of why the married women shouldn't work in stores and factories, barring the occasional hindrance of the babies. The wife who sees her husband's wages cut in two as the result of some sweet thing's efforts to raise money for extra Christmas presents or a new bonnet, can scarcely be blamed if she seeks to restore the financial equilibrium of the household by earning a little money herself. More power to her.

NOTES AND COMMENTS.

The recklessness of the Yankee editor passes comprehension. One fearless individual, the editor of the Sycamore Advertiser, has every reason to fear being torn limb from limb before New Years. He is at present promoting a voting contest in his paper's columns to decide the question as to who is the most popular old maid in Sycamore. His paper will at Christmas present $5.00 to the one who receives the greatest number of votes before that date.

THE REV. DR. LOWRY DEAD.

He Composed "Shall We Gather at the River" and "I Need Thee Every Hour."

Plainfield, N. J. Dec. 5.—The Rev. Dr Robert Lowry, the author composer of religious songs, died this morning at his home, 902 Madison avenue. He was born in Philadelphia in 1826, and at an early age entered Bucknell University at Lewisburg, P.A. At one time he was the pastor of the Bloomingdale Baptist church, New York city. Subsequently for eight years he was the pastor of the Hanson Place Baptist church, Brooklyn. In 1869 he became professor of belles lettres at Bucknell University. Subsequently he was the Chancellor of Bucknell University. After he moved to Plainfield there was a division in the First Baptist church and a new organization was formed, of which he became the pastor. This led to the erection of the Park avenue Baptist church at a cost of $40,000. Dr. Lowry was always active in Sunday school work and held tenaciously to the distinctive views of Baptists.

His melodies are sung in every English-speaking land and some of his hymns have been translated into foreign tongues. He was once asked what was his method of composition. His reply was, "I have no method. Sometimes the music comes and the words follow, fitted insensibly to the melody. I watch my moods, and when anything good strikes me I jot it down, whether words or music, no matter where I am. Often the margin of a newspaper or the back of an envelope serves my purpose. My brain is a sort of spinning machine, I think, for there is music running through it all the time." Dr. Lowry considered "Weeping Will Not Save Me" as the most evangelical hymn he ever wrote. Some of his best known pieces are: "Shall We Gather at the River," "One More Day's Work for Jesus," "Where is My Wandering Boy To-night?" "I Need Thee Every Hour" and "The Mistakes of My Life."

In 1880 Dr. Lowry spent four months in Europe. He took a prominent part in the Robert Raikes Centennial in London. It is told of him that while in London he entered a church and took a seat near the door. Soon afterward, as it happened, the congregation began to sing one of his hymns. A person in the audience discovered the composer and he was led to the platform amid great enthusiasm on the part of the congregation. For a number of years past he held no charge owing to the fact that he was very deaf. Occasionally, however, he was induced to preach. He devoted most of his time to composing hymns. It was his custom to publish at Christmas and Easter a series of hymns. He was married twice. His present wife is a daughter of the late Judge E. W. Runyon. Three sons also survive him, the Rev. Harry M. Lowry, of Rahway, and Wheaton S. Lowry and Robert Lowry of this city.

A New Thieving Scheme.

Paris is enjoying the tale of something new in the methods of jewel stealing. A few days ago an elegantly dressed man entered a jeweler's shop there and asked to see some expensive rings. While he was examining them critically the shop door opened and a ragged and importunate old beggar woman hobbled in. The shopman hastened to eject the intruder, the customer in the meantime commenting severely on the negligence of the police in permitting begging. Nevertheless he handed alms to the poor old creature, who blessed him and vanished. After further examination of the rings the customer said he would call again. But just then the jeweller missed a ring worth 800 francs. Not finding it anywhere he accused the customer of having taken it. The result was such a storm of protest and of demands to be searched that the jeweler apologized humbly, and his visitor departed wrathfully. However, he informed the police of his loss. They arrested a drunken beggar woman in the course of the evening, and it turned out that it was she who had come into the jeweler shop. The man had arranged outside to give her 20 francs to come in and take a ring, which she was to give back to him afterwards. The police are still looking for the thief.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

World's Gold Supply Since 1860.

Of nearly $10,000,000,000 worth of gold produced in the world since the discovery of America, more than one half has been produced since 1860 and more than one-fourth since 1885. Or in other words, one half of the gold product of the last 400 years has been produced within 40 years and one-fourth within 15 years. These facts regarding the gold production of the world are presented by some compilations of the treasury bureau of statistics anent the temporary suspension of gold mining in South Africa and its possible effect upon the gold supply of the world.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 24th November, 1899.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

The GRAPHOPHONE

Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

A 20 h. p. Boiler and 7 h. p. Engine for sale in tip-top condition. Just the thing for a cheese factory or creamery. Apply at Times Office Peterborough.

THE FASHION PLATE.

Straight, full skirts continue to be used in making up sheer transparent summer textiles for slender waists.

The new corded taffeta silks in a great variety of summer colorings and effects are in favor for making up dressy shirt waists.

The black and white striped fabrics in silk or silk and wool effects, which impart length and slenderness to the figure, are uncommonly handsome and varied in design this year.

The pretty Tudor sleeve, cut off at the top and finished above the deep upward point with a small gathered cap of fabric matching the yoke or guimpe, is a model used on costumes and toilets of every sort.

On many of the costumes of foulard, figured taffeta or surah, drap de chine, drap d'ete, summer costume cloth, etc., the waist is belted at the back and on the sides, but in front is in jacket style, with tabbed ends falling below the waist line.

One of the most graceful summer models for a rather full figure, to use in making up organdie muslin, dimity, batiste and similar goods, is the new seven gored model, with a pretty demitrain, to be made up separately over a foundation skirt of exactly the same shape.

Skirts with closings at the side instead of at the back are now the most favored. If so arranged, the round waist or basque bodice can be permanently fastened to the skirt at the back, thus avoiding the time and trouble necessarily given to a waist and skirt differently laced or hooked.

White veiling or barege may be as elaborately trimmed as a white organdie. It will have as cool an effect, be nearly as comfortable on a hot day as cotton, and during a sudden change in the temperature the light wool gown will give the needed protection.

CURTAIN RAISERS.

Kyrle Bellew denies the rumor that he is coming to the United States with Henry Irving.

Rose Coghlan, who plays in "Mlle. Fifi," has patented a sunshade for use at the seashore.

A dramatization of "The Hidden Hand," by Mrs. Southworth, was recently produced in Chicago.

Digby Bell is to be seen in "Arizona." Next season he will be in one of Charles Frohman's companies.

Phoebe Davies has a belt made from Mauser shells found on dead Spaniards after the fight on San Juan hill.

Since Calve has her tombstone and Sarah Bernhardt her coffin, why do not certain would be players go and bury themselves!

At the Filipino theaters of Manila it is the custom to show appreciation by tossing coins on the stage in lieu of bouquets.

The German emperor's play, "Eisenzahn," means "The Iron Tooth," and, with his imperial pull, it should draw well.

Venie Bennett, sister to the late Alice Atherton and widow of the comedian John A. Mackey, will appear in the vaudeville theaters.

As an instance of how the romantic drama has revived abroad, no less than six companies are touring England with "The King's Musketeer."

It is stated that Reginald De Koven has received about $75,000 from "Robin Hood." Barrie will probably take $100,000 or more from "The Little Minister."

Aubrey Boucicault, who plays the husband in "Mlle. Fifi," is said to have inherited some of his father's talent as a playwright and is now finishing two plays which may be produced next season.

RECENT INVENTIONS.

A folding stepladder has recently come into use in which the legs and step supports are hinged at the center to close up when not in use, allowing the ladder to be stored in about half the space of the old ladder.

A carving knife sharpener and fork guard are combined in a Pennsylvanian's patent, the upper portion of the guard having two disks carried on spindles to rotate as the edge of the knife is drawn between them.

In a new bicycle tire the resiliency is obtained by hollowing the face of the rim deeply and stretching a strip of fabric across the face, with a ring of rubber or other flexible material suspended in the center of the fabric.

A pneumatic axle bearing for vehicles has been patented to take the place of inflated tires on road wagons, being less liable to puncture, the weight being carried by pneumatic rings placed inside drums surrounding the axle.

THE BOOKMAKERS.

Margaret Deland says the reads economics, history and the newspapers for instruction and novels only for entertainment.

R. W. Chambers, when not writing books, gives his time to many fads. He collects butterflies, designs uniforms and keeps up his painting.

FIRST BATCH OF WOUNDED.

London, Dec. 6.—The first batch of wounded soldiers from South Africa, numbering 120 men, arrived in the Thames today on board the British transport Sumatra, which left Table Bay about Nov. 15.

THE CAPITAL OF NATAL.

Sketch of the City to Which the Boers Are Advancing.

(Special To The Times.)

London, Dec. 6.—Pietermaritzburg, generally abbreviated to Maritzburg, is the capital and centre of government in Natal, situated seventy and one-quarter miles north-west of Durban, in the centre of a plateau, which forms the second terrace of the colony, 2,218 feet above sea level. It may here be mentioned that Maritzburg is only seventy-five and a half miles from Estcourt, which is the chief centre of Weenen country, now threatened by the Boers.

Pietermaritzburg is named after the two famous Boer leaders, Pieter Retief and Gert Maritz, who laid out the city in 1839. After the "trekkers" from the Cape entered Natal, the bulk of the [illegible], about 2,000, congregated at Bushman's Rand, the present capital, situated among hills on the ridge and sides of a gentle slope, which forms part of the north bank of the River Umsunduzi, a tributary of the Umgeni. Water was led down the streets, the erven, or plots, were surrounded by turf walls and planted with fruit trees or vegetables. Gradually houses—low, one-storied buildings—began to fill up the square, subdivided into blocks, formed in the town; and even in 1839 Pretorius described it as "a large, pleasant and well-watered town." In the centre of the city was the open space known from its foundation as the "market square," a rendezvous for countrymen arriving with their wagons on a pleasure visit or for business purposes, ere the era of the locomotive. In those early days Maritzburg was devoid of trees—a bare, desolate expanse. Now it is a city bosomed in trees, with with plantations on the neighboring hills.

To the north-west of the city, and 1,600 feet above it, is what is known locally as the Town Hall, an elevation in the third of the series of terraces rising from the coast. There are over thirty miles of streets, laid out in regular blocks. The population of Maritzburg, taken last year, was 20,155 comprising 11,300 Europeans, 6,156 natives and 2,700 Indians. The garrison, which is the headquarters of the Imperial troops in the colony, is situated at Fort Napier, on a kopje overlooking and commanding the city, from the south-west. The main line of the railway runs through the upper end of Maritzburg, just below the garrison, and in 1882 a commodious and central station was built there. Its dark brown soil, its red-tinted houses, its wild rose hedges and the abundance of trees give it the appearance of a large English village. But of late years extensive building operations have been in progress, villas of the modern English type are springing up in every direction. In 1892 the Town Hall was completed at a cost of over £50,000, and it was destroyed by fire in 1898. Other public buildings of importance are the Legislative Assembly, now utilized as a hospital; the railway station the post office, Supreme Court and market house. Outside the city, and across the Umsunduzi River, are the college and the Natal police headquarters in the colony. The college, presided over by Mr. R. D. Clark, M. A., an Old New College man, and colleague of Sir Alfred Milner, is a very handsome building, and the police barracks form a substantial block half a mile distant from the college. Maritzburg is well supplied with water, and the cost of the present system amounts to over £65,000. A large library supplies the literary wants of the capital, containing, as it does, over 12,000 volumes; the Government makes a grant of £350 per annum to this institution. There are several manufactories in the capital; a large brewery, which caters for the Imperial troops; a tannery, and wattle bark factories are among the industries of the city, which, however, mainly depends for its prosperity on its agricultural surroundings and the permanent garrison of Imperial troops.

Apart from the inadequate protection afforded by Fort Napier, Maritzburg has absolutely no permanent defences. Should the Boers, by any chance, be so venturesome as to attempt an assault on the "City of the Great White Elephant," the improvised defences should prove equal to the occasion. Guns have doubtless been brought up from the warships at Durban, and with the forces now stationed there, no fears should be entertained for the safety of the capital of Natal.

Best in the Profession.

Toledo, Ohio, Dec. 5.—Captain E. A. Abbott, of the United States secret service, this morning identified in Cyrus Davis, arrested here on Thanksgiving day, Charles Johnson, one of the last of the Johnson family, which has been counterfeiters through three generation. The gradfather of the Toledo prisoner was the first counterfeiter of Canadian currency, and died in a Dominion prison. Twelve years ago Johnson was arrested at Detroit for uttering a "Grant five." He escaped, fled to Canada, was arrested and served ten years for counterfeiting the "Commercial tens," the finest bit of counterfeiting on record in the Dominion. Captain Abbott found an outfit in Johnson's possession. The counterfeiter was to-day held to the Federal jury

Put Poison in the Food.

Bowmanville, Dec. 6.—The entire country side is up in arms over the disgraceful conduct of four young men who, on Sunday, disguised with masks entered the dwelling of J. Frank Osborne, two miles east of Bowmanville while Mr. and Mrs. Osborne were absent, and after driving the servant girl upstairs began to destroy the furniture. After cutting the carpets, destroying valuable pictures, etc., the visitors attempted to poison the family by mixing Paris green with the flour, oatmeal and other breadstuffs. They spread the poison on pies, bread and apples, and then decamped, but returned later when the family had retired, and endeavored to burn the house and its occupants. Suspicion points to one young man in the village as being one of the culprits, and a warrant has been issued for his arrest.

Weir Sentenced.

Montreal, Dec. 6.—Wm. Weir, president of the defunct Ville Marie bank, was sentenced to two years imprisonment, less one day, by Judge Wurtele this afternoon, for issuing false statements of the affairs of the bank to the Dominion Government.

Ministers' Movements.

Ottawa, Dec. 6.—Sir Louis Davies has returned to the city and is engaged in the consideration of the lobster fishery regulations.

Hon. Dr. Borden returns to the city to-morrow.

CANADIANS TO THE FRONT.

General Hutton Thinks Our Contingent Will Smell Powder.

Ottawa, Dec. 6.—General Hutton, though he has declined to talk for publication concerning the progress of the war or the tactics employed by our Generals, has taken a tremendous interest in the campaign from day to day, and, of course, has his theories as to the trend operations will take. The General did not hesitate to say yesterday that it has been his opinion all along that the Canadians would be sent north to De Aar or some neighboring point, where they will probably be given a week or ten days' stiff field work to harden them after their long voyage. It is certain that Col. Otter gave the men all the exercise possible on shipboard, but at best they must be pretty soft. The Gen. is quite confident that our men will smell powder and will have as active service as any of the corps. This morning General Hutton received a letter from Colonel Foster which strengthens him in this opinion. Colonel Foster wrote that he had an interview with Mr. Joseph Chamberlain during which the Colonial Secretary said inplain terms that the Canadians would be treated neither better nor worse than any other corps so far as field service was concerned. It is evident that the gentlemen who have been prophesying that the Dominion soldiers would be placed in garrison or in charge of supplies are entitled to another guess.

Off the Track on a Bridge.

Montreal, Dec. 6.—Just after the New York Central fast express, due here at 8.45, had passed over the Canadian Pacific Ry. bridge, near Lachine, a first-class car left the rails, owing to a defective frog. The engine and forward cars passed over safely. The train was quickly stopped and no serious damage resulted, though all eastern and southern trains were delayed, the Halifax express, due at 90.45, not reaching Windsor station until nearly 1 o'clock.

The track where the accident occurred is very high, being elevated for the approach to the bridge over the St. Lawrence.

Red Tapism

Ottawa, Dec. 6.—Some of the families of the Canadian soldiers in the Transvaal are finding some difficulty in getting their remittances from the department here.

The regulations provide that the wives shall receive 16 cents and each child 4 cents per day. General Hutton's recommendation is that wives receive 15 cents and children 5 cents.

The Auditor General refuses to pass the account until the matter is fixed. This and a number of other matters affecting the contingent will come before the Cabinet at once.

Netting in Lake Simcoe.

Barrie, Dec. 6.—The Board of Trade passed a resolution last night to join other places on the lake in memorializing the Ontario Government to appoint one fishery inspector for Lake Simcoe, instead of the half-dozen at $100 each. Netting is going on continually, two barrels of netted fish having been delivered in Allandale this morning.

Snap Shots With a Graphophone

The Graphophone is to the ear what the photograph camera is to the eye and more, for the gramaphone catches instantly and preserves every tint and shade of sound. A most interesting use of a gramaphone is to make records of your friends' voices to be preserved for future use. You can catch the story of your jolly friend just as he told it, or the favorite song of some loved one, just as she sang it and have it reproduced perfectly at any time and as often as you please. Besides the Graphophone affords wonderful entertainment in the way of reproducing the music of bands, orchestras or vocal or instrumental soloists. No investment will return so much in pleasure as the purchase of a Graphophone. It is the perfect talking machine. Write for catalogue No. 30 to the COLUMBIA PHONOGRAPH COMPANY, No. 313 Main street Buffalo, N. Y.

MEN OF ALL AGES

VIVID • HEALTH

Nothing is so rare as [illegible] vivid health. Many a man has paid the forfeit of sickness to the point of wealth. A loaded purse cannot atone for the deranged liver, the faltering step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO

Stimulants and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE [illegible] and will

Every bottle of this universal blood maker and flesh builder carries a positive GUARANTEE. Evidence [illegible] tells of hidden disease. A deranged stomach undermines the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries life and strength to every tissue, and gives back health where once lurked death. For sale from all druggists direct from the

BRITAIN'S STAYING POWER.

Over Eight Weeks Since the Ultimatum Was Sent.

(Special To The Times.)

London, Dec. 6—It is over eight weeks since the Boers delivered their ultimatum to Great Britain. Forty-eight hours later they commenced the invasion of British territory, east, west and south. They were fully prepared, having their forces massed on the frontiers and all needed supplies ready. Furthermore, they outnumbered the British forces opposed to them at least three to one, and had much heavier artillery. Yet with all these enormous advantages, what have they accomplished in the eight weeks that have intervened since October 9th? It is true that they have destroyed some railway bridges and torn up some miles of railway track along the Cape Colony frontier, but they have not taken a single place of any strategical importance. Kimberley, against which they sent their second largest force, is still in British hands and will soon become a British base of operations. Mafeking, 225 miles farther away from British succor than Kimberley, and with less than half its garrison, still flies the Union Jack, and successfully repels all attempts to take it. On the Natal side, where the largest Boer force under their most experienced officers has been hard at work for at least six weeks they have only succeeded in investing Ladysmith, but, so far as known, have made no serious attempt to capture it. For a few days they surrounded Estcourt, but are now falling back with the prospects very good for their being compelled to raise the seige of Ladysmith ere many days. On the whole, therefore, the war so far, with all the advantages in favor of the Boers, has only served to demonstrate the immence staying powers of the British.

COMMENTS OF THE TIMES.

It Approves of McKinley's Message Relating to British Relations.

London, Dec. 6.—The Times this morning editorially says of the President's message—The President shows the best of spirit in touching upon the relations between the United States and the United Kingdom. The delicate nature of the relations ending with Canada regarding the Alaskan boundary does not allow him to go beyond the expression of a hope that there will [illegible] agreement for the establishment and delimitation of a permanent boundary. Apart from this, however, a most friendly disposition marks the discussion of the numerous matters of importance between the United States and Great Britain.

"The benevolent neutrality which has been observed by the United States during our conflict with the Boers is only what might be expected from a nation in which international law has always been a favorite study.

"The President is looking in the right direction when he contends for the gradual creation of a constitutional system for the Philippines. To insist on a cut and dried constitution at this stage in the history of the Philippines would be no less absurd than to demand, before the war with the Boers had been fought out, that we should settle the future of the Transvaal in accordance with the views of some political theorists at home.'"

LATEST MINING NEWS.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as [illegible].

Write for maps and full particulars.

Composition of Lyddite.

What is lydddite? The high explosive thus called from the name of the small Kentish town and gunnery centre, where the experiments with it were made, is nothing less than picric acid brought into a ddense state by fusion. Picric acid is a bright yellow substance freely used in peaceful industries for ddyeing purposes. It is obtained by the action of nitric acidd on phenol or carbolic acid. It burns very violently, and owing to the tremendous blast predduced by the explosion, the destructive effect of a bursting shell filled with it is some eleven times greater than that of a shell filled with powdder.

Common shells of forged stell filledd with lyddite are used with 6 and 9 2-inch breech-loading guns, andd with howitzers; also with 4 to 6 inch quick firing guns. Now, we have none of the first mentioned, for landd service proper, guns of precision up at the front; neither has we yet despatchedd any of our field howitzer batteries. Therefore the lyddite shells of which Joubert complains must have been fired from the 4 to 6-inch quick firing guns which the naval brigade so opportunely brought with them. In fact, the fighting around Laddysmith on Monday, October 30, must have witnessed the Boers first introdduction to lydddite, for the common shell fired by our field batteries—andd up till then the enemy had not hadd to face any other kind of gun—are not charged with it, but with powdder.

All lyddite shells are equipped with percussion nose fuzes only; hence their explosion takes place on impact in the following fashion: The percussion fuse ignites the bursting charge of lyddite, the ddetonation of the fuse and of the two explosives inside the shell being instantaneous. The picric powder explodder, we should add is inserted in a recess left in the lydddite for that purpose. Lydddite shell is to some extent less barbarous than shrapnel explodedd by powder, for, though widespreadd, its death-dealing effects are due more to air concussion than to the wounding effects of theflying fragments. In other words, in the case of a lyddite shell bursting in a group of men, the greater number will be killed not by pieces of the shell, but by the blow of the suddenly compressed air.

THE BRITANNIA

CONSOLIDATED GOLD MINING COMPANY
OF ONTARIO, LIMITED

CAPITALIZATION:

$300,000.00 fully paid and non-assessable.

Par value of shares, 30c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,208 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controled by strong Montreal Syndicate.

Several hundreds of feet of work done.

Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.

A working property now producing bullion.

Assays are usually satisfactory, running from $3.00 to $400.00 per ton.

Mill runs show the ore to average $15.00 to $20.00 per ton. Last mill run (August 21, 1899), of 38 tons, gave $579.85, or $15.25 per ton. The next mill run is expected to exceed this value per ton.

EXHIBITS FOR PARIS.

Expected That the Canadian Quota Will Exceed a Thousand.

Ottawa, Dec. 6.—From present appearances the number of exhibits from Canada at the Paris Exposition will greatly exceed those sent to any previous exhibition, the World's Fair not excepted, if the stock exhibits are not counted. Up to the present time the total number of entries is over [illegible], and by the time the books are closed they are fully expected to exceed a thousand. It is not yet settled whether there is to be a live stock exhibit. Commissioner Perreault is obtaining information on this point, and will advise Professor Robertson, Agriculture Commissioner, as soon as possible, when it will be decided whether or not Canada is to exhibit in the live stock classes.

Lord Strathcona has cabled the authorities here that the contract for the supplying of the electric plant and light in the Canadian building has been awarded to a Paris firm. It was hoped that a Canadian firm would obtain the contract, but the tenders of the Paris companies, having the advantage of being on the spot, are much lower. The successful tender was $2,000 lower than that submitted by the Royal Electric Company, of Montreal.

Alleged Theft of $50,000.

Montreal, Dec. 6.—J. N. Fulton, a well-known account, who assigned some time ago, filed his statement this morning. The liabilities are over a hundred thousand dollars. Among the principal creditors are C. J. Richards, $12,000; Miss Napier, of Gloucester, Eng., $14,976; Dame S. Brossen, $10,400; Union Bank of Canada, $10,000. Mrs. T. J. Coristine, $11,000. Shortly afterwards Mr. Fulton was arranged before Judge Dranoyers charged with stealing different sums of money aggregating about $50,000, the property of Mrs. Elizabeth Reid Hawes, widow of the late Thomas J. Coristine.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

The Honest Johns Mining Company

has been organized for about 3 years, during that time, steady development work has been in progress with the result that the Company have got now about 3 feet of ore lead carbonate, about two and a half miles from the track and about [illegible] miles from the Le Roi Smelter at Northport. The average assay is about [illegible] in Lead and Silver

The Company are offering now a limited amount of Stock at 15c per share, which will be the last offered.

The Company owns three claims, with only a capital of [illegible] shares. If our readers want to get in to a first class proposition, that will ship in about [illegible] days, now is your time. Address

THE BOERS AND BASUTOS

Facts of Importance in View of the Threatened Uprising—Wars Between the Orange Free State and the Warriors on its Eastern Borders.

London, Dec. 6—The possibility of a Basuto uprising against the Orange Free State lends special interest to the history of the relations between the Free States and the tribe of warriors perched on the mountains on its eastern border.

In 1848, after the trek out of Natal across the Drakensberg and from Cape Colony declared the Orange River territory subject to the British crown. The Boers arose and were defeated at the battle of Boomplatz owing to their want of artillery; but the necessity of withdrawing the British troops required for the war with Russia caused the British government on Feb. 23, 1854, to recognize the inhabitants "to all intents and purposes a free and independent people, and their government to be treated thenceforth as a free and independent government."

In 1858, the Basuto chief, Moshesh, invaded the Orange Free State, and after several minor engagements a party of Boers were massacred at a place in the Basuto mountains called the Hell. Eighteen were killed and the rest retreated. In order to put a stop to hostilities Sir George Grey, governor of the Cape Colony, offered to arbitrate. His offer was accepted and a certain line was defined by him to be henceforth the boundary line between the Basutos and the Free State. This was made under President Boshof. When Mr. Brand was elected president it was found that the Basutos had encroached on the Free State; but the Basutos refused to move and Moshesh, the paramount chief, summoned his warriors to the number of some 30,000, who advanced, destroying everything before them. A heavy engagement took place at Brandfort and a number of Boers were killed near Winburg, in a battle fought there, and several Boer families were massacred on the hills above Newcastle. Although the Free State was only thinly populated at that time an army consisting of about three thousand men was raised and the Basuto territory invaded. After a sanguinary war in which thousands of Basutos fell before the Boer rifles, Moshesh sued for peace, and surrendered a large piece of land, now known as the conquered territory.

After this magnificent strip of agricultural land—the finest wheat-growing district in South Africa, with a capacity of from thirty-five to sixty bushels an acre—had been surveyed and was being occupied by the burghers, it was invaded by the Basutos, who drove them back. War was at once declared and Basutoland invaded by the Boers, who after several engagements compelled their enemy to sue for peace and pay a heavy indemnity in cattle. On the Boers once more occupying the conquered territory the Basutos again invaded it, killing many of the farmers. The Free Staters again took the field, determined to end the Basuto aggressions, and not to make peace until the Basutos were conquered. This last campaign was begun in August, 1867, and ended in 1869. During that period many heavy battles were fought. Makwaai's mountain, the Thiemi and Tandjesberg, noted strongholds of the Basutos, fell into the hands of the Boers by storm, and preparation was made for the final event, the storming of Thaba Bosiug, the famous natural fortress where the Basuto chief resided. Many times had this stronghold been assaulted by the various enemies of the Basutos. The Zulu hordes had been repulsed, and the warriors of Sayikonyelli had been driven in route down its precipitou slopes, while every effort of the British under Gen. Cathcart against it failed. Four times had the Boers been repelled and returned to the assault, with the loss of many brave men. But they were not to be denied, and were accustomed to victory, and had above all, so inspired the Basutos with a belief in their invincibility, that they felt certain of ultimate victory.

During all this long struggle the British Governor of Cape Colony, Sir Philip Wodehouse, had remained silent, never in any way interfering with either belligerent; but when he saw that the capture of Thaba Bosigo was almost a certainty and the extinction of the Basutos as a nation no more a matter of doubt, he issued a proclamation stopping the transport of ammunition into the Free State, following it shortly after by another declaring the Basutos British subjects, and threatening any found in arms against them with the penalty of death.

When this became known in the Free Staters' camp the British subjects who were assisting the Boers made up their minds to shoot the governor if he crossed the Orange River and ventured into Basutoland, and a copy of the resolution to that effect which was passed at a meeting held by them was sent to him. He, however, did not come into Basutoland, but reannexed by proclamation all the territory which the Boers had conquered to Basutoland. The Free State then sent a deputation to England, and succeeded in obtaining a portion of the territory now called the districts of Wepener and Ladybrand. By this act the British government violated the treaty known as the Sand River Treaty, entered into between the representatives of the Emigrant Farmers and Her Majesty's special commissioner, Major Hogg, and Capt. Owen. By it the Orange Free State and the Transvaal republic received the right of self government under certain conditions. One of its most vital clauses was that referring to the relations between the Boers and the natives surrounding them, England having undertaken to abstain from entering into any treaties to the detriment of the republics. The result was that in 1880 when the colonial force endeavored to disarm the Basutos it was only affected after great loss of life and expense. Had Sir Philip Wodehouse left the Free State to settle the Basuto difficulty that disastrous war would not have occurred, and Cape Colony would not have had to pay a contribution toward the government of the Basutos of $22,000,000 the interest of which the colony is still paying. This transaction has remained indelibly stamped on the memory of the Free State Boers, and is one of the reasons why they now mistrust the intentions of the British Government regarding the reported desire of the Basutos to invade the Free State territory.

RECORD-BREAKING CITIES.

Western Towns Which Have Claims to Distinction.

Leavenworth, Kan., stands at the head of American cities in the shipment of apples. Indeed, more apples are shipped from Leavenworth than from any other point on either side of the Atlantic ocean. In addition to the large number of local packers engaged in the business at this place, hundred of packers flock to Leavenworth annually from other parts of the country for the purpose of shipping away fruit. There are two immense cold storage plants in Leavenworth, one of which is built to accomodate 75,000 bushels of apples.

Denver, Col., enjoys the distinction of having more bicycles in proportion to population than any other city in the United States. Though Denver numbers only 150,000 souls within her city limits, she boasts of not less than 40,000 bicycles. Morning and evening alike, thousands of bicycles may be seen on the streets of Denver, mounted by men, women and children in every walk of life. Bicycles literally overrun things, and they are used in every line of business, and street car companies say they have lost $1,000,000 annually in traffic since bicycles have become the rage. Denver is glad to be the only city in the country where the bicycle vote controls elections on municipal issues.

Albuquerque, N. M., has the record of the greatest number of sunshiny days in the year of any town on the American continent.

THE NEW YORK WORLD,
THRICE-A-WEEK EDITION.

ALMOST A DAILY—AT THE PRICE OF A WEEKLY.

The most widely circulated "weekly" newspaper in America is the Thrice-a-Week edition of The New York World, and with the Presidental campaign now at hand you cannot do without it. Here are some of the reasons why it is easily the leader in dollar a year journalism.

It is issued every other day, and is to all purposes a daily.

Every week each subscriber receives 18 pages, and often during the "busy" season 24 pages each week.

The price is only $1.00 per year.

It is virtually a daily at the price of a weekly.

Its news covers every known part of the world. No weekly newspaper could stand alone and furnish such service.

The Thrice-a-Week World has at its disposal all of the resources of the greatest newspaper in existence—the wonder of modern journalism — "America's Greatest Newspaper," as it has been justly termed —The New York World.

Its political news is absolutely impartial. This fact will be of especial value in the Presidental campaign coming on.

The best of current fiction is found in its columns.

These are only some of the reasons; there are others. Read it and see them all.

We offer this unequaled newspaper and the Morning Times together one year for $4.00.

The regular subscription price of the two papers is $5.00.

WHAT WAR HAS COST.

Calculated That 1,200,000,000 Men Have Been Sacrificed in Battle.

Beginning with the Trojan war, which is usually regarded as the first chapter in European and Asiatic history, it is calculated that war has claimed 40,000,000 of men every century. In Europe alone the loss of lives every 100 years since the date of that war has been between 12,000,000 and 20,000,000. Three thousand years have elapsed since that opening chapter of history was unrolled, so that during these 30 centuries the almost in conceivable numbers of 1,200,000,000 men, women and children have been sacrificed to settle disputes concerning some few miles of territory, to gratify the ambition of some monarch, or to soothe the wounded vanity of rulers and states.

In the wars that waged between 1796 and 1815 no fewer than 1,900,000 men were killed outright or died from wounds or disease. In the campaign of 1828 the number was 120,000. In the Crimean war the losses sustained by the four countries which participated amounted to the terrible figure of 600,000. In 1859 the French and Austrian forces suffered to the extent of 63,000, while in the civil war in the United States the victims numbered 656,000. The Franco-Prussian war caused the death of 290,000 and the Russo-Turkish war meant death to 180,000 men.

In order to show the fearful carnage that may be wrought in one battle, two instances in recent wars are cited. In the battle of Gravelotte, in 1870, the combined loss of the French and Germans were 44,000 men kil'ed, and in the two chief attacks on the stronghold of Plevna, so gallantly defended by the Turks under Osman Pasha, the Russians and their allies lost 30,000 men, independent of those who died from wounds after the battles.

Sheriff' Invitation to a Hanging.

They do things in original style out in Arizona. On December 8 next the sheriff of Navajo county will be called upon, in the line of duty, to hang one George Smiley, and he proposes to do it to the Queen's taste. The invitations to the affair, issued in great numbers by the sheriff, read: "You are hereby cordially invited to attend the hanging of one George Smiley, murderer. His soul will be swung into eternity on December 8, 1899, at 2 o'clock p.m. sharp. Latest improved methods in the art of scientific strangulation will be employed and everything possible will be done to make the surroundings cheerful and the execution a success." Some weeks ago Smiley was discharged from his position on the Santa Fe road by Section Foreman Sweeney. He followed the man who had injured him and shot him in a railroad eating house at Winslow. It is for this that the sheriff's little party is to be given.

A KIND NEIGHBOR.

The kindest and most neighborly thing one woman can do for another in case of sickness is to tell how she herself was brought out of trouble and distress; and urge her neighbor to seek the same remedy. Hundreds of thousands of mothers have cause to bless just this same kind, neighborly spirit which actuated Mrs. Wm. S. Vollmer, of Concord, Cabarrus Co., North Carolina.

"We moved here to Concord, N. C., [illegible]," she says, in her communication to Dr. R. V. Pierce, of Buffalo, N. Y. "A little girl here was in dreadful health. We told her folks about Dr. Pierce's medicines. I knew what they had done for us. Her parents bought a bottle of his 'Golden Medical Discovery' and of 'Favorite Prescription' and one of 'Pellets.' The patient has improved wonderfully after taking these medicines. I wish everybody knew the great virtue of Dr. Pierce's medicines. I have been using them in my family for three years and always with success.

"I will be pleased to have my letter published. If persons wishing to know more about the great benefits we have received from using Dr. Pierce's medicines will write, enclosing stamp, I will gladly answer."

Every mother of children ought to possess Dr. Pierce's grand book, the People's Common Sense Medical Adviser, a magnificent thousand-page illustrated volume. It teaches mothers how to care for their children and themselves. It is the best doctor to have in the house in case of emergency. Over half a million copies were sold at $1.50 each, but one free copy in paper-covers will be sent on receipt of 31 one-cent stamps to pay the cost of customs and mailing only; or send 50 stamps if you prefer a heavier, handsome cloth-bound copy. Address the publishers, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

A Good Bargain.

A five volume set of the great work, "The Canadian Album; Men of Canada," bound in Seal Grain Leather, and containing 500 pages in each volume, sizes 8½ by 10½. The set will make a beautiful Xmas present. It deals with religion, patriotism, business, law, medicine, education and agriculture, containing portraits of some of Canada's chief business men, &c. We invite inspection. The set will be sold for fifteen dollars, but is worth twice what we ask for it. Times Bookstore.

Morning Times

PETERBOROUGH, NOVEMBER 15 1899

TOWN AND COUNTY NEWS

As Others See Us.

Lindsay Post:—Things are going the curlers' way just now and the 125 members of the Lindsay club are happy in anticipation of sport at an early date. Caretaker Mills is busy making ice, and the booklet embodying the season's schedule of games has been issued from The Post job department. Copies may be procured at Mr. Keith's store.

Xmas Boxes.

The most suitable and seasonable Xmas Box is some thing warm, comfortable, neat and pretty from the Port Hope Knitting Works. Telephone 330, Ask for Trading Stamps.

A Queer Mishap at Lakefield.

On Thursday evening last about seven o'clock a beef belonging to Mr. W. F. Trude, butcher, escaped its captors and fell over the embankment between Hull's grist mill and the old bridge. The beast fell into the river from the height of about 30 feet, but, strange to say, Mr. Trude had the good luck to recover the animal uninjured about 8 o'clock next morning.

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

A Serious Accident.

Mr. H. C. Stabler, contractor, yesterday fell from the roof scaffolding of a building on George street, and sustained a comminuted fracture of the large bone of the leg, and a dislocation of the smaller bone of the ankle. Dr. Gray, assisted by Dr. Fife, gave the necessary surgical attention. Mr. Stabler will be confined to his home for several months.

Phrenology.

Prof. A. H. Welch, F.A.I.P., Consulting Phrenologist, is at the Oriental Hotel for a few days. Hours 10 a. m. to 10 p. m. Consult him now and make your future a happy success. Ushers will take you to his parlors when you enter hotel.

Mr. Baptie's Claim.

Market Clerk Baptie has requested the Council to make a rebate on account of the market tolls paid in 1898. As we understand it, Mr. Baptie is entitled to something. The market by-law was so constructed, and was afterwards so altered, that hundreds of farmers staid away from the market, not only while the muddle was on, but ever since, out of spite. The fact is, through the grossest mismanagement the once superb market is a thing of memory only. Mr. Baptie should be treated liberally.

A DECEMBER WEDDING.

Marriage of Mildred Fitzgerald, of Smith, and Mr. Herbert McConkey.

A very pretty wedding took place at the residence of Mr. Geo. W. Fitzgerald, County Commissioner, on Tuesday evening, when his second daughter, Miss Mildred Evelyn, was united in mariage to Mr. Herbert McConkey, one of Smith's enterprising young farmers. The happy event was celebrated amid the most pleasant surroundings. About seventy-five relatives and guests were present to witness the ceremony, which was solminized in the drawing room, the contracting couple standing beneath a beautiful arch of evergreens. Rev. Mr. Bridgeman, of Lakefield, was the officiating clergyman. The bride was attended by Miss Edna Fitzgerald, her sister, while the groom was supported by his brother, Mr. Arthur McConkey, of Toronto. The wedding march was played by Miss McDonald, of Winnipeg.

The bride was bewitchingly attired in a costume of cream faille silk, trimmed with lace and pearl trimming. She carried a beautiful sheaf bouquet of white carnations and smilax. The bridesmaid wore a dress of cream muslin, trimmed with valenciennes and blue ribbons and carried pink carnations.

After the ceremony tn eyoung couple received the congratulations an dwell wishes of the friends assembled, and an elaborate wedding de juner was served. A pleasant social time was spent before Mr. and Mrs. McConkey left for their home, lot 18, 10 con., where they will reside.

The esteem in which the bride was held and the good wishes of many friends were evidenced by the large numbe or costly wedding presents received.

The Times joins in extending its hearty congratulations.

MILLBROOK'S DISASTROUS FIRE

15,000 Bushels of Wheat and a Large Quantity of Other Grain Destroyed.

Millbrook, Dec. 7.—About 3.30 this morning our citizens were greatly startled by the thrilling chimes of the fire bell, which was rung by Mr. A. Killingbeck, who was among the first to notice the fire, having got up early to go out to Mr. G. Campbell's. After the firemen and numerous citizens got the fire enginein good working order it was found that the two large storehouses at the station, containing about 15,000 bushels of wheat, were enveloped in flames. After hard work on the part of the firemen they soon had a fine stream of water running into the flames. Finding it of no avail, however, they used the water in saving the adjoining buildings, which caught fire a number of times but were quickly subdued.

The heat was so great that it cracked the glass in the station windows and burnt off the paint 50 yards away.

Mr. Winston's loss will be heavy, although partly covered by insurance, as the wheat was bought two years ago, when it was a high price.

A severe accident occurred after the fire when a couple of the firemen riding down on a load of baggage were thrown heavily to the ground by a jar of the waggon.

A Strange Statement.

Editor Morning Times.

Sir,—I observe in a late issue of a Peterborough paper a paragraph signed by the Tate Optical Company, in which the public are warned to "beware of spectacle pedlars who term themselves professors," etc. Now, sir, I am the party Mr. Tate refers to, and I say that in all my experience I have never yet ben so shamefully attacked. I have had special training with regard to diseases of the eye, and the hundreds of people whom I have successfully treated and who have a good word to say for me, throughout this district, is the best reply that can be made to such an insult. It may suit Mr. Tate to belittle the term "professor," but people in glass houses should not throw stones. Some one might ask to see by what right he styles himself "Doctor." If I mistake not it was only a short time since that one of these so-called "doctors" was heavily fined for violation of the Medical Act, and he called himself an optician, too.

I am persuaded, however, that my many friends will not be affected by such scurrilous attacks as this one. The "Tate Optical Company" must be hard pressed when it resorts to such methods.

Thanking you, Mr. Editor, I am, etc.,

J. H. DeHilberg.

Peterborough, Dec. 7.

Little to Gain.

At the Council meeting the other night, the subject of union with Ashburnham was informally discussed. It was conceded by those who did most of the talking that the town had little to gain by the union. The Times will make bold to say that Ashburnham will have decidedly less to gain than Peterborough. A town that would mix things up the way that matters have been mixed up in Peterborough this year, is a good place to steer clear of.

County Maps.

There are only a few maps of the county still on hand, and these we will dispose of for $2 each, mounted on rolls. On paper, the price is reduced to 50c. Procure one before it is too late.

Boy Wanted.

The Times requires a smart boy for night work on the paper. A fine chance to learn the printing business. Apply at Times Bookstore.

THE BURLEIGH FALLS POWER.

Messrs. Culverwell and Coste Before the Lindsay Council.

Mr. J. Alex. Culverwell, Mr. Eugene Coste and Mr. R. J. McLaughlin, who are interested in the Burleigh Falls Power scheme, appeared before the Lindsay council relative to an extension of the town electric light franchise and power contract. The report as given by the Post is as follows:—

Mr. McLaughlin was the first speaker, and referred to the manifold advantages likely to accrue to the town as a result of the development of the scheme, which is now well advanced. The scope of the enterprise had been greatly increased, and application for incorporation had been made under the name "The Central Ontario Power Development Co." Satisfactory financial arrangements had been made with a firm of leading New York bankers, and the capital of the company would be $300,000. Work on the pole line would be commenced in the early spring, and they wished an extension of six months' time. Hon Richard Harcourt, president of the company, is a well known and successful financier and promoter of large enterprises, and his name would no doubt be a guarantee that strong men had hold of the enterprise.

Mr. Eugene Coste, formerly engineer on the staff of the Dominion Geological survey, and later one of the promoters of the Niagara natural gas enterprise, referred to the grand power available at Burleigh, and predicted a wonderful revival of manufacturing energy when cheap power was transmitted to Lindsay. He referred in terms of praise to Mr. Culverwell's pertinacity and final success in interesting large capitalists in the scheme.

Ald. Jackson, while not opposing the proposed extension, thought three months should suffice for the company in which to show evidence of progress.

It was agreed that the incorporation of the company inside of three months should be sufficient to warrant a further extension.

Ald. Jackson—"The local company may make us a favorable offer for light."

Ald. Lennon—"But we want plenty of power for manufacturers—that's the main thing."

Mr. McLaughlin—"You may thank Mr. Culverwell if you do get a good offer, and also for any power transmitted."

Council then adjourned.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing at home cards—the very best and nobbiest patterns.

OUR SPORTING COLUMN.

Curling.

Lindsay Post.—The town of Peterboro went somewhat extensively into the building of granolithic pavements last spring, and a heap of trouble has cropped up in consequence of the discovery that the specifications had not been followed. An investigation has been in progress for some weeks before County Judge Weller from which it would appear that several of the half-dozen inspectors employed were aware that a change had been made in the quantity and quality of cement used, but did not consider it their duty to inform the council, claiming that Ald. Langford was aware of the change, if he did not order it.

DON'T MISS
THE
CONCERT
IN
ST. PAUL'S CHURCH
TO-NIGHT
Unsurpassed Talent
25c Admission

LITTLE LOCAL LINES.

The Council has agreed to give $50 to the Poultry Show.

The Times job rooms is printing 2,000 bills for the town, re wide tires.

Navigation is officially closed, the steamer Rainbow being the last boat to pass through the locks.

Contractor Evans has been requested to furnish the town with details of his claim for constructing walks.

The annual meeting of St. Paul's Auxiliary of the Women's Foreign Missionary Society will be held this afternoon at 3.30, in the lecture room of the church. Mrs. Ross, of Lindsay, will address the meeting. A cordial invitation is extended to all women interested in missions to attend.

The annual meeting of the Peterborough Curling and Skating Rink Co. was held in the rink parlors. The meeting was well attended and encouraging reports of last year's business were received. The arrangements for the use of the ice by the various hockey teams were completed, and some business of minor importance was transacted.

PERSONAL.

Miss Edith J. Miller, who sings at St. Paul's choir concert this evening, while in town will be the guest of Mrs. William Davidson.

Mr. Archie Morrow left a few days ago for Mexico, where he will remain. His many Peterborough friends will be pleased to hear of his safe arrival at his adopted home.

Messrs. J. R. Griffin, Tuffield Morrin and Chas. Brown, the well-known steamboat men from Lakefield, drove into town last night to attend "The Purple Lady" at Bradburn's opera house.

CANADA'S GREATEST RAILWAY.

HOW THE C. P. R. HAS BEEN IMPROVED OF LATE.

A Progressive Policy the Order of the Day—The Work going on steadily but quickly

A great deal of permanent work has been done on the eastern sections of the Canadian Pacific railway during the past summer and fall. The double track from Montreal Junction to Ste. Anne, a distance of a little over 20 miles, has been completed, and passed into use on Saturday last. The new track has been laid and the old re-laid with 100-pound rails, bonanza joints and tie plates being used. On this double track the latest and best design of split switches and spring frogs have been brought into requisition, and every appliance used that would make the line the best in this or any other country. Long sidings are likewise being provided at Dorval Beaconsfield and Ste. Anne, while the level crossing at the Grand Trunk and Jacques Cartier branch at Western Junction, east of Dorval, is being equipped with the latest appliances, so that trains will not have to stop at the crossing in question. The double switch at Ste. Anne is also being interlocked and signaled. The road between Vaudreuil and Montreal Junction has been newly ballasted while the grade at Ste. Anne, and also east of Dorval, has been reduced so as to permit the increase of 300 tons in the carrying capacity of east-bound freight trains. With the same object in view, two other grades at Mountain and Apple Hill have been reduced in a like manner, thus greatly increasing the capacity of freight trains passing over this section of the Canadian Pacific.

In addition to the work just described, very important improvements have been made in the alignment between Smith Falls and Havelock, in the province of Ontario, this work having had the effect of eliminating a number of curves between the two points just named, and with a view to secure a smooth riding of passenger trains. It may also be said that a good deal of ballasting has been done between Havelock, Peterborough and Toronto, while a considerable portion of the same section has been relaid with heavier rails. The yards at Smith's Falls, Havelock and Toronto have had their capacity largely increased. The company has also provided a number of new crossing sidings, while other crossing sidings have been lengthened in order that the great increase in traffic may be met without inconvenience.

Improved coal facilities have been provided at Smith's Falls and Havelock, and improvements of different kinds have also been the order of the day west of Toronto. The iron bridge at Galt has been replaced by a splendid steel structure of great strength, while the grade at Galt has been much reduced, enabling a largely increased carrying capacity. Between Montreal and Toronto some fifty miles of heavy rails have been laid, and the track has been put in an excellent condition generally, while upwards of 10 miles of very heavy rails have been laid between Montreal and Fort William, and a good deal of ballasting done on the last mentioned section. Improved coal facilities have been provided at Megantic, and the yards at that place, as well as Brownville and McAdam have been considerably enlarged and additional sidings have also been put in between Montreal and St. John, N.B., to meet the increased traffic via St. John, N.B. A new engine house has been constructed at McAdam and a very superior one has also been erected at Schreiber to replace the wooden engine house recently destroyed by fire.

Important work will likewise be carried on in Ottawa where the Company has secured the right of way and will this winter begin the construction of a short line through the Capital, so that the company's passenger trains west of Ottawa may reach the Central station and also to provide better facilities for the handling of passenger business in and around the city.

The equipment of the Canadian Pacific is also going ahead on a large and liberal scale, the company having now about 100 new locomotives under construction, the majority being built at their own works at Hochelaga, and the rest at the different locomotive works throughout the Dominion. One of these splendid new locomotives is handed over to the company every week. They are all of the latest type, being intended for both freight and passenger service. Some fifteen freight cars are being turned out daily, as well as many passenger coaches. Speaking of this matter Monday, a leading C. P. R. official remarked that the people who were criticising higher rates did not realize that a locomotive costs $5,000 more today, a freight car $300 and a passenger coach from $3,000 to $4,000 more than they did a year ago. As for rails, the value had doubled.

STRUCK BY AN EARLY TRAIN.

Another Railway Fatality on the Grand Trunk Near Lindsay.

As Wednesday morning's express from the west was nearing Mariposa Station the engineer noticed the body of a man lying alongside the track. The train was stopped and the remains taken on board and brought to Lindsay.

The victim was a man about 70 years of age, fair complexion and almost white bushy whiskers, height 5 feet 6 inches; he was comfortably dressed, having on a sweater, vest, cotton smock and a dark serge coat, two pairs of trousers; and good socks, and a pair of top boots covered the lower extremities. A muffler and greenish colored shawl were wrapped closely around the head, and it was owing to this fact, probably, that he lost his life. He had evidently been walking along the track in the snow storm that took place early in the day, and did not notice the approaching train, which was either the west bound mail or the way freight. The injuries were all in the head, the skull being smashed in badly on the very top. The man had probably put up at a farm house in the neighborhood, as he had a freshly-made lunch in a paper bag with him.

New Readings.

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

Sensation in China

The Macfarlane Wilson Co., Limited, has secured the greatest bargains in New and Up-to-Date China, Fancy Goods, etc., ever thrown on the Canadian Market. This lot comprising 67 large cases—over a car load—will arrive in a few days. It will take a week to unpack, mark and arrange it—and then—bargains galore in every department. Watch for the opening.

This is no ordinary purchase, but a real bonanza of bargains.

The Canada Business College

CHATHAM, ONT.

CANADA'S GREATEST SCHOOL OF SHORTHAND AND BUSINESS

PUBLIC SCHOOL TEACHERS SHOULD NOTICE

This institute has prepared over seventy teachers for other Business Colleges and Commercial Schools in Canada and the United States, more than twice as many as all other Business Colleges in Canada, combined, have so placed.

The proprietors of five of the leading business colleges in Western Ontario, who are to-day among our strongest opponents in the field of Shorthand and Business training, received THEIR training under the Principal of this institution. Besides these, there are five others holding leading positions as teachers in Business Colleges in Ontario.

Since Sept 1st, seven of our pupils have accepted positions as teachers in Business Colleges and Commercial Schools in Canada and the United States; another is now negotiating for a similar opening in a Business College in a leading American city, and there are five unfilled calls of this kind on hand still.

DOES IT NOT PAY TO ATTEND THE BEST! You must decide.

[illegible] of our pupils secured good positions in seventeen months, and the good work of placing our students still continues.

For catalogue of either department address

FRANCE LOOKS FOR TROUBLE

Some More Specimens of Insults Hurled at the Queen by French Journals.

NO WONDER CHAMBERLAIN WAS ANGRY.

Text of the Virulent Attacks Upon Her Majesty Which Created the Greatest Excitement in Great Britain—The Parisian Yellow Journals Run Riot.

Paris, Nov. 26—Paris is growing more and more violent every day in its expression of feeling against the English. I have heard nothing hitherto of open insults offered to us in the streets, but it is even now impossible to pass along the boulevard without a number of some offensively anti-English "comic paper" being thrust under one's nose by a grinning camelot. Several of the English colony here have, I am told, written to Her Majesty's Ambassador, begging him to make representations in the proper quarter for the suppression of The Rire, but no steps to this end have as yet been taken, I am told.

In the theatre and music halls offensive allusions to England and the Queen are greeted with shouts of laughter and loud applause. In a song at the Capucines Her Majesty is included in a series of types of "fat old women," and spoken of in a manner which I cannot even quote. At the Bouffes Parisiens is being given an opera-bouffe called "Shakespeare," which is nothing more nor less than a sustained attack upon England and all things English.

Shakespeare a Poodle.

"Shakespeare" is a poodle dog—"as great a fool as his namesake William." British officers are represented as trafficking in prisoners of war for money, all the women in the play are habitually drunk, in a word, the whole thing is a virulent attack upon Great Britain, without wit, originality, or refinement to save it. And this is applauded every night by crowded houses.

One of my friends, an Englishmen, has shown his opinion of the Rire by withdrawing his annual advertisements. This will be a loss to the proprietors of £80 per annum.

Meanwhile the daily papers continue their violent abuse, while many of them affect to lay the blame for the strained relations between our two countries upon the English press.

The Gross Attack.

The Echo de Paris yesterday says;—"A French illustrated paper was seized this morning at the shops. The motive for this? The first page represented a fat lady being whipped by a bearded Boer.

Underneath was written;—And this is called Victoria."

The Figaro publishes this morning, from a Frenchman who occupies a very high position in English society, a letter warning his countrymen to let Queen Victoria alone.

He says that an outburst of anger of which there is no conception in France, has been raised by the outrageous and filthy attacks made by the French journals on Her Majesty.

A Black Marck.

He has seen letters from Court, wherein it is stated that the Queen is must distressed at the caricatures and articles in question. Moreover the Prince of Wales and the Duke of Connaught are irritated to such a point that if the outrages continue there will be a serious boycott of the exhibition, for a black mark will be made at Marlborough House against anyone seen there.

Attacks on English policy and English statesmen go for nothing; but he warns his fellow-countrymen;—"Ne touches pas a la Reine'"

Lastly, he says, if France does not change her tactics she is going straight to war with England. It will be a naval war, wherein England will not have a vessel the less or France a vessel more by reason of the war in the Transvaal.

The Figaro expresses the hope that the more serious of the French papers, such as the Debats, Temps, and Siecle, will seriously try to counterbalance by their attitude these monstrous insults to the Queen.

Evening Journals.

The evening papers of the patriotic contingent all contain more or less violently anti-English articles, while the more sober journals Le Temps and Les Debats, refrain from criticism. La Patrie pretends to believe that hostilities between France and England are imminent, draws a picture of the activity reigning at Portsmouth, Devonport and Chatham, recalls the fact of the Channel Squadron's presence at Gibraltar, and quotes a number of Swiss papers to show that Mr Chamberlain is bent on war with France.

The Presse and La Liberte to-night devote their energy to attacking the Prince of Wales. The Presse says;—"No matter what he may say to the contrary, His Royal Highness will not be able to resist coming over to visit the exhibition side shows. While La Liberte devotes two columns to a would-be ironical article, in which the writer, after expressing himself flattered at England's choice of France as an antagonist, when all the other countries of Europe are as anti-English as she, mocks at the Queen, who is welcome, he says, to distribute her Bibles and her money to the beggars who will bow before her pony carriage in the road near Bordighera, and expresses the opinion that the only industries of Paris that would suffer if the Prince carries out his threat of remaining away from the exhibition would be those industries under the special protection of the devil.

Hypocritical Conduct.

There are a few men in Peterborough—only a few, thank goodness—who are eternally crying out against our people buying anything out of town. They pretend to be anxious about the town's future, and when a season of dull times is on, as will happen the best regulated communities, they attribute it to those who happen to go to Toronto or Montreal occasionally and perhaps, spend a trifle. Now these self-same individuals are to be seen hanging around the bookstores waiting for the arrival of the Toronto papers, quite forgetful of the fact that there is a bright morning paper in their own town. Yesterday a number of these people were anxious to know the result of the elections in Manitoba, and did not appear to realize that the same source of information gives us the news as supplies the Toronto papers. The Times receives despatches up to 3 o'clock in the morning of the day of publication, from all parts of the world, and we are pleased to be able to say that our enterprise is being liberally rewarded. The result of the Manitoba elections was published in our issue of yesterday and was known throughout the district in consequence, five hours before the Toronto papers arrived.

MANITOBA ELECTIONS.

Latest Returns Give Opposition 4 Majority.

GREENWAY REGIME ENDED.

All Accounts Concede a Victory for the Conservatives.

Opposition Now Have 22 Seats, Which Would Give Them a Majority of Four in the New House.

Winnipeg, Man., Dec. 8.—The latest returns give the Opposition 21 seats and the Government 15. Two seats are doubtful and two elections are to be held.

Winnipeg, Dec. 8.—There is a discrepancy between the Liberal and Conservative organs this morning as regards the standing of the two parties. The seats conceded to the Government are—

Beautiful Plains, R. C. Ennis.

Birtle, Hon. J. C. Mickle, about 200 majority.

Deloraine, C. A. Young, about 100 majority.

Lakeside, Jas. McKenzie, 15 majority.

Minnedosa, R. H. Myers, 214 majority.

Mountain, Hon. Thos. Greenway, about 100 majority.

Rhineland, V. Vanwinkler, 115 majority.

Winnipeg Centre, Hon. D. H. McMillan, 113 majority.

Lansdowne, Norris, 45 majority, with a few poles to hear from.

Laverandrye, Lagimodiere, no majority mentioned.

Lorne, J. Riddells, election indicated from polls received.

St. Boniface, S.A.D. Bertrand, by good majority.

South Brandon, F. O. Fowler, over 50 majority.

Springfield, Smith's election almost assured.

West Bourne, L. L. Morton, leading with 104 majority and only a few outlying polls to hear from, which are not expected to change the result.

Saskatchewan gives Ferguson (Con.), a majority.

Both parties claim Carillon and Rosenfeldt, although the latter place elected Hespeller (Independent) over the Government candidate.

Conservative Seats.

Seats conceded to the Conservatives are

Brandon City, W. S. McInnes, 31 majority.

Cypress, Steele, 73 majority, with two polls to hear from which will increase the majority.

Avondale, Jas. Argue, 31 majority.

Emerson, D. H. McFadden, 62 majority.

Killarney, Geo. Lawrence, about to majority.

Kildonan, Dr. Grain, with good majority.

Rockwood, Riley, 43 majority, with one place to hear from.

Souris, Mr. Thompson elected.

Tirtle Mountain, Mr. Johnson elected, 190 majority.

Virden, Mr. Simpson elected.

Winnipeg, Hon. Hugh John Macdonald, 60 majority.

Russell, Mullins, over 31 majority.

Woodland, R. J. Robin, secured majority at every poll.

This makes the totals—

Government	15
Opposition	21
Independent	1

Elections at Gimli and Dauphin in a week from now.

More excitement was manifested in the city this time than at any other elections for many years back. Two Cabinet Ministers, Attorney-General Cameron and Minister of Public Works Watson, were defeated. Sifton's constituency went Conservative.

Constituencies incomplete—
Avondale,
Carillon,
Emerson,
Laverandrie,
Souris.

From appearances, though, the Conservatives have the better of it in the majority of these latter.

LATEST RETURNS.

Toronto, Dec. 9, 3 a.m.—The latest returns from Winnipeg indicate the defeat of the Greenway Government. The Opposition now have 22 seats, which would give them a majority of 4 in the new House. The figures now stand—Opposition 21, Government 16, Independent 1. Elections to be held, two. Both elections are expected to return Liberals.

WRECK OF THE WAVE CREST.

Mr. J. J. Turner's Schooner a Total Wreck on Lake Ontario.

The steamer Wave Crest, belonging to Mr. J. J. Turner, plying on Lake Ontario, was totally wrecked early on Friday morning at Oak Orchard, a few miles from Charlotte. From a telegram received on Friday morning by Mr. John Turner, jr., from his father, it appears that the schooner sailed for Toronto with a cargo of coal, and when almost at Toronto harbor the gale, which had been blowing, increased to such an extent that the ship's course had to be changed and she made for Oak Orchard.

Unfortunately, on account of the blinding snow, the harbor light was not seen, and the ship missed the harbor. She grounded on the rocks below Oak Orchard, and is a total wreck.

Both Mr. and Mrs. Turner were on board, and were saved, together with the crew, by the life saving force at that point.

The schooner was valued at $5,000, and as all marine insurance expired on Nov. 16th, it will be a total loss to the owner.

The Wave Crest had a splendid season's trade and was on her last trip. Mr. Turner would have laid her up in Toronto on arriving there.

The coal was consigned to a Toronto firm, and is also a total loss.

Mr. Turner will remain at Oak Orchard for a few days in order if possible to save the sails.

THE PAVING CONTRACTS

Argument of Counsel at the Investigation.

SPEECHES OF COUNSEL.

Town Solicitor Edwards is Followed by Mr. McWilliams.

The Counsel for the Contractors Have to Follow, Which Will Take Several Days Yet.

The Times has not been able to give its readers the very latest information regarding the investigation now being held before the County Judge, on account of its great length, and the crush of war news on our columns. We are indebted to the Review for our reports, what we deem of sufficient importance to publish, although late.

When the pavement investigation resumed on Thursday afternoon Mr. Edwards continued his argument. He referred to the test made on Stewart St. in September, stating that this was perhaps the best evidence that could be had and applied to find out how much was saved by the contractors although a variation will occur in which a small single test is applied to a larger work. Applying the figures on the basis of 14-5 cents per square foot difference in the two works is but a matter of arithmetic. To the speaker it did not seem that this figure was properly applicable in view of the evidence regarding the Bartlett and Rose sections. They showed that the work could not be done according to the strict letter of the specifications as they might be interpreted at the figures at which the contractors tendered. However, if His Honor deemed it his duty to make an estimate of this character there was this test on Stewart St. showing a difference of 14-5 cents that might be applied. But it did seem as if tests of more extensive nature should be made. There were other difficulties which made it impossible to apply this figure of 14-5 cents difference per square foot conclusively and definitely to the contracts. Even in the Bartlett work on London St. the quantities actually used do not correspond with what we would expect to be used if the specifications were followed out strictly.

There remains then the main charge brought by Mr. Ranney against Mr. Sheehy and his men and Mr. Edwards could only point out that there was could only point out that there wasthe evidence of Mr. Ranney on the one hand and on the other hand of Mr. Sheehy and his men, Carroll, Lawless, Lavery, etc. Ranney makes specific charges of fraud. The men put it in another way. His Lordship must decide as best he could between the two sides of the question.

It is impossible to determine how far the defective work on the first Sheehy contract is general and how far it is accidental and local. The part laid at Dr. Halliday's, which Mr. Ranney supervised himself, was one of the most defective parts. There are causes for which the contractors should be held liable and responsible, such causes as letting the base lie too long, even though there was an inspector over the work. The particular causes of defects are not such as to warrant any conclusion as to the value of the work.

For any wrongdoing on the part of his men Mr. Sheehy must be held responsible.

In conclusion Mr. Edwards stated that the evidence appears to show that the difficulty had arisen through Mr. Ranney endeavoring to do the work in a way which he thought was right, and if there were mistakes then the question arises as to how they should be remedied. The engineer has power to have the mistakes or bad work rectified and the town is amply protected by the power of the engineer to withold his final certificate until he is satisfied that all is right. As long as the air is cleared of all charges of fraud the petty details may be settled by the engineer afterwards. Mr. Edwards did not wish to withdraw from His Honor any of the questions put by the Council but the evidence being closed, he had expressed what he thought to be the facts and the conclusions which were forced upon his mind. If the evidence has not been to establish corruption and fraud on the part of the officials or aldermen so much the happier for the town.

Mr. McWilliams' Argument.

Mr. R. F. McWilliams next addressed the court, first explaining his position. The evidence given has been he stated, such as to justify the investigation and endorse the action of the Council in asking for it. He differed with the counsel for the town both in regard to the conclusion to be drawn from the evidence and in the application of the statute. The widest scope should be given to an investigation of this kind and that we should not limit the meaning of the words of the statute. With the municipal Council lies the responsibility of examining the conduct of all its officials. It is most desireable that the enquiry should be as accurate and full as possible into all public affairs that the affirs may be administered with all possible judgment and keenness.

What Is Misconduct.

The word "malfeasance or breach of trust or misconduct" do not necessarily mean a fraud, as had been held. There may be a gross breach of trust without any fraud but arising simply from carelessness or neglect. The neglect of business with which one is entrusted is as clearly a breach of trust as would be the wrongdoing of any positive act. If a man gets in-

Continued on Monday.

NEWS FROM SOUTH AFRICA

Rhodesia Forces Advance Southward From the Palapye District Towards Kimberley.

THE BOERS ARE READY TO OPPOSE THEM.

Battle Expected at Caberones, Half Way Between Palapye and Mafeking—Gen. Gatacre Has Been Reinforced.

(Special Despatches to The Times, 3 a.m.)

Pretoria, Dec. 7, Thursday.

The following despatch dated to-day, has been received from the head laager near Ladysmith; "The British are advancing on Colenso but last night passed without an attack. There was a desultory cannonade this morning, the naval guns at Ladysmith replying vigorously to our fire."

Berlin, Dec. 8.

The Hamburg police have received thus far several requests from various parts of Germany for the detention of boys going to join the Boers.

London, Dec. 8.

The Times prints a letter from an American citizen, who left Johannesburg before he was liable to be imprisoned and who had learned that the United States Consul was unable to protect him. He complains bitterly that the American flag was not respected in Pretoria, that his passport was not recognized and that his position was practically unbearable.

London, Dec. 8.

The following advices from General Methuen's force at Modder River, under date of Tuesday, Dec. 5th, have been received. Boers are seen daily passing between Spytfontein and Jacobsdal laagers. There is frequently fire on patrols. Mounted infantry received a severe fire, while patrolling six miles toward the north, from a hill. There were no casualties. An hours cannon firing has been heard at Kimberley."

Ladysmith, Thursday, Dec. 7, via Weenan.

The total British casualties since Nov. 1st, are five officers and 35 men killed and 15 officers and 136 men wounded, with three missing. The Boer force is still around us in large numbers, but all within the town are well and cheery.

London, Dec. 9.

Some interesting light on the position of affairs along the western frontier is shown by a despatch issued by a Boer agency last evening in Berlin. The despatch says, "Commandant Prins Loos is near Jacobs, between Modder River and Riet River. Gen. Cronje is still on the northern bank of Modder River, his rear being protected by fortified positions at Spytfontein. The hills between Modder River and Spytfontein, and those between Jacobsdal and Riet River are occupied by Boers Commandant Delarris' force is stationed between Gras Pan and Honey Nest Khoof. If this Berlin despatch be correct, and it is specially significant when judged in connection with Gen. Forestier-Walker's advice to the War Office, that there must be some 15,000 Boers around Lord Methuen, who is believed to have 11,000 men. Kimberley, however, possessing an armored train can materially assist Methuen by pressing the Boers from the rear.

London, Dec. 9.

According to a despatch from Lourenso Marques, the Modder River battle is described by a Boer correspondent with Gen. Cronje as "one of the fiercest the Boers ever experienced," the correspondent goes on to say: "Gen. Cronje's wing sustained almost solely the fearful attack of the British right throughout the day. The Transvaalers tenaciously held their position until seven in the evening, when the Free State burghers were forced to retire by the heavy British shell fire. Gen. Cronje then retired under the cover of the darkness after facing the concentrated fire of all the British batteries.

The Boers freely acknowledged the herculean assaults of the British, and the death dispensing fire of the attacking infantry. But they held their position for 13 hours, against the flower of the British army, replying solely with their mausers, and maintaining an uninterrupted rifle fire. The Boer artillery was silenced early in the battle through the overwhelming power of the British artillery.

Frere Camp, Dec. 6.

The trestle bridge is finished and trains are now traversing it.

London, Dec. 9.

The Times has the following from Modder River, dated Tuesday, Dec. 5th: "The river is low and the railroad bridge is rapidly approaching completion. The first train will cross to-night. After extraordinary exertions, the pontoon bridge has been completed

Cape Town, Dec. 6.

It is announced that Major Elliot, commanding in the native territories of Griqualand East, is arming the natives, by Imperial authority, with a view of assisting the defences. The troopship Columbian has arrived, bringing a portion of the troops from the troopship Ismore, when the latter went ashore at St. Helena.

London, Dec. 9

Lord Methuen's restoration of the railway, while relieving a load of anxiety here, accentuates the dangers still threatening his forces. It is gathered from the brief official despatches, that Commandant Prins Loos' contingent was taken from the forces acting from Belmont and southward from Modder River. It is quite possible, however, that reinforcements were sent to Belmont, merely as a precautionary measure.

There is little other news of importance. Reports continue to come from Ladysmith that dissension exists among the Boers and especially that the Orange Free State troops are discontented. There are also all kinds of reports of movements of commands from place to place, but the fact is that little is known here regarding the actual position of the Boer forces, moreover, the rumors of a collapse of Boer spirits have been heard so often as not to cause much satisfaction now.

London, Dec. 9

General Forestier-Walker has sent the following despatch, dated at nine o'clock on Friday evening, to the War Office from Cape Town—Telegraphy and railway communication to Modder River has been re-opened. A battery of field guns and a battalion of infantry were dispatched from Modder River against Commandant Prins Loos' force of 1,000 Boers, with one gun, who had destroyed the railway. Our losses were 14 wounded."

Belmont has been strengthened by infantry and two guns and a cavalry regiment and troops from Naauwpoort Arundel yesterday (Thursday).

The enemy's force near General Gatacre are reported as follows—At Dordreich, 800; marching from Jamestown to Dordreich, 700; with six guns at Stormburg, 1,500; at Waterfall, a large force, strength unknown, and Molteno about 300. "Lord Methuen reports casualties Dec. 6, on patrol duty, missing, Lieut. Tristram and four men of the 12th Lancers; wounded, four men."

HIGH CLASS CONCERT

At the Sacred Concert Last Night at St. Paul's Church—The Event a Success in Every way.

The sacred concert held in St. Paul's Presbyterian church last night proved to be a success in every way—the attendance was large and the entertainment combined rare musical interest with a refined exposition of vocal and organ genius. While the foreign talent proved an exceedingly valuable and acceptable acquisition, yet the work of St. Paul's choir, together with the work of St. Paul's popular organist and choir master, Mr. John Crane, was highly appreciated by all present, and Mr. Crane is to be congratulated upon his having raised the choir to a high state of musical perfection, unsurpassed by any similar local organization.

The numbers presented by Mr. Holmes Cowper, the talented tenor of Chicago, delivered in a sweet, clear voice, free from affectation and of an exceptionally perfect register, delighted the vocal enthusiasts present, who would, had not the event been in a sacred edifice, gave vent to their approval in rounds of applause.

Miss Edith J. Miller, the leading contributor from New York possesses a rich contralto voice of great compass and volume, combined with a clearness of enunciation which renders her efforts doubly pleasing. Her interpretation of "Abide With Me" and "The Better Land" were exceedingly beautiful, and proved a source of delight to all lovers of high class music.

Mr. W. Spencer Jones, who officiated as accompanist to the imported vocalists, also proved in his organ solos to be a thorough master of that instrument, and his execution of the exceedingly difficult solo, "Overture to William Tell," in which all the instruments of a full orchestra to that charming opera are represented, —a piece in which so many really gifted organists fail—stamps him as a worthy competitor for the highest honors in organ recital.

The Programme.

Anthem—"Send Out Thy Light"—Gounod—The Choir.
Solo—"Nearer My God to Thee—Holden—Mr. Holmes Cowper.
Song—"Hosanna"—Granier—Miss Edith J. Miller.
Organ Solo—"Overture to Wm. Tell"—Rossini—Mr. W. Spencer Jones.
Recitative—"Ye People Rend Your Hearts"—(Elijah) Mendelssohn; Aria—"If With All Your Hearts"—(Elijah) Mendelssohn—Mr. Holmes Cowper.
Organ—"To the Evening Star" (Tannhauser) Wagner; "Serenata in D."—Moszkowski; "Ave Maria"—Schubert—Mr. W. Spencer Jones.
Recitative and Aria—"But the Lord is Mindful of His Own," (St. Paul) Mendelssohn; Air, "My Heart Ever Faithful" (1685-1750) Bach—Miss Edith J. Miller.
Motette—(Psalm 137) "By Babylon's Wave"—Gounod—The Choir.
Duet, selected—Miss Miller and Mr. Cowper.
Organ Solo—"The Madeline Offertoire"—Wely—Mr. W. Spencer Jones.
Song—"Saviour Breathe an Evening Blessing"—Lloyd—Mr. Holmes Cowper.
Song—"Abide With Me"—Liddle—Miss Edith J. Miller.
Tenor Solo and Chorus, "Sanctus" (Messe Solemnelle), Gounod—Mr. Cowper and the choir.

God Save the Queen.

ADVERTISE IN THE TIMES

THE LIME JUICE CLUB

A Long Way After
The Lime Kiln Club

When the sound of the President's gavel called the members to order at the Hall of Wisdom last night, every nook and corner of the large building was occupied. On the Visitors' gallery the faces of the following gentlemen were to be seen—Messrs Alex. Elliott, R. S. Davidson, W. H. Bradburn, M. Wilson, J. J. Lundy, E. B. Stone, J. W. Butcher, Jno. Nugent, Jack [illegible], Ald. McWilliams [illegible], Mayor W. G. Howden, R. J. Fife, Ed. Brown and many others.

AN AWFUL WARNING.

Previous to the opening of the meeting members were seen in earnest conversation around the President's desk, and when the triangel sounded it was pretty well understood throughout the room that some matter of gravest importance was on the tapis. One individual seemed to feel even a more than lively curiosity. This was Bro. Anvil McCann, a member of about three years standing. He jammed himself into a corner and tried to appear as small as possible, and when inquiries were made about his sore heel he let on he had an awful toothache and didn't want to talk. Scarcely had the meeting opened when he was called to appear at the President's desk. The look of terror which came into his face as he rose up proved that he regarded the matter in a very serious light, and he shuffled up the long aisle like one going to execution.

"Bro. McCann," said the President, as he straightened a cramp out of his left leg, "at one of our weekly meetings last spring, and as we were about to disperse to our homes, Stoplog Dinwoodie, discovered that his umbrella was missing. It was an umbrella with a white bone handle and it was an heirloom in his family. His grandfather had walked under that umbrella, and it kept the rain of his father, and he himself owned it for nigh onto seventy years. It had been left on cars and steamboats and on front door steps, and nobody had taken it. He had brought it down here over 400 times, and it was always waiting for him when he got ready to go home. He had lent it repeatedly to Bro. Ed. Brown, Bob Fife, Bob Munroe and other members of this club, but it had always been scrupulously returned. At last some one stole it—some human hyena laid his desicated paws on the sacred relic and bore it of. We made every effort to find it, but the hunt was in vain. Then we settled down to wait for justice. She never sleeps. She sometimes does a good deal of fooling around, and there are sometimes a mighty long wait between the acts, but she never sleeps. She didn't go to sleep this time. She was looking for you, and yesterday she overhauled you. You had Stoplog's umbrella under your arm. Here is the living proof to convict you! You are the hyena that stole it, and you are now before the bar of justice! Prisoner, how do you plead?"

The Bro. stood there with his mouth open and could not reply. The sudden shock seemed to paralize him. His guilt was as plain as the hind buttons on his coat.

"The person who will steal an umbrella under any circumstances," continued the President, "deserves vigorous punishment. In this case you stole it from a fellow-member of a society, and you added the sin of lying to your crime. Your name will be crossed off our books for one month, and you will enter this hall no more for a month. The carrying out of the sentence will be left to Piledriver Riley and Sharkey Graham, who staid over to be with us to-night."

The prisoner was removed to the anteroom, and about a minute later the Hall of Wisdom was shaken from roof to cellar. This was followed by a bumping sound on the stairs leading to the alley, and then again of the sound of feet making a run for life. Brother Anvil McCann will probably feel uncomfortable for the rest of his life.

MUSIC.

The Harmony Club now secured the floor and rendered the following touching lines by the Club's own poet —

The summer day has faded and the
warm.ness has departed,
And the winter winds are blowing brisk
and strong.
The swallows are a-dying, the turtle dove
a-sighing
And the house-fly will not be with us
ere long.

Each of the fifteen verses was received with much applause and when the melodious strains of the final stanza died away, many eyes were dim with tears of emotion.

ERUPTION IN THE GALLERY.

At this juncture a loud noise, coming from the vicinity of the Visitors' Gallery, which jarred the whole building, attracted attention. The props supporting the long plush-cushioned seat on which rested Commodore Calcutt, Mr. Peter Hamilton, Billy Bunton and several other distinguished visitors suddenly gave way, and these gentlemen were floundering on the Brussels carpet for several seconds. The noise woke Bro. Croft from his second nap and caused him to sit for the balance of the evening with his feet in Bro. Walter Head's new plug hat, through spite.

SEVERELY REBUKED.

Henroost Bell, chairman of the Committee on Applications, announced that he had no names of candidates to hand in, and an explanation being demanded, he said he had a list of thirteen in hispocket to bring down, but lost it while assisting Bro. Manice to load a calf into a waggon.

"Brother Bell," replied the President, as he carefully wiped his spectacles, "the next time a spotted calf or yellow dog or anything else short of a clyclone or an earthquake is permitted to interfere with the regular business of this club there will be a vacancy here, and you will have no longer the privilege of spitting on the first joint of the stovepipe."

RATHER PREMATURE.

A letter was read from Sweet William Legstrong, of Millbrook asking if it was true that the Lime Juice Club had passed a resolution asking the Dominion Parliament to rob the treasury and divide up the money between them and go home and have done with it.

The President said that such a resolution was on his desk, and might be presented at the next meeting.

AN IMPOSTER.

A letter was received from Norwood making inquiry if Talkaway Smith had been sent down east to canvass for subscriptions to purchase 500 ice cream freezers for the poor of Peterborough. A person so calling himself was in that village and had collected six or seven dollars. He was described as a low-built man, predisposed to talk horse and could elocute the leg of a stove.

Talkaway Smith at once leaped to his feet and moved that the club offer a reward of $17,000 for the arrest of the infamous imposter, and he was about to launch into a speech thirty-four feet long when the President stopped him with—

"Don't get excited, Bro. Smith. While the man is a fraud, and while it is very, very wrong to blast the reputation of a good man, this club won't offer over $5 reward. Hundreds of men have sold out for less. Sit down, Talkaway, sit down and catch your breath."

MUST BE STOPPED.

The Treasurer said that a majority of the members were sending in punched quarters and half dollars in payment of dues, and although he had plugged scores of pieces with lead, and passed them off on the unsuspecting public, he hoped for some ruling in the case which would relieve him from pressure. The President instructed him to hereafter make a discount of 1,000 per cent. on all mutilated bills or coins sent in.

SIGNS OF SUCCESS.

Fourply Neill in his haste to get his mouth open to present the report of the Committee on Improvements, accidently swallowed a brass button he was holding between his teeth to cure the ear-ache. After he had recovered his breath, he rendered his monthly report which stated that he had made a careful canvass of the town to see what progress was being made in bring about the new time table in which the next hour after 12 o'clock noon will be 13 o'clock. He found the new system at work in several stores and factories, one brewery and two wood yards, and other establishments were preparing to adopt it. The committee received plenty of assurance that the public would take kindly to the change, and that the next generation would never suspect that the clockmakers of this one were too stupid to be able to count above twelve. (Wild cheers by mistake by Charlie McClelland, who was promptly fined $200 and costs).

RADIATION OF HEAT.

The Janitor was asked if he had make any special study of the radiation of heat, as requested at a late meeting of the Club.

After considerable hesitation he replied to the effect that when the stove began to cool off he had to radiate around in the alleys after dry goods boxes and apple barrels, and on several different occasions had narrowly escaped arrest.

He was advised to continue his specialty during the chilly nights, and thoroughly post himself on the science of heat.

THE CLOSE.

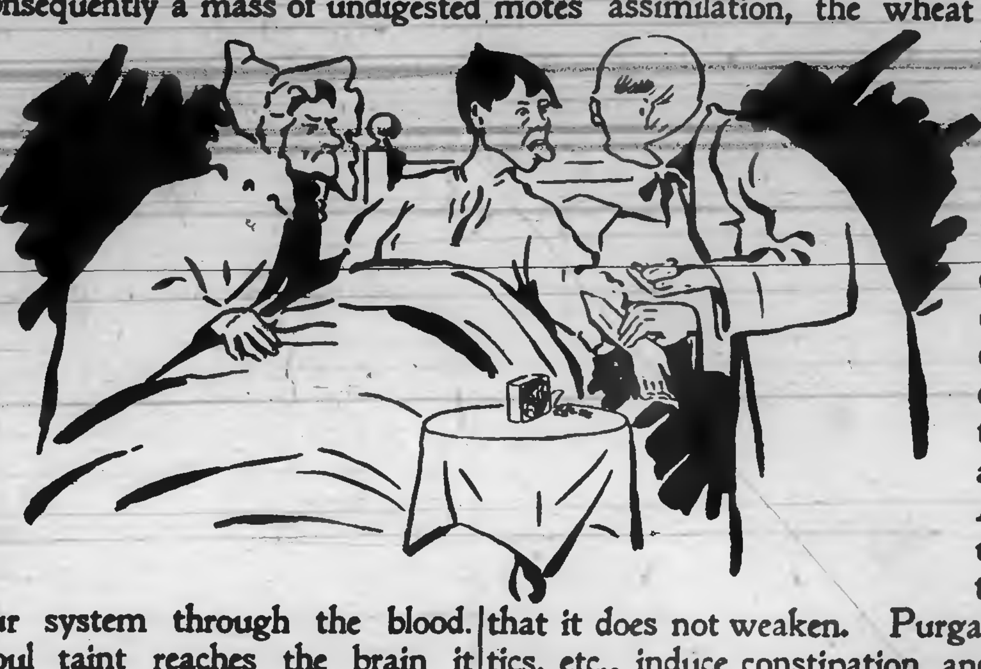
After the Janitor had been warned to cease using the club's stove polish to blacken his boots with, the meeting tumbled asunder for one week.

KEENE.

The regular weekly meeting of the Lime Juice Club was held in the Hall of Wisdom on Saturday night last. The attendance was not as good as usual as several of the members have a severe attack of croup. After the Honorable Jonas sounded the gavel he invited Giveadam Dickson to favor the members with a solo on his Jumbo fiddle. Giveadam at once tuned and commenced operations. A number of mice having taken their winter loggings in the hall became so affrighted at the course, mournful strains of Jumbo that they scampered around the hall in every direction in quest of a place of shelter. One of the poor creatures took a trot up the President's pant leg. You can better imagine than I can describe the little circus which then took place. He jumped clean over three benches and lit fair on top of Bruin Spier's head, and upset a lamp on Positive Legget, and only for the presence of mind of Fighting Arony a terrible catastrophe certainly would have taken place but he threw Cautious Miller's overcoat on the blaze and extinguished it in a very short time. The overcoat of course was soiled and damaged, but Cautious don't care for that as long as none of the brethren were cremated. You must remember that the members of the Lime Juice Club are very benevolent, and always display brotherly love to each other. After the President squeezed the poor mouse to death and removed it from his pants, he took the platform and informed the brethren that the meeting was open for business.

Silent Weir rose and suggested that a number of cats should be left in the hall for a week to kill the mice and he would appoint Bismark Miller and Ponty Mack to carry milk to them every morning, "for," says Silent, "it will help the poor creatures to digest the mice." All the members agreed to this motion.

The Honorable Jonas now rose and intimated that as it was drawing near to Christmas he thought that this club should celebrate the day by an oyster supper. He said that the Foresters purpose to give a supper on the 15th and is not our society second to none? He therefore declared that the members of the Lime Juice Club celebrate Christmas by holding an oyster supper in our own Hall of Wisdom. He noticed that several members were asleep, but excused them for they had been attending the German Medicine Co. concerts and were no doubt testing the merits of their blood purifier. He then asked Buttermilk Humphries and Professor Euson to sing the closing ode, after which the Honorable Jonas formally closed the meeting.



.. After the Feast ..

If people will partake of the inner man comforts too heartily they will eventually suffer. When too much food is crowded into the stomach the gastric juices are unable to dissolve it, consequently a mass of undigested food is left upon which the resolvent liquids act feebly. This matter turns sour and ferments, the same kind of action goes on in your swill pail on a hot summer day, and the poison generated permeates your system through the blood. When the foul taint reaches the brain it causes minute congestion of the delicate tissues there and a furious headache results. Nausea added to these horrors completes a not too pleasing list. Now it is possible to eat as much and as varied nourishment as one likes, Hutch makes it an easy matte The action of Hutch is simple because it i natural. It induces the secretion of the gas tric juices, the food becomes dissolved, it pro motes assimilation, the wheat is separated from the chaff and what is beneficial to the body retained and by being slightly cathartic it expels all excrement, the chaff is thrown away as it were. Another feature peculia to Hutch i that it does not weaken. Purgatives, cathartics, etc., induce constipation and necessitat increased doses to be effectual. Hutch strengthens the entire system and every organ is toned up in like degree. Thus you wi find that instead of increasing you will probably have to lessen the doses of Hutch.

Ten Hutch ten cents, all druggists, or by mail from the Woodward Medicine Co., Limited, 11 Colborne Street, Toronto.

THE Canada Business College.

CHATHAM, ONT.

CANADA'S GREATEST SCHOOL OF SHORTHAND AND BUSINESS

PUBLIC SCHOOL TEACHERS SHOULD NOTICE

This institute has prepared over seventy teachers for other Business Colleges and Commercial Schools in Canada and the United States, more than twice as many as all other Business Colleges in Canada, combined, have so placed.

The proprietors of five of the leading business colleges in Western Ontario, who are to-day among our strongest opponents in the field of Shorthand and Business training, received THEIR training under the Principal of this institution. Besides these, there are five others holding leading positions as teachers in Business Colleges in Ontario.

Since Sept 1st, seven of our pupils have accepted positions as teachers in Business Colleges and Commercial Schools in Canada and the United States; another is now negotiating for a similar opening in a Business College in a leading American city, and there are five unfilled calls of this kind on hand still.

DOES IT NOT PAY TO ATTEND THE BEST? You must decide.

236 of our pupils secured good positions in seventeen months, and the good work of placing our students still continues.

Most Miraculous Heart Cures.

Mr. Thos. Cooke, of Kingston, After Suffering Intensest Pain and Distress of the Heart for Seven Years---Is Cured Almost Miraculously by

Dr. Agnew's Cure for the Heart---A Remedy Which Saves Lives Everyday That Have Been Proclaimed

By Physicians Beyond Human Aid—It is a Powerful, Harmless Heart Specific and Can Work Wonders in Half-an-Hour.

Kingston, April 26, 1899.—Mr. Thos. Cooke, 269 Johnston street, Kingston, tells this wonderful story of his sickness from heart disease, and what he considers his almost miraculous recovery by the aid of that good angel of modern medical science — Dr. Agnew's Cure for the Heart. He says—"I suffered seven years from a very acute form of heart disease. I experienced great weakness; had smothering sensation; palpitation so badly that one in the same room could hear the heart thumps. I had great nervousness and depression at times, suffered excruciating shooting pains. Could not stand the slightest exertion or excitement. I tried many remedies recommended to me, and consulted best physicians on my ailments, and nobody gave me any hope of permanent recovery. But one day I read of a cure by this wonderful remedy which seemed just to be my own case repeated. I got a trial bottle and derived great benefit from it. I concluded to continue, as it promised a complete and permanent cure, and when I had used six bottles not a vestige of the trouble remained, and although that is a year and a half ago there has never been the slightest symptom of a return of the trouble."

You can readily verify this or any other testimony of the curative powers of Dr. Agnew's Cure for the Heart, for the commendations for it come spontaneously and unsolicited, and in ninety-nine cases out of a hundred are given out of the "fullness of the heart" in being snatched from the snare of so distressing an ailment as heart disease in any form.

If modern medical science has given to the world a remedy—a cure—that thousands have used and have tested the curative powers of after having suffered for years, and had been pronounced hopeless cases—if, as a last resort, even it has proved such a boon, what an amount of suffering would be spared if when the slightest uneasiness of the heart is experienced Dr. Agnew's Cure for the Heart were used! It has never failed to do what it promises. It gives relief in the most acute forms of the disease in less than thirty minutes. It not only stimulates a healthy heart action, but it heals the diseased organs, gives vitality, tones the whole system, and it's not claiming too much to say "IT 'MOST WORKS MIRACLES."

Dr. Agnew's Catarrhal Powder relieves cold in the head in ten minutes—it will cure the most acute and disgusting froms of Catarrh, no matter how long standing.

Dr. Agnew's Ointment acts like magic on itching, irritating Skin Troubles, such as Eczema Scald Head, Salt Rheum, and will cure Piles in from 3 to 5 nights—35c.

Dr. Agnew's little pills for Constipation, Sick Headache and Billousness—20 cts. for 40 doses.

JULIA'S LETTER.

"Did you hear from Julia to-day, Minerva?" asked Mr. Ford, as he sat down in the west porch in the September sunshine.

"Yes, father," replied the daughter, as she took a letter out of her apron pocket. "Jack Collins brought it this afternoon, when he came home from trading down at Elmville."

"Well, let's hear it. I haven't got my glasses here. Hope they are all well."

The daughter read the letter from her sister, which, as usual, was full of complaints and apprehensions of coming disasters. When she had finished Mr. Ford leaned his head back in the old porch rocker and said:

"It does beat all how much trouble Julia always has. How good it would be if for once she would write a real good, cheerful letter, instead of an upsetting, worrying sort of one."

"Sometimes I'm afraid Julia is not getting along as well as she might be. It does not seem as if she would write so if things were going on right. I don't know but I ought to go out there this fall and just see what the situation is," his daughter replied.

"Perhaps you had, Minervy, but it will be terrible lonesome for me. I suppose Aunt Sally will come and keep me company, but she always goes to sleep in her chair when she sits down, so she isn't very entertaining. However, I guess I can stand it for a couple of weeks."

"Yes, but father, it costs a good deal to go out to Julia's. I should not make the trip there and back for less than $50. I would have to draw it out of the bank and that would only leave me $50 on interest, but if she is in trouble I must not mind that."

Mr. Ford took the letter in his hand and looking it over said: "It seems that Albert has a good place in the office of the iron works, but Julia says he may lose it any time, and the little boy is well now, but the scarlet fever is in the neighborhood, and he is quite sure to get it, and if he does it will go hard with him, because he is so delicate. The little girl's eyes trouble her; Julia's afraid she will be blind. And what a time she does have with the hired help! I should think she would rather do her own work than be bothered so. She doesn't seem to be well herself, either, does she? What is this she says about her lungs being weak? There never was any lung complaint on my side of the house, nor on your mother's side."

Mr. Ford got up and went into the house. It was supper time, and his daughter followed him. He was in his shirt sleeves, and she got his coat and helped him to put it on. His arms were very lame, as he had been cutting corn all day, but he did not speak of it. He asked the usual blessing at the table, and added a petition that the Father in heaven would bless Julia and her family, and keep them from sickness and danger. A good deal of the father's prayers had been about Julia's "goings in and comings out" ever since she left the old home.

Long after Minerva went to bed that night did she turn over and over in her mind the troubles and cares of her younger sister in the West. Every letter was full of them. But nothing but cheery letters went from the old home to her. Father's growing weakness from age, the hard times they had in selling their farm produce at a profit, the close economy she had to practice to make ends meet, and the lonely hours she herself had many times, were never mentioned in letters to Julia. Minerva could carry her own burdens, and why add to Julia's? Letters are so aggravating when they are full of the troubles of those so very dear to us, because we cannot sit and talk face to face with those who seem to need help from us so much. It did not seem possible that Julia would write such complaining letters unless she had real troubles, and before Minerva went to sleep she had made up her mind to leave Aunt Sally with her father and go out West and find out for herself how things were going with Julia. Had she not promised the dying mother to be a second mother to her younger sister Julia?

And so Minerva went, and the father watched each day for the letter that would come as soon as she arrived. When it came and he read it, he gave a sigh of relief. "Julia and her folks are getting on first rate," he said to Aunt Sally.

"Just exactly what I expected," Aunt Sally replied. "Julia was always complaining and stirring folks up, expecting some dreadful thing was to happen. I never did have any patience with folks that are always spoiling the present because they are afraid the future will bring some trouble to them. Trouble comes to us all, but it is dreadful foolish to go down the road looking for it."

Julia's husband had a good position, and there was no reason to think he would lose it. The scarlet fever had moved out of the neighborhood, and the little boy did not get it. His sister's eyes were better, and the doctor said there was nothing serious about the case. Julia had had a severe cold, brought on by her own imprudence, but was entirely over it, and Minerva wrote that Julia had never looked so well in her life.

The father thanked God for his goodness to his child, and wondered why Julia did not appreciate her blessings and thank God for them, and stop such complainings.

After Minerva had been at her sister's a few days a telegram came to her. Her father was very ill and wished her to come home in the first train. Julia wondered how her sister could be so calm. She "had gone all to pieces," she said, hearing such terrible news. If anything had happened her father it must kill her, she knew. She could not help her sister get ready for the return journey. She annoyed and hindered her by the dreadful forebodings she kept telling.

"Could Aunt Sally have been over anxious in the matter?" she asked.

But Minerva quietly said: "Aunt Sally is not an alarmist, Julia. She never sent that telegram unless it was a necessity. Whatever comes the Lord will give me strength to meet it. I trust Him."

Minerva made the return journey, and found her father very ill. Just as she thought, he had not remembered to put on heavy clothing when the weather became colder. He had been so used to his daughter's quiet ways of getting the things he needed at hand for him at the proper time.

It was a long and trying illness, and when the father got about again he knew it had been a hard pull, and he would never be as strong again. Yet Minerva's letters were always hopeful ones to her sister. She made no mention of her weariness from the long, anxious watching and waiting, neither did she tell how trying the shiftless boy she had hired to do the farm chores was, nor that the potato crop was almost a failure. Why should she worry Julia with things that she could not mend? There is a bright side to everything if we will only look for it. Mineva was one of the elect, of whom some one says, "The elect are those who put life into one—who give courage to the faint hearted, hope out of their own constancy."

"If I were only calm and trustful like Minerva," thought Julia, "how much easier life would be for me and all those who are dear to me. I must try to see the bright side of things as Minerva does, and learn not to put burdens on other people's shoulders." Aunt Sally remarked, when Julia's letters were read aloud in the family after Minerva returned home, that Julia did not write such upsetting things as she used to, and really seemed to have learned to see a better way of looking at life and its daily cares and duties.—Susan Teall Perry, in Christian Intelligencer.

NAMING A TOWN.

A TRUE INCIDENT OF RURAL LIFE IN MISSOURI.

Game of Cards Conferred the Privilege of Christening It—After a Draw of Weapons the Preacher Won.

Perhaps no other town in the United States has been named in such a peculiar manner as Mercyville, Mo. The old name of the place was Gooseville, but as the settlement grew in importance the desire for a change in the name became strong. One of those who especially favored the change was old Pop Wilson, the blacksmith. Pop was the oracle of the village. He was a brawny fellow, strong as an ox, but gentle as a dove. The one ferocious thing about him was his bluster and his habit of swearing, says Squire Redway, one of the prominent men of Mercyville.

One day, continued the squire, Pop notified all the citizens to be at the tavern that evening, as important business was to be transacted. There was a stranger present—a young gospel student who had been sent over from Hannibal to preach to us. With much formality Pop introduced him to us as "the Right Rev. Mr. Theodore Dobson, who will expound the Scriptures for us Sunday." The young man was dressed in black, smooth-shaven and looked as gentle as a July lamb. He wore nose-glasses, parted his hair in the middle and affected a clean silk handkerchief, but was otherwise very decent in appearance.

Pop's Christening Scheme.

After the introduction was over Pop got upon the table and announced in a high-keyed voice that the name of the town was to be changed by regular parliamentary proceedings that night. By which he explained there should be a four-handed game of seven-up, and the winner would have the exalted privilege of announcing the name that would henceforth control the destinie of the hamlet. The cards were produced and the question as to who would be players arose. Pop laid his hand on the parson's shoulder and told him he would expect him to be one of the four to share in the cermonies attending the rechristening of the town. The young fellow didn't appear to be much inclined to take a hand and said he knew nothing about cards. Still, if they would teach him some simple game, he would do the best he could. It was agreed that he would "catch on" to casino quickest, and we sat down to a four-handed game, every man for himself. While shuffling the cards Pop, with great explicitness, explained that the players would be expected to tote fair, and intimated that if there was any skulduggery practiced he would rectify the wrong with the contents of his revolver. "——, sir!" Of course we all knew Pop and didn't pay much attention to his bluster, but young Dobson evidently took the admonition seriously, and said it would be nothing more than right.

Pop Draws His Gun.

Of course we all expected Pop to win, as he was a good player; but luck was against him and the minister came out best. Pop jumped up from the table and, drawing his gun, blustered out—

"See here! Some of you bloody —— —— —— has been stealing cards. Now, I don't want to get personal nor do anything rash, but I would just like to look up the sleeves of you gentlemen and see which of you has got the extra deck."

Then something happened.

Dobson was up like a flash and his pale face betokened immense suppressed excitement. Looking Pop straight in the eye he said —

"If you mean to insinuate that any of us gentlemen have been stealing cards, you lie, sir."

And the young fellow reached in his coat pocket and held out something that glistened. Pop still held his pistol nervously in his hand and looked as though he would have given a farm to have it out of sight.

The outcome was that Pop made a handsome apology, and then Dobson, after putting his weapon in his pocket said—

Naming the Town.

"That's very well said, Mr. Wilson, and I herewith extend you my hand as a mark of future good will. Speaking on behalf of my friends here, I will say that we are pleased to extend clemency to you this time, and as enduring motto to mark this generous action in sparing your life this night, I suggest that henceforth we will call your little town Mercyville."

The parson's suggestion was put as a motion and carried with a whoop and then and there Pop vowed that he would lick anyone who dared to breathe aught against the preacher. Before the night was over we had taught him how to play seven-up, euchre, poker and nearly everything that a real gentlemen ought to know. The boys turned out next day to hear him preach, and there was hardly standing room in the church.

He never returned to our town but once, and that was to obey the dying request of old Pop that he preach his funeral sermon.

SICK WOMEN

are invited to consult Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., by letter, without fee or charge of any kind. Dr. Pierce is a specialist in the diseases of women. He has treated over half-a-million women for diseases of the womanly organs and ninety-eight out of every hundred women he has treated have been absolutely and perfectly cured. Every letter received by Dr. Pierce, is treated as a purely personal and private communication and its contents guarded as a sacred confidence. All answers to these letters are sent in sealed envelopes bearing upon them no printing or advertising whatever.

Write to *the doctor*. It is no use for sick women to write to a man unless he is a doctor. It is no use to "write to a woman" unless the woman is a doctor. Write to a woman about cookery or any branch of housekeeping, because she is a woman and knows. But it is of no use to write to a woman about disease unless she has a doctor's training and diploma. **A woman who isn't a doctor is just as dangerous as a man who isn't a doctor, when she undertakes to treat disease.**

There is no qualified woman physician so far as is known connected with any proprietary medicine put up for women. Even the "bearded woman," the *man* who advertises "write to a woman" is not a qualified physician and stands too much in fear of the law to claim that he is.

There is no other physician, male or female, who, like Dr. Pierce has a record of over thirty years, as chief consulting physician of a well known institution, making a specialty of the private treatment of women's diseases.

Write to *the* doctor—Dr. R. V. Pierce, Buffalo, N. Y.

Women realize Dr. Pierce's ability when they read his great work the Common Sense Medical Adviser, 1008-pages; sent free on receipt of stamps to defray cost of customs and mailing *only*. Send 31 one-cent stamps for paper-bound edition, or 50 stamps for cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.

TRENT CANAL

TRENTON AND FRANKFORD DIVISION

NOTICE TO CONTRACTORS

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Trent Canal" will be received at this Office until noon on Saturday, 30th December, 1899, for the construction of about nine miles of Canal between Trenton and Frankford.

Plans, specifications of the work and forms of Contract can be seen at the office of the Chief Engineer of the Department of Railways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterborough, where forms of tender can be obtained on and after Thursday, Nov. 30th, 1899.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same, and, further, an accepted bank cheque for the sum of $25,000 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and terms stated in the offer submitted. The accepted cheque thus sent in will be returned to the respective parties whose tenders are not accepted.

The lowest or any tender not necessarily accepted.

By order,
L. K. JONES,
Secretary.

Department of Railways and Canals,
Ottawa, 24th November, 1899.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

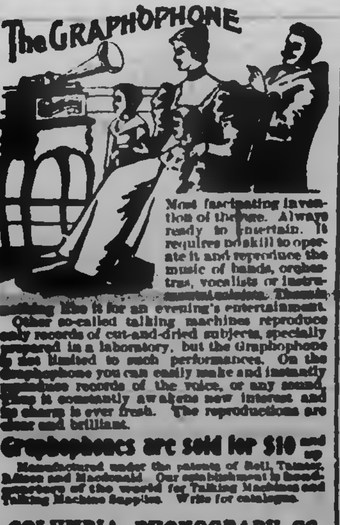
OFFICE—13 Chambers St. Peterbor



Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduce the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment.

Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the Graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant.

Graphophones are sold for $10 and up

Manufactured under the patents of Bell, Tainter, Edison and Macdonald. Our establishment is headquarters of the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

ADVERTISE IN THE TIMES

TRENT VALLEY CANAL

Waterway tc Connect the Georgian Bay and the Bay of Quinte

BEGUN HALF A CENTURY AGO

I Is a Project That has Been Agitated in the Midland District for Years—Variety of Views as to Its Value for Transportation.

Carrying cargoes of rain or other products of the west has not yet devolved upon the Trent Valley canal, but in the argument of the opposition politician of the past it has established its value for carrying seats for the political party that suports the project.

Governments have been told that a grant to the canal was ang ood as a guarantee of a dozen members. The grant came, and almost invariably the members as well, but the canal is coming, though the day of its completion is not a matter of the present.

By the people of the Midland district the construction of the canal is certainly strongly favored, but whether the support is given for selfish reasons or in the interest of the Dominion, from a transportation standpoint, is difficult to judge. To believe something that is not the truth is difficult, but cases there are where tales, elaborately formed by the imagination, repeatedly related, gradually grow into such a substantial possibility, that the author becomes convinced that his story is as truthful as the most genuine that ever left his lips.

Those who follow pubilc affairs read of great projects from day to day, until their minds become filled with the descriptions and benefits, and it is not long until they have the public work, or whatever it might be, completed, before such is the case.

An instance in point is the Trent Valley Canal. As far back as the time of the rebellino of 1837 this canal has been before the people of Canda. Its value to commerce and the district through which it is planned to run, has been dilated upon so often that to-day many people rest with the opinion that the Trent Valley Canl is completed and is doing all that was promised.

Advocated for Years.

To the people along the route of the proposed canl the realization of this fact would be a reward of many years' advocacy of its benefits. The completion of this connecting link between the Georgian Bay and Bay of Quinte is yet a thing of the future, and even if the government provides an allowance for its construction every session, the canal will not be in shape for navigation until the next century has developed two or three years.

The Trent Valley Canl always creeps into prominence during an election campaign, but since the advent of the Liberal party to power in 1896 the Government has ben frequently waited upon by deputations from the Midland district, urging the construction of this large public work. The Conservative Governments were committed in favor of the canl, and the bulk of the work was begun under their regime. The Liberals had never an opportunity to state their position as a Government, but while in Opposition they loudyl declaimed against it. As soon as the Laurier Government settled down to the affairs of State deputations galore swooped down upon the Ministers, from Trenton, Peterboro and Barrie, and they told the Premier and his colleagues that the canl must be constructed or the Liberal party would lose every seat in the district, though they at present onyl hold East Peterboro, South Victoria,, East Hastings and North Ontario.

Cabinet Ministers See Canal.

The present Government, in reply to these deputations, has sent Hon. Messrs. Tarte and Blair to inspect the canl, and they have returned to Ottawa, after telling the people of Peterborough they were convinced the canl was an important work, and that it should be completed. The Government does not cease setting aside appropriations, and evidently they intend to complete the canal, but as to how soon, they say nothing. Now, it is stated the Hon. Wm. Mulock and Hon. Dr. Borden will make a tour of the waterway, and the people of the district think they will as easiyl impress its importance upon them as on Tarte and Blair.

As a matter of course, the people of the district through which the canal runs are strong and ceasless advocates of its construction. More especially is this the case at Trenton, Peterborough and Barrie, the leading towns on the route. Many citizens of these centres do not look upon the Trent Valley Canl as a link between the Georgian Bay and Bay of Quinte for the benefit of Canadian trade. When carefully considered, they do not feel that it would be of national or even provincial value. But their advocacy of the canal is from a personal standpoint. The construction of the canl gives employment to men by the hundreds, it allows the sale of poor lands in the northern parts of these counties, and creats Government positions, all of which bring money into the hands of the people, and eventually into the coffers of the merchant and the manufacturer.

It is Partially Constructed.

Away back in the early days of Upper Canada, the Trent Valley Canal came first to public notice. Piece by piece the work has gone on, but fifty years of almost ceaseless agitation has not provided for the people of the North-West and Ontario this canal, which was to provide a cheap and rapid means for the transportation of the products of the grain fields of the west and the forests of Ontario to the sea for export.

The canal is partially constructed. Little contracts have been awarded and completed, but the heaviest work has yet to be bone. At present the contractors are engaged on the Lakefield, Peterborough and Balsam Lake sections and when these are finished only two sections will remain to be constructed, that from Hastings to Trenton and from Barrie to Midland, in the north.

The Route of the Canal.

The route of the Trent Valley Canal is from Trenton, a town of 3,000 inhabitants at the entrance of the Trent River into the Bay of Quinte, north-west to Midland on the Georgian Bay. With the exception of a short break between Balsam Lake and Lake Simcoe, there is a continuous chain of rivers and lakes, connecting Georgian Bay and the Bay of Quinte, but only a few of these are navigable. The canal virtually runs over a natural waterway. Commencing at Trenton, it follows the Trent River to Hastings, and then through Rice Lake and up the Otonabee River through Peterborough to Lakefield. At this village Stony Lake is entered, and as far as Balsam Lake the route is navigable, lock's having been constructed some years ago at Young's Point, connecting the Otonabee river and Stony Lake; at Burleigh connecting Stony Lake and Buckhorn Lake; at Buckhorn, connecting Bucrhorn and Pigeon Lakes; at Bobcaygeon, connecting Pieon and Sturgeon Lakes; at Fenelon Falls, connecting Sturgeon and Cameron Lakes, and at Rosedael, connecting Cameron and Balsam Lakes. Though the contract for the construction of the section between Lake Simcoe and Balsam Lake has been awarded, very little work has been done.

Cut Into the Rock.

In several cases the course of the river has not been followed, cuts being made in order to avoid expensive dredging in rocky portions of the stream. Almost the whoel distance the canl runs through rrough country, but beautiful and romantic nevertheless. Every mile or so, from Balsam Lake to Trenton summer resorts dot the shores.

The sections that have yet to be constructed are by far the most difficult from an engineering point of view, especially from Hastings to Trenton, where the Trent River consists of almost nothing but currents and falls.

Very little else but drives of logs have passed over the Trent River from Campbellford to Stemouth at the Bay of Quinte. From above Healy Falls, beyond Campbellford, to Hastings, near Rice Lake, small steamers have been abel to run, but that is the only part that is navigabel. Between Nassau and Lakefield, on what is known as Two Section, the Otonabee has been canlised by a number of locks and dams, and the identical system would be followed from Trenton to Frankford, some seven miles. Tko Chisholm's Rapids, five and a half miles farther on, the river is clearr, and little work except dredging would be necessary. Nearly sixty years ago a lock was constructed at Shisholm's. It was excavtel out of solid rock, but has been little if any service. Three miles on up the river, at Hoard's Creek, a cut of eleven miles will be made across the country to Crow Bay, and this will be a very expensive and heavy piece of work. On this section alone there is a rise of 166 feet. At Healey Falls, at one and of Crow Bay, a lift lock will be constructed, to make a lift of 80 feet. These locks are new to Canadian canals, and were recommended for the Trent canl after a visit of the superintending engineer, Richard B. Rogers, C. E., to Belgium, where they are in general use. A lock of this nature is now under construction on the section between Peterborough and Nassau.

Healey Falls to Peterborough.

From Healey Falls to Peterborough there is already navigation. The Trent river from the falls to Hastings is wide and clear. At Hastings, a village of over one thousand population, there is a lock. Beyond Hastings, the Trent runs six miles farther to Rice Lake, which is a lively spot in summer, being the Mecca of many tourists and sportsmen. A twelve miles course through this body of water brings one to the zig zag and picturesque Otonabee, upon which steamers run daily to Peterborough. There is a lock just below that town by which Little Lake is entered. Here is found the first section that is under contract at present. Hundreds of workmen are now employed making a four mile cut from Little Lake, along the east side of Ashburnham, through rock and hill to Nassau, a distance of four miles. At the outlet into Little Lake a lock is to be built. Above it already a highway bridge and C. P. R. railroad bridge have been erected. Some two thousand feet from the C. P. R. crossing the hydraulic lift lock is being built. By it it is proposed to transfer vessels from one reach to the other—a difference in level of 65 feet. In going through this lock the time usually occupied in locking will be greatly reduced. On up to Nassau there is a clear cut, over which several bridges have been erected, at Nassau there being a G. T. R and highway bridge.

The Otonabee River.

At Nassau the course of the Otonabee is again followed almost to Lakefield, a lively little borough, nine miles from Peterboro. On this section, which is five and a half miles long, there are five locks and dams, and most of them are completed. The Otonabee at many points here provides more beautiful scenery than can be viewed in any other part of the country. Along the shores are many rich farms, with a border of woodland. The Grand Trunk runs along one side, while on the other, along a high slope is the main highway between Lakefield and ePterborough.

Through the construction of the canal the village of Lakefield has been almost completely transformed, a cut having been made right throuh the centre of the pretty little place, houses having been removed, and the course of several streets changed.

The locks on this section are entirely of concete, with solid timberr gates. Two of the locks have lifts of twelve feet, ana one each of sixteen, fourteen and ten feet.

The Village of Lakefield.

At Lakefield the highway is carried across the canal on a high level bridge. From the village to Balsam Lake there is a navigable stretch which has been open to navigation for years, locks having been constructed in some instances as far back as half a century ago.

At Kirkfield, on Balsam Lake, the first section on the Balsam Lake-Simcoe division commences. Andrew Onderdonk has the contract for the construction of this section, which is five and a half miles in length. It will be unique in the fact that there will not be any locks. The first mile will be through a light rock cutting, and the next three miles is swamp land, and the last mile and a half will again bring a rock cuttin. At the end of the section an hydraulic lock with a fifty-foot is to be erected.

At this point the second section, which brings the canal to Lake Simcoe, starts. The first mile is cut through rock until a flooded reach of seven miles, upon which little work will have to be done, is reached. After passing through this, the Talbot river, with a width of from 200 to 300 feet and a depth of 25 feet, is used. It is flooded by two dams across the river, at the lower end raising the water almost to the top of the banks. The route of the canal proceeds across the country for two and a half miles, to near Beaverton, a beautiful little town on Lake Simcoe. From here to the mouth of the Severn twenty miles away. Lakes Simcoe and Couchiching will be used, but as yet no definite route has been fixed for the remainder of the canal, from Lake Simcoe to Midland, on the Georgian Bay. Midland will be the important port on the canal, for there the grain and other products of the west will have to come from Lake Superior and Georgian Bay ports.

What the Canal Will do.

It is argued that this canal will greatly reduce the distance between Chicago or Fort William and Montreal, the ocean seaport, and the transportation rates will be noticeably cut. Of 1000 miles from Chicago to Montreal, 450 of themm will be inland, and the dangers of navigation being less, the cost of insurance is proportionatly reduced. The man that grows enthusiastic over the project also tells of the six million acres of county, rich in minerals, timber and agriculture, that will be touched by the shore line of the Trent Valley. Then will come the means to transport the products to big centres for shipment across the ocean or even to Canadian ports.

Rich and prosperous the Midland district, through which the canal passes, certainly is. The population is large, the agricultural interests immense, and right in the vicinity are great stretches of timber land. Now that the lumbermen have resorted to cutting their logs in the forest, the canal will furnish means to transport the dressed lumber to central points. "And why should it not be," they say, "for over these same streams have come millions of logs to be cut at Peterborough, Trenton, Deseronto and many other places."

Duke Summoned Home.

New York, Dec. 7.—It is announced here that the young Duke of Manchester, who arrived here a few days ago from England has been hurruedly recalled by a cable from his mother, the Duchess of Manchester, announcing that his sister, the young Lady Alice Montague, is dying of consumption. The Duke is devotedly attached to his sister. The Duke will sail on Saturday.

Miller Not Arrested.

New York, Dec. 7.—Captain McCluskey, chief of the New York city detective bureau, when asked if Miller of the Franklin Syndicate had been arrested, said that he knew nothing of it, and declared that he did not believe it was true.

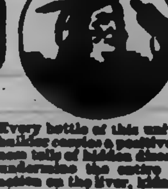
VIVID HEALTH

Nothing so sure as [illegible] of all and the grandest jewel in the crown of life is vivid health. Many a man has paid the forfeit of sickness for the gain of wealth. A blood purge cannot atone for the deranged liver, the aching step, the rebellious stomach. Every pulse beat of impoverished blood carries weakness and disease. Gradually all nerve power leaves you and the fire of life is gone. An empty sack cannot stand upright, and so Death gathers in his cheques.

CO BO



Stimulants and Purgatives cannot cure you, but The GREAT INDIAN BLOOD MEDICINE must and will

Every bottle of this universal blood-maker and flesh builder carries a positive GUARANTEE. Evidence shows tally of hidden disease. A deranged stomach will undermine the entire system. CO BO, in its direct action on the liver, kidneys and stomach, cures every phase of mal-nutrition, makes blood and carries life and strength to every tissue, and gives back health where once lurked death. For sale from all druggists direct from the

NOVEMBER AT THE ASSAY OFFICE

EXHAUSTIVE REPORTS ON THE SALT AND PEAT INDUSTRIES

Will be Issued by the Ontario Bureau of Mines With Suggested Measures For Their Further Extension

The statement of laboratory work done at the Ontario Government Assay Office, located at Belleville, which is conducted by the Bureau of Mines as an aid to the discovery and development of the mineral resources of the northern portion of Ontario, shows a total receipt of 220 samples received for examination during the month of November.

The samples sent in for assay consisted of 99 for gold assay, 23 for gold and silver, 35 for copper, 3 nickel, 1 platinum and one zinc.

The samples for complete or partial analysis comprised 9 iron ores from Eastern Ontario for analysis as to smelting quality, 5 samples of crude and refined salt from the salt beds in Western Ontario, 6 samples of crude and manufactured peat from the peat beds in the various parts of this Province which are being worked, and 4 rocks for partial analysis.

Altogether 241 assays and analytical determinations were made during the month. Of these 161 were done for the public on which fees aggregating $161.90 were collected, being about one-half the customary rates. The Bureau of Mines required 80 assays and analytical determinations from the laboratory, on which no fees were collected.

Eleven samples for identification or report as to probable commercial value were reported on during the month, on which nominal fees amounting to $5.50 were collected.

Most of the gold ores were sent in from the Seine river district and show more or less paying values of gold. This district, as well as the Lower Manitou district, is the scene of much activity, due to the rapid extension of the Ontario and Rainy River Railway and the recent improvements of the Government colinization roads, thus facilitating the shipping in of supplies and machinery to the numerous mining camps in the district, which hitherto were supplied by American dealers from Lower Minnesota. The town of Wabigoon, four years ago only a flag station on the C.P.R., has every prospect of being an active distributing centre for the districts surrounding.

The nickel ores came from the Sudbury district, while the copper ores, showing more or less paying values of copper, were sent in from the different parts of the Parry Sound district.

All of the iron ores for analysis came from Eastern Ontario, where there are several new properties being worked. The demand for iron ores in Ontario is growing steadily, owing to the increasing output of coke pig iron at the Hamilton blast furnace, and charcoal pig iron at the Deseronto and Midland smelters. The Government bonus paid to the smelters for the production of pig iron in Ontario is based directly on the consumption of local ores, and this tends to stimulate the local industry to a considerable degree.

The laboratory has issued a special circular announcing the intention of making a specialty of check assay work, for which purpose mailing bags for ore samples may be obtained free on application.

The Bureau of Mines has commissioned Prof. Courtney De Kalb, of the Kingston School of Mining, acting Inspector of Mines for Ontario, to prepare an exhaustive report on the salt industry in Ontario. The report will be issued shortly and gives a detailed account of the extent of the salt beds, present output, purity of brine and the various grades of commercial salt put on the market, methods of working and refining, with sugested measures for the further extension of the uses of the raw material in the manufacture of soda, soda ash and salts, soaps, etc., for home consumption.

A detailed report on the peat industry in Ontario will also be issued, giving an account of the extent of the numerous available peat beds, analysis of raw and manufactured peat as made into briquettes by the Dickson compression patent, with the probable value of peat as a fuel for domestic and commercial purposes. This report will be of great interest to people in the coal and wood trade.

Among those who have called on business at the assay office are the following more or less interested in Eastern Ontario: D. E. K. Stewart and Steve Wellington, of Madoc; J. E. Gibson, of Camden East; Paul Kingston, of Tichborne; Courtney De Kalb, Inspector of mines for Ontario; Jos. James, of Actinolite; Thos. McGown, of Parry Sound; John Fitzgeald, of Maynooth; A. R. Davis, of Napanee; James Healey, of Kaladar; Squire Maitland, of Bannockburn; and J. W. Cook, from the Boerth gold mine, Frontenac county, which is working steadily, employing 30 men and giving fair returns.

LATEST MINING NEWS.

Republic Mines.

Republic, Washington, is proving to be the most phenomenal camp in the world. In two years has produced the Great Republic and Mountain Lion Mines considered the equals of the celebrated Le Roi at Rossland, B.C.

The Green Cheese claim is situated in the centre of the Republican camp. Engineer's report shows that there are three ledges running through the claim. Assays have been obtained as high as $62.50.

Write for maps and full particulars.

THE BRITANNIA
CONSOLIDATED GOLD MINING COMPANY OF ONTARIO, LIMITED

CAPITALIZATION:

$300,000.00 fully paid and non-assessable.

Par value of shares, 50c. each.

Owning and operating the celebrated "Gold Hill" property which comprises 1,308 acres of valuable location situated near Rat Portage, Ontario, Lake of the Woods, between Sultana and Regina mines. Vein filling sufficient to supply 30 stamps. Controled by strong Montreal Syndicate.

Several hundreds of feet of work done.

Equipped with Steam Hoists, Pumps and 10 Stamp Mill.

All necessary buildings (about 20 in all) are in good repair.
A working property now producing bullion.
Assays are usually satisfactory, running from $3.00 to $400.00 per ton.
Mill runs show the ore to average $15.00 to $30.00 per ton. Last mill run (August 21, 1899), of 38 tons, gave $579.55, or $15.25 per ton. The next mill run is expected to exceed this value per ton.
For shares and reports by John E. Hardman, S. B., and Capt. E. J. S. Williams, apply to

Five properties, to wit: **Houlton, M. S. C., Princess No. 1, Mabee** and **Gilford**, owned by the Company, situated only 1,000 feet from Nelson & Fort Sheppard Railroad at

Erie, in Ymir, Nelson Mining Districts, British Columbia

Over 250 feet development work done, work now in progress and to continue through to the Winter. Our manager writes that with 25 feet extension of our tunnel he expects to strike the thick ore vein, when preparations will be made to ship ore.

Following are some of the assays had from this property: $12.95, $29.65, $154.03, $9.05, $14.27 $64.86, $11.50, $68.11, $9.33 and $155.48. The last assay giving $85.78 gold, $42.55 copper and $10.50 silver balance lead.

COST OF FREIGHT AND SMELTING ONLY $6.00

There is still a portion of the last authorized sale of the Treasury stock that can be had AT ONLY 5c PER SHARE.
For further particulars apply to

RUFUS MERRIAM, Secretary.
224 Mohawk Building, Spokane, Washington.

YOUNGS' LATEST BATTLE.

Washington, Dec. 7.—To the relief of the War Department General Young has been heard from after a week's absence in the interior of Luzon. General Otis cabled this morning as follows—

"Manila, Dec. 7.—General Young reports his arrival at Vigan on the evening of the 5th, having encountered a force of the enemy at Narbacan, 12 miles south of the city, whom he drove to the eastward of the same into San Quentin canyon. His troops are now pressing them back. Country is extremely rough and strongly entrenched. About 600 prisoners who escaped reported that the insurgents allowed all but the American and prominent Spanish prisoners to escape from Bangued. Later, the insurgents were driven back into the mountains. Will send transportation with subsistence and medical supplies to Vigan to-morrow to bring the prisoners to Manila and to supply Young's troops with necessary quarter-master's stores. Our casualties were one killed and 12 wounded, wounds most slight. Enemy left in trenches 25 dead, a few rifles, several thousand rounds small ammunition and forty shrapnel. Young has sufficient troops to meet all difficulties."

Eaten By Cannibals

Vancouver, B.C., Dec. 6.—Details were brought by the steamer Warrimoo, from Australia, of the atrocious murder of a white man, and subsequent devouring of the body, by the treacherous cannibals of the Admiralty Islands. About a year ago two Germans, named Metzk and Molte, opened a trading station on the Island of St. Andrew, in the Admiralty group, and did a profitable business with the natives. A short time ago Molte went to New Britain on business, leaving Metz with ten Solomon Island boys. Upon Molte's return he found that Metzk had been murdered, together with four of his boys, and the bodies had been cut up cooked and eaten by the savages.

COPPER MINING STOCKS

For several months shrewd investors have been putting their money into the shares of Copper Mines. This is true not only of men with large amounts of money at their disposal but also applies to those who have made a study of investments with a view to securing a large return for small investments. As high as THREE AND FOUR HUNDRED PER CENT. has to our knowledge already been realized on some of these investments. Americans were the first to make a specialty of Copper Stocks. They knew what they were doing, for the reason is not far to seek. Every Copper Mine in the world is at present taxed to its utmost limit to meet the growing demand for copper for electrical purposes. The reserve stores of copper are being depleted until it pays no longer to use copper in some eastern countries as a coin. Copper has gone up in price from 9c to 18 cents. **The supply of Copper from the mines of the world to-day is only about 80 per cent. of the consumption.** That is the reason why financiers have their engineers searching the four quarters of the globe for Copper Mines, and that is the reason the shares in promising copper companies are so eagerly picked up by investors.

If you have any money to invest we would ask you to consider the shares of the SUPERIOR GOLD & COPPER COMPANY, LIMITED. This Company owns and operates some valuable native copper properties. We are in a position to offer you a special opportunity in this stock which as an investment should give you a profit of at least **100 per cent in six months.** Send for prospectus and particulars.

Occasionally we have an opportunity of giving our clients a special offer on some stocks, and we have this opportunity now. If you are interested write to us at once. These shares are sold in large or small blocks to suit buyers.

We deal in all legitimate mining shares on commission. If you want to buy or sell write us.

Currie & Kiteley
52 YONGE STREET, TORONTO

The Honest Johns Mining Company

has been organised for about 3 years, during that time, steady development, work has been in progress, with the result that the Company have got now about 8 feet of ore lead carbonate, about two and a half miles from the track and about 60 miles from the Le Roi Smelter at Northport). The average assay is about [illegible] in Lead and Silver

The Company are offering now a limited amount of Stock at 15c per share, which will be the last offered.

The Company owns three claims, with only a capital of [illegible] shares. If our readers want to get in to a first class proposition, that will ship in about 60 days, now is your time. Address

ADVERTISE IN THE MORNING TIMES.

Enameline is the Modern Stove Polish, which means UP-TO-DATE; that is, labor-saving, brilliant in effect, no dust and no odor. It makes a rusty old stove look as good as new in a minute. Put up in paste, cake or liquid form.

J. L. PRESCOTT & CO., New York.

Morning Times

PETERBOROUGH, DECEMBER 8, 1899

MILLBROOK.

Batch of Breezy Notes from Peterborough's Southern Suburb.

From Our Own Correspondent.

Having heard from good authority that the influential Sir John Horner made some very satirical comment on Saturday evening to the "Guide's" worthy correspondent, who is perfectly ignorant of the matter in which he was wrongly accused, and also made some impertinent remarks to one of our supposed rural scribes in the person of J. B., we thought we would advise His Honor to remember when he makes his insinuations, and also enlighten his intellect, by asking him to remember that Thos. A. Edison has applied for a patent for a snap shot gramaphone which he intends using for all Stentorian speeches, and we might also suggest to Mr. Horner that if he has a surplus over $500 in any of the Manvers' numerous banks to deposit his liberal reward at once with the secret service of the U.S. O.R. Soap box, 341 Nowhere, in the 42nd flat of twilight.

NOTES.

Mr. George Carveth has made a grand improvement to the outside appearance of his butcher shop by removing the old frame wall and replacing it with metallic sheeting, which is being done by the skillful hand of Mr. Robt Edmunds. We would judge from the numerous improvements George has been making of late that he soon intends taking Cupid's blissful vow.

Miss Flossie Sotheran returned home Tuesday after a pleasant visit with friends in Peterborough.

Mr. Isaac Richardson shipped a choice car of hogs from Omemee Tuesday to Geo. Matthews Co., Peterborough.

Mr. T. B. Collins went up to Peterboro', Monday on business.

Mrs. Geo. Needler returned home Tuesday after an enjoyable fortnight's visit with her son in Toronto.

Mrs. H. Burnham returned home Wednesday, after a short visit with friends in Peterborough.

Mr. John Clarke returned home Monday, after an extended visit with his daughter, Mrs. Booth, Toronto.

Mr. Joseph Kells left for his home in Toronto, Monday.

Mrs. J. Steele returned home Wednesday, after a pleasant visit with friends in Port Hope.

We notice Mr. W. H. Russell getting things ready to build on the lot adjoining his residence.

Mr. R. B. McPherson, of Peterborough, formerly of here, left for home Wednesday after the acetylene gas in the wide-awake store had been exhausted by superfluous burning.

The King's Daughters of St. Thomas' church intend giving a grand entertainment in connection with their sale of fancy work in the town hall soon.

Conservative Convention.

The Conservative convention for East Durham was held in the Town Hall Tuesday, and was largely attended. Among those from a distance who took part in the speaking we noticed Messrs. H. A. Ward and T. D. Craig, M. P., Port Hope. Our worthy member, Mr. W. A. Fallis, made a very suitable reply.

Sons of Rest.

The United Sons of Rest met in their up-to-date hall Tuesday evening, but owing to the poor attendance very little business was done. After his Honor President Wm. Barlo opened the meeting by singing the opening ode, John Bullied, after being supplied with a tomahawk, two Hotchkiss guns and a bunch of fire crackers, was despatched to the entrance to fill the position of outside guard. His Honor then asked the Secretary to read the minutes of the last meeting and also any reports during the past week. After the Secretary, Geo. Leach, finished the same in a satisfactory manner, Economical Armstrong moved that the reports be left on the table till coming week, and also that the meeting be closed till the regular meeting night on the following Tuesday, owing to the small attendance of members which was carried. The President then arose and said as it was their desire he would close the meeting by singing the parting ode and national anthem.

BAILIEBORO.

From Our Own Correspondent.

As news from our charming little suburb overlooking the picturesque waters of Rice Lake have been very brief of late, there being only the more important events chronicled such as the artistic wedding and annual church festivities, I thought I would keep up our popularity by writing you a few of the numerous locals to your valuable paper which if read with the pleasure the winning damsels of Millbrook are sought after by our esteemed young gentlemen, one of your noted papers will be seen flying from the flag pole of Paul Kruger's mansion in Pretoria before Fred B. takes his next drive to the Octagon Mill, as a signal for Her Majesty's noble troops to cease hostilities in the Transvaal.

We notice that Mr. Levi Byers has his bills out announcing the sale of his valuable farm stock and implements on December the 13. We are very sorry to have to note the above, as Mr. Byers is one of our most respected and influential citizens, but having become deeply attached to the Prairie province, he has decided to go West in the spring.

It is with sincere regret we state the misfortune of one of our most intellectual young men, who is at present spending his honeymoon in the eastern provinces, amid the pleasures of famous palaces, to be compared only with Sunny Italy's and gorgeous scenery of the pioneer cities and River St. Lawrence, but who upon arrival at Port Hope's modern hotel after the long cab drive, his intellect being engrossed on a blissful future, neglected to register but his own name, till shown the error by the genial clerk. The numerous commercial travellers who were present at the time of [illegible], taking advantage of the error, had a good key note for a long story which at present is travelling faster thar. the Black Diamond express on the Wabash. We wish Johnny better success in the east.

Mr. Hilliard Dawson, who, during the past has been searching the degrees of longitude and laditude in search of a suitable fair one, has at last located the same in Millbrook's wide-a-wake store. Congratulations Hillie, may you keep us posted in the latest feathers and flowers.

Mr. Fred Bateman made his usual trip to Millbrook Sunday, where, after a delightful drive with one of Millbrook's belles to Centreville church, returned home Monday morning just as John McBride's noted game rooster awoke Thos. Luck from a sweet repose, dreaming over past pleasures. Fred, upon being asked how he liked the drive, stated after an extended reply that the only comparison he could make between it and a blissful hour in Paradise would be reading Mark Twain's popular book "Following the Equator."

We would like to know if J. Isbister intends reaching the goal he has started for.

Well, your correspondent was at Garden Hill, Monday, paying a draft at the first National bank for one of J. D. Perrin's Red Bird bicycles, with interest at the low rate of 25 per cent. He was informed by Messrs. Wm. Gray and H. Swanson that on Friday they had got their superior, and Robt. Cunningham, Millbrook, in a criticizing discussion about putting in a carload of railway ties without removing the old ones, went to Millbrook, where they were met by His Honor Jas. Hales at the Junction, who at once took them to his residence, where, after a sumptous repast and frequent visits to his well filled lockers, called on brother, Wm. Raper, and went down town to take in the sights. Upon arriving at Tupper street corner they were greatly surprised but pleased to meet their dignified friends, Messrs. N. McBrien and Thos. Armstrong, who at once took them over to the renowned mineral water well on the corner and filled their canteens to such a overflowing measure that Mr. Swanson soon began to think he had taken a bath in the deep waters of Lake Erie. Mr Gray then proposed to visit the U. S.O.R. Hall. He had concluded to join the club if accepted. Mr. McBrien acted as pilot and soon had his friends in the beautiful Hall. Mr. Swanson's consternation arose to such a pitch by the grandeur of the place that he would only consent to leave when the fast freight for Oporto whistled at the depot.

QUITE A DITCH.

Russia Building One Which Will Be 1,000 Miles Long.

The career of prosperity which the Manchester ship canal appears to have entered upon at least has inspired Brussels to favor a similar project for that city.

It is proposed to make the city a maritime port, with dock accomodation, and a basin for shipping, comprising about thirty thousand acres. The canal will be about seventy-five miles long. The work has not yet begun, but it is said there is no doubt that the scheme will be carried through.

Both the Manchester ship canal and the projected waterway in Belgium sink into insignificance when compared with the Russian canal that is now being built from the Baltic to the Black sea. It is to be 1,000 miles long, large enough to permit the largest warships to pass through. It will have a width at the top of 217 feet, and 117 feet at the bottom, with a depth of 28 1-2 feet.

The canal is being so strongly built that vessels may steam through it at the rate of six knots an hour. It will take six days for a large vessel to pass through it, traveling night and day. The canal is to be lighted along the whole course by electricity, and the total cost is estimated at about £24,000,000. Four years will be required to complete the undertaking.

The advantages, commercial and otherwise, which Russia expects to derive from the making of this mammoth canal will more than compensate for the enormous outlay and the scheme is viewed very favorably throughout the czar's domain. —London Mail.

A GOLDEN BUBBLE BURST.

The Franklin Syndicate of Brooklyn in the Hands of the Police.

Another dream of wealth has vanished in the collapse of the Franklin Syndicate of Brooklyn, and the hunt for its sponsors, William F. Miller, its head, and Cecil Leslie, press promoter and secretary.

The syndicate began business in a poor quarter of Brooklyn two years ago as a banking institution, agreeing to pay depositors 10 per cent. a week for the use of their money, or 520 per cent. a year. The concern gave out that it was able to do this by inside advices in the stock market and the making of millions by the rise in listed securities. This went on quietly for nearly two years and 10 per cent. was paid depositors as per agreement. About two months ago the syndicate advertised widely and a golden shower of astounding volume found its way to the coffers of what has been aptly termed the dividend mill. One day $81,000 was taken in and in all some $1,000,000 was received across its counters. The banking house soon became the busiest place in Brooklyn and a small army of clerks, bookkeepers and type-writers were engaged in its service. The New York bankers of standing refused to have anything to do with the business offered by the syndicate, because the officers were certain it was a swindle. The patrons were scattered all over the country, while nearly every policeman, fireman, domestic or school teacher in Brooklyn were entrapped into the device. Mr. Miller, who joined the Presbyterian congregation of Dr. Meredith, of that city, was expelled, made made havoc with the members and the pastor complained to the police that he was running pretty nearly all the young men of his congregation by his Monte Christo scheme.

For a long time the authorities have had an eye upon the prime movers of the syndicate an dfinally determined to close up the place and arrest the promoters. Miller and Leslie, forewarned of this action disappeared, and so far have escape apprehension. A warrant was issued charging the promoters with conspiracy to obtain money by fraudulent representation. The Federal Government also wants them for failing to place revenue stamps on receipts for deposits.

So ends the Get Rich Quick syndicate which has defrauded tens of thousands and given renewed meaning to the saw that "a fool and his money is soon parted." For days the past two weeks a long line of depositors awaited their turn in the street to giveup their money and get 10 per cent. for it, and one day the line was 200 feet long and required several policemen to keep it from becoming a mob.

Miller is described as Napoleonic in scheming, of fascinating address when it pays to be so, but frigid when he is displeased with conditions or persons. It is believed he and Leslie have at least $500,000 as the result of their knavery in this deal.

In every instance Miller paid the 10 per cent. a week on deposits, just as he agreed, and never failed to return the principal when he was asked to do so. He simply paid the interest out of the deposits which poured in upon him, and so long as these deposits came in sufficient quantities he would have been able to do this and still retain large amounts. Ultimately, of course, he was destined to come to the end of his rope, and the number of victims is simply less than if he had been permitted to go on for a time longer.

The Habits of Moose and Caribou.

The current number of Forest and Stream contains the following contribution from a Quebec correspondent concerning the habit moose and caribou have of going to the same place season after season to shed their antlers:

"The idea of the animals seeking a definite place for this purpose was quite new to me, but lately the efficient Superintendent of Game and Fisheries at Quebec, L. Z. Joncas, Esq., told me that they do frequent such places and that this habit was quite well known to him. He knew of many and mentioned several places where horns could almost certainly be found at any time. And not only do they go to shed their horns, but they go there to die. These places are known as cemeteries and whole skeletons are occasionally found. This, however, would be rare, as the bones would usually be torn apart and scattered by bears and other carnivorae.

"Mr. Joncas instanced the case of a gentleman going to a certain region for geological exploration, who asked for a permit to shoot a moose out of season in order to get a good pair, of antlers. He was told that by diverging a little from his route he might reach a place where he would find plenty of them. He did so and secured five excellent specimens."

Endorsed by Physicians

"I desired to test in my practice various Witch Hazel products. I have done so, and am thoroughly convinced that your preparation (Pond's Extract) is preferable to all others for either internal or external use."

H. W. MARSH, M.D., Detroit, Mich.

We have thousands of testimonials from well-known physicians.

Pond's Extract

is and always has been manufactured by ourselves, at our own factory, and is guaranteed unequaled, in quality, purity, uniformity and medicinal virtue.

It is FOUR times as strong as Witch Hazel. Never sours.

Xmas Boxes.

The most suitable and seasonable Xmas Box is some thing warm, comfortable, neat and pretty from the Port Hope Knitting Works. Telephone 330, Ask for Trading Stamps.

Marriage Bells.

Rev. J. G. Potter, of St. Andrew's, officiated at a wedding that was quietly solemnized at the manse on Wednesday evening. It was the marriage of Mr. Robt. Pollock, and employee of the G.T.R., to Miss Lizzie Harris. The bride was attended by Miss Mary Boyd, of Marmora, and the groomsman was Mr. M. Mead, of Douro. Mr. and Mrs. Pollock have taken up their residence at 179 Antrim street.

Sham Rock

Is a name given by some to our granolithic pavements. Some shoes have sham soles, which when wet are taken off very easily by the sham rock, and thus the sham sole is lost. To avoid the latter buy your shoes from Kidd—the price is no more, but less, and trading stamps given as well.

A Business Change.

The partnership hitherto existing between Mr. Robt. J. Fife and Mr. Dickson Davidson under the firm name of Ormond & Walsh, druggists, has been dissolved. Mr. Davidson retires from the firm and Mr. Fife will continue the business in the old stand.

Phrenology.

Prof. A. H. Welch, F.A.I.P., Consulting Phrenologist, is at the Oriental Hotel for a few days. Hours 10 a. m. to 10 p. m. Consult him now and make your future a happy success. Ushers will take you to his parlors when you enter hotel.

Gets One Month.

At the police court yesterday Tom Dolan, of Toronto, who claimed to be working on the C.P.R., was before the Magistrate on the charge of stealing an overcoat from a man named Meade, of Otonabee, on Saturday last. He was found guilty and was sentenced to three months in gaol.

Consumption Cured

An old physician, retired from practice, had placed in his hands by an East India missionary, the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma and all throat and lung affections; also a positive and radical cure for Nervous Debility and all Nervous Complaints. Having tested its wonderful curative powers in thousands of cases, and desiring to relieve human suffering, I will send free of charge, to all who wish it, a recipe, German, English or French, with full directions for preparing and using. Sent by mail, by addressing, with stamp, naming this paper. W. A. Noyes, 820 Power Block Rochester, N. Y.

Inspecting Machinery.

Captain Jack Martin left yesterday on a tour through the mining districts of Hastings. He proposes taking out a quantity of machinery to Atlin in the spring, and his present trip is with a view of getting the best. The captain will be away about ten days.

Wedding Stationery.

We have just received direct from New York a large stock of Crane's wedding stationery. Invitations printed to order in the latest styles. Also, wedding cake boxes of latest designs. The Times job rooms make a specialty of printing a home cards the very best and nobbiest patterns.

New Readers

We have just received a neat little book of new readings in Scotch and English for social gatherings. The selections are from the works of Mr John Imrie, Toronto, and are up to date. For sale at Times Bookstore.

NEXT YEAR'S COUNCIL

The Result of Tuesday's Vote for Mayor and Aldermen.

ALD. McWILLIAMS LEADS.

And Ex-Mayor Yelland Drops into Second Place for Mayor.

The Votes Pouring in, and considerable Interest being Taken in the Contest—a large number of Good Names Mentioned.

The leading candidates for the Mayoralty up to three o'clock yesterday were—

Alderman McWilliams	125
Ex-Mayor Yelland	90

The leading nominees for the Council are —

J. B. Oke	105
J. H. Cobb	100
H. Best	95
W. Salisbury	90

The contest for position around the Council board will soon become intensely interesting. Ald. McWilliams leads in the Mayoralty contest by 35 votes, while our esteemed George street fruit merchant, Mr. J. B. Oke, leads in the race for the Council. It is proper that ratepayers should be aroused. Unless they take interest in Municipal matters they cannot expect a good Council. Our readers should remember that only those who possess the necessary legal qualification can be presented in these columns as candidates. For instance, we received a number of votes yesterday, in which the esteemed proprietor of the Snowden House appeared. By reason of his holding a license, Mr. Snowden is disqualified, and therefore cannot enter the contest. Another instance—A number of ballots were cast for a man who does not possess a dollar's worth of property within the corporation. Such nomination is, of course useless. Our readers will please take notice and govern themselves accordingly.

A business man writes—Let us try and get a Council next year who will pull together and endeavor to amend our market by-law so that a large number of farmers will attend. We ought to have the best market in Canada.

H. M. writes—I enclose five ballots for Ald. McWilliams. I consider him the best man for the position of Mayor in town. Fearless in battling for the people, there will be no danger of such scandals as has occurred the present year again happening. We want fewer paid officials in connection with our streets than we now have.

NOT A CANDIDATE.
Editor Morning Times.

Sir,—The plan adopted by your valuable and interesting paper is no doubt the one best adapted to finding out the will of the people before nomination day. In this morning's edition I see my name. Would you kindly withdraw it, and inform my friends to poll their votes in your columns for some person more fitted to stand the wear and tear of the the position. The candid nature of the comment upon public affairs, in the Times makes it of great interest to your readers. You will oblige &c.,

Yours truly.
J. H. BURNHAM.

Have Trouble with Your Breakfast Dish?

TRY

Grape-Nuts

Perfectly Cooked.
Ready to Serve.
Delicious and Healthful

"The breakfast cereal cooked five minutes in a half-hearted way will in time weaken the stomach of anything short of an ox.

"The cells of cereals and many vegetables are tough and hardened membrane, within which are enclosed nutrition.

"Now these cells burst open only when cooked for a long time, at a high temperature.

"Any preparation of wheat put into water that is below the boiling point and cooked as mush is usually served, remains a pasty, indigestible mass. The cells are tough and unopened. In addition the stomach of a person sensitively constituted refuses to do anything with the pasty mass. It is sent into the second stomach, the Duodenum, where in consequence of the closely sealed membrans and the long time of the first process of digestion, is fermented and soured. As an eminent medical man pertinently states, the stomachs of half the people going about the streets are about in the condition of an old vinegar barrel.

"Intestinal dyspepsia is the direct consequence of such feeding." Good Housekeeping.

Knowledge of these facts and a wide experience in the preparation and use of cereals brought out the product known as Grape-Nuts, manufactured with special reference to having the nitrogenous and starchy parts of the grains, of which the food is composed, perfectly and scientifically cooked at the factory, ready for immediate use and therefore not subject to the manipulations of any cook, good or bad.

The grape sugar is shown glistening on the little granules and gives forth a delicate, sweetish taste, very palatable.

Children and adults obtain fine results from the use of Grape-Nuts Food. It is so perfectly adapted to the wants of the human body and so easily digested that many cases are on record of nursing babes being fed very successfully on it.

All first-class grocers sell Grape-Nuts food and it is made by the Postum Cereal Co's factories at Battle Creek, Mich.

NO SUFFERING IN CAMP.

From Dread Catarrh—Dr. Agnew's Catarrhal Powder Kills the Disease Germs and Cures the Distressed Parts—Relieves in Ten Minutes.

Alf. Lablanc, of St. Jerome, Quebec, says he used Dr. Agnew's Catarrhal Powder for an acute case of catarrh in the head and it cured him. He has 125 men working under him in the lumbering camps, and what it has done for him it done for many of them. He buys it for camp use and pins his faith to it as the quickest reliever for colds in the head and surest cure for catarrh. Sold by Ormond & Walsh and H. S. McDonald.

LITTLE LOCAL LINES.

The High Tea at St. Luke's, Ashburnham, on Thursday night, was a grand success.

Dr. Blanchford, V. S., who exchanged practices with Dr. Johnston, is meeting with great success in town.

The London News says—Misfortunes seldom come singly. Hon. J. R. Stratton knows that, for has he not been chosen a Cabinet Minister and had his book store burned out?

A number of the non-coms. and men of the 57th Battalion, including Sergt.-Major Britton, the new instructor, under Major Miller, are rehearsing some tableaux to be presented on Wednesday next at the concert held under the auspices of the King's Daughters.

The Times has stirred up the municipal pot almost to a boiling point. The Board of Trade has taken the matter of municipal politics up, and has announced a meeting for Monday night, at the Council Chamber, when the municipal situation will be discussed.

Orillia has disposed of $75,000 power scheme debentures to the Central Loan & Savings Company at a premium of $1,525. They are for 30 years. The rate is 101 1-2. The Central Co. will take up $30,000 of the debentures before Dec. 31, and the balance not later than July 1, 1900.

Two well-known members of the Peterborough Fire Department, and a prominent Charlotte-st. merchant, left town on a hunt on Monday last, and reported home with the largest "cat owl" that was ever shot in this district. Mr. Elcombe, taxidermist, has the contract on hand of mounting the bird.

The body of the man found alongside the track by Wednesday's east-bound express, and brought into Lindsay, proved to be that of a farm laborer named Earhart, who, together with his aged wife, and grandson and wife, lived near the track two miles west of Mariposa station. He was on his way east to a swamp about one mile away from his home, to cut wood for the day, when he received the injuries which caused his death.

APPALLING DISASTER TO BRITISH FORCES UNDER GEN. GATACRE!

Gen. Gatacre, in Attempting to Storm the Boer Position at Stormberg, is Misled by Guides and Surprised by the Enemy.

2 KILLED, 26 WOUNDED, AND 596 CAPTURED.

British Obliged to Abandon a Gun—Complete Casualties Not Yet Known—Disclosure of Such Strong Boer Force at Stormberg Quite Unexpected—Result Owing to Absence of Proper Cavalry Scouts.

(Special Despatches to The Times, 3 a.m.)

London, Dec. 10.—The War Office publishes the following despatch from Gen. Forrestier-Walker at Cape Town:—"Gatacre reports: 'Deeply regret to inform you, that I met with a serious reverse in the attack on Stormberg. I was misled as to the enemy's position by the guides and found impregnable ground.' Casualties so far as known are: Second Battalion Royal Irish Rifles, wounded, Lt.-Col. Eager, Major Seaton, Capt. Bell, Capt. Kelly, Lt. Stephens, Lt. Barnardson; Suffolk Regiment, Lt. Maynard and 12 men. Missing; Capt. Wiese, Lt. Christie, Lt. Rodney and 290 men. Seventy Fourth Field Battery, severely wounded, Lt. Lewis and three men, slightly wounded, two men.

Seventy Seventh Field Battery; killed, one gunner; wounded, Major Percival. Northumberland Fusiliers, missing, Major Stevens, Capt. Fletcher, Capt. Morley, Lt. Wake, Lt. M. Coulson, Lt. Baniff, and 306 non-commissioned officers and men. Royal Berkshire Regiment, killed, one private.

The remainder of my casualties will be wired as soon as ascertained.

Molteno, Cape Colony, Sunday Dec. 10.—Gen. Gatacre left Putters Kraal by train for Molteno and then proceeded by forced march 12 miles toward Stormberg. He had 2,000 men including the Northumberland Fusiliers, the Royal Irish Rifles and two batteries of field artillery. The British were unmolested by the Boers until the Boer position was reached, when a hot fire was unexpectedly opened upon the advancing column. The engagement began at 4.15 a.m. At 7 a.m. after a sharp artillery duel, the British retired. They are now marching toward Molteno. Gen. Gatacre found the enemy's position impregnable. It was impossible for them to get at the Boers.

Cape Town, Dec. 7.—One hundred men of the Naval Brigade proceeded to the front to-day. It is known that the Boers have cross ends on their Mauser bullets thus producing an effect similar to the dum-dum. Haly and Warren and 30 men left the camp at Carvenon to-day and when four miles out sighted a patrol of twelve Boers who sought cover. Two of the Boers were wounded. Haly ascertained that the Boers were in strong force in a laager and retired to his base. This is the first brush of Gen. Gatacre's forces and they are all eager to follow it up.

Molteno, Cape Colony, Sunday, Dec. 10th; 5.30.—Gen. Gatacre's movement may be termed a reconnaisance in force. Its object was to ascertain the strength of the position of the Boers, who were strongly entrenched along the Stormberg range. He left Putter's Kraal shortly after noon yesterday with a fighting force slightly over 4,000 men. Leaving Molteno at 9 last evening, he made a memorable night march over the rocks and veldt. There was no sound except a steady tramp and there were no distinguishing lights the bright moon having gone down about half past eleven. The column arrived safely within a couple of miles of its destination, the only incidents of the march being an occasional sudden call of "Halt," under the belief that the Boers were near. Suddenly a terrific fire opened simultaneously on the British front and right flank. The Royal Irish Rifles which formed the advance, sought shelter behind a neighboring kopje and were speedily joined by the remainder of the column. It was soon found, however, that this position was also covered by the Boer guns, which were more powerful than hadb een been supposed

The British, therefore, sought a safer position about half a mile away two batteries, in the meantime engaging the Boers, and covering the troops in their withdrawal.

The action now became general at long range and a detachment of mounted infantry moved northward with a view of getting on the enemy's right flank. Suddenly a strong commando was seen moving from the north and the Royal Irish Rifles were sent out with the Northumberlands to meet it. It was soon discovered however, that the Boers had machine guns well placed and the British were compelled to face a terrific fire. Finding it impossible to hold the position in the face of an enemy apparently superior in position, numbers and artillery, the British retired on Molteno, the Boers following up the retirement closely and bringing two big guns to bear on the retiring column. It is believed here that the British casualties were not serious.

London, Dec. 10.—A despatch to the Times from Modder River says the unpopularity of President Steyn, of the Orange Free State, is growing among the Free Staters and Cape Dutch.

London, Dec. 10.—It is stated to-night that the Government has decided on the formation of the volunteers. It is supposed that a half of million volunteers will join the new organization.

London, Dec. 11.—The War Office has received the following despatch from Cape Town, dated Saturday noon—"The position of the enemy in Stormberg district was the following—At Stormberg six laagers; at Dordrecht, 800 men; twenty-three miles of Sterkstrom, 220 men. Major Elliott reports that Delgeety with force has gone toward Dordrecht to co-operate with Gatacre. The railway bridge at Modder River was completely destroyed Dec. 7. Methuen reports that he made a demonstration up the line of the railway at daylight to-day with artillery. The enemy did not respnod. Methuen is receiving the remainder of his reinforcements and supplies. He has established detached posts no his lines of communication.

"Mafeking reports all well on November 30th."

London, Dec. 10.—A despatch to the Times from Pietermaritzburg says—Three bodies found after the Mooi River fight proved to be the remains of three scouts belonging to Thorneycroft's Light Horse. They had been captured by the Boers and while bound had been riddled with bullets. The troops are indignant over this outrageous treatment.

A copy of the Johannesburg Standard and Digger's News received here contains a list of the Boer casualties at Elandslaagte. The list shows that the Boer loss in that fight was 43 killed and 110 wounded.

London, Dec. 10.—A despatch to the Times from Cape Town says it is reported that the Imperial Goverment has instructed Sir G. H. Elliott, commander of the British forces in Griqualand East to arm the natives for defensive purposes.

Orange River, Saturday, Dec. 9.—Half the men of the Canadian contingent have gone forward. Like the Australian contingent they have been put to stiff work since their arrival and have been building sidings, erecting platforms and rendering the usual routine service. They are in excellent condition and very zealous.

Cape Town, Dec. 9.—It is rumored here that the Boers attacked Kimberley at close quarters last night, but were repulsed with heavy losses.

London, Dec. 11.—Two shallow draught river gun boats are being prepared at Chatam for service in South Africa. Each will carry two six pounder quick firers, and four maxims.

London, Dec. 11.—A special despatch from Ladysmith by way of Frere adds to the War Office account cabled Saturday of the capture of the Boer guns near Pepworth hill. It says—"General Brocklehurst with cavalry and artillery reconnoited in direction of Pepworth Hill with a view of cutting off the Boer retreat, but he found the position still strongly held. The 18th Hussars pushing forward drew a furious fire and suffered severely losing four killed and seventeen wounded. The Boers fired incessantly as the British slowly retired. At a special parade afterwards General White thanked General Hunter and all engaged, especially Major Henderson, for brilliant work."

London, Dec. 11.—The Times published the following from Molteno—"General Gatacre attempted to assault the Boer position at Stormberg at dawn to-day (Sunday). The guides led us wrong, and we were surprised while in fours, and after a very trying march. Our retirement was effected in excellent order, there being no hurry even at the most critical time. The Northumberlands and Irish Rifles behaved as if on review. I hear our losses are heavy. One of our guns we had to abandon."

Londno, Dec. 11.—4.30 a.m.—It is hardly too much to regard Gen. Gatacre's repulse near Stormberg as the most serious defeat British arms have yet sustained in the whole campaign. Already the official advices show that two men were killed, nine officers and 17 men wounded, and nine officers and 596 men are missing. But it is evident that the worst is not yet known. The proportion of wounded and killed is so small, when compared with the missing—who are undoubtedly prisoners in the hands of the Boers—that the supplementary list of casualties is awaited with serious misgivings. It is also feared that there were severe losses of guns and equipment.

The most serious aspect of the affair is the effect it is likely to have on the Dutch and Cape Colony, who have been wavering as to whether to cast their lot with the Boers. Hosts of the northern farmers are now likely to join the rebellion. The defeat is also serious because it will delay the junction of Gen. Gatacre with Gen. French at Naauwpoort. The plan was for these combined forces to relieve the pressure on Lord Methuen's column.

The disclosure of such a strong force at Stormberg was quite unexpected. Doubtless Gen. Gatacre was the victim of treacherous guides, but the result points also to the absence of proper cavalry scouting.

The British troops who recently arrived at Arundel are advancing. They have had several skirmishes, but no casualties. Three miles north of Arundel they found the Boers 2,000 strong. The Pretoria reports of the renewed fighting at Modder River originated from the fact that the British with 52 oxen hauled a naval gun to the top of a high ridge north of Modder River, whence they fired lydite shells on the Boer position at a range of 6,700 yards where the enemy was apparently constructing an embankment for a 40 pounder. The lydite shells appevared to do immense damage. The Boers retired, but the incident is interesting as showing that the Boers are still on position quite close to Modder River. The engineers report that it would take two months to rebuild the iron bridge.

Lord Methuen is still compelled to ride about in a dog cart, as his wound prevents him going on horseback. Should the rains destroy the temporary bridge, there is enough rolling stock on the north side of the river to serve Lord Methuen's purpose. It is reported that the Boers are busy making entrenchments at Spyfontein.

Several tiers of works are beginning to appear at the foot of the heights.

The force fired on by the British naval gun is believed to form the right wing of the enemy's main body thrown forward for patrolling and scouting purposes. It is reported that the bad water at Spyfontein threatens an epedimic of typhoid.

Kimberley reports all quiet there up to Dec. 7 and that the pressure of the investment is diminished.

A despatch from Cape Town to the Daily Mail, dated Dec. 7, says; "News that Chiefs Khama, Linchive, Bathoen and Secheli, with their people in Bechuanaland, have risen to attack the Boers, seriously complicates the situation. It is probable that the Basutos and other tribesmen will follow their example

Boer Head Laager, Ladysmith, Dec. 8.—The British have stormed and carried the hill at Lombardskop, putting a big Creusot gun and one Howitzer out of action and capturing a small Maxim.

The British troops made a sortie between 1 and 2 o'clock in the morning. They crawled up a ravine and stormed and carried Lombards kop, which was held by the Boers and on which were placed a Creusot gun and a Howitzer. These guns were destroyed with dynamite. The British captured a Maxim gun and then retired.

The Lancers, Hussars and Guards made a sortie west of Ladysmith at daybreak under cover of a heavy artillery fire, which the Boers returned briskly. The British afterwards returned to Ladysmith. The Boer losses are reported to have been slight.

A strong burgher column has crossed the Tugela River at Colenso with the object of attacking the British Estcourt column

London, Dec. 9.—A special despatch from Pretoria dated Friday, Dec. 8, says that 3,000 British troops, preceded by an armored train are advancing on Colesburg from Naauwpoort.

◆

UNIQUE GAMBLING DEVICES.

Clever Contrivance of Sharpers to Insure Winning.

Gambling is only a polite form of thieving, therefore it is not remarkable that confirmed gamesters should stoop to fraud as a means of enchancing their chances of winning; but it is remarkable that other gamesters should be so blind to the devices invented by more ingenious fellows; and fortunes have been won by clever sharpers, from men and women who have been well alive to their own interests and not wanting at cunning suspicion, by clever contrivances of their own construction.

It is not often that a gambler is sufficiently enterprising and mean as to have a card room specially constructed to facilitate his fleecing his victims and visitors; but to even this length went a man who, despite his vast private fortune, systematically preyed upon the pockets of his wealthy acquaintances. The room room was constructed so small that only sufficient space was allowed for a square table and the chairs of four players, the object of this being to prevent onlookers or anyone standing behind the particular chair which the host always took.

THE COUNTY COURT.

Cases to Come Before the Court Which Opens To-morrow.

The Fall session of the County Court opens to-morrow before His Honor Judge Weller. There are in all four cases set down for hearing. Two of these are jury and two no-jury cases.

Graham vs. Denyes.—Jury.—This is a case in which George N. Graham, of the Oriental Hotel, Peterborough, seeks to recover from Philip Denyes, a farmer near Belleville, the sum of $200 damages for alleged fraudulently warranting a horse to be sound, which plaintiff alleges was not sound at the time of said transaction. The defendant denies that he ever warranted the horse to the plaintiff, and that he made no representations to the plaintiff to buy said animal. Stratton & Hall for plaintiff; Edward O'Flynn, Belleville, for defendand.

Kirk vs. Ryan.—Jury.—John Kirk of town, seeks to recover from John Ryan, the sum of $175 for alleged breach of contract.

The plaintiff claims that in April of this year the defendant sold to the plaintiff one car load of potatoes and agreed to deliver same to plaintiff on the 25th day of April, free on board the cars of the C.P.R. at Burketon. The defendant, so the plaintiff alleges, was paid $5 on account thereof. The defendant did not deliver said potatoes. He therefore claims the above stated damages. The defendant, Ryan, denies that he entered into such an agreement, and that he did not received the $5 mentioned in plaintiff's statement of plaintiff's statement of claim. Daniel O'Connell for plaintiff; Stratton & Hall for defendant

Dickson vs. Walsh.—Non-jury.—The plaintiff, William Dickson, is a farmer residing in the township of Asphodel, and was a tenant on a certain farm owned by defendant, John Walsh. The plaintiff alleges that the defendant wrongfully distrained his goods and chattels for pretended arrears of rent. He claims $200 damages. The defendant denies these allegations. Edmison & Dixon for plaintiff; D. O'Connell for defendant.

Cameron vs. Cummings, et al.—John Cameron of town, seeks to recover from James Cummings, formerly a farmer, residing in Ashburnham, the sum of $200, being the amount of a certain promissory note. The defendant, James Cummings, denies that he ever made the promisory note referred to and asks that the action be dismissed with costs against the plaintiffs. The defendant, William Cummings, also denies that he made the said promisory note, and that in any event the plaintiff's action did not arise within the past six years, and is barred by the statute of limitations. Hatton & Wood for plaintiff; Hall & Hayes for defendants.

Public Meeting To-night

A public meeting will be held in the Town Council Chamber, on Monday evening at 8 o'clock, for the purpose of discussing municipal affairs. The Board of Trade, under whose auspices the meeting will be held, invites every rate-payer to attend, and to express his views, if desirous of doing so. The meeting is made a purely public one for this purpose. Mr. John Carnegie, President of the Board of Trade will occupy the chair.

Where Will It End.

To the Editor of Morning Times.

Sir—I see by your valuable paper that the council proposes to pay Mr. Smith, blacksmith on Aylmer street, $50 damages for injury to his business while the street authorities were monkeying with the street last summer in front of his premises. Now, Mr. Editor, if Mr. Smith is to get damages, I also intend to put in a claim, and I know of others who will do the same. Where is the thing to end? Has Mr. Smith got a pull with the council that others have not?

I commend this subject to the consideration of the public meeting on Monday night.

Yours truly,
Dec. 9, 1899. VERTAS.

Not Fair to Regular Tradesmen.

To the Editor of Morning Times.

Sir,—Quite a number of sales of different sorts have taken place, or are about to take place in and around Peterborough. These are ostensibly for charitable objects, but at the same time all thoughtful people must be impressed with the fact that such sales interfere with the business of the regular tradesman, which is certainly most unfair. Much better collect hard cash for the charitable objects it is intended to benefit.

Some Bad Boys.

Willie Casper, a twelve year old boy, was sentenced in Toronto Police Court to St. John's Industrial school for four years. The lad had been a resident of Peterborough, and the town will be obliged to contribute $2 per week for the whole term, or over $416 in all. The council should instruct the solicitors to look into this matter, as Casper was a resident of the town when the offense, for which he was sentenced, was committed.

Church Notes.

Rev. W. L. Armitage, delivered an address at the Y.M.C.A. men's meeting yesterday afternoon.

The usual service of praise took place in St. Luke's yesterday evening. Rev. Mr. Symonds preached the third of the sermons on "Saints," "The Saint as Philanthropist, John Howard the Prison Reformer."

The sacrament was administered in the George street Methodist church yesterday morning.

Rev. Mr. Crossley in the Charlotte street Methodist church, preached on the subject of "Common Sense in the Management of Life."

THE PAVING CONTRACTS

Argument of Counsel at the Investigation.

SPEECHES OF COUNSEL.

Addrdss of Mr. R. F. McWilliams' Continued.

The Council for the Contractors Have to Follow, Which Will Take Several Days Yet.

formation valuable to those for whom he acts and conceals it from those for he acts to their injury he is just as culpable as if he falsified.

In the decentures providing for the payment it is assumed that they shall last for twenty years. The doing in an inferior maner of such work, Mr. McWilliams held, amounts to a fraud. The work is covered up and concealed and anything wrong in it may be considered to be a fraud amounting to a breach of trust. This work is not open to a fair inspection.

What is Wanted.

The aim of this enquiry is to give to the body responsible for the management of the town affirs exact and full information as to what has been done by each of the parties interested in the work. Mr. McWilliams held it to be His Honor's duty to give his opinion or judgment on the rightness or wrongness of the different parties concerned where the evidence was such as warranted him in so doing; where the evidence is not sufficiently strong for this he believed it to be His Honor's duty to answer the questions asked as fully as possible. The Council had asked these questions in a resolution carried unanimously.

Last year it was decided to have the very best pavements. They asked for two kinds of tenders, sand and granite finish, and the town decided to take the dearer and better. Whether the pavement laid this year is or is not a good pavement is not the question. It is not the specially good pavement called for. It is not a fulfillment of the contract if the contractors lay what they claim to be a good pavement as long as it is different and inferior to the one called for. When the charge was made last year it was because there was a shortage of supplies and it was so understood at the time.

HIS CLOTHING OF POWER.

As to the authority of the engineer to make changes, Mr. McWilliams did not agree that his power was an absolute one. This was contrary to reason. While the wording of his power is wide the intention is to give the engineer unrestricted power to make changes in details, but the engineer is not entitled to vastly change the contract. If so he might make the finish all sand or any other material he choose. Even the most liberal interpretation of his powers could not give him the absolute power attributed to him. It is preposterous to suppose that the engineer could substitute a gragravel finish if he desired to do so. The change made this year is a very material one. It may be a good pavement that has been laid but it is not the class of pavement the town bargained and paid for. The contractor is bound to fulfil his contract whether the inspector will allow him to do it in a different way or not. The presence of an inspector does not relieve the contractor.

THE OBJECTIONABLE WORK.

The speaker argued that the pavements as laid are inferior in two ways, too much sand and too little cement, basing his remarks on the evidence of Mr. Lawless. He argued that only 4 bags of cement was used instead of 4 1-2 as called for by the specifications, for every box of gravel used in the base of the pavements and also submitted that the objection to the use of Ensign cement was valid objection. The evidence of the Rathburn Co's agent was prejudiced. Mr. Belcher had also refused to allow the use of Ensign cement in the works.

ENSIGN CEMENT.

The use of 4 bags of Ensign cement with 27 cubic feet of gravel in the base of the pavement was not a fulfillment of the contract by Mr. Sheehy even if Mr. Hanney did allow it. The specifications call for 1 of cement with 6 of gravel. The use of a larger proportion of gravel was allowed last year because the better cement, the Star cement, was then used. Mr Sheehy's conduct there is deserving of the most severe censure. It was, said Mr. McWilliams, the most barefaced deception of Mr. Hay. The use of a lesser quantity of cement was conditional upon it being Star cement.

LITTLE GRAINS OF SAND.

Mr. McWilliams then took up the surface finish. He contended that the custom followed last year had no bearing on this year's case. The use of 2 or 3 feet of sand might have been desirable with with 9 feet of granite and with 4 1-2 of cement have fulfilled the contracts. But in the contracts there was added a shear of 6 or 7 extra feet of sand and 1 1-2 extra feet of cement. There is a large proportion of sand with a little cement in it running all through the work. There is about 38 per cent. of sand in the contractors pavements and about the same proportion of granite. This is not what the town contracted for. The specification limit the proportion of sand to 30 per cent. Mr. Belcher had stated in his evidence that the proportions carried out this year were not according to the specifications as he understood them. Mr. Greenwood had stated that if more than 27 or 28 per cent. of sand were used the mixture would be weakened thereby. The question of the merit of sand finish is not relative to the case. It is not what the town paid for. Mr. McWilliams referred to the overtures that had been spoken on Mr. Sheehy's contract, stating that the discovery of this inferior work was regarded as accidental. Ald. Deane and Sawers had

PETERBOROUGH, DECEMBER 6, 1899

A GREAT SCHEME

The Ottawa Citizen says that it is reported that the Canadian Pacific railway company is purchasing right of way for a canal up the French river from the Georgian Bay to Lake Nipissing, and that the construction of a twenty-foot waterway will be commenced in the spring. Also that large elevators will be erected at North Bay and the C.P.R. grain fleet will make a bid for the carriage of the American grain crop from the west to the seaboard

The distance from Lake Nipissing to the mouth of the French river is 69 miles, and the rise is 61 feet, divided among seven or eight falls or rapids the intervening stretches of river being wide and deep, so that it offers few obstacles to be overcome by a canal route which can be constructed at a comparatively low cost, considering the advantages to be gained.

Should the report prove correct, it will be a good thing for Peterborough, as it will be another move towards the diversion of the channel of trade from the lower lake route to the Trent Valley route.

BATTLE OF MODDER RIVER.

The fuller reports published concerning the battle of Modder River show the desperate character of the fighting and undoubted courage of the British troops in advancing against an enemy strongly entrenched and protected from the rifle fire of their opponents. General Methuen has been criticised for sending his men forward to meet certain destruction without seeming to have an adequate knowledge of the Boer forces or how they were placed. It must be remembered, however, that General Methuen is advancing to the relief of Kimberley, and that he must act quickly. The advance must be made at all hazards and at all costs. Still, it would seem as if a careful reconnoitering might have given him information which would have rendered a straight advance in the teeth of the enemy avoidable. All the battles fought so far have been of this character and the result in killed and wounded has been deplorable. The gallantry of the British infantry will answer almost any call made upon them, but it is asking too much to expect them in the three consecutive battles of Belmont, Graspan, and Modder River to attack a strongly entrenched army of Boer sharpshooters. So far as we can learn, in these three battles it has been the sheer bravery of the English troops that has carried them through. No attempt seems to have been made at strategical movements. The Boers seem to have used strategy and sorely to the disadvantage of the British.

CHAMBERLAIN AND FRANCE

Mr. Joseph Chamberlain may have been rude and wrong in his recent threat to France regarding Parisian dirt thrown at the Queen. But critics on this side the ocean may pause to reflect that they do not as yet know much about what the Parisians have been sayin, or how generally it has been said

Why should any part of the Paris press sling mud at the Queen anyway?

What has the Queen got to do with the Boer war, if the war is what worries them, or with Fashoda or any thing else that sticks in the Parisian crop?

Even the most hysterical and ignorant spouters in Paris must have reason to know where the personal and womanly sympathies of the Queen lie as regards war, and that when war comes despite her, she has no personal responsibility other than allowing herself, as her unavoidable duty calls upon her to do, to be the channel through which the orders of her people are promulgated.
